Pioneer High Income Trust

LETTER TO SHAREOWNERS 9/30/04

Dear Shareowner,

High energy prices and rising interest rates caused concern among investors during the third quarter of 2004. As oil prices touched \$50 per barrel for the first time, many consumers, faced with high priced gasoline and anticipating a winter of hefty heating bills, responded by holding back on spending. Consumers account for the bulk of the nation's economic activity, and retail sales over the summer were erratic. Beyond soaring energy costs, which have the effect of a tax increase on individuals and businesses, the slack job creation data of the last few months also undermined confidence in the economic outlook. The markets in general fell during the third quarter. Continued unsettled conditions in Iraq and the ever present specter of terrorism also weighed on

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

investors' minds. Overseas, global markets were fairly stable, after stumbling earlier in the year.

But the fuzzy economic picture was good news for bond investors. Despite three hikes in short-term interest rates, the first increases in four years, bond prices rose and yields fell over the period. Longer-term Treasury securities were the strongest performers, with corporate bonds, including high-yield issues, also delivering favorable returns. Lower long-term rates were also beneficial to the housing and mortgage industries. Behind the rally in bonds lies investor skepticism about the strength and durability of the current economic recovery. A slowing recovery leading to an easing of inflationary pressures may convince the Federal Reserve Board to slow the pace of future rate increases. Less inflation would also mean better real returns for bond holders.

Pioneer believes that the economy will continue to expand in 2005, but at a more measured tempo. After an extended period of cutting costs and bolstering balance sheets, many corporations are financially stronger than they have been in some time. And although short-term interest rates have risen, they are still relatively low and do not appear to be a barrier for companies needing to borrow for expansion. Equity valuations now appear better aligned with earnings prospects than was the case a year ago, when prices ran ahead of profit expectations. Therefore, steady but moderate expansion in corporate profits has the potential to drive stock prices higher.

As always, thank you for your investment in Pioneer High Income Trust.

Respectfully,

/s/ Osbert M. Hood

Performance data shown represents past performance. Past performance is no guarantee of future results. Investment return and market price will fluctuate, and your shares may trade below net asset value (NAV), due to such factors as interest rate changes, and the perceived credit quality of borrowers.

Total investment return does not reflect broker sales charges or commissions. All performance is for common shares of the Trust.

Closed end funds, unlike open-end funds, are not continuously offered. Once issued, shares of closed-end funds are sold in the open market through a stock

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

exchange and frequently trade at prices lower than their NAV. NAV is total assets less total liabilities and preferred shares divided by the number of common shares outstanding.

When NAV is lower than market price, dividends are assumed to be reinvested at the greater of NAV or 95% of the market price. When NAV is higher, dividends are assumed to be reinvested at market price.

The performance table and graph do not reflect the deduction of fees and taxes that a shareowner would pay on Trust distributions or the redemption of Trust shares.

Index comparison begins April 30, 2002. The Merrill Lynch High Yield Master II Index is a broad-based measure of the performance of the non-investment grade U.S. domestic bond market. Index returns are calculated monthly, assume reinvestment of dividends and, unlike Trust returns, do not reflect any fees, expenses or sales charges. You cannot invest directly in the Index.

PORTFOLIO MANAGEMENT DISCUSSION 9/30/04

As the U.S. economy expanded, corporate profits increased and the overall credit quality of corporate bonds strengthened during the six-month period ending September 30, 2004. During the same period, emerging market bonds also performed strongly, as an expanding global economy created strong demand for products such as raw materials. The following is an interview with Kenneth J. Taubes and Andrew Feltus, who discuss the performance of High Income Trust during the period. Mr. Taubes is director of the Pioneer's Fixed Income Group, and Mr. Feltus is a member of the team responsible for the daily management of the Trust.

Q: How did the Fund perform?

A: The Trust continued to perform well, benefiting from continued strength in the high-yield corporate and emerging-market bond markets. For the six months ended September 30, 2004, Pioneer High Income Trust had a total return of 4.29% at net asset value and 5.40% at market price, with a premium of market price-to-net asset value of 3.4% on September 30, 2004. The benchmark Merrill Lynch High Yield Master II Index returned 3.79% during the same six months. The Trust also delivered generous current income. On September 30, 2004, the SEC 30-day yield of High Income Trust was 10.78%.

Q: What was the investment environment like during the six months?

A: Supported by the accommodative monetary policy of the U.S. Federal Reserve, the U.S. economy continued to grow. Steady improvement in corporate capital spending became the primary driver of this expansion after a prolonged period in which persistent consumer spending had been the principal factor sustaining the economy. Finally, corporations began rebuilding depleted inventories and increasing investments for expansion. Gross domestic product in the United States grew at an annual rate of 3.3% during the second quarter of 2004 after growing at a rate of 4.5% in the first quarter. Outside the United States, vigorous growth in China helped stimulate other economies in Asia and in materials-rich regions such as Latin America.

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

While the Federal Reserve began to raise short-term interest rates in the United States gradually to diminish the chances of an over-heated economy sparking new inflationary pressures, inflation was

4

Pioneer High Income Trust

not a significant issue. Inflation remained modest when viewed from an historical perspective.

Q: What were the principal strategies during the period?

A: With a backdrop of strong economic growth, we tilted the portfolio toward the bonds of more cyclical companies, including those in the chemicals and materials industries. At the end of the period, 16.9% of Trust assets were invested in bonds from the industrials sector and 14.4% in the materials sector. We also saw opportunities in the telecommunications services industries, especially wireless service providers that were able to accelerate their earnings growth as they added new subscribers. We maintained strong exposure to the emerging markets, particularly in countries exporting raw materials such as oil, iron ore and copper, as well as to foreign nations such as Canada that benefited from rising prices of oils and basic materials. At the end of the six-month period, 65.5% of portfolio assets were invested in domestic high-yield securities and another 20% were invested in foreign markets, including about 10% in emerging markets such as Brazil and Russia.

We continued to be 26% leveraged and made no changes to this position. The spread between the short-term rate at which we borrow and the high-yield bonds in which we invest was still attractive and allowed us to generate greater income.

Q: What types of investments helped performance during the six months?

A: Our investments in the bonds of more cyclical companies proved particularly successful. Bonds of chemical companies Huntsman International and Lyondell performed particularly well. In the materials industries, bonds of mining company Freeport-McMoRan and steel companies CSN and Inland Steel. In the telecommunications services sector, several Sprint affiliates contributed, as did Mobil Telesystems of Russia and Mobilfon of Romania. The bonds of several European cable companies also helped, including NTL Cable of the United Kingdom and Kabel Deutschland of Germany. Within the shipping industry, investments that supported Trust performance included bonds of Ship Finance, based in Norway, CP Ships of Canada and Horizon Lines of the United States.

5

Pioneer High Income Trust

PORTFOLIO MANAGEMENT DISCUSSION 9/30/04

(continued)

Q: What types of investments detracted from performance?

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

A: Holding back performance were several investments in the airline industry. While airline revenues increased, the industry nevertheless struggled with higher energy prices that it could not pass along to its customers. Our investment in U.S. Air lost value when the company filed for bankruptcy protection. We believe, however, that our investment still had value, as it was backed by gate leases in Charlotte, N.C., and we retained the holding.

Q: What is your investment outlook?

A: We continue to be optimistic about the outlook for high-yield securities in an environment of economic expansion. As corporate profits increase, overall credit quality improves. It may be unrealistic, however, to expect significant price appreciation in the high yield bond market. While fundamentals are strong, the prices of many corporate securities are not cheap.

Up to this point, the Trust has had no difficulty paying its dividend. However, as business conditions continue to improve, more high-yield issuers can be expected to call back their existing bonds. When this happens, we may find that we are investing in lower-yielding bonds, which eventually could affect the Trust's dividend. Likewise, a strong economy would also lead to rising short-term rates, which would ultimately pressure the ability to pay the current dividend.

In this environment, we anticipate continuing to pay close attention to fundamental analysis and individual security selection and intend to avoid taking on undue risks.

Investments in high yield or lower-rated securities are subject to greater-than-average risk. When interest rates rise, the prices of fixed income securities in the Trust will generally fall. Conversely, when interest rates fall the prices of fixed income securities in the Trust will generally rise. When concentrating on one issuer, the portfolio is sensitive to changes in the value of these securities. Investments in the Trust are subject to possible loss due to the financial failure of underlying securities and their inability to meet their debt obligations.

Any information in this shareholder report regarding market or economic trends or the factors influencing the Trust's historical or future performance are statements of the opinion of Trust management as of the date of this report. These statements should not be relied upon for any other purposes. Past performance is no guarantee of future results, and there is no guarantee that market forecasts discussed will be realized.

The Trust's investment objective is a high level of current income. The Trust may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective. There can be no assurance that the Trust will achieve its investment objectives. Under normal market conditions, the Trust invests at least 80% of its assets (net assets plus borrowing for investment purposes) in below investment grade (high yield) debt securities, loans and preferred stocks. Because the Trust's investments will be concentrated in high yield securities, it will be subject to risks of such securities. Below investment grade securities are commonly referred to as "junk

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

bonds" and are considered speculative with respect to the issuer's capacity to pay interest and repay principal. They involve greater risk of loss, are subject to greater price volatility and are less liquid, especially during periods of economic uncertainty or change, than higher rated debt securities. Risks of the investing in the Trust are discussed in greater detail in the Trust's registrations statement on Form N-2 relating to its common shares, which was filed with the Securities and Exchange Commission on April 29, 2002.

The Trust's total return at net asset value for the six months ended September 30, 2004, after net expenses and dividends to the preferred shareowners, was 4.29%. The Trust's total return for the six months ended September 30, 2004 based on changes in market price was 5.40%.

* Net asset value and market value are published in Barron's on Saturday, The Wall Street Journal on Monday and The New York Times on Monday and Saturday.

** Annualized.

+ Net asset value immediately after the closing of the first public offering was \$14.30.

++ Total investment return is calculated assuming a purchase of common shares at the current market value on the first day and a sale at the current market value on the last day of the periods reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Trust's dividend reinvestment plan. Total investment return does not reflect brokerage commissions. Total investment returns less than a full period are not annualized. Past performance is not a guarantee of future results.

+++ Ratios do not reflect the effect of dividend payments to preferred shareowners.

The information above represents the operating performance data for a share of common stock outstanding, total investment return, ratios to average net assets of common shareowners and other supplemental data for the periods indicated. Pioneer High Income Trust

NOTES TO FINANCIAL STATEMENTS 9/30/04 (unaudited)

1. Organization and Significant Accounting Policies

Pioneer High Income Trust (the "Trust") was organized as a Delaware statutory trust on January 30, 2002. Prior to commencing operations on April 25, 2002, the Trust had no operations other than matters relating to its organization and registration as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, and the sale and issuance to Pioneer Investment Management, Inc. "PIM", the Trust's investment adviser, a wholly owned indirect subsidiary of UniCredito Italiano S.p.A. (UniCredito Italiano), of 6,981 shares of beneficial interest at an aggregate purchase price of \$100,003. The investment objective of the Trust is to seek a high level of current income and the Trust may seek capital appreciation to the extent that it is consistent with its investment objective.

The Trust invests in below investment grade (high yield) debt securities and preferred stocks. These high yield securities may be convertible into equity securities of the issuer. Debt securities rated below investment grade are commonly referred to as "junk bonds" and are considered speculative. These securities involve greater risk of loss, are subject to greater price volatility, and are less liquid, especially during periods of economic uncertainty or change, than higher rated debt securities.

The Trust's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America that require the management of the Trust to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income, and expenses and gains and losses on investments during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Trust in the preparation of its financial statements, which are consistent with those policies generally accepted in the investment company industry:

A. Security Valuation

Security transactions are recorded as of trade date. Securities are valued at the last sales price on the principal exchanges where

22

Pioneer High Income Trust

they are traded. Fixed income securities are valued at prices supplied by independent pricing services, which consider such factors as Treasury spreads, yields, maturities and ratings. Valuations may be supplemented by dealers and other sources, as required. Securities for which market quotations are not readily available are valued at their fair values as determined by, or under the direction of, the Board of Trustees. Trading in foreign securities is substantially completed each day at various times prior to the close of the New York Stock Exchange. The values of such securities used in computing the net asset value of the Trust's shares are determined

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

as of such times. The Trust may also use the fair value of a security, including a non-U.S. security when the closing market price on the primary exchange where the security is traded no longer accurately reflects the value of the security as of the close of the exchange. As of September 30, 2004 the Trust had no fair valued securities.

Dividend income is recorded on the ex-dividend date, except that certain dividends from foreign securities where the ex-dividend date may have passed are recorded as soon as the Trust becomes aware of the ex-dividend data in the exercise of reasonable diligence. Discount and premium on fixed income securities are accreted or amortized daily, respectively, on an effective yield to maturity basis and are included in interest income. Premiums and discounts related to certain mortgage-backed securities are amortized or accreted in proportion to the underlying monthly paydowns. Interest income, including income on interest bearing cash accounts, is recorded on an accrual basis. Temporary cash investments are valued at amortized cost.

The Trust's investments in foreign markets or countries with limited developing markets may subject the Trust to a greater degree of risk than in a developed market. These risks include disruptive political or economic conditions and the possible imposition of adverse governmental laws or currency exchange restrictions.

Gains and losses on sales of investments are calculated on the identified cost method for both financial reporting and federal income tax purposes.

23

Pioneer High Income Trust

NOTES TO FINANCIAL STATEMENTS 9/30/04 (unaudited)

(continued)

B. Foreign Currency Translation

The books and records of the Trust are maintained in U.S. dollars. Amounts denominated in foreign currencies are translated into U.S. dollars using current exchange rates.

Net realized gains and losses on foreign currency transactions represent, among other things, the net realized gains and losses on foreign currency contracts, disposition of foreign currencies and the difference between the amount of income accrued and the U.S. dollars actually received. Further, the effects of changes in foreign currency exchange rates on investments are not segregated in the statement of operations from the effects of changes in market price of those securities but are included with the net realized and unrealized gain or loss on investments.

C. Forward Foreign Currency Contracts

The Trust enters into forward foreign currency contracts (contracts) for the purchase or sale of a specific foreign currency at a fixed price on a future date as a hedge or cross-hedge against either specific investment transactions (settlement hedges) or portfolio positions (portfolio hedges). All contracts are marked to market daily at the applicable exchange rates, and any resulting unrealized gains or losses are recorded in the Trust's financial statements. The Trust records realized gains and losses at the time a portfolio hedge is offset by entry into a closing transaction or extinguished by delivery of the currency. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of the contract and from unanticipated movements in the value of

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

foreign currencies relative to the U.S. dollar (see Note 4).

D. Federal Income Taxes

It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net realized capital gains, if any, to its shareowners. Therefore, no federal income tax provision is required.

The amounts and characterizations of distributions to shareowners for financial reporting purposes are determined in accordance with

24

Pioneer High Income Trust

federal income tax rules. Therefore, the source of the Trust's distributions may be shown in the accompanying financial statements as either from or in excess of net investment income or net realized gain on investment and foreign currency transactions, or from paid-in capital, depending on the type of book/tax differences that may exist.

At March 31, 2004, the Trust had a net capital loss carryforward of \$704,168, which will expire on March 31, 2011 if not utilized.

The tax character of current year distributions paid will be determined at the end of the current fiscal year. The tax character of distributions paid to common and preferred shareowners during the year ended March 31, 2004 was as follows:

	2004
Distributions paid from:	
Ordinary Income	\$45,653,275
Net long-term capital gains	-

Total taxable distribution	\$45,653,275

The following shows components of distributable earnings on a federal income tax basis at March 31, 2004.

Undistributed ordinary income	\$ 2,324,461
Capital loss carryforward	(704,168)
Unrealized appreciation	53,172,715

Total	\$54,793,008

The difference between book/basis and tax-basis unrealized appreciation is primarily attributable to the tax deferral of losses on wash sales, the realization for tax purposes of unrealized gains on certain foreign currency contracts, differences in the accrual of income on securities in default and the difference between book and tax amortization methods for premiums and discounts on fixed income securities.

25

Pioneer High Income Trust

NOTES TO FINANCIAL STATEMENTS 9/30/04 (unaudited)

(continued)

E. Repurchase Agreements

With respect to repurchase agreements entered into by the Trust, the value of the underlying securities (collateral), including accrued interest received from counterparties, is required to be at least equal to or in excess of the repurchase agreement at the time of purchase. The collateral for all repurchase agreements is held in safekeeping in the customer-only account of the Trust's custodian, or subcustodians. PIM is responsible for determining that the value of the collateral remains at least equal to the repurchase price.

F. Securities Lending

The Trust lends securities in its portfolio to certain broker-dealers or other institutional investors, with the Trust's custodian acting as the lending agent. When entering into a loan, the Trust receives collateral which is maintained by the custodian and earns income in the form of negotiated lenders' fees. The Trust also continues to receive interest or payments in lieu of dividends on the securities loaned. Unrealized gain or loss on the fair value of the loaned securities that may occur during the term of the loan will be for the account of the Trust. The loans are secured by collateral of at least 102%, at all times, of the fair value of the securities loaned. The amount of the collateral will be adjusted daily to reflect any price fluctuation in the value of the loaned securities. The value of cash collateral at period end is disclosed on the statement of assets and liabilities. The Trust has the right under the securities lending arrangement to recover the securities on loan from the borrower on demand. The Trust invests cash collateral in the Securities Lending Investment Fund which is managed by Brown Brothers Harriman & Co., the Trust's custodian.

G. Automatic Dividend Reinvestment Plan

All common shareowners automatically participate in the Automatic Dividend Reinvestment Plan (the "Plan"), under which participants receive all dividends and capital gain distributions (collectively, "dividends") in full and fractional common shares of the Trust in lieu of cash. Shareowners may elect not to participate in the Plan. Shareowners not participating in the Plan receive all dividends and capital gain distributions in cash. Participation in the Plan is completely voluntary and may be terminated or resumed at any time by

26

Pioneer High Income Trust

notifying Mellon Investor Services LLC, the agent for shareowners in administering the Plan (the "Plan Agent"), prior to any dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Whenever the Trust declares a dividend on common shares payable in cash, participants in the Plan will receive the equivalent in common shares acquired by the Plan Agent either (i) through receipt of additional unissued but authorized common shares from the Trust or (ii) by purchase of outstanding common shares on the New York Stock Exchange or elsewhere. If, on the payment date for any dividend the net asset value per common share is equal to or less than the market price per share plus estimated brokerage trading fees ("market premium"), the Plan Agent will invest the dividend amount in newly issued common shares. The number of newly issued common shares to be credited to each account will be determined by dividing the dollar amount of the dividend by the net asset value per common share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance does not exceed 5%. If, on the payment date for any dividend, the net asset value per common share is greater than the market value ("market discount"), the Plan Agent will invest the dividend amount in common shares acquired in open-market purchases. There are no brokerage charges with respect to newly issued common shares. However, each participant will pay a pro rata share of brokerage trading fees incurred with respect to the Plan Agent's open-market purchases. Participating in the Plan does not relieve shareowners from any federal, state or local taxes, which may be due on dividends paid in any taxable year. Shareowners holding Plan shares in a brokerage account may not be able to transfer the shares to another broker and continue to participate in the Plan.

2. Management Agreement

PIM manages the Trust's portfolio. Management fees are calculated weekly at the annual rate of 0.60% of the Trust's average weekly managed assets. "Managed assets" is the average weekly value of the Trust's total assets minus the sum of the Trust's liabilities, which liabilities exclude debt related to leverage, short-term debt and the aggregate liquidation preference of any outstanding preferred shares.

27

Pioneer High Income Trust

NOTES TO FINANCIAL STATEMENTS 9/30/04 (unaudited)

(continued)

In addition, under PIM's management and administration agreements, certain other services and costs are paid by the Trust. PIM has retained Princeton Administrators, L.P., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, to provide certain administrative services to the Trust on its behalf. PIM pays Princeton Administrators, L.P., a monthly fee at an annual rate of 0.08% of the average weekly value of the Trust's managed assets, subject to a minimum monthly fee of \$10,000. Princeton Administrators, L.P. receives no compensation directly from the Trust.

3. Transfer Agents

Pioneer Investment Management Shareholder Services, Inc. ("PIMSS"), a wholly owned indirect subsidiary of UniCredito Italiano, through a sub-transfer agency agreement with Mellon Investor Services LLC, provides substantially all transfer agent and shareowner services related to the Trust's common shares at negotiated rates. Deutsche Bank Trust Company Americas is the transfer agent,

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

registrar, dividend paying agent and redemption agent with respect to the Trust's Auction Market Preferred Shares (AMPS). The Trust pays Deutsche Bank Trust Company Americas an annual fee, as is agreed to from time to time by the Trust and Deutsche Bank Trust Company Americas, for providing such services.

4. Forward Foreign Currency Contracts

During the six months ended September 30, 2004, the Trust had entered into contracts that obligate the Trust to deliver currencies at specified future dates. At the maturity of a contract, the Trust must make delivery of the foreign currency. Alternatively, prior to the settlement date of the portfolio hedge, the Trust may close out such contracts by entering into an offsetting hedge contract.

Open portfolio hedges at September 30, 2004 were as follows:

Currency	Net Contracts to Deliver	In Exchange For	Settlement Date	Value	Net Unrealized Loss
EURO	21,900,000	\$26,869,110	10/25/04	\$27,194,677	\$ (325,567)

As of September 30, 2004, the Trust had no outstanding forward currency settlement contracts.

28

Pioneer High Income Trust

5. Trust Shares

There are an unlimited number of common shares of beneficial interest authorized. Of the 26,796,886 common shares of beneficial interest outstanding at September 30, 2004 PIM owned 6,981 shares.

Transactions in common shares of beneficial interest for the six months ended September 30, 2004 and the year ended March 31, 2004 were as follows:

	9/04	3/04
Shares outstanding at beginning of period	26,768,347	26,674,075
Reinvestment of distributions	28,539	94,272
Shares outstanding at end of period	26,796,886	26,768,347

The Trust may classify or reclassify any unissued common shares of beneficial interest into one or more series of preferred shares of beneficial interest. As of September 30, 2004, there were 6,040 Auction Market Preferred Shares

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

("AMPS") as follows: Series M7-2,020, Series W28-2,020 and Series TH7-2,000.

Dividends on Series M7 AMPS and Series TH7 AMPS are cumulative at a rate which is reset every seven days based on the results of an auction. Dividends on Series W28 AMPS are also cumulative at a rate reset every 28 days based on the results of an auction. Dividend rates ranged from 1.03% to 1.94% during the six months ended September 30, 2004.

The Trust may not declare dividends or make other distributions on its common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred shares would be less than 200%.

The AMPS are redeemable at the option of the Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared. The AMPS are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Trust as set forth in the Agreement and Declaration of Trust are not satisfied.

29

Pioneer High Income Trust

NOTES TO FINANCIAL STATEMENTS 9/30/04 (unaudited)

(continued)

The holders of AMPS have voting rights equal to the holders of the Trust's common shares (one vote per share) and will vote together with holders of the common shares as a single class. However, holders of AMPS are also entitled to elect two of the Trust's Trustees. In addition, the Investment Company Act of 1940, as amended, requires that along with approval by shareowners that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares and (b) take any action requiring a vote of security holders, including, among other things, changes in the Trust's subclassification as a closed-end management investment company or changes in its fundamental investment restrictions.

6. Subsequent Events

Subsequent to September 30, 2004 the Board of Trustees of the Trust declared a dividend from undistributed net investment income of \$0.1375 per common share payable October 29, 2004, to shareowners of record on October 15, 2004.

For the period October 1, 2004 to October 31, 2004, dividends declared on preferred shares totaled \$216,765 in aggregate for the three outstanding preferred share series.

ADDITIONAL INFORMATION (unaudited)

During the period, there have been no material changes in the Trust's investment objective or fundamental policies that have not been approved by the shareowners. There have been no changes in the Trust's charter or By-Laws that would delay or prevent a change in control of the Trust which have not been approved by the shareowners. There have been no changes in the principal risk factors associated with investment in the Trust. There have been no changes in the persons who are primarily responsible for the day-to-day management of the Trust's portfolio.

Notice is hereby given in accordance with Section 23(c) of the Investment

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

Company Act of 1940 that the Trust may purchase, from time to time, its common shares in the open market.

ITEM 2. CODE OF ETHICS.

(a) Disclose whether, as of the end of the period covered by the report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party. If the registrant has not adopted such a code of ethics, explain why it has not done so.

The registrant has adopted, as of the end of the period covered by this report, a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer and controller.

(b) For purposes of this Item, the term "code of ethics" means written standards that are reasonably designed to deter wrongdoing and to promote:

(1) Honest and ethical conduct, including the ethical handling of actual

or apparent conflicts of interest between personal and professional relationships;

(2) Full, fair, accurate, timely, and understandable disclosure in reports and documents that a registrant files with, or submits to, the Commission and in other public communications made by the registrant;

(3) Compliance with applicable governmental laws, rules, and regulations;

(4) The prompt internal reporting of violations of the code to an appropriate person or persons identified in the code; and

(5) Accountability for adherence to the code.

(c) The registrant must briefly describe the nature of any amendment, during the period covered by the report, to a provision of its code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, and that relates to any element of the code of ethics definition enumerated in paragraph (b) of this Item. The registrant must file a copy of any such amendment as an exhibit pursuant to Item 10(a), unless the registrant has elected to satisfy paragraph (f) of this Item by posting its code of ethics on its website pursuant to paragraph (f)(2) of this Item, or by undertaking to provide its code of ethics to any person without charge, upon request, pursuant to paragraph (f)(3) of this Item.

The registrant has made no amendments to the code of ethics during the period covered by this report.

(d) If the registrant has, during the period covered by the report, granted a waiver, including an implicit waiver, from a provision of the code of ethics to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party, that relates to one or more of the items set forth in paragraph (b) of this Item, the registrant must briefly describe the nature of the waiver, the name of the person to whom the waiver was granted, and the date of the waiver.

Not applicable.

(e) If the registrant intends to satisfy the disclosure requirement under paragraph (c) or (d) of this Item regarding an amendment to, or a waiver from, a provision of its code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions and that relates to any element of the code of ethics definition enumerated in paragraph (b) of this Item by posting such information on its Internet website, disclose the registrant's Internet address and such intention.

Not applicable.

(f) The registrant must:

(1) File with the Commission, pursuant to Item 10(a), a copy of its code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, as an exhibit to its annual report on this Form N-CSR;

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

(2) Post the text of such code of ethics on its Internet website and disclose, in its most recent report on this Form N-CSR, its Internet address and the fact that it has posted such code of ethics on its Internet website; or

(3) Undertake in its most recent report on this Form N-CSR to provide to any person without charge, upon request, a copy of such code of ethics and explain the manner in which such request may be made.
See Item 10(2)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

- (a) (1) Disclose that the registrant's board of trustees has determined that the registrant either:
- (i) Has at least one audit committee financial expert serving on its audit committee; or
 - (ii) Does not have an audit committee financial expert serving on its audit committee.

The registrant's Board of Trustees has determined that the registrant has at least one audit committee financial expert.

(2) If the registrant provides the disclosure required by paragraph (a)(1)(i) of this Item, it must disclose the name of the audit committee financial expert and whether that person is "independent." In order to be considered "independent" for purposes of this Item, a member of an audit committee may not, other than in his or her capacity as a member of the audit committee, the board of trustees, or any other board committee:

- (i) Accept directly or indirectly any consulting, advisory, or other compensatory fee from the issuer; or
- (ii) Be an "interested person" of the investment company as defined in Section 2(a)(19) of the Act (15 U.S.C. 80a-2(a)(19)).

Ms. Marguerite A. Piret, an independent trustee, is such an audit committee financial expert.

(3) If the registrant provides the disclosure required by paragraph (a)(1)(ii) of this Item, it must explain why it does not have an audit committee financial expert.

Not applicable.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) Disclose, under the caption AUDIT FEES, the aggregate fees billed for each of the last two fiscal years for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years.

N/A

(b) Disclose, under the caption AUDIT-RELATED FEES, the aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item. Registrants shall describe the nature of the

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

services comprising the fees disclosed under this category.

N/A

(c) Disclose, under the caption TAX FEES, the aggregate fees billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning. Registrants shall describe the nature of the services comprising the fees disclosed under this category.

N/A

(d) Disclose, under the caption ALL OTHER FEES, the aggregate fees billed in each of the last two fiscal years for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item. Registrants shall describe the nature of the services comprising the fees disclosed under this category.

N/A

(e) (1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c) (7) of Rule 2-01 of Regulation S-X.

PIONEER FUNDS

APPROVAL OF AUDIT, AUDIT-RELATED, TAX AND OTHER SERVICES PROVIDED BY THE INDEPENDENT AUDITOR

SECTION I - POLICY PURPOSE AND APPLICABILITY

The Pioneer Funds recognizes the importance of maintaining the independence of their outside auditors. Maintaining independence is a shared responsibility involving Pioneer Investment Management, Inc ("PIM"), the audit committee and the independent auditors.

The Funds recognizes that a Fund's independent auditors: 1) possess knowledge of the Funds, 2) are able to incorporate certain services into the scope of the audit, thereby avoiding redundant work, cost and disruption of Fund personnel and processes, and 3) have expertise that has value to the Funds. As a result, there are situations where it is desirable to use the Fund's independent auditors for services in addition to the annual audit and where the potential for conflicts of interests are minimal. Consequently, this policy, which is intended to comply with Rule 210.2-01(C) (7), sets forth guidelines and procedures to be followed by the Funds when retaining the independent audit firm to perform audit, audit-related tax and other services under those circumstances, while also maintaining independence.

Approval of a service in accordance with this policy for a Fund shall also constitute approval for any other Fund whose pre-approval is required pursuant to Rule 210.2-01(c) (7) (ii).

In addition to the procedures set forth in this policy, any non-audit services that may be provided consistently with Rule 210.2-01 may be approved by the Audit Committee itself and any pre-approval that may be waived in accordance with Rule 210.2-01(c) (7) (i) (C) is hereby waived.

Selection of a Fund's independent auditors and their compensation shall be determined by the Audit Committee and shall not be subject to this policy.

(f) If greater than 50 percent, disclose the percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees.

N/A

(g) Disclose the aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant.

The Fund's independent auditor, Ernst & Young LLP ("E&Y"), recently has advised the Securities and Exchange Commission, the Public Company Accounting Oversight Board, and the Audit Committee of the Fund's Board of Trustees that certain non-audit work performed by E&Y's China affiliate has raised questions regarding E&Y's independence with respect to its performance of audit services for the Fund. In July 2004, E&Y became aware that member firms in China ("E&Y China") provided certain tax services to offices of UniCredito Italiano, S.p.A. ("UCI"), a member of the Fund's Investment Company Complex. The services included receipt and disbursement of monies transferred to E&Y China by UCI in payment of individual expatriate income taxes due on returns prepared by E&Y China for certain UCI employees located in China from October 1998 to May 2003. E&Y became auditors of the Fund in May 2002. These expatriate tax services were discontinued in May 2003. The fees received by E&Y China for all such services totaled \$3,685.

The Fund's Audit Committee and E&Y have discussed the matter, including the nature of the services provided, the personnel involved in providing the services and the fees received by E&Y for performing the services. The Committee continues to review the facts and circumstances

Edgar Filing: PIONEER HIGH INCOME TRUST - Form N-CSR

surrounding the matter, including the issue of whether the monies transferred for employees' taxes were de facto monies due the employees for tax payments rather than monies belonging to UCI. E&Y has informed the Audit Committee that based on its internal reviews and the de minimis nature of the services provided and fees received, it does not believe its independence with respect to the Fund has been impaired.

(h) Disclose whether the registrant's audit committee of the board of trustees has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.
