Section 1 – Registrant’s Business and Operations

Item 1.02. Termination of a Material Definitive Agreement.

On December 7, 2016, CIT Financial Ltd. (“CFL”), a wholly-owned indirect subsidiary of CIT Group Inc. (the “Company”), entered into a Fourth Amended and Restated Confirmation (the “Termination Agreement”) with Goldman Sachs International (“GSI”), a company organized under the laws of England and Wales, to terminate the \$1.5 billion total return swap facility (the “Canadian TRS Facility”), evidenced by that certain 1992 ISDA Master Agreement (Multicurrency – Cross Border), dated as of June 6, 2008, by and among GSI and CFL (as amended, modified or supplemented from time to time, including by (i) that certain Amended and Restated Schedule to the ISDA Master Agreement, dated as of October 25, 2011, (ii) that certain Credit Support Annex to the Schedule to the Master Agreement, dated as of June 6, 2008, and (iii) that certain Third Amended and Restated Confirmation, dated June 28, 2012, and collectively, the “ISDA”).

Under the Termination Agreement, the Canadian TRS Facility will terminate on March 31, 2017, or such earlier date designated by CFL upon five business days’ prior notice delivered to GSI on or after January 2, 2017.

The Canadian TRS Facility is a financing facility structured as a total return swap, under which the unutilized portion available for advances is accounted for as a derivative and recorded at its estimated fair value. At September 30, 2016, a total of approximately \$440 million was utilized under the Canadian TRS Facility and approximately \$1.1 billion of the Canadian TRS Facility was unutilized. The utilized portion of the Canadian TRS Facility consisted entirely of assets related to a commercial aircraft securitization transaction.

In order to prepare for the previously announced sale of the Company’s commercial aircraft leasing business to Avolon Holdings Limited, CIT will redeem the commercial aircraft securitization transaction currently utilized as a reference obligation in the Canadian TRS Facility, causing the Canadian TRS Facility to become fully unutilized. After an evaluation of various alternatives and in connection with the Company’s continued transformation to a commercial bank model, the Company now expects the facility to remain unutilized for its remaining life. As a result, the Company and its Board of Directors have decided to terminate the Canadian TRS Facility in order to further simplify the Company’s business model and reduce earnings volatility resulting from the mark-to-market of the Canadian TRS Facility.

The Termination Agreement requires payment by CFL to GSI on December 7, 2016, of the present value of the remaining facility fee in an amount equal to approximately \$280 million. The termination fee and the reduction of the liability associated with the Canadian TRS Facility derivative of approximately \$37 million at September 30, 2016, will result in a net pretax charge for the Company of approximately \$245 million in the fourth quarter of 2016. The impact of this net charge to the Company’s capital ratio is a reduction of approximately 0.30%.

As a result of the Termination Agreement, the unsecured counterparty receivable held by GSI under the Canadian TRS Facility will be released and, therefore, the Company expects the Termination Agreement to have a minimal impact on its available liquidity.
