Sidebar text: "WHILE NO ONE KNOWS WHAT THE FUTURE WILL BRING, WE THINK A WELL-BALANCED PORTFOLIO IS AN IMPORTANT COMPONENT IN ACHIEVING YOUR LONG-TERM FINANCIAL GOALS."

Dear

SHAREHOLDER

Once again, I am pleased to report that over the most recent reporting period your California Fund continued to provide you with attractive tax-free monthly income and the opportunity for increased portfolio diversification. For more specific information about the performance of your Fund, please see the Portfolio Managers' Comments and Performance Overview sections of this report.

With interest rates at historically low levels, many investors have begun to wonder whether interest rates will rise, and whether that possibility should cause them to adjust their fixed-income holdings. While no one knows what the future will bring, we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an important component in achieving your long-term financial goals. A well-diversified portfolio may actually help to reduce your overall investment risk. We believe municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio crafted to perform well through a variety of market conditions.

I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Nuveen California Municipal Closed-End Exchange-Traded Funds
(NPC, NCL, NCU, NAC, NVX, NZH, NKL, NKX)

Portfolio Managers'
COMMENTS

Portfolio managers Tom O'Shaughnessy, Bill Fitzgerald, and Scott Romans discuss economic and market conditions, key investment strategies, and the annual performance of the Funds. Tom, a 20-year veteran of Nuveen, assumed portfolio management responsibility for NPC and NCL in January 2003. With 15 years of

investment experience at Nuveen, Bill has managed NCU since 1998, NAC since 1999, NVX and NZH since 2001, and NKL and NKX since their inceptions in 2002. Scott, who has three years of investment experience at Nuveen, joined Bill in managing these six Funds in January 2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE TWELVE MONTH PERIOD ENDED AUGUST 31, 2003?

As has been the case for some time, we believe the two greatest influences on the general economy and the municipal market continued to be historically low interest rates and the slow pace of economic growth. In June 2003, the Federal Reserve cut the fed funds rate to 1.0%, its lowest level since 1958. Growth during the first half of 2003, as measured by the GDP, registered 2.3%, lagging the 3% pace considered by many to be indicative of recovery. At the same time, inflation remained dormant, with the 12-month advance in the core rate dropping to 1.3% in August.

The slow rate of economic recovery, low interest rates, and lack of inflationary pressures created conditions that helped many municipal bonds perform well during the majority of this reporting period. However, during July 2003, stronger-than-expected economic data precipitated a spike in bond yields and a corresponding drop in bond prices that impacted results across all fixed-income markets.

During the first eight months of 2003, the states and municipalities followed up the record issuance of 2002 with continued strong supply, issuing \$254 billion in new bonds, up 12.5% over the same period in 2002.

HOW WERE ECONOMIC AND MARKET CONDITIONS IN CALIFORNIA?

Over the 12-months ended August 31, 2003, California continued to struggle with significant budget problems and political uncertainty. On July 29, 2003, nearly a month into its 2004 fiscal year, the state budget was finally approved, closing a \$38 billion deficit. Due to the heavy reliance on borrowing and one-time measures to balance the fiscal 2004 budget, California is expected to face an additional \$8 billion deficit in fiscal 2005. The governor recall election added further uncertainty to California's outlook during the reporting period.

While employment and real estate values remained relatively stable in Southern California, the San Francisco area continued to be the state's weak spot, suffering from lingering effects of the technology downturn. Although some economic data provided a glimmer of hope for the state's tech-related jobs, the consensus was that any meaningful improvement in California's employment market, especially technology, was not expected until 2004.

During the first eight months of 2003, municipal new issue supply in the state totaled \$42 billion, up 56% over the same period in 2002. However, the delays in budget approval, the size of the deficit, and the uncertainty created by the recall effort also led to several downgrades of California's general obligation debt over the twelve months ended August 31, 2003. In December 2002, Standard & Poor's cut the state's credit rating to A from A+, while Moody's followed suit in February 2003, lowering the rating to A2. In July 2003, Moody's and S&P again downgraded the state, to A3/BBB from A2/A, respectively.

For additional information, see the individual Performance Overview for your Fund in this report.

For the 12-months ended August 31, 2003, all of the Funds in this report with at least one year of performance history (with the exception of NCU) outperformed their respective Lipper peer group averages. In addition, NPC, NCL, and NKL also outperformed the unleveraged Lehman Brothers California Insured Tax-Exempt Bond Index, and NAC and NVX outperformed the Lehman California index, with NZH lagging the uninsured index by a small margin.

In general over this period, the performance of most of the Funds were helped by longer durations.⁴ During periods of declining interest rates, such as that we experienced over the majority of the past reporting period, investments with longer durations generally would have been expected to outperform those with shorter durations. However, as bond yields jumped higher in late June and July, longer durations worked to hamper the Funds' performances, especially in NZH. Another factor in the performance of these Funds in comparison with the Lehman California indexes over this period was their use of leverage, a strategy that can provide the opportunity for additional income for common shareholders, especially during periods of low short-term interest rates.

In addition to duration and leverage, factors such as call exposure, portfolio trading activity, and the price movement of specific sectors and holdings also had an impact on the Funds' performances during this period. For example, all four of the uninsured Funds held bonds backed by the 1998 master tobacco settlement agreement. Over the year ended August 31, 2003, the prices of these bonds weakened. The negative returns affected the NCU, NVX, and NZH in particular. NAC was protected to a degree from these declines by its relatively lower exposure to this sector. In recent months, tobacco bonds have shown some

recovery. Our strategy continues to be one of maintaining these holdings while regularly evaluating the situation.

- 1 The total annual returns on common share net asset value (NAV) for the insured NPC, NCL, and NKL are compared with the total annual return of the Lehman Brothers California Insured Tax-Exempt Bond Index, an unleveraged, unmanaged index comprising a broad range of insured California municipal bonds, while annual returns for the uninsured NCU, NAC, NVX, and NZH are compared with the total annual return of the Lehman California Tax-Exempt Bond Index, an unleveraged, unmanaged index comprising a broad range of investment-grade California municipal bonds. Results for the Lehman indexes do not reflect any expenses.
- 2 The total returns of the insured California Funds are compared with the average annualized return of the 10 funds in the Lipper California Insured Municipal Debt Funds category, while the total returns of the uninsured California Funds are compared with the return of the 28 funds in the Lipper California Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment other than an alternative investment that generates qualified dividend income that is taxable at the maximum rate of 15%, in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a combined federal and state income tax rate of 34.5%.
- 4 Duration is a measure of a fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the fund. References to duration in this commentary are intended to indicate fund duration unless otherwise noted.

3

NCU also held bonds issued for Downey Community Hospital, which declined following a downgrade to BB+ from BBB+ by Standard & Poor's in February 2003 due to poor management of managed care and physician contracts. Although the hospital had been slow to respond to declining operations, the downgrade spurred management to make staff changes and implement operating improvements. We continue to hold these bonds based on our belief that the S&P rating is too low and that the hospital has sufficient balance-sheet liquidity to provide time and resources for a turnaround. NCU's performance over this period was also negatively impacted by the Fund's need to reinvest called bond proceeds at today's relatively lower interest rates.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at historically low levels, the dividend-payment capabilities of the Funds benefited from their use of leverage. During the 12-months ended August 31, 2003, the continued low level of short-term rates enabled us to implement two dividend increases in NPC, NCL, and NAC and one each in NCU and NVX. Leverage also helped to support the dividends of NZH and NKL, which, as of August 2003, had paid shareholders dependable, attractive dividends for 22 and 16 consecutive months, respectively. NKX, which

was introduced in November 2002, declared its first dividend in January 2003 and continued to pay steady dividends over the course of this reporting period.

Although the share prices and net asset values of these Funds generally performed well during much of this 12-month reporting period, increased volatility in the fixed-income markets during the summer of 2003 as well as continued budgetary and political turmoil in California led to an overall weakening of prices. While we began to see some recovery in August as municipal supply thinned somewhat, the Funds' share prices and NAVs finished this reporting period lower than they had been at the beginning. As of August 31, 2003, all of the Funds with at least one year of history continued to trade at discounts to their common share NAVs, while NKX had moved to trading at a slight discount (see charts on individual Performance Overview pages).

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE FISCAL YEAR ENDED AUGUST 31, 2003?

Over this 12-month period, we continued to place strong emphasis on diversifying the portfolios, improving call protection, and enhancing dividend-paying capabilities. One of our key strategies focused on managing the Funds' durations in order to enhance our ability to mitigate interest rate risk and produce potentially more consistent returns over time. Interest rate risk is the risk that the value of a Fund's portfolio will decline when market interest rates rise. The longer the duration of a Fund's portfolio, the greater its interest rate risk. Over the course of the reporting period, we concentrated on finding value in the intermediate part of the yield curve.

In NKL and NKX, which were introduced in 2002, we expanded our search further out on the yield curve to find additional bonds that would help to support the dividends of the two newest Funds. This has resulted in longer durations for both NKL (15.13) and NKX (16.98). Over the past few months, we have been swapping bonds with the goal of maintaining the yields of these Funds while reducing their durations.

4

Over the six months ended August 31, 2003, another key strategy centered on selling or purchasing California general obligation bonds (GOs) to take advantage of general market moves. In early spring 2003, the yield differential between California GOs and national AAA credits with similar maturities had narrowed to 35-40 basis points. We believed this made California GOs relatively expensive and we largely moved the Funds out of positions in California GOs. By June 2003, as the state's budget process stalled and the recall movement gathered strength, the yield differential had widened, and we began buying California GOs. Following the approval of the fiscal 2004 budget at the end of July 2003, California GOs rallied on a relative basis. As the yield spread with national bonds once again narrowed, we began to sell some of these GO positions at what we believed were attractive prices.

WHAT IS YOUR OUTLOOK FOR THE BOND CALLS FOR THESE FUNDS?

The five newer Funds will not experience any significant call exposure for several years, with potential call exposure during 2003 and 2004 ranging from zero in NVX to 5% in NKX. During this reporting period, we worked to mitigate the call risk of the three older Funds, especially NCL and NCU, which marked their 10-year anniversaries in 2003, a point in a Fund's life cycle often associated with increased bond calls. As of August 31, 2003, NPC's potential

call exposure through 2004 was 12%, while NCL and NCU faced potential calls on 13% and 17% of their portfolios, respectively. The number of actual calls in these Funds will depend largely on market interest rates in coming months.

In general, we believe that these Nuveen Funds can continue to serve as attractive sources of tax-free income, while simultaneously offering the potential for considerable portfolio diversification. In our opinion, these Funds represent a quality component of a well-balanced core investment portfolio that can continue to benefit shareholders over time.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The California Funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Insured California Premium Income Municipal Fund, Inc. (NPC), Nuveen Insured California Premium Income Municipal Fund 2, Inc. (NCL), Nuveen California Premium Income Municipal Fund (NCU), Nuveen California Dividend Advantage Municipal Fund (NAC), Nuveen California Dividend Advantage Municipal Fund 2 (NVX), Nuveen California Dividend Advantage Municipal Fund 3 (NZH), Nuveen Insured California Dividend Advantage Municipal Fund (NKL) and Nuveen Insured California Tax-Free Advantage Municipal Fund (NKX). Common shares of Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL) and California Dividend Advantage (NAC) are traded on the New York Stock Exchange while Common shares of California Premium Income (NCU), California Dividend Advantage 2 (NVX), California Dividend Advantage 3 (NZH), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Prior to the commencement of operations of California Dividend Advantage 3 (NZH), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 per Fund by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. (formerly, The John Nuveen Company), and the recording of the organization expenses (\$11,500 per Fund) and their reimbursement by Nuveen Investments, LLC (formerly, Nuveen Investments), also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide current income exempt from both regular federal and

California state income taxes, and in the case of Insured California Tax-Free Advantage (NKX) the alternative minimum tax applicable to individuals, by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within the state of California.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At August 31, 2003, Insured California Premium Income (NPC), Insured California Premium Income 2 (NCL), California Premium Income (NCU), California Dividend Advantage (NAC), California Dividend Advantage 2 (NVX), California Dividend Advantage 3 (NZH) and Insured California Dividend Advantage (NKL) had outstanding when-issued and delayed delivery purchase commitments of \$9,684,494, \$20,891,454, \$1,574,025, \$9,236,901, \$3,629,077, \$9,568,446, and \$6,897,184, respectively. There were no such outstanding purchase commitments in Insured California Tax-Free Advantage (NKX).

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable

Edgar Filing: NUVEEN INSURED CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

interest from municipal securities, which is exempt from regular federal and California state income taxes, and in the case of Insured California Tax-Free Advantage (NKX) the alternative minimum tax applicable to individuals, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended August 31, 2003, have been designated Exempt Interest Dividends.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by series and in total, for each Fund is as follows:

FINANCIAL STATEMENTS (continued)

Insurance

Insured California Premium Income (NPC) and Insured California Premium Income 2 (NCL) invest in municipal securities which are either covered by insurance or are backed by an escrow or trust account containing sufficient U.S. Government or U.S. Government agency securities, both of which ensure the timely payment of principal and interest.

Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) invest at least 80% of their net assets (including net assets applicable to Preferred shares) in municipal securities that are covered by insurance. Each Fund may also invest up to 20% of its net assets (including net assets applicable to Preferred shares) in municipal securities which are either (i) backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, or (ii) municipal bonds that are rated, at the time of investment, within the four highest grades (Baa or BBB or better by Moody's, S&P or Fitch) or unrated but judged to be of comparable quality by the Adviser.

Each insured municipal security is covered by Original Issue Insurance, Secondary Market Insurance or Portfolio Insurance. Such insurance does not guarantee the market value of the municipal securities or the value of the Funds' Common shares. Original Issue Insurance and Secondary Market Insurance remain in effect as long as the municipal securities covered thereby remain outstanding and the insurer remains in business, regardless of whether the Funds ultimately dispose of such municipal securities. Consequently, the market value of the municipal securities covered by Original Issue Insurance or Secondary Market Insurance may reflect value attributable to the insurance. Portfolio Insurance is effective only while the municipal securities are held by the Funds. Accordingly, neither the prices used in determining the market value of the underlying municipal securities nor the Common share net asset value of the Funds include value, if any, attributable to the Portfolio Insurance. Each policy of the Portfolio Insurance does, however, give the Funds the right to obtain permanent insurance with respect to the municipal security covered by the Portfolio Insurance policy at the time of its sale.

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the fiscal year ended August 31, 2003.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments, LLC has agreed to pay all Common share offering costs (other than the sales load) that exceed \$.03 per Common share for California Dividend Advantage 3 (NZH), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX). California Dividend Advantage 3's (NZH), Insured California Dividend Advantage's (NKL) and Insured California Tax-Free Advantage's (NKX) share of Common share offering costs (\$551,264, \$447,886 and \$176,250, respectively) were recorded as a reduction of the proceeds from the sale of Common shares.

Costs incurred by California Dividend Advantage 3 (NZH), Insured California Dividend Advantage (NKL) and Insured California Tax-Free Advantage (NKX) in connection with their offering of Preferred shares (\$2,137,378, \$1,370,824 and \$1,044,953, respectively) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under Insured California Premium Income's (NPC), Insured California Premium Income 2's (NCL) and California Premium Income's (NCU) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For the next \$3 billion	.5875
For net assets over \$5 billion	.5750

Under California Dividend Advantage's (NAC), California Dividend Advantage 2's (NVX), California Dividend Advantage 3's (NZH), Insured California Dividend Advantage's (NKL) and Insured California Tax-Free Advantage (NKX) investment management agreements with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For net assets over \$2 billion	.5750

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser.

Build Your Wealth
AUTOMATICALLY

SIDEBAR TEXT: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

POLICY CHANGE

On November 14, 2002, the Board adopted a policy that allows each Fund, in addition to investments in municipal bonds, to invest up to 5% of its net assets (including assets attributable to preferred shares, if any) in tax-exempt or taxable fixed-income securities or equity securities for the purpose of acquiring control of an issuer whose municipal bonds (a) the Fund already owns and (b) have deteriorated or are expected shortly to deteriorate significantly in credit quality, provided Nuveen Advisory determines that such investment should enable the Fund to better maximize the value of its existing investment in such issuer. This policy is a non-fundamental policy of each Fund which means that it can be changed at any time by the Board of Directors without vote of the shareholders.

GLOSSARY OF TERMS USED IN THIS REPORT

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

Average Effective Maturity: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

Leverage-Adjusted Duration: Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Taxable-Equivalent Yield: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the fiscal year ended August 31, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.

Serving Investors
FOR GENERATIONS

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions. For the past century, Nuveen Investments has adhered to the belief that the best approach to investing is to apply conservative risk-management principles to help minimize volatility.

Building on this tradition, we today offer a range of high quality equity and fixed-income solutions that are integral to a well-diversified core portfolio. Our clients have come to appreciate this diversity, as well as our continued adherence to proven, long-term investing principles.

Managing \$90 billion in assets, Nuveen Investments offers access to a number of different asset classes and investing solutions through a variety of products. Nuveen Investments markets its capabilities under four distinct brands: Nuveen, a leader in tax-free investments; NWQ, a leader in value-style equities; Rittenhouse, a leader in growth-style equities; and Symphony, a leading institutional manager of market-neutral alternative investment portfolios.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at www.nuveen.com/etf.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors has determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its audit committee. The registrant's audit committee financial expert is William E. Bennett, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer for First Chicago Corp./First National Bank. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set the level of reserves against the credit portfolio and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients. Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable at this time.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable at this time.

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, Nuveen Advisory Corp. (the "Adviser") would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 206(4)-6, reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. [RESERVED]

ITEM 9. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 10. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because posted on registrant's website at www.nuveen.com/etf

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b))), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
