Chairman's  
Letter to Shareholders

Dear Shareholders,

In recent months the positive atmosphere in financial markets has reflected efforts by central banks in the U.S. and Europe to provide liquidity to the financial system and keep interest rates low. At the same time, future economic growth in these countries still faces serious headwinds in the form of high energy prices, uncertainties about potential political leadership changes and increasing pressure to reduce government spending regardless of its impact on the economy. Together with the continuing political tensions in the Middle East, investors have many reasons to remain cautious.

Though progress has been painfully slow, officials in Europe have taken important steps to address critical issues. The European Central Bank has provided vital liquidity to the banking system. Similarly, officials in the Euro area finally agreed to an enhanced "firewall" of funding to deal with financial crises in member countries. These steps, in addition to the completion of another round of financing for Greece, have eased credit conditions across the continent. Several very significant challenges remain with the potential to derail the recent progress but European leaders have demonstrated political will and persistence in dealing with their problems.

In the U.S., strong corporate earnings and continued progress on job creation have contributed to a rebound in the equity market and many of the major stock market indexes are approaching their levels before the financial crisis. The Fed's commitment to an extended period of low interest rates is promoting economic growth, which remains moderate but steady and raises concerns about the future course of long term rates once the program ends. Pre-election maneuvering has added to the highly partisan atmosphere in the Congress. The end of the Bush-era tax cuts and implementation of the spending restrictions of the Budget Control Act of 2011, both scheduled to take place at year-end, loom closer with little progress being made to deal with them.

During the last year, investors have experienced a sharp decline and a strong recovery in the equity markets. Experienced investment teams keep their eye on a longer time horizon and use their practiced investment disciplines to negotiate through market peaks and valleys to achieve long term goals for investors. Monitoring this process is an important consideration for the Fund Board as it oversees your Nuveen funds on your behalf.

As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner  
Chairman of the Board  
May 18, 2012

## Portfolio Managers' Comments

Nuveen Select Tax-Free Income Portfolio (NXP)  
Nuveen Select Tax-Free Income Portfolio 2 (NXQ)  
Nuveen Select Tax-Free Income Portfolio 3 (NXR)  
Nuveen California Select Tax-Free Income Portfolio (NXC)  
Nuveen New York Select Tax-Free Income Portfolio (NXN)

Portfolio managers Tom Spalding and Scott Romans examine economic and municipal market conditions at the national and state levels, key investment strategies and the twelve-month performance of the Nuveen Select Portfolios. With 36 years of investment experience, Tom has managed the three national Portfolios since 1999. Scott, who joined Nuveen in 2000, has managed NXC since 2003 and NXN since January 2011.

What factors affected the U.S. economy and municipal market during the twelve-month reporting period ended March 31, 2012?

During this period, the U.S. economy's progress toward recovery from recession remained moderate. The Federal Reserve (Fed) maintained its efforts to improve the overall economic environment by continuing to hold the benchmark fed funds rate at the record low level of zero to 0.25% that it had established in December 2008. At its April 2012 meeting (after the end of this reporting period), the central bank affirmed its opinion that economic conditions would likely warrant keeping this rate at "exceptionally low levels" at least through late 2014. The Fed also stated that it would continue its program to extend the average maturity of its holdings of U.S. Treasury securities by purchasing \$400 billion of these securities with maturities of six to thirty years and selling an equal amount of U.S. Treasury securities with maturities of three years or less. The goals of this program, which the Fed expects to complete by the end of June 2012, are to lower longer-term interest rates, support a stronger economic recovery and help ensure that inflation remains at levels consistent with the Fed's mandates of maximum employment and price stability.

In the first quarter of 2012, the U.S. economy, as measured by the U.S. gross domestic product (GDP), grew at an annualized rate of 2.2%, marking eleven consecutive quarters of positive growth. The Consumer Price Index (CPI) rose 2.7% year-over-year as of March 2012, while the core CPI (which excludes food and energy) increased 2.3% during the

The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below-investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.

same period, edging above the Fed's unofficial objective of 2.0% or lower for this inflation measure. Labor market conditions have shown some signs of improvement, as national unemployment stood at 8.2% in March 2012, the lowest level since January 2009, down from 8.9% in March 2011. The housing market continued to be the major weak spot in the economy. For the twelve months ended February 2012 (most recent data available at the time this report was prepared), the average home price in the Standard & Poor's (S&P)/Case-Shiller Index of 20 major metropolitan areas lost 3.5%, as housing prices hit their lowest levels since October 2002. In addition, the U.S. economic picture continued to be clouded by concerns about the European debt crisis and efforts to reduce the federal deficit.

Municipal bond prices generally rallied over this period, amid strong demand and yields that continued to be relatively low. Although the availability of tax-exempt supply improved in recent months, the pattern of new issuance remained light compared with long-term historical trends. This served as a key driver of performance, as tight supply and strong demand combined to create favorable market conditions for municipal bonds. Concurrent with rising prices, yields declined across most maturities, especially at the longer end of the municipal yield curve. The depressed level of municipal bond issuance was due in part to the continuing impact of the taxable Build America Bonds (BAB) program. Even though the BAB program expired at the end of 2010, issuers had made extensive use of its favorable terms to issue almost \$190 billion in taxable BAB bonds during 2009 and 2010, representing approximately 25% of all municipal issuance during that period. Some borrowers accelerated issuance into 2010 in order to take advantage of the program before its termination, fulfilling their capital program borrowing needs well into 2011 and 2012. This reduced the need for many borrowers to come to market with new issues during this period. The low level of municipal issuance during this period also reflected the current political distaste for additional borrowing by state and local governments and the prevalent atmosphere of municipal budget austerity.

Over the twelve months ended March 31, 2012, municipal bond issuance nationwide totaled \$326.3 billion, a decrease of 14% compared with issuance during the twelvemonth period ended March 31, 2011. During this period, demand for municipal bonds remained very strong, especially from individual investors.

How were economic and market conditions in California and New York during this period?

California's diverse economy has shown signs of gaining momentum, with job growth rebounding as increased demand for internet-based services and mobile device applications led to strengthening of the technology and other service sectors. This, in turn, produced improvement in the state's jobless rate. As of March 2012, California's unemployment rate was 11.0%, down from 11.9% in March 2011. However, housing,

the primary driver of the state's most recent economic decline, remained a drag on the California economy, as foreclosures continued to put downward pressure on prices. According to the S&P/Case-Shiller Index, housing prices in San Diego, San Francisco and Los Angeles fell 3.9%, 4.1%, and 5.2%, respectively, over the twelve months ended February 2012 (most recent data available at the time this report was prepared). These rates compared with an average decline of 3.5% nationally for the same period. Statewide, home prices in California have lost almost 60% of their value since the peak in 2006. Overall, budget problems posed the largest threat to the state's economic outlook over the near term, as California continued to be burdened by persistent deficits and spending that outweighed the state's ability to generate revenues. In June 2011, the Budget Act of 2011 closed a projected two-year gap of \$26.6 billion through the remainder of fiscal 2011 and 2012. However, the \$120.1 billion act remained structurally unbalanced, relying on revenue assumptions that, if not met, would trigger additional expenditure cuts. When those revenue assumptions were not realized, the state implemented almost \$1 billion in trigger cuts effective January 1, 2012, mainly affecting state universities, community colleges, and human services. The \$137.3 billion budget proposal for fiscal 2013 closes an estimated \$9.2 billion gap and assumes additional revenues generated by a voter-approved, five-year temporary tax increase. The budget also calls for spending reductions mainly in the areas of welfare and child care for the poor. As of March 2012, California maintained credit ratings on its general obligation (GO) debt of A1, A- and A- from Moody's Investors Service (Moody's), S&P and Fitch, respectively. For the twelve months ended March 31, 2012, municipal issuance in California totaled \$42.8 billion, a decrease of 14% from the previous twelve months. California was the largest state issuer in the nation for this period, representing approximately 13% of total issuance nationwide.

By some measures, the New York economy's recovery from recession appears to have regained momentum following a brief slowdown during the summer of 2011. Job growth in the state accelerated over the past twelve months, led by professional and business services, education and health, leisure and hospitality and wholesale and retail trade, which together accounted for more than 55% of the jobs in New York. As of March 2012, unemployment in New York was 8.5%, up from 8.0% in March 2011 but still below the recent high of 8.9% in January 2010. The recent increase in the state's jobless rate has been attributed to the entry of additional job-seekers into the market as more new jobs were created as well as to layoffs in the financial services and manufacturing sectors. Concerns about the impact of the European debt crisis on New York's tourism, trade and financial services industries continued to temper the outlook for the state's economic growth. The decline in housing also continued to weigh on the New York economy. Over the twelve months ended February 2012 (most recent data available at the time this report was prepared), the average home price in the New York City area fell 3.0%, compared with a 3.5% drop nationally, according to the S&P/Case-Shiller

Index. This brought New York City home values to their lowest level since the 2006 peak. In general, New York's budget picture improved over the past twelve months. The state's fiscal 2012 budget included a 1% cut in spending from fiscal 2011, but no new borrowing. Revenues were increased through a tax hike passed in December 2011, which raised the state's top tax rate for high-income earners (annual incomes of more than \$2 million) to 8.82% from 6.85%, and expenditures have been more tightly controlled. The recently enacted \$132.5 billion budget for fiscal 2013 holds spending to fiscal 2012 levels. As of March 31, 2012, Moody's and S&P rated New York GO debt at Aa2 and AA, respectively. For the twelve months ended March 31, 2012, municipal issuance in New York totaled \$41.0 billion, up 4% from the previous twelve months. This ranked New York second among state issuers, behind California.

What key strategies were used to manage the Nuveen Select Portfolios during this reporting period?

As previously discussed, municipal bond prices generally rallied during this period, and yields remained relatively low. In this environment, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term and helped us keep the Portfolios fully invested.

During this period, the national Portfolios found value in various areas of the market, including the health care and transportation (specifically airports and tollroads) sectors as well as tobacco credits and zero coupon bonds. Overall, our focus was on purchasing discount and lower coupon bonds and lower to intermediate investment grade quality credits, generally rated A and BBB, that we believed were undervalued.

NXC took advantage of attractive opportunities to add new BBB holdings as well as California state GO bonds when they came to market in the fall of 2011. Based on recent tobacco consumption data, NXC also swapped some of its higher dollar-priced tobacco holdings for tobacco bonds with better downside profiles in terms of credit outlook. These relative value swaps also benefited NXC by maintaining yields and recognizing losses for tax purposes.

In addition, NXC continued to actively add exposure to redevelopment agency (RDA) bonds, used to fund programs to improve economically depressed areas in California. In June 2011, two state bills amending the law that created RDAs were approved as part of cost-saving measures to close gaps in the California state budget. Assembly Bill (AB) 26 provided for the dissolution of all RDAs, while AB 27 would allow municipalities to keep their RDAs by committing to substantial community payments to the state. A lawsuit challenging the constitutionality of both bills was filed by an RDA lobbying group in July 2011. In late December 2011, the California Supreme Court ruled that AB 26 was consti-

tutional and ordered the dissolution of all 400 RDAs in the state by February 1, 2012, creating successor agencies and oversight boards to manage obligations (e.g., contracts, bonds, leases) that were in place prior to the dissolution and take title to the RDAs' housing and other assets. However, the court struck down AB 27, concluding that the required community payments were not voluntary and therefore violated the state constitution. During this period, the uncertainty surrounding the fate of the state's RDAs caused spreads on RDA bonds to widen substantially and prompted RDAs to issue their remaining capacity of bonds. This resulted in heavy issuance of RDA bonds that came to market at attractive prices with higher coupons and very attractive structures, including 10-year call provisions. Consequently, we were able to add some bonds to NXC's portfolio, purchasing new RDA bonds in the primary market during the first part of this period and buying additional RDA bonds, some of which were insured credits issued prior to 2008, in the secondary market during the last part of this period.

During this period, NXN added tax increment financing bonds. In addition, this Portfolio carried out some health care credit swapping; that is, based on our fundamental credit view, NXN sold health care positions that we thought were overvalued and purchased bonds in the same sector that we believed were undervalued. On the whole, purchase activity in NXN was relatively light due to the low yield environment and the difficulty of finding appropriate tax-exempt bonds in the New York market.

Cash for new purchases during this period was generated primarily by the proceeds from called and maturing bonds. A sizeable number of bond calls and refundings provided a meaningful source of liquidity, which drove much of our activity as we worked to redeploy the proceeds to keep the Portfolios fully invested. In the three national Portfolios, 80% to 90% of these calls involved escrowed/pre-refunded bonds. For cash management purposes, the national Portfolios also made a few trades at the end of 2011 aimed at increasing duration, in which they sold credits with very short durations and purchased longer maturity bonds. In NXC, we took advantage of strong bids for lower-rated credits to pare our position in bonds rated BBB that we judged to be good sales candidates due to their less protective security provisions, which in the current economic environment, made them more sensitive to credit stress. Apart from these sales, selling was relatively minimal during this period, as the bonds in our portfolios generally offered higher yields than those available in the current marketplace.

As of March 31, 2012, all of these Portfolios continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement.

How did the Portfolios perform during the twelve-month period ended March 31, 2012?

Individual results for the Portfolios, as well as relevant index and peer group information, are presented in the accompanying table.

Average Annual Total Returns on Net Asset Value

For periods ended 3/31/12

	1-Year	5-Year	10-Year
<b>National Portfolios</b>			
NXP	12.72%	4.87%	5.25%
NXQ	12.97%	3.92%	4.68%
NXR	12.23%	4.81%	5.09%

	26.67%	4.73%	6.52%
<b>New York Portfolio</b>			
NXN	11.25%	4.98%	5.14%
<b>Standard &amp; Poor's (S&amp;P) New York Municipal Bond Index*</b>			
	11.22%	5.17%	5.44%
<b>Lipper New York Municipal Debt Funds Classification Average*</b>			
	18.78%	4.94%	6.34%

For the twelve months ended March 31, 2012, the total returns on net asset value (NAV) for NXP and NXQ outperformed the return for the Standard & Poor's (S&P) National Municipal Bond Index, while NXR trailed this index. NXC and NXN exceeded the returns for the Standard & Poor's (S&P) California Municipal Bond Index and the Standard & Poor's (S&P) New York Municipal Bond Index, respectively. All of the Portfolios underperformed the average returns for their respective Lipper Municipal Debt Funds Classification Average.

Key management factors that influenced the Portfolios' returns during this period included duration and yield curve positioning, credit exposure and sector allocation.

During this period, municipal bonds with longer maturities generally outperformed those with shorter maturities. Overall, credits at the longest end of the municipal yield curve posted the strongest returns, while bonds at the shortest end produced the weakest results. Both NXP and NXC, which had the longest durations among these five Portfolios, benefited from having durations that exceeded that of the market as a whole. However, in NXC, this was partially offset by the Portfolio's yield curve positioning, with a slight underweight in the outperforming long end of the yield curve and a small overweight in the shorter range of the curve that underperformed. NXQ, NXR and NXN all

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Portfolio distributions or upon the sale of Portfolio shares.

For additional information, see the Performance Overview page for your Portfolio in this report.

10 Nuveen Investments

---

had durations shorter than their benchmarks, which detracted from their performance, although this was counteracted to some degree by a positive contribution from yield curve positioning in NXQ and NXR.

Credit exposure also played a role in performance during these twelve months, as lower-rated bonds, especially those rated BBB, generally outperformed higher-quality bonds, with issues rated AAA posting the weakest returns. The outperformance of the lower-quality sector was due in part to the greater demand for lower-rated bonds as investors looked for investment vehicles offering higher yields. All of these Portfolios had good exposure to bonds rated BBB, with NXQ, NXC and NXN benefiting from significant overweightings in this credit sector. The performance of NXC and NXN was also helped by underweightings in bonds rated AAA and AA, respectively. Among the three national Portfolios, NXN held the most AAA rated bonds, which hampered its performance.

Holdings and sectors that generally made positive contributions to the Portfolios' returns during this period included zero coupon bonds, health care, industrial development revenue (IDR), transportation and special tax credits. Lease-backed and education bonds also outpaced the general municipal market for the period. Tobacco bonds backed by the 1998 master settlement agreement were also one of the top performing sectors, as these bonds benefited from several developments in the market, including increased demand for higher-yielding investments by investors who had become less risk-averse. In addition, based on recent data showing that cigarette sales have fallen less steeply than anticipated, the 46 states participating in the agreement, including California and New York, stand to receive increased payments from the tobacco companies.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, were the poorest performing market segment during this period. The underperformance of these bonds can be attributed primarily to their shorter effective maturities and higher credit quality. As of March 31, 2012, all three of the national Portfolios, especially NXP, were overweighted in pre-refunded bonds, while NXN held the smallest allocation of pre-refunded credits. GO and other tax-supported bonds as well as credits issued by the water and sewer, electric utilities, housing and resource recovery sectors also generally lagged the performance of the general municipal market for this period. All of the Portfolios were underweighted to varying degrees in GO credits, which lessened the negative impact of these holdings. In the three national Portfolios, the underexposure to GOs was offset to a certain extent by an overweighting in sales tax and other dedicated tax bonds. NXC was particularly underweighted in California state GOs relative to the California market. This underweighting was due to the fact that California state GOs comprise such a large portion of the tax-supported sector in California that it is impossible to match the market weighting in our portfolios. Even though GOs nationally generally underperformed, GO bonds issued by local governments in California performed well and NXC's overweight in this area of the market benefited its performance.

Fund Leverage and  
Other Information

RISK CONSIDERATIONS

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

**Investment and Market Risk.** An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Fund, which generally trade in the over-the-counter markets. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

**Price Risk.** Shares of closed-end investment companies like these Funds frequently trade at a discount to their NAV. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

**Tax Risk.** The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

**Issuer Credit Risk.** This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

**Interest Rate Risk.** Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

**Reinvestment Risk.** If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

**Call Risk or Prepayment Risk.** Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

**Inverse Floater Risk.** The Funds may invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal investment.

**Leverage Risk.** Each Fund's use of effective leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

## Dividend and Share Price Information

## DIVIDEND INFORMATION

During the twelve-month reporting period ended March 31, 2012, NXN had two monthly dividend increases and NXR and NXC each had one monthly dividend increase. The dividend of NXP remained stable throughout the reporting period, while NXQ's monthly dividend was reduced effective June 2011.

Due to normal portfolio activity, shareholders of the following Portfolios received capital gains and/or net ordinary income distributions in December 2011 as follows:

Fund	Long-Term Capital Gains (per share)	Short-Term Capital Gains and/or Ordinary Income (per share)
NXP	— \$	0.0036
NXR	\$ 0.0430	\$ 0.0046

All of these Portfolios seek to pay stable dividends at rates that reflect each Portfolio's past results and projected future performance. During certain periods, each Portfolio may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Portfolio during the period. If a Portfolio has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Portfolio's NAV. Conversely, if a Portfolio has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Portfolio's NAV. Each Portfolio will, over time, pay all of its net investment income as dividends to shareholders. As of March 31, 2012, all of the Portfolios in this report had positive UNII balances for both tax and financial reporting purposes.

SHARE REPURCHASES AND PRICE INFORMATION

Since the inception of the Portfolios' repurchase programs, the Portfolios have not repurchased any of their outstanding shares.

As of March 31, 2012, and during the twelve-month the share prices of the Portfolios were trading at (+)premiums and/or (-) discounts to their NAVs as shown in the accompanying table.

Fund	3/31/12 (+) Premium/(-) Discount	Twelve-Month Average (+) Premium/(-) Discount
NXP	(+)0.14%	(+)0.22%
NXQ	(-)1.87%	(-)2.21%
NXR	(-)0.62%	(-)0.97%
NXC	(-)1.79%	(-)5.57%
NXN	(-)3.36%	(-)3.79%

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this Fund's Performance Overview page.

- 1 Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of 28%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
  - 2 Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below-investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by a national rating agency.
  - 3 Holdings are subject to change.
  - 4 The Fund paid shareholders a net ordinary income distribution in December 2011 of \$0.0036 per share.
- N/A Not Applicable.

Nuveen Select Tax-Free Income Portfolio  
Nuveen Select Tax-Free Income Portfolio 2  
Nuveen Select Tax-Free Income Portfolio 3  
Nuveen California Select Tax-Free Income Portfolio  
Nuveen New York Select Tax-Free Income Portfolio

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Select Tax-Free Income Portfolio, Nuveen Select Tax-Free Income Portfolio 2, Nuveen Select Tax-Free Income Portfolio 3, Nuveen California Select Tax-Free Income Portfolio, and Nuveen New York Select Tax-Free Income Portfolio (the "Funds") as of March 31, 2012, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Select Tax-Free Income Portfolio, Nuveen Select Tax-Free Income Portfolio 2, Nuveen Select Tax-Free Income Portfolio 3, Nuveen California Select Tax-Free Income Portfolio, and Nuveen New York Select Tax-Free Income Portfolio at March 31, 2012, and the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended in conformity with U.S. generally accepted accounting principles.

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

N/R Not rated.

(IF) Inverse floating rate investment.

See accompanying notes to financial statements.

(1) All percentages shown in the Portfolio of Investments are based on net assets.

(2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

(3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

N/R Not rated.

(ETM) Escrowed to maturity.

(IF) Inverse floating rate investment.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

N/R Not rated.  
(ETM) Escrowed to maturity.  
(IF) Inverse floating rate investment.

See accompanying notes to financial statements.

	Net Assets – 100%			\$ 94,447,065

(1) All percentages shown in the Portfolio of Investments are based on net assets.

(2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

(3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

N/R Not rated.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
  - (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
  - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
  - (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
  - (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- N/R Not rated.  
(ETM) Escrowed to maturity.  
(IF) Inverse floating rate investment.  
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

- (a) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.
- Total Return Based on Net Asset Value is the combination of changes in net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.
- (b) Ratios do not reflect the effect of custodian fee credits earned on the Fund's net cash on deposit with the custodian bank, where applicable.
- (c) The expense ratios reflect, among other things, the interest expense deemed to have been paid by the Fund on the floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, where applicable, as described in Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities as follows:

Notes to  
Financial Statements

1. General Information and Significant Accounting Policies

General Information

The funds covered in this report and their corresponding New York Stock Exchange (“NYSE”) symbols are Nuveen Select Tax-Free Income Portfolio (NXP), Nuveen Select Tax-Free Income Portfolio 2 (NXQ), Nuveen Select Tax-Free Income Portfolio 3 (NXR), Nuveen California Select Tax-Free Income Portfolio (NXC) and Nuveen New York Select Tax-Free Income Portfolio (NXN) (each a “Fund” and collectively, the “Funds”). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end registered investment companies.

Each Fund seeks to provide current income and stable dividends, exempt from regular federal and designated state income taxes, where applicable, consistent with the preservation of capital by investing primarily in a portfolio of municipal obligations.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

Investment Valuation

Prices of municipal bonds are provided by a pricing service approved by the Funds’ Board of Trustees. These securities are generally classified as Level 2 for fair value measurement purposes. The pricing service establishes a security’s fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by Nuveen Fund Advisors, Inc. (the “Adviser”), a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”). These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds’ Board of Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund’s net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security’s fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are

subject to review by the Funds' Board of Trustees or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

#### Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the

62 Nuveen Investments

---

custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At March 31, 2012, there were no such outstanding purchase commitments in any of the Funds.

#### Investment Income

Investment income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

#### Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

#### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies ("RICs"). Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

#### Dividends and Distributions to Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

#### Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the

fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an “externally-deposited inverse floater”), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a “self-deposited inverse floater”). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as “(IF) – Inverse floating rate investment.” An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as “(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction,” with the Fund accounting for the short-term floating rate certificates issued by the trust as “Floating rate obligations” on the Statement of Assets and Liabilities. In addition, the Fund reflects in “Investment Income” the entire earnings of the underlying bond and recognizes the related interest paid to the holders of the short-term floating rate certificates as a component of “Interest expense on floating rate obligations” on the Statement of Operations.

Notes to  
Financial Statements (continued)

During the fiscal year ended March 31, 2012, each Fund invested in externally deposited inverse floaters and/or self-deposited inverse floaters.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a “recourse trust” or “credit recovery swap”) (such agreements referred to herein as “Recourse Trusts”) with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund’s potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund’s inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as “Unrealized depreciation on Recourse Trusts” on the Statement of Assets and Liabilities.

At March 31, 2012, each Fund’s maximum exposure to externally-deposited Recourse Trusts was as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Maximum exposure to Recourse Trusts	\$ —	\$ —	\$ —	\$ —	2,000,000

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters for the following Funds during the fiscal year ended March 31, 2012, were as follows:

	Select Tax-Free 2 (NXQ)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Average floating rate obligations outstanding	\$ 1,000,000	\$ 1,540,000	\$ 1,005,000
Average annual interest rate and fees	.67%	.57%	.43%

#### Derivative Financial Instruments

Each Fund is authorized to invest in certain derivative instruments, including foreign currency forwards, futures, options and swap contracts. Although the Funds are authorized to invest in such derivative instruments, and may do so in the future, they did not make any such investments during the fiscal year ended March 31, 2012.

#### Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

#### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund’s cash on deposit with the bank. Such deposit arrangements are an alternative to

overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

#### Indemnifications

Under the Funds' organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

64 Nuveen Investments

---

## 2. Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 –Quoted prices in active markets for identical securities.

Level 2 –Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 –Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of March 31, 2012:

Select Tax-Free (NXP)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 235,114,974	\$	—\$ 235,114,974
Select Tax-Free 2 (NXQ)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 241,560,648	\$	—\$ 241,560,648
Select Tax-Free 3 (NXR)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 180,426,194	\$	—\$ 180,426,194
California Select Tax-Free (NXC)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 93,351,737	\$	—\$ 93,351,737
New York Select Tax-Free (NXN)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$	—\$ 56,642,637	\$	—\$ 56,642,637

During the fiscal year ended March 31, 2012, the Funds recognized no significant transfers to or from Level 1, Level 2 or Level 3.

## 3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. The Funds did not invest in derivative instruments during the fiscal year ended March 31, 2012.

## 4. Fund Shares

The Funds did not repurchase any of their outstanding shares during the fiscal years ended March 31, 2012 or March 31, 2011.

Transactions in shares were as follows:

	Select Tax-Free (NXP)		Select Tax-Free 2 (NXQ)		Select Tax-Free 3 (NXR)	
	Year Ended	Year Ended	Year Ended	Year Ended	Year Ended	Year Ended
	3/31/12	3/31/11	3/31/12	3/31/11	3/31/12	3/31/11

## 5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments, where applicable) during the fiscal year ended March 31, 2012, were as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Purchases	\$ 44,047,806	\$ 46,454,616	\$ 29,083,318	\$ 10,127,956	\$ 10,592,394
Sales and maturities	48,334,128	49,050,979	35,310,403	13,226,668	11,163,832

## 6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At March 31, 2012, the cost and unrealized appreciation (depreciation) of investments, as determined on a federal income tax basis, were as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Cost of investments	\$ 217,366,271	\$ 229,464,000	\$ 169,368,944	\$ 84,208,268	\$ 52,598,770
Gross unrealized:					
Appreciation	\$ 19,224,317	\$ 13,461,056	\$ 12,336,881	\$ 8,532,965	\$ 3,174,288
Depreciation	(1,475,614)	(2,364,408)	(1,279,631)	(934,169)	(132,106)
Net unrealized appreciation (depreciation) of investments	\$ 17,748,703	\$ 11,096,648	\$ 11,057,250	\$ 7,598,796	\$ 3,042,182

Permanent differences, primarily due to federal taxes paid and taxable market discount, resulted in reclassifications among the Funds' components of net assets at March 31, 2012, the Funds' tax year end, as follows:

	California	New York
--	------------	----------

Edgar Filing: NUVEEN NEW YORK SELECT TAX -FREE INCOME PORTFOLIO - Form N-CSR

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	Select Tax-Free (NXC)	Select Tax-Free (NXN)

Edgar Filing: NUVEEN NEW YORK SELECT TAX -FREE INCOME PORTFOLIO - Form N-CSR

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at March 31, 2012, the Funds' tax year end, were as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Undistributed net tax-exempt income*	\$ 1,435,740	\$ 1,198,377	\$ 1,277,071	\$ 588,588	\$ 386,521
Undistributed net ordinary income**	7,724	26,267	411	—	—
Undistributed net long-term capital gains	—	—	—	—	167,392

\* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on March 1, 2012, paid on April 2, 2012.

\*\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' tax years ended March 31, 2012 and March 31, 2011, was designated for purposes of the dividends paid deduction as follows:

2012	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Distributions from net tax-exempt income***	\$ 11,795,179	\$ 11,308,334	\$ 8,418,313	\$ 4,258,623	\$ 2,485,111
Distributions from net ordinary income **	59,504	—	60,476	—	—
Distributions from net long-term capital gains****	—	—	559,452	—	—

2011	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)	New York Select Tax-Free (NXN)
Distributions from net tax-exempt income	\$ 11,779,604	\$ 11,778,835	\$ 8,353,383	\$ 4,174,015	\$ 2,395,738
Distributions from net ordinary income**	—	—	—	—	—
Distributions from net long-term capital gains	—	—	14,320	—	—

\*\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

\*\*\* The Funds hereby designate these amounts paid during the fiscal year ended March 31, 2012, as Exempt Interest Dividends.

\*\*\*\* The Funds designate as long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852(b)(3), the amount necessary to reduce earnings and profits of the Funds related to net capital gain to zero for the tax year ended March 31, 2012.

At March 31, 2012, the Funds' tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	California Select Tax-Free (NXC)
Expiration:			
March 31, 2015	\$ 260,316	\$ 862,250	\$ —
March 31, 2016	—	7,597	29,942
March 31, 2017	—	400,800	107,619
March 31, 2019	—	335,742	173,121
Total	\$ 260,316	\$ 1,606,389	\$ 310,682

During the Funds' tax year ended March 31, 2012, the following Funds utilized their capital loss carryforwards as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	New York Select Tax-Free (NXN)
Utilized capital loss carryforwards	\$ 205,014	\$ 455,309	\$ 92,679

Nuveen Investments

67

Notes to  
Financial Statements (continued)

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the “Act”) was enacted, which changed various technical rules governing the tax treatment of RICs. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, each Fund will be permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

The Act also contains several provisions aimed at preserving the character of distributions made by a fiscal year RIC during the portion of its taxable year ending after October 31 or December 31, reducing the circumstances under which a RIC might be required to file amended Forms 1099 to restate previously reported distributions.

Capital losses incurred that will be carried forward under the provisions of the Act are as follows:

	California Select Tax-Free (NXC)
Post-enactment losses:	
Short-term	\$ —
Long-term	148,537

The Funds have elected to defer losses incurred from November 1, 2011 through March 31, 2012, the Funds’ tax year end, in accordance with federal income tax rules. These losses are treated as having arisen on the first day of the following fiscal year. The following Funds have elected to defer losses as follows:

	Select Tax-Free (NXP)	Select Tax-Free 2 (NXQ)	Select Tax-Free 3 (NXR)	California Select Tax-Free (NXC)
Post-October capital losses	\$ 7,319,890	\$ 11,130,279	\$ 3,046,588	\$ 254,017
Late-year ordinary losses	—	—	—	—

7. Management Fees and Other Transactions with Affiliates

Each Fund’s management fee consists of two components – a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedule:

	Select Tax-Free 2 (NXQ)
	Select Tax-Free 3 (NXR)
	California Select Tax-Free (NXC)
Select Tax-Free (NXP)	New York Select Tax-Free (NXN)

Average Daily Managed Assets*	Fund-Level Fee	
	Rate	Fund-Level Fee Rate
For the first \$125 million	.0500%	.1000%
For the next \$125 million	.0375	.0875
For the next \$250 million	.0250	.0750
For the next \$500 million	.0125	.0625

68 Nuveen Investments

---

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

\* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen Funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen Funds and assets in excess of \$2 billion added to the Nuveen Fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of March 31, 2012, the complex-level fee rate for each of these Funds was .1735%.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser is responsible for each Fund's overall strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC (the "Sub-Adviser"), a wholly-owned subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

The Funds pay no compensation directly to those of its trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent trustees that enables trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

## 8. New Accounting Pronouncements

### Fair Value Measurements and Disclosures

On May 12, 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-04 (“ASU No. 2011-04”) modifying Topic 820, Fair Value Measurements and Disclosures. At the same time, the International Accounting Standards Board (“IASB”) issued International Financial Reporting Standard (“IFRS”) 13, Fair Value Measurement. The objective of the FASB and IASB is convergence of their guidance on fair value measurements and disclosures. Specifically, ASU No. 2011-04 requires reporting entities to disclose i) the amounts of any transfers between Level 1 and Level 2 and the reasons for the transfers and ii) for Level 3 fair value measurements, a) quantitative information about significant unobservable inputs used, b) a description of the valuation processes used by the reporting entity and c) a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs if a change in those inputs might result in a significantly higher or lower fair value measurement. The effective date of ASU No. 2011-04 is for interim and annual periods beginning after December 15, 2011. At this time, management is evaluating the implications of this guidance and the impact it will have to the financial statement amounts and footnote disclosures, if any.

## Board Members &amp; Officers (Unaudited)

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the board members of the Funds. The number of board members of the Funds is currently set at ten. None of the board members who are not “interested” persons of the Funds (referred to herein as “independent board members”) has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

Name, Birthdate & Address	Position(s) Held with the Funds	Year First Elected or Appointed and Term(1)	Principal Occupation(s) including other Directorships During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Board Member
---------------------------------	--	--	---	--

--	---	------	--	-----

- (1) Board Members serve three year terms. The Board of Trustees is divided into three classes, Class I, Class II, Class III, with each being elected to serve until the third succeeding annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. The first year elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (2) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (3) Officers serve one year terms through August of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Reinvest Automatically,  
Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may

Reinvest Automatically,  
Easily and Conveniently (continued)

exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of Terms  
Used in this Report

**Auction Rate Bond:** An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have “failed,” with current holders receiving a formula-based interest rate until the next scheduled auction.

**Average Annual Total Return:** This is a commonly used method to express an investment’s performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment’s actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**Average Effective Maturity:** The market-value-weighted average of the effective maturity dates of the individual securities including cash. In the case of a bond that has been advance-refunded to a call date, the effective maturity is the date on which the bond is scheduled to be redeemed using the proceeds of an escrow account. In most other cases the effective maturity is the stated maturity date of the security.

**Effective Leverage:** Effective leverage is a Fund’s effective economic leverage, and includes both regulatory leverage and the leverage (see below) effects of certain derivative investments in the Fund’s portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage.

**Inverse Floating Rate Securities:** Inverse floating rate securities, also known as inverse floaters or tender option bonds (TOBs), are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond’s par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an “inverse floater”) to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates’ holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond’s downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond’s value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

**Leverage:** Using borrowed money to invest in securities or other assets, seeking to increase the return of an investment or portfolio.

Glossary of Terms  
Used in this Report (continued)

**Leverage-Adjusted Duration:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

**Lipper California Municipal Debt Funds Classification Average:** Calculated using the returns of all closed-end funds in this category for each period as follows: 1-year, 27 funds; 5-year, 26 funds; and 10-year, 22 funds. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. The Lipper average is not available for direct investment.

**Lipper General and Insured Unleveraged Municipal Debt Funds Classification Average:** Calculated using the returns of all closed-end funds in this category for each period as follows: 1-year, 8 funds; 5-year, 6 funds; and 10-year, 6 funds. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. The Lipper average is not available for direct investment.

**Lipper New York Municipal Debt Funds Classification Average:** Calculated using the returns of all closed-end funds in this category for each period as follows: 1-year, 29 funds; 5-year, 28 funds; and 10-year, 20 funds. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. The Lipper average is not available for direct investment.

**Market Yield (also known as Dividend Yield or Current Yield):** An investment's current annualized dividend divided by its current market price.

**Net Asset Value (NAV):** The net market value of all securities held in a portfolio.

**Net Asset Value (NAV) Per Share:** The market value of one share of a mutual fund or closed-end fund. For a Fund, the NAV is calculated daily by taking the Fund's total assets (securities, cash, and accrued earnings), subtracting the Fund's liabilities, and dividing by the number of shares outstanding.

**Pre-Refunding:** Pre-Refunding, also known as advanced refundings or refinancings, is a procedure used by state and local governments to refinance municipal bonds to lower interest expenses. The issuer sells new bonds with a lower yield and uses the proceeds to buy U.S. Treasury securities, the interest from which is used to make payments on the higher-yielding bonds. Because of this collateral, pre-refunding generally raises a bond's credit rating and thus its value.

**Regulatory Leverage:** Regulatory Leverage consists of preferred shares issued by or borrowings of a Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is sometimes referred to as "'40 Act Leverage" and is subject to asset coverage limits set in the Investment Company Act of 1940.

**Standard & Poor's (S&P) California Municipal Bond Index:** An unleveraged, market value weighted index designed to measure the performance of the tax-exempt, investment grade California municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. It is not possible to invest directly in an index.

**Standard & Poor's (S&P) National Municipal Bond Index:** An unleveraged, market value weighted index designed to measure the performance of the tax-exempt, investment grade U.S. municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. It is not possible to invest directly in an index.

**Standard & Poor's (S&P) New York Municipal Bond Index:** An unleveraged, market value weighted index designed to measure the performance of the tax-exempt, investment grade New York municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees. It is not possible to invest directly in an index.

**Taxable-Equivalent Yield:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

**Zero Coupon Bond:** A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

Quarterly Portfolio of Investments and Proxy Voting Information

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at [www.nuveen.com](http://www.nuveen.com).

You may also obtain this and other Fund information directly from the Securities and Exchange Commission (SEC). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to [publicinfo@sec.gov](mailto:publicinfo@sec.gov) or by writing to the SEC's Public References Section at 100 F Street NE, Washington, D.C. 20549.

#### CEO Certification Disclosure

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

#### Share Information

Each Fund intends to repurchase shares of its own common stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds did not repurchase any of their common shares.

Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

## ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at [www.nuveen.com/CEF/Shareholder](http://www.nuveen.com/CEF/Shareholder). (To view the code, click on Fund Governance and then click on Code of Conduct.)

## ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees ("Board") determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Carole E. Stone, who is "independent" for purposes of Item 3 of Form N-CSR.

Ms. Stone served for five years as Director of the New York State Division of the Budget. As part of her role as Director, Ms. Stone was actively involved in overseeing the development of the State's operating, local assistance and capital budgets, its financial plan and related documents; overseeing the development of the State's bond-related disclosure documents and certifying that they fairly presented the State's financial position; reviewing audits of various State and local agencies and programs; and coordinating the State's system of internal audit and control. Prior to serving as Director, Ms. Stone worked as a budget analyst/examiner with increasing levels of responsibility over a 30 year period, including approximately five years as Deputy Budget Director. Ms. Stone has also served as Chair of the New York State Racing Association Oversight Board, as Chair of the Public Authorities Control Board, as a Commissioner on the New York State Commission on Public Authority Reform and as a member of the Boards of Directors of several New York State public authorities. These positions have involved overseeing operations and finances of certain entities and assessing the adequacy of project/entity financing and financial reporting. Currently, Ms. Stone is on the Board of Directors of CBOE Holdings, Inc., of the Chicago Board Options Exchange, and of C2 Options Exchange. Ms. Stone's position on the boards of these entities and as a member of both CBOE Holdings' Audit Committee and its Finance Committee has involved, among other things, the oversight of audits, audit plans and preparation of financial statements.

## ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

### Nuveen New York Select Tax-Free Income Portfolio

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

### SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

Fiscal Year Ended	Audit Fees	Audit-Related		Tax Fees	All Other	
	Billed	Fees	Fees	Billed to	Fees	Fees
	to Fund 1	Billed to	Fund 2	Billed to	Billed to	Billed to
		Fund 3		Fund 4		
March 31, 2012	\$16,200	\$ 0	\$0	\$0		
Percentage approved pursuant to pre-approval exception	0	%	0	%	0	%
March 31, 2011	\$18,200	\$ 0	\$0	\$0		
Percentage approved pursuant to pre-approval exception	0	%	0	%	0	%

1 "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

2 "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees".

3 "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

4 "All Other Fees" are the aggregate fees billed for products and services for agreed upon procedures engagements performed for leveraged funds.

#### SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Fund Advisors, Inc. (formerly Nuveen Asset Management) (the "Adviser" or "NFA"), and any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

Fiscal Year Ended	Audit-Related Fees Billed to Adviser and Affiliated Fund Service Providers	Tax Fees Billed to Adviser and Affiliated Fund Service Providers	All Other Fees Billed to Adviser and Affiliated Fund Service Providers	
March 31, 2012	\$	0 \$	0 \$	0
Percentage approved pursuant to pre-approval exception		0%	0%	0%
March 31, 2011	\$	0 \$	0 \$	0
Percentage approved pursuant to pre-approval exception		0%	0%	0%

#### NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the pre-approval exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Fiscal Year Ended	Total Non-Audit Fees Billed to Fund	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (engagements related directly to the operations and financial reporting of the Fund)	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (all other engagements)	Total
March 31, 2012	\$ 0	\$ 0	\$ 0	0
March 31, 2011	\$ 0	\$ 0	\$ 0	0

"Non-Audit Fees billed to Fund" for both fiscal year ends represent "Tax Fees" and "All Other Fees" billed to Fund in their respective amounts from the previous table.

**Audit Committee Pre-Approval Policies and Procedures.** Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts

greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Terence J. Toth, William J. Schneider, Carole E. Stone and David J. Kundert.

ITEM 6. SCHEDULE OF INVESTMENTS.

a) See Portfolio of Investments in Item 1.

b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, Inc. (“Adviser”) is the registrant’s investment adviser. The Adviser is responsible for the on-going monitoring of the Fund’s investment portfolio, managing the Fund’s business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC (“Sub-Adviser”) as Sub-Adviser to provide discretionary investment advisory services. As part of these services, the Adviser has delegated to the Sub-Adviser the full responsibility for proxy voting on securities held in the registrant’s portfolio and related duties in accordance with the Sub-Adviser's policy and procedures. The Adviser periodically monitors the Sub-Adviser's voting to ensure that it is carrying out its duties. The Sub-Adviser’s proxy voting policies and procedures are attached to this filing as an exhibit and incorporated herein by reference.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Nuveen Fund Advisors, Inc. is the registrant’s investment adviser (also referred to as the “Adviser”). The Adviser is responsible for the selection and on-going monitoring of the Fund’s investment portfolio, managing the Fund’s business affairs and providing certain clerical, bookkeeping and administrative services. The Adviser has engaged Nuveen Asset Management, LLC (“Nuveen Asset Management” or “Sub-Adviser”) as Sub-Adviser to provide discretionary investment advisory services. The following section provides information on the portfolio manager at the Sub-Adviser:

The Portfolio Manager

The following individual has primary responsibility for the day-to-day implementation of the registrant’s investment strategies:

Name	Fund
Scott R. Romans	Nuveen New York Select Tax-Free Income Portfolio

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

Portfolio Manager	Type of Account Managed	Number of Accounts	Assets
Scott R. Romans		31	\$ 6.61 billion

Registered Investment Company		
Other Pooled Investment Vehicles	0	\$0
Other Accounts	2	\$1.026 million

\* Assets are as of March 31, 2012. None of the assets in these accounts are subject to an advisory fee based on performance.

#### POTENTIAL MATERIAL CONFLICTS OF INTEREST

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one account. More specifically, portfolio managers who manage multiple accounts are presented a number of potential conflicts, including, among others, those discussed below.

The management of multiple accounts may result in a portfolio manager devoting unequal time and attention to the management of each account. Nuveen Asset Management seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline. Most accounts managed by a portfolio manager in a particular investment strategy are managed using the same investment models.

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one account, an account may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible accounts. To deal with these situations, Nuveen Asset Management has adopted procedures for allocating limited opportunities across multiple accounts.

With respect to many of its clients' accounts, Nuveen Asset Management determines which broker to use to execute transaction orders, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts, Nuveen Asset Management may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, Nuveen Asset Management may place separate, non-simultaneous, transactions for a Fund and other accounts which may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the Fund or the other accounts.

Some clients are subject to different regulations. As a consequence of this difference in regulatory requirements, some clients may not be permitted to engage in all the investment techniques or transactions or to engage in these transactions to the same extent as the other accounts managed by the portfolio manager. Finally, the appearance of a conflict of interest may arise where Nuveen Asset Management has an incentive, such as a performance-based management fee, which relates to the management of some accounts, with respect to which a portfolio manager has day-to-day management responsibilities.

Nuveen Asset Management has adopted certain compliance procedures which are designed to address these types of conflicts common among investment managers. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

#### Item 8(a)(3). FUND MANAGER COMPENSATION

Portfolio manager compensation consists primarily of base pay, an annual cash bonus and long term incentive payments.

Base pay. Base pay is determined based upon an analysis of the portfolio manager's general performance, experience, and market levels of base pay for such position.

Annual cash bonus. The Fund's portfolio managers are eligible for an annual cash bonus based on investment performance, qualitative evaluation and financial performance of Nuveen Asset Management.

A portion of each portfolio manager's annual cash bonus is based on the Fund's investment performance, generally measured over the past one- and three or five-year periods unless the portfolio manager's tenure is shorter. Investment performance for the Fund generally is determined by evaluating the Fund's performance relative to its benchmark(s) and/or Lipper industry peer group.

A portion of the cash bonus is based on a qualitative evaluation made by each portfolio manager's supervisor taking into consideration a number of factors, including the portfolio manager's team collaboration, expense management, support of personnel responsible for asset growth, and his or her compliance with Nuveen Asset Management's policies and procedures.

The final factor influencing a portfolio manager's cash bonus is the financial performance of Nuveen Asset Management based on its operating earnings.

Long-term incentive compensation. Certain key employees of Nuveen Investments and its affiliates, including certain portfolio managers, have received equity interests in the parent company of Nuveen Investments. In addition, certain key employees of Nuveen Asset Management, including certain portfolio managers, have received profits interests in Nuveen Asset Management which entitle their holders to participate in the firm's growth over time.

There are generally no differences between the methods used to determine compensation with respect to the Fund and the Other Accounts shown in the table above.

Beneficial Ownership of Securities. As of March 31, 2012 the portfolio manager beneficially owned the following dollar range of equity securities issued by the Registrant and other Nuveen Funds managed by Nuveen Asset Management's municipal investment team.

Name of Portfolio Manager		Fund	Dollar range of equity securities beneficially owned in Fund	Dollar range of equity securities beneficially owned in the remainder of Nuveen funds managed by Nuveen Asset Management's municipal investment team
Scott R. Romans		Nuveen New York Select Tax-Free Income Portfolio	\$0	\$0

**PORTFOLIO MANAGER BIO:**

Scott R. Romans, PhD, Senior Vice President of Nuveen Asset Management, joined Nuveen Investments in 2000 as a senior analyst in the education sector. In 2003, he was assigned management responsibility for several closed- and open-ended municipal bond funds most of which were state funds covering California and other western states. Currently, he manages investments for 32 Nuveen-sponsored investment companies. He holds an undergraduate degree from the University of Pennsylvania and an MA and PhD from the University of Chicago.

**ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.**

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at [www.nuveen.com/CEF/Shareholder](http://www.nuveen.com/CEF/Shareholder) and there were no amendments during the period covered by this report. (To view the code, click on Fund Governance and then Code of Conduct.)
- (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below:  
Ex-99.CERT Attached hereto.
- (a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.  
Ex-99.906 CERT attached hereto.

SIGNATURES
