Independent Auditors Report

The Advisory Committee
Fidelity National Financial Group
401(k) Profit Sharing Plan:

We have audited the accompanying statements of net assets available for benefits of the Fidelity National Financial Group 401(k) Profit Sharing Plan (the Plan) as of December 31, 2002 and 2001 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2002 and 2001 and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, Schedule H, Line 4i Schedule of Assets (Held at End of Year), is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

(e) Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's contribution and an allocation of Plan earnings and charged with an allocation of Plan losses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

3 years or more	100

(g) Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance during the preceding 12 months or 50% of their account balance. (2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Risk and Uncertainties

The Plan provides for various investment options in common/collective trust funds, mutual funds, and common stocks. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the various risk factors, in the near term, could materially affect participants' account balances and the amounts reported in the financial statements.

(d) Concentration of Investments

Included in the Plan's net assets available for benefits at December 31, 2002 are investments in employer common stock amounting to \$81,503,721 whose value represents approximately 17% of the Plan's net assets. Specifically, the employer common stock is comprised of the common stocks of Fidelity National Financial, Inc., American National Financial, Inc. and Fidelity National Information Solutions, Inc. totaling \$77,350,220, \$1,136,395, and \$3,017,106, respectively.

Included in the Plan's net assets available for benefits at December 31, 2001 are investments in the common stock of Fidelity National Financial, Inc. amounting to \$39,278,427 whose value represents approximately 8% of the Plan's net assets.

(e) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The investment in the S&P 500 Index Fund is valued at quoted market prices. The investment in the Stable Return Fund for EBT Retirement Plans is based on the underlying unit value reported by Wells Fargo Stable Return Fund for EBT. The common stocks of Fidelity National Financial, Inc., American National Financial, Inc., and Fidelity National Information Solutions, Inc. are valued at quoted market prices. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

(f) Payment of Benefits

Benefits are recorded when paid.

(3) Investments

The following presents the Plan's investments as of December 31, 2002 and 2001 with individual investments that represent 5% or more of the Plan's net assets separately identified:

(4) Related Party Transactions

Certain Plan investments are shares of mutual funds and common collective trust funds managed by Wells Fargo Trust Operations (Wells Fargo). Wells Fargo is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Other Plan investments are shares of the common stocks of the Company and its Affiliated and Related Companies, also parties in interest.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

(6) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 15, 1996 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. The Company has requested, but not yet received, a determination letter for the amended and restated plan. The plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(7) Subsequent Event

Effective January 1, 2003, the Micro General Corporation 401(k) and Profit Sharing Plan was merged into this Plan.

On March 26, 2003, the Company completed its merger with ANFI. In the merger, each share of ANFI common stock (other than ANFI common stock the Company already owned) was exchanged for .454 shares of the Company's common stock.
