Compensation Plan Amendments

The Board approved amendments to the Company's 1994 Long-Term Incentive Plan (the "LTIP"), the 1997, 2000 and 2003 Executive Stock Option and Restricted Stock Plans and the associated Terms and Conditions of options awarded thereunder (collectively, the "Option Plan Amendments"), and the Nonqualified Retirement Benefit Plan. The amendments were made so that the plans would comply with the requirements of Internal Revenue Code Section 409A ("Section 409A"). The Option Plan Amendments are effective January 1, 2006, but apply retroactively to options that were not granted and vested as of January 1, 2005, to coincide with the effective date of Section 409A. The amendments to the other plans are effective December 15, 2005, but apply retroactively to January 1, 2005.

Three changes were made to the LTIP, which is a three-year rolling incentive plan with payout based on the attainment of pre-established performance objectives. First, the Compensation Committee previously had the discretion to treat a terminating employee as an early retiree, which allowed that person to remain a participant in the plan as to previously granted awards. The amendments provide that early retirement treatment is automatic if, when the employee terminates employment, he or she is over age 55 and the sum of age plus years of service equals or exceeds 65, but only if the employee signs a non-compete agreement and release of employment-related claims ("Early Retirement Provisions"). Second, there is a six-month delay in payouts under the plan if required to avoid a penalty under Section 409A. Third, in the case of a Triggering Event, as defined in the plan, payment is delayed to the minimum extent necessary to comply with Section 409A.

The Option Plan Amendments contain the Early Retirement Provisions, but only in the case of options that were not granted and vested prior to January 1, 2005, the effective date of Section 409A. For options vested prior to that date, the Compensation Committee retains discretion regarding early retirement treatment. Early retirement treatment means that the options remain exercisable for the shorter of (a) one year after the death of the option holder or (b) the remaining term of the option.
