Officers, directors and greater than ten percent shareholders are required by SEC regulations to furnish the Corporation with copies of all Section 16 (a) forms they file.

To the Corporation's knowledge, based solely on a review of the copies of such reports furnished to the Corporation and written representations that no other reports were required during the fiscal year ended December 31, 2003, all Section 16 (a) reports by its officers, directors and greater than ten percent beneficial owners were timely filed except five reports: 1) for the acquisition of 456 shares of Common Stock of the Corporation on April 3, 2003, by P. \* Director meets the independence requirements as defined in the listing standards of the Nasdaq Stock Market and SEC regulations.

**Audit Committee**

The audit committee's responsibilities include: annual review of and recommendation to the Board of Directors for the selection of the Corporation's independent auditors, review with the internal and independent auditors the overall scope and plans for the respective audits as well as the results of such audits, and review with management and the internal and independent auditors, the effectiveness of accounting and financial controls, and interim and annual financial reports. All of the members of the audit committee are independent as defined in the listing standards of the Nasdaq Stock Market and SEC regulations.

The Board of Directors has determined that Merrill S. Moyer, Chairman of the Audit Committee, meets the requirements recently adopted by the Securities and Exchange Commission and the Nasdaq Stock Market for qualification as an audit committee financial expert. Mr. Moyer has past employment experience with the Corporation as a Chief Executive Officer, including active supervision of the Chief Financial Officer and other senior financial officers, providing him with a high level of financial sophistication, as well as a comprehensive

knowledge of internal controls and audit committee functions. He has served as Chairman of the Audit Committee since 1999. An audit committee financial expert is defined as a person who has the following attributes: (i) an understanding of generally accepted accounting principles and financial statements; (ii) the ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves; (iii) experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity or accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or experience actively supervising one or more persons engaged in such activities; (iv) an understanding of internal controls and procedures for financial reporting; and (v) an understanding of audit committee functions.

The identification of a person as an audit committee financial expert does not impose on such person any duties, obligations or liability that are greater than those that are imposed on such person as a member of the Audit Committee and the Board of Directors in the absence of such identification. Moreover, the identification of a person as an audit committee financial expert for purposes of the regulations of the Securities and Exchange Commission does not affect the duties, obligations or liability of any other member of the Audit Committee or the Board of Directors. Additionally, a person who is determined to be an audit committee financial expert will not be deemed an expert for purposes of Section 11 of the Securities Act of 1933.

The Board of Directors adopted an updated Audit Committee Charter in February 2004, a copy of which is attached to this Proxy Statement as Exhibit I. At the February 2004 meeting of the Audit Committee, the Committee adopted the Audit and Non-Audit Services Pre-Approval Policy, a copy of which is attached to the Proxy Statement as Exhibit II.

#### **REPORT OF THE AUDIT COMMITTEE**

The Audit Committee (Committee) met eight (8) times in 2003. The Committee has reviewed and discussed the audited consolidated financial statements of the Corporation for the year ended December 31, 2003, with the Corporation's management. The Committee has discussed with Ernst & Young, LLP, the Corporation's independent accountants for the fiscal year ended December 31, 2003, the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as modified or supplemented.

The Committee has also received the written disclosures and the letter from Ernst & Young, LLP required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees), and the Committee has discussed the independence of Ernst & Young, LLP with that firm.

Based on the Committee's review and discussions noted above, the Committee recommended to the Board of Directors that the Corporation's audited consolidated financial statements be included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the Securities and Exchange Commission.

#### **UNIVEST AUDIT COMMITTEE:**

Merrill S. Moyer, Chairman

P. Gregory Shelly  
John U. Young

#### **Appointment of Independent Auditors for 2004**

On January 14, 2004, Univest retained KPMG, LLP, (KPMG) as its new independent auditor for the fiscal year ending December 31, 2004. Ernst & Young, LLP, (E&Y) was dismissed on January 14, 2004, but will continue to serve as the independent auditor for the fiscal year ending December 31, 2003. The decision to change the independent auditor was recommended and approved by the Audit Committee.

During each of the fiscal years ended December 31, 2002 and 2003, none of E&Y's reports on the financial statements of Univest contained an adverse opinion or a disclaimer of opinion or was qualified or modified as to uncertainty, audit scope or accounting principle, and there were no disagreements between Univest and E&Y on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement(s), if not resolved to the satisfaction of E&Y would have caused it to make reference to the subject matter of the disagreement(s) in connection with its reports. There were no reportable events as that term is defined in Item 304 (a)(1)(v) of Regulation S-K occurring within Univest in the two most recent fiscal years.

During Univest's two most recent fiscal years and, through the date of engagement, Univest did not consult with KPMG regarding any of the matters or events set forth in Item 304 (a)(2) of Regulation S-K.

In previous years, shareholder ratification of the selection of the independent auditor for the Corporation was requested at the annual shareholder meeting. In the spirit of the new corporate governance requirements of the Sarbanes-Oxley Act of 2002, and Section 10A (m)(2) of the Securities Exchange Act of 1934, as amended, which states "The audit committee of each issuer, in its capacity as a committee of the board of directors, shall be directly responsible for the appointment, compensation, and oversight of the work of any registered public accounting firm employed by the issuer (including resolution of disagreements between management and the auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work, and each such registered public accounting firm shall report directly to the audit committee" the Audit Committee, with the approval of the Board of Directors, has determined that a ratification vote would inhibit the committee's ability to make timely decisions with respect to the appointment and/or dismissal of the independent auditing firm and has therefore recommended removal of the ratification vote from the proxy process.

Representatives from both E&Y, as auditor for the fiscal year ending December 31, 2003, and KPMG, as auditor for the current fiscal year, are expected to be present at the Annual Meeting and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

\* The Corporation has a stock-for-stock-option exchange (or cashless exercise) program in place, whereby optionees can exchange the value of the spread of in-the-money options for Corporation stock having an equivalent value. This exchange allows the executives to exercise their options on a net basis without having to pay the exercise price in cash. However, it will result in the executives acquiring less shares than the number of options exercised. Two of the named executives utilized this program in 2003.

\*\* Value Realized is calculated by subtracting the exercise price from the Fair Market Value as of exercise date. Fair Market Value is calculated as the mean of the closing bid and asked prices of the Corporation's common stock as reported by the Nasdaq Stock Market.

**UNIVEST CORPORATION OF PENNSYLVANIA  
BOARD COMPENSATION COMMITTEE  
REPORT ON EXECUTIVE COMPENSATION**

The Compensation Committee of the Board of Directors ( Committee ) for the fiscal year ended December 31, 2003 was comprised of five independent members appointed by the Board of Directors: James L. Bergery, R. Lee Delp, Charles H. Hoeflich, Thomas K. Leidy, and Merrill S. Moyer. The Committee met twelve (12) times in 2003.

The Committee's responsibilities include reviewing and approving corporate goals and objectives, including financial performance and shareholder return, relevant to approving the annual compensation of the Corporation's CEO, executive officers, and other key management personnel through consultation with management and the Corporation's independent professional compensation consultants. Recommendations

are made to the Board of Directors with respect to overall incentive-based compensation plans, including equity based plans, which includes a review of the Corporation's management development and succession plans. In addition the Committee will review and recommend changes to the annual retainer and committee fee structure for non-employee directors on the Board of Directors. The committee's charter is available at the Corporation's website on the internet: [www.univest.net](http://www.univest.net).

#### **EXECUTIVE COMPENSATION POLICY**

The principal objective of the Corporation is to maximize shareholder value through the development and enhancement of the Corporation's business operations. To further that objective, the Corporation's executive compensation program is designed to:

Attract and retain quality talent, which is critical to both the short-term and long-term success of the Corporation.

Support strategic performance objectives through the use of compensation programs.

Create a mutuality of interest between executive officers and shareholders through compensation structures that share the rewards and risks of strategic decision-making.

Require executives to acquire substantial levels of ownership of Corporation stock in order to better align the executives' interests with those of the shareholders through a variety of plans.

Ensure that compensation has been and will continue to be tax deductible.

An executive's total compensation is composed of three primary components: base salary compensation, annual incentive compensation, and long-term incentive compensation. Each component is based on individual and group performance factors, which are measured objectively and subjectively by the Committee.

#### **BASE SALARY COMPENSATION**

The Committee's approach is to offer competitive salaries in comparison with market practices. The Committee annually examines market compensation levels and trends observed in the labor market. For its purposes, the Committee has defined the labor markets as the pool of executives who are currently employed in similar positions in companies with similar market capitalization, with special emphasis placed on salaries paid by companies that constitute the banking industry. Market information is used as a frame of reference for annual salary adjustments and starting salaries.

The Committee makes salary decisions in a structured annual review. The Committee considers decision-making responsibilities, experience, work performance and achievement of key goals, and team-building skills of each position as the most important measurement factors in its annual reviews. To help quantify these measures, the Committee has, from time to time, enlisted the assistance of independent compensation consultants.

#### **IRC § 162(m)**

Internal Revenue Code Section 162(m) imposes a limitation on the deduction for certain executive officers' compensation unless certain requirements are met. The Corporation and the Committee have carefully considered the impact of these tax laws and have taken certain actions intended to preserve the Corporation's tax deduction with respect to any affected compensation.

## **ANNUAL INCENTIVES**

Univest established an annual incentive plan to reward executive officers for accomplishing annual financial objectives. The weighted financial measures (Return on Assets) and related targets for the plan are set forth in the preceding fiscal year by the Committee. For executive officers, other than the CEO, consideration is given to the overall corporate performance and performance of the specific areas of the Corporation under a participant's direct control. This balance supports the accomplishment of overall objectives and rewards individual contributions by the executive officers. Individual annual bonus level targets are consistent with market practices for positions with comparable decision-making responsibilities.

The average bonus earned under the Plan in 2003 by the four executive officers at year-end other than the CEO (which appear in the summary compensation table) was 25% of their base salaries. For the executive officers, excluding the CEO, payments ranged from \$35,827 to \$54,000 and were indicative of the strong performance demonstrated by the Corporation and the individuals. With respect to performance, Return on Assets for 2003 was 1.57%, reflecting continued strong financial performance.

## **LONG-TERM INCENTIVES**

At last year's Annual Meeting, the shareholders approved the Univest 2003 Long-Term Incentive Plan. This plan replaced the 1993 Univest Long-Term Incentive Plan. The purpose of the plan is to enable employees of the Corporation to: (i) own shares of stock in the Corporation, (ii) participate in the shareholder value which has been created, (iii) have a mutuality of interest with other shareholders and (iv) enable the Corporation to attract, retain and motivate key employees of particular merit.

Participation in the Long-Term Incentive Plan is determined by the Committee. The plan authorizes the Committee to grant both stock and/or cash-based awards through incentive and non-qualified stock options, stock appreciation rights, restricted stock, and/or long-term performance awards to participants. With respect to these grants, 1,000,000 shares will be set aside for these long-term incentives. At the time of an award grant, the Committee will determine the type of award to be made and the specific conditions upon which an award will be granted (i.e. term, vesting, performance criteria, etc.). The terms of the awards will be based on what the Committee determines is the most effective performance compensation approach to meet Univest's strategic needs.

Univest provides non-qualified pension plans for certain executive officers, including certain individuals, some named in the Summary Compensation Table. During 2000, Univest purchased bank-owned life insurance arrangements, which are commonly referred to as BOLI to fund future obligations under these non-qualified pension plans.

The non-qualified pension plans provide an additional retirement benefit paid to the employee beginning at age 65 for a term between 10 and 15 years, plus death benefits.

## **FUTURE AWARD DETERMINATION**

The Committee will continue to reassess Univest's executive compensation program in order to ensure that it promotes the long-term objectives of Univest, encourages growth in shareholder value, provides the opportunity for management investment in the Corporation, and attracts and retains top-level executives who will manage strategically in 2004 and beyond.

**CEO COMPENSATION**

The salary paid to William S. Aichele in 2003 was increased to \$347,885 as compared with \$320,000 in 2002. This increase in base salary was provided to better align Mr. Aichele with the CEOs of a peer group of financial institutions of similar size, geography and performance. Mr. Aichele's bonus award for 2003 was \$139,154. This award represented 40% of his base salary and was determined based on Uninvest's achievement of annual performance measures including return on assets performance and individual performance.

**CONCLUSION**

Through the programs described above, a significant portion of the Corporation's executive compensation is linked directly to individual and corporate performance and growth in shareholder value. The Committee intends to continue the policy of linking executive compensation to individual and corporate performance and growth in shareholder value, recognizing that the business cycle from time to time may result in an imbalance for a particular period.

**RETIREMENT, SALARY CONTINUATION, AND DEFERRED SALARY SAVINGS PLANS**

All officers and employees of the Corporation and its subsidiaries working 1,000 hours or more in a plan year will accrue a benefit in that year and will be included in a nondiscriminatory retirement plan which qualifies under the Internal Revenue Code. The plan is compulsory and non-contributory. Benefits vest when an officer or employee completes five years of credited service. In addition, the Corporation maintains a non-qualified plan, the Supplemental Retirement Plan (the Supplemental Retirement Plan), which provides retirement benefits to eligible employees. The table set forth below illustrates the total combined estimated annual benefits payable under the Univest Retirement Plan and the Supplemental Retirement Plan to eligible salaried employees in hypothetical five (5) year average salary and years of service classification (assuming retirement as of January 1, 2004) are estimated as follows:

<i>Highest Consecutive 5-Year Avg. Salary</i>	<i>Years of Service</i>

Assuming Retirement as of January 1, 2004

Benefit limit under IRC section 415:	not reflected
Maximum recognizable compensation:	not reflected

The annual benefits are estimated on the basis of a straight life annuity notwithstanding the availability of joint and survivor annuitant and certain and continuous annuity options. Benefits are not subject to reduction for Social Security benefits. For purposes of the plan (assuming retirement at normal retirement date), William S. Aichele, Marvin A. Anders, Wallace H. Bieler, K. Leon Moyer and George D. Terry respectively, will have forty-four, forty-seven, forty-five, forty-four and thirty-two years of service. Certain groups of officers and employees have other benefits for past service with now affiliated companies.

A salary continuation plan is provided for the certain individuals, some named in the Summary Compensation Table and to certain other executive management of the Corporation. The plan was established to provide pre- and post-retirement death benefits. Additionally, retirement benefits are payable upon the death, disability, or retirement of the individual covered by the plan and are calculated as a percentage of base salary of the individual adjusted for the cost of living. The retirement benefits payable to the individual or the spouse of the individual are for a minimum of ten (10) years and are determined in amount as of the retirement date. The salary continuation plan is an unfunded promise to pay to the named individuals which is subject to the substantial risk of forfeiture, and the individual is not considered as vested pursuant to the plan.

On an optional basis, all officers and employees who have attained the age of 21 and have completed one month of service may participate in a deferred salary savings plan. In the year 2004, participants may defer

from up to a maximum of \$13,000 if under age 50 and \$16,000 if over age 50. After employees complete 6 months of service, the corporation or its subsidiaries will make a matching contribution of 50% of the first 6% of the participant's salary. All contributions are invested via a trust. The corporation's matching contributions for 2003, amounting to \$371,004, are vested at 50% at the end of two years, 75% at the end of three years, and 100% at the end of four years. Benefit payments normally are made in connection with a participant's retirement. The plan permits early withdrawal of the money under certain circumstances. Under current Internal Revenue Service regulations, the amount contributed to the plan and the earnings on those contributions are not subject to Federal income tax until they are withdrawn from the plan.

Compensation for Group Life Insurance premiums, hospitalization and medical plans, and other personal benefits are provided to all full-time employees and part-time employees averaging a certain number of hours and do not discriminate in favor of officers or directors of the Corporation or its subsidiaries.

#### **NOMINATING COMMITTEE**

The Nominating Committee was formed in November 2003 and met one time during the fiscal year ending December 31, 2003. All members of the Committee are independent as defined by the listing standard rules of Nasdaq Stock Market and the SEC Regulations. The primary purpose of the Committee is to identify individuals for nomination as members of the Board and Board committees as appropriate for the Corporation to discharge its duties and operate in an effective manner to further enhance shareholder value. The nominating committee charter, adopted November 26, 2003 is available for shareholder review on the internet at [www.univest.net](http://www.univest.net) or by requesting a copy in writing from the secretary of the Corporation. Members of the Committee are: James L. Bergey, R. Lee Delp, Charles H. Hoeflich, Thomas K. Leidy, and Merrill S. Moyer.

The committee recommended to the Board the slate of nominees included in this proxy statement for election to the Board of Directors at the annual meeting of shareholders.

Univest has three Alternate Directors who are elected annually by the Corporation's shareholders and serve for one-year terms. The Alternate Director position provides an avenue for the Corporation to nurture future directors that the Board of Directors has determined would qualify as a nominee for the Board of Directors. These alternate directors, by attending board meetings on a regular basis without a vote, stay informed of the activities and condition of the Corporation and stay abreast of general industry trends and any statutory or regulatory developments. The pace of change in today's financial industry makes it imperative that the Corporation maintain a fully informed Board.

The Nominating Committee is responsible for identifying and evaluating individuals qualified to become Board members and to recommend such individuals to the Board of Directors for nomination. In fulfilling its responsibilities to select qualified and appropriate director candidates, the Nominating Committee will seek to balance the existing skill sets of current board members with the need for other diverse skills and qualities that will complement the Corporation's strategic vision. All candidates must possess an unquestionable commitment to high ethical standards and have a demonstrated reputation for integrity. Other facts to be considered include an individual's business experience, education, civic and community activities, knowledge and experience with respect to the issues impacting the financial services industry and public companies, as well as the ability of the individual to devote the necessary time to service as a Director. A majority of the Directors must meet the criteria for independence established by the Nasdaq Stock Market, and the Nominating Committee will consider any conflicts of interest that might impair that independence.

All nominees will be evaluated in the same manner, regardless of whether they are recommended by the Nominating Committee or recommended by a shareholder.

### TRANSACTIONS WITH MANAGEMENT AND OTHERS

Uninvest National Bank and Trust Co. had transactions with directors/officers of Uninvest or their associates in 2003, which comply with regulations of the Comptroller of the Currency and the Federal Reserve System, involving only normal risks which were made in the ordinary course of business on substantially the same

terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and did not involve more than normal risk of collectability or present other unfavorable features.

**AUDIT AND NON-AUDIT SERVICES PRE-APPROVAL POLICY**

The Univest Audit Committee has adopted the following guidelines regarding the engagement of the Corporation's independent auditor to perform audit and non-audit services.

Annually, at the first Audit Committee meeting scheduled for the year, the independent auditor will provide the Committee with an engagement letter outlining the scope of audit services to be performed during the fiscal year. If agreed to by the Committee, this engagement letter will be formally accepted by the Committee. The independent auditor will also present a proposal for non-audit services to be performed. At the same time, Corporation management will submit to the Committee for approval a list of non-audit services it anticipates engaging the independent auditor to perform during the year, including a budget estimate for total non-audit services.

The Committee will consider, through consultation with both management and the independent auditor, that the provision of such non-audit services does not impair the independent auditor's independence and does not include any services on the SEC's prohibited list of non-audit services.\* The Committee will evaluate and approve the non-audit services if in agreement with both the list of permissible non-audit services and the budget for such services.

To ensure prompt handling of unexpected matters, the Committee delegates to the Chair the authority to amend or modify the list of approved permissible non-audit services and fees. The Chair will report action taken to the Committee at the next committee meeting.\*\*

The independent auditor has responsibility to ensure that all audit and non-audit services provided to the Corporation have been approved by the Committee. The Internal Auditor and Chief Financial Officer are responsible for tracking all independent auditor fees, including non-audit services, against the budget for such services, determining if any services are on the prohibited list, and reporting their findings to the Audit Committee quarterly.

\* Prohibited non-audit services include: (1) bookkeeping or other services related to the accounting records or financial statements of the audit client; (2) financial information systems design and implementation; (3) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (4) actuarial services; (5) internal audit outsourcing services; (6) management functions; (7) human resources; (8) broker-dealer, investment adviser or investment banking services; (9) legal services; (10) expert services unrelated to the audit.

\*\* Pre-approval is not required if: (1) the aggregate amount of all non-audit services constitutes no more than 5% of the total revenues paid by the Corporation to the independent auditor during the fiscal year in which the non-audit services are provided; (2) such services were not recognized by the Corporation at the time of the engagement, and (3) those services are promptly brought to the attention of the Audit Committee and approved prior to the completion of the audit.
