The increase in net sales was attributable to: i) an 8.2% revenue growth in the Television Broadcasting segment mainly due to the political advertising campaigns for the mid-term elections in Mexico, the success of Big Brother II, and a 22.2% increase in local sales; ii) a 12.5% revenue growth in the Programming Licensing segment, reflecting higher royalties paid to the Company by Univision under the Univision Program License Agreement, iii) higher sales in the Programming for Pay Television segment; and iv) an increase in sales in the Other Businesses and Radio segments. These increases were partially offset by lower revenues in the Cable Television, Publishing and Publishing Distribution segments.

The Company's EBITDA in the second quarter of 2003 increased 34.0% as compared to the second period of last year, and EBITDA margin increased to 34.8%. Additionally, operating income increased 43.0%. These increases primarily resulted from revenue growth and lower costs of sales and operating expenses.

The Company generated income from continuing operations in the amount of Ps.1,277.0 million in the second quarter of 2003 as compared to an income from continuing operations of Ps.76.5 million in last year's comparable period. The net increase of Ps.1,200.5 million reflected a Ps.488.4 million increase in operating income; a Ps.417.6 million increase in equity in results of affiliates; a Ps.408.0 million increase in other income/expense-net; a Ps.345.1 million decrease in restructuring and non-recurring charges; and a decrease in integral cost of financing of Ps.53.2 million.

The Company generated net income in the amount of Ps.1,265.3 million in the second quarter of 2003, as compared to a net income of Ps.1,237.0 million in last year's comparable period. The net increase of Ps.28.3 million reflects a Ps.1,200.5 million increase in income from continuing operations, which was partially offset by a Ps.1,161.4 million decrease in income from discontinued operations, reflecting the disposition of the Company's Music Recording business in the second quarter of 2002.

- (1) Intersegment operations: For segment reporting purposes, intersegment operations are included in each of the segment operations.

### Television Broadcasting

The increase of 8.2% in Television Broadcasting sales in the second quarter of 2003 is mainly attributable to three factors: i) the political advertising campaigns for the mid-term elections in Mexico; ii) the success of the program Big Brother II; and iii) an increase of 22.2% in local sales driven mainly by Channel 4TV. Excluding revenues generated from both the World Cup during the second quarter of last year and political advertising campaigns in the second quarter of 2003, Television Broadcasting sales increased 4.9%.

Television Broadcasting EBITDA increased 25.1% to Ps.1,681.2 million. This increase was driven by higher sales and a 4.2% reduction in cost of sales, partially offset by a 5.4% increase in operating expenses from sales commissions. Operating income increased 29.9% due to higher sales and lower costs of sales, partially offset by higher operating expenses.

### Programming for Pay Television

The 11.3% increase in Programming for Pay Television sales resulted from higher revenues from signals sold to pay television systems in Mexico. This increase was partially offset by a reduction in advertising revenues in Mexico, as well as a reduction in signals sold in Latin America.

Operating income increased 202.7% due to higher sales and lower operating expenses partially offset by higher signal costs.

### Programming Licensing

The 12.5% increase in Programming Licensing sales in the second quarter of 2003 is attributable to an increase in the royalties paid to the Company by Univision under the Univision Program License Agreement, which amounted to U.S.\$24.9 million, including the royalty from the TeleFutura network. This increase was partially offset by lower export sales to Europe and Asia.

Operating income increased 143.6%, reflecting higher sales, lower cost of sales and a reduction in operating expenses, due to a reduction of doubtful trade accounts in Latin America.

### Publishing

Publishing sales decreased marginally 1.9%, or Ps.8.4 million, mainly from the translation effect on foreign-currency denominated sales, which amounted to Ps.12.8 million, considering depreciation of local currencies in Chile,

## Edgar Filing: GRUPO TELEVISIVA S A - Form 6-K

Argentina, Venezuela and Colombia; a 39.3% decrease in Venezuelan sales; and to a lesser degree, a small decrease in circulation and advertising sales abroad. These negative effects were partially offset by a higher advertising revenues in Mexico.

Publishing operating income increased 17.9% due to a reduction in cost of sales and an optimization in the number of magazines printed, partially offset by lower sales and higher operating expenses.

Publishing  
Distribution

Publishing Distribution sales decreased by 4.5% due to a reduction of magazines sold, as well as a reduction in third party owned magazines sold, as well as by the translation effect on foreign-currency denominated sales, which amounted to Ps.14.7 million.

Operating income decreased by Ps.11.4 million due to lower sales, partially offset by lower cost of sales.

Cable  
Television

Cable Television sales decreased 19.7% due to a decrease of subscribers as compared to the second quarter of the previous year, driven mostly by price increases derived from the 10% telecommunication tax and the resulting increase in subscriber piracy. The subscriber base decreased to approximately 392,000, of which over 63,200 subscribers have digital service, as of the end of the second quarter of 2003.

Operating income decreased 35.3% due to lower sales and higher depreciation and amortization costs, relating to the acquisition of computer equipment, partially offset by lower cost of sales and operating expenses.

Radio

Radio sales increased 35.2% related to improved programming and ratings and political advertising campaigns for the mid-term elections in Mexico.

Operating income increased to Ps.3.6 million in the second quarter of 2003 from a loss of Ps.16 million in last year's comparable period. This favorable variance is attributable to higher sales, lower cost of sales and operating expenses.

Other  
Businesses

The 5.0% increase in Other Businesses sales was primarily due to higher sales in the distribution of feature films business, partially offset by lower sales in the sports events and nationwide paging businesses

Operating loss decreased to Ps.106.6 million in the second quarter of 2003 from a loss of Ps.136.7 million in last year's comparable period. This favorable variance was led by higher

sales and lower cost of sales.

### Non-operating Results

#### Integral Cost of Financing

The following table sets forth the Integral Cost of Financing for the three months ended June 30, 2003 and 2002, in millions of Mexican pesos:

	2Q 2003	2Q 2002	Increase (decrease)	Change %
Interest expense	302.8	359.1	(56.3)	(15.7)
Interest income	(188.6)	(173.5)	(15.1)	(8.7)

	172.4	225.6	(53.2)	(23.6)

## Edgar Filing: GRUPO TELEVISIA S A - Form 6-K

The expense attributable to the integral cost of financing decreased by Ps.53.2 million, or 23.6%, to Ps.172.4 million for the second quarter ended June 30, 2003 from Ps.225.6 million for last year's comparable period. This variance reflects: i) a Ps.56.3 million decrease in the interest expense, primarily as result of a decrease in the interest rates in the second quarter of 2003 as compared to second quarter of 2002, which includes a decrease in the restatement of the UDIs, as well as a net gain attributable to interest swap contracts outstanding in the second quarter of 2003; ii) a Ps.15.1 million increase in interest income, primarily as a result of a higher average amount of temporary investments during the second quarter of 2003 as compared to the second quarter of 2002, which was partially offset by a decrease in the interest rates applicable to these temporary investments in the second quarter of 2003 as compared to the second quarter of 2002; iii) a Ps.612.4 million favorable change resulting from a net foreign exchange gain in the second quarter of 2003 versus a net foreign exchange loss in the second quarter of 2002, primarily due to the 3.3% appreciation of the Mexican peso as compared to the U.S. dollar during the second quarter ended June 30, 2003, versus a 10.4 % depreciation of the Mexican peso as compared to the U.S. dollar during the second quarter ended June 30, 2002; and iv) a Ps.100.6 million favorable change resulting from a gain from monetary position in the second quarter of 2003 as compared to a loss from monetary position in the second quarter of 2002, primarily as a result of the Company's net liability monetary position during the second quarter of 2003 as compared to the Company's net asset monetary position during the second quarter of 2002. These decreases in the integral cost of financing were partially offset by a Ps.731.2 million unfavorable change in the hedge effect from the foreign exchange gain or loss derived from the Company's U.S.\$600 million long-term debt securities maturing in 2011 and 2032, which is being hedged by the Company's net investment in Univision.

### Restructuring and Non-recurring Charges

Restructuring and non-recurring charges decreased by Ps.345.1 million, or 88.9%, to Ps.43.1 million for the second quarter of 2003 from Ps.388.2 million for last year's comparable period. This decrease primarily reflects the non-recurring charge taken in the second quarter of 2002 in connection with both the write-off of exclusive rights letters for soccer players and the drawdown by DirecTV under a letter of credit that the Company posted in connection with certain arrangements with DirecTV related to our rights to broadcast last's years World Cup. The decrease in restructuring and non-recurring charges also reflects a decrease in charges related to work force lay-offs in the second quarter of 2003 as compared to the second quarter of 2002. The entire amount registered in the second quarter of 2003 in restructuring and non-recurring charges refers only to personnel layoffs.

### Other Income/Expense-Net

Other income-net increased by Ps.408.0 million to a net income of Ps.141.6 million for the second quarter of 2003 from a net expense of Ps.266.4 million in last year's comparable period. This increase primarily reflects an increase in gain on disposition of assets, primarily in connection with the sale of a portion of the Company's minority interest in the capital stock of its DTH venture in Spain, a reduction in a write-off of goodwill taken in the second quarter of 2002, as well as a decrease in the reserve for doubtful non-trade accounts.

### Income Taxes

Income tax, assets tax and employees' profit sharing increased by Ps.511.8 million to a tax provision of Ps.403.3 million for the second quarter of 2003 from a tax benefit of Ps.108.5 million for the second quarter of 2002. The provision for current income taxes primarily reflected the effect of recognizing assets tax which is higher than income tax, as a consequence of

## Edgar Filing: GRUPO TELEVISIA S A - Form 6-K

an increase in the assets tax base for 2003 as compared to 2002. In addition, this increase was helped by a higher minority income tax, and in 2002 the Company recognized a deferred income tax benefit from an annual decrease in the corporate income tax rate from 35% starting in 2003 and continuing through 2005 when the corporate rate will be 32%.

### Equity in Income/Losses of Affiliates-Net

Equity in income/losses of affiliates increased by Ps.417.6 million to a net income of Ps.129.6 million for the second quarter of 2003 from a net loss of Ps.288.0 million in last year's comparable periods. This increase primarily reflects the discontinuation of the equity method in recognizing additional equity losses in excess of the Company's guaranteed commitments for certain indebtedness of its DTH joint ventures in Latin America, as well as an increase in the equity income of Univision.

### Minority Interest

The minority interest reflects the portion of the operating results attributable to the interest held by third parties in the businesses which are not wholly-owned by the Company, including the Company's cable television, radio and nationwide paging businesses.

Minority interest increased by Ps.10.8 million to Ps.11.7 million for the second quarter of 2003 from Ps.0.9 million for the second quarter of 2002. This increase primarily reflects both an increase in the net income of the Company's Cable Television segment and a decrease in the net loss of the Company's Radio segment for the second quarter of 2003, as compared to the second quarter of 2002.

### Other Relevant Information

#### Capital Expenditures, Acquisitions and Investments

Additionally, in the second quarter of 2003 the Company invested approximately U.S.\$7.3 million in long-term loans provided to its Multi-Country DTH joint venture operating in Colombia and Chile (U.S.\$1.8 million) and its DTH joint venture providing technical services to DTH ventures in Latin America (U.S.\$5.5 million). Innova has not required shareholder funding for the past five quarters and does not expect to require loans or cash equity contributions from its shareholders in the second half of 2003.

In the second quarter of 2003, the Company entered into a long-term credit agreement with a Mexican bank for an aggregate amount of Ps.800 million with an annual interest rate of 8.925% (weighted average) plus additional basis points from 0 to 45 based on the maintenance of certain financial coverage ratios related to indebtedness. The maturities of this indebtedness are as follows: Ps.80 million in 2004, Ps.240 million in 2006 and Ps.480 million in 2008. The net proceeds of this indebtedness were primarily used to pay all of the amounts outstanding under the Series "A" Senior Notes, which matured in May 2003.

In the second quarter of 2003, the Company paid all of the amounts outstanding under a bank loan for approximately (euro)23.6 million Euros. This payment was made with the cash proceeds from the sale of a portion of the Company's minority interest in the capital stock of DTS Distribuidora

de Televisión Digital, S.A., a DTH venture in Spain. The net cash proceeds from this divestiture amounted to approximately (euro)27.5 million Euros.

### Share Buyback Program

Since the implementation of our most recently announced share repurchase program through July 16, 2003, the Company had repurchased approximately 69.6 million shares in the form of 23.2 million CPOs for approximately Ps.352.3 million.

### Television Ratings and Audience share

During weekday prime time (19:00 to 23:00 - Monday to Friday), audience share amounted to 72.6%; in prime time (16:00 to 23:00 - Monday to Sunday), audience share amounted to 69.6%; and in sign-on to sign-off (6:00 to 24:00 - Monday to Sunday), audience share amounted to 71.6%.

Additionally, during the second quarter of 2003, Televisa aired 85 of the 100 most popular programs. Channel 2 continues to be the leader in Mexican television largely due to the success of the telenovelas: "Las Vias del Amor," "Nina, Amada Mia," "Velo de Novia" and "Amor Real."

### Outlook for 2003

Considering the first and second quarter results, the Company continues to believe it is on track to deliver for the full year 2003: i) EBITDA margin at 40% in the Television Broadcasting segment; and ii) Consolidated EBITDA margin at 30%.

**NOTES:**

1) National urban ratings and audience share are certified by IBOPE and are based upon IBOPE's national surveys, which are calculated, seven days a week, in Mexico City, Guadalajara, Monterrey and 24 other cities with a population of over 400,000 people. "Ratings" for a period refers to the number of television sets tuned into the Company's programs as a percentage of the total number of all television households. "Audience share" is the number of television sets tuned into the Company's programs as a percentage of the number of households watching conventional over-the-air television during that period, without regard to the number of viewers.

2) "Total Televisa" includes the Company's four networks as well as all local affiliates (including affiliates of Channel 4, most of which receive only a portion of their daily programming from Channel 4). Programming on affiliates of Channel 4 is generally broadcast in 12 of the 27 cities that

Edgar Filing: GRUPO TELEVISIA S A - Form 6-K

are covered by national surveys. Programming on Channel 9 affiliates is broadcast in all of the cities that are covered by national surveys.

3) "Televisa Prime Time" is the time during which the Company generally charges its highest rates for its networks.
