Mexico City, D.F., October 18, 2007—Grupo Televisa, S.A.B. (NYSE:TV; BMV: TLEVISA CPO; “Televisa” or “the Company”) today announced results for third quarter 2007. The following table sets forth a condensed consolidated statement of income for the three months ended September 30, 2007 and 2006, in millions of Mexican pesos, as well as the percentage of net sales that each line represents, and the percentage change when comparing third quarter 2007 with third quarter 2006:

	<i>3Q 2007</i>	<i>Margin %</i>	<i>3Q 2006</i>	<i>Margin %</i>	<i>Change %</i>
Net sales	10,422.4	100.0	9,569.7	100.0	8.9
Operating income	3,801.4	36.5	3,649.8	38.1	4.2
Consolidated net income	2,619.9	25.1	2,819.5	29.5	(7.1)
Majority interest net income	2,363.9	22.7	2,580.6	27.0	(8.4)

Consolidated net sales increased 8.9% to Ps.10,422.4 million in third quarter 2007 compared with Ps.9,569.7 million in third quarter 2006. This increase reflected higher sales in our Other Businesses, Television Broadcasting, Pay Television Networks, Publishing, Sky Mexico, Cable Television, and Publishing Distribution segments that were partially offset by lower sales in our Programming Exports segment.

Consolidated operating income increased 4.2% to Ps.3,801.4 million in third quarter 2007 compared with Ps.3,649.8 million in third quarter 2006. This increase was attributable to higher sales that were partially offset by higher cost of sales and operating expenses.

Majority interest net income decreased 8.4% to Ps.2,363.9 million in third quarter 2007 compared with Ps.2,580.6 million in third quarter 2006. The net decrease of Ps.216.7 million reflected i) a Ps.6.6 million increase in equity in losses of affiliates, net; ii) a Ps.1,040.1 million increase in income taxes; and iii) a Ps.17.1 million increase in minority interest net income. These unfavorable changes were partially offset by i) a Ps.151.6 million increase in operating income; ii) a Ps.26.6 million decrease in other expense, net; and iii) a Ps.668.9 million decrease in integral cost of financing.

Television Broadcasting

Third-quarter sales increased 3.4% to Ps.5,357.2 million compared with Ps.5,181.6 million in third quarter 2006. This increase was driven by higher advertising sales, which was partially offset by an unfavorable comparison resulting from the transmission of certain games of the FIFA World Cup in the third quarter of 2006.

Third-quarter operating segment income increased 5.9% to Ps.2,782 million compared with Ps.2,626.3 million in third quarter 2006, and the margin increased to 51.9%. These results reflect higher sales that were partially offset by higher cost of sales and operating expenses.

**Pay Television
Networks**

Third-quarter sales increased 33.9% to Ps.470.4 million compared with Ps.351.3 million in third quarter 2006. This increase reflects i) higher revenues from channels sold in Mexico and Latin America; ii) higher advertising sales; and iii) higher sales in TuTV, our pay-television joint venture with Univision.

Third-quarter operating segment income increased 61.8% to Ps.301.7 million compared with Ps.186.5 million in third quarter 2006, and the margin increased to 64.1%. These results were driven by higher sales and lower operating expenses that were partially offset by an increase in cost of sales.

**Programming
Exports**

Third-quarter sales decreased 2% to Ps.585.5 million compared with Ps.597.2 million in third quarter 2006. This decrease reflects a negative translation effect on foreign-currency-denominated sales amounting to Ps.12.5 million. This decrease was partially offset by i) a 3.5% increase in royalties from Univision; and ii) higher programming sales to Asia and Africa.

Third-quarter operating segment income decreased 1.9% to Ps.283.4 million compared with Ps.289 million in third quarter 2006, and the margin remained at 48.4%. These results were driven by lower sales that were partially offset by lower cost of sales and operating expenses.

Publishing

Third-quarter sales increased 15.3% to Ps.811.8 million compared with Ps.703.8 million in third quarter 2006. This increase reflects a greater number of advertising pages sold as well as higher revenues from magazine circulation in Mexico and abroad. Additionally, as of September 1, 2007, we began consolidating in our financial statements the operations of Editorial Atlántida, which represented incremental sales of Ps.43.3 million.

Third-quarter operating segment income increased 6.4% to Ps.155.5 million, compared with Ps.146.2 million in third quarter 2006; the margin was 19.2%. These results were driven by higher sales that were partially offset by higher cost of sales and operating expenses, which reflected primarily the consolidation of Editorial Atlántida.

**Publishing
Distribution**

Third-quarter sales increased 7.7% to Ps.111.5 million compared with Ps.103.5 million in third quarter 2006. This increase reflects higher circulation abroad of magazines published by the Company and by third parties.

Third-quarter operating segment income increased 71.9% to Ps.5.5 million compared with Ps.3.2 million in third quarter 2006, and the margin increased to 4.9%. These results reflect higher sales that were partially offset by an increase in cost of sales and operating expenses.

Sky Mexico

Third-quarter sales increased 5.5% to Ps.2,059.7 million compared with Ps.1,952.1 million in third quarter 2006, reflecting an increase in the subscriber base in Mexico and the launch of Sky operations in Central America, which was partially offset by an unfavorable comparison resulting from advertising and pay-per-view revenues related to the transmission of certain games of the FIFA World Cup in the third quarter of 2006. As of September 30, 2007, the number of gross active subscribers

increased to 1,542,466 (including 107,386 commercial subscribers), compared with 1,411,618 (including 86,155 commercial subscribers) as of September 30, 2006.

Third-quarter operating segment income increased 1.3% to Ps.988.6 million compared with Ps.975.5 million in third quarter 2006, and the margin reached 48%. These results came from higher sales and lower operating expenses that were partially offset by higher cost of sales related mainly to an increase in subscriber acquisition cost due to the high number of subscriber additions during the quarter, higher promotion expenses, and the start-up costs of the operations in Central America.

During third quarter 2007 Sky started operations in Costa Rica and the Dominican Republic. Sky expects to launch operations in Nicaragua shortly and in Panama and Guatemala during first quarter 2008.

Cable Television **Third-quarter sales** increased 17.2% to Ps.605.1 million compared with Ps.516.3 million in third quarter 2006. This increase was attributable to i) a 13.2% increase in the number of subscribers, which, as of September 30, 2007, reached 538,073, all of which are digital subscribers, compared with 475,506 subscribers (including 411,015 digital subscribers) reported during third quarter 2006; ii) a 53.3% increase in broadband subscribers to 132,585 compared with 86,470 reported during third quarter 2006; iii) a 3% average rate increase effective March 1, 2007; and iv) higher advertising sales.

Third-quarter operating segment income increased 1.6% to Ps.219.9 million compared with Ps.216.4 million in third quarter 2006, and the margin reached 36.3%. These results reflected higher sales that were partially offset by an increase in programming and advertising expenses and the start-up costs associated with the telephony service.

Other Businesses **Third-quarter sales** increased 53.5% to Ps.744.6 million compared with Ps.485.2 million in third quarter 2006. This increase was attributable to higher sales in our gaming, internet portal, feature-film distribution, soccer, and radio businesses.

Third-quarter operating segment loss increased to Ps.16.9 million compared with a loss of Ps.16 million in third quarter 2006, reflecting higher cost of sales and operating expenses that were partially offset by higher sales.

Corporate Expense

We recognized a share-based compensation expense for the third quarter 2007 and 2006 of approximately Ps.37.3 million and Ps.43.1 million, respectively. Share-based compensation expense is measured at fair value at the time the equity benefits are granted to our officers and employees and is recognized as a corporate expense over the related vesting period by accruing in majority stockholders' equity.

Non-operating Results

Other expense, net

Other expense, net, decreased by Ps.26.6 million, or 44.7%, to Ps.32.9 million in third quarter 2007, compared with Ps.59.5 million in third quarter 2006. This decrease reflected primarily a gain on disposition of investment as well as a reduction in donations in third quarter 2007. These favorable variances were partially offset by an increase in advisory and professional legal services.

Integral cost of financing

The following table sets forth our integral cost of financing for the three months ended September 30, 2007 and 2006, in millions of Mexican pesos in purchasing power as of September 30, 2007, which consisted of:

	<i>3Q</i>	<i>3Q</i>	<i>Increase</i>
	<i>2007</i>	<i>2006</i>	<i>(decrease)</i>
Interest expense	523.7	498.1	25.6
Interest income	(456.4)	(285.2)	(171.2)
Foreign exchange (gain) loss, net	(198.8)	442.0	(640.8)
Loss from monetary position, net	157.9	40.4	117.5

Integral cost of financing, net 26.4 695.3 (668.9)

The integral cost of financing, net, decreased by Ps.668.9 million, to Ps.26.4 million in third quarter 2007 from Ps.695.3 million in third quarter 2006. This decrease reflected primarily i) a Ps.640.8 million foreign exchange favorable effect resulting primarily from our net monetary foreign currency asset position, in conjunction with a 1.15% depreciation of the Mexican peso against the U.S. dollar in third quarter 2007 compared with a 3.26% appreciation of the Mexican peso against the U.S. dollar in third quarter 2006; and ii) a Ps.171.2 million increase in interest income primarily in connection with a higher amount of temporary investments in third quarter 2007 compared with last year's third quarter. These favorable variances were partially offset by i) a Ps.25.6 million increase in interest expense, due primarily to a higher principal amount of long-term debt in third quarter 2007; and ii) a Ps.117.5 million increase in loss from monetary position resulting primarily from a higher average of net monetary asset position in third quarter 2007 compared with third quarter 2006.

Equity in losses of affiliates, net

Equity in losses of affiliates, net, increased by Ps.6.6 million, or 4.6%, to Ps.149 million in third quarter 2007 compared with Ps.142.4 million in third quarter 2006. This increase reflected primarily a reduction of equity in income of OCEN, a live-entertainment venture in Mexico, and EMI Televisa Music, a music joint-venture in the United States. These unfavorable variances were partially offset by a reduction of equity in loss of La Sexta, a free-to-air television channel in Spain.

Income taxes

Income taxes increased by Ps.1,040.1 million, to an income tax provision of Ps.973.2 million in third quarter 2007 from an income tax benefit of Ps.66.9 million in third quarter 2006 that resulted from a non-recurring tax deduction.

Minority interest net income

Minority interest net income increased by Ps.17.1 million, or 7.2%, to Ps.256 million in third quarter 2007, from Ps.238.9 million in third quarter 2006. This increase primarily reflected the portion of consolidated net income attributable to interests held by minority equity owners in our Sky Mexico business.

Temporary investments include Ps.2,912.2 million and Ps. 1,087 million of long-term temporary investments in 2007 and 2006, respectively.

Registration of 8.49% Senior Notes due 2037

In September 2007, we concluded the exchange of unregistered 8.49% Senior Notes due 2037 for registered 8.49% Senior Notes due 2037. As a result, approximately 99.3% of the Senior Notes issued in second quarter 2007 for an aggregate principal amount of Ps.4,500 million, were registered with the U.S. Securities and Exchange Commission.

Share buyback program

During third quarter 2007, we repurchased approximately 13 million CPOs in the aggregate nominal amount of approximately Ps.728.1 million.

Television ratings and audience share

National urban ratings and audience share reported by IBOPE confirm that Televisa continued to deliver strong ratings and audience shares in third quarter 2007. During weekday prime time (19:00 to 23:00, Monday to Friday), audience share amounted to 69.3%; in prime time (16:00 to 23:00, Monday to Sunday), audience share amounted to 69.7%; and in sign-on to sign-off (6:00 to 24:00, Monday to Sunday), audience share amounted to 71.3%.

Outlook for 2007

We expect Television Broadcasting sales to decrease by approximately 3% during the year and we expect our full-year operating segment income margin to be close to 50%.

¹ National urban ratings and audience share are certified by IBOPE and are based upon IBOPE's national surveys, which are calculated seven days a week, in Mexico City, Guadalajara, Monterrey, and 25 other cities with a population of more than 500,000 people. "Ratings" for a period refers to the number of television sets tuned into the Company's programs as a percentage of the total number of all television households. "Audience share" is the number of television sets tuned into the Company's programs as a percentage of the number of households watching conventional over-the-air television during that period, without regard to the number of viewers.

² "Total Televisa" includes the Company's four networks as well as all local affiliates (including affiliates of Channel 4, most of which receive only a portion of their daily programming from Channel 4). Programming on affiliates of Channel 4 is generally broadcast in 12 of the 28 cities covered by national surveys. Programming on Channel 9

affiliates is broadcast in all of the cities covered by national surveys.

³ "Televisa Prime Time" is the time during which the Company generally charges its highest rates for its networks.
