**LITHIA MOTORS REPORTS RECORD REVENUES AND RECORD NET INCOME FOR THE FULL-YEAR 2004**

**Lithia Motors' Highlights for continuing operations for period ended Dec. 31, 2004:**

**Full-Year 2004**

Operating Profits:	+21%
Net Income:	+20%
Operating Margin (EBIT) :	3.5% (+30 basis points)

**MEDFORD, OREGON, February 18, 2005 (5:00 a.m. Pacific)** - Lithia Motors, Inc. (NYSE: LAD) today announced that net income from continuing operations rose 20% to \$42.6 million for the full-year 2004 compared to \$35.6 million in 2003. Earnings per share from continuing operations, excluding the dilutive effect of the change in accounting for convertible notes, rose 16% to \$2.22 per share versus \$1.92 in the same period last year. Including the effect of the accounting change for convertible notes earnings per share from continuing operations were \$2.12 per fully diluted share.

Full-year 2004 revenues increased 9% to \$2.75 billion from \$2.51 billion in 2003. New vehicle sales increased 10%, used vehicle sales increased 4%, parts/service sales increased 16%, and finance/insurance sales increased 13%.

Sidney B. DeBoer, Lithia's Chairman and Chief Executive Officer, commented, "During 2004 we continued to grow our business and we were able increase margins across all business lines. The full-year operating margin improved 30 basis points to 3.5%, as compared to the same period last year."

The total gross profit margin for the year improved 80 basis points as compared to the same period last year. Sales general & administrative (SG&A) expense, as a percentage of gross profit, improved by 160 basis points as compared to last year.

"We owe our margin improvements for the year to a store network that runs on strong operating systems that are common to all stores, the improving strength of our workforce and a regional market focus. Our ability to integrate new stores, and improve the performance of existing stores is better today than ever before. We are building our company for long-term success," concluded Mr. DeBoer.

## Edgar Filing: LITHIA MOTORS INC - Form 8-K

For the fourth quarter, Lithia's net income from continuing operations was \$9.9 million equal to \$9.9 million in the same period last year. Earnings per share from continuing operations, excluding the dilutive effect of the change in accounting for convertible notes, were \$0.52, the same as in the fourth quarter of last year. Including the effect of the accounting change for convertible notes, earnings per share from continuing operations were \$0.48 per fully diluted share.

Fourth quarter total revenues increased 9% to \$669.8 million from \$612.2 million in the same period last year. New vehicle sales increased 8%, used vehicle sales increased 10%, parts/service sales increased 13%, and finance/insurance sales increased 15%.

Jeffrey B. DeBoer, Senior Vice President and CFO added, "In the fourth quarter, Lithia completed four acquisitions; Chrysler and Jeep franchises in Santa Rosa, California; BMW of Anchorage, Alaska; Lithia Chrysler Dodge Jeep of Santa Fe, New Mexico and Lithia Dodge of Helena, Montana. These

stores have combined annualized sales of approximately \$60 million. More recently, we acquired Chrysler and Jeep franchises in Concord, California that were added to our Dodge store in that market, a Chrysler franchise in Eugene, Oregon that was added to our Dodge store in that market and finally a Chrysler Dodge Jeep store in Omaha, Nebraska. So far this year we have completed acquisitions with approximately \$110 million in annualized sales. For the year, we acquired approximately \$340 million in annualized sales, which represents nearly 14% growth on our total revenues of \$2.5 billion in 2003."

"Our guidance for the first quarter and full-year 2005 is included in the table below. It includes the effect of the new accounting pronouncements for convertible notes and stock options," concluded Jeffrey B. DeBoer.

EPS excluding new accounting	1Q 2005	2005	2004
pronouncements:	\$0.43 - \$0.45	\$2.33 - \$2.43	\$2.22
Effect of Convertible Notes	(\$0.03)	(\$0.16)	(\$0.10)
Effect of FAS 123(R) (6 months)	-	(\$0.05)	N/A
EPS - Reportable	\$0.40 - \$0.42	\$2.12 - \$2.22	N/A

In October of 2004, the Financial Accounting Standards Board's Emerging Issues Task Force (EITF) ratified Issue No. 04-8, requiring the company to include in its share count in determining diluted earnings per share, the shares potentially issuable to the holders of its \$85,000,000 in principle amount 2.875% Senior Subordinated Notes Due 2014, even though the holder of such notes cannot convert the notes into common stock except under certain limited circumstances and then only at a conversion price of approximately \$37.69 per share. Previously, the shares issuable would only have been included in the calculation of diluted EPS if the holders were then entitled to convert the notes. For purposes of calculating diluted EPS for the fourth quarter and full-year ended 2004, Lithia was required to increase its share count by the amount contingently issuable to the noteholders. This resulted in an additional 2.256 million shares for the fourth quarter and 1.485 million shares for the full-year. Adoption of the accounting statement change does not affect the cash flow of the company.

Also in December 2004, the Financial Accounting Standards Board ("FASB") issued Financial Accounting Standards Statement 123 (revised 2004) ("FAS 123 (R)") that will require that the value of all equity-based compensation arrangements, including stock options and employee stock purchase plans, be accounted for using a "fair value" method. Previously, the Company had accounted for such arrangements under the "intrinsic method" permitted by APB 25. The new rules, absent any change, will be effective for the Company commencing with the third quarter of 2005. Adoption of this accounting change does not affect the cash flow of the Company.
