EXPRESS SCRIPTS TO OUTSOURCE AN ADDITIONAL \$1.8 BILLION OF ANNUAL BRANDED
PHARMACEUTICAL DISTRIBUTION TO CARDINAL HEALTH

Cardinal Health reaffirms earnings estimates for the quarter and fiscal year
Company also provides revenue growth guidance for pharmaceutical
distribution segment

DUBLIN, OHIO December 13, 2002 - Cardinal Health, Inc. (NYSE: CAH), the leading provider of products and services supporting the health care industry, announced today it has expanded its relationship with Express Scripts, Inc., one of the nation's pre-eminent pharmacy benefits managers. Beginning in February of 2003, Express Scripts will outsource to Cardinal Health an additional approximately \$1.8 billion per year of branded pharmaceuticals previously purchased direct and self distributed.

"This new agreement represents an emerging trend in the pharmaceutical distribution industry," said James F. Millar, president and chief executive officer of Health Care Products and Services for Cardinal Health. "We are excited to substantially expand our already strong relationship with Express Scripts. With over twenty-five percent of the \$170 billion pharmaceutical market currently purchasing direct from manufacturers, our potential for gaining additional distribution customers who, like Express Scripts, seek to outsource their warehousing and distribution is significant. Cardinal Health's extensive network, value-added services, and superior customer service offer real benefits to Express Scripts and others who seek a partner to efficiently manage their pharmaceutical supply."

The Pharmaceutical Distribution and Provider Services segment will directly benefit from the Express Scripts agreement. The contract is expected to be implemented during the third quarter of the fiscal year and be fully operational by the fourth quarter ending June 2003. This contract will help accelerate projected segment revenue growth from the low double digits in the second and third quarter of the current fiscal year to the mid-teens in the fourth quarter.

The company is comfortable with current Wall Street earnings per share estimates for the quarter and the year, and today reaffirmed its previous guidance for annual earnings per share growth in the range of 20 percent to 22 percent.

About Cardinal Health

Cardinal Health, Inc. (www.cardinal.com) is a leading provider of products and services supporting the health-care industry. Cardinal Health companies develop, manufacture, package and market products for patient care; develop drug-delivery technologies; distribute pharmaceuticals, medical-surgical and laboratory supplies; and offer consulting and other services that improve quality and efficiency in health care.
