Note 1. Summary of Significant Accounting Policies

Business Overview

Healthcare Realty Trust Incorporated (the “Company”) is a real estate investment trust (“REIT”) that integrates owning, managing, financing and developing income-producing real estate properties associated primarily with the delivery of outpatient healthcare services throughout the United States. The Company had investments of approximately \$3.1 billion in 199 real estate properties and mortgages as of September 30, 2013. The Company’s 194 owned real estate properties are located in 28 states and total approximately 13.6 million square feet. The Company provided property management services to approximately 10.2 million square feet nationwide.

Principles of Consolidation

The Condensed Consolidated Financial Statements include the accounts of the Company, its wholly-owned subsidiaries, joint ventures, partnerships, and other affiliates, as well as certain variable interest entities (“VIEs”) in prior periods where the Company controlled the operating activities of the VIE. The Company reports noncontrolling interests in less-than-wholly-owned consolidated subsidiaries of the parent as a component of total equity on the Condensed Consolidated Balance Sheets to distinguish between the interests of the parent company and the interests of the noncontrolling interest holders.

The Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements that are included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012. Management believes, however, that all adjustments of a normal, recurring nature considered necessary for a fair presentation have been included. All material intercompany transactions and balances have been eliminated in consolidation.

This interim financial information should be read in conjunction with the financial statements and Management’s Discussion and Analysis of Financial Condition and Results of Operations included in this report and in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012. This interim financial information does not necessarily represent or indicate what the operating results will be for the year ending December 31, 2013 for many reasons including, but not limited to, acquisitions, dispositions, capital financing transactions, changes in interest rates and the effects of other trends, risks and uncertainties.

Use of Estimates in the Condensed Consolidated Financial Statements

Preparation of the Condensed Consolidated Financial Statements in accordance with GAAP requires management to make estimates and assumptions that affect amounts reported in the Condensed Consolidated Financial Statements and accompanying notes. Actual results may differ from those estimates.

Reclassifications

Certain amounts in the Company’s Condensed Consolidated Financial Statements for prior periods have been reclassified to conform to the current period presentation. Assets held for sale, and related liabilities, have been reclassified in the Company’s Condensed Consolidated Balance Sheets, and the operating results of those assets, including assets sold, have been reclassified from continuing to discontinued operations for all periods presented.

In the second quarter of 2013, the Company reclassified certain non-real estate related personal property from "personal property" in "total real estate properties" to "other assets" on the Company's Condensed Consolidated Balance Sheets. As of September 30, 2013, this amount totaled \$23.3 million in "personal property" and \$7.2 million in "accumulated depreciation". As of December 31, 2012, the Company reclassified \$10.4 million from "personal property" and \$6.1 million from "accumulated depreciation", resulting in a net increase to "other assets" of approximately \$4.3 million.

New Pronouncements

In February 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-02, Reporting Amounts Reclassified Out of Accumulated Other Comprehensive Income ("ASU 2013-02"). ASU 2013-02 requires an entity to present, either on the face of the statement where net income is presented or in the notes to the financial statements, significant amounts reclassified out of accumulated other comprehensive income (loss) by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. Amounts that are not required to be reclassified in their entirety to net income must be cross-referenced to other disclosures that provide additional detail. This guidance was effective on a prospective basis for the annual and interim reporting periods for the Company beginning January 1, 2013. The Company's adoption of this standard did not have a significant impact on its Condensed Consolidated Financial Statements. The Company's accumulated other comprehensive loss is comprised of one item pertaining to the Company's defined benefit pension plan. Reclassification of the amortization of this item occurs on an annual basis in the fourth quarter of each fiscal year.

Note 2. Real Estate Investments

2013 Acquisitions

Third Quarter

In August 2013, the Company purchased a 205,573 square foot medical office building and garage in Indiana for a purchase price and cash consideration of \$44.3 million. The property is 87% leased with expirations through 2029. The property is connected to and is 48% leased by St. Joseph's Medical Center, which is part of the CHE Trinity ("AA" rated) system, that opened in December 2009.

In September 2013, the Company purchased an 80,153 square foot medical office building in Colorado for a purchase price of approximately \$33.2 million, including cash consideration of \$21.2 million and the assumption of debt of \$12.0 million (excluding a \$0.7 million fair value adjustment premium recorded upon acquisition). The mortgage note payable assumed by the Company bears a contractual interest rate of 6.17% and matures in 2027. The building is 100% leased with lease expirations through 2028. The property is connected to and is 71% leased by Poudre Valley Health System, which is part of the University of Colorado Health ("A+" rated) system.

Also in September 2013, the Company purchased an 186,000 square foot orthopedic facility in Missouri for a purchase price of approximately \$102.6 million. The Company funded the development of the facility through a construction mortgage loan of approximately \$97.2 million that upon acquisition was eliminated in the Company's Condensed Consolidated Financial Statements. At the closing of the purchase, the outstanding loan balance was credited to the purchase price and the Company paid an additional \$5.4 million in cash consideration. Subsequent to the acquisition, the Company funded an additional \$2.8 million and anticipates funding approximately \$6.0 million to complete the development during the fourth quarter of 2013. The building is 100% leased to Mercy Health ("AA-" rated) through 2027.

Second Quarter

In April 2013, the Company purchased a 42,627 square foot inpatient rehabilitation facility in Texas for a purchase price and cash consideration of \$16.3 million. The property is 100% leased to one tenant.

First Quarter

In January 2013, the Company purchased a 52,225 square foot medical office building in Tennessee for a purchase price and cash consideration of \$16.2 million. The property is 100% leased to four tenants and is adjacent to a 39,345 square foot medical office building the Company purchased in October 2012.

(1) The mortgage note payable assumed in the acquisition does not reflect the fair value adjustment of \$0.7 million recorded by the Company upon acquisition (included in Other).

Subsequent Acquisitions

In October 2013, the Company acquired the following properties:

an 81,717 square foot medical office building located in the state of Washington for a purchase price of \$34.9 million. The property is 100% leased with lease expirations through 2019 and is adjacent to two hospital campuses and affiliated with Providence Health and Services ("AA" rated). The Company assumed a mortgage note payable of \$16.6 million on the property that bears interest at a rate of 6.01% and matures in 2036.

a 70,138 square foot medical office building in Colorado for a purchase price of \$21.6 million. The property is on the same campus as the 80,153 square foot medical office building the Company purchased in September 2013. The building was 83% leased to three tenants at the time of acquisition with lease expirations through 2026. The property is connected to and affiliated with the University of Colorado Health ("A+" rated) system.

a 90,633 square foot medical office building in North Carolina for a purchase price of \$20.3 million. The property is 100% leased with expirations through 2021 and is affiliated with CaroMont Health ("A+" rated). The Company assumed a mortgage note payable of \$11.2 million on the property that bears interest at a rate of 5.86% and matures in 2016.

2013 DispositionsThird Quarter

In July 2013, the Company disposed of a 62,782 square foot inpatient rehabilitation facility in Florida pursuant to a purchase option exercise and in which the Company had an aggregate net investment of \$7.4 million. The sales price was approximately \$11.9 million comprised of \$11.7 million in net cash proceeds and closing costs of \$0.2 million. The Company recognized a \$4.3 million gain on the disposal of this property that was previously classified as held for sale.

Also in July 2013, the Company disposed of an 82,000 square foot inpatient rehabilitation facility in Alabama pursuant to a purchase option exercise and in which the Company had an aggregate net investment of \$11.2 million. The sales price was approximately \$17.5 million comprised of \$17.4 million in net cash proceeds and closing costs of

\$0.1 million. The Company recognized a \$6.2 million gain on the disposal of this property that was previously classified as held for sale.

In September 2013, the Company disposed of two inpatient rehabilitation facilities totaling 155,884 square feet located in Pennsylvania pursuant to two purchase option exercises in which the Company had an aggregate net investment of \$24.8 million. The sales price was approximately \$35.2 million comprised of \$34.5 million in net cash proceeds and closing costs of \$0.7 million. The Company recognized a \$9.7 million gain on the disposal of these properties. These properties were not previously classified as held for sale.

Second Quarter

In April 2013, the Company disposed of a 17,696 square foot medical office building in Tennessee, in which the Company had an aggregate net investment of \$0.4 million. The sales price of \$0.6 million was funded by the Company under a mortgage note receivable that matures on April 30, 2018 and bears interest at 7.5% per annum. The approximate \$0.2 million gain has been deferred and will be recognized as payments on the mortgage note are made under the installment method. The property was previously classified as held for sale.

In May 2013, the Company disposed of an 8,000 square foot medical office building in Texas, in which the Company had an aggregate net investment of \$0.9 million. The sales price was approximately \$1.3 million comprised of \$1.2 million in net cash proceeds and closing costs of \$0.1 million. The Company recognized a \$0.3 million gain on the disposal. The property was not previously classified as held for sale.

In May 2013, the Company disposed of a 100,920 square foot medical office building in Texas. The Company had an aggregate net investment of \$3.0 million in this property including the effects of a \$0.3 million impairment charge recorded in the first quarter of 2013 based on the execution of the sales agreement, a level 2 input. The sales price was approximately \$3.2 million comprised of \$3.0 million in net cash proceeds and closing costs of \$0.2 million. The Company recognized an immaterial gain on the disposal of this property that was previously classified as held for sale.

In June 2013, the Company disposed of a 9,153 square foot medical office building and a 22,572 square foot medical office building, both in Iowa, in which the Company had an aggregate net investment of approximately \$5.3 million. The total sales price and cash consideration for the two properties were \$6.9 million. In connection with the sales, the Company repaid a mortgage note payable of \$1.1 million and incurred debt extinguishment costs of \$0.3 million. The Company recognized a \$1.5 million aggregate gain on the disposal of the two properties, including the write-off of a straight-line rent receivable of \$0.1 million. The properties were not previously classified as held for sale.

First Quarter

In March 2013, the Company disposed of 15.1 acres of land in Texas in which the Company had an aggregate net investment of approximately \$8.1 million. The sales price was approximately \$5.0 million, which included \$1.1 million in net cash proceeds, the origination of a \$3.7 million Company-financed mortgage note receivable and closing costs of \$0.2 million. The Company-financed mortgage note receivable bears interest of 5.0% in the first year and 6.0% in the second year and matures in March 2015. The Company recognized a \$3.3 million impairment on the disposal based on the contractual sales price, a level 1 input. The land parcel was not previously classified as held for sale.

Mortgage Notes Receivable

Construction Mortgage Note Fundings

During the nine months ended September 30, 2013, the Company funded \$57.8 million on two outstanding construction mortgage notes for build-to-suit facilities leased to Mercy Health ("AA-" rated) based in Saint Louis, Missouri. Details on the two projects are as follows:

On September 27, 2013, the Company acquired an orthopedic facility in Missouri for \$102.6 million, including the elimination of the construction mortgage note receivable totaling \$97.2 million and cash consideration of approximately \$5.4 million. The facility is 100% leased to Mercy Health. The Company provided \$35.6 million in fundings toward the facility under a construction mortgage for the nine months ended September 30, 2013. During the third quarter of 2013, the Company recognized mortgage interest income of approximately \$1.7 million and single-tenant net lease rental income of approximately \$0.1 million. The Company expects to collect single-tenant net lease rental income of approximately \$2.3 million in the fourth quarter.

At September 30, 2013, the Company had one remaining construction mortgage on the medical office building under construction in Oklahoma affiliated with Mercy Health. The Company provided \$22.2 million in fundings during the nine months ended September 30, 2013, bringing cumulative fundings to date to \$79.0 million. This project, which was originally scheduled to be completed in July 2013, sustained tornado damage in late May 2013. The tornado damage caused a delay in the completion date, and while subject to change, is now expected to be completed by June 2014. Builder's risk insurance is expected to fund the total scope of necessary repairs. The Company will continue to recognize mortgage interest income through the delayed completion and expects to receive interest payments in cash from insurance proceeds. Approximately \$12.2 million remained available under the loan at September 30, 2013.

Company-Financed Mortgage Notes

During 2013, the Company originated the following Company-financed mortgage notes receivable:

\$3.7 million with the purchaser of the land parcel located in Texas that was sold by the Company as discussed in "2013 Dispositions" above. Approximately \$0.6 million in principal was received on this note in the third quarter of 2013.

\$0.6 million with the purchaser of a medical office building located in Tennessee that was sold by the Company as discussed in "2013 Dispositions" above. This note was repaid in full in October 2013, and the Company expects to recognize the deferred gain of \$0.2 million in the fourth quarter of 2013.

Mortgage Note Receivable Maturity

The Company holds a \$40.0 million loan that is secured by a first position mortgage on a multi-tenant office building in Iowa that is 93% leased. The mortgage loan requires interest only payments through maturity in January 2014 at a fixed interest rate of 7.7%. The operating cash flows from the property are sufficient to satisfy the borrower's interest obligations to the Company. The property is also encumbered by a junior mortgage loan payable to another lender having an original principal balance of approximately \$3.6 million. Because of the additional junior mortgage indebtedness and the borrower's limited equity resources, management suspects that the borrower may not be able to repay the full principal balance of the Company's mortgage loan at the maturity date. If the borrower fails to pay the full principal balance at maturity, the Company intends to exercise remedies under the security documents, which could include foreclosure proceedings. Management believes the fair value of the property that secures the mortgage loan exceeds the carrying value of the mortgage note receivable and expects that cash flows from operations will continue to provide a return to the Company at a rate greater than the current loan rate of 7.7%.

Noncontrolling Interest

In January 2013, the Company received a \$1.4 million initial capital contribution from a 40% noncontrolling interest holder in a partnership that owns a medical office building and parking garage in Texas included as a property in stabilization. The partnership owner (HRP MAC III, LLC), in which the Company holds a 60% majority controlling interest, is the borrower under a term loan from the Company of approximately \$10.3 million. These buildings were constructed by the Company and were previously subject to a construction mortgage note totaling \$13.7 million. The Company's equity in and loan to the partnership are eliminated in consolidation.

Discontinued Operations and Assets Held for Sale

During the third quarter of 2013, the Company reclassified five properties located in four states to held for sale. The Company's gross investment in the five properties was approximately \$22.3 million (\$9.0 million, net) at September 30, 2013 with an aggregate square footage of approximately 199,523 feet. In conjunction with management's decision to sell these properties, the Company recorded impairment charges on four of the properties totaling \$6.3 million, or \$0.07 per basic and diluted common share. A company must record an impairment charge on a property held for sale if its carrying value exceeds its estimate of fair value less costs to sell. Fair value amounts used to calculate impairment were based on sales prices in executed purchase and sale agreements on three properties, which is a level 2 input, and supported by a broker estimate of fair value on one property, which is a level 3 input.

Note 3. Notes and Bonds Payable

Third Quarter

In September 2013, the Company assumed a mortgage note payable of approximately \$12.0 million upon acquisition of a real estate property and recorded a fair value premium of approximately \$0.7 million. The mortgage note payable has a contractual interest rate of 6.17% (effective rate of 5.25%) and matures in 2027. See Note 2 of the Condensed Consolidated Financial Statements for more information regarding this transaction.

Second Quarter

In April 2013, the Company redeemed its 5.125% unsecured senior notes due 2014 at a redemption price equal to an aggregate of \$277.3 million, consisting of outstanding principal of \$264.7 million, accrued interest as of the redemption date of \$0.7 million, and a "make-whole" amount of approximately \$11.9 million for the early extinguishment of debt. The unaccreted discount on these notes of \$0.2 million and deferred financing costs of \$0.2 million were written off upon redemption. The Company recognized a loss on early extinguishment of debt of approximately \$12.3 million related to this redemption.

In June 2013, the Company repaid a \$1.1 million mortgage note payable upon disposal of a property in Iowa. In connection with the repayment, the Company incurred a \$0.3 million prepayment penalty which has been recorded as a loss on extinguishment of debt in discontinued operations. See Note 2 to the Condensed Consolidated Financial Statements for additional information about this disposition.

In June 2013, the Company prepaid in full a secured loan from Teachers Insurance and Annuity Association of America ("TIAA") bearing an interest rate of 7.25% at an amount equal to \$94.3 million, consisting of outstanding principal of \$77.0 million, accrued interest as of the redemption date of \$0.5 million and a prepayment penalty of approximately \$16.8 million. The unamortized deferred financing costs on this loan of \$0.5 million were written off upon repayment. The Company recognized a loss on early extinguishment of debt of approximately \$17.4 million related to this prepayment.

First Quarter

In February 2013, the Company entered into an amendment that extended the original maturity date of its unsecured credit facility (the "Unsecured Credit Facility") from October 14, 2015 to April 14, 2017. The amendment also provides the Company with two six-month extension options that could extend the maturity date to April 14, 2018. Each option is subject to an extension fee of 0.075% of the aggregate commitments. Amounts outstanding under the Unsecured Credit Facility bear interest at LIBOR plus an applicable margin rate. The margin rate, which depends on the Company's credit ratings, ranges from 0.95% to 1.75% (currently at 1.4%). In addition, the Company pays a facility fee per annum on the aggregate amount of commitments ranging from 0.15% to 0.35% (currently at 0.30%). In connection with the amendment, the Company paid up-front fees to the lenders of approximately \$2.7 million, included in Other assets, which is being amortized over the term of the facility. The Company wrote-off certain unamortized deferred financing costs of the original facility of approximately \$0.3 million upon execution of the amendment. As of September 30, 2013, the Company had \$185.0 million outstanding under the Unsecured Credit Facility and had a remaining borrowing capacity of approximately \$515.0 million.

In February 2013, the Company repaid in full a mortgage note payable in the amount of \$14.9 million bearing interest at a rate of 6.55% per year.

In March 2013, the Company issued \$250.0 million of unsecured senior notes due 2023 (the "Senior Notes due 2023") that bear interest at 3.75%, payable semi-annually in arrears on April 15 and October 15, commencing October 15, 2013, and mature on April 15, 2023, unless redeemed earlier by the Company. The Senior Notes due 2023 were issued at a discount of approximately \$2.1 million, which yielded a 3.85% interest rate per annum upon issuance. The

Company incurred \$2.1 million in debt issuance costs that are included in Other assets which is being amortized to maturity. The Senior Notes due 2023 have various financial covenant provisions that are required to be met on a quarterly and annual basis. The Company was in compliance with the covenant provisions at September 30, 2013.

Senior Note Repurchase Authorization

The Company's board of directors has authorized the repurchase of up to \$50 million of the Company's outstanding unsecured senior notes due 2017 in open market transactions from time to time. The Company currently has no specific timeframe within which to purchase these notes and has no obligation to repurchase any notes prior to maturity.

Subsequent Activities

In October 2013, the Company assumed mortgage notes payable of approximately \$16.6 million and \$11.2 million in a real estate property acquisitions. See Note 2 of the Condensed Consolidated Financial Statements for more information regarding these transactions.

Note 4. Commitments and Contingencies

Legal Proceedings

The Company is, from time to time, involved in litigation arising in the ordinary course of business or which is expected to be covered by insurance. The Company is not aware of any pending or threatened litigation that, if resolved against the Company, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Under the Company's Employee Stock Purchase Plan, in January of each year, each eligible employee is granted an option to purchase up to \$25,000 of common stock at the lesser of 85% of the market price on the date of grant or 85% of the market price on the date of exercise of such option. The number of shares subject to each year's option becomes fixed on the date of grant. Options granted under the Employee Stock Purchase Plan expire if not exercised within 27 months after each such option's date of grant. The Company recorded approximately \$0.3 million in general and administrative expenses during the first quarter of 2013 relating to the grants of options to its employees under the Employee Stock Purchase Plan based on the Company's estimate of option exercises.

A summary of the activity under the Employee Stock Purchase Plan for the three and nine months ended September 30, 2013 and 2012 is included in the table below.

Note 7. Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, receivables and payables are reasonable estimates of their fair value as of September 30, 2013 and December 31, 2012 due to their short-term nature. The fair value of notes and bonds payable is estimated using cash flow analyses, based on the Company's current interest rates for similar types of borrowing arrangements. The fair value of mortgage notes and notes receivable is estimated based either on cash flow analyses at an assumed market rate of interest or at a rate consistent with the rates on mortgage notes acquired by the Company recently or notes receivable entered into by the Company recently. The table below details the fair value and carrying values for notes and bonds payable, mortgage notes receivable and notes receivable at September 30, 2013 and December 31, 2012.

(Dollars in millions)	September 30, 2013		December 31, 2012	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Notes and bonds payable ⁽¹⁾	\$1,268.2	\$1,318.2	\$1,293.0	\$1,437.2
Mortgage notes receivable ⁽²⁾	\$126.4	\$126.4	\$162.2	\$158.3
Notes receivable, net of allowances ⁽²⁾	\$0.1	\$0.1	\$0.1	\$0.1

(1) Level 3 - Fair value derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

(2) Level 2 - Fair value based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant inputs and significant value drivers are observable in active markets.

Disclosure Regarding Forward-Looking Statements

This report and other materials the Company has filed or may file with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made, or to be made, by senior management of the Company, contain, or will contain, disclosures that are "forward-looking statements."

Forward-looking statements include all statements that do not relate solely to historical or current facts and can be identified by the use of words such as "may," "will," "expect," "believe," "anticipate," "target," "intend," "plan," "estimate," "continue," "should," "could" and other comparable terms. These forward-looking statements are based on the current plans and expectations of management and are subject to a number of risks and uncertainties, including the risks, as described in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 that could significantly affect the Company's current plans and expectations and future financial condition and results.

The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Stockholders and investors are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in the Company's filings and reports, including, without limitation, estimates and projections regarding the performance of development projects the Company is pursuing.

For a detailed discussion of the Company's risk factors, please refer to the Company's filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the year ended December 31, 2012.

The purpose of this Management Discussion and Analysis (MD&A) is to provide an understanding of the Company's consolidated financial condition, results of operations and cash flows by focusing on the changes in certain key measures from year to year. MD&A is provided as a supplement to, and should be read in conjunction with, the Company's Consolidated Financial Statements and accompanying notes. MD&A is organized in the following sections:

Overview

Liquidity and Capital Resources

- Trends and Matters Impacting Operating Results

Results of Operations

Overview

The Company's business is to own and operate medical office and other medical-related facilities that produce stable and growing rental income. Additionally, the Company provides a broad spectrum of services needed to own, develop, lease, finance and manage its portfolio of healthcare properties. The Company focuses on outpatient-related facilities located on or near the campuses of large acute care hospitals and associated with leading health systems because management views these facilities as stable, lower-risk real estate investments. In addition to consistent growth in demand for outpatient services, management believes that the Company's diversity of tenants, which includes over 30 physician specialties, as well as surgery, imaging and diagnostic centers, lowers the Company's overall financial and operational risk. Substantially all of the Company's revenues are derived from operating leases on its real estate properties and interest earned on outstanding notes receivable.

Liquidity and Capital Resources

Sources and Uses of Cash

The Company's primary sources of cash include rent and interest receipts from its real estate and mortgage portfolio based on contractual arrangements with its tenants, sponsors, and borrowers, borrowings under its unsecured credit facility due 2017 (the "Unsecured Credit Facility"), proceeds from the sales of real estate properties, the repayments of

mortgage notes receivable, proceeds from public or private debt or equity offerings.

The Company expects to continue to meet its liquidity needs, including funding additional investments, paying dividends, and funding debt service through cash on hand, cash flows from operations, and the cash flow sources addressed above. The Company also had unencumbered real estate assets with a book value of approximately \$2.6 billion at September 30, 2013, of which a portion could serve as collateral for secured mortgage financing. The Company believes that its liquidity and sources of capital are adequate to satisfy its cash requirements. The Company cannot, however, be certain that these sources of funds will be available at a time and upon terms acceptable to the Company in sufficient amounts to meet its liquidity needs.

Dividends paid by the Company for the nine months ended September 30, 2013 were funded from cash flows from operations and the Unsecured Credit Facility, as cash flows from operations were not adequate to fully fund dividends paid at the rate per quarter of \$0.30 per share. The Company expects that additional cash flows from acquisitions and continued lease-up of properties in the process of stabilization, as well as lower expenditures for interest on indebtedness, will generate sufficient

Table of Contents

cash flows from operations such that dividends for the full year 2013 can be funded by cash flows from operations. The Company may use the Unsecured Credit Facility to supplement its cash flows from operations to fund the dividend should they be insufficient.

Investing Activities

Cash flows used in investing activities for the nine months ended September 30, 2013 were approximately \$137.9 million. Below is a summary of the significant investing activity. See Note 2 to the Condensed Consolidated Financial Statements for more detailed information on these activities.

The Company acquired an inpatient rehabilitation facility, three medical office buildings, and an orthopedic facility (referred to below in the discussion related to Mercy Health projects) for an aggregate purchase price of \$212.6 million and cash consideration of approximately \$103.4 million.

The Company disposed of 15.1 acres of land in Texas in which the Company had an aggregate net investment of approximately \$8.1 million for approximately \$5.0 million, which included \$1.1 million in net cash proceeds and the origination of a \$3.7 million Company-financed mortgage note receivable.

The Company disposed of five medical office buildings and four inpatient rehabilitation facilities with an aggregate sales price of approximately \$76.6 million, generating net cash proceeds of \$74.7 million and the origination of a \$0.6 million Company-financed mortgage receivable. In connection with the sales, the Company repaid a mortgage note payable of \$1.1 million and incurred debt extinguishment costs of \$0.3 million. The Company recognized gains of approximately \$22.0 million related to these transactions.

During the third quarter of 2013, the Company had two development projects affiliated with Mercy Health ("AA-" rated) based in Saint Louis, Missouri:

On September 27, 2013, the Company acquired an orthopedic facility in Missouri for \$102.6 million, including the elimination of the construction mortgage note receivable totaling \$97.2 million and cash consideration of approximately \$5.4 million. The facility is 100% leased to Mercy Health. The Company provided \$35.6 million in fundings toward the facility under a construction mortgage for the nine months ended September 30, 2013. During the third quarter of 2013, the Company recognized mortgage interest income of approximately \$1.7 million and single-tenant net lease rental income of approximately \$0.1 million. The Company expects to collect single-tenant net lease rental income of approximately \$2.3 million in the fourth quarter. Subsequent to the acquisition, the Company funded an additional \$2.8 million during the third quarter of 2013 and anticipates funding approximately \$6.0 million to complete the development during the fourth quarter of 2013.

At September 30, 2013, the Company had one remaining construction mortgage on the medical office building under construction in Oklahoma affiliated with Mercy Health. The Company provided \$22.2 million in fundings during the nine months ended September 30, 2013, bringing cumulative fundings to date to \$79.0 million. This project, which was originally scheduled to be completed in July 2013, sustained tornado damage in late May 2013. The tornado damage caused a delay in the completion date, and while subject to change, is now expected to be completed by June 2014. Builder's risk insurance is expected to fund the total scope of necessary repairs. The Company will continue to recognize mortgage interest income through the delayed completion and expects to receive interest payments in cash from insurance proceeds. The interest rate on this construction mortgage note increased effective October 1, 2013 from 6.75% to 7.72%. Approximately \$12.2 million remains available under the loan.

For the nine months ended September 30, 2013, the Company funded approximately \$17.6 million on 12 properties in the process of stabilization subsequent to construction and the Company anticipates funding approximately \$7.2 million during the fourth quarter of 2013.

Beyond the current commitments, the Company is in the early planning stages with several health systems and developers regarding new development opportunities, one or more of which could lead to a development start in the near future. The Company will consider these projects in light of existing obligations, the acquisition environment, capital availability, leasing activity, and cost, among other factors.

Table of Contents

Subsequent Acquisitions

In October 2013, the Company acquired the following properties:

an 81,717 square foot medical office building located in the state of Washington for a purchase price of \$34.9 million. The property is 100% leased with lease expirations through 2019 and is adjacent to two hospital campuses and affiliated with Providence Health and Services ("AA" rated). The Company assumed a mortgage note payable of \$16.6 million on the property that bears interest at a rate of 6.01% and matures in 2036.

a 70,138 square foot medical office building in Colorado for a purchase price of \$21.6 million. The property is on the same campus as the 80,153 square foot medical office building the Company purchased in September 2013. The building was 83% leased to three tenants at the time of acquisition with lease expirations through 2026. The property is connected to and affiliated with the University of Colorado Health ("A+" rated) system.

a 90,633 square foot medical office building in North Carolina for a purchase price of \$20.3 million. The property is 100% leased with expirations through 2021 and is affiliated with CaroMont Health ("A+" rated). The Company assumed a mortgage note payable of \$11.2 million on the property that bears interest at a rate of 5.86% and matures in 2016.

Financing Activities

Cash flows provided by financing activities for the nine months ended September 30, 2013 were approximately \$66.4 million. Inflows from accessing the public debt and equity markets totaled \$544.7 million, net of costs incurred. Aggregate cash outflows totaled approximately \$478.4 million associated with repayments of indebtedness and dividends paid to common stockholders. Below is a summary of the significant financing activity. See Notes 3 and 5 to the Condensed Consolidated Financial Statements for more information on the capital markets and financing activities.

Changes in Debt Structure

In February 2013, the Company amended the Unsecured Credit Facility, extending the maturity date to April 14, 2017, while providing the Company two six-month options to extend the maturity date to April 14, 2018. The amendment also reduced the applicable margin rate range to 0.95% to 1.75% (currently 1.4% based on the Company's credit rating) over LIBOR for purposes of determining interest and the annual facility fee to a range of 0.15% to 0.35% (currently at 0.30%). The Company paid up-front fees to the lenders of approximately \$2.7 million, which will be amortized over the term of the facility, and wrote-off \$0.3 million in certain unamortized deferred financing costs associated with the original facility in connection with the amendment. The Company had \$185.0 million outstanding under the Unsecured Credit Facility and had a remaining borrowing capacity of approximately \$515.0 million as of September 30, 2013. No significant changes were made to the covenant provisions.

In March 2013, the Company issued \$250.0 million of unsecured senior notes due 2023 (the "Senior Notes due 2023"), bearing interest at 3.75%, payable semi-annually in arrears on April 15 and October 15, commencing October 15, 2013, and maturing on April 15, 2023 unless redeemed earlier by the Company. Proceeds received were net of a discount of approximately \$2.1 million, yielding a 3.85% interest rate per annum upon issuance. The Senior Notes due 2023 contain various financial covenant provisions that are required to be met on a quarterly and annual basis and are consistent with the Company's other outstanding senior notes.

The Company redeemed its 5.125% unsecured senior notes due 2014 (the "Senior Notes due 2014") in April 2013, at a price of \$277.3 million consisting of the following:

outstanding principal of \$264.7 million,
accrued interest as of the redemption date of \$0.7 million; and

a “make-whole” amount of approximately \$11.9 million, resulting in a loss on extinguishment of debt totaling approximately \$12.3 million, including the write-off of unaccreted discount and unamortized costs.

In June 2013, the Company prepaid in full a secured loan from Teachers Insurance and Annuity Association of America ("TIAA") bearing an interest rate of 7.25% at an amount equal to \$94.3 million consisting of the following: outstanding principal of \$77.0 million

accrued interest as of the redemption date of \$0.5 million; and

a prepayment penalty of approximately \$16.8 million, resulting in a loss on extinguishment of debt totaling \$17.4 million, including the write-off of unamortized costs.

In September 2013, the Company assumed a mortgage note payable of approximately \$12.0 million and recorded a fair value adjustment which resulted in a premium of approximately \$0.7 million. The mortgage note payable assumed by the Company is subject to a contractual interest rate of 6.17% (effective rate of 5.25%) and matures in 2027.

Table of Contents

The Company believes the refinancing activities described above were warranted, including the costs incurred to execute the transactions, given the opportunities to refinance at lower interest rates that lower future costs of capital, improve the Company's debt and credit metrics and extend its debt maturities. As a result of these transactions, the Company experienced a net interest expense reduction for the three months ended September 30, 2013 of approximately \$2.2 million as compared to the preceding quarter.

As of September 30, 2013, the Company's leverage ratio [debt divided by (debt plus stockholders' equity less intangible assets plus accumulated depreciation)] was approximately 40.6%.

The Company's various debt agreements contain certain representations, warranties, and financial and other covenants customary in such debt agreements. Among other things, these provisions require the Company to maintain certain financial ratios and minimum tangible net worth and impose certain limits on the Company's ability to incur indebtedness and create liens or encumbrances. At September 30, 2013, the Company was in compliance with the financial covenant provisions under all of its various debt instruments.

Common Stock Issuances

On July 19, 2013, the Company issued 3,000,000 shares of common stock, par value \$0.01 per share, at \$26.13 per share in an underwritten public offering pursuant to the Company's existing effective registration statement. The net proceeds of the offering were \$78.3 million.

- The following summarizes the Company shares of common stock sold under its at-the-market equity program:

During the nine months ended September 30, 2013, the Company sold 5,207,871 shares of common stock under this program at prices ranging from \$24.19 per share to \$30.49 per share, generating approximately \$140.6 million in net proceeds. Of this amount, the Company sold 363,100 shares of common stock in early July 2013, generating \$9,100,000 million in net proceeds. No additional shares have been issued under this program since the equity issuance discussed above.

There are 5,391,400 authorized shares remaining available to be sold under the Company's existing sales agreements.

Operating Activities

Cash flows provided by operating activities decreased from \$72.5 million for the nine months ended September 30, 2012 to \$71.9 million for the nine months ended September 30, 2013. Several items impact cash flows from operations including, but not limited to, cash generated from property operations, interest payments and the timing related to the payment of invoices and other expenses and receipts of tenant rent.

The Company may from time to time sell additional properties and redeploy cash from property sales and mortgage repayments into new investments. To the extent revenues related to the properties being sold and the mortgages being repaid exceed income from these new investments, the Company's results of operations and cash flows could be adversely affected.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that are reasonably likely to have a current or future material effect on the Company's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

New Accounting Pronouncements

See Note 1 to the Condensed Consolidated Financial Statements for the impact of new accounting standards. The adoption of the new standard did not have a material impact on the Company's results of operations or financial position.

Trends and Matters Impacting Operating Results

Management monitors factors and trends important to the Company and the REIT industry in order to gauge the potential impact on the operations of the Company. In addition to the matters discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, below are some of the factors and trends that management believes may impact future operations of the Company.

Expiring Leases

The Company expects that approximately 15%-20% of the leases in its multi-tenanted portfolio will expire each year in the ordinary course of business. There are 393 leases that have expired or will expire during 2013. Approximately 89% of the leases expiring in 2013 are located in buildings on hospital campuses, are distributed throughout the portfolio and are not

Table of Contents

concentrated with any one tenant, health system or market area. The Company typically expects 75% to 85% of multi-tenant property leases to renew upon expiration and the renewals for the first nine months of the year are within this range.

The Company's leasing activity improved slightly in the third quarter of 2013 and management anticipates sustained activity in the fourth quarter of 2013. Though absorption and tenant retention remain sound, transaction time has lengthened as health systems and physicians contend with uncertainty about healthcare reform. Despite the changes brought about by the reform measures, management remains confident about the Company's strategy to own and manage assets on or adjacent to leading health system campuses.

Leases on six single tenant net lease properties have expired during 2013. These six properties generated approximately \$6.9 million in net operating income during the nine months ended September 30, 2013. Two of the properties are outpatient medical office buildings that were vacated by the existing tenants upon expiration of the leases. The Company has made the decision to sell these two properties and has executed sale agreements on both. The remaining four properties are inpatient rehabilitation facilities sold to the operator upon expiration of the leases, pursuant to purchase option exercises. The sales of these four properties are discussed in more detail in Note 2 to the Condensed Consolidated Financial Statements.

Leases on ten single tenant net lease properties will expire in 2014 during the second half of the year. Six of the properties are senior living facilities in Michigan and Indiana associated with a single operator. Two of the remaining leases are on-campus, inpatient facilities. The remaining two leases are off-campus medical office buildings. One tenant has already provided notice to extend the term and the Company has begun discussions on the remainder of the properties. At this time, the Company does not expect that any of the properties will be vacated.

Operating Expenses

The Company is experiencing an increase in property taxes throughout its portfolio as a result of increasing assessments and tax rates levied across the country. The effects of these increases are mitigated in leases that have operating expense reimbursement provisions. The Company continues its robust efforts to appeal all property tax increases.

The Company experienced a customary increase in operating expenses in the third quarter of 2013 of approximately \$1.3 million as compared to the preceding quarter, primarily because of seasonal utilities.

Non-GAAP Financial Measures

Same Store Net Operating Income

Net operating income ("NOI") and same store NOI are non-GAAP financial measures of performance. Management considers same store NOI an important supplemental measure because it allows investors, analysts and Company management to measure unlevered property-level operating results and to compare those results to other real estate companies and between periods on a consistent basis. The Company defines NOI as operating revenues (property operating revenue, single-tenant net lease revenue, and rental lease guaranty income) less property operating expenses related specifically to the property portfolio. NOI excludes straight-line rent, general and administrative expenses, interest expense, depreciation and amortization, gains and losses from property sales, property management fees and other revenues and expenses not specifically related to the property portfolio. NOI may also be adjusted for certain expenses that are related to prior periods or are not considered to be part of the operations of the properties.

The following table reflects the Company's same store NOI for the three months ended September 30, 2013 and 2012:

Same Store NOI for the

(Dollars in thousands)	Number of Properties ⁽¹⁾	Investment at		
		September 30, 2013		September 30, 2012

Properties included in the same store analysis are stabilized properties that have been included in operations and were consistently reported as leased and stabilized properties for the duration of the year-over-year comparison period presented.

Table of Contents

Accordingly, properties that were recently acquired or disposed of, properties classified as held for sale, and properties in stabilization or conversion from stabilization are excluded from the same store analysis. In addition, the Company excludes properties that meet the following Company-defined criteria to be included in the reposition property group:

- Properties having less than 60% occupancy;
- Anticipated significant or material changes to a particular property or its market environment;
- Conversions between the single-tenant net lease and multi-tenant portfolios; or
- Condemnations, if any.

The following tables reconcile same store NOI to the respective line items in the Condensed Consolidated Statements of Operations and the same store property count to the total owned real estate portfolio:

Funds from Operations

Funds from operations (“FFO”) and FFO per share are operating performance measures adopted by the National Association of Real Estate Investment Trusts, Inc. (“NAREIT”). NAREIT defines FFO as the most commonly accepted and reported measure of a REIT’s operating performance equal to “net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures.” The Company follows the NAREIT definition in calculating and presenting FFO and FFO per share.

Management believes FFO and FFO per share to be supplemental measures of a REIT’s performance because they provide an understanding of the operating performance of the Company’s properties without giving effect to certain significant non-cash items, primarily depreciation and amortization expense. Historical cost accounting for real estate

assets in accordance with generally accepted accounting principles (“GAAP”) assumes that the value of real estate assets diminishes predictably over

Table of Contents

time. However, real estate values instead have historically risen or fallen with market conditions. The Company believes that by excluding the effect of depreciation, amortization and gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO and FFO per share can facilitate comparisons of operating performance between periods. The Company reports FFO and FFO per share because these measures are observed by management to also be the predominant measures used by the REIT industry and by industry analysts to evaluate REITs and because FFO per share is consistently reported, discussed, and compared by research analysts in their notes and publications about REITs. For these reasons, management has deemed it appropriate to disclose and discuss FFO and FFO per share. However, FFO does not represent cash generated from operating activities determined in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs. FFO should not be considered as an alternative to net income attributable to common stockholders as an indicator of the Company's operating performance or as an alternative to cash flow from operating activities as a measure of liquidity.

FFO for the nine months ended September 30, 2013 compared to 2012 was primarily impacted by the various acquisitions and dispositions of the Company's real estate portfolio, the results of operations of the portfolio from period to period and the loss on the extinguishments of debt of approximately \$29.9 million, or \$0.33 per common share in the second quarter of 2013. The Company also completed an equity offering in the third quarter of 2012 of 9.2 million shares of common stock which negatively impacted the 2013 FFO per share by approximately \$0.07 per share. In addition, the Company also sold 5.2 million shares of common stock under its at-the-market offering program through the first nine months of 2013, and completed an equity offering in the third quarter of 2013 of 3.0 million shares of common stock, which negatively impacted the 2013 FFO per share by approximately \$0.03 per common share.

The table below reconciles FFO to net income (loss) attributable to common stockholders for the three and nine months ended September 30, 2013 and 2012:

Management believes that net income, as defined by GAAP, is the most appropriate earnings measurement. However, management considers certain non-GAAP financial measures to be useful supplemental measures of the Company's operating performance. A non-GAAP financial measure is generally defined as one that purports to measure historical or future financial performance, financial position or cash flows, but excludes or includes amounts that would not be so adjusted in the most comparable GAAP measure. Set forth below are descriptions of the non-GAAP financial measures management considers relevant to the Company's business and useful to investors, as well as reconciliations of these measures to the most directly comparable GAAP financial measures.

The non-GAAP financial measures presented herein are not necessarily identical to those presented by other real estate companies due to the fact that not all real estate companies use the same definitions. These measures should not be considered as alternatives to net income (determined in accordance with GAAP), as indicators of the Company's financial performance, or as alternatives to cash flow from operating activities (determined in accordance with GAAP) as measures of the Company's liquidity, nor are these measures necessarily indicative of sufficient cash flow to fund all of the Company's needs. Management believes that in order to facilitate a clear understanding of the Company's consolidated historical operating results, these measures should be examined in conjunction with net income as presented in the Condensed Consolidated Financial Statements and other financial data included elsewhere in this Quarterly Report on Form 10-Q.

Table of Contents

Results of Operations

Three Months Ended September 30, 2013 Compared to Three Months Ended September 30, 2012

The Company's results of operations for the three months ended September 30, 2013 compared to the same period in 2012 were significantly impacted by acquisitions, dispositions, properties in stabilization, extinguishments of debt, gains on sales of real estate investments and impairments recorded upon a decision to sell a group of properties.

Revenues

Rental income increased \$6.1 million, or 8.3%, to approximately \$79.3 million compared to \$73.2 million in the prior year period and is comprised of the following:

(Dollars in thousands, except per share data)	Three Months Ended		Change		
	September 30, 2013	September 30, 2012	\$	%	
Property operating	\$63,854	\$60,651	\$3,203	5.3	%
Single-tenant net lease	12,986	10,711	2,275	21.2	%
Straight-line rent	2,416	1,812	604	33.3	%
Total Rental income	\$79,256	\$73,174	\$6,082	8.3	%

Property operating income increased \$3.2 million, or 5.3%, from the prior year period as a result of the following activity:

• Acquisitions in 2012 and 2013 contributed \$1.8 million.

• Additional leasing activity at properties in stabilization contributed \$2.1 million.

Net leasing activity including contractual rent increases and renewals contributed to a decrease of \$0.3 million as a result of rent abatements included in certain lease renewals. The effects are partially offset in the increase in straight-line rent revenue.

• Conversion to single-tenant net lease caused a decrease of \$0.3 million.

Single-tenant net lease revenue increased \$2.3 million, or 21.2%, from the prior year period as a result of the following activity:

• The Company's 2012 and 2013 acquisitions contributed \$1.6 million.

• New leasing activity including contractual rent increases contributed \$0.3 million.

• Lease conversions from property operating revenue contributed \$0.3 million.

Straight-line rent increased \$0.6 million, or 33.3%, from the prior year as a result of the following activity:

• The Company's 2012 and 2013 acquisitions contributed \$0.2 million.

• New leasing activity including contractual rent increases and the effects of rent abatements contributed \$0.4 million.

Mortgage interest income increased \$1.7 million, or 75.0%, from the prior year period. The continued funding of two construction mortgage notes receivable for the two build-to-suit facilities affiliated with Mercy Health contributed \$1.7 million. This amount was offset by payoffs of other mortgage notes.

Expenses

Property operating expenses increased \$2.9 million, or 9.8%, for the three months ended September 30, 2013 compared to the prior year period as a result of the following activity:

• The Company's 2012 and 2013 acquisitions accounted for an increase of \$0.9 million.

•

Properties that were previously under construction that commenced operations during 2012 accounted for an increase of \$0.2 million.

The Company experienced an overall increase in real estate taxes of approximately \$1.2 million, professional fees of approximately \$0.4 million and maintenance costs of approximately \$0.2 million.

Table of Contents

General and administrative expenses increased approximately \$0.9 million, or 18.1%, for the three months ended September 30, 2013 compared to the prior year period because of an increase in compensation-related expenses totaling \$0.8 million including non-cash stock-based compensation.

Depreciation expense increased \$1.7 million, or 8.5%, for the three months ended September 30, 2013 compared to the prior year period. Properties acquired in 2012 and 2013 and developments completed and commencing operations contributed a combined increase of \$1.2 million. The remaining \$0.5 million increase is related to various building and tenant improvement expenditures.

Other income (expense)

Interest expense decreased \$1.8 million for the three months ended September 30, 2013 compared to the prior year period. The components of interest expense are as follows:

(Dollars in thousands)	2013	2012	Change	Percentage Change	
Contractual interest	\$16,034	\$19,151	\$(3,117)	(16.3))%
Net discount accretion	305	251	54	21.5	%
Deferred financing costs amortization	716	792	(76)	(9.6))%
Interest cost capitalization	(12)	(1,313)	1,301	(99.1))%
Total Interest expense	\$17,043	\$18,881	\$(1,838)	(9.7))%

Contractual interest decreased \$3.1 million primarily as a result of a lower average interest rate on the Unsecured Credit Facility, the lower interest on the Senior Notes due 2023 issued in the first quarter of 2013 compared to the Senior Notes due 2014 that were repaid in the second quarter of 2013, and the repayment of the secured loan from TIAA.

Capitalized interest costs decreased \$1.3 million from a decrease in development expenditures upon completion of various projects in progress.

Discontinued Operations

Results from discontinued operations for the three months ended September 30, 2013 were income of \$14.8 million compared to \$5.0 million for the three months ended September 30, 2012. These amounts include the results of operations, impairments and gains on sale related to assets classified as held for sale or disposed of as of September 30, 2013. See Note 2 to the Condensed Consolidated Financial Statements for more detail.

Nine Months Ended September 30, 2013 Compared to Nine Months Ended September 30, 2012

The Company's results of operations for the nine months ended September 30, 2013 compared to the same period in 2012 were significantly impacted by acquisitions, dispositions, properties in stabilization, gains on sale and impairments of real estate investments and extinguishments of debt.

Revenues

Rental income increased \$17.4 million to approximately \$233.3 million, or 8.0%, compared to \$215.9 million in the prior year period and is comprised of the following:

(Dollars in thousands, except per share data)	Nine Months Ended September 30,		Change	%	
	2013	2012	\$	%	
Property operating	\$189,164	\$179,315	\$9,849	5.5	%
Single-tenant net lease	37,488	31,337	6,151	19.6	%
Straight-line rent	6,667	5,285	1,382	26.1	%
Total Rental income	\$233,319	\$215,937	\$17,382	8.0	%

Property operating income increased \$9.8 million, or 5.5%, from the prior year period as a result of the following activity:

Table of Contents

• Acquisitions in 2012 and 2013 contributed \$4.8 million.

• Additional leasing activity at properties in stabilization contributed \$6.9 million.

Net leasing activity including contractual rent increases and renewals resulted in a decrease of \$0.8 million from rent abatements included in certain lease renewals. These effects are partially offset in the increase to straight-line rent revenue.

• Conversion to single-tenant net lease caused a decrease of \$1.1 million.

Single-tenant net lease revenue increased \$6.2 million, or 19.6%, from the prior year period as a result of the following activity:

• The Company's 2012 and 2013 acquisitions contributed \$4.0 million.

• New leasing activity including contractual rent increases contributed \$1.4 million.

• Lease conversions from property operating revenue contributed \$0.9 million.

Straight-line rent increased \$1.4 million, or 26.1% from the prior year period as a result of the following activity:

• The Company's 2012 and 2013 acquisitions contributed \$0.7 million.

• New leasing activity including contractual rent increases and the effects of rent abatements contributed \$0.6 million.

Mortgage interest income increased \$3.7 million, or 56.5%, from the prior year period. The continued funding of two mortgage construction notes receivable for the two build-to-suit facilities affiliated with Mercy Health contributed \$4.6 million. This amount was offset by payoffs of other mortgage notes.

Expenses

Property operating expenses increased \$7.0 million, or 8.0%, for the nine months ended September 30, 2013 compared to the prior year period as a result of the following activity:

• The Company's 2012 and 2013 acquisitions accounted for an increase of \$2.1 million.

• Properties that were previously under construction that commenced operations during 2012 accounted for an increase of \$0.8 million.

• Real estate taxes increased \$3.8 million, which includes the effect of a reduction of property tax expense recognized in 2012 as a result of favorable negotiations of approximately \$2.3 million.

General and administrative expenses increased approximately \$3.5 million, or 23.8%, for the nine months ended September 30, 2013 compared to the prior year period because of an increase in compensation-related expenses of approximately \$3.0 million, primarily non-cash stock-based compensation and project costs of approximately \$1.0 million. These amounts are partially offset by a decrease in professional fees of approximately \$0.6 million.

Depreciation expense increased \$4.4 million, or 7.3%, for the nine months ended September 30, 2013 compared to the prior year period. Properties acquired in 2012 and 2013 and developments completed and commencing operations contributed a combined increase of \$3.2 million. The remaining \$1.2 million increase is related to various building and tenant improvement expenditures.

Amortization expense increased \$0.3 million for the nine months ended September 30, 2013 compared to the prior year period primarily as a result of intangibles recognized on properties acquired during 2012 and 2013.

Other income (expense)

Loss on extinguishments of debt are associated with the redemption of the Senior Notes due 2014 of approximately \$12.3 million and the payoff of a secured loan with TIAA of approximately \$17.4 million. See Note 3 to the Condensed Consolidated Financial Statements for more detail.

Interest expense decreased slightly for the nine months ended September 30, 2013 compared to the prior year period. The components of interest expense are as follows:

(Dollars in thousands)	2013	2012	Change	Percentage Change	
Contractual interest	\$52,568	\$57,410	\$(4,842)	(8.4))%
Net discount accretion	842	737	105	14.2	%
Deferred financing costs amortization	2,511	2,376	135	5.7	%
Interest cost capitalization	(183)	(4,782)	4,599	(96.2))%
Total Interest expense	\$55,738	\$55,741	\$(3)	—	%

Contractual interest decreased \$4.8 million primarily as a result of a lower average utilization and lower average interest rate on the Unsecured Credit Facility, the lower interest on the Senior Notes due 2023 issued in the first quarter of 2013 compared to the Senior Notes due 2014 that were repaid in the second quarter of 2013 and the repayment of the secured loan from TIAA.

Capitalized interest costs decreased \$4.6 million from a decrease in development expenditures upon completion of various projects in progress.

Discontinued Operations

Results from discontinued operations for the nine months ended September 30, 2013 were income of \$16.0 million compared to income of \$9.6 million for the nine months ended September 30, 2012. These amounts include the results of operations, impairments and gains on sale related to assets classified as held for sale or disposed of as of September 30, 2013. See Note 2 to the Condensed Consolidated Financial Statements for more detail.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to market risk in the form of changing interest rates on its debt and mortgage notes and other notes receivable. Management uses regular monitoring of market conditions and analysis techniques to manage this risk. During the nine months ended September 30, 2013, there were no material changes in the quantitative and qualitative disclosures about market risks presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports it files or submits under the Exchange Act.

Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

The Company is, from time to time, involved in litigation arising in the ordinary course of business or which is expected to be covered by insurance. The Company is not aware of any pending or threatened litigation that, if resolved against the Company, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Item 1A. Risk Factors

In addition to the other information set forth in this report, an investor should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, which could materially affect the Company's business, financial condition or future results. The risks, as described in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, are not the only risks facing the Company. Additional risks and uncertainties not currently known to management or that management currently deems immaterial also may materially, adversely affect the Company's business, financial condition, operating results or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the nine months ended September 30, 2013, the Company withheld shares of Company common stock to satisfy employee tax withholding obligations payable under the vesting of restricted stock, as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
