ASUR Announces Total Passenger Traffic up 1.5% Year over Year

Mexico City, April 7, 2003, Grupo Aeroportuario del Sureste, S.A. de C.V. (NYSE: ASR; BMV: ASUR) ASUR today announced that total passenger traffic for the month of March 2003 increased by 1.5 percent from the comparable period last year.

Due to the current situation following the events of September 11, 2001 in the U.S. and the start of the armed conflict in the Middle East, ASUR's management is making an extraordinary effort to publish passenger traffic figures for the company's airports on a monthly basis to keep investors well informed. Once the situation has normalized, ASUR management expects to return to normal quarterly reporting procedures.

All figures in this announcement reflect comparisons between the 35-day period from February 26 through April 1, 2003, and the equivalent 35-day period last year from February 27 through April 2, 2002. Transit and general aviation passengers are excluded.

It is important to mention that Holy Week vacations during 2002 took place from March 25 through 29, while Holy Week vacations in 2003 will take place during April. ASUR management therefore does not yet have sufficient passenger data in order to conclude whether the decrease in traffic during the last two weeks of March is primarily due to the abovementioned variation in holiday schedules, the start of the new war in Iraq, or a combination of factors.
