México D.F., October 27, 2004 Grupo Aeroportuario del Sureste, S.A. de C.V. (NYSE:ASR; BMV:ASUR), (ASUR) the first privatized airport group in Mexico and operator of Cancun Airport and eight others in the southeast of Mexico, today announced results for the three and nine-month periods ended September 30, 2004.

¹ Unless otherwise stated, all financial figures discussed in this announcement are unaudited, prepared in accordance with Generally Accepted Accounting Principles in Mexico, expressed in constant Mexican pesos as of September 30, 2004, and represent comparisons between the three-month period ended September 30, 2004, and the equivalent three-month period ended September 30, 2003. Tables state figures in thousands of pesos, unless otherwise noted. Passenger figures exclude transit and general aviation passengers. Commercial revenues include revenues from the activities of non-permanent ground transportation and parking lots. All U.S. dollar figures are calculated at the exchange rate of US\$1 = Ps. 11.3884.

Passenger Traffic

For the third quarter of 2004, total passenger traffic increased year-over-year by 12.99%; domestic passenger traffic increased by 5.56%; and international passenger traffic increased by 19.16% .

The 5.56% growth in domestic passenger traffic mainly reflects the 19.14% increase in traffic at the Veracruz airport resulting from the opening of new routes to that destination by Azteca airlines in July 2004, as well as an increase in flights by Mexicana airlines. Growth was also driven by a 16.21% increase in passenger traffic due to additional flights at Villahermosa airport by Aeromexico and Aviacsa. Traffic at Oaxaca airport rose 11.59% as a result of Azteca opening a new route to that destination in December 2003.

The 19.16% increase in international passenger traffic resulted mainly from a 31.44% and 18.18% growth in traffic at the Cozumel and Cancun airports, respectively. Higher international traffic at Cozumel, reflects increased flight frequencies by certain airlines, and the start of operations of ATA airlines in December 2003 and American Airlines in January 2004.

Total, domestic and international passenger traffic for the first nine-months of the year, increased by 14.63%, 6.07% and 20.50%, respectively.

Consolidated Results for 3Q04

Total revenues for 3Q04 increased year-over-year by 31.54% to Ps.511.04 million. This was mainly due to:

- An increase of 21.99% in revenues from aeronautical services, principally as a result of the above-mentioned increase in passenger traffic, and
- An increase of 67.34% in revenues from non-aeronautical services, principally as result of the 93.92% increase in commercial revenues. This growth in commercial revenues reflects revenues from the Company's direct operation of one restaurant, one snack bar and three convenience stores, which were taken over by ASUR from a former concession holder in

ASUR 3Q04, Page 3 of 17

May 2004. (See tables V and VIII). Management is analyzing performance of this operation and expects to decide on the best course of action at year-end.

ASUR classifies revenues from the following activities as **commercial revenues**: duty free, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage and parking lots.

Commercial revenues improved year-over-year by 93.92%, mainly due to:

- A 78.50% increase in duty-free revenues, primarily as a result of the growth in international passenger traffic, improved product mix and the opening of a new store in the satellite building of the Cancun airport in November 2003.
- An increase of 112.42% in food and beverage revenues, primarily as a result of ASUR's previously mentioned direct operation of two restaurants starting May 2004. The increase in food and beverage revenues also reflects new store openings as listed below:

Restaurant Concessions

Airport	Name	Month Opened
Cancun	Tequilería Cuervo	September 2003
Cancun	Coffe Bar	December 2003
Cancun	Margarita Ville	December 2003

- A 246.81% increase in retail revenues, mainly as a result of growth in international passenger traffic during the quarter, revenues from the operation of three convenience stores, new stores at the departure gates at the Cancun airport, and the new stores

listed below:

Store Concessions

Airport	Name	Month Opened
Mérida	Portafolio	October 2003
Cancún	Cenca de Conveniencia	November 2003
Huatulco	Artículos selectos	November 2003
Cancun (Terminal 1)	Cinco Soles	January 2004
Cancun (Terminal 2)	Pineda Covalin	February 2004
Cancun (Terminal 1)	Pineda Covalin	March 2004
Cancun (Terminal 2)	Cinco Soles	March 2004

ASUR 3Q04, Page 4 of 17

- A 72.62% increase in advertising revenues, resulting from the creation of additional space for advertising,
- A 93.41% increase in revenue from car rental companies.

During the year, the Company initiated an arbitration process with one of the duty free concessionaires (Dufry Mexico S.A. de C.V.) that operates in the Cancun airport. The dispute is related to the amount paid in rent by this concessionaire for the units it occupies in the airport. Arbitration proceedings are at an advanced stage, and a final decision is expected in January 2005.

Total operating costs and expenses for 3Q04 increased year-over-year by 15.03%, primarily as a result of:

- A 25.38% rise in costs of services mainly as a result of the increase in maintenance expenses, costs related to the direct commercial operation of two restaurants and three convenience stores and higher payroll resulting from the reallocation of certain functions from ASUR's corporate headquarters to the airport level, principally at Cancun.
- A 41.66% increase in the cost of technical assistance, principally due to the increase in EBITDA for the quarter (a basis for the calculation of the fee).
- A 31.54% increase in concession fees mainly due to higher revenues.
- A 7.62% increase in depreciation and amortization, resulting from the capitalization of investments in fixed assets, improvements made to concession assets and the direct commercial operation of a restaurant, a snack bar and three convenience stores.

- These increases were partially offset by a 15.90% decline in administrative expenses, mainly due to the reallocation of certain functions from ASUR's corporate headquarters to the airport level, principally at Cancun.

Operating margin for 3Q04 improved to 43.04% from 34.87% in the third quarter of last year. This was mainly driven by the 31.54%,

ASUR 3Q04, Page 5 of 17

increase in revenues, primarily reflecting the 21.99% growth in aeronautical revenues, which more than offset the 15.03% increase in costs and expenses for the quarter.

Mexican companies are generally required to pay the greater of their income tax liability or their asset tax liability (determined at a rate of 1.8% of the average tax value of virtually all of the company's assets (including, in ASUR's case, its concessions), less the average tax value of certain liabilities (essentially liabilities of companies resident in Mexico, excluding those related to financial institutions and their intermediaries)). ASUR made asset tax payments of Ps.39.0 million for 3Q04. Of these payments, Ps.8.0 million was recorded as an expense in the results for the quarter. The difference was recorded as an asset, since the Company expects to recover Ps.31.0 million in future income tax payments.

Net income for 3Q04 was Ps.135.86 million, a year-over-year increase of 77.01% . Earnings per common share for the quarter were Ps.0.4529, or earnings per ADS (EPADS) (one ADS represents ten series B common shares) of US\$0.3977. This compares with Ps.0.2558, or EPADS of US\$0.2247, for the same period last year.

Consolidated Results for the Nine-Month Period

Total revenues for the nine-month period increased year-over-year by 28.20% to Ps.1,483.75 million. This was mainly due to:

- An increase of 21.46% in revenues from aeronautical services, principally as a result of the above-mentioned increase in international passenger traffic, and

ASUR 3Q04, Page 7 of 17

- An increase of 54.11% in revenues from non-aeronautical services, principally as result of the 71.68% improvement in commercial revenues.

Commercial revenues for the nine-month period increased year-over-year by 71.68%, mainly due to:

- A 55.10% rise in duty-free revenues, principally due to the increase in international passenger traffic.
- A 73.94% increase in food and beverage revenues, reflecting revenues from the restaurant and the snack bar which have been operated by ASUR since May 2004, as well as the concession revenues generated by new stores at the Cancun, Cozumel, Oaxaca, Tapachula, Veracruz and Villahermosa airports.
- A 173.14% increase in retail revenues, principally reflecting revenue from the three convenience stores that are being operated by ASUR since May 2004. The increase in retail revenues also reflects income from the concessions granted to new convenience stores at the Cancun, Huatulco and Oaxaca airports and other store openings at Cancun airport.
- A 23.11% increase revenue from banking and currency exchange services.

- A 102.39% increase in revenue from car rental companies.
- A 79.57% increase in advertising revenues.

TOTAL	734,814	832,818	13.34

Note: Figures are shown in thousands of constant Mexican pesos as of September 30, 2004.

Costs and expenses for the nine-month period increased year-over-year by 13.34% .

The costs of services for the period increased year-over-year by 21.08% . This was due to an increase in maintenance expenses during the period, the reallocation in February 2004 of certain functions from the corporate to the airport level, as well as costs related to the direct operation by ASUR of a restaurant, a snack bar and three convenience stores.

Administrative expenses declined by 7.00% reflecting the reorganization in February 2004 of certain functions from the corporate to the airport level.

Technical assistance costs increased by 35.68%, reflecting the corresponding increase in EBITDA during the period.

The 28.20% increase in concession fees was due to the year-to-date increase in overall revenues.

Depreciation and amortization rose by 5.84%, mainly due to the above-mentioned capitalization of investments in fixed assets and improvements made to concession assets.

Operating margin for increased to 43.87%, up from 36.51% for the first nine-months of 2003. This increase was mainly driven by the increase in revenues and cost controls.

Net income for the nine-month period increased by 61.92% to Ps.401.19 million. Earnings per common share for the period were Ps.1.3373, or earnings per ADS (EPADS) (one ADS represents ten series B common shares) of US\$1.1743. This compares with Ps.0.8259, or EPADS of US\$0.7252, for the same period last year.

ASUR 3Q04, Page 10 of 17

Tariff Regulation

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities through maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for the nine-month period were Ps.1,128.53 million, resulting in a year-to-date average tariff per work load unit of Ps.100.17. ASUR's regulated revenues accounted for approximately 76.06% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

Balance Sheet

On September 30, 2004 Airport Facility Usage Rights and Airport Concessions represented 87.54% of the Company's total Assets, with current assets representing 10.62% and other assets 1.84% .

On September 30, 2004 cash and marketable securities were Ps.1,109.95 million. On the same date, Shareholder's Equity was Ps.11,917.26 million and total Liabilities were Ps.712.78 million, representing 93.77% and 6.23% of total Assets, respectively. Total deferred liabilities

represented 76.41% of the Company's total liabilities.

Capex

During the quarter, ASUR made investments of Ps.89.51 million as part of the Company's ongoing plan to modernize the airports of the group.

Labor Relations

During the month of October, ASUR reached a mutually satisfactory agreement on the revision of wages with the Mexican National Union of Airport Workers.

ASUR 3Q04, Page 11 of 17

Subsequent Events

On October 25, 2004 Mr. Kjeld Binger and Adolfo Castro, ASUR's Interim CEO and CFO attended an event at which Mexican authorities and Formula One's governing body announced that they had reached an agreement for Cancun to host a Grand Prix race in October 2006. The event was also attended by members of the press, government officials and members of the Mexican business community. In addition, the Governor of Quintana Roo publicly announced other infrastructure projects, among them a new airport in the Mayan Riviera. No further details concerning this airport have been disclosed, so we are unable to predict today the impact that this project, if completed, would have on our business.

On October 26, 2004, ASUR's Board of Directors instructed the Company's management to immediately initiate the necessary proceedings to begin construction of a second runway at Cancun airport, ahead of schedule. This decision was taken in response to higher than expected passenger traffic at the Cancun airport and in order to effectively service increased passenger demand in the future. In the Master Development Plan, this runway was originally expected to be concluded by 2012. Total capex for this project is estimated to be between US\$40 and US\$60 million. The Company expects to incur this investment between 2005 and 2007.
