The current pipeline of bids for large outsourcing contracts being reviewed by potential clients remains robust at \$5 billion.

First Quarter Results (See also: Q1 MD&A filed with Sedar & Edgar and available at www.cgi.com)

Revenue for the first quarter ended December 31, 2003 increased 18.9% to \$700.5 million, from \$589.0 million in the same quarter last year, and was up 0.9% sequentially over fourth quarter revenue of \$694.2 million. Year-over-year organic revenue growth, excluding the impact of currency fluctuation, was 1.2%.

In the first quarter, revenue from long-term outsourcing contracts represented 72% of the Company's total revenue, including 19% from business processing services, while project oriented consulting and systems integration work represented 28%. Geographically, clients in Canada represented 79% of revenue; clients in the US represented 17%; and all other regions, 4%. Revenue from clients in the financial services sector represented 42% of revenue; while utilities and telecom revenue represented 24%; government and healthcare clients, 14%, retail and distribution clients, 12%; and manufacturing, 8%.

Earnings before interest, income taxes, entity subject to significant influence and discontinued operations (EBIT) was \$80.2 million in the first quarter, up 32.1% over last year's first quarter EBIT of \$60.7 million, and down 1.1% over fourth quarter EBIT of \$81.1 million. The EBIT margin was 11.5% for the quarter, compared with 10.3% in last year's first quarter and 11.7% in the fourth quarter.

Net earnings from continuing operations in the first quarter increased 33.7% to \$49.5 million, compared with net earnings from continuing operations of \$37.0 million in the same period of 2002, and increased 3.1% from comparable net earnings of \$48.0 million in the fourth quarter. The net earnings margin from continuing operations improved to 7.1% in the first quarter, compared with 6.3% last year and 6.9% in the fourth quarter. Basic and diluted earnings per share were \$0.12 in the first quarter, against basic and diluted earnings per share of \$0.10 in last year's first quarter and \$0.12 in the fourth quarter. The year-over-year increase in net earnings and the improvement in the net earnings margin were a result of general performance efficiencies, additional synergies realized from acquisitions and a slight decrease in the corporate tax rate.

Strong cash flow from continuing operating activities of \$94.0 million allowed the Company to pay down \$30.0 million of its credit facilities during the quarter. CGI maintains a strong balance sheet. At December 31, 2003, cash and cash equivalents were \$96.5 million and the total credit facility available amounted to \$344.4 million. Days sales outstanding (DSOs) were 45 days at December 31, 2003 and the long-term debt-to-equity ratio was 11.7%.

First Quarter Operating Highlights

CGI's growth prospects and solid backlog were further improved during the quarter as a result of various investments and operational initiatives. In the quarter, CGI:

Announced contract bookings that included new contracts, extensions and renewals of \$656.1 million.

Completed the acquisition of Boston-based Apex Consulting Group Inc. (Apex) with revenues of US\$4.0 million. Apex is a business services, systems integration and consulting company with a focus on business process improvement and new technologies.

Signed a 10-year, multi-million pound contract to implement its leading insurance administration system, GIOS (Global Insurance Open Solution), with FirstAssist, a major player within the UK healthcare and assistance markets.

Signed a 10-year IT outsourcing contract valued at US\$41 million with South Carolina-based health and life insurer, Kanawha Insurance Company.

Signed a 10-year end-to-end IT outsourcing contract valued at US\$113 million with Alcan Inc.'s Rolled Products North America division based in Cleveland, Ohio. CGI will be responsible for all IT operations—everything from desktop support, server management and applications development and maintenance.

Closed a ten-year, end-to-end IT outsourcing contract valued at US\$167 million with Robert Plan Corporation (RPC), a Long Island, New York-based insurance firm.

Guidance and Outlook

As stated in October, CGI expects revenue and earnings per share to grow between 8% and 17% in fiscal 2004. This guidance is based on information known today about market conditions and demand for its services and excludes the impact of any acquisition or large outsourcing contract contributing more than \$100 million per year in revenue or the impact of significant foreign currency fluctuations.

Mr. Godin added, "Organic growth initiatives resulted in first quarter contract bookings with Kanawha, Alcan and Robert Plan, among others. The full impact of this new revenue, and the final transition of additional IT contracts to CGI from Canada Post, will have a positive impact on revenue growth beginning in the second quarter. We are confident about our outlook, based on improving market conditions and the continued momentum of our disciplined growth strategy, for both revenue and net income."
