PRESS RELEASE

FOR IMMEDIATE RELEASE

## Commonwealth of Massachusetts manages its \$36 billion annual budget using CGI's AMS Advantage® solution

### o AMS Advantage delivers improved business results through streamlined processes

**Fairfax, VA., July 27, 2004** CGI-AMS, part of CGI Group Inc. (TSX: GIB.A; NYSE: GIB), today announced the launch of the successful upgrade of the Commonwealth of Massachusetts' financial system, based on the AMS Advantage suite of solutions. Processing a \$36 billion annual budget, this is the largest statewide implementation of a Web-based financial management system. Through this Web-based suite specifically designed for governments, real-time financial transactions and business intelligence are managed effectively and efficiently, saving government and its citizens both time and money.

The Commonwealth of Massachusetts began production operation of NewMMARS, less than two years after project initiation. NewMMARS will support the Commonwealth's eGovernment initiatives and lower their total cost of ownership by moving from a heavily customized application to a commercial off-the-shelf solution. NewMMARS supports 5000 users across 157 departments in all branches of government performing the full breadth of financial and labor cost management functions.

Total cost of ownership and a proven track record in state government were two of the critical factors in choosing AMS Advantage. We have finally moved to an off-the-shelf solution that can be used by the Commonwealth and have the tools necessary to maintain it in house. This will greatly reduce costs for years to come while enhancing our ability to manage the fiscal operations of the Commonwealth. Getting to here on time and within budget is a testament to CGI-AMS's deep domain and implementation expertise," said Martin Benison, comptroller, Commonwealth of Massachusetts.

Donna Morea, president, CGI-AMS added: "This implementation illustrates our continuing ability to deliver real business results for the largest and most complex government organizations. It's the combination of software and implementation expertise that makes the difference in a big undertaking like NewMMARS. Over 30 other clients have chosen to upgrade to Web-based AMS Advantage, so we know that this solution helps them meet their business goals.

CGI-AMS's current ERP offering incorporates more than 30 years of government experience and knowledge in the public sector market. AMS Advantage is a flexible, module-based solution that automates document workflow, decreases paperwork and ultimately improves customer service and facilitates decision-making.
