IMAGE TECHNOLOGY LABORATORIES, INC.

NOTES TO CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION:

In the opinion of management, the accompanying unaudited condensed financial statements reflect all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of Image Technology Laboratories, Inc. (the "Company") as of September 30, 2007, its results of

Edgar Filing: IMAGE TECHNOLOGY LABORATORIES INC - Form 10QSB

operations for the three and nine months ended September 30, 2007 and 2006, changes in stockholders' deficiency for the nine months ended September 30, 2007 and cash flows for the nine months ended September 30, 2007 and 2006. Certain terms used herein are defined in the audited financial statements of the Company as of December 31, 2006 and for the years ended December 31, 2006 and 2005 (the "Audited Financial Statements") included in the Company's Annual Report on Form 10-KSB previously filed with the Securities and Exchange Commission (the "SEC"). Pursuant to rules and regulations of the SEC, certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed in or omitted from these financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, the accompanying unaudited condensed financial statements should be read in conjunction with the Audited Financial Statements and the other information included in the Form 10-KSB.

The results of operations for the three and nine months ended September 30, 2007 are not necessarily indicative of the results of operations to be expected for the full year ending December 31, 2007.

These unaudited financial statements have been prepared assuming that the Company will continue as a going concern and, accordingly, do not include any adjustments that might result from the outcome of this uncertainty. The Company's independent registered public accounting firm's report on the financial statements included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2006, contained an explanatory paragraph regarding the Company's ability to continue as a going concern.

NOTE 2 - EARNINGS (LOSS) PER SHARE:

The Company presents "basic" earnings (loss) per common share and, if applicable, "diluted" earnings (loss) per common share pursuant to the provisions of Statement of Financial Accounting Standards No. 128, "Earnings per Share" ("SFAS 128"). Basic earnings (loss) per common share are calculated by dividing net income or loss applicable to common stock by the weighted average number of common shares outstanding during each period. The calculation of diluted earnings (loss) per common share is similar to that of basic earnings (loss) per common share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if all potentially dilutive common shares, such as those issuable upon the exercise of stock options and warrants, were issued during the period. The rights of the Company's preferred and common stockholders are substantially equivalent. The Company has included the 1,501,000 Preferred Series A shares and the 1,037 Cumulative Convertible Preferred Series B shares outstanding in the weighted average number of common shares outstanding in the computation of basic loss per share for the year ended December 31, 2006 in accordance with the "two class" method of computing earnings (loss) per share set forth in SFAS 128.

The Company had a net loss for the three months ended September 30, 2007 and net losses for the nine months ended September 30, 2007 and 2006, and a net gain for the three months ended September 30, 2006. The assumed effects of the exercise of vested options to purchase 1,850,000 and 1,400,000 common shares at September 30, 2007 and 2006, respectively, and warrants to purchase 230,000 common shares outstanding at September 30, 2007 would be anti-dilutive or insignificant and, therefore, they have not been considered in the calculations of diluted per share amounts in the accompanying condensed statements of operations for those periods.

IMAGE TECHNOLOGY LABORATORIES, INC.

NOTE 3 - WORKING CAPITAL LOAN AGREEMENT:

During September 2002, the Company entered into a one-year working capital loan agreement with a financial institution for borrowings of up to \$75,000. The agreement automatically renews annually unless one of the parties gives appropriate notice for cancellation. Outstanding borrowings bear interest payable monthly at 1% above the prime rate, and are guaranteed by the Estate of the Company's principal stockholder, Dr. David Ryon. At September 30, 2007, there was \$68,316 outstanding under this agreement.

In June 2007, the Company entered into a five-year Accounts Receivable loan agreement with PowerLease Solutions, LLC and NetBank to borrow \$650,000 at a 9.5% annual interest rate. Monthly payments are \$13,651 and the loan is co-signed by the Company's principal stockholder. As of September 30, 2007, there was \$624,281 outstanding under this agreement. Fixed fees payable to PowerLease were \$10,402.

NOTE 4 - NOTES PAYABLE TO STOCKHOLDERS:

During November and December 2004, Dr. David Ryon, the Company's principal stockholder, President, and Chief Executive Officer, until his death in December 2004, loaned the Company an aggregate of \$105,000. In December 2004, to memorialize this loan, he executed, as President and Chief Executive Officer, on behalf of the Company, a demand promissory note payable to himself and bearing interest at 10% per annum. He also executed a security agreement, for himself on behalf of the Company, granting to himself a security interest in all of the Company's assets not previously encumbered as security for full payment under the note. Prior to April 12, 2005, the Company negotiated with the Estate of Dr. David Ryon a 24-month payment schedule, beginning in January 2006. The Company's Board of Directors approved the revised terms of the promissory note on April 12, 2005. In December 2005, the Estate of Dr. Ryon loaned the Company an additional \$36,000 under an amendment to the December 2004 promissory note and the payment schedule was renegotiated to begin in January 2007. Additional amounts were loaned to the Company in March 2006 for \$22,500, in August 2006 for \$57,672 and in September 2006 for \$153,375. These amounts, along with other previous loans to the Company by the largest stockholder totaling \$374,548 were converted to 1000 shares of Cumulative Convertible Preferred Stock Series B in late September 2006, and all accrued interest was forgiven. Cumulative Convertible Preferred Stock Series B can be converted to common stock of Image Technology Laboratories at a ratio of one share of Cumulative Convertible Preferred Stock Series B to 2,700 shares of common stock. Either the stockholder or the Company may elect to force conversion after two years in units of 100 shares of Cumulative Convertible Preferred Stock Series B. The Company may also elect to repurchase the Cumulative Convertible Preferred Stock Series B in units of 100 shares of Cumulative Convertible Preferred Stock Series B at any time for \$432 per share of Cumulative Convertible Preferred Stock Series B. Fixed dividend is accumulated as 12.5 additional shares of Cumulative Convertible Preferred Stock Series B per quarter. The underlying common stock, should the Company or shareholder elect to convert, is unregistered. The voting rights are set at one vote per share of Cumulative Convertible Preferred Stock Series B.

In September 2005, the Company received a total of \$50,000 in cash as part of a Bridge Loan Agreement that included the issuance of warrants to purchase 50,000 shares of Common Stock of the Company. All \$50,000 of these funds came from a member of the Company's Board of Directors. The five-year warrants have an exercise price of \$0.33 per share. The Bridge Loan has an annual interest rate of 14%, a maturity of 12 months and can be prepaid upon certain events such as receipt of a certain level of funds from the InMed Services agreement and gross proceeds of equity financing above \$500,000. The principal of \$50,000 and part of the accrued interest was repaid in July 2007 and the remaining accrued

Edgar Filing: IMAGE TECHNOLOGY LABORATORIES INC - Form 10QSB

interest of \$5,000 associated with this loan is still outstanding.

8

IMAGE TECHNOLOGY LABORATORIES, INC.

NOTE 5 - STOCK OPTIONS

The Company did not grant any options under the Company's option plan during the quarter ended September 30, 2007.

Prior to January 1, 2006 the Company measured compensation cost related to stock options issued to employees using the intrinsic value method of accounting prescribed by Accounting Principles Board Opinion No. 25 ("APB 25"), "Accounting For Stock Issued To Employees". The Company has adopted the provisions of Statement of Financial Accounting Standards No. 123R ("SFAS 123R"), "Accounting For Stock-Based Compensation." As a result of SFAS 123R, the Company began expensing the fair value of employee stock options over the vesting period beginning with its fiscal quarter ending March 31, 2006. For the quarter ending September 30, 2007, the Company expensed \$24,483 due to stock options.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following is a discussion of certain factors affecting Image Technology Laboratories, Inc.'s results of operations, assets, liquidity and capital resources. You should read the following discussion and analysis in conjunction with Image Technology Laboratories, Inc.'s unaudited condensed financial statements and related notes, which are included elsewhere in this filing.

Image Technology Laboratories, Inc. ("we", "our" or the "Company") is a medical image and information management company in the healthcare information systems market. We were incorporated in Delaware on December 5, 1997. The Company has developed a single database "Radiology Information System and Picture Archiving and Communications System" known as RIS/PACS for use in the secure management of patient information and diagnostic images. Our lead product is the WarpSpeed system. Through its unique, modular architecture the Company has created a total radiology business solution that is readily scaled and easily upgraded. These features will allow the Company to provide products tailored to the size of its customers and to keep its customers at the forefront of future technological

Edgar Filing: IMAGE TECHNOLOGY LABORATORIES INC - Form 10QSB

advances by enabling the Company to easily update existing systems.

We expect that we will derive our future revenues primarily from sales of our WarpSpeed system and associated maintenance charges along with Application Service Provider (ASP) usage fees. We obtained our first contract for the sale of WarpSpeed and related hardware and maintenance services in August 2002. Accordingly, we are no longer in the development stage for accounting purposes, but we continue to refine and enhance the capabilities of our WarpSpeed system.

We have had recurring losses and negative cash flows from our operating activities since inception. We have cash of \$404,420 and a working capital of \$36,001 as of September 30, 2007.

As of September 30, 2007, we had cash and cash equivalents and a working capital of \$404,420 and \$36,001, respectively.

Net cash provided (used) in our operating activities for the 9 months ending September 30, 2007 of (\$98,527) was substantially attributable to our net loss of \$271,622, offset by \$8,488 in accrued compensation payable to stockholders. Of the net loss of \$271,622, \$73,448 was stock option compensation expense. The net cash used by our financing activities was a net of \$1,421 from our bank line of credit. The net cash provided from an Accounts Receivable loan was \$ 650,000. Investing activities (purchase of equipment and improvements) for the three months ending September 30, 2007 totaled \$ 79,702.

The foregoing activities, i.e., operating, investing and financing, resulted in our net cash increase of \$401,157 for the nine months ended September 30, 2007.

In September 2002, we applied for, and received, a line of credit from M & T Bank, renewable annually, in the amount of \$75,000. As of September 30, 2007, we have \$68,315 outstanding under that loan.

In February and March 2004, we borrowed an aggregate of \$264,000 from Valley Commercial Capital, LLC ("Valley"). These loans required aggregate monthly payments of principal and interest of \$8,273 through February 2007 and \$4,682 in March 2007. In late August 2006, the remaining balance of these loans, \$57,672, was paid. This payoff was funded by a loan from our largest stockholder and was converted to Cumulative Convertible Preferred Series B stock issued to our largest stockholder in late September 2006.

In December 2004, we borrowed \$105,000 from our former Chief Executive Officer, and were to be repaid over 24 months, beginning in January 2007. This amount was converted to Cumulative Convertible Preferred Series B stock issued to our largest stockholder in late September 2006.

In September 2005, the Company received a total of \$50,000 in cash as part of a Bridge Loan Agreement that included the issuance of warrants to purchase 50,000 shares of Common Stock of the Company. All \$50,000 of these funds came from a member of the Company's Board of Directors. The five-year warrants have an exercise price of \$0.33 per share. The Bridge Loan has an annual interest rate of 14%, a maturity of 12 months and can be prepaid upon certain events such as receipt of a certain level of funds from the InMed Services agreement and gross proceeds of equity financing above \$500,000. The principal of \$50,000 and part of the accrued interest were repaid in July 2007 and the remaining accrued interest of \$5,000 associated with this loan is still outstanding.

In December 2005, our largest stockholder loaned the Company an additional \$36,000 under an amendment to the December 2004 promissory note. Pursuant to the Settlement Agreement, the Company paid Dr. Phelps a total of \$153,375 consisting of attorneys' fees awarded by the arbitrator and confirmed by the court plus interest calculated at a rate of nine percent per annum from September 4, 2004 until September 1, 2006. The Company filed an 8-K detailing this event with the

Edgar Filing: IMAGE TECHNOLOGY LABORATORIES INC - Form 10QSB

Securities and Exchange Commission on October 4, 2006. In September 2006, the Company's largest stockholder loaned the Company \$153,375, the proceeds of which were used to satisfy the \$153,375 settlement with Dr. Phelps. This amount was converted to Cumulative Convertible Preferred Series B stock issued to our largest stockholder in late September 2006.

12

IMAGE TECHNOLOGY LABORATORIES, INC.

In June 2007, the Company entered into a five-year Accounts Receivable loan agreement with PowerLease Solutions, LLC and NetBank to borrow \$650,000 at a 9.5% annual interest rate. Monthly payments are \$13,651 and the loan is co-signed by the Company's principal stockholder. As of September 30, 2007, there was \$624,281 outstanding under this agreement. Fixed fees payable to PowerLease were \$10,402.

We require cash to fund our working capital needs and capital expenditures, as well as to meet existing commitments. Such commitments include payments of existing loans including our line of credit, and \$900 per month pursuant to a five-year lease commitment ending in October 2007 for our operations center in Kingston, New York. At times, in order to help in maximizing our working capital, our directors, officers and employees have contributed to capital or deferred compensation due under their agreements. It is anticipated, but not assured, that, should the need arise; such contributions or deferrals might be available to us in the future. Additionally, we are considering outside sources of equity funds and other types of financing in order to help support our anticipated growth. There can be no assurance that such efforts will be successful.

Management believes that as a result of the proceeds from financing activities, as well as anticipated cash flow generated by sales of its RIS/PACS solution (in addition to the current cash flow resulting from our installed ASP base), the Company will be able to continue to meet its obligations as they become due through at least December 31, 2007. Management also believes, that if needed, the Company will be able to obtain additional capital resources from financing through financial institutions and other unrelated sources and/or through additional related party loans and private placements. However, there can be no assurance that the Company will become profitable or that financing will be available. Accordingly, the accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amount and classification of liabilities that may result from the outcome of this uncertainty.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In September 2005, the Company received a total of \$50,000 in cash as part of a Bridge Loan Agreement that included the issuance of warrants to purchase 50,000 shares of Common Stock of the Company. All \$50,000 of these funds came from a member of the Company's Board of Directors. The five-year warrants have an exercise price of \$0.33 per share. The Bridge Loan has an annual interest rate of 14%, a maturity of 12 months and can be prepaid upon certain events such as receipt of a certain level of funds from the InMed Services agreement and gross proceeds of equity financing above \$500,000. The principal of \$50,000 and half of the accrued interest were repaid in July 2007. The remaining accrued interest of \$5,000 associated with this loan is still outstanding.

In December 2005, the Estate of Dr. Ryon loaned the Company an additional \$36,000 under an amendment to the December 2004 promissory note. Additional amounts were loaned to the Company in March 2006 for \$22,500, in August 2006 for

Pursuant to the Settlement Agreement, the Company paid Dr. Phelps a total of \$153,375 consisting of attorneys' fees awarded by the arbitrator and confirmed by the court plus interest calculated at a rate of nine percent per annum from September 4, 2004 until September 1, 2006. These unregistered shares of common stock were issued with registration rights. The proceeds of this sale of common stock were used to repurchase 2,309,583 shares of common stock at a price of \$0.10 from Dr. Carlton Phelps, our former vice president of finance, chief financial officer, secretary and treasurer. The 2,309,583 shares of stock repurchased from Dr. Phelps by the Company were cancelled upon their tender. An 8-K was filed with the Securities and Exchange Commission on October 4, 2006. The net effect of the repurchase and subsequent cancellation of 2,309,583 shares of common stock as described above in combination with the sale of 2,309,583 shares of common stock as described above resulted in no change to the number of shares of common stock outstanding due to this transaction
