Item 2.02 - Results of Operations and Financial Condition

On July 27, 2006, the Registrant issued a news release to announce its financial results for the quarter-to-date period and year-to-date periods ended June 30, 2006. The news release is attached hereto as Exhibit 99.1. The news release includes disclosure of net interest income on a tax-equivalent basis, which is a non-GAAP performance measure used by management in operating its business, which management believes provides investors with a more accurate picture of net interest income and net interest margins for comparative purposes.

known and unknown risks, uncertainties and other factors that may cause actual results to differ materially. For the purposes of these discussions, any statements that are not statements of historical fact may be deemed to be forward looking statements. Such statements are often characterized by the use of qualifying words such as "expects," "anticipates," "believes," "estimates," "plans," "projects," or other statements concerning opinions or judgments of the Registrant and its management about future events. The accuracy of such forward looking statements could be affected by such factors as, including but not limited to, the financial success or changing conditions or strategies of the Registrant's customers or vendors, fluctuations in interest rates, actions of government regulators, the availability of capital and personnel or general economic conditions. Additional discussion about the risk factors associated with the Registrant's business and the factors that could influence forward-looking statements is included in the "Risk Factors" section of the Annual Report on Form 10-K.
