Item 5. Other Events.

In October 2000, MicroStrategy Incorporated (the "Company") entered into an agreement to settle a consolidated private securities class action lawsuit filed in the United States District Court for the Eastern District of Virginia. This settlement was approved by the District Court in April 2001. On June 24, 2002, the Company issued the following consideration to the members of the class action pursuant to the settlement agreement: (1) five-year unsecured subordinated promissory notes having an aggregate principal amount of \$80,281,000 and bearing interest at 7.5% per year; (2) 2,973,302 shares of class A common stock; and (3) warrants to purchase 1,896,980 shares of class A common stock at an exercise price of \$40 per share, with the warrants expiring five years from the date they are issued. As part of the settlement of related derivative litigation in the Delaware Court of Chancery and in satisfaction of a condition of the class action settlement, certain officers of the Company tendered an aggregate of 1,683,504 shares of class A common stock to the Company for no consideration during the fourth quarter of 2001, and the Company has cancelled these shares. Accordingly, the Company has effected a net issuance of 1,289,798 shares of class A common stock as part of the class action settlement. Upon issuance of the instruments described above, the Company completed
