Report of Independent Registered Public Accounting Firm

To the Board of Directors of Frontline Ltd:

We have reviewed the accompanying condensed balance sheet of Frontline Ltd (the Company) as of June 30, 2004, and the related statements of operations for the three and six months ended June 30, 2004, of stockholders' equity for the six months ended June 30, 2004 and the statement of cash flows for the three and six months ended June 30, 2004. This interim financial information is the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial information for it to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2003, and the related consolidated statement of operations, of cash flows and of changes in stockholders' equity for the year then ended (not presented herein), and in our report dated June 24, 2004 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of June 30, 2004, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Frontline Ltd.

Notes to the Interim Financial Statements

1. Basis of Presentation

The accompanying interim financial statements of Frontline Ltd ("Frontline" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The principal accounting policies used in the preparation of these financial statements are set out below.

These interim financial statements should be read in conjunction with the audited financial statements and accompanying notes included in the Company's Annual Report on Form 20-F for the year ended December 31, 2003.

The interim financial statements include the assets and liabilities of the

Edgar Filing: FRONTLINE LTD / - Form 6-K

Company and its subsidiaries and certain variable interest entities in which the Company is deemed to be subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. All intercompany balances and transactions have been eliminated on consolidation.

The Company uses the equity method to account for investments in companies it exercises significant influence over but does not consolidate. The Company records its investments in equity-method investees on the consolidated balance sheets as "Investments in associated companies" and its share of the investees' earnings or losses in the consolidated statements of operations as "Share in results from associated companies". The excess, if any, of purchase price over book value of the Company's investments in equity method investees is included in the accompanying consolidated balance sheets in "Investment in associated companies".

Preparation of financial statements in accordance with generally accepted accounting principles requires that management make estimates and assumptions affecting the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain comparative figures have been reclassified to conform with the presentation adopted in the current period. Effective December 31, 2003 we have reclassified voyage expenses and commission and depreciation and amortisation as components of total operating expenses. We no longer present "net operating revenues", "net operating income before depreciation and amortization" and "net operating income after depreciation and amortization"

2. Accounting Changes

Our adoption of FASB Interpretation 46, Consolidation of Variable Interest Entities, required us to consolidate effective December 31, 2003 Golden Fountain Corporation, which owns a VLCC, and Independent Tankers Corporation (ITC), which owns six VLCCs and four Suezmax tankers. We previously accounted for our interest in Golden Fountain Corporation using the equity method and accounted for our interest in ITC as a purchase option. Full disclosure of the accounting impact of our adoption of FIN 46 is included in our annual report on Form 20-F for the year ended December 31, 2003.

3. Fleet Changes

During the quarter ended March 31, 2004 we exchanged interests in six joint ventures, each owning a VLCC, with our joint venture partner. As a result of these transactions we increased our interests in three VLCCs from 50.1% to 100% and disposed of our 50.1% interests in three VLCCs. (See Note 4.)

On May 27, 2004 we exercised our option to acquire all of the shares of ITC for \$4.1 million. ITC owns a fleet of six VLCCs and four Suezmax tankers. As explained in Note 2 above, we have consolidated ITC with effect from December 31, 2003. Additionally on July 12, 2004 we announced the acquisition of two newbuilding VLCCs for delivery in 2006. On July 13, 2004 we announced the acquisition of three 1989-1990 built Suezmax tankers for delivery in September, 2004.

4. Earnings per share (EPS)

The computation of basic EPS is based on the weighted average number of

Edgar Filing: FRONTLINE LTD / - Form 6-K

shares outstanding during the period. The computation of diluted EPS assumes the foregoing and the exercise of stock options and warrants using the treasury stock method.

The components of the denominator for the calculation of basic EPS and diluted EPS are as follows:

(in thousands)	Three months ended June 30,		Six months ended June 30,	
	2004	2003	2004	2003
Basic earnings per share:				
Weighted average number of ordinary shares outstanding	73,759	76,108	73,759	76,288
=====				
Diluted earnings per share:				
Weighted average number of ordinary shares outstanding	73,759	76,108	73,759	76,288
Stock options	-	75	-	75
	-----	-----	-----	-----
	73,759	76,183	73,759	76,363
=====				

In the three and six months ended June 30, 2004 and three and six month ended June 30, 2003 nil, nil, 170,800 and 170,800 options respectively were anti-dilutive and have been excluded from the calculation of the denominator for diluted earnings per share.

5. Investment in Associated Companies

At June 30, 2004, the Company has the following participation in investments that are recorded using the equity method:

	Percentage
Front Tobago Inc	40.00%

Summarised balance sheet information of the Company's equity method investees is as follows:

(in thousands of \$)	June 30, 2004	December 31, 2003
Current assets	7,917	38,057
Non current assets	29,223	417,653
Current Liabilities	6,554	115,323
Non current liabilities	-	205,087

Summarised statement of operations information of the Company's equity method investees is as follows:

	Three months		Six months	
	ended June 30,		ended June 30,	
	2004	2003	2004	2003
Total operating revenues	8,130	52,059	14,649	110,142
Net operating income	6,013	35,967	11,369	77,538
Net income (loss)	5,237	27,595	10,478	61,920

Edgar Filing: FRONTLINE LTD / - Form 6-K

In the six months ended June 30, 2003, the Company recorded an impairment charge of \$5.2 million related to the other-than-temporary decline in value of its investments in Golden Lagoon Corporation and Ichiban Transport Corporation. This impairment charge was triggered by signing agreements on June 25, 2003 to restructure the Company's investments in certain associated companies. These agreements provided for the sale of the Company's investments in Golden Lagoon Corporation and Ichiban Transport Corporation and an increase in the Company's investments in Ariake Transport Corporation, Sakura Transport Corporation, Tokyo Transport Corporation and Hitachi Hull No 4983 Ltd from 33.33% to 50.10%. These transactions were completed in July 2003 through a combination of sale, acquisition and exchange of interest transactions which were accounted for using the book values of assets exchanged.

The company held 33.3% of the shares of Ichiban Transport Corporation and 50% of the shares of Golden Lagoon Corporation until July 2003 when these investments were sold. The statement of operations includes 33.3% of the earnings of Ichiban Transport Corporation and 50% of the earnings of Golden Lagoon Corporation until the date of sale.

The Company held 50% of the shares of Golden Tide Corporation during the six months ended June 30, 2003. The statement of operations includes 50% share of the earnings of Golden Tide Corporation for the six months ended June 30, 2003. On June 30, 2003, the Company acquired the remaining 50% of the shares of Golden Tide Corporation for \$9.5 million, being 2.4 million net of cash acquired, and has combined the assets, principally the vessel, and liabilities, principally the long-term debt, from that date. The Company has determined that it is the primary beneficiary of Golden Fountain Corporation under FIN 46 and has therefore consolidated the entity as of December 31, 2003.

In December 2003, Frontline agreed with its partner, Overseas Shipholding, Group, Inc ("OSG"), to swap interests in six joint venture companies, which each own a VLCC. These agreements resulted in Frontline exchanging its interest in the vessels Dundee, Sakura I and Tanabe for OSG's interest in the vessels Edinburgh, Ariake and Hakata, thereby increasing its interest in these vessels to 100.0% each. The exchanges of interests were completed on February 24, 2004. In connection with the above transaction, the Company advanced \$34,600,000 to the joint venture companies representing its share of the amounts required to repay the combined bank debt of those joint venture companies. Frontline received a net cash settlement of \$2.3 million in the exchange transaction to reflect the difference in values of the assets exchanged. These transactions were recorded as a non-monetary exchange of productive assets. We recorded the increases of our investments at the book value of our investments given up in the exchanges. A gain on \$0.2 million was recognized in connection with the exchange insofar as it related to the cash element of the transactions.

6. Debt

(in thousands of \$)	June 30, 2004	December 31, 2003
US Dollar denominated floating rate debt (LIBOR + 1.25% to 1.50%) due through 2011	1,071,820	937,936
Yen denominated floating rate debt (LIBOR + 1.25% to 1.313%) due through 2011	13,383	157,210
Fixed rate debt 0% due through 2005	2,000	2,000

Edgar Filing: FRONTLINE LTD / - Form 6-K

8.5% Senior notes	560,000	580,000
Serial notes (6.42% to 7.62%)	99,370	120,620
Term notes (7.84% to 8.52%)	480,745	484,100
<hr style="border-top: 1px dashed black;"/>		
Credit facilities	2,227,318	2,281,867
	4,344	550
<hr style="border-top: 1px dashed black;"/>		
Total debt	2,231,662	2,282,417
Less: short-term and current portion of long-term debt	(184,605)	(191,131)
<hr style="border-top: 1px dashed black;"/>		
	2,047,057	2,091,286
<hr style="border-top: 1px dashed black;"/>		

The outstanding debt as of June 30, 2004 is repayable as follows:

Year ending June 30,
(in thousands of \$)

2005	184,605
2006	144,885
2007	129,524
2008	129,654
2009	111,124
2010 and later	1,531,769
<hr style="border-top: 1px dashed black;"/>	
Total debt	2,231,662
<hr style="border-top: 1px dashed black;"/>	

The weighted average interest rate for the floating rate debt denominated in US dollars was 3.98 per cent as of per cent). The weighted average interest rate for the floating rate debt denominated in Yen was 1.36 per cent as of June 30, 2004 (December 31, 2003 - 1.33 per cent). These rates take into consideration related interest rate swaps.

7. Non-Cash Dividend and Minority Interest

On June 16, 2004, the Company completed the partial spin off of its subsidiary Ship Finance International Limited ("Ship Finance") and distributed 25 per cent of Ship Finance's common shares to the Company's shareholders with each shareholder receiving one share in Ship Finance for every four shares held in the Company. In accordance with US GAAP, the value of the dividend received and the corresponding minority interest has been established as \$141.3 million, representing 25 per cent of the book value of Ship Finance on the date of distribution.

8. Subsequent Events

On July 13, 2004, the Company announced that it had completed the private placement of 600,000 ordinary shares to institutional investors at a purchase price of NOK 246 per share. The total proceeds of \$21.5 million have been being used to finance the acquisition of three 1989-90 built Suezmax tankers. These vessels were delivered during the third quarter of 2004.

On August 19, 2004, the Company declared a dividend of \$1.60 per share. This dividend was paid on September 13, 2004.

On August 19, 2004, the Company announced that it would distribute a further 10 per cent of its shareholding in Ship Finance. Consequently, on

Edgar Filing: FRONTLINE LTD / - Form 6-K

September 24, 2004, the Company's shareholders of record as of September 10, 2004, received one share in Ship Finance for every ten shares they held in Frontline. Frontline's Board has announced that it intends to fully divest its remaining interest in Ship Finance by means of further stock dividends, private placements or other type of corporate transaction.

On October 6, 2004 the Company announced that it had completed the issue and private placement of 300,000 ordinary shares to institutional investors at a purchase price of NOK 352 per share. The total proceeds of \$15.7 million have been being used to assist in financing the purchase of a 1992 built Suezmax tanker that the Company acquired on October 5, 2004.

Selected Financial Data

The selected income statement and cash flow data of the Company with respect to the six months ended June 30, 2004 and 2003 and the selected balance sheet data of the Company with respect to the six months ended June 30, 2004 have been derived from the Company's interim financial statements included herein and should be read in conjunction with such statements and the notes thereto. The following table should also be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations for the interim period ended June 30, 2004.

- (1) Previously we have reported net operating revenues in our income statement data. Effective December 31, 2003, we have reclassified voyage expenses and commission as a component of total operating expenses and now report total operating revenues and total operating expenses for all periods presented. The Company's vessels are operated under time charters, bareboat charters, voyage charters pool arrangements and COAs. Under a time charter, the charterer pays substantially all of the vessel voyage costs. Under a bareboat charter the charterer pays substantially all of the vessel voyage and operating costs. Under a voyage charter, the vessel owner pays such costs. Vessel voyage costs are primarily fuel and port charges. Accordingly, charter income from a voyage charter would be greater than that from an equally profitable time charter to take account of the owner's payment of vessel voyage costs. In order to compare vessels trading under different types of charters, it is standard industry practice to measure the revenue performance of a vessel in terms of average daily time charter equivalent earnings, or TCEs. For voyage charters, this is calculated by dividing net voyage revenues by the number of days on charter. Days spent off-hire are excluded from this calculation. Net voyage revenues, a non-GAAP measure, provides more meaningful information to us than voyage revenues, the most directly comparable GAAP measure. Net voyage revenues are also widely used by investors and analysts in the tanker shipping industry for comparing financial performance between companies and to industry averages. The following table reconciles our net voyage revenues to voyage revenues.

	Quarter ended June 30, 2004	2003	Six months ended June 30, 2004	2003
Voyage revenues	257,127	294,867	612,104	596,625
Voyage expenses and commission	(82,865)	(97,505)	(164,625)	(177,175)
Net voyage revenues	174,262	197,362	447,479	419,450

- (2) Equity to assets ratio is calculated as total stockholders' equity divided by total assets.
- (3) Debt to equity ratio is calculated as total interest bearing current and long-term liabilities, including obligations under capital leases, divided by stockholders' equity.
- (4) Price earnings ratio is calculated using the closing period end share price divided by basic Earnings per Share.

Management's Discussion and Analysis of Financial Condition and Results of Operations for the quarter and six months ended June 30, 2004

Results of Operations

Quarter and six months ended June 30, 2004 compared with the quarter and six months ended June 30, 2003

Total operating revenues increased by 8% and 19% to \$357.0 million and \$806.6 million in the quarter and six months ended June 30, 2004 respectively compared with \$330.2 million and \$677.4 million in the quarter

Edgar Filing: FRONTLINE LTD / - Form 6-K

and six months ended June 30, 2003. This increase is due primarily to fleet changes outlined in our previous quarterly reports, our consolidation of the earnings of ITC and Golden Fountain Corporation effective December 31, 2003 noted above and a strong tanker market in the first half of 2004. Net voyage revenues decreased by 12% and increased by 7% to \$174.3 million and \$447.5 million in the quarter and six months ended June 30, 2004 respectively compared with \$197.4 million and \$419.5 million in the same periods in 2003. Voyage charter revenue represents 72% and 76% of our total operating revenues in the quarter and six months ended June 30, 2004 respectively compared with 89% and 88% in the same periods in 2003. Eight Suezmax OBOs went onto timecharters in late 2003 and are still operating under time charters. Previously, they operated in the spot market. The Company's voyage revenues are significantly affected by the prevailing spot market rates in which the vessels operate. Traditionally, spot market rates are highly volatile and are determined by market forces such as worldwide demand, changes in the production of crude oil, changes in seaborne and other transportation patterns including changes in the distances that cargoes are transported, environmental concerns and regulations and competition from other sources of energy. Average daily time charter equivalent earnings (TCEs) earned by the Company's VLCCs, Suezmax tankers, and Suezmax OBO carriers in the quarter ended June 30, 2004 were \$58,500, \$36,700 and \$27,000 respectively compared with \$46,000, \$39,600 and \$35,200, respectively in the second quarter of 2003. Average daily TCEs earned by the Company's VLCCs, Suezmax tankers, and Suezmax OBO carriers in the six months ended June 30, 2004 were \$66,700, \$48,200 and \$26,600 respectively compared with \$50,700, \$40,200 and \$38,700 respectively in the six months ended June 30, 2003.

Ship operating expenses, which include drydocking costs, increased 3% and 9% to \$29.9 million and \$60.6 million in the quarter and six months ended June 30, 2004 respectively from \$28.9 million and \$55.8 million in the quarter and six months ended June 30, 2003. This increase is due primarily to fleet changes outlined in our previous quarterly reports and our consolidation of the operating expenses of ITC and Golden Fountain Corporation effective December 31, 2003 noted above. Beginning April 2004, we delivered four VLCCs to Shell on bareboat charters. Placing vessels on bareboat charters reduces our total ship operating expenses as the charterer is responsible for paying these costs under a bareboat charter. Average daily operating costs, including drydockings, of the Company's VLCCs, Suezmax tankers and Suezmax OBO carriers were \$6,700, \$5,500 and \$4,900 respectively compared with \$6,400, \$5,600 and \$5,000 respectively in the quarter ended June 30, 2003. Average daily operating costs, including drydockings, of the Company's VLCCs, Suezmax tankers and Suezmax OBO carriers were \$6,600, \$5,400 and \$5,300 respectively compared with \$6,000, \$5,400 and \$5,200 respectively in the six months ended June 30, 2003.

Charterhire expenses decreased to \$9.4 million and \$21.3 million in the quarter and six months ended June 30, 2004 respectively from \$19.3 million and \$42.9 million in the comparable periods in 2003, principally due to the redelivery in December 2003 and January 2004 of four VLCCs that were on time charter to us from BP Shipping Ltd., the shipping arm of BP Plc - these charters commenced in July 2002.

Administrative expenses increased 108% and 100% to \$5.2 million and \$11.4 million in the quarter and six months ended June 30, 2004 respectively from \$2.5 million and \$5.7 million in the same periods in 2003. Administrative expenses are reported net of management fee income of \$0.6 million and \$1.7 million for the quarter and six months ended June 30, 2004 respectively and \$1.1 million and \$1.9 million for and the same periods in 2003. The increase in administrative expenses is primarily as a result of the Company recording non-cash charges of \$1.7 million and \$4.2 million in connection with employee stock options in the quarter and six months ended June 30, 2004 respectively compared with \$0.5 million and \$0.9 million in the comparable periods in 2003.

Edgar Filing: FRONTLINE LTD / - Form 6-K

Depreciation increased 28% and 28% to \$45.6 million and \$90.8 million in the quarter and six months ended June 30, 2004 respectively from \$35.6 million and \$70.9 million in the same periods in 2003. This increase is due primarily to fleet changes noted in our previous quarterly reports, our consolidation of the depreciation charges recorded by ITC and Golden Fountain Corporation effective December 31, 2003 noted above and increased depreciation on the Company's single-hull vessels since October 1, 2003. We reduced our estimates of the useful lives of single-hull tankers effective October 1, 2003. As a result, our aggregate depreciation charge on those vessels has increased by approximately \$1.3 million per quarter.

Net interest expense (being interest expense net of interest income) for the quarter and six months ended June 30, 2004 was \$42.7 million and \$88.6 million respectively, increases of 206% and 199% compared with \$13.8 million and \$29.6 million in the same periods in 2003. Interest income increased to \$8.3m and \$16.3 million in the quarter and six months ended June 30, 2004 respectively from \$3.3 million and \$6.0 million in the same periods in 2003, mainly as a result of the consolidation of Independent Tankers Corporation (ITC) with effect from December 31, 2003. ITC maintained average cash balances of \$322.7 million and \$331.1 million during the quarter and six months ended June 30, 2004 generating interest income of \$6.1 million and \$11.9 million over the periods. Interest expense increased to \$51.1 million and \$104.9 million in the quarter and six months ended June 30, 2004 from \$17.1 million and \$35.6 million in the same periods in 2003 with the increase primarily relating to the consolidation of ITC with effect from December 31, 2003. ITC had average outstanding interest bearing liabilities of \$883.8 million and \$888.0 million during the quarter and six months ended June 30, 2004 respectively and generated interest expense of \$16.6 million and \$33.6 million during those periods. Additionally interest costs of \$12.3 million and \$24.6 million were incurred in the quarter and six months ended June 30, 2004 respectively due to the issuance in December 2003 of \$580 million 8.5% Senior Notes by Ship Finance International Limited, a subsidiary of the Company.

The Company's share in results of associated companies decreased to \$1.5 million and \$4.3 million in the quarter and six months ended June 30, 2004 respectively from \$13.3 million and \$30.5 million in the quarter and six months ended June 30, 2003. This decrease is principally due to the Company terminating its joint ventures which owned six VLCCs jointly with OSG in the first quarter of 2004. Another joint venture which owns a VLCC, which the Company accounted for using the equity method in 2003 is now consolidated with effect from December 31, 2003. As a result, the Company only accounted for two investees using the equity method throughout the quarter and six months ended June 30, 2004.

The Company incurred foreign currency exchange gains of \$6.2 million and \$2.1 million in the quarter and six months ended June 30, 2004 respectively compared with losses of \$0.9 million and gains of \$0.1 million in the same periods in 2003. The gains recorded in the quarter and six months ended June 30, 2004 were principally due to the effect of a weakening of the Japanese Yen on Yen denominated forward currency contracts and debt which are held by the Company. During the quarter ended June 30, 2004 the Company repaid Yen denominated debt of Yen 5.5 billion and at June 30, 2004, the Company had Yen denominated debt of Yen 1.5 billion.

Other financial items increased from income of \$14.3 million and \$12.5 million in the quarter and six months ended June 30, 2003 respectively to income of \$25.3 million and \$12.6 million in the quarter and six months ended June 30, 2004. In all periods, other financial items consists primarily of market value adjustments on derivative instruments including interest rate swaps and freight future agreements. These mark to market adjustments represent income of \$12.5 million and \$10.1 million included in the total of other financial items in the quarter and six months ended June 30, 2003 respectively and income of \$26.8

Edgar Filing: FRONTLINE LTD / - Form 6-K

million and \$14.0 million included the total in the quarter and six months ended June 30, 2004.

Liquidity and Capital Resources

In January and February 2004 our subsidiary Ship Finance refinanced substantially all of its secured bank debt with a new \$1,058.0 million syndicated senior secured credit facility. This facility bears interest at Libor plus 1.25% and is repayable between 2004 and 2010 with a final bullet of \$499.7 million payable on maturity. As at June 30, 2004 the outstanding amount on this facility is \$994.3 million. In common with other secured loans, this facility contains a minimum value covenant which requires that the aggregate value of Ship Finance's vessels exceed 140% of the outstanding amount of the facility.

Ship Finance also has \$560.0 million of outstanding 8.5% Senior Notes due 2013.

Frontline Ltd. does not guarantee any of Ship Finance's debt facilities.

In the six months ended June 30, 2004 net maturity of restricted cash of \$299.9 million includes the release of \$565.5 million held in escrow at December 31, 2003 in connection with Ship Finance issuance of \$580.0 million of 8.5% Senior Notes and placement of a \$250.0 million restricted deposit which may only be used under certain circumstances to make hire payments to Ship Finance.

In the quarter ended June 30, 2004 we drew \$49.5 million under a short-term loan facility from a related party and used the proceeds to repay Yen denominated debt of Yen 5.5 billion (equivalent to \$49.4 million). Subsequent to June 30, 2004 we drew a new secured long-term loan of \$50.0 million and repaid the short-term facility.

Covenants contained in our secured loan agreements may restrict our ability to obtain new secured facilities in future. We were in compliance with all loan covenants at December 31, 2003 and June 30, 2004.

In connection with its new \$1,058.0 million syndicated senior secured credit facility, Ship Finance entered into new 5-year interest rate swaps with a combined principal amount of \$500.0 million in the first quarter of 2004. These swaps are at rates between 3.3% and 3.5%.

During the six months ended June 30, 2004 we declared total cash dividends of \$9.50 per share which amounted to \$701.6 million. We paid a total of \$661.6 million prior to June 30, 2004 and \$40.0 million subsequent to June 30, 2004. Cash dividends declared reflect strong earnings in the six months ending June 30, 2004, liquidity generated by the Ship Finance transaction and the positive short to medium term outlook for the business.

There have been no other significant changes to our liquidity and capital resources since we issued our annual report on Form 20-F for the year ended December 31, 2003 which includes a full discussion of these items.
