BIGLARI HOLDINGS INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)  
September 30, 2015  
(dollars in thousands, except share and per-share data)

Note 1. Summary of Significant Accounting Policies

Description of Business

The accompanying unaudited consolidated financial statements of Biglari Holdings Inc. (“Biglari Holdings” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to interim financial information and with the instructions to form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In our opinion, all adjustments considered necessary to present fairly the results of the interim periods have been included and consist only of normal recurring adjustments. The results for the interim periods shown are not necessarily indicative of results for the entire fiscal year. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in our transition report on form 10-K for the period September 25, 2014 to December 31, 2014.

Biglari Holdings Inc. is a holding company owning subsidiaries engaged in a number of diverse business activities, including media, property and casualty insurance, and restaurants. The Company’s largest operating subsidiaries are involved in the franchising and operating of restaurants. Biglari Holdings is founded and led by Sardar Biglari, Chairman and Chief Executive Officer of Biglari Holdings and its major operating subsidiaries. The Company’s long-term objective is to maximize per-share intrinsic value. All major operating, investment, and capital allocation decisions are made for the Company and its subsidiaries by Mr. Biglari.

Tender Offer

On July 1, 2015, The Lion Fund II, L.P. completed a tender offer for common stock of Biglari Holdings. The Lion Fund II, L.P. purchased 616,312 shares at a purchase price of \$420.00 per share in cash. As a result of the tender offer, Mr. Biglari beneficially owns approximately 49.5% of the outstanding common stock.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries including Steak n Shake Inc. (“Steak n Shake”), Western Sizzlin Corporation (“Western”), Maxim Inc. (“Maxim”) and First Guard Insurance Company and its agency, 1st Guard Corporation (collectively “First Guard”). Intercompany accounts and transactions have been eliminated in consolidation.

Fiscal Year

On October 16, 2014, the Company’s Board of Directors approved a change in the Company’s fiscal year end, moving from the last Wednesday in September to December 31 of each year. As a result of the change in year end, the third quarter for 2015 includes the period from July 1, 2015 to September 30, 2015. For comparative purposes, the third quarter for 2014 includes the period from July 1, 2014 to September 30, 2014. The comparative quarter is derived from the books and records of the Company. In the opinion of management, the comparative quarter reflects all adjustments necessary to present the financial position as well as the results of operations in accordance with generally accepted accounting principles (“GAAP”). After the year-end change, Steak n Shake continues to operate on a 52/53 week year, which ends on the last Wednesday of the calendar year. For the third quarters of 2015 and 2014, Steak n Shake’s financial information included the period from July 2, 2015 to September 30, 2015, and July 3, 2014 to October 1, 2014, respectively. For the first nine months of 2015 and 2014, Steak n Shake’s financial information included the period from January 1, 2015 to September 30, 2015, and January 2, 2014 to October 1, 2014

respectively. There were no significant transactions in the intervening periods.

#### Business Acquisitions

On February 27, 2014 the Company acquired certain assets and liabilities of Maxim. Maxim is a brand management company whose business lies in media, both in print and in digital, and in licensing of products and services. On March 19, 2014, the Company acquired the stock of First Guard, a direct underwriter of commercial trucking insurance, selling physical damage and nontrucking liability insurance to truckers. These acquisitions were not material, individually or in aggregate, to the Company. The fair value of the assets and liabilities acquired — other than investments, goodwill and intangibles — was not material.

Note 2. New Accounting Standards

In April 2015, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2015-03, Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The update requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The amendments are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The Company does not believe the adoption of ASU 2015-03 will have a material effect on its consolidated financial statements.

In February 2015, the FASB issued ASU 2015-02, Amendments to the Consolidations Analysis. The amendments in this update provide guidance under GAAP about limited partnerships, which will be variable interest entities, unless the limited partners have either substantive kick-out rights or participation rights. It also changes the effect that fees paid to a decision maker or service provider have on consolidation analysis and amends how variable interests held by related parties affect the consolidation conclusion. The amendments in this update are effective for the annual periods, and interim periods within those annual periods, beginning after December 15, 2015. Early application is permitted. The Company is evaluating the effect, if any, on its consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements-Going Concern. The amendments in this update provide guidance in GAAP about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and to provide related footnote disclosures. In doing so, the amendments should reduce diversity in the timing and content of footnote disclosures. The amendments in this update are effective for the annual periods ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Company is evaluating the effect, if any, on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). This update provides a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. In July 2015, the FASB voted to defer the effective date of this ASU by one year, which would make the guidance effective for our first quarter fiscal year 2018 financial statements using either of two acceptable adoption methods: (i) retrospective adoption to each prior reporting period presented with the option to elect certain practical expedients; or (ii) adoption with the cumulative effect of initially applying the guidance recognized at the date of initial application and providing certain additional disclosures. The Company has not yet selected a transition method nor determined the effect of this guidance on its consolidated financial statements.

In April 2014, the FASB issued ASU 2014-08, Reporting of Discontinued Operations and Disclosures of Disposals of Components of an Entity. ASU 2014-08 provides a narrower definition of discontinued operations than under existing GAAP. ASU 2014-08 requires that only disposals of components of an entity (or groups of components) that represent a strategic shift that has or will have a major effect on the reporting entity’s operations are reported in the financial statements as discontinued operations. ASU 2014-08 also provides guidance on the financial statement presentations and disclosures of discontinued operations. ASU 2014-08 is effective prospectively for disposals (or classifications of held-for-sale) of components of an entity that occur in annual or interim periods beginning after December 15, 2014. The adoption of ASU 2014-08 did not have a material effect on the Company’s consolidated financial statements.

Note 3. Earnings Per Share

Earnings per share of common stock is based on the weighted average number of shares outstanding during the year. During September 2014, Biglari Holdings completed an offering of transferable subscription rights. The offering was oversubscribed and 344,261 new shares of common stock were issued. The Company received net proceeds of \$85,873 from the offering. Earnings per share for the third quarter and first nine months of 2014 have been retroactively restated to account for the rights offering.

The shares of Company stock attributable to our limited partner interest in The Lion Fund, L.P. and The Lion Fund II, L.P. — based on our proportional ownership during this period — are considered treasury stock on the consolidated balance sheet and thereby deemed not to be included in the calculation of weighted average common shares outstanding. However, these shares are legally outstanding.

Index

## Note 3. Earnings Per Share (continued)

On July 1, 2015, The Lion Fund II, L.P. completed a tender offer for common stock of Biglari Holdings by purchasing 616,312 shares at a purchase price of \$420.00 per share. All of the shares purchased in the tender offer remain legally outstanding. 584,179 of the shares purchased were deemed treasury stock on the consolidated balance sheet and not included in the calculation of weighted average common shares outstanding.

The following table presents a reconciliation of basic and diluted weighted average common shares.

	Third Quarter		First Nine Months	
	2015	2014	2015	2014
Basic earnings per share:				
Weighted average common shares	1,263,320	1,735,651	1,655,532	1,714,257
Diluted earnings per share:				
Weighted average common shares	1,263,320	1,735,651	1,655,532	1,714,257
Dilutive effect of stock awards	2,008	2,516	2,254	3,030
Weighted average common and incremental shares	1,265,328	1,738,167	1,657,786	1,717,287
Number of share-based awards excluded from the calculation	-	-	-	-

The Company's common stock is \$0.50 stated value. The following table presents shares authorized, issued and outstanding.

	September 30, 2015	December 31, 2014
Common stock authorized	2,500,000	2,500,000
Common stock issued	2,142,202	2,142,202
Treasury stock held by the Company	(75,511 )	(76,616 )
Outstanding shares	2,066,691	2,065,586
Proportional ownership of the Company's common stock in investment partnerships	(805,875 )	(197,533 )
Net outstanding shares for financial reporting purposes	1,260,816	1,868,053

## Note 4. Investments

Investments consisted of the following.

	September 30, 2015	December 31, 2014
Cost	\$21,822	\$11,056
Gross unrealized gains	10	11
Gross unrealized losses	(753 )	(267 )
Fair value	\$21,079	\$10,800

Investment gains/losses are recognized when investments are sold (as determined on a specific identification basis) or as otherwise required by GAAP. The timing of realized gains and losses from sales can have a material effect on periodic earnings. However, such realized gains or losses usually have little, if any, impact on total shareholders'

equity because the investments are carried at fair value with any unrealized gains/losses included as a component of accumulated other comprehensive income in shareholders' equity. We believe that realized investment gains/losses are often meaningless in terms of understanding reported results. Short-term investment gains/losses have caused and may continue to cause significant volatility in our results.

The Company recognized a pre-tax gain of \$29,524 (\$18,305 net of tax) on a contribution of \$74,418 in securities to the investment partnerships (as defined below) during the second quarter of 2014. The gain had a material accounting effect on the Company's 2014 earnings. However, the gain had no impact on total shareholders' equity because the investments were carried at fair value prior to the contribution, with the unrealized gain included as a component of accumulated other comprehensive income.

In connection with the acquisition of First Guard during 2014, we acquired \$15,043 of investments.

Index

## Note 5. Investment Partnerships

The Company reports on the limited partnership interests in The Lion Fund, L.P. and The Lion Fund II, L.P. (collectively the “investment partnerships”) under the equity method of accounting. We record our proportional share of equity in the investment partnerships but exclude Company common stock held by said partnerships. The Company’s pro-rata share of its common stock held by the investment partnerships is recorded as treasury stock even though they are legally outstanding. The Company records gains/losses from investment partnerships (inclusive of the investment partnerships’ unrealized gains and losses on their securities) in the consolidated statements of earnings based on our carrying value of these partnerships. The fair value is calculated net of the general partner’s accrued incentive fees. Gains and losses on Company common stock included in the earnings of these partnerships are eliminated because they are recorded as treasury stock.

The fair value and adjustment for Company common stock held by the investment partnerships to determine carrying value of our partnership interest is presented below.

	Fair Value	Company Common Stock	Carrying Value
Partnership interest at December 31, 2014	\$776,899	\$78,917	\$697,982
Investment partnership (losses) gains	(16,313 )	(39,023 )	22,710
Contributions (net of distributions) to investment partnerships	73,500	-	73,500
Increase in proportionate share of Company stock held	-	255,272	(255,272 )
Partnership interest at September 30, 2015	\$834,086	\$295,166	\$538,920

The carrying value of the investment partnerships net of deferred taxes is presented below.

	September 30, 2015	December 31, 2014
Carrying value of investment partnerships	\$538,920	\$697,982
Deferred tax liability related to investment partnerships	(141,723 )	(141,836 )
Carrying value of investment partnerships net of deferred taxes	\$397,197	\$556,146

The Company’s proportionate share of Company stock held by investment partnerships at cost is \$332,437 and \$77,165 at September 30, 2015 and December 31, 2014, respectively, and is recorded as treasury stock.

The carrying value of the partnership interest approximates fair value adjusted by changes in the value of held Company stock. Fair value is according to our proportional ownership interest of the fair value of investments held by the investment partnerships. The fair value measurement is classified as level 3 within the fair value hierarchy.

During the third quarters of 2015 and 2014, the Company recorded \$5,302 and \$21,099 of gains, respectively, from investment partnerships. During the first nine months of 2015 and 2014 we recorded \$22,710 of gains and \$9,438 of losses, respectively, from investment partnerships. As the general partner of the investment partnerships, Biglari Capital Corp. (“Biglari Capital”) on December 31 of each year will earn an incentive reallocation fee for the Company’s investments equal to 25% of the net profits over an annual hurdle rate of 6% above the previous high-water mark. Our policy is to accrue an estimated incentive fee throughout the year; however, no fees are reallocated until the end of the calendar year. As of September 30, 2015, the Company’s accrued incentive fee for Biglari Capital was \$413. No amount was accrued as of September 30, 2014, because the net profits did not exceed the hurdle. Our investments in these partnerships are committed on a rolling 5-year basis.

Property and equipment, net	\$339,985	\$353,875

## Note 7. Goodwill and Other Intangibles

## Goodwill

Goodwill consists of the excess of the purchase price over the fair value of the net assets acquired in connection with business acquisitions.

A reconciliation of the change in the carrying value of goodwill is as follows.

	Restaurants	Other	Total
Goodwill at December 31, 2014	\$28,251	\$11,913	\$40,164

Acquisitions during first nine months 2015	-	-	-
Goodwill at September 30, 2015	\$28,251	\$11,913	\$40,164

We are required to assess goodwill and any indefinite-lived intangible assets for impairment annually, or more frequently if circumstances indicate impairment may have occurred. The analysis of potential impairment of goodwill requires a two-step approach. The first is the estimation of fair value of each reporting unit. If step one indicates that impairment potentially exists, the second step is performed to measure the amount of impairment, if any. Goodwill impairment occurs when the estimated fair value of goodwill is less than its carrying value.

Index

## Note 7. Goodwill and Other Intangibles (continued)

The valuation methodology and underlying financial information included in our determination of fair value require significant management judgments. We use both market and income approaches to derive fair value. The judgments in these two approaches include, but are not limited to, comparable market multiples, long-term projections of future financial performance, and the selection of appropriate discount rates used to determine the present value of future cash flows. Changes in such estimates or the application of alternative assumptions could produce significantly different results. No impairment charges for goodwill were recorded in the first nine months of 2015 or 2014.

## Other Intangibles

Other intangibles are composed of the following.

	September 30, 2015			December 31, 2014		
	Gross carrying amount	Accumulated amortization	Total	Gross carrying amount	Accumulated amortization	Total
Franchise agreement	\$5,310	\$ (2,921 )	\$2,389	\$5,310	\$ (2,523 )	\$2,787
Other	810	(657 )	153	810	(624 )	186
<b>Total</b>	<b>6,120</b>	<b>(3,578 )</b>	<b>2,542</b>	<b>6,120</b>	<b>(3,147 )</b>	<b>2,973</b>
Intangible assets with indefinite lives:						
Trade names	15,876	-	15,876	15,876	-	15,876
Other assets with indefinite lives	3,476	-	3,476	3,907	-	3,907
<b>Total intangible assets</b>	<b>\$25,472</b>	<b>\$ (3,578 )</b>	<b>\$21,894</b>	<b>\$25,903</b>	<b>\$ (3,147 )</b>	<b>\$22,756</b>

Intangible assets subject to amortization consist of franchise agreements connected with the purchase of Western as well as rights to favorable leases related to prior acquisitions. These intangible assets are being amortized over their estimated weighted average of useful lives ranging from eight to twelve years.

Amortization expense for the first nine months of 2015 and 2014 was \$431 and \$521, respectively. Total annual amortization expense for each of the next five years will approximate \$508.

The Company acquired Maxim and First Guard during the first quarter of 2014. Portions of the purchase prices were allocated to intangible assets with indefinite lives.

Intangible assets with indefinite lives consist of trade names, franchise rights as well as lease rights.

## Note 8. Restaurant Operations Revenues

Restaurant operations revenues were as follows.

	Third Quarter		First Nine Months	
	2015	2014	2015	2014
Net sales	\$203,503	\$196,823	\$601,951	\$573,477

## Steak n Shake Credit Facility

On March 19, 2014, Steak n Shake and its subsidiaries entered into a new credit agreement. This credit agreement provides for a senior secured term loan facility in an aggregate principal amount of \$220,000 and a senior secured revolving credit facility in an aggregate principal amount of up to \$30,000.

The term loan is scheduled to mature on March 19, 2021. It amortizes at an annual rate of 1.0% in equal quarterly installments, beginning June 30, 2014, at 0.25% of the original principal amount of the term loan, subject to mandatory prepayments from excess cash flow, asset sales and other events described in the credit agreement. The balance will be due at maturity. The revolver will be available on a revolving basis until March 19, 2019.

Steak n Shake has the right to request an incremental term loan facility from participating lenders and/or eligible assignees at any time, up to an aggregate total principal amount not to exceed \$70,000 if certain customary conditions within the credit agreement are met.

Borrowings bear interest at a rate per annum equal to a base rate or a Eurodollar rate (minimum of 1%) plus an applicable margin. Interest on the term loan is based on a Eurodollar rate plus an applicable margin of 3.75% or on the prime rate plus an applicable margin of 2.75%. Interest on loans under the revolver is based on a Eurodollar rate plus an applicable margin ranging from 2.75% to 4.25% or on the prime rate plus an applicable margin ranging from 1.75% to 3.25%. The applicable margins on revolver loans are contingent on Steak n Shake's total leverage ratio. The revolver also carries a commitment fee ranging from 0.40% to 0.50% per annum, depending on Steak n Shake's total leverage ratio, on the unused portion of the revolver.

The interest rate on the term loan was 4.75% on September 30, 2015.

The credit agreement includes customary affirmative and negative covenants and events of default, as well as a financial maintenance covenant, solely with respect to the revolver, relating to the maximum total leverage ratio.

Both the term loan and the revolver have been secured by first priority security interests in substantially all the assets of Steak n Shake. Biglari Holdings is not a guarantor under the credit facility. Approximately \$118,589 of the proceeds of the term loan were used to repay all outstanding amounts under Steak n Shake's former credit facility and

to pay related fees and expenses, \$50,000 of such proceeds were used to pay a cash dividend to Biglari Holdings, and the remaining term loan proceeds of approximately \$51,411 are being used by Steak n Shake for working capital and general corporate purposes. As of September 30, 2015, \$216,700 was outstanding under the term loan, and no amount was outstanding under the revolver.

## Interest Rate Swap

During 2013, Steak n Shake entered into an interest rate swap for a notional amount of \$65,000 which matured on September 30, 2015. During 2011, Steak n Shake entered into an interest rate swap agreement which matures on February 15, 2016. The notional amount of the interest rate swap was \$2,000 on September 30, 2015.

The carrying amounts for debt reported in the consolidated balance sheet did not differ materially from their fair values at September 30, 2015 and December 31, 2014. The fair value was determined to be a Level 3 fair value measurement.

## Note 10. Accumulated Other Comprehensive Income

During the first nine months of 2015 and 2014, the changes in the balances of each component of accumulated other comprehensive income, net of tax, were as follows.

	2015			2014

## Note 11. Income Taxes

In determining the quarterly provision for income taxes, the Company uses an estimated annual effective tax rate based on expected annual income, statutory tax rates, and available tax planning opportunities in the various jurisdictions in which the Company operates. Unusual or infrequently occurring items are separately recognized during the quarter in which they occur.

Income tax for the third quarter of 2015 was a benefit of \$248 compared to an expense of \$4,468 for the third quarter of 2014. Income tax expense for the first nine months of 2015 was \$4,739 compared to an income tax expense of \$704 in 2014. The variance in income tax expense between 2015 and 2014 is primarily attributable to tax expense on income from investment partnerships. Income from the partnerships in 2015 is primarily composed of dividend income that is taxed at significantly lower rates than our statutory tax rates.

As of September 30, 2015 and December 31, 2014, we had approximately \$312 and \$453, respectively, of unrecognized tax benefits, which are included in other liabilities in the consolidated balance sheets.

## Note 12. Commitments and Contingencies

We are involved in various legal proceedings and have certain unresolved claims pending. We believe, based on examination of these matters and experiences to date, that the ultimate liability, if any, in excess of amounts already provided in our consolidated financial statements is not likely to have a material effect on our results of operations,

financial position or cash flows.

In 2013 two shareholders of the Company filed derivative actions putatively on behalf of the Company against the members of our Board of Directors in the United States District Courts for the Southern District of Indiana and the Western District of Texas. The actions were consolidated in the Southern District of Indiana in 2014. On March 18, 2015, the United States District Court for the Southern District of Indiana granted a motion to dismiss the derivative actions in favor of the Company. In addition, the Court issued judgment on all counts in favor of the Company and its directors. The two shareholders have appealed the Court's decision.

Note 13. Fair Value of Financial Assets and Liabilities

The fair values of substantially all of our financial instruments were measured using market or income approaches. Considerable judgment may be required in interpreting market data used to develop the estimates of fair value. Accordingly, the fair values presented are not necessarily indicative of the amounts that could be realized in an actual current market exchange. The use of alternative market assumptions and/or estimation methodologies may have a material effect on the estimated fair value. The hierarchy for measuring fair value consists of Levels 1 through 3, which are described below.

- Level 1 – Inputs represent unadjusted quoted prices for identical assets or liabilities exchanged in active markets.
- Level 2 – Inputs include directly or indirectly observable inputs (other than Level 1 inputs) such as quoted prices for similar assets or liabilities exchanged in active or inactive markets; quoted prices for identical assets or liabilities exchanged in inactive markets; other inputs that may be considered in fair value determinations of the assets or liabilities, such as interest rates and yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Pricing evaluations generally reflect discounted expected future cash flows, which incorporate yield curves for instruments with similar characteristics, such as credit ratings, estimated durations and yields for other instruments of the issuer or entities in the same industry sector.
- Level 3 – Inputs include unobservable inputs used in the measurement of assets and liabilities. Management is required to use its own assumptions regarding unobservable inputs because there is little, if any, market activity in the assets or liabilities and we may be unable to corroborate the related observable inputs. Unobservable inputs require management to make certain projections and assumptions about the information that would be used by market participants in pricing assets or liabilities.

The following methods and assumptions were used to determine the fair value of each class of the following assets and liabilities recorded at fair value in the consolidated balance sheet:

Cash equivalents: Cash equivalents primarily consist of money market funds which are classified within Level 1 of the fair value hierarchy.

Equity securities: The Company's investments in equity securities are classified within Level 1 of the fair value hierarchy.

Bonds: The Company's investments in bonds are classified within Level 2 of the fair value hierarchy.

Non-qualified deferred compensation plan investments: The assets of the non-qualified plan are set up in a rabbi trust. They represent mutual funds and are classified within Level 1 of the fair value hierarchy.

Interest rate swaps: Interest rate swaps are marked to market each reporting period and are classified within Level 2 of the fair value hierarchy. Interest rate swaps at September 30, 2015 and December 31, 2014 represent the fair market value for Steak n Shake's interest rate swaps.

## Note 14. Related Party Transactions

In 2013 Biglari Holdings entered into the following agreements with Mr. Biglari, its Chairman and Chief Executive Officer: (i) a Stock Purchase Agreement for the sale of Biglari Capital to Mr. Biglari (the “Biglari Capital Transaction”); (ii) a Shared Services Agreement with Biglari Capital, and (iii) a First Amendment to the Amended and Restated Incentive Bonus Agreement with Mr. Biglari (the “Incentive Agreement Amendment”). The transactions contemplated thereby were unanimously approved by the independent Governance, Compensation and Nominating Committee of the Board of Directors of the Company (the “Committee”), which retained separate counsel, tax/accounting advisors, an independent compensation consultant, and a financial advisor to assist the Committee in the structuring, evaluation, and negotiation of such transactions.

**Shared Services Agreement**

Connected with the Biglari Capital Transaction, Biglari Holdings and Biglari Capital entered into the Shared Services Agreement pursuant to which Biglari Holdings provides certain services to Biglari Capital in exchange for a 6% hurdle rate for Biglari Holdings and its subsidiaries (as compared to a 5% hurdle rate for all other limited partners) in order to determine the incentive reallocation to Biglari Capital, as general partner of The Lion Fund, L.P. and The Lion Fund II, L.P., under their respective partnership agreements. The incentive reallocation to Biglari Capital is equal to 25% of the net profits allocated to the limited partners in excess of their applicable hurdle rate above the previous high-water mark. The Shared Services Agreement runs for an initial five-year term, and automatically renews for successive five-year periods, unless terminated by either party effective at the end of the initial or the renewed term, as applicable. The term of the Shared Services Agreement coincides with the lock-up period for the Company’s investments in The Lion Fund, L.P. and The Lion Fund II, L.P. under their respective partnership agreements. The Company provided services for Biglari Capital under the Shared Services Agreement costing an aggregate of \$152

and \$36 for the third quarters of 2015 and 2014, respectively, and \$3,943 and \$751 for the first nine months of 2015 and 2014, respectively.

Investments in The Lion Fund, L.P. and The Lion Fund II, L.P.

As of September 30, 2015, the Company's investments in The Lion Fund, L.P. and The Lion Fund II, L.P. had a fair value of \$834,086.

As the general partner of the investment partnerships, Biglari Capital on December 31 of each year will earn an incentive reallocation fee for the Company's investments equal to 25% of the net profits over an annual hurdle rate of 6% above the previous high-water mark. Our policy is to accrue an estimated incentive fee throughout the year; however, no fees are reallocated until the end of the calendar year. As of September 30, 2015, the Company's accrued incentive fee for Biglari Capital was \$413. No amount was accrued as of September 30, 2014, because the net profits did not exceed the hurdle.

Note 14. Related Party Transactions (continued)

Incentive Agreement Amendment

Also in connection with the Biglari Capital Transaction, Biglari Holdings and Mr. Biglari entered into the Incentive Agreement Amendment which amends the Amended and Restated Incentive Bonus Agreement with Mr. Biglari to reflect and give effect to the Biglari Capital Transaction, which excludes earnings by the investment partnerships from the calculation of Mr. Biglari's incentive bonus.

License Agreement

In 2013 the Company entered into a Trademark License Agreement (the "License Agreement") with Mr. Biglari. The License Agreement was unanimously approved by the Committee. In addition, the license under the License Agreement is provided on a royalty-free basis in the absence of specified extraordinary events described below. Accordingly, the Company and its subsidiaries have paid no royalties to Mr. Biglari under the License Agreement since its inception.

Under the License Agreement, Mr. Biglari granted to the Company an exclusive license to use the Biglari and Biglari Holdings names (the "Licensed Marks") in association with various products and services (collectively the "Products and Services"). Upon (a) the expiration of twenty years from the date of the License Agreement (subject to extension as provided in the License Agreement), (b) Mr. Biglari's death, (c) the termination of Mr. Biglari's employment by the Company for Cause (as defined in the License Agreement), or (d) Mr. Biglari's resignation from his employment with the Company absent an Involuntary Termination Event (as defined in the License Agreement), the Licensed Marks for the Products and Services will transfer from Mr. Biglari to the Company, without any compensation, if the Company is continuing to use the Licensed Marks in the ordinary course of its business. Otherwise, the rights will revert to Mr. Biglari.

If (i) a Change of Control (as defined in the License Agreement) of the Company; (ii) the termination of Mr. Biglari's employment by the Company without Cause; or (iii) Mr. Biglari's resignation from his employment with the Company due to an Involuntary Termination Event (each, a "Triggering Event") were to occur, Mr. Biglari would be entitled to receive a 2.5% royalty on "Revenues" with respect to the "Royalty Period." The royalty payment to Mr. Biglari would not apply to all revenues received by Biglari Holdings and its subsidiaries nor would it apply retrospectively (i.e., to revenues received with respect to the period prior to the Triggering Event). The royalty would apply to revenues recorded by the Company on an accrual basis under GAAP, solely with respect to the defined period of time after the Triggering Event equal to the Royalty Period, from a covered Product, Service or business that (1) has used the Biglari Holdings or Biglari name at any time during the term of the License Agreement, whether prior to or after a Triggering Event, or (2) the Company has specifically identified, prior to a Triggering Event, will use the name Biglari or Biglari Holdings.

"Revenues" means all revenues received, on an accrual basis under GAAP, by the Company, its subsidiaries and affiliates from the following: (1) all Products and Services covered by the License Agreement bearing or associated with the names Biglari and Biglari Holdings at any time (whether prior to or after a Triggering Event). This category would include, without limitation, the use of Biglari or Biglari Holdings in the public name of a business providing any covered Product or Service; and (2) all covered Products, Services and businesses that the Company has specifically identified, prior to a Triggering Event, will bear, use or be associated with the name Biglari or Biglari Holdings.

The Committee unanimously approved the association of the Biglari name and mark with all of Steak n Shake's restaurants (including Company operated and franchised locations), products and brands. On May 14, 2013, the Company, Steak n Shake, LLC and Steak n Shake Enterprises, Inc. entered into a Trademark Sublicense Agreement in connection therewith. Accordingly, revenues received by the Company, its subsidiaries and affiliates from Steak n

Shake's restaurants, products and brands would come within the definition of Revenues for purposes of the License Agreement.

## Note 14. Related Party Transactions (continued)

The “Royalty Period” is a defined period of time, after the Triggering Event, calculated as follows: (i) if, following three months after a Triggering Event, the Company or any of its subsidiaries or affiliates continues to use the Biglari or Biglari Holdings name in connection with any covered product or service, or continues to use Biglari as part of its corporate or public company name, then the “Royalty Period” will equal (a) the period of time during which the Company or any of its subsidiaries or affiliates continues any such use, plus (b) a period of time after the Company, its subsidiaries and affiliates have ceased all uses of the names Biglari and Biglari Holdings equal to the length of the term of the License Agreement prior to the Triggering Event, plus three years. As an example, if a Triggering Event occurs five years after the date of the License Agreement, and the Company ceases all uses of the Biglari and Biglari Holdings names two years after the Triggering Event, the Royalty Period will equal a total of ten years (the sum of two years after the Triggering Event during which the Biglari and Biglari Holdings names are being used, plus a period of time equal to the five years prior to the Triggering Event, plus three years); or (ii) if the Company, its subsidiaries and affiliates cease all uses of the Biglari and Biglari Holdings names within three months after a Triggering Event, then the “Royalty Period” will equal the length of the term of the License Agreement prior to the Triggering Event, plus three years. As an example, if a Triggering Event occurs five years after the date of the License Agreement, and the Company ceases all uses of the Biglari and Biglari Holdings names two months after the Triggering Event, the Royalty Period will equal a total of eight years (the sum of the period of time equal to the five years prior to the Triggering Event, plus three years). Notwithstanding the above methods of determining the Royalty Period, the minimum Royalty Period is five years after a Triggering Event.

## Note 15. Business Segment Reporting

Our restaurant operations include Steak n Shake and Western. As a result of the acquisitions of Maxim and First Guard, the Company reports segment information for these businesses. Other business activities not specifically identified with reportable business segments are presented in other.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands except per share data)

Biglari Holdings Inc. or the "Company", is a holding company owning subsidiaries engaged in a number of diverse business activities, including media, property and casualty insurance, and restaurants. The Company's largest operating subsidiaries are involved in the franchising and operating of restaurants. Biglari Holdings is founded and led by Sardar Biglari, Chairman and Chief Executive Officer of Biglari Holdings and its major operating subsidiaries. The Company's long-term objective is to maximize per-share intrinsic value. All major operating, investment, and capital allocation decisions are made for the Company and its subsidiaries by Mr. Biglari.

On October 16, 2014, the Company's Board of Directors approved a change in the Company's fiscal year end, moving from the last Wednesday in September to December 31 of each year. As a result of the change in year end, the third quarter for 2015 includes the period from July 1, 2015 to September 30, 2015. For comparative purposes, the third quarter for 2014 includes the period from July 1, 2014 to September 30, 2014. The comparative quarter is derived from the books and records of the Company. In the opinion of management, the comparative quarter reflects all adjustments necessary to present the financial position as well as the results of operations in accordance with generally accepted accounting principles. After the year-end change, Steak n Shake continues to operate on a 52/53 week year, which ends on the last Wednesday of the calendar year. For the third quarters of 2015 and 2014, Steak n Shake's financial information included the period from July 2, 2015 to September 30, 2015, and July 3, 2014 to October 1, 2014, respectively. For the first nine months of 2015 and 2014, Steak n Shake's financial information included the period from January 1, 2015 to September 30, 2015, and January 2, 2014 to October 1, 2014, respectively. There were no significant transactions in the intervening periods.

On July 1, 2015, The Lion Fund II, L.P. completed a tender offer for common stock of Biglari Holdings. The Lion Fund II, L.P. purchased 616,312 shares at a purchase price of \$420.00 per share in cash. All of the shares purchased in the tender offer remain legally outstanding. However, 584,179 of the shares purchased were deemed treasury stock on the consolidated balance sheet (based on our proportional ownership) and not included in the calculation of weighted average common shares outstanding for financial reporting purposes only. As a result of the tender offer, Mr. Biglari beneficially owns approximately 49.5% of the outstanding common stock.

Net earnings attributable to Biglari Holdings shareholders for the third quarter of 2015 and 2014 are disaggregated in the table that follows. Amounts are recorded after deducting income taxes.

Our restaurant businesses include Steak n Shake and Western. As of September 30, 2015, Steak n Shake comprised 417 company-operated restaurants and 138 franchised units. Western comprised 4 company-operated restaurants and 66 franchised units.

Our insurance business is composed of First Guard Insurance Company and its agency, 1st Guard Corporation (collectively "First Guard"), which we acquired on March 19, 2014. First Guard is a direct underwriter of commercial trucking insurance, selling physical damage and nontrucking liability insurance to truckers.

Our media business is composed of Maxim. We acquired certain assets and liabilities of Maxim on February 27, 2014. Maxim's business lies principally in media and licensing.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Net sales during the third quarter and the first nine months of 2015 were \$203,503 and \$601,951, respectively, representing increases of \$6,680 and \$28,474, respectively, when compared to the same periods in the prior year. The increased performance of our restaurant operations was largely driven by Steak n Shake's same-store sales. Steak n Shake's same-store sales during the third quarter and the first nine months of 2015 increased 3.0% and 4.6%, respectively, whereas customer traffic increased by 1.3% during the third quarter of 2015 and 2.7% during the first nine months of 2015. The term "same-store sales" refers to the sales of company-operated units open at least 18 months at the beginning of the current period and have remained open through the end of the period. Same-store traffic measures the number of patrons who walk through the same units.

Franchise royalties and fees during 2015 remained comparatively constant as compared to those in 2014 with increases of 1.8% and 0.2% during the third quarter and first nine months of 2015, respectively. Steak n Shake opened 5 franchise units and closed 3 franchise units during the third quarter of 2015. The increases in the third quarter and in the first nine months of 2015 are primarily attributable to the opening of new Steak n Shake units in 2015. The percentage increase during the first nine months was lower than the increase in the third quarter because of the timing of forfeited area development fees, which were realized in the first quarter of 2014.

Cost of food in the third quarter and the first nine months of 2015 was \$59,353 or 29.2% of net sales, and \$176,207 or 29.3% of net sales, respectively, compared to the third quarter and first nine months in 2014 of \$60,484 or 30.7% of net sales, and \$171,915 or 30.0% of net sales, respectively. The decrease as a percent of sales during the third quarter was primarily attributable to lower beef costs. The decrease as a percent of sales during the first nine months was primarily attributable to lower commodity costs and change in menu mix.

Restaurant operating costs during the third quarter of 2015 were \$96,498 or 47.4% of net sales, compared to \$92,660 or 47.1% of net sales in 2014. Restaurant operating costs during the first nine months of 2015 were \$284,710 or 47.3% of net sales compared to \$271,299 or 47.3% of net sales in 2014. The increased costs were mainly based on higher sales. Costs as a percent of sales during the third quarter increased principally due to higher wages and benefits. Costs as a percent of sales during the first nine months were relatively unchanged at 47.3% of net sales as the increased labor and benefits in the third quarter were offset by operational efficiencies earlier in 2015.

Selling, general and administrative expenses during the third quarter and first nine months of 2015 were \$28,624 or 13.7% of total revenues and \$85,025 or 13.8% of total revenues, respectively. The expenses in the third quarter and first nine months of 2014 were \$34,460 or 17.1% of total revenues and \$88,230 or 15.0% of total revenues, respectively. General and administrative expenses decreased by \$3,390 and \$2,688 during the third quarter and first nine months of 2015 compared to the same periods of 2014 primarily due to decreased personnel expenses. Marketing decreased by \$1,067 in the third quarter of 2015 compared to the same period of 2014 primarily due to lower production costs. The decrease in production costs in the third quarter also offset an increase in marketing expense of \$1,197 during the first nine months. The increase in marketing expense during the first nine months was primarily related to commissions paid for third party gift card sales and the sponsorship of an Indy car.

Income tax expense	445	213	1,066	497
Contribution to net earnings	\$857	\$413	\$2,035	\$964

On March 19, 2014, First Guard became a wholly-owned subsidiary of Biglari Holdings; thus, First Guard's inclusion is from the acquisition date for first quarter 2014. First Guard's insurance products are marketed primarily through direct response methods via the Internet or by telephone. First Guard's cost-efficient direct response marketing methods enable it to be a low-cost trucking insurer.

Premiums written during the third quarter of 2015 was \$4,272, an increase of \$1,565 or 57.8% compared to 2014. Premiums written during the first nine months of 2015 was \$11,411 compared to \$5,330 in 2014.

Insurance losses during the third quarter of 2015 were \$2,179 compared with \$1,529 in 2014. Insurance losses during the first nine months of 2015 were \$6,183 compared to \$2,765 in 2014.

Underwriting expenses during the third quarter of 2015 were \$918 compared to \$659 in 2014. Underwriting expenses during the first nine months of 2015 were \$2,437 compared to \$1,407 in 2014.

Underwriting results in the third quarter and first nine months of 2015 of First Guard increased significantly from 2014. Pre-tax underwriting gain was \$1,175 in the third quarter of 2015 compared to \$519 in 2014, an increase of 126%. The increase in pre-tax underwriting gain was mainly based on higher premiums written. Premiums written in the third quarter of 2015 increased 57.8% over premiums written in the comparable 2014 periods.

## Media

Maxim's business lies principally in media and licensing. Earnings of our media operations are summarized below.

	Third Quarter		First Nine Months	
	2015	2014	2015	2014
Revenue	\$5,704	\$3,742	\$17,750	\$9,941

Contribution to net earnings	\$(2,752 )	\$(4,345 )	\$(9,344 )	\$(9,949 )

On February 27, 2014, Maxim became a wholly-owned subsidiary of Biglari Holdings; thus, Maxim's inclusion is from the acquisition date for first quarter 2014.

We acquired Maxim with the idea of transforming the brand. We continue to make investments into the brand, many of which are reflected in the reported expenses. We have recruited personnel to rebuild Maxim's media business, both in print and in digital, as well as to build a licensing business. Although expenses continued to exceed revenues in the third quarter of 2015, management continues to expect the narrowing of the two over time.

Revenue during the third quarter of 2015 was \$5,704, an increase of \$1,962 over 2014. Revenue in the third quarter of 2015 increased 52.4% over revenues in the comparable 2014 periods. Revenue during the first nine months of 2015 was \$17,750 compared to \$9,941 in 2014.

Media cost of sales during the third quarter of 2015 was \$8,476 compared to \$7,544 in 2014. Media cost of sales during the first nine months of 2015 was \$27,077 compared to \$19,399 in 2014.

General and administrative expenses during the third quarter of 2015 were \$1,439 compared to \$3,167 in 2014. General and administrative expenses during the first nine months of 2015 were \$4,943 compared to \$6,523 in 2014.

## Investment Partnership Gains (Losses)

Earnings (losses) from our investments in partnerships are summarized below.

	Third Quarter		First Nine Months	
	2015	2014	2015	2014
Investment partnership gain (loss)	\$5,302	\$21,099	\$22,710	\$(9,438 )
Tax expense (benefit)	(1,688 )	6,688	3,163	(6,239 )
Contribution to net earnings	\$6,990	\$14,411	\$19,547	\$(3,199 )

The Company recorded after-tax gains from investment partnerships of \$6,990 and \$14,411 during the third quarters of 2015 and 2014, respectively. During the first nine months of 2015 the Company recorded after-tax earnings from investment partnerships of \$19,547 compared to after-tax losses of \$3,199 in 2014. The volatility of the gains and losses during the various periods is attributable to changes in market values of investments held by the investment partnerships.

Certain of the investment partnerships hold the Company's common stock as investments. The Company's pro-rata share of its common stock held by the investment partnerships is recorded as treasury stock even though these shares are legally outstanding. Gains and losses on Company common stock included in the earnings of these partnerships are eliminated.

## Investment Gains

The Company recognized a pre-tax gain of \$29,524 (\$18,305 net of tax) on a contribution of \$74,418 in securities to the investment partnerships during the second quarter of 2014. The gain had a material accounting effect on the Company's 2014 earnings. However, the gain had no impact on total shareholders' equity because the investments were carried at fair value prior to the contribution, with the unrealized gain included as a component of accumulated other comprehensive income.

## Interest Expense

The Company's interest expense is summarized below.

	Third Quarter		First Nine Months	
	2015	2014	2015	2014
Interest expense on notes payable and other borrowings	\$2,966	\$3,018	\$8,969	\$8,895
Tax benefit	1,127	1,147	3,408	3,380
Interest expense net of tax	\$1,839	\$1,871	\$5,561	\$5,515

Interest expense during the third quarter and first nine months of 2015 was \$2,966 and \$8,969, respectively. The expense in 2015 remained relatively flat compared to the third quarter and first nine months of 2014 which were \$3,018 and \$8,895, respectively. Included in the first nine months of 2014 expense was \$1,133 of debt extinguishment expenses related to a refinancing of Steak n Shake's former credit facility in March 2014. Steak n Shake's current credit facility has higher debt balances and interest rates than the former credit facility. The outstanding balance on September 30, 2015 was \$216,700 with a 4.75% interest rate.

## Corporate

Corporate expenses exclude the activities in the restaurant, insurance, media and other companies. Corporate net losses during the third quarter of 2015 of \$1,194 remained relatively constant compared to net losses of \$1,339 during the third quarter of 2014. During the first nine months of 2015 and 2014 corporate registered net losses of \$7,577 and \$4,619, respectively. The increase in net loss during the first nine months of 2015 was primarily attributable to proxy costs and legal expenses.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

## Income Tax Expense

Income tax for the third quarter of 2015 was a benefit of \$248 compared to an expense of \$4,468 for the third quarter of 2014. Income tax expense for the first nine months of 2015 was \$4,739 compared to an income tax expense of \$704 in 2014. The variance in income tax expense between 2015 and 2014 is primarily attributable to tax expense on income from investment partnerships. Income from the partnerships in 2015 is primarily composed of dividend income that is taxed at significantly lower rates than our statutory tax rates.

## Financial Condition

Our balance sheet continues to maintain significant liquidity. Our consolidated shareholders' equity on September 30, 2015 was \$487,741 compared to \$725,551 on December 31, 2014. The decrease in shareholders' equity was attributable to an increase in treasury stock. On July 1, 2015, The Lion Fund II, L.P. completed a tender offer for common stock of Biglari Holdings. The Lion Fund II, L.P. purchased 616,312 shares at a purchase price of \$420.00 per share in cash. All of the shares purchased in the tender offer remain legally outstanding. However, 584,179 of the shares purchased were deemed treasury stock on the consolidated balance sheet (based on our proportional ownership) resulting in an additional \$245,355 of treasury stock on the consolidated balance sheet.

Consolidated cash and investments are summarized below.

	September 30, 2015	December 31, 2014
Cash and cash equivalents	\$50,417	\$129,669
Investments	21,079	10,800
Fair value of interest in investment partnerships	834,086	776,899
Total cash and investments	905,582	917,368
Less portion of Company stock held by investment partnerships	(295,166 )	(78,917 )
Carrying value of cash and investments on balance sheet	\$610,416	\$838,451

## Liquidity

Cash provided by operating activities during the first nine months of 2015 was \$34,581 compared to \$20,155 during 2014. The \$14,426 increase of cash provided by operating activities was primarily attributable to an increase in cash from investment partnerships during 2015 of \$6,129 compared to 2014 and an increase in cash from working capital during 2015 of \$7,228 compared to 2014. The investment partnerships received higher dividends during the third quarter of 2015 and distributed a portion of the dividends to Biglari Holdings. The increase in cash from changes in working capital was primarily due to the collection of receivables for gift cards sold by third parties and recoveries of value added taxes in 2015.

Net cash used in investing activities during the first nine months of 2015 of \$107,611 was primarily because of investments in investment partnerships of \$88,500, purchases of bonds (net of maturities) of \$10,828 and capital expenditures of \$8,416. Net cash used in investing activities of \$165,996 during the first nine months of 2014 primarily consisted of acquisitions of businesses of \$40,143, investments in partnerships of \$100,000 and capital expenditures of \$30,529.

Net cash used in financing activities was \$6,219 during the first nine months of 2015 as compared to net cash provided by financing activities of \$181,737 during 2014. During 2015 we incurred payments on long-term debt and

lease obligations of \$6,292. During 2014 we generated cash from financing activities of \$181,737 which primarily resulted from an increase in Steak n Shake borrowings as a result of a debt refinancing during that period. Of the total net proceeds, \$50,000 was used to pay a cash dividend to Biglari Holdings and the remaining loan proceeds are being used by Steak n Shake for working capital and general corporate purposes. Also during 2014 we received proceeds from an equity offering of \$85,873.

We intend to meet the working capital needs of our operating subsidiaries principally through anticipated cash flows generated from operations, cash on hand, existing credit facilities, and the sale of excess properties and investments. We continually review available financing alternatives.

Steak n Shake Credit Facility

On March 19, 2014, Steak n Shake and its subsidiaries entered into a new credit agreement. This credit agreement provides for a senior secured term loan facility in an aggregate principal amount of \$220,000 and a senior secured revolving credit facility in an aggregate principal amount of up to \$30,000.

The term loan is scheduled to mature on March 19, 2021. It amortizes at an annual rate of 1.0% in equal quarterly installments, beginning June 30, 2014, at 0.25% of the original principal amount of the term loan, subject to mandatory prepayments from excess cash flow, asset sales and other events described in the credit agreement. The balance will be due at maturity. The revolver will be available on a revolving basis until March 19, 2019.

Steak n Shake has the right to request an incremental term loan facility from participating lenders and/or eligible assignees at any time, up to an aggregate total principal amount not to exceed \$70,000 if certain customary conditions within the credit agreement are met.

Borrowings bear interest at a rate per annum equal to a base rate or a Eurodollar rate (minimum of 1%) plus an applicable margin. Interest on the term loan is based on a Eurodollar rate plus an applicable margin of 3.75% or on the prime rate plus an applicable margin of 2.75%. Interest on loans under the revolver is based on a Eurodollar rate plus an applicable margin ranging from 2.75% to 4.25% or on the prime rate plus an applicable margin ranging from 1.75% to 3.25%. The applicable margins on revolver loans are contingent on Steak n Shake's total leverage ratio. The revolver also carries a commitment fee ranging from 0.40% to 0.50% per annum, according to Steak n Shake's total leverage ratio, on the unused portion of the revolver.

As of September 30, 2015, the interest rate on the term loan was 4.75%.

The credit agreement includes customary affirmative and negative covenants and events of default, as well as a financial maintenance covenant, solely with respect to the revolver, relating to the maximum total leverage ratio.

Both the term loan and the revolver have been secured by first priority security interests on substantially all the assets of Steak n Shake. Biglari Holdings is not a guarantor under the credit facility. Approximately \$118,589 of the proceeds of the term loan were used to repay all outstanding amounts under Steak n Shake's former credit facility and to pay related fees and expenses, \$50,000 of such proceeds were used to pay a cash dividend to Biglari Holdings, and the remaining term loan proceeds of approximately \$51,411 are being used by Steak n Shake for working capital and general corporate purposes. At September 30, 2015 \$216,700 was outstanding under the term loan, and no amount is outstanding under the revolver.

Steak n Shake had \$10,188 in standby letters of credit outstanding as of September 30, 2015 and December 31, 2014.

Western Revolver

As of September 30, 2015, Western has \$831 due June 13, 2016.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Critical Accounting Policies

Management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. Certain accounting policies require management to make estimates and judgments concerning transactions that will be settled several years in the future. Amounts recognized in our consolidated financial statements from such estimates are necessarily based on numerous assumptions involving varying and potentially significant degrees of judgment and uncertainty. Accordingly, the amounts currently reflected in our consolidated financial statements will likely increase or decrease in the future as additional information becomes available. There have been no material changes to critical accounting policies previously disclosed in our transition period report on form 10-K for the transition period September 25, 2014 to December 31, 2014.

Effects of Governmental Regulations and Inflation

Most Restaurant operations employees are paid hourly rates related to minimum wage laws. Any increase in the legal minimum wage would directly increase our operating costs. We are also subject to various laws related to zoning, land use, health and safety standards, working conditions, and accessibility standards. Any changes in these laws that require improvements to our restaurants would increase our operating costs.

Inflation in food, labor, fringe benefits, energy costs, transportation costs and other operating costs directly affect our operations.

The federal healthcare reform legislation that became law in March 2010 (known as the Patient Protection and Affordable Care Act ["PPACA"]) mandates menu labeling of certain nutritional aspects of restaurant menu items such as caloric, sugar, sodium, and fat content. Altering our recipes in response to such legislation could increase our costs and/or change the flavor profile of our menu offerings, which could have an adverse impact on our results of operations. Additionally, if our customers perceive our menu items to contain unhealthy caloric, sugar, sodium, or fat content, our results of operations could be further adversely affected.

Additionally, minimum employee health care coverage mandated by state or federal legislation, such as the PPACA, could significantly increase our employee health benefit costs or require us to alter the benefits we provide to our employees. While we are assessing the potential impact the PPACA will have on our business, certain of the mandates in the legislation are not yet effective. If our employee health benefit costs increase, we cannot provide assurance that we will be able to offset these costs through increased revenue or reductions in other costs, which could have an adverse effect on our results of operations and financial condition.

Recently Issued Accounting Pronouncements

For detailed information regarding recently issued accounting pronouncements and the expected impact on our consolidated financial statements, see Note 2, "New Accounting Standards" in the accompanying notes to consolidated financial statements included in Part I, Item 1 of this quarterly report on form 10-Q.

Cautionary Note Regarding Forward-Looking Statements

This report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In general, forward-looking statements include estimates of future revenues, cash flows, capital expenditures, or other financial items, and assumptions underlying any of the foregoing. Forward-looking statements reflect management's current expectations regarding future events and use words such as "anticipate," "believe," "expect," "may," and other similar terminology. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. Investors should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. These forward-looking statements are

all based on currently available operating, financial, and competitive information and are subject to various risks and uncertainties. Our actual future results and trends may differ materially depending on a variety of factors, many beyond our control, including, but not limited to, the risks and uncertainties described in Item 1A, Risk Factors of our transition report on form 10-K. We undertake no obligation to publicly update or revise them, except as may be required by law.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

The majority of our investments are conducted through investment partnerships which generally hold common stocks. We also hold marketable securities directly. Through investments in the investment partnerships we hold a concentrated position in the common stock of Cracker Barrel Old Country Store, Inc. A significant decline in the general stock market or in the prices of major investments may produce a large net loss and decrease in our consolidated shareholders' equity. Decreases in values of equity investments can have a materially adverse effect on our earnings and on consolidated shareholders' equity.

We prefer to hold equity investments for very long periods of time so we are not troubled by short-term price volatility with respect to our investments. Our interests in the investment partnerships are committed on a rolling 5-year basis, and any distributions upon our withdrawal of funds will be paid out over two years (and may be paid in kind rather than in cash). Market prices for equity securities are subject to fluctuation. Consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. A hypothetical 10% increase or decrease in the market price of our investments would result in a respective increase or decrease in the fair market value of our investments of \$85,516 along with a corresponding change in shareholders' equity of approximately 7%.

Borrowings on Steak n Shake's credit facility bear interest at a rate per annum equal to a base rate or a Eurodollar rate (minimum of 1%) plus an applicable margin. Interest on the term loan is based on a Eurodollar rate plus an applicable margin of 3.75% or on the prime rate plus an applicable margin of 2.75%. Interest on loans under the revolver is based on a Eurodollar rate plus an applicable margin ranging from 2.75% to 4.25% or on the prime rate plus an applicable margin ranging from 1.75% to 3.25%. At September 30, 2015, a hypothetical 100 basis point increase in short-term interest rates would not have a significant impact on our net earnings.

We have had minimal exposure to foreign currency exchange rate fluctuations in the first nine months of 2015 and 2014.

ITEM 4. Controls and Procedures

Based on an evaluation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)), our Chief Executive Officer and Controller have concluded that our disclosure controls and procedures were effective as of September 30, 2015.

There have been no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2015 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

## PART II OTHER INFORMATION

## ITEM 1A. RISK FACTORS

An investment in the common stock of any company involves a degree of risk. Investors should consider carefully the risks and uncertainties described in the Company's transition report on Form 10-K filed with the SEC, as well as the risks subsequently disclosed in our reports filed with the SEC, before deciding whether to purchase our common stock. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also become important factors that may harm the Company's business, financial condition, and results of operations. The occurrence of risk factors could harm the Company's business, financial condition, and results of operations. The trading price of the Company's common stock could decline due to any of these risks and uncertainties, and stockholders may lose part or all of their investment.

There have been no material changes in the risk factors described in the Company's transition report on form 10-K for the period September 25, 2014 to December 31, 2014 or otherwise subsequently disclosed in our reports filed with the SEC.
