NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2017

(dollars in thousands, except share and per share data)

Note 1. Summary of Significant Accounting Policies

Description of Business

The accompanying unaudited consolidated financial statements of Biglari Holdings Inc. (“Biglari Holdings” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) applicable to interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In our opinion, all adjustments considered necessary to present fairly the results of the interim periods have been included and consist only of normal recurring adjustments. The results for the interim periods shown are not necessarily indicative of results for the entire fiscal year. The financial statements contained herein should be read in conjunction with the consolidated financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2016.

Biglari Holdings is a holding company owning subsidiaries engaged in a number of diverse business activities, including media, property and casualty insurance, and restaurants. The Company’s largest operating subsidiaries are involved in the franchising and operating of restaurants. Biglari Holdings is founded and led by Sardar Biglari, Chairman and Chief Executive Officer of the Company. The Company’s long-term objective is to maximize per-share intrinsic value. All major operating, investment, and capital allocation decisions are made for the Company and its subsidiaries by Mr. Biglari. As of September 30, 2017, Mr. Biglari’s beneficial ownership of the Company’s outstanding common stock was approximately 51.3%.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries including Steak n Shake Inc. (“Steak n Shake”), Western Sizzlin Corporation (“Western”), Maxim Inc. (“Maxim”) and First Guard Insurance Company and its agency, 1st Guard Corporation (collectively “First Guard”). Intercompany accounts and transactions have been eliminated in consolidation.

Business Acquisitions

On May 25, 2017, the Company announced an agreement for a subsidiary of Biglari Holdings to acquire all of the outstanding shares of the parent company of Pacific Specialty Insurance Company, Western Service Contract Corp., and its affiliated agency, McGraw Insurance, Inc. The Company is engaged in discussions to amend the original agreement dated May 22, 2017. There is no assurance that the parties will reach agreement on the terms of an amendment or proceed with a transaction. Pacific Specialty Insurance Company specializes in power sports, residential property and personal liability insurance.

Note 2. New Accounting Standards

In January 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-04, *Intangibles - Goodwill and Other: Simplifying the Test for Goodwill Impairment*. ASU 2017-04 provides for the elimination of Step 2 from the goodwill impairment test. If impairment charges are recognized, the amount recorded will be the amount by which the carrying amount exceeds the reporting unit’s fair value with certain limitations. The ASU is effective for public companies for annual periods, and interim periods within those annual periods, beginning after December 15, 2020. The Company does not currently anticipate ASU 2017-04 will have a material impact on the consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows: Restricted Cash*. ASU 2016-18 requires that the statement of cash flows include restricted cash with cash and cash equivalents when reconciling the beginning-of-period and end-of-period amounts shown on statements of cash flows. For public entities, this standard is effective for fiscal years beginning after December 15, 2017. This standard should be applied retrospectively and early adoption is permitted, including adoption in an interim period. We adopted this standard in 2017 and have retroactively adjusted the consolidated statements of cash flows for all periods presented.

Index**Note 2. New Accounting Standards** *(continued)*

Cash as reported on the statements of cash flows consists of the following.

	September 30,	
	2017	2016
Cash and cash equivalents	\$53,670	\$75,405
Restricted cash included in other long-term assets	8,653	25
Cash, cash equivalents and restricted cash	\$62,323	\$75,430

During the third quarter of 2017, the Company deposited \$8,628 to satisfy required collateral for casualty insurance.

In October 2016, the FASB issued ASU 2016-17, *Interests Held through Related Parties That Are under Common Control*. ASU 2016-17 amends the consolidation guidance in ASU 2015-02 regarding the treatment of indirect interests held through related parties that are under common control. The amendments in this update are effective for annual reporting periods beginning after December 15, 2016 and interim periods within those years. The Company adopted the provisions of ASU 2016-17 on January 1, 2017. The adoption of this update has had no material effect on the Company's financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments*. The objective of the update is to reduce diversity in how certain transactions are classified in the statement of cash flows. The amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company does not currently anticipate ASU 2016-15 will have a material impact on the consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses: Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 amends guidance on reporting credit losses for assets held at amortized cost basis and available for sale debt securities. For available for sale debt securities, credit losses should be measured in a manner similar to current GAAP; however ASU 2016-13 will require that credit losses be presented as an allowance rather than as a write-down. The amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. The Company is currently evaluating the impact the adoption of ASU 2016-13 will have on its consolidated financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, *Leases*. ASU 2016-02 requires a lessee to recognize lease assets and lease liabilities on the balance sheet, along with additional qualitative and quantitative disclosures. ASU 2016-02 is effective for annual and interim periods beginning after December 15, 2018, with early adoption permitted. We are currently evaluating the effect this amended guidance will have on our results of operations. We anticipate the ASU will have a material impact on our balance sheet, but the ASU is non-cash in nature and will not affect our cash position.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*. The framework prescribed by ASU 2014-09 includes (a) identifying the contract, (b) identifying the related performance obligations, (c) determining the transaction price, (d) allocating the transaction price to the identified performance obligations and (e) recognizing revenues as the identified performance obligations are satisfied. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. The guidance will be effective for our first quarter 2018 financial statements. Based on our evaluations to date, we do not currently believe the adoption of ASU 2014-09 will have a material effect on our consolidated financial statements. However, timing of the recognition of revenue and related costs may change with respect to certain of our contracts with customers. For instance, revenues for certain contracts may be recognized over time rather than when the service is delivered, as is the current practice. Our evaluations of these and other issues and implementation efforts concerning ASU 2014-09 are ongoing and also include consideration of the new disclosure requirements. We expect to adopt ASU 2014-09 as of January 1, 2018 under the modified retrospective method.

Index**Note 3. Earnings Per Share**

Earnings per share of common stock is based on the weighted average number of shares outstanding during the year. The shares of Company stock attributable to our limited partner interest in The Lion Fund, L.P. and The Lion Fund II, L.P. (collectively, the “investment partnerships”) — based on our proportional ownership during this period — are considered treasury stock on the consolidated balance sheet and thereby deemed not to be included in the calculation of weighted average common shares outstanding. However, these shares are legally outstanding.

On September 16, 2017, The Lion Fund II, L.P. entered into a Rule 10b5-1 Trading Plan to purchase up to an aggregate of 80,000 shares of Biglari Holdings common stock at prevailing market prices. No shares were purchased during the third quarter of 2017. All of the shares to be purchased under the trading plan will remain legally outstanding.

The following table presents a reconciliation of basic and diluted weighted average common shares.

	Third Quarter		First Nine Months	
	2017	2016	2017	2016
Basic earnings per share:				
Weighted average common shares	1,229,601	1,215,296	1,231,209	1,227,624
Diluted earnings per share:				
Weighted average common shares	1,229,601	1,215,296	1,231,209	1,227,624
Dilutive effect of stock awards	—	—	—	1,311
Weighted average common and incremental shares	1,229,601	1,215,296	1,231,209	1,228,935
Anti-dilutive stock awards exclude from the calculation of earnings per share	1,480	3,177	1,480	—

The Company’s common stock is \$0.50 stated value. The following table presents shares authorized, issued and outstanding.

	September 30, 2017	December 31, 2016

Common stock authorized	2,500,000	2,500,000
Common stock issued	2,142,202	2,142,202
Treasury stock held by the Company	(74,589)	(75,009)
Outstanding shares	2,067,613	2,067,193
Proportional ownership of the Company's common stock in investment partnerships	(842,103)	(834,889)
Net outstanding shares for financial reporting purposes	1,225,510	1,232,304

Note 4. Investments

Investments consisted of the following.

	September 30, 2017	December 31, 2016
Cost	\$ 23,172	\$ 22,508
Gross unrealized gains	49	24
Gross unrealized losses	—	(235)
Fair value	\$ 23,221	\$ 22,297

Investment gains/losses are recognized when investments are sold (as determined on a specific identification basis) or as otherwise required by GAAP. The timing of realized gains and losses from sales can have a material effect on periodic earnings. However, such realized gains or losses usually have little, if any, impact on total shareholders' equity because the investments are carried at fair value with any unrealized gains/losses included as a component of accumulated other comprehensive income in shareholders' equity. We believe that realized investment gains/losses are often meaningless in terms of understanding reported results. Short-term investment gains/losses have caused and may continue to cause volatility in our results.

Investments in equity securities and a related put option of \$4,463 are included in other assets and recorded at fair value.

Index**Note 5. Investment Partnerships**

The Company reports on the limited partnership interests in investment partnerships under the equity method of accounting. We record our proportional share of equity in the investment partnerships but exclude Company common stock held by said partnerships. The Company's pro-rata share of its common stock held by the investment partnerships is recorded as treasury stock even though they are legally outstanding. The Company records gains/losses from investment partnerships (inclusive of the investment partnerships' unrealized gains and losses on their securities) in the consolidated statements of earnings based on our carrying value of these partnerships. The fair value is calculated net of the general partner's accrued incentive fees. Gains and losses on Company common stock included in the earnings of these partnerships are eliminated because they are recorded as treasury stock.

The fair value and adjustment for Company common stock held by the investment partnerships to determine carrying value of our partnership interest is presented below.

	Fair Value	Company Common Stock	Carrying Value
Partnership interest at December 31, 2016	\$972,707	\$395,070	\$577,637
Investment partnership gains (losses)	(149,171)	(117,582)	(31,589)
Contributions (net of distributions) to investment partnerships	(5,688)		(5,688)
Increase in proportionate share of Company stock held		3,176	(3,176)
Partnership interest at September 30, 2017	\$817,848	\$280,664	\$537,184
	Fair Value	Company Common Stock	Carrying Value
Partnership interest at December 31, 2015	\$734,668	\$262,979	\$471,689
Investment partnership gains	114,088	92,180	21,908
Contributions (net of distributions) to investment partnerships	(10,896)		(10,896)
Increase in proportionate share of Company stock held		19,807	(19,807)
Partnership interest at September 30, 2016	\$837,860	\$374,966	\$462,894

The carrying value of the investment partnerships net of deferred taxes is presented below.

	September 30, 2017	December 31, 2016
Carrying value of investment partnerships	\$537,184	\$577,637

Edgar Filing: BIGLARI HOLDINGS INC. - Form 10-Q

Deferred tax liability related to investment partnerships	(134,826)	(155,553)
Carrying value of investment partnerships net of deferred taxes	\$402,358	\$422,084

The Company's proportionate share of Company stock held by investment partnerships at cost is \$345,222 and \$341,930 at September 30, 2017 and December 31, 2016, respectively, and is recorded as treasury stock.

The carrying value of the partnership interest approximates fair value adjusted by the value of held Company stock. Fair value is according to our proportional ownership interest of the fair value of investments held by the investment partnerships. The fair value measurement is classified as level 3 within the fair value hierarchy.

Gains (losses) from investment partnerships recorded in the Company's consolidated statements of earnings are presented below.

	Third Quarter		First Nine Months	
	2017	2016	2017	2016

On December 31 of each year, the general partner of the investment partnerships, Biglari Capital Corp. (“Biglari Capital”), will earn an incentive reallocation fee for the Company’s investments equal to 25% of the net profits above a hurdle rate of 6% over the previous high-water mark. Our policy is to accrue an estimated incentive fee throughout the year. The Company did not accrue an incentive fee during the first nine months of 2017. During the first nine months of 2016, the Company accrued incentive fees for Biglari Capital of \$191. Our investments in these partnerships are committed on a rolling 5-year basis. Biglari Capital is an entity solely owned by Mr. Biglari.

Index**Note 7. Goodwill and Other Intangible Assets*****Goodwill***

Goodwill consists of the excess of the purchase price over the fair value of the net assets acquired in connection with business acquisitions.

A reconciliation of the change in the carrying value of goodwill is as follows.

	Restaurants	Other	Total
Goodwill at December 31, 2016	\$ 28,090	\$ 11,913	\$ 40,003
Change in foreign exchange rates during first nine months 2017	69	—	69
Goodwill at September 30, 2017	\$ 28,159	\$ 11,913	\$ 40,072

We are required to assess goodwill and any indefinite-lived intangible assets for impairment annually, or more frequently if circumstances indicate impairment may have occurred. When evaluating goodwill for impairment, we may first perform a qualitative assessment to determine whether it is more likely than not that a reporting unit is impaired. If we do not perform a qualitative assessment, or if we determine that it is not more likely than not that the fair value of the reporting unit exceeds its carrying amount, we test for potential impairment using a two-step approach. The first is the estimation of fair value of each reporting unit. If step one indicates that impairment potentially exists, the second step is performed to measure the amount of impairment, if any. Goodwill impairment occurs when the estimated fair value of goodwill is less than its carrying value.

The valuation methodology and underlying financial information included in our determination of fair value require significant management judgments. We use both market and income approaches to derive fair value. The judgments in these two approaches include, but are not limited to, comparable market multiples, long-term projections of future financial performance, and the selection of appropriate discount rates used to determine the present value of future cash flows. Changes in such estimates or the application of alternative assumptions could produce significantly different results. No impairment charges for goodwill were recorded in the first nine months of 2017 or 2016.

Other Intangible Assets

Other intangible assets are composed of the following.

Total intangible assets	\$31,297	\$ (4,718)	\$26,579	\$30,343	\$ (4,292)	\$26,051

Intangible assets subject to amortization consist of franchise agreements connected with the purchase of Western as well as rights to favorable leases related to prior acquisitions. These intangible assets are being amortized over their estimated weighted average of useful lives ranging from eight to twelve years.

Amortization expense for each of the first nine months of 2017 and 2016 was \$426 and \$428, respectively. The Company's intangible assets with definite lives will fully amortize in 2020. Total annual amortization expense for each of 2018 and 2019 is expected to be approximately \$500.

Intangible assets with indefinite lives consist of trade names, franchise rights as well as lease rights.

The Company consolidated goodwill and other intangible assets into a single line item on the balance sheet at September 30, 2017 and changed the December 31, 2016 presentation to conform.

Steak n Shake Credit Facility

On March 19, 2014, Steak n Shake and its subsidiaries entered into the current credit agreement. The credit agreement provides for a senior secured term loan facility in an aggregate principal amount of \$220,000. On August 3, 2017, Steak n Shake and its lenders amended the senior secured revolving credit facility, reducing the revolving commitments from \$30,000 to \$15,000.

The term loan is scheduled to mature on March 19, 2021. It amortizes at an annual rate of 1.0% in equal quarterly installments, beginning June 30, 2014, at 0.25% of the original principal amount of the term loan, subject to mandatory prepayments from excess cash flow, asset sales and other events described in the credit agreement. The balance will be due at maturity.

Index

Note 10. Borrowings *(continued)*

Steak n Shake has the right to request an incremental term loan facility from participating lenders and/or eligible assignees at any time, up to an aggregate total principal amount not to exceed \$70,000 if certain customary conditions within the credit agreement are met.

Borrowings bear interest at a rate per annum equal to a base rate or a Eurodollar rate (minimum of 1%) plus an applicable margin. Interest on the term loan is based on a Eurodollar rate plus an applicable margin of 3.75% or on the prime rate plus an applicable margin of 2.75%. Interest on loans under the revolver is based on a Eurodollar rate plus an applicable margin ranging from 2.75% to 4.25% or on the prime rate plus an applicable margin ranging from 1.75% to 3.25%. The applicable margins on revolver loans are contingent on Steak n Shake's total leverage ratio.

The interest rate on the term loan was 4.99% as of September 30, 2017.

The credit agreement includes customary affirmative and negative covenants and events of default, as well as a financial maintenance covenant, solely with respect to the revolver, relating to the maximum total leverage ratio. The total leverage ratio is defined as the ratio of (i) total debt minus unrestricted cash in relation to (ii) earnings before interest, taxes, depreciation and amortization. The testing of the total leverage ratio is not applicable when the revolving credit facility is not utilized. Steak n Shake's credit facility contains restrictions on its ability to pay dividends to Biglari Holdings.

Both the term loan and the revolver have been secured by first priority security interests in substantially all the assets of Steak n Shake. Biglari Holdings is not a guarantor under the credit facility. As of September 30, 2017, \$186,448 was outstanding under the term loan, and no amount was outstanding under the revolver.

During the third quarter of 2017, Steak n Shake deposited \$8,628 to satisfy required collateral for casualty insurance. The collateral was previously satisfied through standby letters of credit secured by the revolver. As of September 30, 2017, Steak n Shake did not utilize the revolver to collateralize standby letters of credit. As of December 31, 2016, Steak n Shake utilized the revolver to collateralize \$10,893 in standby letters of credit.

Western Revolver

As of September 30, 2017, Western has \$215 due June 13, 2018.

Fair Value of Debt

The carrying amounts for debt reported in the consolidated balance sheet did not differ materially from their fair values at September 30, 2017 and December 31, 2016. The fair value was determined to be a Level 3 fair value measurement.

During the first nine months of 2016, \$193 (net of tax) was reclassified from accumulated other comprehensive income to the consolidated statement of earnings. There were no reclassifications made during 2017.

Note 12. Income Taxes

In determining the quarterly provision for income taxes, the Company uses an estimated annual effective tax rate based on expected annual income, statutory tax rates, and available tax planning opportunities in the various jurisdictions in which the Company operates. Unusual or infrequently occurring items are separately recognized during the quarter in which they occur.

Income tax benefit for the third quarter of 2017 was \$25,226 compared to \$44,129 for the third quarter of 2016. Income tax benefit for the first nine months of 2017 was \$21,085 compared to an expense of \$5,011 for the first nine months of 2016. The variance in income taxes between 2017 and 2016 is primarily attributable to taxes on income from investment partnerships and losses generated by the investment partnerships.

As of September 30, 2017 and December 31, 2016, we had approximately \$362 and \$396, respectively, of unrecognized tax benefits, which are included in other liabilities in the consolidated balance sheets.

Note 13. Commitments and Contingencies

We are involved in various legal proceedings and have certain unresolved claims pending. We believe, based on examination of these matters and experiences to date, that the ultimate liability, if any, in excess of amounts already provided in our consolidated financial statements is not likely to have a material effect on our results of operations, financial position or cash flows.

Note 14. Fair Value of Financial Assets

The fair values of substantially all of our financial instruments were measured using market or income approaches. Considerable judgment may be required in interpreting market data used to develop the estimates of fair value. Accordingly, the fair values presented are not necessarily indicative of the amounts that could be realized in an actual current market exchange. The use of alternative market assumptions and/or estimation methodologies may have a material effect on the estimated fair value.

The hierarchy for measuring fair value consists of Levels 1 through 3, which are described below.

- Level 1 – Inputs represent unadjusted quoted prices for identical assets or liabilities exchanged in active markets.

Index

Note 14. Fair Value of Financial Assets *(continued)*

- Level 2 – Inputs include directly or indirectly observable inputs (other than Level 1 inputs) such as quoted prices for similar assets or liabilities exchanged in active or inactive markets; quoted prices for identical assets or liabilities exchanged in inactive markets; other inputs that may be considered in fair value determinations of the assets or liabilities, such as interest rates and yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Pricing evaluations generally reflect discounted expected future cash flows, which incorporate yield curves for instruments with similar characteristics, such as credit ratings, estimated durations and yields for other instruments of the issuer or entities in the same industry sector.
- Level 3 – Inputs include unobservable inputs used in the measurement of assets and liabilities. Management is required to use its own assumptions regarding unobservable inputs because there is little, if any, market activity in the assets or liabilities and we may be unable to corroborate the related observable inputs. Unobservable inputs require management to make certain projections and assumptions about the information that would be used by market participants in pricing assets or liabilities.

The following methods and assumptions were used to determine the fair value of each class of the following assets recorded at fair value in the consolidated balance sheet:

Cash equivalents: Cash equivalents primarily consist of money market funds which are classified within Level 1 of the fair value hierarchy.

Equity securities: The Company's investments in equity securities are classified within Level 1 of the fair value hierarchy.

Bonds: The Company's investments in bonds are classified within Level 2 of the fair value hierarchy.

Non-qualified deferred compensation plan investments: The assets of the non-qualified plan are set up in a rabbi trust. They represent mutual funds and are classified within Level 1 of the fair value hierarchy.

Derivative instruments: Options related to equity securities are marked to market each reporting period and are classified within Level 2 of the fair value hierarchy.

As of September 30, 2017 and December 31, 2016, the fair values of financial assets were as follows.

Edgar Filing: BIGLARI HOLDINGS INC. - Form 10-Q

Index**Note 15. Related Party Transactions***Services Agreement*

On September 15, 2017, the Company entered into a services agreement with Biglari Enterprises LLC and Biglari Capital (collectively, the “Biglari Entities”). The Biglari Entities are owned by Mr. Biglari. The services agreement replaces the shared services agreement between the Company and Biglari Capital dated July 1, 2013. The services agreement was executed in connection with a review of the relationships and transactions between the Company and Biglari Capital. After careful consideration, including an assessment by a public accounting firm of administrative-related costs incurred by the Company in connection with its investments, the Company’s Governance, Compensation and Nominating Committee, comprised solely of independent board members, approved the services agreement. Under the terms of the services agreement, the Company will no longer provide business and administrative-related services to Biglari Capital. Instead, the Biglari Entities will assume the responsibility to provide the services and the Company will pay a fixed fee to the Biglari Entities.

The services agreement has a five-year term, effective on October 1, 2017. The fixed fee is \$700 per month for the first year with adjustments in years two through five. The services agreement does not alter the hurdle rate connected with the incentive reallocation paid to Biglari Capital by the Company.

Investments in The Lion Fund, L.P. and The Lion Fund II, L.P.

As of September 30, 2017, the Company’s investments in The Lion Fund, L.P. and The Lion Fund II, L.P. had a fair value of \$817,848.

Contributions to and distributions from The Lion Fund, L.P. and The Lion Fund II, L.P. were as follows.

Distributions of securities	—	—	—	(4,463)
	\$ (4,380)	\$ (16,790)	\$ (5,688)	\$ (10,896)

As the general partner of the investment partnerships, Biglari Capital on December 31 of each year will earn an incentive reallocation fee for the Company’s investments equal to 25% of the net profits above a hurdle rate of 6% over the previous high water mark. Our policy is to accrue an estimated incentive fee throughout the year. The

Company did not accrue incentive fees for Biglari Capital during the first nine months of 2017. The Company accrued \$191 in incentive fees for Biglari Capital during the first nine months of 2016.

Incentive Agreement Amendment

During 2013, Biglari Holdings and Mr. Biglari entered into an amendment to the Incentive Agreement to exclude earnings by the investment partnerships from the calculation of Mr. Biglari's incentive bonus. Under the Amended and Restated Incentive Agreement Mr. Biglari would receive a payment of approximately \$14,700 if an event occurred entitling him to a severance payment.

License Agreement

On January 11, 2013, the Company entered into a Trademark License Agreement (the "License Agreement") with Mr. Biglari. The License Agreement was unanimously approved by the Governance, Nominating and Compensation Committee (comprised of independent members of the Company's Board of Directors). In addition, the license under the License Agreement is provided on a royalty-free basis in the absence of specified extraordinary events described below. Accordingly, the Company and its subsidiaries have paid no royalties to Mr. Biglari under the License Agreement since its inception.

Index

Note 15. Related Party Transactions *(continued)*

Under the License Agreement, Mr. Biglari granted to the Company an exclusive license to use the Biglari and Biglari Holdings names (the “Licensed Marks”) in association with various products and services (collectively the “Products and Services”). Upon (a) the expiration of twenty years from the date of the License Agreement (subject to extension as provided in the License Agreement), (b) Mr. Biglari’s death, (c) the termination of Mr. Biglari’s employment by the Company for Cause (as defined in the License Agreement), or (d) Mr. Biglari’s resignation from his employment with the Company absent an Involuntary Termination Event (as defined in the License Agreement), the Licensed Marks for the Products and Services will transfer from Mr. Biglari to the Company, without any compensation, if the Company is continuing to use the Licensed Marks in the ordinary course of its business. Otherwise, the rights will revert to Mr. Biglari.

If (i) a Change of Control (as defined in the License Agreement) of the Company; (ii) the termination of Mr. Biglari’s employment by the Company without Cause; or (iii) Mr. Biglari’s resignation from his employment with the Company due to an Involuntary Termination Event (each, a “Triggering Event”) were to occur, Mr. Biglari would be entitled to receive a 2.5% royalty on “Revenues” with respect to the “Royalty Period.” The royalty payment to Mr. Biglari would not apply to all revenues received by Biglari Holdings and its subsidiaries nor would it apply retrospectively (*i.e.*, to revenues received with respect to the period prior to the Triggering Event). The royalty would apply to revenues recorded by the Company on an accrual basis under GAAP, solely with respect to the defined period of time after the Triggering Event equal to the Royalty Period, from a covered Product, Service or business that (1) has used the Biglari Holdings or Biglari name at any time during the term of the License Agreement, whether prior to or after a Triggering Event, or (2) the Company has specifically identified, prior to a Triggering Event, will use the name Biglari or Biglari Holdings.

“Revenues” means all revenues received, on an accrual basis under GAAP, by the Company, its subsidiaries and affiliates from the following: (1) all Products and Services covered by the License Agreement bearing or associated with the names Biglari and Biglari Holdings at any time (whether prior to or after a Triggering Event). This category would include, without limitation, the use of Biglari or Biglari Holdings in the public name of a business providing any covered Product or Service; and (2) all covered Products, Services and businesses that the Company has specifically identified, prior to a Triggering Event, will bear, use or be associated with the name Biglari or Biglari Holdings.

The Governance, Nominating and Compensation Committee unanimously approved the association of the Biglari name and mark with all of Steak n Shake’s restaurants (including Company operated and franchised locations), products and brands. On May 14, 2013, the Company, Steak n Shake, LLC and Steak n Shake Enterprises, Inc. entered into a Trademark Sublicense Agreement in connection therewith. Accordingly, revenues received by the Company, its subsidiaries and affiliates from Steak n Shake’s restaurants, products and brands would come within the definition of Revenues for purposes of the License Agreement.

The “Royalty Period” is a defined period of time, after the Triggering Event, calculated as follows: (i) if, following three months after a Triggering Event, the Company or any of its subsidiaries or affiliates continues to use the Biglari or Biglari Holdings name in connection with any covered product or service, or continues to use Biglari as part of its corporate or public company name, then the Royalty Period will equal (a) the period of time during which the Company or any of its subsidiaries or affiliates continues any such use, plus (b) a period of time after the Company, its subsidiaries and affiliates have ceased all uses of the names Biglari and Biglari Holdings equal to the length of the term of the License Agreement prior to the Triggering Event, plus three years. As an example, if a Triggering Event occurs five years after the date of the License Agreement, and the Company ceases all uses of the Biglari and Biglari Holdings names two years after the Triggering Event, the Royalty Period will equal a total of ten years (the sum of two years after the Triggering Event during which the Biglari and Biglari Holdings names are being used, plus a period of time equal to the five years prior to the Triggering Event, plus three years); or (ii) if the Company, its subsidiaries and affiliates cease all uses of the Biglari and Biglari Holdings names within three months after a Triggering Event, then the Royalty Period will equal the length of the term of the License Agreement prior to the Triggering Event, plus three years. As an example, if a Triggering Event occurs five years after the date of the License Agreement, and the Company ceases all uses of the Biglari and Biglari Holdings names two months after the Triggering Event, the Royalty Period will equal a total of eight years (the sum of the period of time equal to the five years prior to the Triggering Event, plus three years). Notwithstanding the above methods of determining the Royalty Period, the minimum Royalty Period is five years after a Triggering Event.

The actual amount of royalties paid to Mr. Biglari following the occurrence of a Triggering Event (as defined in the License Agreement) would depend on the Company’s revenues during the applicable period following the Triggering Event, and, therefore, depends on material assumptions and estimates regarding future operations and revenues. Assuming for purposes of illustration a Triggering Event occurred on December 31, 2016, using revenue from 2016 as an estimate of future revenue and calculated according to terms of the License Agreement, Mr. Biglari would receive approximately \$20,300 in royalty payments annually. At a minimum, the royalties would be earned on revenue generated from January 1, 2017 through December 31, 2023. Royalty payments beyond the minimum period would be subject to the licensee's continued use of the licensed marks.

Index**Note 16. Business Segment Reporting**

Our reportable business segments are organized in a manner that reflects how management views those business activities.

Our restaurant operations includes Steak n Shake and Western. The Company also reports segment information for First Guard and Maxim. Other business activities not specifically identified with reportable business segments are presented in “Other” within total operating businesses. We report our earnings from investment partnerships separate from our corporate expenses.

We assess and measure segment operating results based on segment earnings as disclosed below. Segment earnings from operations are neither necessarily indicative of cash available to fund cash requirements, nor synonymous with cash flow from operations.

The tabular information that follows shows data of our reportable segments reconciled to amounts reflected in the consolidated financial statements.

Revenue and earnings (losses) before income taxes for the third quarters and first nine months of 2017 and 2016 were as follows.

Our restaurant businesses include Steak n Shake Inc. (“Steak n Shake”) and Western Sizzlin Corporation (“Western”). As of September 30, 2017, Steak n Shake comprised 417 company-operated restaurants and 199 franchised units. Western comprised 4 company-operated restaurants and 60 franchised units.

Our insurance business is composed of First Guard Insurance Company and its agency, 1st Guard Corporation (collectively “First Guard”). First Guard is a direct underwriter of commercial trucking insurance, selling physical damage and nontrucking liability insurance to truckers.

On May 25, 2017, the Company announced an agreement for a subsidiary of Biglari Holdings to acquire all of the outstanding shares of the parent company of Pacific Specialty Insurance Company, Western Service Contract Corp., and its affiliated agency, McGraw Insurance, Inc. The Company is engaged in discussions to amend the original agreement dated May 22, 2017. There is no assurance that the parties will reach agreement on the terms of an amendment or proceed with a transaction. Pacific Specialty Insurance Company specializes in power sports, residential property and personal liability insurance.

Our media business is composed of Maxim Inc. (“Maxim”). Maxim’s business lies principally in media and licensing.

Index**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations** *(continued)*

Net sales during the third quarter and the first nine months of 2017 were \$199,980 and \$587,532, respectively, representing a decrease of \$3,721 over the third quarter and \$16,318 over the first nine months of 2016. The decreased performance of our restaurant operations was largely driven by Steak n Shake's same-store sales, which decreased 2.2% whereas customer traffic decreased 6.7% during the third quarter. Steak n Shake's same-store sales decreased 2.8% whereas customer traffic decreased 4.5% during the first nine months. The term "same-store sales" refers to the sales of company-operated units open at least 18 months at the beginning of the current period and have remained open through the end of the period.

In the third quarter and the first nine months of 2017 franchise royalties and fees increased 3.3% and 13.7%, respectively, compared to those in 2016. Steak n Shake opened seventeen franchise units and closed four franchise units during the third quarter of 2017. Western closed one franchise unit during the third quarter of 2017. The increase in franchise fees and royalties is primarily because of the increase in franchise units. There were 199 Steak n Shake franchise units as of September 30, 2017 compared to 166 franchise units as of September 30, 2016.

Cost of food in the third quarter and first nine months of 2017 was \$63,388 or 31.7% of net sales and \$179,191 or 30.5% of net sales, respectively, compared to the third quarter and first nine months in 2016 of \$57,409 or 28.2% of net sales and \$167,968 or 27.8% of net sales, respectively. The increase as a percent of net sales during the first nine months of 2017 was attributable to increased commodity costs, which includes higher costs attributable to Steak n Shake enhancing the quality of its products, initiated in the second and third quarters of 2017.

Restaurant operating costs during the third quarter of 2017 were \$102,620 or 51.3% of net sales compared to \$100,199 or 49.2% of net sales in 2016. Restaurant operating costs during the first nine months of 2017 were \$301,431 or 51.3% of net sales compared to \$297,145 or 49.2% of net sales in 2016. The increase in costs during the third quarter and first nine months of 2017 compared to 2016 were principally due to higher wages and benefits.

Selling, general and administrative expenses during the third quarter and first nine months of 2017 were \$30,647 or 14.9% of total revenues and \$87,022 or 14.3% of total revenues, respectively, compared to expenses in the third quarter and first nine months of 2016, which were \$28,415 or 13.6% of total revenues and \$85,095 or 13.7% of total revenues, respectively. The increase in expenses during the third quarter and first nine months of 2017 compared to 2016 were principally tied to higher compensation.

First Guard's insurance products are marketed primarily through direct response methods via the Internet or by telephone. First Guard's cost-efficient direct response marketing methods enable it to be a low-cost trucking insurer.

Premiums written during the third quarter of 2017 were \$6,125, an increase of \$428 or 7.5% compared to 2016. Premiums written during the first nine months of 2017 were \$18,063, an increase of \$1,424 or 8.6% compared to 2016. Pre-tax underwriting gain was \$746 and \$2,921 in the third quarter and first nine months of 2017, respectively, compared to \$1,100 and \$4,366 in the third quarter and first nine months of 2016, respectively.

We acquired Maxim with the idea of transforming the brand. The magazine developed the Maxim brand, a franchise transforming into a cash-generating business, notably through licensing related to consumer products, services, and events of Maxim.

We have taken the risk on the belief that the probability for gain in value more than justifies the risk of loss.

Contribution to net earnings	\$(23,126)	\$(64,231)	\$(14,638)	\$19,229

The Company recorded after-tax losses from investment partnerships of \$23,126 during the third quarter of 2017 and \$64,231 during the third quarter of 2016. During the first nine months of 2017 the Company recorded after-tax losses from investment partnerships of \$14,638 compared to after-tax gains of \$19,229 for the first nine months of 2016. The volatility of the gains and losses during the various periods is attributable to changes in market values of investments held by the investment partnerships. The investments held by the investment partnerships are largely concentrated in the common stock of one investee, Cracker Barrel Old Country Store, Inc.

The investment partnerships hold the Company's common stock as investments. The Company's pro-rata share of its common stock held by the investment partnerships is recorded as treasury stock even though these shares are legally outstanding. Gains and losses on Company common stock included in the earnings of the partnerships are eliminated.

Interest Expense

The Company's interest expense is summarized below.

	Third Quarter		First Nine Months	
	2017	2016	2017	2016
Interest expense on notes payable and other borrowings	\$2,716	\$2,830	\$8,321	\$8,625

Tax benefit	1,033	1,076	3,163	3,278
Interest expense net of tax	\$1,683	\$1,754	\$5,158	\$5,347

Interest expense during the third quarter and first nine months of 2017 was \$2,716 and \$8,321, respectively, compared to \$2,830 and \$8,625 for the third quarter and first nine months of 2016, respectively. The outstanding balance on Steak n Shake's credit facility on September 30, 2017 was \$186,448 compared to \$203,648 on September 30, 2016. From March 19, 2014 through March 31, 2017, the interest rate remained constant at 4.75%. The interest rate was 4.99% as of September 30, 2017.

Corporate

Corporate expenses exclude the activities in the restaurant, insurance, media and other companies. Corporate net losses during the third quarter and first nine months of 2017 were \$2,879 and \$7,137, respectively, versus net losses of \$1,008 and \$4,377 during the third quarter and first nine months of 2016, respectively.

Income Tax Expense

Income tax benefit for the third quarter of 2017 was \$25,226 compared to \$44,129 for the third quarter of 2016. Income tax benefit for the first nine months of 2017 was \$21,085 compared to an expense of \$5,011 for the first nine months of 2016. The variance in income taxes between 2017 and 2016 is primarily attributable to taxes on income from investment partnerships and losses generated by the investment partnerships.

Index**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations** *(continued)***Financial Condition**

Our consolidated shareholders' equity on September 30, 2017 was \$511,318, a decrease of \$20,622 compared to the December 31, 2016 balance. The decrease during the first nine months of 2017 was primarily attributable to net losses of \$19,395.

Consolidated cash and investments are summarized below.

	September 30, 2017	December 31, 2016
Cash and cash equivalents	\$53,670	\$75,808
Investments	27,684	26,760

Liquidity

Our balance sheet continues to maintain significant liquidity. Consolidated cash flow activities are summarized below.

	First Nine Months	
	2017	2016
Net cash provided by operating activities	\$16,944	\$55,956
Net cash used in investing activities	(9,714)	(23,860)

Effect of exchange rate changes on cash	145	31
Increase (decrease) in cash and cash equivalents	\$(13,510)	\$18,882

Cash provided by operating activities decreased by \$39,012 during the first nine months of 2017 compared to the first nine months of 2016. Net earnings adjusted for non-cash items decreased by \$16,329 in 2017 compared to 2016

because of lower revenues and earnings. Distributions from investment partnerships decreased by \$16,870 in 2017 compared to 2016. Cash from changes in working capital accounts decreased \$5,813 in 2017 compared to 2016 primarily due to the timing of payments.

Net cash used in investing activities during the first nine months of 2017 of \$9,714 was primarily due to capital expenditures of \$6,244 and investments in partnership investments of \$3,707. Net cash used in investing activities during the first nine months of 2016 of \$23,860 was primarily due to investments in partnership investments of \$14,150 and capital expenditures of \$6,795.

During the first nine months of 2017 and 2016 we incurred debt payments of \$20,915 and \$13,247, respectively. Debt obligations were reduced because of additional principal payments on long-term debt.

We intend to meet the working capital needs of our operating subsidiaries principally through anticipated cash flows generated from operations, cash on hand, existing credit facilities, and the sale of excess properties and investments. We continually review available financing alternatives.

Steak n Shake Credit Facility

On March 19, 2014, Steak n Shake and its subsidiaries entered into the current credit agreement. The credit agreement provides for a senior secured term loan facility in an aggregate principal amount of \$220,000. On August 3, 2017, Steak n Shake and its lenders amended the senior secured revolving credit facility, reducing the revolving commitments from \$30,000 to \$15,000.

The term loan is scheduled to mature on March 19, 2021. It amortizes at an annual rate of 1.0% in equal quarterly installments, beginning June 30, 2014, at 0.25% of the original principal amount of the term loan, subject to mandatory prepayments from excess cash flow, asset sales and other events described in the credit agreement. The balance will be due at maturity.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Steak n Shake has the right to request an incremental term loan facility from participating lenders and/or eligible assignees at any time, up to an aggregate total principal amount not to exceed \$70,000 if certain customary conditions within the credit agreement are met.

Borrowings bear interest at a rate per annum equal to a base rate or a Eurodollar rate (minimum of 1%) plus an applicable margin. Interest on the term loan is based on a Eurodollar rate plus an applicable margin of 3.75% or on the prime rate plus an applicable margin of 2.75%. Interest on loans under the revolver is based on a Eurodollar rate plus an applicable margin ranging from 2.75% to 4.25% or on the prime rate plus an applicable margin ranging from 1.75% to 3.25%. The applicable margins on revolver loans are contingent on Steak n Shake's total leverage ratio.

The interest rate on the term loan was 4.99% as of September 30, 2017.

The credit agreement includes customary affirmative and negative covenants and events of default, as well as a financial maintenance covenant, solely with respect to the revolver, relating to the maximum total leverage ratio. The total leverage ratio is defined as the ratio of (i) total debt minus unrestricted cash in relation to (ii) earnings before interest, taxes, depreciation and amortization. The testing of the total leverage ratio is not applicable when the revolving credit facility is not utilized. As of September 30, 2017, we were in compliance with all covenants. Steak n Shake's credit facility contains restrictions on its ability to pay dividends to Biglari Holdings.

Both the term loan and the revolver have been secured by first priority security interests in substantially all the assets of Steak n Shake. Biglari Holdings is not a guarantor under the credit facility. As of September 30, 2017, \$186,448 was outstanding under the term loan, and no amount was outstanding under the revolver.

During the third quarter of 2017, Steak n Shake deposited \$8,628 to satisfy required collateral for casualty insurance. The collateral was previously satisfied through standby letters of credit secured by the revolver. As of September 30, 2017, Steak n Shake did not utilize the revolver to collateralize standby letters of credit. As of December 31, 2016, Steak n Shake utilized the revolver to collateralize \$10,893 in standby letters of credit.

Western Revolver

As of September 30, 2017, Western has \$215 due June 13, 2018.

Critical Accounting Policies

Management’s discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. Certain accounting policies require management to make estimates and judgments concerning transactions that will be settled several years in the future. Amounts recognized in our consolidated financial statements from such estimates are necessarily based on numerous assumptions involving varying and potentially significant degrees of judgment and uncertainty. Accordingly, the amounts currently reflected in our consolidated financial statements will likely increase or decrease in the future as additional information becomes available. There have been no material changes to critical accounting policies previously disclosed in our annual report on Form 10-K for the year ended December 31, 2016.

Recently Issued Accounting Pronouncements

For detailed information regarding recently issued accounting pronouncements and the expected impact on our consolidated financial statements, see Note 2, “New Accounting Standards” in the accompanying notes to consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Cautionary Note Regarding Forward-Looking Statements

This report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In general, forward-looking statements include estimates of future revenues, cash flows, capital expenditures, or other financial items, and assumptions underlying any of the foregoing. Forward-looking statements reflect management’s current expectations regarding future events and use words such as “anticipate,” “believe,” “expect,” “may,” and other similar terminology. A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. Investors should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. These forward-looking statements are all based on currently available operating, financial, and competitive information and are subject to various risks and uncertainties. Our actual future results and trends may differ materially depending on a variety of factors, many beyond our control, including, but not limited to, the risks and uncertainties described in Item 1A, Risk Factors of our annual report on Form 10-K. We undertake no obligation to publicly update or revise them, except as may be required by law.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

The majority of our investments are conducted through investment partnerships which generally hold common stocks. We also hold marketable securities directly. Through investments in the investment partnerships we hold a concentrated position in the common stock of Cracker Barrel Old Country Store, Inc. A significant decline in the general stock market or in the prices of major investments may produce a large net loss and decrease in our consolidated shareholders' equity. Decreases in values of equity investments can have a materially adverse effect on our earnings and on consolidated shareholders' equity.

We prefer to hold equity investments for very long periods of time so we are not troubled by short-term price volatility with respect to our investments. Our interests in the investment partnerships are committed on a rolling 5-year basis, and any distributions upon our withdrawal of funds will be paid out over two years (and may be paid in kind rather than in cash). Market prices for equity securities are subject to fluctuation. Consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. A hypothetical 10% increase or decrease in the market price of our investments would result in a respective increase or decrease in the carrying value of our investments of \$56,487 along with a corresponding change in shareholders' equity of approximately 7%.

Borrowings on Steak n Shake's credit facility bear interest at a rate per annum equal to a base rate or a Eurodollar rate (minimum of 1%) plus an applicable margin. Interest on the term loan is based on a Eurodollar rate plus an applicable margin of 3.75% or on the prime rate plus an applicable margin of 2.75%. Interest on loans under the revolver is based on a Eurodollar rate plus an applicable margin ranging from 2.75% to 4.25% or on the prime rate plus an applicable margin ranging from 1.75% to 3.25%. At September 30, 2017, a hypothetical 100 basis point increase in short-term interest rates would have an impact of approximately \$1,200 on our net earnings.

We have had minimal exposure to foreign currency exchange rate fluctuations in the third quarters of 2017 and 2016.

ITEM 4. Controls and Procedures

Based on an evaluation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)), our Chief Executive Officer and Controller have concluded that our disclosure controls and procedures were effective as of September 30, 2017.

There have been no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2017 that have materially affected, or that are reasonably likely to materially affect, our internal control

over financial reporting.
