factors which may cause the Company's actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by any forward-looking statements. Forward-looking statements, which involve assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend" or "project" or the negative of these words or other variations on these words or comparable terminology. These forward-looking statements are based on assumptions that may be incorrect, and there can be no assurance that these projections included in these forward-looking statements will come to pass. The Company's actual results could differ materially from those expressed or implied by the forward-looking statements as a result of various factors. The Company undertakes no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

RECENT EVENTS - ACQUISITION OF SHECOM CORPORATION

On August 22, 2003, the Company, Shecom Acquisition Corp., a Colorado corporation and wholly owned subsidiary of the Company ("Mergeco"), and Shecom Corporation, a Colorado corporation ("Shecom"), entered into an Agreement and Plan of Reorganization, as amended on September 24, 2003 (collectively, the "Merger Agreement"). The Merger Agreement was approved by the board of directors of each of the Company and Mergeco on August 22, 2003 and on September 24, 2003, and became effective on November 5, 2003.

Pursuant to the terms of the Merger Agreement, Mergeco was merged with and into Shecom (the "Merger"), with Shecom as the surviving corporation of the Merger. As a result of the Merger, the outstanding shares of capital stock of each of Mergeco and Shecom were converted or canceled in the manner provided by the Merger Agreement, the separate corporate existence of Mergeco ceased, and Shecom continued unimpaired as the surviving corporation in the Merger as a wholly owned subsidiary of the Company.

Prior to the Merger, Kevin R. Keating owned approximately 93.1% of the shares of its common stock. In connection with the Merger, the Company issued to the current shareholders of Shecom and the holders of warrants to purchase additional shares of Shecom common stock, that number of shares of Common Stock and warrants to purchase additional shares of Common Stock as represented (assuming full exercise of such warrants) 87.5% of the issued and outstanding shares of Common Stock on a fully-diluted basis, after giving effect to the Merger (the "Merger Shares").

Following the Merger, the Company changed its corporate name from ESCAgenetics Corporation to "Krystal Digital Corporation," and all of the directors and officers of the Company were replaced by designees appointed by Shecom. Please see the Definitive Schedule 14C as filed with the Commission on October 8, 2003 and the Current Report on Form 8-K filed therewith on November 11, 2003.

REVERSE SPLIT

MATERIAL TERMS OF THE REVERSE SPLIT

The Board has unanimously adopted and a shareholders holding a majority of the Common Stock have approved a resolution to effect a one-for-five (1:5) reverse stock split (the "Reverse Split") of the Common Stock. The Board and such

Edgar Filing: KRYSTAL DIGITAL CORP - Form DEF 14C

shareholders believe that the Reverse Split is in the Company's best interests, principally because it may increase the trading price of the Common Stock. An increase in the price of the Common Stock may, in turn, generate greater investor interest in the Common Stock, thereby enhancing the marketability of the Common Stock to the financial community. In addition, the resulting reduction in the number of issued and outstanding shares of Common Stock will provide the Company with additional authorized but unissued shares which could be utilized for future acquisitions or mergers or to otherwise carry out the Company's business objectives.

The immediate effect of the Reverse Split will be to reduce the number of shares of Common Stock from approximately 25,000,057 to approximately 5,000,011 on a fully diluted basis and from approximately 22,948,438 to approximately 4,589,688 such shares presently issued and outstanding. Although the Reverse Split may increase the market price of the Common Stock, no such increase can be assured or calculated. The market price of the Common Stock may not rise in proportion to the reduction in the number of shares outstanding as a result of the Reverse Split, nor can there be any assurance that the Reverse Split will lead to a sustained increase in the market price of the Common Stock. The market price of the Common Stock may also change as a result of other unrelated factors, including the Company's operating performance and other factors related to its business as well as general market conditions.

Another potential benefit of the Reverse Split would be a substantial reduction in the transaction costs associated with trading in the Common Stock. In most cases, trading costs include both "brokers" trading commissions and the "indirect cost" of "dealer markup" - that is, the difference between the buying and selling prices of dealers in a given stock (the "bid-ask spread").

Further, the Board of Directors and the majority shareholders believe that the reduction in the number of shares of Common Stock outstanding, without any corresponding material alteration in the economic composition of the Company or the relative interests of the stockholders could enhance the public and institutional perception of the Company's Common Stock and thus generate investor interest.

In addition, the Board believes that listing the shares of Common Stock on Nasdaq may provide a broader market for the Company's Common Stock and facilitate the use of the Common Stock in financing transactions and that a reverse stock split is a necessary if not sufficient condition for obtaining a Nasdaq listing.

The Reverse Split will affect all of the holders of the Company's Common Stock uniformly and will not affect any shareholder's percentage ownership interest in the Company or proportionate voting power, except for insignificant changes that will result from the rounding of fractional shares either up or down.

The Reverse Split of the Common Stock is expected to become effective on or about January 26, 2004 (the "Effective Date"). Upon the Effective Date, the Company will notify the National Association of Securities Dealers, requesting that the split be made effective on the Effective Date. The Reverse Split will take place on the Effective Date without any action on the part of the holders of the Common Stock and without regard to current certificates representing shares of Common Stock being physically surrendered for certificates representing the number of shares of Common Stock each shareholder is entitled to receive as a result of the Reverse Split. New certificates of Common Stock will not be issued.

No fractional shares will be issued in connection with the Reverse Split. Shareholders who would otherwise be entitled to receive fractional shares because they hold a number of shares of Common Stock that is not evenly divisible by 5 will have the number of new shares to which they are entitled

Edgar Filing: KRYSTAL DIGITAL CORP - Form DEF 14C

rounded to the nearest whole number of shares. The number of new shares will be rounded up if the fractional share is equal to or greater than 0.5 and rounded down if the fraction is less than 0.5. No shareholders will receive cash in lieu of fractional shares.

The Company cannot predict whether the Reverse Split will increase the market price for the Common Stock. The history of similar stock split combinations for companies in like circumstances is varied. There can be no assurance that:

3

- o the market price per share of the Common Stock after the Reverse Split will rise in proportion to the reduction in the number of shares of the Common Stock outstanding before the Reverse Split;
- o will not adversely impact the market price of the Common Stock as a result of negative investor opinion;
- o the Reverse Split will result in a per share price that will attract brokers and investors who do not trade in lower priced shares;
- o the Reverse Split will result in a per share price that will increase the Company's ability to attract and retain employees and other service providers;
- o the market price per share of Common Stock will become or remain sufficiently high to allow the Company to submit a credible listing application to Nasdaq.

CERTAIN FEDERAL INCOME TAX CONSEQUENCES

The following summary of certain material federal income tax consequences of the Reverse Split does not purport to be a complete discussion of all of the possible federal income tax consequences and is included for general information only. Further, it does not address any state, local, foreign or other income tax consequences, nor does it address the tax consequences to shareholders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the United States federal income tax laws as of the date of this Information Statement. Such laws are subject to change retroactively as well as prospectively. This summary also assumes that the shares of Common Stock are held as "capital assets," as defined in the Internal Revenue Code of 1986, as amended. The tax treatment of a shareholder may vary depending on the facts and circumstances of such shareholder.

EACH SHAREHOLDER IS URGED TO CONSULT WITH SUCH SHAREHOLDER'S TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES OF THE REVERSE SPLIT.

No gain or loss should be recognized by a shareholder as a result of the Reverse Split. The aggregate tax basis of the shares received in the Reverse Split will be the same as the shareholder's aggregate tax basis in the shares exchanged. The shareholder's holding period for the shares received in the Reverse Split will include the period during which the shareholder held the shares surrendered as a result of the Reverse Split. The Company's views regarding the tax consequences of the Reverse Split are not binding upon the Internal Revenue Service or the courts, and there is no assurance that the Internal Revenue

Edgar Filing: KRYSTAL DIGITAL CORP - Form DEF 14C

Service or the courts would accept the positions expressed above. The state and local tax consequences of the Reverse Split may vary significantly as to each shareholder, depending on the state in which such shareholder resides.

APPRAISAL RIGHTS

Pursuant to the DGCL, the holders of the Common Stock are not entitled to dissenters' rights in connection with the Reverse Split. Furthermore, the Company does not intend to independently provide those stockholders with any such rights.

INTERESTS OF CERTAIN PERSONS IN THE REVERSE SPLIT

No director, executive officer, associate of any director or executive officer or any other person has any substantial interest, direct or indirect, by security holdings or otherwise, in the proposal to amend the Restated Certificate of Incorporation and take all related actions which is not shared by all other holders of the Common Stock. See "Security Ownership of Certain Beneficial Owners and Management."

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Kevin R. Keating, the former President and controlling stockholder of the Company, is the father of the principal stockholder of Keating Investments, LLC, the investment banking firm that rendered services to the Company in connection with the Merger. Keating Investments LLC received an aggregate of 175,000 shares of common stock as compensation for its services in connection the negotiation and consummation of the Merger. Mr. Keating is not

4

affiliated with and has no equity interest in Keating Investments, LLC and disclaims any beneficial interest in the Company common stock to be issued to Keating Investments, LLC. Similarly, Keating Investments, LLC disclaims any beneficial interest in the shares of Company common stock currently owned by Kevin R. Keating.

Vincent J. Franzone, a member of the board of directors of the Company, received 125,000 shares of Krystal Digital Common Stock upon closing of the Merger, as compensation in connection with his introduction of Shecom Corporation to the Company and its investment bankers.

Under a proposed strategic alliance and distribution arrangement, it is contemplated that Messrs. Raju Shewa, Phillip G. Trad and Fred Anavim, three of the principal stockholders and the senior executive officers of Shecom, will own approximately 25% of the capital stock of Azia Digital Corporation, a Delaware corporation ("ADC"). ADC has been organized to purchase a line of digital televisions, flat screen computer monitors, DVDs and other home entertainment consumer electronic products from an unaffiliated manufacturer of such products located in mainland China. It is contemplated that ADC will finance the purchase of such products and resell them to Shecom at a profit of between 10% and 20% of ADC's cost under a proposed distribution agreement with Shecom. An affiliate of the Chinese manufacturer will own the remaining 75% equity interest in ADC. Shecom believes that this arrangement will enable it to establish, without significant financing costs, a strategic alliance with a substantial manufacturer that provides private label home entertainment consumer electronic products to major OEMs and distributors, and become the exclusive distributor of these products in North America.

Edgar Filing: KRYSTAL DIGITAL CORP - Form DEF 14C

In 2000 and 2001, Shecom borrowed an aggregate of approximately \$4.9 million from Raju Shewa, the principal stockholder, Chairman of the Board and Chief Executive Officer of Shecom. These loans are evidenced by various Shecom notes payable to Mr. Shewa bearing interest at rates between 6% and 9% per annum. The Shecom notes payable to Mr. Shewa mature between December 31, 2007 and 2010, and are subordinated to all indebtedness owed by Shecom to its principal senior secured lender.

Raju Shewa has guaranteed repayment of an aggregate of \$2.0 million of bridge loans made by certain unaffiliated investors to Shecom in early 2003, and secured such guaranty by a second mortgage and deed of trust on his personal residence and on the real estate located in Yorba Linda, California that was previously leased to Shecom, as its principal executive offices, warehouse and assembly facility. In connection with the recent sale of the sale of the Yorba Linda, California property, the approximately \$294,000 of net cash proceeds received by the Shewa Family Trust in excess of the amount required to retire a first mortgage and deed of trust securing such property was placed in escrow for the benefit of the holders of \$2.0 million of bridge notes. In October 2003, \$75,000 of such proceeds were used for a down payment in connection with the contemplated purchase by the Shewa trust of a replacement property in Brea, California to be leased to Shecom upon completion of construction. Such replacement facility is expected to be ready for occupancy by Shecom in or about June 2004.

Upon completion of the new facility purchased by the Shewa Family Trust for approximately \$2.3 million, it is anticipated that Shecom will lease such facility under a five year triple net lease (with Shecom paying all operating expenses) at an annual rental of \$180,000 per annum.
