Notes to financial statements

Nine months ended August 31, 2011

1. Summary of significant accounting policies ASA Gold and Precious Metals Limited (the Company) is a closed-end management investment company registered under the Investment Company Act of 1940, as amended, and is organized as an exempted limited liability company under the laws of Bermuda. The following is a summary of the Company's significant accounting policies:

A. Investments

The net asset value of the Company generally is determined as of the close of regular trading on the New York Stock Exchange (the NYSE) or the Toronto Stock Exchange (the TSX), whichever is later, on the date for which the valuation is being made (the Valuation Time). Portfolio securities listed on U.S. and foreign stock exchanges generally are valued at the last reported sale price as of the Valuation Time on the exchange on which the securities are primarily traded, or the last reported bid price if a sale price is not available. Securities traded over the counter are valued at the last reported sale price or the last reported bid price if a sale price is not available. Securities listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets.

Securities for which current market quotations are not readily available are valued at their fair value as determined in good faith by, or in accordance with procedures approved by, the Company's Board of Directors. If a security is valued at a fair value, that value may be different from the last quoted price for the security. Various factors may be reviewed in order to make a good faith determination of a security's fair value. These factors include, but are not limited to, the nature of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion rights on the security; and changes in overall market conditions.

Where the Company holds securities listed on foreign stock exchanges and American Depositary Receipts (ADRs) representing these securities are actively traded on the NYSE, the securities normally are fair valued based on the last reported sales price of the ADRs.

The difference between cost and fair value is reflected separately as net unrealized appreciation (depreciation) on investments. The net realized gain or loss from the sale of securities is determined for accounting purposes on the identified cost basis.

In accordance with U.S. GAAP, fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Company's investments. The inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.). For example, when a security is traded on two or more markets, the Company seeks to value the security on the active market that closes for trading closest in time to the Company's Valuation Time (generally 4:00 p.m. EST), so long as in the view of the portfolio manager that there is sufficient liquidity to provide an indicative quote.

Notes to financial statements (continued)

Nine months ended August 31, 2011

Level 3 significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of August 31, 2011 in valuing the Company's investments at fair value:

**Investments in Securities
Measurements at August 31, 2011**

Description (1)	Level 1	Level 2	Level 3	Total
Common Shares and Warrants				
Gold and silver investments	\$ 434,488,671	\$ 139,983,389	\$	\$ 574,472,060
Platinum and palladium investments	67,822,762	4,047,238		71,870,000
Diamond Mining, Exploration and Development Companies	3,135,793			3,135,793
Diversified Mineral Resources Companies		17,305,169		17,305,169
Total	\$ 505,477,226	\$ 161,335,796	\$	\$ 666,783,022

(1) See schedules of investments for country classifications.

In January 2010, FASB issued Accounting Standards Update (ASU) No. 2010-06 Improving Disclosures about Fair Value Measurements. ASU 2010-06 requires reporting entities to make new disclosures about amounts and reasons for significant transfers in and out of Level 1 and Level 2 fair value measurements as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3, and information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements. The new and revised disclosures are required to be implemented for fiscal years beginning after December 15, 2009 except for the disclosures surrounding purchases, sales issuances and settlements on a gross basis in the reconciliation of Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010. The adoption of ASU No. 2010-06 did not have a material impact on the Company's financial statements disclosures.

Item 2. Controls and Procedures.

- (a) The registrant's President and Chief Executive Officer and its Chief Financial Officer and Treasurer, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the "Act")) are effective, based on their evaluation of these controls and procedures as of a date within 90 days prior to the filing date of this report.
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the registrant's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

The certifications required by Rule 30a-2(a) under the Act are attached hereto.
