Notes to consolidated financial statements

Nine months ended August 31, 2012

1. Organization These consolidated financial statements include ASA Gold and Precious Metals Limited (the Company), and its wholly owned subsidiary, ASA Gold and Precious Metals Advisers, LLC. The Company is a closed-end management investment company registered under the Investment Company Act of 1940, as amended, and was organized as an exempted limited liability company under the laws of Bermuda. ASA Gold and Precious Metals Advisers, LLC is registered as an investment adviser with the state of California and is organized under the laws of Delaware.

2. Summary of significant accounting policies

The following is a summary of the significant accounting policies:

A. Security valuation

The net asset value of the Company generally is determined as of the close of regular trading on the New York Stock Exchange (the "NYSE") or the Toronto Stock Exchange (the "TSX"), whichever is later, on the date for which the valuation is being made (the "Valuation Time"). Portfolio securities listed on U.S. and foreign stock exchanges generally are valued at the last reported sale price as of the Valuation Time on the exchange on which the securities are primarily traded, or the last reported bid price if a sale price is not available. Securities traded over the counter are valued at the last reported sale price or the last reported bid price if a sale price is not available. Securities listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets.

Securities for which current market quotations are not readily available are valued at their fair value as determined in good faith by, or in accordance with procedures approved by, the Company's Board of Directors. If a security is valued at a "fair value", that value may be different from the last quoted price for the security. Various factors may be reviewed in order to make a good faith determination of a security's fair value. These factors include, but are not limited to, the nature of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion rights on the security; and changes in overall market conditions.

Where the Company holds securities listed on foreign stock exchanges and American Depositary Receipts ("ADRs") representing these securities are actively traded on the NYSE, the securities normally are fair valued based on the last reported sales price of the ADRs.

The difference between cost and fair value is reflected separately as net unrealized appreciation (depreciation) on investments. The net realized gain or loss from the sale of securities is determined for accounting purposes on the identified cost basis.

B. Restricted securities

At August 31, 2012 the Company held investments in restricted securities of 0.1% of net assets, valued in accordance with procedures approved by the Company's Board of Directors as follows:

Restricted Securities August 31, 2012

Shares / Warrants	Cost	Issuer	Value Per Unit	Value	Acquisition Date
909,091	\$ 1,008,370	West Kirkland Gold Mining Inc.	\$ 0.34	\$ 313,384	11/22/2011
454,545	\$ 0	West Kirkland Gold Mining Inc., C\$1.50 Warrants, 11/22/2012	\$ 0.00	\$ 0	11/22/2011

C. Fair value measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use

in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Company's investments. The inputs are summarized in the three broad levels listed below.

Level 1 □ unadjusted quoted prices in active markets for identical investments

Level 2 □ other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)

Level 3 □ significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of August 31, 2012 in valuing the Company's investments at fair value:

**Investments in Securities
Measurements at August 31, 2012**

Description (1)	Level 1(a)	Level 2(a)	Level 3	Total
Common Shares and Warrants				
Gold and silver investments	\$ 359,723,190	\$ 49,108,662	\$ □	\$ 408,831,852
Platinum and palladium investments	42,134,252	□	□	42,134,252
Diamond mining, exploration and development companies	1,163,591	□	□	1,163,591
Diversified mineral resources companies	11,341,477	11,517,855		22,859,332
Total	\$ 414,362,510	\$ 60,626,517	\$ □	\$ 474,989,027

Transfers in and out of levels are recognized at the end of the period.

(a) There were transfers in and out of Level 1 and Level 2, and no transfers in and out of Level 3 at August 31, 2012.

(1) See consolidated schedules of investments for country classifications.

Transfer into and out of each level if the investments in securities at August 31, 2012 are as follows:

Investments in securitites

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS)". ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy; quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity, and a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. Management is evaluating the implications of ASU 2011-04, and its impact on future financial statements.
