Team,

In the spirit of continuing to keep you informed, we wanted to provide you with an update regarding our terrific 2013 Q1 financial performance and our progress made to date for our upcoming Board of Directors election.

Through the first quarter of fiscal 2013, we are holding true to our commitments and starting the year in a positive direction. Our courage to change, our respect for one another, and our uncompromising integrity continue to build a foundation that we can all be proud of here at IGT. We are leading and transforming our industry in amazing, bold ways and our first quarter results further demonstrate we are expanding our global leadership position.

In comparison, to last year's first quarter, notable financial achievements include:

- Growing revenues 19% to \$530 million ... our highest quarter revenue in 4 years
- Expanding adjusted earnings per share from continuing operations 65% to \$0.28
- Increasing North America product sales revenue 54% to \$159 million
- Advancing Interactive (social gaming and IGTi) revenues 320% to \$53 million

With regards to our upcoming 2013 Shareholders Meeting, today we filed the company's definitive proxy statement with the U.S. Securities and Exchange Commission and mailed shareholders our final proxy, along with a letter from our Board highlighting:

The ongoing success of our Board's and management's growth strategy that continues creating shareholder value, as evidenced by our outstanding first quarter 2013 financial results

- The Board's recommendation for all shareholders to vote **FOR** IGT's eight highly-qualified directors
- Confirmation that our 2013 Annual Meeting of Shareholders will take place on March 5, 2013

For employees who are also IGT shareholders – although our Shareholders Meeting date has been set – we recommend that you vote early **FOR** IGT's eight highly-qualified directors on the **WHITE** proxy card TODAY ... and reject the other nominees by declining to vote for them and *discarding* any gold proxy card you receive.

As we look to the future for IGT ... it's one that is filled with significant promise ... yet we must remain committed to approaching each and every day with a continuous improvement mindset. The global marketplace will continue to present opportunities and challenges across all regions of the world. It's up to us to embrace these challenges and capitalize on the most profitable opportunities at the right time. And while we will all feel a need to apply more

resources, it is essential we continue to manage every dollar we spend in an efficient and thoughtful manner.

In total, it has been our collective hard work, dedication, and teamwork that have led us to where we are today. And together – as one team – we can continue to usher in a new era of gaming that leads IGT and our industry to unmatched heights.

Thank you for a great start to 2013 and for all that you do for our great company.

With gratitude,

Patti

Below, please find a copy of our shareholder letter being released this morning, along with a copy of our Q1 fiscal 2013 earnings press release:

Dear Fellow Shareholders:

You have an opportunity to help determine the future of your investment in IGT. We are writing to you to make sure you have all the facts before you vote in connection with the 2013 Annual Meeting of Shareholders on March 5, 2013. The significant progress IGT has made is at stake – your vote is essential to keeping your company on the right track.

Your Board is comprised of eight highly qualified and experienced directors – Paget L. Alves, Janice Chaffin, Greg Creed, Patti S. Hart, Robert J. Miller, David E. Roberson, Vincent L. Sadusky and Philip G. Satre. **The IGT Board recommends that you vote FOR all of IGT's directors by telephone, Internet or by signing, dating and returning the enclosed WHITE proxy TODAY.**

The Board and management team remain confident that the interests of shareholders will be best served by IGT's continued focus on its growth strategy, which is positioning IGT for long-term success and significant shareholder value creation. The Company has been delivering strong and improving financial results, and has returned a total of \$546 million to IGT shareholders over the past 12 months. The Board believes that the Company's robust fiscal 2013 first quarter is another powerful indication that the IGT strategy is paying off.

IGT's New Leadership Anticipated Fundamental Changes in the Marketplace and Took Action

Our industry has changed dramatically in the past five years, and IGT's Board and senior leadership team have anticipated and taken proactive steps to benefit from nascent trends.

In 2009, IGT's Board recognized that the gaming industry was in the midst of a significant change, and that transformative leadership and action were necessary for IGT to not only maintain its industry leadership, but to position itself to rebuild shareholder value and return capital to its shareholders.

Your Board instituted new corporate governance policies, engaged qualified and experienced leadership and developed a growth strategy that has allowed IGT to adapt to new technologies and changing industry dynamics. Today, your eight-member Board includes seven independent directors and has been further enhanced by the separation of the Chairman and CEO roles, and the appointment of an independent Chairman of the Board. This month, *Casino Journal* published an evaluation by HVS Executive Search of corporate governance practices at public gaming companies. That evaluation, recognizing the effectiveness of the Board's best practices, ranked IGT's Board of Directors second out of 32 gaming companies for Board performance in 2012.¹

This Board and senior leadership team have anticipated and faced head-on the economic and industry trends that have fundamentally changed the gaming industry, including:

- Broad decline in domestic gross gaming revenue;
- Sharp downturn in new casino openings;
- Conservative spending from casino patrons and, in turn, casino operators, which led to a decrease in replacement demand, particularly on the Strip;
- Increase in competition within the marketplace, born from the boom years of 1993 through 2008; and
- Emergence of online and social gaming.

Your Board and Management Team Are Implementing a Comprehensive Strategy to Enhance IGT's Competitive Position in This Rapidly Changing Market

Given the changing marketplace conditions, IGT's new Board and management team recognized that IGT could not rely primarily on industry growth, including new casino openings, for its future success. The Board and management team developed a comprehensive new strategy and began the process of implementing it across the organization. Among other things, since 2009, IGT has:

¹ Kefgen, K., & Boone, J., & Singe, M. (2013, January). Active Approach. *Casino Journal*. 16-20. Permission to refer to this source neither sought nor obtained.

Implemented an enhanced content strategy, leveraging our best-in-class content across the most dynamic portfolio of gaming platforms in the industry - offering games to anyone, anywhere, anytime;
Leveraged its culture of innovation, introducing sbX, Cloud, Advantage Systems enhancements, joy stick play and SoundSync, among others;
Expanded internationally, increasing its presence in Macau, Italy, South Africa, Latin America and the UK;
Identified adjacent growth business opportunity in social casino gaming, leveraging IGT's core business content and setting the stage for future growth;
Conducted a thorough examination of its internal infrastructure, workforce and cost structure, streamlining operations to enhance efficiency and decision making and to reduce expenses;
Refinanced over \$2.2 billion in short-term indebtedness improving IGT's liquidity and financial stability, and preserving its investment grade rating; and
Initiated a global restructuring of its sales organization to enable it to effectively serve customers in a changed economic environment.

These strategic changes, along with many others, transformed IGT into a leaner, more competitive organization. As a result, IGT is delivering industry-leading, content-driven products to its customers, establishing new revenue channels, delivering strong financial performance and returning capital to shareholders. The Board believes that the continued implementation of its strategy is in the best interests of our shareholders.

IGT's Excellent Fiscal 2013 First Quarter Results Highlight That Its Comprehensive Strategy Is Taking Hold

On January 22, 2013, IGT reported terrific fiscal 2013 first quarter financial results, building upon the momentum established in fiscal 2012. This sustained strength in financial performance and effective and efficient day to day management of the business demonstrates the ongoing success of IGT's strategy. Overall, we are pleased that:
Core products continue to perform, shipping more units in this quarter than in any first quarter in four years;
Gaming operations franchise is generating healthy profits, despite a challenging environment; and
Social gaming on IGT's DoubleDown platform is adding to top line growth by leveraging IGT content like DaVinci Diamonds, Cleopatra and Wolf Run.

Financial highlights from IGT's fiscal 2013 first quarter as compared to the fiscal 2012 first quarter include:
Total revenues increased 19% to \$530 million;
North America product sales revenue increased 54%;
Gaming Operations gross margins rose 63%;
Adjusted earnings per share from continuing operations² increased 65% to \$0.28;
Sold 5,100 North America replacement units, up 82%; and
Social Gaming revenues increased 15% sequentially from the fiscal fourth quarter of 2012.

² Adjusted earnings per share from continuing operations is a non-GAAP financial measure; reconciliations of non-GAAP to GAAP measures are included at the end of this letter. Please note that no reconciliation for adjusted earnings per share from continuing operations for the first quarter of fiscal 2012 is provided because no adjustments were made to GAAP earnings per share from continuing operations.

IGT's adjusted earnings per share from continuing operations for the fiscal first quarter is \$0.28, an increase of 65% over the prior year period. Including its \$400 million accelerated stock buyback, the Company has repurchased over 35 million shares, or about 11% of total shares outstanding, over the preceding 12 months. Including share repurchases and dividends, IGT has **returned a total of \$546 million to shareholders over the past year.**

Our strong financial results continue to:

- Reinforce the strength of our leadership position in our core business;
- Affirm our strategy of leveraging our best-in-class content across the most dynamic portfolio of gaming platforms in the industry; and
- Reflect the financial strength of the company.

The Company's fiscal 2013 first quarter financial results are strong, and we remain on track to deliver our FOURTH consecutive year of double digit growth in adjusted EPS from continuing operations. The Board believes the trend in improving earnings underscores that ***IGT's strategy has taken hold and is delivering results.***

***IGT Identified the Opportunity, Became a First Mover
and is Benefiting from Online Gaming***

In addition to implementing a successful and sophisticated strategy that is delivering strong and improving financial performance, IGT has been ahead of the industry in defining new, innovative opportunities for growth. IGT identified Double Down Interactive LLC as the right entry point to leverage our best-in-class gaming content and provide IGT with instant size and scale in the rapidly growing arena of casino-style social gaming. Double Down also helped to broaden IGT's popular gaming titles beyond the physical casino to Facebook, the world's largest social network with over 800 million global users.

IGT's investment in Double Down's casino-style social gaming is delivering meaningful financial contributions and significant revenue growth:

- Generated total revenues of \$128 million since acquisition, a compound quarterly growth rate of over 24% between the 2012 fiscal second quarter and the 2013 fiscal first quarter;
- Generated total revenues of \$41.3 million in the 2013 fiscal first quarter, an increase of \$5.5 million sequentially over the prior quarter;
- Increased bookings per daily active users, a measure of revenue, by almost 30%, from \$0.24 in the 2012 fiscal second quarter to \$0.31 in the 2013 fiscal first quarter;
- Grew revenues over 15% sequentially from the 2012 fiscal fourth quarter to the 2013 fiscal first quarter;
- Double Down is the #3 top-grossing app on Facebook and the #6 top-grossing iPad app; and
- IGT's strategy has also been validated by the entrance of other supplier and operator companies seeking to gain a foothold in online casino style gaming, including Bally, Aristocrat, Konami, WMS, Zynga, Caesars, and MGM.

We remain focused on significantly growing Double Down by leveraging our content and systems to benefit from changing industry dynamics, new gaming trends and an expanded competitive set. We are confident that our investment will be GAAP accretive in 2014.

***The Board Urges Shareholders NOT to Sacrifice a More Valuable Tomorrow
for Yesterday's Outmoded Business Model***

IGT's Board recommends that you reject the Ader Investment Management LP nominees by declining to vote for them online, by telephone or by mail, and by *discarding* any gold proxy card you receive. As you may know, Ader Investment Management in collaboration with former IGT Chairman and CEO Charles N. Mathewson is seeking to replace three IGT directors with three candidates it has nominated to stand for election to the IGT Board of Directors.

We believe that Ader Investment Management is advocating an outmoded business model that would return the Company's strategic focus to where it was ten years ago. The Board believes this is not the best approach in the current marketplace.

***IGT's Board Is Acting in the Best Interests of Shareholders;
Protect Your Investment by Maintaining IGT's Strong Strategic Direction***

Every member of the IGT Board has the experience and expertise necessary to navigate IGT through the evolving gaming industry, position the Company for significant future growth and propel it into the future by continuing to lead the industry.

The Board has implemented an innovative, forward-looking strategy designed to not only enhance and elevate the core gaming business but also address the realities of today's marketplace. Importantly, IGT is committed to maintaining an appropriate balance in its deployment of capital among investing in its core business, pursuing new growth opportunities and returning capital to shareholders.

The IGT Board is acting in the best interests of shareholders and is focused on executing its strategy, which we firmly believe will protect and grow your investment in IGT. Accordingly, the IGT Board recommends that you vote **FOR all of IGT's directors on the WHITE proxy card TODAY.**

We believe that certain non-GAAP financial measures, when presented in conjunction with comparable GAAP (Generally Accepted Accounting Principles) measures, are useful because that information is an appropriate measure for evaluating our operating performance. Non-GAAP information is used to evaluate business performance and management's effectiveness. These measures should be considered in addition to, not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. Non-GAAP financial measures may not be calculated in the same manner by all companies and therefore may not be comparable.
