ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In December 2003, GSE's Board of Directors elected John Moran, a GP Strategies executive with experience in the power industry and simulation technology, as Chief Executive Officer. Mr. Moran will continue as a GP Strategies employee, however, Mr. Moran will devote 100% of his time to the performance of his duties as CEO of GSE. For 2003, GSE will reimburse GP Strategies \$35,000 for his compensation and benefits; in 2004 GSE will reimburse GP Strategies \$300,000 for Mr. Moran's compensation and benefits. The Audit Committee approved this transaction.

In December 2003, GSE agreed to pay to General Physics, a fully-owned subsidiary of GP Strategies, approximately \$35,000 for services performed by General Physics personnel in the fourth quarter 2003 for the implementation of the Management Services Agreement effective January 1, 2004 (see below). In addition, GSE will reimburse General Physics \$30,000 for coverage under General Physics' directors and officers liability and umbrella insurance for November and December 2003.

Effective January 1, 2004, the Company entered into a Management Services Agreement with GP Strategies in which GP Strategies agreed to provide corporate support services to GSE, including accounting, finance, human resources, legal, network support and tax. In addition, GSE will use General Physics' financial system. GSE will pay an annual fee to General Physics of \$685,000. The term of the agreement is one year, subject to earlier termination only upon the mutual consent of the parties to the agreement. The agreement can be renewed for successive one-year terms and was approved by the Audit Committee.

In March 2000, GP Strategies agreed to guarantee up to \$1.8 million of the Company's credit facility and received a warrant to purchase 150,000 shares of GSE common stock, which warrant expired unexercised, in consideration of such guarantee. On March 23, 2003, GP Strategies extended its guarantee and received 150,000 shares of GSE common stock with a value of \$180,000.

On March 30, 2004, the Company was added as an additional borrower under the Financing and Security Agreement between General Physics and a financial institution which expires on August 23, 2005. Under the terms of the agreement, \$1.5 million of General Physics' available credit facility has been carved out for use by GSE. The line is collateralized by substantially all of the Company's assets and provides for borrowings up to 80% of eligible accounts receivable and 80% of eligible unbilled receivables. GP Strategies agreed to guarantee the Company's borrowings as part of its fee pursuant to the Management Services Agreement described above.

In June 2003, the Company received a \$6.6 million order from the Mexican utility Comision Federal de Electricidad (CFE) for a major simulator upgrade to the Laguna Verde nuclear plant near Vera Cruz, Mexico. The contract required that the Company issue an advance payment bond (\$1.8 million) and a performance bond (\$1.3 million) to CFE. On July 9, 2003, the Company entered into a Collateral Agreement with ManTech in which ManTech agreed to issue two letters of credit on the Company's behalf to a Mexican surety company as collateral for the bonds. One letter of credit will be outstanding for at least 30 months or until the advance payment bond is released, which ever is later, and the other letter of credit will be outstanding for at least 42 months or until the

Edgar Filing: GSE SYSTEMS INC - Form 10-K/A

performance bond is released, which ever is later. As consideration of ManTech's issuance of the letters of credit, the Company issued 100,000 warrants at an exercise price of \$1.33 per share, the closing price on July 8, 2003 and will pay ManTech a fee equal to 7% per annum on the total amount of the then-existing value of the letters of credit, payable on a quarterly basis. George Pedersen, a director of the Company, is the Chairman, Chief Executive Officer and President of ManTech. John Moore, a director of the Company, is the Executive Vice President of ManTech.

In 2000, the Company issued a demand promissory note to ManTech that allowed the Company to borrow up to \$1.8 million at an interest rate of prime plus one percent. In addition, ManTech provided \$1.8 million in standby letters of credit to the Company's bank as additional collateral for the Company's credit facility. In April 2001, ManTech agreed to allow the Company's bank to draw upon ManTech's \$1.8 million letter of credit which supported the Company's credit facility, thus paying down a portion of the Company's bank debt in exchange for additional subordinated debt in the Company. Accordingly, the Company's promissory note to ManTech was amended to increase the amount to \$3.9 million. The amended note permitted ManTech to convert the principal amount of the note into GSE Series A convertible preferred stock at a conversion rate of \$100 per share. The Company determined that the conversion of this debt did not constitute a beneficial conversion. ManTech elected to convert its subordinated debt into preferred equity on December 5, 2001. The Series A convertible preferred stock had no voting rights and bore dividends at the rate of 6% per annum payable quarterly. Dividends accumulated if not paid quarterly and compounded interest accrued on any unpaid dividends. ManTech at its discretion had the right to convert each share of Series A convertible preferred stock into GSE common stock at a purchase price of \$2.645 per share at any time after a one-year holding period from the date of issuance. At the end of the third year from the date of issuance, the Series A convertible preferred stock would automatically convert into GSE common stock

On June 25, 2001, the Company issued an additional unsecured promissory note to ManTech for \$1.0 million at an interest rate of prime plus one percent. The Company used the loan proceeds for working capital purposes. The note was subordinated to the Company's credit facility. During 2002, the Company repaid ManTech \$350,000, plus \$247,000 of interest. In 2003, the Company paid \$35,000 of interest.

On September 29, 2003 the Company amended the ManTech Preferred Stock issuance agreement to revise the conversion rate from \$2.645 per share to \$1.5526 per share. The change in conversion rate increased the number of common shares available upon conversion from 1,474,480 to 2,511,915. The Audit Committee approved this transaction.
