#### NOTE 1. GENERAL

### Business

Parke Bancorp, Inc. ("Parke Bancorp" or the "Company") is a bank holding company incorporated under the laws of the State of New Jersey in January 2005 for the sole purpose of becoming the holding company of Parke Bank (the "Bank").

The Bank is a commercial bank which commenced operations on January 28, 1999. The Bank is chartered by the New Jersey Department of Banking and insured by the Federal Deposit Insurance Corporation ("FDIC"). Parke Bancorp and the Bank maintain their principal offices at 601 Delsea Drive, Washington Township, New Jersey. The Bank also conducts business through branches in Northfield and Washington Township, New Jersey and Philadelphia, Pennsylvania and has a loan production office in Havertown, Pennsylvania.

#### **Financial Statements**

The accompanying financial statements as of September 30, 2008 and for the three and nine month periods ended September 30, 2008 and 2007 included herein have not been audited. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted; therefore, these financial statements should be read in conjunction with the Company's audited financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, as filed with the SEC. The accompanying financial statements reflect all adjustments, which are, in the opinion of management, necessary to present a fair statement of the results for the interim periods presented. Such adjustments are of a normal recurring nature. The results for the three and nine months ended September 30, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008 or any other periods.

#### **Basis of Financial Statement Presentation**

The financial statements include the accounts of Parke Bancorp, Inc. and its wholly owned subsidiaries, Parke Bank, Parke Capital Markets, Farm Folly LLC and Taylor Glen LLC. Parke Capital Trust I, Parke Capital Trust II and Parke Capital Trust III are wholly-owned subsidiaries but are not consolidated because they do not meet the consolidation requirements. All significant inter-company balances and transactions have been eliminated. Such statements have been prepared in accordance with GAAP and general practice within the banking industry.

### **Use of Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from such estimates.

- 6 -

# PARKE BANCORP, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

#### Investments

The Company has identified investment securities that will be held for indefinite periods of time, including securities that will be used as a part of the Bank's asset/liability management strategy and may be sold in response to changes in interest rates, prepayments and similar factors. These securities are classified as "available-for-sale" and are carried at fair value, with temporary unrealized gains or losses reported as a separate component of accumulated other comprehensive income (losses), net of the related income tax effect. Declines in the fair value of the individual available-for-sale securities below their cost that are other than temporary have resulted in write downs of the individual securities to their fair value and are included in non-interest income in the consolidated statements of operations. Factors affecting the determination of whether an other-than-temporary impairment has occurred include a downgrading of the security by a rating agency, a significant deterioration in the financial condition of the issuer, or that the Company would not have the intent and ability to hold a security for a period of time sufficient to allow for any anticipated recovery in fair value.

The Company owns \$1 million combined par value of preferred stock issued by the government sponsored enterprises (GSEs) known as Fannie Mae and Freddie Mac. The Congressional approval of the Housing and Economic Recovery Act of 2008, and the subsequent takeover by the government of the two GSEs has resulted in a significant devaluation of the GSEs' perpetual preferred stock. Consequently, the Company recorded \$947,000 in other-than-temporary impairment charges as of September 30, 2008.

#### Commitments

In the general course of business, there are various outstanding commitments to extend credit, such as letters of credit and un-advanced loan commitments, which are not reflected in the accompanying financial statements. Management does not anticipate any material losses as a result of these commitments.

#### Contingencies

The Company is from time to time a party to routine litigation in the normal course of its business. Management does not believe that the resolution of this litigation will have a material adverse effect on the financial condition or results of operations of the Company. However, the ultimate outcome of any such litigation, as with litigation generally, is inherently uncertain and it is possible that some litigation matters may be resolved adversely to the Company.

### NOTE 2. EARNINGS PER SHARE

Basic earnings per share is computed by dividing income available to holders of common stock (the numerator) by the weighted average number of common shares outstanding (the denominator) during the period. Shares issued during the period are weighted for the portion of the period that they were outstanding. The weighted average number of common shares outstanding for the three months ended September 30, 2008 and 2007 was 3,760,695 and 3,634,060 respectively, and for the nine months ended September 30, 2008 and 2007 was 3,732,464 and 3,627,463 respectively.

Diluted earnings per share are similar to the computation of basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive effect of options and warrants outstanding had been exercised. The assumed conversion of dilutive options and warrants resulted in 267,338 and 515,923 additional shares for the

- 7 -

### PARKE BANCORP, INC. AND SUBSIDIARIES

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (unaudited)

three months ended September 30, 2008 and 2007, respectively, and for the nine months ended September 30, 2008 and 2007 was 381,887 and 517,334, respectively.

Both basic and diluted earnings per share calculations give retroactive effect to stock dividends declared, including the most recent 15% stock dividend that was effective April 18, 2008.

### NOTE 3. STOCK COMPENSATION

Effective January 1, 2006, the Company adopted Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards No. 123R *Share-Based Payment* (Revised 2004) ("SFAS 123R").

The Company uses the Black-Scholes option pricing model to estimate the fair value of stock-based awards effective January 1, 2006. No options were granted in 2008 or 2007.

As of September 30, 2008 and December 31, 2007, there were 6,325 and 11,385 unvested options, respectively, after adjusting for the stock dividend in April 2008. Compensation cost, adjusted for forfeiture in the third quarter of 2008, resulted in lowering total compensation cost by approximately \$40,000. Hence, unrecognized compensation cost as of September 30, 2008 was approximately \$20,000, compared with \$73,000 as of September 30, 2007, and is expected to be recognized over a weighted average period of 1.08 years.

### PARKE BANCORP, INC. AND SUBSIDIARIES

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

### NOTE 4. LOANS

The portfolio of the loans outstanding consists of:

	September 30, 20	008	December 31, 200	)7	
		Percentage of		Percentage of	of
	Amount	Gross Loans	Amount	Gross Loans	
	(Amounts in thous	ands)			
Commercial	\$ 15,110	3.0	% \$ 14,899	3.7	%
Real estate construction			. ,		
Residential	5,695	1.1	2,091	0.5	
Commercial	118,058	23.2	106,320	26.0	
Real estate mortgage					
Residential	34,029	6.7	24,488	6.0	
Commercial	314,896	61.8	242,668	59.4	
Consumer	21,310	4.2	17,923	4.4	
Total Loans	\$ 509,098	100.0	% \$ 408,389	100.0	%

At September 30, 2008, the \$118.1 million reported for commercial real estate construction included \$80.0 million in outstandings to commercial borrowers for the purpose of building one-to-four family houses. At December 31, 2007, the \$106.3 million reported for commercial real estate construction included \$76.6 million in outstandings to commercial borrowers for the purpose of building one-to-four family houses.

At September 30, 2008 the Company had loans with balances totaling \$685,000 on non-accrual. At December 31, 2007 loan balances on non-accrual were \$805,000. Loans with interest past due 30 days or more and still accruing totaled \$1.1 million at September 30, 2008 compared to \$1.3 million at December 31, 2007. The Company maintains interest reserves for the purpose of making periodic and timely interest payments for borrowers that qualify. Total loans with interest reserves were \$149.1 million and \$110.5 million at September 30, 2008 and December 31, 2007 respectively. Management on a monthly basis reviews loans with interest reserves to assess current and projected performance.

### NOTE 5. REGULATORY RESTRICTIONS

The Company and the Bank are subject to various regulatory capital requirements of federal and state banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Company and the Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors. Prompt corrective actions are not applicable to bank holding companies.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the following table) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined).

Management believes, as of September 30, 2008 and December 31, 2007, that the Company and the Bank met all capital adequacy requirements to which they are subject.

# NOTE 6. SUBORDINATED DEBENTURES

On June 21, 2007, Parke Capital Trust III, a Delaware statutory business trust and a wholly-owned subsidiary of the Company, issued \$3.0 million of variable rate capital trust pass-through securities to investors. The variable interest rate re-prices quarterly at the three-month LIBOR plus 1.50% and was 4.32% at September 30, 2008. Parke Capital Trust III purchased \$3.1 million of variable rate junior subordinated deferrable interest debentures from the Company. The debentures are the sole asset of the Trust. The terms of the junior subordinated debentures are the same as the terms of the capital securities. The Company has also fully and unconditionally guaranteed the obligations of the Trust under the capital securities are redeemable by the Company on or after June 15, 2012, at par or earlier if the deduction of related interest for federal income taxes is prohibited, classification as Tier 1 Capital is no longer allowed, or certain other contingencies arise. The capital securities must be redeemed upon final maturity of the subordinated debentures on September 15, 2037. Proceeds of approximately \$3.0 million were retained at the Company for future use.

NOTE 7. INCOME TAXES

The Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, ("FIN 48"), on January 1, 2007. The Company files United States (US) federal income tax returns and state tax returns in New Jersey. Based upon the statute of limitations, the Company is no longer subject to US federal and state examinations by tax authorities for years before 2003. Based on the review of the tax returns filed for the years 2003 through 2007, management determined that all tax positions taken had a probability of greater than 50 percent of being sustained and that 100 percent of the benefits accrued were expected to be realized. Management has a high confidence level in the technical merits of the positions and believes that the deductions taken and benefits accrued are based on widely understood administrative practices and procedures and are based on clear and unambiguous tax law. As a result of this evaluation, no liability for unrecognized tax benefits has been recorded.

### NOTE 9. FAIR VALUE MEASUREMENT

Effective January 1, 2008, the Company adopted SFAS 157 Fair Value Measurement, which provides a framework for measuring fair value under generally accepted accounting principles. SFAS 157 applies to all financial instruments that are being measured and reported on a fair value basis.

The Company also adopted SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities, on January 1, 2008. SFAS 159 allows an entity the irrevocable option to elect fair value for the initial and subsequent measurement of certain financial assets on a

)

contract-by-contract basis. SFAS 159 requires that the difference between the carrying value before election of the fair value option and the fair value of these instruments be recorded as an adjustment to beginning retained earnings in the period of adoption. The Company has not elected the fair value option for any existing financial assets or liabilities and consequently did not have any adoption-related adjustments.

#### Fair Value Measurement

SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for such asset or liability in an orderly transaction between market participants on the measurement date. In determining fair value, the Company uses various methods including market, income and cost approaches. Based on these approaches, the Company often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs applied in the valuation technique. These inputs can be classified as readily observable, market corroborated, or generally unobservable. The Company utilizes techniques that maximize the use of observable inputs whenever available and minimize the use of unobservable inputs. The Company is required to provide the following information according to the fair value hierarchy based upon observable inputs used in valuation techniques. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets carried at fair value will be classified and disclosed as follows:

- 12 -

### PARKE BANCORP, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Level 1 Inputs:

1) Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

2) Generally, this includes debt and equity securities and derivative contracts that are traded in an active exchange market (i.e. New York Stock Exchange), as well as certain U.S. Treasury and U.S. Government and agency mortgage-backed securities that are highly liquid and are actively traded in over-the-counter markets.

### Level 2 Inputs:

- 1) Quoted prices for similar assets or liabilities in active markets.
- 2) Quoted prices for identical or similar assets or liabilities in markets that are not active.

3) Inputs other than quoted prices that are observable, either directly or indirectly, for the term of the asset or liability (e.g., interest rates, yield curves, credit risks, prepayment speeds or volatilities) or "market corroborated inputs."

4) Generally, this includes U.S. Government and agency mortgage-backed securities and preferred stocks, corporate debt securities, derivative contracts and loans held for sale.

### Level 3 Inputs:

1) Prices or valuation techniques that require inputs that are both unobservable (i.e. supported by little or no market activity) and that are significant to the fair value of the assets or liabilities.

2) These assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

3) Generally, this includes trust preferred securities.

The following is a description of the valuation methodologies used for instruments measured at fair value:

### Securities Portfolio

The fair value of securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers (Level 1). When listed prices or quotes are not available, fair value is based upon quoted market prices for similar or identical assets or other observable inputs (Level 2) or significant management judgment or estimation based upon unobservable inputs due to limited or no market activity of the instrument (Level 3).

Fair Value on a Recurring Basis

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis.

Financial Assets	Level 1	Level 2	Level 3	Total
	(Amounts in th			
Securities available for sale	\$ —	\$ 30,567	\$ 3,776	\$ 34,343

The changes in Level 3 assets measured at fair value on a recurring basis are summarized as follows:

	Securities Available for Sale (Amounts in thousands)			
Beginning balance at January 1, 2008	\$	5,735		
Total net gains (losses) included in:				
Net income		(947	)	
Other comprehensive loss		(2,016	)	
Purchases, sales, issuances and settlements, net		_		
Net transfers in or (out) of Level 3		1,004		
Ending balance September 30, 2008	\$	3,776		
Net unrealized gains (losses) included in net income for the quarter relating to assets held				
at September 30, 2008		(947	)	

### Fair Value on a Non-recurring Basis

Certain assets and liabilities are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment).

Financial Assets	Level 1	Level 2	Level 3	Total
	(Amounts in th	ousands)		
Impaired Loans Repossessed Assets *	\$ — \$ —	\$ — \$ —	\$ 685 \$ 1,021	\$ 685 \$ 1,021

### \*Marketable Securities

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral-dependent loans had a carrying amount of \$685,000 with a valuation allowance of \$30,000, resulting in no additional provisions for the period.

Repossessed assets, which are carried at fair value, were written down to \$1,021,000 resulting in a valuation allowance of \$337,500 and a charge to current period earnings of \$163,000.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### **Forward-Looking Statements**

The Company may from time to time make written or oral "forward-looking statements" including statements contained in this Report and in other communications by the Company which are made in good faith pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements, such as statements of the Company's plans, objectives, expectations, estimates and intentions, involve risks and uncertainties and are subject to change based on various important factors (some of which are beyond the Company's control). The following factors, among others, could cause the Company's financial performance to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations; the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System, inflation, interest rate, market and monetary fluctuations; the timely development of and acceptance of new products and services of the Company and the perceived overall value of these products and services by users, including laws concerning taxes, banking, securities and insurance); technological changes; acquisitions; changes in consumer spending and saving habits; and the success of the Company at managing the risks involved in the foregoing.

The Company cautions that the foregoing list of important factors is not exclusive. The Company also cautions readers not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date on which they are given. The Company is not obligated to publicly revise or update these forward-looking statements to reflect events or circumstances that arise after any such date. Readers should carefully review the risk factors described in other documents the Company files from time to time with the SEC, including quarterly reports on Form 10-Q, Annual Reports on Form 10-K and any current reports on Form 8-K.

#### General

The Company's results of operations are dependent primarily on net interest income, which is the difference between the interest income earned on its interest-earning assets, such as loans and securities, and the interest expense paid on its interest-bearing liabilities, such as deposits and borrowings. The Company also generates non-interest income such as service charges, earnings from bank owned life insurance (BOLI), loan exit fees and other fees. The Company's non-interest expenses primarily consist of employee compensation and benefits, occupancy expenses, marketing expenses, data processing costs and other operating expenses. The Company is also subject to losses in its loan portfolio if borrowers fail to meet their obligations. The Company's results of operations are also significantly affected by general economic and competitive conditions, particularly changes in market interest rates, government policies and actions of regulatory agencies.

# PARKE BANCORP, INC. AND SUBSIDIARIES

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

### Three Months Ended September 30, 2008 Compared to Three Months Ended September 30, 2007

### (unaudited)

The following discussion compares the results of operations for the three month period ended September 30, 2008 to the results of operations for the three month period ended September 30, 2007. This discussion should be read in conjunction with the accompanying financial statements and related notes as well as the financial information included in the 2007 Annual Report on Form 10-K.

### **Results of Operations**

*Net Income.* For the quarter ended September 30, 2008, net income totaled \$1.1 million, compared to \$1.6 million for the quarter ended September 30, 2007. Diluted earnings per share for the three months ended September 30, 2008 totaled \$0.27, compared to \$0.39 per share for the same period of 2007. All prior period earnings per share information have been adjusted for the 15% stock dividend paid in the second quarter of 2008. The reduction in net income for the three months ended September 30, 2008 was attributable to \$459,000 in other-than-temporary impairment charges on Fannie Mae and Freddie Mac preferred stocks, a write-down of \$163,000 on a repossessed asset, and an increase in the provision for loan losses of \$409,000, which were partially offset by an increase in net interest income of \$179,000.

*Net Interest Income*. Our primary source of earnings is net interest income, which is the difference between income earned on interest-earning assets, such as loans and investment securities, and interest expense incurred on interest-bearing sources of funds, such as deposits and borrowings. The level of net interest income is determined primarily by the average balances ("volume") and the rate spreads between the interest-earning assets and our funding sources.

Net interest income for the three months ended September 30, 2008 totaled \$4.6 million, an increase of 4.1% over \$4.4 million for the three months ended September 30, 2007. The increase is attributable primarily to growth in the commercial real estate loan portfolio, which was partially offset by a decline in the net interest margin. Interest income of \$9.3 million increased \$292,000, or 3.3%, from the comparable quarter of 2007 due to an increase in average interest-earning assets of \$124.4 million, or 30.3%, that was partially offset by a decline in the yield on average interest-earning assets. The average yield on earning assets fell 178 basis points to 6.89% for the third quarter of 2008 from 8.67% for the third quarter of 2007.

For the quarter ended September 30, 2008, interest expense of \$4.7 million increased by \$113,000, or 2.5%, from \$4.6 million for the quarter ended September 30, 2007. In order to fund the Company's asset growth, average interest-bearing liabilities grew \$118.5 million, or 33%, in the third quarter of 2008 to \$481.9 million from \$363.4 million for the comparable 2007 period. The average rate paid on interest-bearing liabilities dropped 112 basis points to 3.85% for the three months ended September 30, 2008 from 4.97% for the same period of 2007.

The net interest margin of 3.42% for the third quarter of 2008 declined from 4.27% for the quarter ended September 30, 2007 due mainly to the previously noted 178 basis point decline in the yield on interest-earning assets, which was mainly related to prime-based commercial loans. This was partially offset by the 112 basis point decline in the average rate paid on interest-bearing liabilities. The Federal Reserve has reduced the fed funds rate by 325 basis points during the past twelve months which has generally reduced the yields on the Company's prime-based commercial loans by a corresponding amount. The prime-based commercial loans represent slightly more than one-half of the commercial loan portfolio. However the interest rates paid for deposits, both retail and brokered

- 16 -

### PARKE BANCORP, INC. AND SUBSIDIARIES

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (unaudited)

certificates of deposit, have declined at a much slower pace due to competitive pricing by other financial institutions, resulting in a lower net interest margin.

*Provision for Loan Losses.* The provision for loan losses amounted to \$595,000 for the third quarter of 2008 as compared to \$186,000 for the same quarter in 2007. The increase in the provision for the 2008 period was primarily due to the 31.5% increase in loan balances during the twelve months ended September 30, 2008 and reflective of the current economic cycle.

*Non-interest Income*. Non-interest income for the quarter ended September 30, 2008 aggregated to a loss of \$191,000 compared to \$177,000 in income from the comparable quarter of 2007. The \$368,000 decrease was mainly attributable to \$459,000 in other-than-temporary impairment charges on Fannie Mae and Freddie Mac preferred stocks in the third quarter of 2008.

*Non-interest Expense*. For the three months ended September 30, 2008, non-interest expenses increased \$135,000, or 7.9%, to \$1.9 million, compared to \$1.7 million for the same period of 2007. The higher expense level was associated with a write-down of \$163,000 on a repossessed asset. Offsetting this increase were modest declines in compensation and data processing expenses.

*Income Taxes*. The Company recorded income tax expense of \$877,000, on income before taxes of \$1.9 million for the three months ended September 30, 2008, resulting in an effective tax rate of 45.0%, compared to income tax expense of \$1.1 million on income before taxes of \$2.7 million for the same period of 2007, resulting in an effective tax rate of 39.3%. The 2008 effective tax rate was affected by a \$75,000 under accrual from a prior tax period.
