2.2. Number of Series

The Issue will be carried out in a single series.

2.3. Quantity of Securities

2.4. Convertibility, Type and Form

The Debentures will be simple, nominative, and not convertible into shares of the Company.

2.5. The Placing and Distribution Plan for the Debentures

2.5.1 The Debentures will be the object of a public distribution, on a firm commitment basis, with the intermediation by financial institutions that are part of the securities distribution system, for placing according to the procedures of the SDT (securities distribution system), managed by ANDIMA (National Association of Financial Market Institutions) with subscription being settled by CETIP (Custody and Settlement Chamber) and the BOVESPA FIX Trading System (["BOVESPA FIX"]), of the São Paulo Stock Exchange ["BOVESPA (["BOVESPA"]), with settlement carried out by CBLC (Brazilian Custody and Settlement Company). Observing the schedule described in the Prospectus for the public distribution of the Debentures (Prospectus), the Issue will be placed with the public according to the distribution plan (["Distribution Plan"]) described as follows.

2.5.2. The placing will be public, there being no minimum or maximum lot sizes, giving priority, independently of chronological order, to the proposals of those investors who wish to subscribe for the Debentures who present the best proposals during the Bookbuilding Process, the best proposals being considered those that show the lowest rates of remuneration to the investor, it also being desirable that the placing be carried out in such a way as to achieve a high degree of dispersal among investors, so as to achieve greater liquidity in the secondary

market.

2.5.3. The public placing of the debentures will only begin: (i) after the granting of the registration of the Issue by the CVM, (ii) through the publication of an announcement for the Start of the Placing (iii) when the Definitive Prospectus is made available at the headquarters and on a page on the global computer networks of (a) the Company; (b) the Coordinators of the Public Distribution; (c) the CVM, for consultation and reproduction only; and (d) BOVESPA and CETIP.

2.5.4. The period for the placing of the Debentures on a firm commitment basis will be 3 (three) working days, counting from the date of the publication of this announcement (□Placing Period□).

2.5.5. The date of the end of distribution and the result of the same will be disclosed through the publication of a closure announcement, to be published in the Official Gazette of the State of São Paulo and the newspaper Valor Econômico.

2.5.6. The firm commitment provided by the Coordinators is valid to April 15, 2005.

2.5.7. The Coordinators must carry out the public distribution of the Debentures, in such a way as to ensure: (i) that the treatment granted to investors is fair and equitable, (ii) that the investment fits the risk profile of their clients, and (iii) that their sales representatives previously receive a copy of the Prospectus, which they must read, any queries or doubts that they may have being clarified by persons designated for this purpose.

2.6. Type

The Debentures will be unsecured and without any special privileges.

2.7. Term and Due Date

The Debentures will have a term of 3 (three) years, counting from the Date of Issue, falling due on 1st March 2008 (□Due Date□). The Company will be obliged, on the Due Date, to reimburse the Debentures which are still in circulation, for their Nominal Unit Value, with remuneration added (as defined below) calculated *pro rata temporis*, from the last payment date of the said remuneration.

2.8. Trading

The Debentures will be registered for trading on the secondary market of the SND, managed by ANDIMA and operated by CETIP and BOVESPA FIX, in this latter case, the trades being settled and the Debentures held in the custody of the CBLC.

2.9. Payment and Payment Period

The Debentures of this Issue will be paid for in cash, in the national currency, at the time of subscription.

2.10. Subscription Price

The Debentures will be subscribed for and paid for at their Nominal Unit Value, with Remuneration added (as defined in item 2.12 which follows), calculated *pro rata temporis* from the Date of Issue to the date of effective payment.

2.11. Debenture Certificates

The Company will not be issuing Debenture Certificates. For all legal purposes, the ownership of the Debentures will be proved by the issuing of a statement by Banco Bradesco S.A., responsible for the services of issuing and registration bank (□Issuing Bank□). Furthermore, the Asset Position Report, published by the SND, will also be recognised as proof of ownership of the Debentures, accompanied by a statement, in the name of the Debenture Holder, issued by the financial institution responsible for the custody of the securities, when deposited with the SND. For those Debentures deposited with the CBLC, a statement will be issued by the CBLC, in the name of the

Debenture Holder.

2.12. Remuneration of the Debentures

2.12.1. From the Date of Issue, the Debentures will enjoy remuneration ("Remuneration") which takes into account the remunerated interest applicable on the Nominal Unit Value, from the Date of Issue, and paid at the end of each Capitalization Period, as defined below, according to the following formula. The rate of interest applicable to the Debentures, defined in the Bookbuilding Procedure, will be 102.5% (one hundred and two point five per cent) of the accumulated daily interest rates of the DI - one-day Interbank Deposit Rate, "over extra group", calculated and published by CETIP, on a base of 252 days, expressed in the form of an annual percentage ("DI Rate ").

2.12.2. At the end of the Bookbuilding Procedure, the Company's Board of Directors ratified the percentage DI Rate that will be applicable to the Debentures.

2.12.3. The average daily rates will be accumulated in exponential form, utilizing the criteria *pro rata temporis*, up to the date of effective payment of the interest, in such a way as to cover the entire Capitalization Period.

2.12.4. The calculation of the Remuneration will be according to the following formula:

$JR = VN \times [FatorDI 1]$, where:

JR = the value of remuneration to be paid on the respective due dates, calculated to 6(six) decimal places, without rounding up or down;

VN = Nominal Unit Value, shown to 6 (six) decimal places, without rounding up or down; and

FatorDI = product of the DI Rates, on the date of the start of capitalization, including, up to the date of calculation, exclusive, calculated to 8 (eight) decimal places, the

figures being rounded, according to the formula below:

where:

n_{DI} = total number of DI Rates, "n_{DI}" being a whole number;

TDI_k = DI rate expressed per day, calculated to 8 (eight) decimal places with rounding:

DI_k = DI Rate, on an annual percentage, based on 252 (two hundred and fifty-two) working days, calculated and published by CETIP, referring to day "k";

d_k = number of working day(s) corresponding to the validity period of the DI Rate, "d_k" being a whole number; and

S = Percentage applied on the DI rate, shown to 2 (two) decimal places.

2.12.4.1. The factor resulting from the equation $(1 + TDI_k \times S / 100)$ is considered to 16 (sixteen) decimal places, without rounding up or down.

2.12.4.2. The product of the daily factors shall be effected $(1 + \frac{TDI}{100} \times S)$, each accumulated daily factor being shortened to 16 (sixteen) decimal places, and applied to the next daily factor, and so on and so forth, up to the last number considered.

2.12.4.3. Once the factors are accumulated, the resulting DI Factor shall be considered to 8 (eight) decimal places, the final number being rounded.

2.12.5. For the purposes of calculating the Debenture Remuneration, the Capitalization Period shall be defined as the time interval which begins from the Date of Issue, inclusive, in the case of the first Capitalization Period, or the due date of the immediately preceding Remuneration, inclusive, in the case of the other capitalization periods, and ending on the date of the next Remuneration due date, exclusive. Each Capitalization Period succeeds the previous one without a continuous link.

2.13. Amortization

There will be no amortization of the Nominal Unit Value of the Debentures, which will be paid in full on the Due Date.

2.14. Payment of Remuneration

The relative amounts of the Debenture Remuneration must be paid half yearly, always on the 1st (first) in day of the months of March and September of each year, the first payment being due on the 1st (first) of September 2005.

2.15. Guarantee

2.15.1. Oxiteno S.A. Indústria e Comércio (Guarantor) has provided surety for the Debenture Holders, represented by the Trustee, committing itself as guarantor for the Debenture Holders and principal payer for the total value of the Company's debt represented by the Debentures, on the Date of Issue, with Remuneration added and any applicable fines for delays applied, as well as the other pecuniary obligations set out in the Issue Contract (Guaranteed Value).

2.15.2. The surety will come into force on the Date of Issue, and will remain valid in all its conditions up to the full payment of the Guaranteed Value or the date of the replacement of the guarantee, observing the conditions set out in the items which follow.

2.15.3. In the case of (i) the occurrence, in regard to the Guarantor, of any advance redemption as described in item 2.21., with the exception of the event referred to in subparagraph (e) or (ii) the sale, directly or indirectly, of the shareholder control of the Guarantor, the Trustee shall require the replacement of the surety hereby provided, which must be carried out within a period of 15 (fifteen) days, counting from the date of receipt, by the Company, of notification requesting replacement.

2.15.4. In the case referred to in item 2.15.3., the surety provided by the Guarantor can only be replaced by a bank guarantee, authorised in favour of the Debenture Holders, represented by the Trustee, issued by a financial institution with a risk classification on a national equivalent scale of a minimum of AA-, as measured by Standard & Poor's.

2.15.5. Except for the case dealt with by item 2.15.4., the replacement of the Guarantor shall be subject to the prior approval of the Debentures Holders, representing 75% (seventy-five per cent) of the debentures in circulation, at a meeting of Debentures Holders specially convened for this purpose.

2.16. Right to Acquire

The Company may, at any time, acquire the Debentures of this Issue in market circulation, for a price that does not exceed their Nominal Unit Value, with Remuneration added, calculated *pro rata temporis*, observing the terms of paragraph 2 of article 55 of Brazilian Corporation Law. The Debentures acquired by the Company may be cancelled, held in the Company's Treasury, or again placed in the market.

2.17. Advance Redemption

There will be no advance redemption of the Debentures.

2.18. Renegotiation

There shall be no renegotiation of these Debentures.

2.19. Fines Due to Delayed Payments

In the event of any failure to pay on time, any amount due to the Debenture Holders, the outstanding debt shall be subject to a fine, non-compensatable, of 2% (two per cent) of the value owed, and additional interest calculated on the amount due, from the date of falling due to the effective payment date, at a rate of 1% (one percent) a month, independent of advice, notification judicial or extrajudicial intercession, in addition to the charging expenses incurred.

2.20. Loss of rights to delay-rated fines and charges

Without prejudicing the terms set out in item 2.19. above, the non-appearance of the Debenture Holders to receive the amount corresponding to any of the pecuniary obligations of the Company on the dates set out in the Issue Contract, or in a public communication by the Company, shall not confer the Debenture Holder the right to receive remuneration and/or fines for the period related to the resulting payment delay, the Debenture Holder nonetheless retaining all the rights acquired up to the respective payment due date.

2.21. Redemption Ahead of Schedule

2.21.1. Certain hypothetical events are considered that trigger the advance redemption of the Debentures of this Issue, observing the terms in items 2.21.2. and 2.21.3. below, resulting in the immediate demand for payment, from the Company, for the Nominal Unit Value of each Debenture, with remuneration added, calculated *pro rata temporis* from the date of the Debenture Issue or the last date of interest payment, up to the effective payment date, in any of the following occurrences:

- (a) The request for bankruptcy protection on the part of the Company and/or its direct or indirect controlling shareholders, or any similar procedure judicial or extrajudicial, subsequently enacted by law;
 - (b) The liquidation, dissolving or winding up of the Company and/or its direct or indirect controlling shareholders or any companies under its control;

- (h) Failure by the Company to observe the following financial index, which shall be verified on a quarterly basis, always at the same time as when its quarterly figures are regular reported by the Company: a Net Debt/EBITDA ratio, of less than or equal to 3.5. For the purposes of this item (h), Net Debt is considered to be all the consolidated financial debt of the Issuer, excluding the total value of cash and equivalents and the Issuer's consolidated financial deposits, while EBITDA is considered to be consolidated operating profit, before interest, and the consolidated expenses of depreciation and amortization;
- (i) A Reduction in the paid-up capital of the Company and/or any alteration to the Company's Bylaws, which implies the concession of the right of withdrawal of the Company's shareholders, for an amount that could affect, directly or indirectly, the fulfilment of the Company's obligations, as set out in the Issue Contract;
- (j) Legitimate protests by Debenture Holders against the Company, whose unit or aggregate value exceeds R\$15,000,000.00 (fifteen million reais), except in the case of the protest being made by mistake or in bad faith on the part of third parties, provided that this is proven to be the case by the Company, if this is so, or if the protest is withdrawn, in any event, within a maximum period of 3 (three) working days of its occurrence;

 - (l) The sell-off, confiscation, misappropriation or any form of disposal, during the period that the Debentures are in force, of operational assets which, individually or together, result in a reduction in the Company's net consolidated operating revenues of more than 25% (twenty five percent) compared to the value of the Company's net consolidated operating reported for the year ending the 31 December 2004, corrected annually by the variation in the General Market Prices Index (IGP-M), calculated by Fundação Getúlio Vargas. The limit above being calculated quarterly, taking into account the operating revenues of the Company during the 12 (twelve) months prior to the end of each quarter, and using the financial information usually published by the Company; and
 - (m) The payment by the issuer, of dividends and/or interest on equity payments, except for legally obligatory dividends or interest-on-equity payments ascribed as obligatory dividends, if they cause delay in relation to the fulfilment of any of the pecuniary obligations set out in the Issue Contract.

2.21.2. The occurrence of any of the events cited in subparagraphs (a), (b), (c) and (d) above shall trigger the Debentures' redemption ahead of schedule, independent of any advice or notification.

2.21.3. If any of the events indicated in subparagraphs (e) to (m) above occur, the Trustee must convene, within a period of 48 (forty-eight) hours from the date of becoming aware of the occurrence of the said events, a General Debenture Holders Meeting to deliberate on the declaration of the Debentures' redemption ahead of schedule, observing the procedures for convening meetings and the specific quorum established below. A Debenture Holders Meeting may also be convened by the Company, by Debenture Holders that represent at least 10% (ten percent) of the Debentures in circulation, or by the CVM.

2.21.4. The Debenture Holders Meeting, convened under the terms of item 2.21.3. , may opt, by deliberation of Debenture Holders which represent a minimum of 2/3 (two thirds) of the Debentures in circulation, to not declare the Debentures' redemption ahead of schedule.

2.21.5. In the event of (i) the non-convening of a Debenture Holders Meeting, (ii) the non-implementation of a Debenture Holders Meeting due to lack of a sufficient quorum, or (iii) the non-approval of the

exercising of the entitlement envisaged in item 2.21.4. by the minimum quorum necessary for deliberation referred to in it, the Trustee must declare the Debentures' redemption ahead of schedule.

2.22. Extension of Time Periods
