  2. For details of the table of comparison, please refer to Appendix IV attached herewith.

Resolution:

### Item 2 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Procedure for Endorsement Guarantee.

- Explanation:
1. In conjunction with the revised Guidelines Governing Handling of Capital and Endorsement for Guarantee by Listed Companies promulgated on December 29, 2005 by Financial Supervisory Commission, Executive Yuan, the Board of Directors of the Company passed the resolution on April 3, 2006 to revise part of the provisions of the Company's Procedure for Endorsement Guarantee.
  2. For details of the table of comparison, please refer to Appendix V attached herewith.

Resolution:

### Item 3 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Rules for Annual Shareholders' Meeting Agenda.

- Explanation:
1. In conjunction with the revised Company Law pertaining to rules for shares without voting rights, the Board of Directors of the Company passed the resolution on April 3, 2006 to revise part of the provisions of the Company's Rules for Annual Shareholders' Meeting Agenda.
  2. For details of the table of comparison, please refer to Appendix VI attached herewith.

Resolution:

**Item 4 (Proposed by the Board of Directors)**

Proposal: To respond to the Company's future production capacity expansion plan, replenish operating funds, pay off bank loans or meet other funding needs of the Company's long-term development, and to make the fund raising vehicles more diverse and flexible, the Board proposes to authorize the Board of Directors to raise funds at an appropriate time by issuance of common stock for cash to participate in issuance of global depository receipts, by domestic issuance of common stock for cash, or by issuance of domestic/foreign convertible corporate bonds in light of the market condition and the Company's funding needs in accordance with the Articles of Incorporation, pertinent laws and various handling principles stated in the following explanation.

- Explanation: 1. The principles of authorizing the Board of Directors to carry out the issuance of new shares to participate in issuance of global depository receipts (GDR):
- (1) New shares issued to participate in issuance of global depository receipts this time shall be limited to 500,000,000 shares. The Shareholders' Meeting authorizes the Board of Directors and Chairperson to adjust the issuance within the aforesaid limit to stay in line with market situation, and place the entire issuance in one offering.
  - (2) The price of shares issued this time for increase in capital in cash by issuing common shares for participation in the issuance of GDR shall be governed by the Self-discipline Rules Governing Fund-raising and Issuance of Securities Assisted by Member Underwrites issued by Chinese Securities Association, which stipulates that the price shall not be lowered than the closing price for the common share on domestic open market on the date the price is set. The issuer may select one of the closing prices for the common share on the first, third and fifth business day prior to the price-setting date and calculate the closing price for common share at the simple arithmetic average minus 90% of average stock price after ex-rights of the non-remunerative appropriated share. If there are changes in related domestic laws and regulations, the price-setting method may change accordingly. In view of the short and volatile function of domestic stock price, the chairman of the board is authorized to adjust the actual issuance price within the above-prescribed scope in consultation with the underwriter, according to international practice, and in reference to international capital market, domestic stock price and the purchase condition so as to raise acceptance by overseas buyers. As such, the price-setting method for issuance of new shares should be reasonable. The deciding method for the price of the GDR issued this time is based on the fair price of common stock traded at the domestic open market, which

allows original shareholders to purchase the common share at home at a price close to that for the GDR without bearing the foreign exchange risk and mobility risk. In other words, there is no major impact upon shareholder's equity resultant from the GRD issuance in question. Moreover, new shares issued as a result of capital increase in cash that are eligible for participation in the tranche of the GDR versus the maximum dilution ratio of the original shareholder's equity stand at 10.96%, which, in fact, have no major impact upon shareholder's equity.

- (3) In accordance with Article 267 of the Company Law, 10% of the new issuance will be set aside for purchase by the Company's employees. The remaining 90% will be publicly offered entirely in the form of global depository receipts as the original shareholders forfeit their rights of subscription according to Article 28-1 of the Securities Transaction Law. For shares not subscribed by employees, the Board of Directors may contact specific parties for purchase or include them in the issuance of global depository receipts, depending on market needs.
- (4) Funds raised through issuance of global depository receipts for capital increase in cash are estimated for use in overseas procurement, strengthening of operation capital, repayment of bank loans, purchase of machinery and equipment, single spinoff use or multiple spinoff use. Implementation of the above-mentioned items is expected to be completed within two years. Upon completion, it is estimated that competitiveness of the Company will be further enhanced, operation efficiency elevated, thereby producing positive effect upon shareholder's equity.
- (5) The Board of Directors is authorized to determine the important particulars of this issuance of stock for cash, including issuance price, shares issued, issuing terms, source of funds, expected net proceeds, planned schedule, and expected benefits, and the global depository receipts issuance plan.
- (6) The Board of Directors is authorized to handle matters related to issuance of new shares after the issuance of stock for cash has been approved by the authorities concerned.
- (7) The Board of Directors is fully authorized to make changes to the issuing time, issuing terms, share issuance, issuance amount and other items in connection with this issuance of stock for cash and issuance of global depository receipts necessitated by the order of the authorities

concerned, reevaluation of the operational plan, or the objective environment.

- (8) The Chairperson and his/her appointed representative are authorized to sign all documents in connection with this issuance of stock for cash and issuance of global depository receipts on behalf of the Company, and handle all related matters.
  - (9) The Board of Directors is fully authorized to handle matters not specified herein as provided by law.
2. The principles of authorizing the Board of Directors to issue new shares for raising funds in the domestic market:
  - (1) New shares issued this time shall be limited to 500,000,000 shares.
  - (2) The new shares will have a par value of NT\$10 per share. The actual issuance price will be jointly decided by the Chairperson and underwriters in line with then market status and self-discipline Rules of issuance securities assisted by Member Underwrites issued by Chinese Securities Association. The new shares will be offered after the plan has been approved by the authorities concerned.
  - (3) This issuance of stock for cash of new shares will be carried out by book building. In accordance with Article 267 of the Company Law, 10% - 15% of the new issuance will be set aside for purchase by company employees. The remaining will be publicly offered entirely via book building as the original shareholders forfeit their rights of subscription according to Article 28-1 of the Securities and Exchange Law. For shares not subscribed by employees, the Board of Directors may contact specific parties for purchase.
  - (4) Funds raised through issuance of global depository receipts for capital increase in cash are estimated for use in overseas procurement, strengthening of operation capital, repayment of bank loans, purchase of machinery and equipment, single spinoff use or multiple spinoff use. Implementation of the above-mentioned items is expected to be completed within two years. Upon completion, it is estimated that competitiveness of the Company will be further enhanced, operation efficiency elevated, thereby producing positive effect upon shareholder's equity.
  - (5) The Board of Directors is authorized to determine the important particulars in this issuance of stock for cash, including issuance price, shares issued, issuing terms, source of funds, expected net proceeds,

planned schedule, and expected benefits. The Board of Directors is also fully authorized to make changes to the issuing plan in connection with this issuance of stock for cash necessitated by the order of the authorities concerned, reevaluation of the operational plan, or the objective environment.

- (6) The Board of Directors is authorized to separately set the determination date after this issuance of stock for cash plan has been approved by the authorities concerned.
  - (7) The Board of Directors is fully authorized to make changes to the method of issuance as described in the preceding Subparagraph (3) necessitated by regulatory change or the objective environment.
  - (8) The Board of Directors is fully authorized to handle matters not specified herein as provided by law.
3. The principles of authorizing the Board of Directors to issue domestic/foreign convertible corporate bonds:
- (1) Shares for conversion: They shall be limited to shares reserved for conversion of corporate bonds at the time of issuance.
  - (2) Time of issuance: It depends on funding needs of the Company and market status.
  - (3) Coupon rate: In reference to market rate at the time of issuance and being reasonable.
  - (4) Term of maturity: Depending on funding needs of the Company.
  - (5) Issuance conditions: As advised by the underwriters and in compliance with relevant laws and regulations.
  - (6) Funds raised from issuance of domestic/foreign convertible corporate bonds are estimated for use in overseas procurement, strengthening of operation capital, repayment of bank loans, purchase of machinery and equipment, single spinoff use or multiple spinoff use. Implementation of the above-mentioned items is expected to be completed within two years. Upon completion, it is estimated that competitiveness of the Company will be further enhanced, operation efficiency elevated, thereby producing positive effect upon shareholder's equity.
  - (7) The Board of Directors is authorized to determine the issuing rules, expected net proceeds, planned schedule, and expected benefits in connection with the issuance of convertible bonds.

- (8) The Chairperson and his/her appointed representative are authorized to sign all documents in connection with this issuance of convertible bonds on behalf of the Company, and handle all related matters.
- (9) The Board of Directors is fully authorized by handle matters not specified herein as provided by law.

**Resolution:**

**Item 5 (Proposed by the Board of Directors)**

Proposal: Revision of Articles of Incorporation

- Explanation:
1. In coordination with the needs of operation, part of the Company's Articles of Incorporation is recommended for revision.
  2. See Attachment VII for the table of comparison of the suggested revision.

Resolution:

**Item 6 (Proposed the Board of Directors)**

Proposal: Proposal of the Proposed Spin-Off (defined below) between the Company and ASE Electronics Inc. is hereby submitted for the shareholders' meeting's approval.

- Explanation:
1. In order to facilitate its business specialization, to strengthen its core competencies and to further develop its line of business, the Company proposes to divide its existing material business department (including assets, liabilities, and business) to its wholly owned subsidiary, ASE Electronics Inc., and to receive new shares issued by ASE Electronics Inc., as consideration (the "Proposed Spin-Off"). It is anticipated that with independent operation after such division, the total performance and competitiveness of the material business department will be enhanced.
  2. The scope of the divided material business department (including assets, liabilities, and business) is set aside in the attached "Spin-Off Plan". The value of the assets to be transferred from the Company to ASE Electronics Inc., after deduction of the value of the liabilities to be transferred, is NT\$ 2,254,673,641 With reference to the fairness opinion issued by independent experts in connection with the fair value of the Company's material business department and the reasonableness of the consideration paid by ASE Electronics Inc. through its newly issued shares, it is proposed that each and every new shares issued by ASE Electronics Inc. shall be in exchange for NT\$10 of the total commercial value of the material business department divided from the Company, and the Company shall receive 225,467,364 new shares issued by ASE Electronics Inc., at a par value of NT\$ 10 per share as consideration of the divided material business department transferred to ASE

Electronics Inc..

3. Please see Attachment VIII and Schedule 3 of Attachment VIII for the Spin-Off Plan and the fairness opinion.
4. Where it is necessary to adjust the scope of business, the amount (including assets, liabilities and business) of the material business department, or the number of shares issued by ASE Electronics Inc., as consideration, other matters relating to the Proposed Spin-Off (including but not limited to the time schedule and the spin-off record date), where there are any outstanding matters, or where the Proposed Spin-Off shall be revised in accordance with the administrative instructions of the competent authorities or relevant laws or changes in the objective environment, it is proposed that the Company's annual shareholders meeting grant the Company's board of directors full authority to handle the same.
5. Where approval or permission from the competent authorities is not obtained in respect of the Proposed Spin-Off, the Proposed Spin-Off shall be deemed to be invalid.

Resolution:

**Elections**

**Item 1 (proposed by the Board of Directors)**

Proposal: The term of office for directors of the Company is to be expired and, in accordance with, election will be held. In conjunction with the provisions of law, it is proposed that reelection of supervisors will be held first.

- Explanation:
1. The Company has 7 directors, whose terms of office expired on June 18, 2006 and, by law, reelection for replacement should be held. The terms of office for new directors shall commence as of June 22, 2006 end on June 21, 2009 for 3 full years.
  2. The Company has 5 supervisors, whose terms of office are due to expire on June 14, 2007. However, in order to meet the requirements set forth in the revised Securities Transaction Law stipulating no representative of juridical person shareholders of listed company may be elected or assume the post of director and supervisor concurrently of a company and for consideration that representative of juridical person shareholders has been elected director and supervisor of the Company at present, it is proposed to hold an all-out reelection for directors and supervisors at the same time. The terms of office for new directors shall commence as of June 22, 2006 end on June 21, 2009 for 3 full years.

Election  
Results:

**Other Proposals**

**Item 1 (Proposed by the Board of Directors)**

Proposal: Agreement to lift restrictions imposed on newly elected directors of the Company for engagement in competitive business

- Explanation:
1. According to Article 209 of The Company Law, any director who engages in behavior for himself/herself or other that falls under the scope of the Company's business, he/she should explain to the Shareholders' Meeting of the major contents of his/her behavior and obtain permission.
  2. It is noted that newly directors of the Company may have behaved in such manners as making investment in or engaging in business that is similar to the lines of business of the Company or businesses of the Company's spinoff or serving in the post of director or manager. However, under the premises that the interest of the Company is not impaired, the Board recommends in accordance with law that shareholders agree to lift restrictions imposed on newly elected directors, if applicable.

## Business Report

2005 turned out to be another phenomenal fiscal year for Advanced Semiconductor Engineering, Inc. (ASE), despite a slow start to the first half of the year. ASE recorded year on year growth of 12% □ higher than the semiconductor industry growth of 7%. This continued growth can be attributed to several tactical strategies implemented corporate-wide to improve efficiency, control cost, and maximize output. In light of the continued shareholders□ support as well as the Company□s stellar revenue performance, the management has focused strongly on expanding shareholders□ returns and generating positive cash flow for a stronger financial portfolio. The following is a report of the Company□s operation in the past year:

### Results of 2005 operations

#### 1. 2005 business plan and the results of its implementation

We closed the fiscal year with total revenues of NT\$84 billion (12% year-on-year growth vs. FY2004) and a net loss of NT\$4.7 billion (vs. net profit of NT\$4.2 billion in FY2004)). The net loss was largely due to the impact of the fire mishap at ASE□s Chung Li facility in May of 2005.

The fire incident caused a disruption to the entire backend supply chain, and prompted us to critically review our internal processes in light of the market realities. We decided to implement programs that better justify current and future investments in the infrastructure required to improve and support our business, as well as to provide a better margin of returns. With the co-operation of our customers, suppliers, staff, and management, we successfully:

- adjusted unit prices of package and test costs to reflect the increase in the cost of sales
- implemented fee schedules for services such as engineering, design, and small lot processing
- improved utilization of assembly and test equipment to maximize capacity
- reduced the customer base so that top tier and loyal customers of ASE are better served
- focused on quality and technology development to facilitate the next quantum leap

As a result of the renewed business model, we were still able to report an increase in total revenues and higher operating margins, despite the challenge we faced in May.

2. Update on budget implementation

The Company did not make any financial forecast.

3. Analysis of Income, Expense, and Profitability

At the end of 2005, paid-up capital was NT\$45,573,723,000. Shareholders' equity was NT\$47,050,196,000 - accounting for 48% of the total assets of NT\$97,806,132,000. Long-term capital accounted for 209% of fixed assets. The current ratio was 123%, an obvious improvement compared with 2004. Our financial structure and debt repayment capability have both strengthened. Operating income in 2005 amounted to NT\$4,067,730,000. Excluding the loss incurred by the fire, our operating profits remained positive and revenues improved year-on-year.

4. Research and Development

The trend for electronics moving towards lighter, thinner and smaller product designs packed with high performance features, has perennially posed challenges to engineers and manufacturers. Technology advances in IC packaging and test have been instrumental in enabling these designs to market. ASE has been in the forefront of continuous research and development of advanced packaging technologies. In 2005, the Company successfully developed package modules for applications in megapixel digital cameras and mobile phones, as well as micro-electro mechanical system (MEMS) modules for applications in projection equipment and high definition digital TVs. Other milestones in technology development included the deployment of high-lead electroplated bumping and advanced wafer level chip scale packaging. In earlier times, these technologies were only available at US-based semiconductor powerhouses. The increased outsourcing of assembly manufacturing to service providers such as ASE, has provided the impetus to refining these technologies and offering them on a broader scale.

R&D efforts remain a core competence at ASE as investments in this area will generate high returns in the long run.

### Highlights of 2006 Business Plans

1. Operation Guidelines

The Company's key objectives are 1) to provide customers quality and professional service; 2) to create long-term and steady profits for the Company and its customers; 3) to co-operate with our key suppliers for mutual benefits; 4) to train employees and provide opportunities for excellence in their profession; 5) to treat employees fairly and reward appropriately; 6) to provide an open and harmonious work environment for employees; and 7) to exercise a degree of flexibility in business operations.

2. Sales Volume Projection and the Basis

In analyzing the current market environment, anticipated demands, and the Company's production capacity, we estimate 2006 unit volume sales as follows:

Item	Estimated Sales Volume (units)
Packaging	5 billion
Testing	900 million
Material	200 million

3. Marketing Strategies

- <sup>n</sup> Maintain cordial relationships with existing IDM customer base and aggressively develop new business opportunities with potential customer base so as to increase market share, as well as enhance our competitive edge in the marketplace.
- <sup>n</sup> Strengthen R&D capabilities and provide new technologies and services to meet customers demand on product, price, and quality in addition to creating a win-win situation through collaboration with customers.
- <sup>n</sup> Continue with the ramp up in the production of IC substrates to enable the Company a better margin of return in its complete manufacturing process and to enhance its total turnkey solution offerings.

**Future Development and the Strategy of the Company**

As we venture further into 2006, we remain optimistic about the year's outlook as the 3C segments — Communications, Consumer, Computing — remain strong. New products continue to be launched to meet consumers' insatiable demands and will thus continue to drive a steady semiconductor industry growth. In the past year, semiconductor assembly and test service providers (SATS) have curbed their capital expenditure to restore the balance in supply and demand. At one point, capacity constraints were experienced when demand exceeded supply. Since the fire at ASE's Chung Li facility, the Company took a critical review of its business model and re-directed focus on profitability instead of aggressive revenue growth. We believe that current utilization will remain high and our capex spending will be appropriated on a limited scale.

According to a recent estimate by the World Semiconductor Trade Statistics (WSTS), semiconductor revenues in 2006 will reach US\$245.3 billion, an increase of 8% compared to 2005. With a strong team at ASE, we firmly believe that our performance will again be above industry average and we will remain as the leader in the backend service industry.

**Impact from the Competitive Landscape, Governing Laws & Regulations and Management Policies**

In the past, the entry barriers for assembly and test service providers were considerably high. However, recent developments in the industry as well as increasing technology

exchange programs and licensing have turned high end packages such as Ball Grid Array (BGA) packages, Flip Chip and advanced IC test services, into mainstream products and services. These technologies, nevertheless, require large amounts of investment outlay. ASE, with its financial strength, is well positioned to continue its investments in technologies and equipment, and in mergers and acquisitions of companies and assets that complement its business objectives. The Company continues to enlarge its market share with IDMs' increased outsourcing business opportunities. ASE aims to compete aggressively in the market and overcome internal and external challenges to meet its business goals and objectives.

## INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders  
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2005 and 2004, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2005 and 2004, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

As discussed in Note 23 to the financial statements, the Company incurred fire damage to one of its production lines in Chung Li, Taiwan on May 1, 2005. The Company recognized an estimated loss of NT\$11,849,699 thousand for the damage to its building, machinery and inventories. With the assistance of external counsel, the Company submitted insurance claims to its insurers for compensation for damages which the Company believes to be clearly identifiable. Based on the Company's understanding of the process for resolving insurance claims for similar incidents where the damage incurred was not readily quantifiable, it is anticipated that it will be a lengthy process for the Company to complete the insurance claim process due to the large number of damaged assets and the need to prepare the required supporting documentation. As a result, the Company is unable to make a reasonable estimate of the amount of total claims to be received from the insurance companies. The insurance recoveries on the aforementioned damages that are clearly identified and reasonably estimated amounted to NT\$4,616,000 thousand, which reduces the total estimated loss, and of this amount NT\$2,287,580 thousand had been received as of December 31, 2005. Any recovery for the remaining NT\$7,233,699 thousand is contingent on the result of the lengthy professional appraisal process, and as such this amount was recognized as a loss on fire damage for the year 2005. The Company will recognize any subsequent recoveries in future years when additional insurance claims are accepted by the insurers.

As disclosed in Note 3 to the financial statements, the Company adopted Republic of China Statement of Financial Accounting Standards No. 35 [Impairment of Assets] on December 31, 2004.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors and Shareholders  
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (the "Company") as of December 31, 2004 and 2005, and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the three years ended December 31, 2005, all expressed in New Taiwan dollars. Our audits also included the financial statement schedule accompanying the consolidated financial statements. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants, auditing standards generally accepted in the Republic of China ("ROC") and the Standards of the Public Company Accounting Oversight Board (United States). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2004 and 2005, and the consolidated results of their operations and their cash flows for each of the three years ended December 31, 2005, in conformity with accounting principles generally accepted in the Republic of China. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth herein.

As discussed in Note 25 to the consolidated financial statements, the Company incurred fire damage to production lines in Chung Li, Taiwan on May 1, 2005. The Company recognized an estimated loss of NT\$13,479,079 thousand (US\$410,948 thousand) for the damage to its building, machinery and inventories. The insurance recoveries on the aforementioned damages that are clearly identified and reasonably estimated amounted to NT\$4,641,000 thousand (US\$141,494 thousand), which reduces the total estimated loss, and of this amount, NT\$2,300,000 thousand (US\$70,122 thousand) has been received as of December 31, 2005. Any recovery for the remaining NT\$8,838,079 thousand (US\$269,454 thousand) is contingent on the result of the lengthy professional appraisal process, and as such this amount was recognized as a loss on fire damage for the year 2005.

As discussed in Note 3 to the consolidated financial statements, the Company adopted Republic of China Statement of Financial Accounting Standards No. 35 [Accounting for Asset Impairment] on December 31, 2004.

Accounting principles generally accepted in the Republic of China differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 30 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such U.S. dollar amounts are presented solely for the convenience of the readers.

**Advanced Semiconductor Engineering Inc.  
Material Business Department  
Spin-Off Plan (the "Spin-Off Plan")**

**PARTIES**

Advanced Semiconductor Engineering Inc. ("Party A")  
ASE Electronics Inc. ("Party B")  
(collectively referred to as "parties" or "both parties")

**WHEREAS**

1. Party A proposes to have its existing material business department divided and transferred to Party B in order to facilitate its business specialization, strengthen its core competences, and further develop business related to the material business department. It is anticipated that with independent operation after such spin-off, the overall performance and competitiveness of the material business department will be enhanced.
2. Party B is a wholly owned subsidiary of Party A. Party A proposes to transfer its relevant operations of its material business department (including assets, liabilities and business) ("Divided Business") to Party B by means of spin-off under the Business Merger and Acquisition Law of the Republic of China in accordance with the spin-off proposal ("Spin-Off Plan") as set out below ("Spin-Off"):

**Article 1: Companies Participating in the Spin-Off**

Divided Company: Advanced Semiconductor Engineering Inc.  
Company assuming the Divided Business: ASE Electronics Inc.

**Article 2: Amendments to Articles of Incorporation of Assuming Company**

Amendments of the articles of incorporation of Party B due to the Spin-off are as set out in Schedule 1.

**Article 3: Manner of Spin-off**

The proposed Spin-off adopts the method of dividing the existing business to an existing company. That is, Party A shall transfer relevant operations of its material business department to an existing company, Party B, in consideration for new shares issued by Party B to Party A.

**Article 4: Scope, Commercial Value, Assets & Liabilities of the Divided Business**

The scope, commercial value, assets and liabilities of the Divided Business under the proposed Spin-off are as follows:

1. Scope of business to be divided:
  - (1) Operations and relevant sales and purchase business of Party A's material business department.

(2)

Required machinery, equipment, relevant assets (including tangible and intangible assets) and liabilities of Party A's material business department.

- 48 -

---

- (3) Relevant contracts (including, but not limited to: sales agreements, technology licensing agreements, technical services agreements, lease agreements and other relevant agreements), litigation matters, legal relationships, legal status, licenses, permits and relevant rights and interests of Party A's material business department.
  - (4) All patents, technologies, software, know-how, trade secrets developed and owned by Party A prior to the spin-off record date, insofar as such involves the material business, shall be divided from Party A and be transferred to Party B. Party A and Party B shall cooperate in completing rights transfer procedures, technology transfer procedures, and rights protection procedures, and providing the relevant information, documents and programs in relation to the aforementioned jointly-held intellectual property rights, so that the other party may exercise the relevant rights. The costs of maintaining the aforementioned rights after the spin-off record date shall be borne by Party B. Spin-off of the intellectual property rights under this paragraph shall not affect the rights derived from licensing to others and confidentiality obligations existing prior to the spin-off.
  - (5) Other assets, liabilities, rights and obligations, interests, rental and taxation incentives entitled and unexpired or undeducted in relation to the divided business, licenses, permits, and relevant legal relationships, factual relationships and status in relation to Party A's material business department.
2. Commercial value of the Divided Business: After deducting the value of liabilities from the assets to be transferred from Party A to Party B, the Divided Business is expected to be valued at NT\$ 2,254,673,641.
  3. Divided assets: Assets expected to be divided and transferred are set out in Schedule 2, and are expected to be valued at a total of NT\$4,121,506,001.
  4. Divided liabilities: Liabilities expected to be divided and transferred, are set out in Schedule 2, and are expected to be valued at a total of NT\$1,866,832,360.
  5. The aforementioned scope of business, assets and liabilities to be divided and transferred are based on the book values of Party A as of March 31, 2006.
  6. Where it is necessary to adjust the aforementioned scope of the assets and liabilities to be divided and transferred, Party A and Party B's shareholders meetings may authorize their respective board of directors to negotiate the adjustment. The same shall apply where it is necessary to adjust the commercial value of the Divided Business or the number of new shares issued by Party B in consideration for the Divided Business.

**Article 5: Commercial Value of the Divided Business and the number of shares issued by Party B in consideration for the Divided Business, and the Method of Calculation**

1. Proportion of share swap: 1 ordinary share in Party B for every NT\$10 in commercial value of the Divided Business (the "Share Exchange Ratio"); therefore, Party A shall acquire a total of 225,467,364 common shares issued by Party B under this Spin-Off Plan.

2. Method of calculation: The aforementioned exchange of shares issued by Party B in consideration for the Divided Business is determined in accordance with the fairness opinion issued by independent experts; details are as set out in Schedule 3.

**Article 6: Adjustment to the Share Exchange Ratio of the number of new shares issued by Party B in consideration for the Divided Business**

In the event that any of the following is applicable to the Share Exchange Ratio proposed under this Spin-Off Plan, the shareholders meetings of Party A and Party B may authorize their respective boards of directors to jointly negotiate and agree upon an adjustment to the Share Exchange Ratio:

1. Party B undertakes a rights offering and issues new shares without consideration after execution of this Spin-Off Plan;
2. Party B disposes its major assets or engages in other acts that significantly affects its financial and business condition;
3. Party B undergoes a major reorganization or other events that significantly affects the rights and interests of the company's shareholders or its share price;
4. Party B repurchases its own shares as treasury stocks;
5. The commercial value of the Divided Business has changed after the execution of this Spin-Off Plan; and
6. It is necessary to adjust the aforementioned Share Exchange Ratio due to changes of the law or other instructions of the competent authorities.

**Article 7: Total Number, Type and Quantity of New Shares Issued by Party B**

1. Party B shall issue a total of 225,467,364 common shares to Party A in consideration for acquiring the Divided Business.
2. Party B shall complete the change of registration in respect of its registered capital and issue new shares to Party A after the spin-off record date in accordance with applicable laws and regulations.
3. After issuing new shares to Party A by Party B in accordance with this Spin-Off Plan, Party A shall directly hold 100% of the total issued and outstanding shares of Party B.

**Article 8: Total Number, Type and Quantity of Shares Acquired by the Divided Company, and Payment of Cash when there are fractional shares**

Party A shall acquire 225,467,364 common shares in Party B under this Spin-Off Plan. Where less than 1 share is acquired, Party B shall pay Party A in cash in full in respect of such part upon delivering the other shares.

**Article 9: Entire Assumption of Rights & Obligations, and Related Matters**

1. All rights and obligations in respect of the assets, liabilities and business divided and transferred from Party A to Party B under this Spin-Off Plan shall be deemed acquired by Party B as of the spin-off record date. Party A shall cooperate in completing any relevant transfer procedures.
2. Upon acquiring the Divided Business, Party B shall be jointly liable with Party A for repayment of Party A's liabilities to the extent of capital contributed in respect of the Acquired Business, except where the liabilities in respect of the Divided Business may be entirely separated from liabilities of Party A. However, the right of claim of a creditor in respect of such joint liability shall be extinguished if not exercised within two (2) years after the spin-off record date.

**Article 10: Change of Paid-In capital of Divided Company**

Paid-In capital of Party A shall be maintained and shall not be reduced upon completion of the instant spin-off, except where cancellation of shares and reduction of capital is required by law.

**Article 11: Outstanding Equity Securities of Divided Company & Repurchase of Treasury Stock**

With regards to the second ECB previously issued by Party A, the relevant laws and regulations concerning the issue and conversion of the convertible bonds shall continue to apply.

With regards to the treasury stocks repurchased by Party A, the Securities and Exchange Act, other relevant laws and regulations, resolutions of Party A's board of directors or shareholders meeting or rules associated with handling the treasury stocks of Party A shall continue to apply.

**Article 12: Purchase & Cancellation of Shares held by Dissenting Shareholders**

In the event that any of Party A or Party B's shareholders expresses dissents to this Spin-Off Plan according to law, each of Party B or Party B shall repurchase the shares held by such dissenting shareholders according to law. The shares so repurchased may be disposed of or cancelled subject to approval of the competent authorities, and registration shall be accordingly amended,

**Article 13: Notification to Creditors, Announcements, and Related Matters**

1. Once this Spin-Off Plan has been passed by resolutions of Party A and Party B's shareholders meetings, both Parties shall promptly prepare a balance sheet and a list of properties, and shall issue a notice to individual creditors and make a public announcement in respect of the Spin-Off Plan. Such notices or announcement shall stipulate a period of thirty (30) days or more for creditors to raise objections. Where a creditor raises an objection within the stipulated period, the relevant company shall repay

the relevant debt; provide adequate collateral; set up a trust expressly for the purpose of repaying such debt; prove that the spin-off under this Spin-Off Plan shall not detrimentally affect the rights of the creditors; or undertake other measures according to applicable laws and regulations.

2. Where the liability repaid by Party A in accordance with the preceding paragraph is one that was originally intended to be assigned to Party B under this Spin-Off Plan, then Party A and Party B's boards of directors shall be authorized to negotiate an amendment of the scope of business, commercial value, assets and liabilities stipulated in Article 4 above; the same applies where it is necessary to adjust the number of shares to be issued by Party B or the Share Exchange Ratio.

**Article 14: Transfer of Employees**

Employees affiliated with Party A's material business department shall continue to be employed by Party B, and Party B shall acknowledge the existing seniorities of such employees.

**Article 15: Exclusion of Employee's First Refusal Rights for New Shares Issued by Party B**

The new shares to be issued by Party B in consideration for the Divided Business shall not be subject to the provisions of the Company Act concerning employees' first refusal rights for ten percent (10%) to fifteen percent (15%) of total new shares to be issued by Party B.

**Article 16: Apportionment of Taxes and Costs**

1. Unless otherwise provided in this Spin-Off Plan, all taxes or costs arising from the execution or performance of this Spin-Off Plan shall be shared equally between Party A and Party B, except where relevant tax exemptions or exclusions apply. In the event that this Spin-Off Plan is invalidated, by virtue of failing to obtain the approval of the shareholders meetings of both parties or the competent authorities or for any other reason, then the parties shall equally share the attorneys and accountants fees and other related costs already incurred.
2. The parties shall cooperate in applying for any rental and taxation benefits and incentives applicable to the spin-off under this Spin-Off Plan.

**Article 17: Spin-off record date**

The spin-off record date shall be August 1, 2006 after this Spin-Off Plan is resolved by the shareholders' meeting of both parties. However, where there are concerns in respect of the business, change of objective environments, or amendments needed instructed by competent authorities, the board of directors of both parties should be authorized to negotiate and jointly decide another date as the spin-off record date.

**Article 18: Scheduled Progress, Expected Completion Date & Delay**

1. Both parties' shareholders' meetings are proposed to be convened on June 21, 2006 to approve this Spin-Off Plan, provided that the boards of directors of both parties may determine another date for the shareholders meeting in light of actual circumstances.
2. The boards of directors of both parties are authorized to determine the scheduled progress of this Spin-Off Plan, spin-off record date, consequences of delay, scheduled dates for convening meeting of board of directors or shareholders meetings according to law, and other relevant matters.

**Article 19: Changes in Participating Entities or Number of Participants**

Following the public disclosure of information relating to this spin-off, where Party A and Party B intends to undertake a further spin-off involving other companies, then all procedures and legal acts already completed under this original Spin-Off Plan shall be redone by all participating companies. The boards of directors shall be authorized to handle all outstanding matters under this article in accordance with relevant laws and regulations.

**Article 20: Consequences of Breach**

In the event of a breach of this Spin-Off Plan by either party, and such party fails to rectify the breach within the period stipulated by the other party or where the breach is serious, resulting in damage to the other party, the party in breach shall indemnify the other against all costs and damages arising from such breach (including but not limited to attorneys and accountant fees, expenses or other damages arising from the spin-off under this Spin-Off Plan). The parties further agree that where a party incurs any damage as a result of matters attributable to the other party in the course of performing this Spin-Off Plan (including but not limited to a claim by a third party), the party liable shall indemnify the other party against such damage.

**Article 21: Governing Law**

1. The Spin-Off Plan shall be implemented in accordance with the Business Merger and Acquisition Law of the Republic of China. In the event of promulgation and enforcement of new laws (including those promulgated after the spin-off record date) that are more beneficial to the parties, the parties may apply such more beneficial laws.
2. In the event of any dispute arising from this Spin-Off Plan, the Kaohsiung District Court of Taiwan shall be the court of jurisdiction for such disputes.

**Article 22: Miscellaneous**

1. Where any provision of this Spin-Off Plan is invalid by virtue of conflict with any relevant law, then such conflicting part shall be invalid, without affecting the validity of

other parts. The shareholders meetings of both parties shall authorize their respective boards of directors to interpret and determine those parts that are invalidated by virtue of conflict, in accordance with relevant provisions of the law.

- 53 -

---

2. Where it is necessary to amend any provision of this Spin-Off Plan in response to instructions of the competent authorities, amendment shall be undertaken directly in accordance with the contents of such instructions, or by the boards of directors of both parties in accordance with the instructions of the competent authorities.
3. The boards of directors of both parties are authorized to handle all matters not fully stipulated under this Spin-Off Plan.
4. This Spin-Off Plan must be signed by both parties and approved by their respective shareholders meetings before it may enter into effect. Where approval or consent of the competent authorities is not granted in respect of the proposed spin-off, then this Spin- Off Plan shall be deemed to be invalid.

**Article 23: Copies**

This Spin-Off Plan shall be executed with two (2) originals and two (2) copies. Each party shall hold one (1) original and one (1) copy as evidence of the agreement.

Fairness Opinion**

Advanced Semiconductor Engineering, Inc. (ASE) proposes to transfer its materials segment (including assets, liabilities, and operations, the "Materials Segment") to its wholly-owned subsidiary, ASE Electronics Inc. (ASEE) in response to the increasing business competition in the semiconductor industry. ASEE will issue new shares in exchange for these assets and liabilities from ASE and continue to operate the Materials Segment.

**I. Calculation of the ratio of exchange**

- I. The business value (represented by assets less liabilities) for which ASE proposes to transfer is based on the corresponding book value of such assets and liabilities as stated in the financial statements as of March 31, 2006, which were reviewed by independent auditors.
- II. The book value of total assets and liabilities ASE proposes to transfer is NT\$4,121,506,001 and NT\$1,866,832,360, respectively. The operating value, defined as total assets less liabilities, is calculated to be NT\$2,254,673,641. The book value of total assets and liabilities for the proposed transfer as of March 31, 2006 is shown below:

- III. ASE proposes to issue 225,467,364 common shares at NT\$10 per share in exchange for the transferred assets and liabilities and related operations.

**II. Reasonableness of the exchange ratio between transferred assets and shares received**

ASE Inc. transfers its assets and liabilities and related operations in the Materials Segment to its wholly-owned subsidiary, ASE Electronics Inc. , and ASE Electronics Inc. issues 225,467,364 common shares in return for the transferred assets and liabilities. The exchange ratio for the transaction is determined based on the value of the transferred assets and liabilities, and the issuance price of the common shares of ASE Electronics Inc., which are determined as follows:

- I. This exchange transaction is for the restructure of the Company's business instead of a disposal of business segment. According to Interpretation No. 128 of the Accounting Research and Development Foundation on accounting for exchange or disposal transactions (ARDF No. 128), which was issued on June 6, 2002, for companies under common control, if the transferor transfers its operations to the transferee and receives shares in return, it is accounted for as a business restructure. The cost for such shares received shall be the book value of total net assets, calculated as the book value of total assets transferred (after any impairment charges) less total liabilities transferred, and no gain shall be recognized on the exchange. The transferee shall record the assets and liabilities received at the transferor's book value, the net of which shall be recorded as common shares and additional paid in capital. Therefore ASE Inc.'s proposed value for the transferred assets and liabilities at book value is in accordance with the ARDF No. 128.
- II. ASEE issued 225,467,364 new shares at NT\$10 per share, representing NT\$2,254,673,641, which is equivalent to the carved-out portion of the net asset value of NT\$2,254,673,641 from ASE. As ASEE is a 100% owned subsidiary of ASE, and that the operating value equals the net assets value, the ratio of shares exchanged in this transaction is in accordance with the ARDF No. 128.
- III. In summary, the calculation of the ratio of exchange in the Company's transfer of Materials Segment is based on the book value of the related assets and liabilities of the Company's reviewed financial statements as of March 31, 2006. In our opinion, based on the guidance provided by the Interpretation of the Accounting Research and Development Foundation and our review of relevant financial information, the ratio of exchange at which ASEE issued 225,467,364 shares of common stock at NT\$10 per share to ASE Inc. is in accordance with the ARDF No. 128.

Rules of Procedure for the Shareholders' Meeting  
(before revision)**

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules specified herein.
2. Present Shareholders (or their proxies) shall wear attendance badges, and shall submit sign-in cards in lieu of signing in. The number of voting right shall be calculated according to the sign-in cards submitted.
3. There is one vote for each share. When a Shareholder is unable to attend the Shareholders' Meeting for whatever the reason, the Shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the Shareholders' Meeting. With the exception of trust enterprises or stock affair agencies approved by securities authorities concerned, the votes that may be cast by one proxy representing two or more Shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
4. The venue for the Shareholders' Meeting shall be where the Company is located or a place convenient for Shareholders to attend and suited for convening the Shareholders' Meeting. The beginning time for the Meeting may not be earlier than 9 a.m. or later than 3 p.m.
5. Unless otherwise provided by The Company Law, the Shareholders' Meeting shall be convened by the Board of Directors and presided by the Chairperson. If the Chairperson is on leave or unable to exercise powers for whatever the reason, Article 208 Paragraph 3 of The Company Law shall govern. If the Shareholders' Meeting is convened by someone entitled to convene such a meeting who is not a member of the Board of Directors, the Meeting shall be presided by the convening person; where there are two or more persons entitled to convene the Shareholders' Meeting, they shall nominate among them one person to preside the meeting.
6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to observe the Shareholders' Meeting. The staff handling administrative affairs of the Shareholders' Meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the Shareholders' Meeting on audio tape or video tape, and shall keep the tapes on file for at least one year.

8. When the time comes for the Shareholders' Meeting to begin, the chairperson shall immediately call the meeting in session. However, if the Shareholders present represent less than half of the total issued shares, the chairperson may postpone the commencement of the meeting. The Meeting may be postponed up to twice, and the total duration of postponement may not exceed one hour. If after two postponements the number of Shareholders present is still insufficient while the Shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of The Company Law. If prior to the end of the Meeting the Shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the Meeting for a vote in accordance with Article 174 of The Company Law.
9. Where the Shareholders' Meeting is convened by the Board of Directors, the meeting agenda shall be set by the Board of Directors. The Meeting shall proceed in accordance with the agenda, which may not be altered unless by the resolution of the Shareholders' Meeting.

If the Shareholders' Meeting is convened by someone entitled to convene such a meeting who is not a member of the Board of Directors, the rules of the preceding Paragraph shall apply *mutatis mutandis*.

Unless by the resolution of the Shareholders' Meeting, the chairperson may not declare the Meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two Paragraphs have been completed.

After the meeting is declared ended, the Shareholders may not elect a chairperson to resume the Meeting at the original location or other premises, unless such declaration has violated the Rules of Procedure, where one person may be elected the chairperson with the consent of one half of the votes represented by Shareholders present to resume the Meeting.

10. When the Shareholders' Meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.
11. Before a Shareholder present at the meeting speaks, he/she shall first fill out a statement slip noting the main points of the statement, the Shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The Shareholder present at the meeting that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking Shareholder, the other Shareholders may not speak to interrupt when a Shareholder is speaking; otherwise the chairperson shall stop the interruption.
12. Unless permitted by the chairperson, no Shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.

If a Shareholder violates rules under the preceding Paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.

13. When an institutional person attends the Shareholders' Meeting as a proxy, the institutional person may assign only one representative to attend the Meeting. When an institutional Shareholder assigns two or more representatives to attend the Shareholders' Meeting, only one of them may speak for any single proposal.
14. After a Shareholder present at the meeting speaks, the chairperson may reply in person or assign concerned personnel to reply.
15. With respect to the discussion of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussion shall cease and the proposal be submitted for a vote.
16. The chairperson shall appoint monitors and ballot keepers for voting on proposals. For qualifications, monitors must be Shareholders. The results of each vote shall be announced on the spot and made into the minutes.
17. Unless otherwise provided by The Company Law or the Company's Articles of Incorporation, a proposal shall be approved given consent by more than half of the votes of shares represented by Shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as in voting by ballot.
18. Where there is an amendment or a substitution for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.
19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector."
20. All matters not provided by the Rules shall be handled in accordance with The Company Law, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. The Rules shall come into force given the approval of the Shareholders' Meeting, and so shall the amendment.

**Advanced Semiconductor Engineering, Inc.  
Rules of Election for Directors and Supervisors**

Article 1 Unless otherwise provided by The Company Law and the Company's Articles of Incorporation, election of the Company's Directors and Supervisors shall all be handled in accordance with the Rules specified herein.

Article 2 In the election of the Company's Directors and Supervisors, each share shall have the voting right equivalent to the number of Directors or Supervisors to be elected. The Board of Directors shall produce and prepare ballots for distribution to Shareholders with the number equivalent to that of Directors or Supervisors to be elected.

The ballots stated in the preceding Paragraph may be all cast for one person or separately cast for several persons. The Shareholders whose received ballots represent more voting right are elected as Directors or Supervisors. In recording names of the voters, the attendance identification numbers printed on the ballots may be used instead. The ballots shall be produced and distributed by the Board of Directors according to the attendance identification numbers, and shall additionally bear the numbers of voting shares.

Article 3 In the election of the Company's Directors and Supervisors for vacancies prescribed in the Articles of Incorporation, the candidates winning more voting right from the votes received are elected. If two or more candidates receive the same number of voting right so as to have more winners than required, it shall be resolved by drawing lots, where the chairperson will draw lots on behalf of the absent winners. When a candidate is simultaneously elected as a Director and a Supervisor, he/she shall decide to serve either as a Director or as a Supervisor, and the vacancy will be filled by the candidate receiving the next most votes.

Article 4 When the election begins, the chairperson appoints several monitors and ballot keepers to perform various pertinent duties.

Article 5 If a voter is a Shareholder, he/she shall fill in the column of "Candidate" on the ballot with the candidate's account name and the Shareholder's account number; if the voter is not a Shareholder, he/she shall fill in the column with the candidate's name and the uniform ID number. However, if a Governmental or Institutional Shareholder is a candidate, the voter shall fill in the column of "Candidate's Account Name" on the ballot with the name of the Government or Institution, and may also fill in the column with the name of the Government or Institution and the name of its representative; where there are several representatives, their names shall be separately filled out.

- Article 6 A ballot shall be invalid under any of the following circumstances:
1. The ballot is not the one provided by the Rules.
  2. The ballot is not placed into the ballot box or is left blank.
  3. The handwriting is blurred and cannot be identified.
  4. If the candidate stated is a Shareholder and its account name and Shareholder's account number are inconsistent with those recorded on the Register of Shareholders; if the candidate stated is not a Shareholder and its name and uniform ID number are inconsistent after verification.
  5. Any wordings other than the candidate's account name (name), Shareholder's account number (uniform ID number) and number of allocated voting right are written on the ballot.
  6. The candidate's account name (name) or Shareholder's account number (uniform ID number) is not written.
  7. There are names of two or more candidates written on the same ballot.
- Article 7 Once all the ballots have been placed into the ballot box, the monitors will open the ballot box.
- Article 8 If there is any doubt regarding a ballot, the monitor will examine the ballot to determine whether it shall be declared invalid. The ballots declared invalid shall be separately placed, and will be identified for their numbers of votes and voting right, and then handed over to the monitors to be marked invalid and signed/sealed after the vote counting is completed.
- Article 9 When counting and announcing the ballots, the monitor will oversee the ballot keeper by the side, and the results will be announced by the chairperson on the spot.
- Article 10 The Company will separately issue certificates of election to the elected Directors and Supervisors.
- Article 11 The Rules shall come into force after having been adopted by the Shareholders' Meeting, and so shall the amendment of the Rules.
