Preliminary Prospectus dated February 16, 2012

AVENUE INCOME CREDIT STRATEGIES FUND

2,450,466 Common Shares
Issuable Upon Exercise of Transferable Rights to Subscribe for Common Shares

Avenue Income Credit Strategies Fund (the "Fund") is issuing transferable rights ("Rights") to its shareholders of record as of the close of business on February 24, 2012 (the "Record Date") entitling the holders of these Rights to subscribe (the "Offer") for an aggregate of 2,450,466 common shares of beneficial interest, par value \$0.001 per common share (the "Common Shares"). The holders of Common Shares (the "Common Shareholders") of record will receive one Right for each outstanding Common Share owned on the Record Date. The Rights entitle the holders to purchase one new Common Share for every three Rights held, and Common Shareholders of record who fully exercise their Rights will be entitled to subscribe, subject to certain limitations and subject to allotment, for additional Common Shares covered by any unexercised Rights. Any Record Date Common Shareholder issued fewer than three Rights is entitled to subscribe for one full Common Share in the Offer. The Fund's outstanding Common Shares are listed on the New York Stock Exchange ("NYSE") under the symbol "ACP." The Rights are transferable and will be listed for trading on the NYSE under the symbol "ACP RT" during the course of the Offer. See "The Offer" for a complete discussion of the terms of the Offer. The subscription price per Common Share (the "Subscription Price") will be determined based upon a formula equal to 90% of the average of the last reported sales price of a Common Share on the NYSE on the date on which the Offer expires, as such date may be extended from time to time (the "Expiration Date") and each of the four (4) preceding trading days (the "Formula Price"). If, however, the Formula Price is less than 80% of the net asset value per Common Share ("NAV") of the Fund's Common Shares at the close of trading on the NYSE on the Expiration Date, then the Subscription Price will be 80% of the Fund's NAV at the close of trading on the NYSE on that day. The Fund will pay a sales load on the Subscription Price.

The Offer will expire at 5:00 p.m., New York City time, on March 23, 2012 unless extended as described herein.

The Fund announced the terms of this Offer after the close of trading on the NYSE on February 13, 2012.

The NAV of the Fund's Common Shares at the close of business on [_____], 2012 (the date of this prospectus) was \$[_____] and the last reported sale price of a Common Share on the NYSE on that date was \$[_____].

Investment Objectives and Principal Investment Strategy; Leverage. The Fund is a non-diversified, closed-end management investment company whose primary investment objective is to seek a high level of current income with a secondary objective of capital appreciation.

Depending on current market conditions and the Fund's outlook over time, the Fund seeks to achieve its investment objectives by opportunistically investing primarily in loan and debt instruments (and loan-related or debt-related instruments, including repurchase and reverse repurchase agreements and derivative instruments) of issuers that operate in a variety of industries and geographic regions. The Fund expects to emphasize high current income, with a

secondary emphasis on capital appreciation, by investing generally in senior secured floating rate and fixed rate loans (“Senior Loans”) and in second lien or other subordinated loans or debt instruments, including non-stressed and stressed credit obligations, and related derivatives. The Fund is permitted to obtain leverage using any

form or combination of financial leverage instruments, including reverse repurchase agreements, credit facilities such as bank loans or commercial paper, and the issuance of preferred shares or notes. Following the completion of the Offer, and subject to prevailing market conditions, the Fund intends to have financial leverage representing up to approximately 331/3% of the Fund's total assets (including the assets subject to, and obtained with the proceeds of, such leverage). See “Investment Objectives and Principal Investment Strategy” and “Leverage” below and “Investment Restrictions” in the Statement of Additional Information.

Investing in Rights and/or in the Common Shares involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or all of your investment. Before buying any Common Shares, you should read the discussion of the principal risks of investing in the Fund, including that the Fund may invest all or a substantial portion of its assets in below investment grade securities which are often referred to as high yield or “junk” securities. The principal risks of investing in the Fund are summarized in “Prospectus Summary—Risk Factors” beginning on page 17 of this prospectus and further described in “Risk Factors” beginning on page 71 of this prospectus.

Upon completion of the Offer, Common Shareholders who do not fully exercise their Rights will own a smaller proportional interest in the Fund than they owned prior to the Offer. The completion of the Offer will result in immediate voting dilution for such Common Shareholders. In addition, if the Subscription Price is less than the NAV as of the Expiration Date, the completion of the Offer will result in an immediate dilution of NAV for all Common Shareholders (i.e., will cause the NAV of the Fund to decrease) and may have the effect of reducing the market price of the Fund’s Common Shares. It is anticipated that the existing Common Shareholders will experience immediate dilution even if they fully exercise their Rights. Such dilution is not currently determinable because it is not known how many Common Shares will be subscribed for, what the NAV or market price of our Common Shares will be on the Expiration Date or what the subscription price per Common Share will be. However, assuming full exercise of the Rights being offered at the Subscription Price and assuming that the Expiration Date were February 2, 2012, it is estimated that the per share dilution resulting from the Offer, as of February 2, 2012, would be \$0.64. Any such dilution will disproportionately affect nonexercising Common Shareholders. If the Subscription Price is substantially less than the current NAV, this dilution could be substantial. See “The Offer—Dilution and Effect of Non-Participation in the Offer.” Any future rights offerings in which the Subscription Price is less than the NAV will result in an immediate dilution of NAV for all Common Shareholders. Except as described herein, Rights holders will have no right to rescind their subscriptions after receipt of their payment for Common Shares by the subscription agent for the Offer.

	Per Common Share	Total(5)
Estimated subscription price(1)	\$15.89	\$38,937,905
Sales load(2)	\$ 0.60	\$ 1,460,171
Proceeds, before expenses, to the Fund(3)(4)	\$15.29	\$37,477,734

Neither the Securities and Exchange Commission (the “SEC”) nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

UBS Investment Bank

(1) Estimated on the basis of 90% of the average of the last reported sales price per Common Share at the close of trading on the NYSE on February 2, 2012 and each of the four (4) preceding trading days. See “The

Offer—Subscription Price.”

- (2) In connection with the Offer, UBS Securities LLC, the dealer manager for the Offer (the “Dealer Manager”), will receive a fee from the Fund for its financial structuring and solicitation services equal to 3.75% of the Subscription Price for each Common Share issued pursuant to the Offer, which is estimated to be \$1,460,171 in total and \$0.60 per Common Share (assuming the Rights are fully exercised and that the Expiration Date were February 2, 2012). The Dealer Manager will reallocate a part of its fees to other broker-dealers that have assisted

in soliciting the exercise of Rights. The Fund has also agreed to pay the Dealer Manager up to \$100,000 (up to \$0.04 per Common Share (assuming the Rights are fully exercised)) as reimbursement for its expenses incurred in connection with the Offer. The Fund and its investment advisers have also agreed to indemnify the Dealer Manager against certain liabilities under the Securities Act.

- (3) Before deduction of expenses associated with the Offer incurred by the Fund, estimated at \$400,000, including an aggregate of up to \$100,000 to be paid to the Dealer Manager as reimbursement for its expenses. After deduction of such expenses, the per share and total dollar amount of proceeds to the Fund are estimated at \$15.13 and \$37,077,733, respectively. Both the sales load and the expenses associated with the Offer paid by the Fund will immediately reduce the NAV of each Common Shareholder's Common Shares.
- (4) Funds received by check or money order prior to the final due date of the Offer will be deposited into a segregated account pending proration and distribution of Common Shares. The Subscription Agent may receive investment earnings on the funds deposited into such account.
- (5) Assumes all Rights are exercised at the estimated Subscription Price. All of the Rights offered may not be exercised.

This prospectus sets forth concisely information about the Fund you should know before investing. Please read this prospectus carefully before deciding whether to invest and retain it for future reference. A Statement of Additional Information dated [], 2012 (the “SAI”) has been filed with the SEC. A table of contents to the SAI is located on page 107 of this prospectus. Prospectus Summary

The following summary is qualified in its entirety by reference to the more detailed information appearing elsewhere in this prospectus. This prospectus summary may not contain all of the information that is important to each Common Shareholder. Accordingly, to understand the Offer fully, Common Shareholders are encouraged to read the entire prospectus carefully. Unless otherwise indicated, the information in this prospectus assumes that the Rights issued are all exercised. As used in this prospectus, the terms “the Fund,” “our,” and “us” refer to the Avenue Income Credit Strategies Fund, a non-diversified, closed-end management investment company organized as a statutory trust under the laws of the State of Delaware and the issuer of the Rights, unless the context suggests otherwise.

The Offer at a Glance

Purpose of the Offer

The board of trustees of the Fund (the “Board”), based on the recommendations and presentations of Avenue Capital Management II, L.P., the Fund’s investment adviser (the “Adviser”), and Avenue Europe International Management, L.P., the Fund’s subadviser (the “Subadviser,” and together with the Adviser, the “Avenue Managers”) and others, has determined that it is in the best interests of the Fund and its Common Shareholders to increase the assets of the Fund available for investment and thereby to conduct the Offer. In making this determination, the Board considered a number of factors, including potential benefits and costs. In particular, the Board considered the Avenue Managers’ belief that the Offer would better enable the Fund to take advantage more fully of existing and future investment opportunities that may be or may become available, consistent with the Fund’s primary investment objective to seek a high level of current income with a secondary objective of capital appreciation.

In this regard, the Avenue Managers believe that a variety of factors indicate that there may be a robust opportunity to invest in U.S. and European high yield and leveraged loan instruments. Due to a combination of macroeconomic developments in the United States and Europe and the Avenue Managers’ credit analysis of companies in those underlying geographies, the Avenue Managers believe that now may be an opportune time for the Fund to raise additional assets and to seek attractive investment opportunities which may enhance the Fund’s prospective risk-adjusted returns. In addition, the Avenue Managers expect that a number of upcoming U.S. high yield bond and institutional maturities in a less than favorable capital markets environment may create investment opportunities for the Fund. Further, the Avenue Managers expect that the European sovereign debt crisis and potential European bank deleveraging may force these institutions to sell assets and enable the Fund to take advantage of such opportunities. Using the proceeds of the Offer, the Fund will seek to capitalize on these developments and enhance its returns by making investments in companies the Avenue Managers believe offer attractive opportunities for yield enhancement and/or net asset value appreciation potential. In making such investments, the Fund will seek to capitalize on market inefficiencies and to reallocate the portfolio of the Fund to opportunistically emphasize those investments, geographies and categories of investments believed to be best suited to the current investment and interest rate environment and market outlook.

The Offer seeks to provide an opportunity to existing Common Shareholders to purchase Common Shares at a discount to market price. The distribution to Common Shareholders of transferable Rights, which may themselves have intrinsic value, also will afford non-participating Common Shareholders of record on the Record Date, the potential of receiving cash payment upon the sale of the Rights, receipt of which may be viewed as partial

compensation for any dilution of their interests that may occur as a result of the Offer.

The Avenue Managers expect that the Offer will provide an opportunity to increase the assets of the Fund available for investment, thereby better enabling the Fund to take advantage more fully of existing and future investment opportunities that may be or may become available, consistent with the Fund's primary investment objective to seek a high level of current income with a secondary objective of capital appreciation. The Avenue

Table of Contents

Managers and its affiliates have an inherent conflict of interest in recommending the Offer because the Fund pays fees to the Avenue Managers based on a percentage of the Fund's Managed Assets (the greater the Managed Assets of the Fund, the greater the compensation paid to the Avenue Managers and their affiliates). "Managed Assets" are the total assets of the Fund (including any assets attributable to money borrowed for investment purposes, including proceeds from (and assets subject to) reverse repurchase agreements, any credit facility and any issuance of preferred shares or notes) minus the sum of the Fund's accrued liabilities (other than Fund liabilities incurred for the purpose of leverage).

There can be no assurance that the Offer (or the investment of the proceeds of the Offer) will be successful, that by increasing the size of the Fund the Fund's expense ratio will be lowered, or that the trading volume of the Fund's Common Shares on the New York Stock Exchange ("NYSE") will increase. See "The Offer—Purpose of the Offer."

Upon completion of the Offer, Common Shareholders who do not fully exercise their Rights will own a smaller proportional interest in the Fund than they owned prior to the Offer. The completion of the Offer will result in immediate voting dilution for such Common Shareholders. Further, both the sales load and the expenses associated with the Offer paid by the Fund will immediately reduce the net asset value of each Common Shareholder's Common Shares. In addition, if the Subscription Price is less than the NAV as of the Expiration Date, the completion of the Offer will result in an immediate dilution of NAV for all Common Shareholders (i.e., will cause the NAV of the Fund to decrease) and may have the effect of reducing the market price of the Fund's Common Shares. It is anticipated that the existing Common Shareholders will experience immediate dilution even if they fully exercise their Rights. Such dilution is not currently determinable because it is not known how many Common Shares will be subscribed for, what the NAV or market price of our Common Shares will be on the Expiration Date or what the subscription price per Common Share will be. However, assuming full exercise of the Rights being offered at the Subscription Price and assuming that the Expiration Date were February 2, 2012, it is estimated that the per share dilution resulting from the Offer, as of February 2, 2012, would be \$0.64. Any such dilution will disproportionately affect nonexercising Common Shareholders. If the Subscription Price is substantially less than the Fund's current NAV, this dilution could be substantial. See "The Offer—Dilution and Effect of Non-Participation in the Offer." Any future rights offerings in which the Subscription Price is less than the NAV will result in an immediate dilution of NAV for all Common Shareholders.

Example of Dilution to NAV Resulting from the Offer

(a) Net asset value per Common Share (as of 2/2/12)	\$17.68
(b) Total net assets (as of 2/2/12)	\$129,946,893
(c) Estimated reduction in current net asset value per Common Share resulting from the Offer ("per share dilution")(1)(2)	\$0.64
(d) Estimated percentage reduction in current net asset value per Common Share resulting from the Offer(1)(3)	3.6%

(1) Assumes full exercise of the Rights being offered, that the Expiration Date were February 2, 2012, that all of the Common Shares are sold at the estimated Subscription Price of \$15.89 and deducts all expenses related to the issuance of the Common Shares in the Offer. The Fund, not investors, pays the sales load, which is ultimately thus borne by all Common Shareholders.

(2) Item (c) was calculated by subtracting (A) the Fund's estimated net asset value per Common Share immediately following the completion of the Offer from (B) the Fund's net asset value per Common Share (as of 2/2/12). The Fund's estimated net asset value per Common Share immediately following the completion of the Offer was

estimated (using the assumptions described in note (1) above) by dividing (X) the estimated net asset value of the Fund immediately following the Offer by (Y) the estimated total number of Common Shares outstanding immediately following the completion of the Offer.

Table of Contents

(3) Item (d) was calculated by dividing Item (c) by Item (a).

There can be no assurance that the dilution will be limited to the amounts shown in the table above. The final amounts of such dilution may be greater than those estimated due to many factors, including the Fund's market price and NAV at the time of completion of the Offer and the level of participation in the Offer.

The number of Common Shares outstanding as of February 2, 2012 was 7,351,400. The number of Common Shares adjusted to give effect to the Offer, assuming that all Rights are exercised and the applicable Common Shares issued, would be 9,801,866. The percentage increase in Common Shares outstanding that will occur if all the Rights are exercised is 331/3%.

All of the costs of the Offer will be borne by the Fund's Common Shareholders.

Important Terms of the Offer

The Fund is issuing to Common Shareholders of record at the close of business on February 24, 2012 (the "Record Date") one transferable Right for each whole Common Share held. Each Common Shareholder on the Record Date that continues to hold Rights and each other holder of the Rights is entitled to subscribe for one Common Share for every three Rights held (1 for 3). The Fund will not issue fractional shares of its Common Shares upon the exercise of Rights; accordingly, Rights may be exercised only in multiples of three, except that any Record Date Common Shareholder who is issued fewer than three Rights will be able to subscribe for one Common Share. Record Date Common Shareholders who hold two or more accounts may not combine their fractional interests across accounts. Rights are evidenced by subscription certificates that will be mailed to Record Date Common Shareholders, except as described under "The Offer—Foreign Common Shareholders." We refer to a Rights holder's right to acquire during the subscription period at the Subscription Price one additional Common Share for every three Rights held (or in the case of any Record Date Common Shareholder who is issued fewer than three Rights, the right to acquire one Common Share), as the "Primary Subscription."

Rights holders may exercise Rights at any time during the subscription period, which commences on February 24, 2012 and expires at 5:00 p.m., New York City time, on March 23, 2012 unless otherwise extended by the Fund. See "The Offer—Expiration of the Offer." The Rights are transferable and will be listed for trading on the NYSE under the symbol "ACP RT" during the course of the Offer. See "The Offer—Transferability and Sale of Rights."

Record Date Common Shareholders who fully exercise the Rights they obtained in the Primary Subscription (other than those Rights that cannot be exercised because they represent the right to acquire less than one Common Share) will be entitled to an over-subscription privilege under which they may subscribe for additional Common Shares at the Subscription Price. Any Common Shares made available pursuant to the over-subscription privilege are subject to allotment. See "The Offer—Over-Subscription Privilege."

In this prospectus, we use the terms "Common Shareholders" to refer to any person that holds Common Shares, "Record Date Common Shareholders" to refer to those Common Shareholders that held their Common Shares on the Record Date and "Existing Rights Holders" to refer to those persons (i) that are Record Date Common Shareholders to whom the Rights were issued initially to the extent that a Record Date Common Shareholder continues to hold Rights and (ii) any subsequent transferees of the Rights that continue to hold the Rights.

Subscription Price

The subscription price per Common Share (the “Subscription Price”) will be determined based upon a formula equal to 90% of the average of the last reported sales price of a Common Share on the NYSE on the date on which the Offer expires, as such date may be extended from time to time (the “Expiration Date”) and each of the four (4) preceding trading days (the “Formula Price”). If, however, the Formula Price is less than 80% of the net asset value per Common Share (“NAV”) of the Fund’s Common Shares at the close of trading on the NYSE on the Expiration Date, then the Subscription Price will be 80% of the Fund’s NAV at the close of trading on the NYSE on that day. Since the Subscription Price will be determined on the Expiration Date, Rights holders who decide to acquire

Table of Contents

Common Shares in the Primary Subscription or pursuant to the over-subscription privilege will not know when they make such decisions the purchase price of those Common Shares. See “The Offer—Subscription Price.” The Fund will pay a sales load on the Subscription Price.

Over-Subscription Privilege

Record Date Common Shareholders who fully exercise all Rights issued to them (other than those Rights to acquire less than one Common Share, which cannot be exercised) are entitled to subscribe for additional Common Shares which were not subscribed for by other Record Date Common Shareholders, subject to certain limitations and subject to allotment. This is known as the “over-subscription privilege” (the “Over-Subscription Privilege”). Investors who are not Record Date Common Shareholders, but who otherwise acquire Rights to purchase our Common Shares pursuant to the Offer, are not entitled to subscribe for any of our Common Shares pursuant to the Over-Subscription Privilege. If sufficient Common Shares are available, all Record Date Common Shareholders’ over-subscription requests will be honored in full. If these requests for Common Shares exceed the Common Shares available, the available Common Shares will be allocated pro rata among Record Date Common Shareholders who over-subscribe based on the number of Rights originally issued to them by the Fund. See “The Offer—Over-Subscription Privilege.”

Transferability and Sale of Rights

The Rights are transferable until the close of business on the last business day prior to the Expiration Date of the Offer. The Rights will be listed for trading on the NYSE under the symbol “ACP RT” during the course of the Offer. Trading in the Rights on the NYSE is expected to be conducted on a when-issued basis beginning on February 21, 2012 through February 28, 2012; thereafter, the Rights will trade the regular way through March 22, 2012 (one (1) business day prior to the Expiration Date (including any extensions)). We will seek to ensure that an adequate trading market for the Rights will exist, by requesting that the Rights trade on the NYSE and by retaining the dealer manager for the Offer (the “Dealer Manager”), subscription agent for the Offer (the “Subscription Agent”) and the information agent for the Offer (the “Information Agent”), but we cannot assure you that a market for the Rights will develop. Assuming a market does exist for the Rights, you may purchase and sell the Rights through the usual brokerage channels or sell the Rights through the Subscription Agent.

Record Date Common Shareholders who do not wish to exercise any or all of their Rights may instruct the Subscription Agent to try to sell any Rights they do not intend to exercise themselves. Subscription certificates evidencing the Rights to be sold by the Subscription Agent must be received by the Subscription Agent on or before 5:00 p.m., New York City time, on March 21, 2012 (or, if the subscription period is extended, on or before 5:00 p.m., New York City time, two (2) business days prior to the extended Expiration Date). The Rights evidenced by a subscription certificate may be transferred in whole by endorsing the subscription certificate for transfer in accordance with the accompanying instructions. A portion of the Rights evidenced by a single subscription certificate (but not fractional Rights) may be transferred by delivering to the Subscription Agent a subscription certificate, properly endorsed for transfer, with instructions to register such portion of the Rights evidenced thereby in the name of the transferee and to issue a new subscription certificate to the transferee evidencing the transferred Rights. See “The Offer—Transferability and Sale of Rights.”

Use of Proceeds

The net proceeds of the Offer, assuming all Common Shares offered hereby are sold, are estimated to be approximately \$37,077,733, after deducting expenses associated with the Offer, including the sales load. The Avenue Managers anticipate that investment of the net proceeds of the Offer in accordance with the Fund’s investment objective and policies will take approximately thirty (30) to sixty (60) days after completion of the Offer. The Fund

intends to use the proceeds of the Offer to make investments consistent with its investment objectives. However, the investment of the net proceeds may take up to three months from completion of the Offer, depending on market conditions and the availability of appropriate securities. Pending such investment, it is anticipated that

Table of Contents

the net proceeds will be invested in fixed income securities and other permitted investments. See “Use of Proceeds.”
