VisualMED Clinical Solutions Corp.
(A Development Stage Company)
Notes to the Consolidated Financial Statements
(expressed in U.S. dollars)
(Unaudited)

1. Nature of Operation and Continuance of Business

The Company was incorporated in the State of Nevada on September 7, 1999. The Company changed its name to VisualMed Clinical Solutions Corporation on November 30, 2004. The Company's majority shareholder is Visual Healthcare Corporation which is a Nevada Corporation, based in Montreal, Canada.

The Company's business plan involves the distribution of medical software. The Company is primarily involved in activities related to the distribution of medical software and is considered to be a development stage company. At September 30, 2006, the Company had a working capital deficiency of \$589,299 and has incurred losses of \$15,258,842 since inception. The ability of the Company to emerge from the development stage with respect to any planned principal business activity is dependent upon its successful efforts to raise additional equity financing and then attain profitable operations. Management has plans to seek additional capital through equity and/or debt offerings. There is no guarantee that the Company will be able to complete any of the above objectives. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that may be necessary should the Company be unable to continue as a going concern. These factors raise substantial doubt regarding the Company's ability to continue as a going concern.

2. Summary of Significant Accounting Principles

a) Basis of Presentation and Fiscal Year

These consolidated financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in US dollars. The Company has not produced significant revenues from its principal business and is a development stage company as defined by Statement of Financial Accounting Standard (SFAS) No. 7 *Accounting and Reporting by Development Stage Enterprises*. These financial statements include the accounts of the Company and its wholly-owned subsidiary, VisualMed Clinical Systems Marketing Inc., a company incorporated and based in Quebec, Canada. All intercompany transactions and balances have been eliminated. The Company's fiscal year-end is June 30.

b) Interim Financial Statements

These interim unaudited financial statements have been prepared on the same basis as the annual financial statements and in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period. The financial statements and related notes should be read in conjunction with the audited financial statements and notes thereto included in Form 10-KSB for the year ended June 30, 2006.

c) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

VisualMED Clinical Solutions Corp.
(A Development Stage Company)
Notes to the Consolidated Financial Statements
(expressed in U.S. dollars)
(Unaudited)

2. Summary of Significant Accounting Principles (continued)

d) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

e) Property and Equipment

Property and equipment is stated at cost, less accumulated amortization, and consists of office furniture, computer hardware and software, leasehold improvements and assets under capital lease. Amortization of office furniture is computed using the straight-line method over five years. Amortization of computer hardware and software is computed using the straight-line method over three years. Amortization of leasehold improvements is computed using the straight-line method over five years. Amortization of assets under capital lease is computed using the straight-line method over the term of the lease.

f) Long-Lived Assets

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the carrying value of intangible assets and other long-lived assets is reviewed on a regular basis for the existence of facts or circumstances that may suggest impairment. The Company recognizes impairment when the sum of the expected undiscounted future cash flows is less than the carrying amount of the asset. Impairment losses, if any, are measured as the excess of the carrying amount of the asset over its estimated fair value.

g) Foreign Currency Transactions

The Company's functional and reporting currency is the United States dollar. The functional currency of the Company's subsidiary is the Canadian dollar. The financial statements of the subsidiary are translated to United States dollars in accordance with SFAS No. 52 *Foreign Currency Translation* using period-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity. Foreign currency transaction gains and losses are included in current operations.

h) Development Costs

Costs related to the enhancement of existing medical software modules are expensed as incurred until technological feasibility in the form of a working model has been established. The time period between the establishment of technological feasibility and completion of product development is expected to be short, therefore the Company has not capitalized any product development costs during the period.

i) Basic and Diluted Net Income (Loss) Per Share

The Company computes net income (loss) per share in accordance with SFAS No. 128, *Earnings per Share* which requires presentation of both basic and diluted earnings per share (EPS) on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS and the weighted average number of common shares excludes all dilutive potential shares since their effect is anti dilutive. Shares underlying these securities totalled approximately 1,137,000 as of September 30, 2006.

VisualMED Clinical Solutions Corp.
(A Development Stage Company)
Notes to the Consolidated Financial Statements
(expressed in U.S. dollars)
(Unaudited)

2. Summary of Significant Accounting Principles (continued)

j) Financial Instruments

The carrying value of cash, accounts receivable, advances to related parties, accounts payable, accrued liabilities, notes payable and capital lease obligation approximate fair value due to the relatively short maturity of these instruments. Financial instruments which potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company deposits cash with a high quality financial institution. For the three month period ended September 30, 2006, revenue from one customer represented 57% of total revenue and from a second customer represented 43% of total revenue.

k) Inventory

Inventory consists of computer hardware and software acquired for specific revenue contracts and also includes related support and implementation costs.

l) Revenue Recognition

The Company recognizes revenue related to sales and licensing of medical software in accordance with Statement of Position No. 97-2, *Software Revenue Recognition* (SOP 97-2), as amended by Statement of Position No. 98-9, *Software Revenue Recognition with Respect to Certain Arrangements*. Pursuant to SOP 97-2 and Staff Accounting Bulletin No. 104 *Revenue Recognition*, revenue will only be recognized when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed, and collectibility is reasonably assured. The Company's revenue contracts are accounted for in conformity with Accounting Research Bulletin No. 45 *Long-Term Construction-Type Contracts*, using the relevant guidance in SOP 81-1 *Accounting for Performance of Construction-Type and Certain Production-Type Contracts*, unless specified criteria for separate accounting for any service element are met. The Company also follows the guidance in Emerging Issues Task Force (EITF) Issue No. 00-21 *Revenue Arrangements with Multiple Deliverables* relating to the separability of deliverables included in an arrangement into different units of accounting and the allocation of an arrangement's consideration to those units of accounting. It does not address when revenue should be recognized for the units of accounting. The Company received \$8,750 during the three month period ended September 30, 2006 for annual license renewal fees. At September 30, 2006, the balance of deferred revenue, which relates to the unearned portion received of annual license fees, is \$8,542. During the period ended September 30, 2006, the Company also received \$248,000, representing advances paid to the Company in relation to a contract. This amount is recorded in deferred revenue. Incremental direct costs related to contract acquisition and origination, which result in deferred revenue, are expensed as incurred. Any allowance for doubtful accounts is based on the Company's detailed assessment of the collectibility of specific customer accounts. Any significant customer accounts that are not expected to be collected are excluded from revenues. To date, the Company has not experienced any losses from uncollectible accounts.

m) Comprehensive Loss

SFAS No. 130, *Reporting Comprehensive Income*, establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. For the three month period ended September 30, 2006 and 2005, the Company's only component of comprehensive loss was foreign currency translation adjustments.

n) Reclassifications

Certain reclassifications have been made to the prior period's financial statements to conform to the current period's presentation.

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

VisualMED Clinical Solutions Corp.
(A Development Stage Company)
Notes to the Consolidated Financial Statements
(expressed in U.S. dollars)
(Unaudited)

2. Summary of Significant Accounting Principles (continued)

o) Income Taxes

Potential benefits of income tax losses are not recognized in the accounts until realization is more likely than not. The Company has adopted SFAS No. 109 *Accounting for Income Taxes* as of its inception. Pursuant to SFAS No. 109 the Company is required to compute tax asset benefits for net operating losses carried forward. The potential benefit of net operating losses have not been recognized in these financial statements because the Company cannot be assured it is more likely than not it will utilize the net operating losses carried forward in future years.

p) Stock-based Compensation

The Company records stock-based compensation in accordance with SFAS No. 123R *Share Based Payments*, using the fair value method. The Company had not issued any stock options and had no unvested share based payments prior to January 1, 2006. Accordingly, there was no effect on the Company's reported loss from operations, cash flows or loss per share as a result of adopting SFAS No 123R.

q) Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 132(R)*. This statement requires employers to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity or changes in unrestricted net assets of a not-for-profit organization. This statement also requires an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. The provisions of SFAS No. 158 are effective for employers with publicly traded equity securities as of the end of the fiscal year ending after December 15, 2006. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. The objective of SFAS 157 is to increase consistency and comparability in fair value measurements and to expand disclosures about fair value measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements and does not require any new fair value measurements. The provisions of SFAS No. 157 are effective for fair value measurements made in fiscal years beginning after November 15, 2007. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets, an amendment of FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. This statement requires all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable, and permits for subsequent measurement using either fair value measurement with changes in fair value reflected in earnings or the amortization and impairment requirements of Statement No. 140. The subsequent measurement of separately recognized servicing assets and servicing liabilities at fair value eliminates the necessity for entities that manage the risks inherent in servicing assets and servicing liabilities with derivatives to qualify for hedge accounting treatment and eliminates the characterization of declines in fair value as impairments or direct write-downs. SFAS No. 156 is effective for an entity's first fiscal year beginning after September 15, 2006. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

 (A Development Stage Company)
 Notes to the Consolidated Financial Statements
 (expressed in U.S. dollars)
 (Unaudited)

2. Summary of Significant Accounting Principles (continued)

q) Recent Accounting Pronouncements (continued)

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statements No. 109*. FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a two-step method of first evaluating whether a tax position has met a more likely than not recognition threshold and second, measuring that tax position to determine the amount of benefit to be recognized in the financial statements. FIN 48 provides guidance on the presentation of such positions within a classified statement of financial position as well as on derecognition, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments-an amendment of FASB Statements No. 133 and 140*, to simplify and make more consistent the accounting for certain financial instruments. SFAS No. 155 amends SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, to permit fair value re-measurement for any hybrid financial instrument with an embedded derivative that otherwise would require bifurcation, provided that the whole instrument is accounted for on a fair value basis. SFAS No. 155 amends SFAS No. 140, *Accounting for the Impairment or Disposal of Long-Lived Assets*, to allow a qualifying special-purpose entity to hold a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS No. 155 applies to all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006, with earlier application allowed. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

3. Prepaid expenses

As at September 30, 2006 and June 30, 2006, the following comprises prepaid expenses:

	September 30, 2006 \$	June 30, 2006 \$
Directors and officers insurance	21,771	33,640
Prepaid expenses related to Medicool contract		204,587
Other	7,655	11,290
	29,426	249,517

4. Advances to Related Parties

	September 30, 2006 \$	June 30, 2006 \$
Advances to employees	24,846	30,175
	24,846	30,175

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

Advances to employees of \$24,846 represent amounts advanced towards travel expenses to be incurred. These amounts are non-interest bearing.

5. Property and Equipment

	Cost \$	Accumulated Amortization \$	September 30, 2006 Net carrying value \$	June 30, 2006 Net carrying value \$
Computer hardware	61,404	19,466	41,938	38,023
Computer software	26,499	10,113	16,386	15,873
Office furniture	12,542	4,052	8,490	9,128
Leasehold improvements	9,658	3,419	6,239	6,730
	110,103	37,050	73,053	69,754

Assets under capital lease are included in office furniture with a cost of \$11,599. During the three month period ended September 30, 2006, the Company recognized accumulated amortization of assets under capital lease of \$927 (September 30, 2005 - \$686).

6. Accrued Liabilities

As at September 30, 2006 and June 30, 2006, the following comprises accrued liabilities:

	September 30, 2006 \$	June 30, 2006 \$
Salaries, wages and vacation pay	104,595	112,276
Professional fees	43,500	35,000
Other	8,250	8,250
	156,345	155,526

7. Preferred Stock

On January 12, 2006, the Company restated its Articles of Incorporation to increase the authorized share capital to 125,000,000 shares consisting of 100,000,000 shares of common stock, and 25,000,000 shares of preferred stock, of which 15,000,000 have been designated as Series A 10% Cumulative Preferred Stock.

The Series A 10% Cumulative Preferred Stock has a par value of \$0.00001 per share, a stated value of \$1.00 per share and are non-voting. The holders of the Series A Preferred Stock will be entitled to receive an annual dividend equal to 10% per annum of the stated value of \$1.00 per share payable, at the option of the Board of Directors, in either cash or in shares of Series A Preferred Stock.

8. Common Stock

- a) On July 5, 2006, the Company issued 5,000 shares of common stock upon the exercise of 5,000 options at an exercise price of \$0.49 per share for proceeds of \$2,450.

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

- b) On July 10, 2006, the Company issued 5,000 shares of common stock upon the exercise of 5,000 options at an exercise price of \$0.49 per share for proceeds of \$2,450.

10. Segment Disclosures

The Company operates as one operating segment which is the sale of its suite of clinical software modules. The Chief Executive Officer is the Company's Chief Operating Decision Maker (CODM) as defined by SFAS 131, *Disclosure about Segments of an Enterprise and Related Information*. The CODM allocates resources and assesses the performance of the Company based on the results of operations.

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

VisualMED Clinical Solutions Corp.
 (A Development Stage Company)
 Notes to the Consolidated Financial Statements
 (expressed in U.S. dollars)
 (Unaudited)

11. Commitments

- a) In November 2004, the Company entered into a lease agreement for office premises at a rate of \$70,649 (CDN\$78,700) per annum including property taxes, insurance and other operating expenses, for a five year term expiring on September 30, 2009, with an option to renew for an additional five years. During the three month period ended September 30, 2006, the Company incurred rent expense of \$12,981. Future payments for the next four fiscal years are as follows:

2007	\$	57,668
2008	\$	70,649
2009	\$	70,649
2010	\$	19,288
		218,254
	\$	218,254

- b) On June 5, 2006, the Company entered into an automobile lease for a term of 48 months. The monthly payments are CAD\$642 ending May 5, 2010.
- c) On September 1, 2006, the Company entered into an agreement with an individual to provide consulting services. As consideration for these services, the Company agreed to grant 125,000 options pursuant to Company's Nonqualified Stock Option Plan. Further remuneration is payable based on the following performance milestones: 50,000 options pursuant to Company's Nonqualified Stock Option Plan per contract proposal, and 100,000 options pursuant to Company's Nonqualified Stock Option Plan upon completion of any sale to a healthcare facility in Italy. On October 6, 2006, the Company granted 375,000 stock options exercisable at \$0.00001 per share for a five year term expiring in September, 2011 under the Company's October 2006 Nonqualified Stock Option Plan. The fair value for options granted was estimated at each measurement date using the Black-Scholes option-pricing model with the following weighted average assumptions: an expected life of 5 years, a risk-free interest rate of 4.35% to 4.51% and an expected volatility of 89% to 93%. During the period ended September 30, 2006, the Company recognized stock based compensation of \$663,747.
- d) On September 8, 2006, the Company entered into an agreement with an individual to provide consulting services. As consideration for these services, the Company agreed to grant 150,000 options pursuant to Company's Nonqualified Stock Option Plan. Further remuneration is payable based on the following performance milestones: 50,000 options pursuant to Company's Nonqualified Stock Option Plan per contract proposal; and 100,000 options pursuant to Company's Nonqualified Stock Option Plan upon completion of any sale. Further options will be granted in the amount of 75,000 options for the initiation of contact discussions with companies that are publicly listed corporations with sales of more than one billion dollars. On October 16, 2006, the Company granted 150,000 stock options exercisable at \$0.00001 per share for a five year term expiring in September, 2011 under the Company's October 2006 Nonqualified Stock Option Plan. The fair value for options granted was estimated at the measurement date using the Black-Scholes option-pricing model with the following weighted average assumptions: an expected life of 5 years, a risk-free interest rate of 4.54% and an expected volatility of 92%. During the period ended September 30, 2006, the Company recognized stock based compensation of \$299,999.

12. Subsequent Event

On October 4, 2006, the Company filed a Form S-8 Registration Statement in connection with its October 2006 Non-Qualified Stock Option Plan (the Plan) allowing for the direct award of shares or stock options to directors, officers, employees and consultants to acquire up to a total of 2,000,000 common shares. During October 2006, the Company issued 825,000 shares of common stock upon the exercise of 825,000 options at \$0.00001 per share under the Plan for no consideration.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

We incurred losses of \$1,477,007 for the three months ending September 30, 2006. This compares to \$531,318 in the comparable prior year period. The principal components of the loss involved the following:

Maintenance and continuing development of our expanding marketing and customer support facilities;

operating and maintaining our world-wide state-of-the-art service center capable of supporting client hospitals by remote support technology;

newly hired employees and consultants, and increased travel expenses as our business grows in the United States and overseas, and as we continue to pursue contracts and attend industry conferences;

software licenses;

Stock-based compensation

travel and presentation expenses

costs related to direct sales approach and first contact with potential client hospitals, from a steadily growing sales funnel comprising over 120 hospitals worldwide.

Finally, a small amount was devoted to professional expenses, depreciation, and filing fees.

Operating expenses for the three months ending September 30, 2006 were \$1,481,585.

The main challenges that we will have over the next year will be to continue financing operations, continue building our base of client hospitals and healthcare facilities, marketing of our modules and concluding strategic alliances to help us penetrate specific marketplaces in promising geographies. We now have a round the clock support service which we offer to our clients, capable of providing on the spot assistance to our growing customer base.

During the three month period ended September 30, 2006, we have begun to implement our system in the Colorectal Surgery Department of Montreal's Jewish General Hospital, and are near to the conclusion of an agreement to implement another hospital in the Montreal area. We have teamed with Post Logic, a French software firm, and expect our technology will aid them to successfully bid for key French government healthcare information system contracts. French institutions are being mandated by law to deploy large scale fully shareable electronic medical records across France.

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

In this period we have also invested in system configurations designed for smaller doctors' practices, private laboratories and clinics. One of the unique aspects of our system is that it is fully scaleable, and therefore affordable to smaller consumers.

We continue to implement our marketing and sales strategy for the VisualMED system, and other product lines in development. We have hired, and intend to continue hiring, sales and marketing executives and consultants as our business grows.

Our sales effort will continue targeting regions where current legal regulations encourage the adoption of our clinical management modules, as well as areas in close proximity to our existing sites in Wichita, Kansas, Battle Creek, Michigan, El Paso, Texas and Montreal. These markets are being aggressively pursued through the creation of sales consortiums that bring together local healthcare consultants, hardware vendors and local systems integrators.

Negotiations are on going with several hospital management groups in Italy and France for the implementation of our clinical modules, and we are continuing to respond to requests for proposals from hospitals in Canada, France, Italy, and the United States.

In July, we entered into a preliminary OEM licensing agreement with Peloton Solutions Inc., of Littleton Colorado, a provider of leading-edge IT solutions to law enforcement agencies. Peloton's flagship product, the Longarm Record Management System (RMS) focuses on streamlining records management in the Public Safety marketplace. The agreement will allow Peloton to offer to that industry a VisualMED security system that has been validated to meet the most stringent confidentiality requirements of medical records. Peloton will integrate and offer the VisualMED biometric technology to its clients, who typically pay a monthly or yearly fee for using their system. VisualMED will get a steady royalty stream from the wide distribution of its system. VisualMED's proprietary biometric technology exceeds even the most stringent standards currently existing in law enforcement because of our need to comply with the Health Insurance Portability and Accountability Act (HIPAA).

In the Middle East, The Tunisian Minister of Health is set for a review of our pilot project with Habib Thameur Hospital in Tunis.

In Saudi Arabia, we have signed a representation agreement with International Test Systems of Riyadh, Saudi Arabia. The agreement is the result of a year-long collaboration with interested parties in the Middle East. Initial efforts have focused on identifying a suitable first site through which VisualMED technology will be showcased for potential clients in Saudi Arabia, the United Arab Emirates, and Lebanon. System demonstrations have been organized at a number of hospitals. ITS is well established in the Middle East, with significant experience in complex system implementation and validation. As well, ITS, through its own partnership programs, brings broad-based business expertise to the relationship. This expertise will be critical in the implementation of any large scale healthcare informatics projects.

In terms of the VisualMED technology itself, the platform on which the system operates has undergone a significant improvement, in anticipation of Microsoft's new Dot-Net operating system. Dot-Net will replace the Windows Win32 operating system, in existence for more than a decade, and new VisualMED components have been, and continue to be, developed, capable of communicating with Dot-Net. The first components undergoing redesign included VisualMED's load balancing process. The load balancing process ensures timely access by users to servers and business objects in the application tier of VisualMED's state-of-the-art n-tier application. For us the practical benefits of this shift to the Dot-Net environment include more cost-effective development over time and increasing attractive pricing for our system. The system upgrade will also render VisualMED more attractive to individual doctors' offices and smaller group practices, where rapid series of fast implementations with extremely low integration costs, executed over a matter of days, could significantly boost our market presence in the short term. While our original development efforts involved programming languages whose use ensured overall high quality of code, moving to Dot-Net brings advantages that carry over to future development. The Quality-Assurance process is now more fully integrated with programming, bringing benefits to our programming staff and all system users.

Subsequent Events

On October 4, 2006, the Company filed its October 2006 Non-Qualified Stock Option Plan (incorporated herein by reference).

Financial Condition, Liquidity and Capital Resources

During the three months ending September 30, 2006, we recognized revenue of \$8,750 from licensing of our product.

At September 30, 2006, we had a working capital deficiency of \$589,299, compared to a working capital deficiency of \$74,429 at June 30, 2006. We had cash on hand of \$2,813 at September 30, 2006.

We had a net loss of \$1,477,007 and \$531,318 for the three month periods ending September 30, 2006 and 2005, respectively.

At September 30, 2006, our total assets were \$153,324, as compared to total assets of \$392,878 at June 30, 2006.

At September 30, 2006, we had pre-paid expenses of \$29,426. This amount consisted of \$21,771 for directors and officers insurance, \$3,620 for property taxes and a security deposit of \$4,035 for the lease of an automobile for a marketing employee.

At September 30, 2006, our total liabilities were \$671,749, as compared to total liabilities of \$400,785 at June 30, 2006.

We will need to raise additional equity and/or debt financing to sustain operations over the next twelve months. Our auditors have expressed substantial doubt about our ability to continue as a going concern in their audit report that was included in our Form 10-KSB for the fiscal year ended June 30, 2006.

Critical Accounting Policies

Our discussion and analysis of financial condition and results of operations are based upon the financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses and disclosures on the date of the financial statements. On an on-going basis, we evaluate our estimates, including, but not limited to, those related to revenue recognition.

We use authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates. Critical accounting policies identified are as follows:

Long-Lived Assets

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, we test long-lived assets or asset groups for recoverability when events or changes in circumstances indicate that their carrying amount may not be recoverable. Circumstances which could trigger a review include, but are not limited to: significant decreases in the market price of the asset; significant adverse changes in the business climate or legal factors; accumulation of costs significantly in excess of the amount originally expected for the acquisition or construction of the asset; current period cash flow or operating losses combined with a history of losses or a forecast of continuing losses associated with the use of the asset; and current expectation that the asset will more likely than not be sold or disposed significantly before the end of its estimated useful life.

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

Recoverability is assessed based on the carrying amount of the asset and its fair value which is generally determined based on the sum of the undiscounted cash flows expected to result from the use and the eventual disposal of the asset, as well as specific appraisal in certain instances. An impairment loss is recognized when the carrying amount is not recoverable and exceeds fair value.

Foreign Currency Transactions/Balances

Our functional and reporting currency is the United States dollar. The functional currency of the Company's subsidiary is the Canadian dollar. The financial statements of this subsidiary are translated to United States dollars in accordance with SFAS No. 52, *Foreign Currency Translation*, using period-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues and expenses. Translation gains (losses) are recorded in accumulated other comprehensive income (loss) as a component of stockholders' equity. Foreign currency transaction gains and losses are included in current operations.

Revenue Recognition

The Company recognizes revenue related to sales and licensing of medical software in accordance with Statement of Position No. 97-2, *Software Revenue Recognition* (SOP 97-2), as amended by Statement of Position No. 98-9, *Software Revenue Recognition with Respect to Certain Arrangements*. Pursuant to SOP 97-2 and Staff Accounting Bulletin No. 104 *Revenue Recognition*, revenue will only be recognized when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed, and collectibility is reasonably assured. The Company's revenue contracts are accounted for in conformity with Accounting Research Bulletin No. 45 *Long-Term Construction-Type Contracts*, using the relevant guidance in SOP 81-1 *Accounting for Performance of Construction-Type and Certain Production-Type Contracts*, unless specified criteria for separate accounting for any service element are met. The Company also follows the guidance in Emerging Issues Task Force (EITF) Issue No. 00-21 *Revenue Arrangements with Multiple Deliverables* relating to the separability of deliverables included in an arrangement into different units of accounting and the allocation of an arrangement's consideration to those units of accounting. It does not address when revenue should be recognized for the units of accounting. The Company received \$35,000 during the year ended June 30, 2006 for annual license renewal fees, which are recognized in revenue over the term of the license. At June 30, 2006, the balance of deferred revenue, which relates to the unearned portion received of annual license fees, is \$17,291. As at September 30, 2006 the unearned portion was \$8,542. Incremental direct costs related to contract acquisition and origination, which result in deferred revenue, are expensed as incurred. Any allowance for doubtful accounts is based on the Company's detailed assessment of the collectibility of specific customer accounts. Any significant customer accounts that are not expected to be collected are excluded from revenues. To date, the Company has not experienced any losses from uncollectible accounts.

Disclosure Regarding Forward-Looking Statements

Certain statements contained in this quarterly report on Form 10-QSB/A constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause deviations in actual results, performance or achievements to be materially different from any future results, performance or achievement expressed or implied. Such factors include but are not limited to: market and customer acceptance of and satisfaction with our products, market demand for our products; fluctuations in foreign currency markets; the use of estimates in the preparation of our financial statements; the impact of competitive products and pricing in our field; the ability to develop and launch new products in a timely fashion; government and industry regulatory environment; fluctuations in operating results, including, but not limited to, spending on research and development, spending on sales and marketing activities, spending on technical and product support; and other risks outlined in previous filings with the Securities and Exchange Commission, and in this quarterly report on Form 10-QSB/A. The words believe, expect, may, anticipate, intend and plan and similar expressions identify forward-looking statements. Forward-looking statements are subject to risks and uncertainties that cannot be quantified and, consequently, actual results may differ materially from those expressed or implied by such forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements. The terms Company, we, us, our, VisualMED and the Registrant refer to VisualMED Clinical Solutions Corp., a Nevada corporation, and its subsidiaries.

Edgar Filing: VisualMED Clinical Solutions Corp. - Form 10QSB

Factors that could cause actual results to differ from those expressed in forward-looking statements include, but are not limited to:

Our limited operating history;

Our auditors have issued a going concern opinion. Therefore we may not be able to achieve our objectives and may have to suspend or cease operations;

Because we have historically incurred losses and these losses may increase in the future, we must begin generating a profit from our operations. If we do not begin generating a profit we may have to suspend or cease operations;

We have experienced a history of losses and expect to incur future losses. Therefore, we must continue to raise money from investors to fund our operations. If we are unable to fund our operations, we will cease doing business;

Because we depend on a limited number of third parties to manufacture and supply critical components for our products and services, if a third party manufacturer should cease operations or refuse to sell components to us, we may have to suspend or cease operations;

If we cannot deliver the VisualMed systems our customers demand, we will be unable to attract customers, which would likely result in a loss of income and eventually a termination of our operations;

Competition from companies with already established marketing links to our potential customers may adversely affect our ability to market our products;

Our parent company has significant influence over our corporate decisions;

Because we do not have any patents, we rely on trade secrets, confidentiality agreements and contractual agreements, which may not be adequate to protect our proprietary interests. If our proprietary interests are divulged to the public, our operations may be adversely impacted and we may have to cease operations;

We may be exposed to liability claims if products based on our technologies are marketed and sold. We have liability insurance coverage in the amount of \$1,000,000, however, if a judgment is rendered against us in excess of the amount of our coverage, we may have to cease operations;

Third parties may claim that our current or future products or services infringe their proprietary rights or assert other claims against us;

Fluctuations in the value of foreign currencies could result in increased product costs and operating expenses;

We must be able to respond to rapidly changing technology, services and standards in order to remain competitive;

Because the market for our common stock is limited, our investors may not be able to resell their shares of common stock;

Because our common stock is subject to penny stock rules, the liquidity of investments may be restricted.

ITEM 3. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, under the supervision and with the participation of our management, including Gerard Dab, our Chief Executive Officer, and Larry Kurlender, our Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities and Exchange Act of 1934 (Exchange Act)). Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that these disclosure controls and procedures are effective to ensure that information required to be disclosed in our annual reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities Exchange Commission rules and forms. There were no changes in our internal control over financial reporting during the fiscal quarter ended September 30, 2006 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our officers believe that our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that VisualMED files or submits under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and our Chief Financial Officer in order to allow timely decisions regarding required disclosure. There are frequent daily communications among all of our executives, including Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, President and our Vice President for Finance. All of our budgetary decisions and all of our billing and other expenditures require the written, signed approval of at least three of our executives. All issues regarding disclosures and procedures are discussed in a timely fashion, including all financial and other key operational information. Current disclosure controls and procedures are governed by the Board of Directors, and any changes to such controls and procedures must be made with the Board's approval.

Part II

ITEM 1. LEGAL PROCEEDINGS

From time to time we may be involved in litigation incidental to the conduct of our business, such as contractual matters and employee-related matters. Currently, we are not a party to any material legal proceeding or litigation, whether current or threatened, nor are any of our officers, directors or affiliates, a party adverse to us in any legal proceeding or litigation.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On July 5, 2006 the Company issued 5,000 shares of common stock upon the exercise of 5,000 options at .49 cents per share for proceeds of \$2,450.

On July 10, 2006 the Company issued 5,000 shares of common stock upon the exercise of 5,000 options at .49 cents per share for proceeds of \$2,450.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a)	Exhibits	Description
3.1		Articles of Incorporation (incorporated by reference to Exhibit 3.1 to the Company's Registration Statement on Form SB-2 (Registration No. 333-94835) filed with the SEC on January 18, 2001).
3.2		Amendment to the Articles of Incorporation (incorporated by reference to Exhibit 3.2 to the Company's Quarterly Report on Form 10-QSB filed with the SEC on February 22, 2005).
3.3		By-Laws (incorporated by reference to Exhibit 3.2 to the Company's Registration Statement on Form SB-2 (Registration No. 333-94835) filed with the SEC on January 18, 2001).
3.4		VisualMED Clinical Solutions Corp. October 2006 Nonqualified Stock Option Plan (incorporated by reference to the Company's Registration Statement on Form S-8 filed with the SEC on October 4, 2006).
31.1		Certification of Principal Executive Officer pursuant to Rule 13a-15(e) and Rule 15d-15(e), promulgated under the Securities and Exchange Act of 1934, as amended.
31.2		Certification of Principal Financial Officer pursuant to Rule 13a-15(e) and Rule 15d-15(e), promulgated under the Securities and Exchange Act of 1934, as amended.
32.1		Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (Principal Executive Officer).
32.2		Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (Principal Financial Officer).

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities and Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, on this 13th day of November, 2006.
