þ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2006

or

o **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _________to_________

Commission file number: 1-16095

Aetna Inc.
(Exact name of registrant as specified in its charter)

Pennsylvania	**23-2229683**
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
151 Farmington Avenue, Hartford, CT	**06156**
(Address of principal executive offices)	(Zip Code)

Registrant s telephone number, including area code **(860) 273-0123**

Former name, former address and former fiscal year, if changed since last report:

N/A

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

þ Yes ¨ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer **þ** Accelerated filer ¨ Non-accelerated filer ¨

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

¨ Yes þ No

There were 547.7 million shares of voting common stock with a par value of $.01 outstanding at June 30, 2006.

Condensed Notes to Consolidated Financial Statements
(Unaudited)

Unless the context otherwise requires, references to the terms we, our or us used throughout these Notes refer to Aetna Inc. (a Pennsylvania corporation) (Aetna) and its subsidiaries (collectively, the Company).

1. Organization

Our operations include three business segments:

Health Care consists of medical, pharmacy benefits management and dental and vision plans offered on both a Risk basis (where we assume all or a majority of the risk for medical and dental care costs) and an employer-funded basis (where the plan sponsor under an administrative services contract (ASC) assumes all or a majority of this risk). Medical plans include point-of-service (POS), health maintenance organization (HMO), preferred provider organization (PPO) and indemnity benefit (Indemnity) products. Medical plans also include health savings accounts (HSAs) and Aetna HealthFund®, consumer-directed plans that combine traditional POS or PPO and/or dental coverage, subject to a deductible, with an accumulating benefit account (which may be funded by the plan sponsor or member in the case of HSAs). We also offer specialty products, such as medical management and data analytics services, behavioral health plans and stop loss insurance, as well as products that provide access to our provider network in select markets.

Group Insurance includes primarily group life insurance products offered on a Risk basis, including basic term group life insurance, group universal life, supplemental or voluntary programs and accidental death and dismemberment coverage. Group Insurance also includes group disability products offered on both a Risk and an ASC basis which consist primarily of short-term and long-term disability insurance (and products which combine both), as well as long-term care products, which provide benefits offered to cover the cost of care in private home settings, adult day care, assisted living or nursing facilities, primarily on a Risk basis. Additionally, as a result of the Broadspire Disability acquisition on March 31, 2006 (refer to Note 3), Group Insurance includes absence management services, including short-term and long-term disability administration and leave management, to employers.

Large Case Pensions manages a variety of retirement products (including pension and annuity products) primarily for tax qualified pension plans. These products provide a variety of funding and benefit payment distribution options and other services. The Large Case Pensions segment includes certain discontinued products (refer to Note 15 for additional information).

On January 27, 2006, our Board of Directors (the Board) declared a two-for-one stock split of our common shares (common stock) which was effected in the form of a 100% common stock dividend. All shareholders of record at the close of business on February 7, 2006 received one additional share of common stock for each share held on that date distributed in the form of a stock dividend on February 17, 2006. All share and per share amounts in the accompanying consolidated financial statements and related notes have been adjusted to reflect the stock split for all periods presented.

These interim statements necessarily rely heavily on estimates, including assumptions as to annualized tax rates. In the opinion of management, all adjustments necessary for a fair statement of results for the interim periods have been made. All such adjustments are of a normal, recurring nature. The accompanying unaudited consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes presented in Aetna s 2005 Annual Report on Form 10-K (the 2005 Annual Report). Certain financial information that is normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP), but that is not required for interim reporting purposes, has been condensed or omitted.

Table of Contents

2. Summary of Significant Accounting Policies

Principles of Consolidation

These unaudited consolidated financial statements have been prepared in accordance with GAAP and include the accounts of Aetna and the subsidiaries that we control. All significant intercompany balances have been eliminated in consolidation.

New Accounting Standard

Effective January 1, 2006, we adopted Statement of Financial Accounting Standards (FAS) No. 123 Revised, *Share-Based Payment* (FAS 123R), which is a revision of FAS 123, *Accounting for Stock-Based Compensation*. FAS 123R also supercedes Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25) and amends FAS 95, *Statement of Cash Flows*.

Prior to the adoption of FAS 123R, we applied the provisions of FAS 123 to our stock-based compensation arrangements. FAS 123 permitted us to account for our stock-based compensation using the intrinsic value method prescribed by APB 25, accompanied by pro forma disclosures of net income and earnings per share as if we had applied the fair value method to such compensation.

FAS 123R requires companies to expense the fair value of all stock-based compensation awards (including stock options, stock appreciation rights and other stock-based awards) issued to employees and non-employees, eliminating the alternative of measuring such awards using the intrinsic value method. FAS 123R requires the fair value to be calculated using a quoted market price or a valuation model (such as the modified Black-Scholes or binomial-lattice models) if a quoted market price is not available. Consistent with our historical practice of measuring the fair value of stock-based compensation for our pro forma disclosures, we utilize a modified Black-Scholes model to determine the fair value of our stock-based compensation awards. Stock-based compensation expense is measured at the grant date, based on the fair value of the award and is recognized as expense over the requisite service period, which primarily is the vesting period, except for retirement eligible individuals for whom a majority of the expense is recognized in the year of grant.

The amendment to FAS 95 requires the benefits of tax deductions in excess of recognized compensation cost to be reported as financing cash inflows rather than as a reduction in income taxes paid, which is included within operating cash flows.

We utilized the modified-retrospective approach of adopting FAS 123R. Under this approach, beginning January 1, 2006, all prior period financial information was adjusted to reflect our stock-based compensation activity since 1995. The modified-retrospective application of FAS 123R resulted in a reduction in net income for the three and six months ended June 30, 2005 of $15 million ($23 million pretax) and $50 million ($76 million pretax), respectively. Basic and diluted net income per common share were reduced by $.02 and $.03 per share respectively, for the three months ended June 30, 2005, and $.09 per share and $.08 per share, respectively, for the six months ended June 30, 2005. Additionally, $116 million of cash inflows related to tax deductions in excess of recognized compensation costs have been reclassified from operating cash flows to financing cash flows for the six months ended June 30, 2005.

Prior period shareholders equity and deferred taxes have been increased to reflect the results of the modified-retrospective application of FAS 123R. The following table details the impact of FAS 123R on our Consolidated Balance Sheet as of December 31, 2005:

(Millions)	Retrospectively Applied	Previously Reported
Net deferred income tax asset (liability)	$ 58.3	$ (25.5)
Common stock and additional paid-in capital	2,414.7	1,885.1
Retained earnings	7,723.7	8,169.5

Table of Contents

Additionally, the balances in shareholders equity at December 31, 2004 in our Consolidated Statements of Shareholders Equity reflect the following changes:

(Millions)	Retrospectively Applied	Previously Reported
Common stock and additional paid-in capital	$ 3,541.5	$ 3,076.5
Retained earnings	6,161.8	6,546.4

Refer to Note 9 for additional information on our stock-based compensation plans.

Future Application of Accounting Standard

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No.109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes by defining criteria that a tax position on an individual matter must meet before that position is recognized in the financial statements. Additionally, FIN 48 provides guidance on measurement, derecognition, classification, interest and penalties, interim period accounting, disclosures and transition. We will adopt FIN 48 beginning January 1, 2007, which is the effective date of FIN 48. We are currently analyzing the impact of adopting FIN 48.

Use of Estimates

Accounting for the Medicare Part D Prescription Drug Program (PDP)

On December 8, 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) was signed into law. The Act expanded Medicare, primarily by adding a voluntary prescription drug benefit for Medicare eligible individuals beginning in 2006. We were selected by the Centers for Medicare and Medicaid Services (CMS) to be a national provider of PDP in all 50 states to both individuals and employer groups beginning in 2006. Under these annual contracts, CMS pays us a portion of the premium, a portion of, or a capitated fee for, catastrophic drug costs and a portion of the health care costs for low-income Medicare beneficiaries and provides a risk sharing arrangement to limit our exposure to unexpected expenses.

Premiums received from, or on behalf of, members or CMS and capitated fees are recognized as premium revenue ratably over the contract period. Costs for covered prescription drugs are expensed as incurred. Low-income costs (deductible, coinsurance, etc.) and the catastrophic drug costs paid in advance by CMS will be recorded as a liability and will offset health care costs when incurred. For individual PDP coverage, the risk sharing arrangement provides a risk corridor whereby the target amount (what we received in premiums from members and CMS based on our annual bid amount less administrative expenses) is compared to our actual drug costs incurred during the contract year. Based on the risk corridor provision and PDP activity to date, an estimated risk sharing receivable or payable is recorded on a quarterly basis as an adjustment to premium revenue. A reconciliation of the final risk sharing, low-income subsidy and catastrophic amounts is performed at the end of the contract year.

3. Acquisition

On March 31, 2006, we acquired the disability and leave management businesses of Broadspire Services, Inc. and Broadspire Management Services, Inc. (collectively, Broadspire Disability) for approximately $160 million. Broadspire Disability operates as a third party administrator offering absence management services, including short-term and long-term disability administration and leave management to employers. We recorded approximately $98 million of goodwill associated with the acquisition of Broadspire Disability, representing the purchase price in excess of the fair value of the net assets acquired (which includes approximately $47 million of intangible assets, primarily consisting of a customer list and technology). Our intangible assets and goodwill associated with the acquisition of Broadspire Disability are subject to adjustment upon completion of a purchase accounting valuation.

4. Earnings Per Common Share

Basic earnings per common share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted EPS is computed similar to basic EPS, except that it reflects the potential dilution that could occur if dilutive securities were exercised or converted into common stock.

The computation for basic and diluted EPS from continuing operations for the three and six months ended June 30, 2006 and 2005 is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Millions, except per common share data)	**2006**	**2005**	**2006**	**2005**
Income from continuing operations	$ 389.5	$ 394.9	$ 775.1	$ 784.2
Weighted average shares used to compute basic EPS	560.8	581.3	564.1	584.0
Dilutive effect of outstanding stock-based compensation awards [1]	23.4	25.7	24.5	24.9
Weighted average shares used to compute diluted EPS	584.2	607.0	588.6	608.9
Basic EPS	$ .69	$ .68	$ 1.37	$ 1.34
Diluted EPS	$ .67	$ .65	$ 1.32	$ 1.29

[1] Approximately 5.2 million and 5.3 million stock appreciation rights (with exercise prices ranging from $46.94 to $52.11) were not included in the calculation of diluted earnings per common share for the three and six months ended June 30, 2006, respectively, as their exercise prices were greater than the average market price of our common stock during such periods.

5. Operating Expenses

For the three and six months ended June 30, 2006 and 2005, selling expenses (which include broker commissions, the variable component of our internal sales force compensation and premium taxes) and general and administrative expenses were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Millions)	**2006**	**2005**	**2006**	**2005**
Selling expenses	$ 240.1	$ 205.9	$ 483.6	$ 408.9
General and administrative expenses:				
Salaries and related benefits	548.3	541.3	1,145.5	1,133.9
Other general and administrative expenses	448.8	333.9	805.2	654.5
Total general and administrative expenses	997.1	875.2	1,950.7	1,788.4
Total operating expenses	$ 1,237.2	$ 1,081.1	$ 2,434.3	$ 2,197.3

6. Goodwill and Other Acquired Intangible Assets

Changes in the carrying amount of goodwill for the six months ended June 30, 2006 and 2005 were as follows:

(Millions)	**2006**	**2005**
Balance, beginning of period	$ 4,523.2	$ 3,687.8
Goodwill acquired:		
Active Health		292.7
Broadspire Disability	97.6(1)	
SRC		122.7
Other	.5	.1
Balance, end of the period	$ 4,621.3	$ 4,103.3

(1) Goodwill of $97.6 million related to the acquisition of Broadspire Disability is considered preliminary, pending the finalization of a purchase accounting valuation (refer to Note 3 for additional information).

Other acquired intangible assets at June 30, 2006 and December 31, 2005 were as follows:

(Millions)	Cost	Accumulated Amortization	Net Balance	Amortization Period (Years)
June 30, 2006				
Other acquired intangible assets:				
Customer lists	$ 1,168.1	$ 953.4	$ 214.7	4-10
Provider networks	696.2	267.6	428.6	12-25
Technology	56.5	13.5	43.0	3-5
Other	32.7	7.2	25.5	3-12
Trademarks	22.3		22.3	Indefinite
Total other acquired intangible assets[1]	$ 1,975.8	$ 1,241.7	$ 734.1	
December 31, 2005				
Other acquired intangible assets:				
Customer lists	$ 1,132.4	$ 937.5	$ 194.9	4-9
Provider networks	696.2	253.2	443.0	12-25
Technology	44.1	6.2	37.9	3-5
Other	29.9	3.1	26.8	3-12
Trademarks	22.3		22.3	Indefinite
Total other acquired intangible assets	$ 1,924.9	$ 1,200.0	$ 724.9	

(1) Other acquired intangible assets of $46.9 million related to the acquisition of Broadspire Disability are considered preliminary, pending the finalization of a purchase accounting valuation (refer to Note 3 for additional information).

Annual pretax amortization for other acquired intangible assets over the next five calendar years is estimated to be as follows:

(Millions)

2007	$ 87.0
2008	79.6
2009	68.6
2010	64.8
2011	60.1

7. Investments

Total investments at June 30, 2006 and December 31, 2005 were as follows:

	June 30, 2006			December 31, 2005		
(Millions)	**Current**	**Long-term**	**Total**	**Current**	**Long-term**	**Total**
Debt securities available for sale:						
Available for use in current operations	$ 12,595.1(1)	$	$ 12,595.1	$ 13,216.9(1)	$	$ 13,216.9
Loaned securities	851.7		851.7	1,115.7		1,115.7
On deposit, as required by regulatory authorities		552.3(3)	552.3		522.4(3)	522.4
Debt securities available for sale	13,446.8	552.3	13,999.1	14,332.6	522.4	14,855.0
Equity securities available for sale	30.5(1)	38.3(3)	68.8	34.5(1)	26.7(3)	61.2
Short-term investments	92.7(1)		92.7	114.8(1)		114.8
Mortgage loans	242.8(2)	1,351.5	1,594.3	86.7(2)	1,460.8	1,547.5
Investment real estate	(2)	191.4	191.4	7.4(2)	207.2	214.6
Other investments	3.5(2)	1,080.7(3)	1,084.2	2.7(2)	1,113.0(3)	1,115.7
Total investments	$ 13,816.3	$ 3,214.2	$ 17,030.5	$ 14,578.7	$ 3,330.1	$ 17,908.8

(1) Included in investment securities on the Consolidated Balance Sheets totaling $12.7 billion and $13.4 billion at June 30, 2006 and December 31, 2005, respectively.

(2) Included in other investments on

the Consolidated Balance Sheets totaling $246.3 million and $96.8 million at June 30, 2006 and December 31, 2005, respectively.

(3) Included in long-term investments on the Consolidated Balance Sheets totaling $1.7 billion at both June 30, 2006 and December 31, 2005.

Components of net investment income for the three and six months ended June 30, 2006 and 2005 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Millions)	**2006**	**2005**	**2006**	**2005**
Debt securities	$ 200.5	$ 214.1	$ 408.2	$ 430.4
Mortgage loans	29.7	35.7	59.2	63.5
Cash equivalents and other short-term investments	29.8	13.5	52.9	25.1
Other	24.0	2.5	70.4	46.8
Gross investment income	284.0	265.8	590.7	565.8
Less: investment expenses	(8.2)	(9.2)	(16.9)	(18.0)
Net investment income[1]	$ 275.8	$ 256.6	$ 573.8	$ 547.8

[1] Includes amounts related to experience-rated contract holders of $33.3 million and $68.0 million during the three and six months ended June 30, 2006, respectively, and $38.2 million and $73.9 million during the three and six months ended June 30, 2005, respectively. Interest credited to experience-rated contract holders is included in current and future benefits on the Consolidated Statements of Income.

Net realized capital (losses) gains for the three and six months ended June 30, 2006 and 2005, excluding amounts related to experience-rated contract holders and discontinued products, were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Millions)	**2006**	**2005**	**2006**	**2005**
Debt securities	$ (15.5)	$ (1.7)	$ (7.8)	$ 3.4
Equity securities	.2		3.9	
Derivatives		3.4	7.8	3.0
Real Estate	3.9	4.0	3.9	4.0
Other	.2		(1.4)	(.3)
Pretax net realized capital (losses) gains	$ (11.2)	$ 5.7	$ 6.4	$ 10.1

Net realized capital (losses) gains related to experience-rated contract holders of $(1) million and $6 million for the three and six months ended June 30, 2006, respectively, and $(4) million and $(2) million for the three and six months ended June 30, 2005, respectively, were deducted from net realized capital (losses) gains, and an offsetting amount is reflected in policyholders funds. Net realized capital (losses) gains related to discontinued products of $5 million and $21 million for the three and six months ended June 30, 2006, respectively, and $(1) million and $(.1) million for the three and six months ended June 30, 2005, respectively, were deducted from net realized capital (losses) gains, and an offsetting amount is reflected in the reserve for anticipated future losses on discontinued products (refer to Note 15).

8. Other Comprehensive (Loss) Income

Changes in accumulated other comprehensive (loss) income related to changes in net unrealized (losses) gains on securities (excluding those related to experience-rated contract holders and discontinued products) and derivatives for the six months ended June 30, 2006 and 2005 were as follows:

(Millions)	**2006**	**2005**
Securities:		
Net unrealized holding (losses) gains arising during the period [1]	$ (209.4)	$ 11.7
Less: reclassification adjustment for losses included in net income [2]	(8.1)	(9.1)
Net unrealized (losses) gains on securities	$ (201.3)	$ 20.8
Derivatives:		
Net derivative gains arising during the period [3]	$ 14.5	$ 1.5
Less: reclassification adjustment for gains included in net income [4]	5.0	1.8
Net derivative gains (losses)	$ 9.5	$ (.3)

(1) Pretax net unrealized holding (losses) gains arising during the six months ended June 30, 2006 and 2005 were $(322.1) million and $18.0 million, respectively.

(2) Pretax reclassification adjustments for losses included in net income were $(12.4) million and $(14.0) million for the six months ended June 30, 2006 and 2005, respectively.

(3) Pretax net derivative gains arising during

the six months ended June 30, 2006 and 2005 were $22.2 million and $2.3 million, respectively.

(4) Pretax reclassification adjustments for gains included in net income were $7.7 million and $2.8 million for the six months ended June 30, 2006 and 2005, respectively.

9. Employee Benefit Plans

Defined Benefit Retirement Plans

Components of the net periodic benefit cost of our noncontributory defined benefit pension plans and other post-retirement benefit (OPEB) plans for the three and six months ended June 30, 2006 and 2005 were as follows:

	Pension Plans				**OPEB Plans**			
	Three Months Ended June 30,		**Six Months Ended June 30,**		**Three Months Ended June 30,**		**Six Months Ended June 30,**	
(Millions)	**2006**	**2005**	**2006**	**2005**	**2006**	**2005**	**2006**	**2005**
Service cost	$ 24.5	$ 23.2	$ 49.0	$ 46.4	$ .1	$ .1	$ .2	$ .2
Interest cost	70.8	68.5	141.6	137.0	6.3	7.0	12.6	14.0
Expected return on plan assets	(102.7)	(92.6)	(205.4)	(185.2)	(1.0)	(1.1)	(2.0)	(2.2)
Amortization of prior service cost	1.4	1.3	2.8	2.6	(.5)	(.3)	(1.0)	(.6)
Recognized net actuarial loss	19.3	18.6	38.6	37.2	1.8	1.5	3.6	3.0
Net periodic benefit cost	$ 13.3	$ 19.0	$ 26.6	$ 38.0	$ 6.7	$ 7.2	$ 13.4	$ 14.4

Stock-Based Compensation Plans

Our stock-based compensation plans (the Plans) provide for awards of stock options, stock appreciation rights (SARs), restricted stock units (RSUs), deferred contingent common stock and the ability for employees to purchase common stock at a discount. At June 30, 2006, approximately 125 million common shares were available for issuance under the Plans.

Executive, middle management and non-management employees may be granted stock options, SARs and RSUs. Stock options are granted to purchase our common stock at or above the market price on the date of grant. SARs granted will be settled in stock, net of taxes, based on the appreciation of our stock price on the exercise date over the market price on the date of grant. SARs and stock options generally become 100% vested three years after the grant is made, with one-third vesting each year. From time to time, we have issued SARs and stock options with different vesting provisions. Vested SARs and stock options may be exercised at any time during the 10 years after grant, except in certain circumstances, generally related to employment termination or retirement. At the end of the 10-year period, any unexercised SARs and stock options expire. For each RSU granted, employees receive one share of common stock, net of taxes, at the end of the vesting period. The RSUs generally become 100% vested three years from the grant date.

All of our employees are eligible to participate in our Employee Stock Purchase Plan (the ESPP). Employees may contribute a percentage of their base salary through payroll deductions. Contributions are accumulated for a six-month offering period and used to purchase stock at the end of the six-month offering period (the Purchase Date). On the Purchase Date, stock is purchased for all participating employees based on the contributions accumulated (subject to a $25,000 annual limit per employee). A six-month accumulation period commenced on December 19, 2005 and ended on June 16, 2006. The purchase price for this offering was at a 5% discount from the stock s fair market value on the Purchase Date. For the six months ended June 30, 2006, approximately .1 million shares of common stock were purchased under the ESPP at the purchase price of $37.27 per share. On June 19, 2006, another six-month accumulation period commenced. This accumulation period ends on December 15, 2006, and the purchase price for this offering is at a 5% discount from the stock s fair market value on the Purchase Date.

We estimate the fair value of stock options and awards of SARs using a modified Black-Scholes option pricing model. The fair value of RSUs is based on the market price of our common stock on the date of grant. Stock options and SARs granted in the three and six months ended June 30, 2006 had a weighted average fair value of $14.13 and $16.43, respectively, and $12.76 and $10.81, respectively, for the corresponding periods in 2005 using the assumptions noted in the following table:

	Three Months Ended June 30,		**Six Months Ended June 30,**	
	2006	**2005**	**2006**	**2005**
Dividend yield	.1%	.1%	.1%	.1%
Expected volatility	32.7%	31.3%	30.8%	31.3%
Risk-free interest rate	5.1%	3.3%	4.6%	3.7%
Expected term (years)	4.5	4.5	4.5	4.5

We use historical data to estimate the period of time that stock options or SARs are expected to be outstanding. Expected volatilities are based on a weighted average of the historical volatility of our stock price and implied volatility from traded options on our stock. The risk-free interest rate for periods within the expected life of the stock option or SAR is based on the benchmark five-year U.S. Treasury rate in effect on the date of grant. The dividend yield assumption is based on our historical dividends declared.

Table of Contents

The stock option and SAR transactions for the six months ended June 30, 2006 were as follows:

(Millions, except exercise price)	Number of Stock Options or SARs	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
Stock options				
Outstanding at December 31, 2005	53.4	$ 14.80	6.2	$ 1,727.5
Granted				
Exercised	(5.3)	10.50		188.8
Expired or forfeited	(.3)	23.22		
Outstanding at June 30, 2006	47.8	$ 15.22	5.8	$ 1,182.2
Stock options exercisable at June 30, 2006	42.3	$ 12.87	5.4	$ 1,145.6
SARs				
Outstanding at December 31, 2005		$		$
Granted	5.5	49.93		
Exercised				
Expired or forfeited	(.1)	50.21		
Outstanding at June 30, 2006	5.4	$ 49.93	9.4	$
SARs exercisable at June 30, 2006	(1)	$ 50.21	4.9	$

(1) Amounts rounded to zero.

During the three and six months ended June 30, 2006 and 2005, the following activity occurred under our Plans:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Cash received from stock option exercises	$ 18.8	$ 60.4	$ 53.9	$ 179.1
Intrinsic value (the excess of stock price on the date of exercise over the exercise price)	53.1	143.6	188.8	383.7
Tax benefits realized for the tax deductions from stock options exercised (1)	18.6	50.9	66.1	136.5
Fair value of stock options vested (2)	2.1	2.6	67.3	58.2

(1) No SARs were exercised during these periods.

(2) No SARs vested during these periods.

Table of Contents

We settle employee stock options with newly issued common stock and generally utilize the proceeds to repurchase common stock in the open market in the same period.

The following is a summary of information regarding stock options and SARs outstanding and exercisable at June 30, 2006 (number of stock options and SARs and aggregate intrinsic values in millions):

	Outstanding				Exercisable		
Range of Exercise Prices	Number Outstanding	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Aggregate Intrinsic Value	Number Exercisable	Weighted Average Exercise Price	Aggregate Intrinsic Value
Stock options							
$0.00-$5.21	1.3	3.1	$ 4.95	$ 45.8	1.3	$ 4.95	$ 45.8
5.21-10.42	15.3	4.5	8.18	485.7	15.3	8.18	485.7
10.42-15.63	14.2	5.2	10.63	415.2	14.1	10.62	414.5
15.63-20.84	8.7	7.1	19.35	178.5	8.6	19.36	177.3
20.84-26.06	.3	7.8	21.94	5.6	.3	21.92	4.7
26.06-31.27	(1)	8.4	27.54				
31.27-36.48	7.8	8.1	33.38	51.1	2.7	33.38	17.5
36.48-41.69	.2	8.9	38.90	.3	(1)	38.75	.1
41.69-46.90	(1)	9.1	42.16				
$0.00-$46.90	47.8	5.8	$ 15.22	$ 1,182.2	42.3	$ 12.87	$ 1,145.6
SARs							
$36.48-$41.69	.1	10.0	$ 39.98	$		$	$
41.69-46.90							
46.90-52.11	5.3	9.4	50.20		(1)	50.21	
$36.48-$52.11	5.4	9.4	$ 49.93	$	(1)	$ 50.21	$

(1) Amounts rounded to zero.

RSU transactions for the six months ended June 30, 2006 were as follows (number of units in millions):

	RSUs	Weighted Average Grant Date Fair Value
RSUs at December 31, 2005	(1)	$ 34.62
Granted	.8	50.14
Vested	(1)	34.03
Forfeited	(1)	50.21

RSUs at June 30, 2006	.8	$	49.83

(1) Amounts rounded to zero.

For the three and six months ended June 30, 2006, we recorded pretax stock-based compensation expense of $12 million and $50 million, respectively, and $23 million and $76 million, respectively, for the corresponding periods in 2005, in general and administrative expenses. We also recorded related tax benefits of $4 million and $18 million for the three and six months ended June 30, 2006, respectively, and $8 million and $27 million, respectively, for the corresponding periods in 2005. As of June 30, 2006, $100 million of total unrecognized compensation costs related to stock options, SARs and RSUs are expected to be recognized over a weighted-average period of 2.3 years.

Table of Contents

10. Debt

The carrying value of long-term debt at June 30, 2006 and December 31, 2005 was as follows:

(Millions)	June 30, 2006	December 31, 2005
Senior Notes, 7.375%, due 2006 [1]	$	$ 450.0
Senior Notes, 5.75%, due 2011	449.5	
Senior Notes, 7.875%, due 2011	448.3	448.1
Senior Notes, 6.0%, due 2016	745.6	
Senior Notes, 6.625%, due 2036	798.4	
Senior Notes, 8.5%, due 2041[2]		707.6
Total long-term debt	2,441.8	1,605.7
Less: current portion of long-term debt [1]		(450.0)
Long-term debt, less current portion	$ 2,441.8	$ 1,155.7

(1) The 7.375% senior notes were repaid in February 2006.

(2) The 8.5% senior notes were redeemed and repaid in June 2006.

In June 2006, we issued $2.0 billion of senior notes, comprised of $450 million of 5.75% senior notes due 2011, $750 million of 6.0% senior notes due 2016 and $800 million of 6.625% senior notes due 2036. The proceeds from these senior notes were used to redeem the entire $700 million aggregate principal amount of our 8.5% senior notes due 2041 and to repay approximately $400 million commercial paper borrowings, outstanding since the March 1, 2006 maturity of the entire $450 million aggregate principal amount of our 7.375% senior notes. The remainder of the net proceeds will be used for general corporate purposes, including share repurchases. In connection with the redemption of the $700 million, 8.5% senior notes, we wrote off deferred debt issuance costs associated with these senior notes and recognized the deferred gain from the interest rate swaps that hedged these senior notes (in May 2005, we sold these interest rate swaps; the resulting gain from which was to be amortized over the remaining life of these senior notes). As a result of the foregoing, we recorded an $8 million after tax ($12 million pretax) non-cash charge in operating expenses.

Additionally, in connection with our June 2006 debt issuance, we terminated the five forward starting swaps (with an aggregate notional value of $1.0 billion) that we entered into between August 2005 and June 2006 in order to hedge the change in cash flows associated with interest payments generated by the forecasted issuance of the senior notes. As a result of the termination of the five forward starting swaps, we received approximately $15 million which was recorded as accumulated other comprehensive income and will be amortized as a reduction of interest expense over the life of the applicable senior notes issued in June 2006.

On January 20, 2006, we entered into an amended and restated unsecured $1 billion, five-year revolving credit agreement (the new credit facility) superceding our previously existing credit facility. The new credit facility also provides for up to $150 million of letters of credit to be issued at our request, which count as usage of the available

commitments under the facility. The new credit facility permits the aggregate commitments under the facility to be expanded to a maximum of $1.35 billion upon our agreement with one or more financial institutions. Various interest rate options are available under the new credit facility. Any revolving borrowings mature on the termination date of the new credit facility. We pay facility fees on the new credit facility ranging from .05% to .175% per annum, depending upon our long-term senior unsecured debt rating. The new credit facility contains a financial covenant that requires us to maintain a ratio of total debt to consolidated capitalization as of the end of each fiscal quarter ending on or after December 31, 2005 at or below .4 to 1.0. For this purpose, consolidated capitalization equals the sum of shareholders equity, excluding any minimum pension liability adjustment and any net unrealized capital gains and losses, and total debt (as defined in the facility). We met this requirement at June 30, 2006.

In January 2006, certain of our subsidiaries entered in a one-year $45 million variable funding credit program with a bank to provide short-term liquidity to those subsidiaries. Borrowings under this program are secured by certain assets of those subsidiaries. As of June 30, 2006, there was $33 million outstanding under this program at an interest rate of 6.11%.

11. Capital Stock

On September 29, 2005, January 27, 2006 and April 28, 2006, the Board authorized three share repurchase programs for the repurchase of up to $750 million, $750 million and $820 million, respectively, of common stock ($2.3 billion in aggregate). During the six month period ended June 30, 2006, we repurchased approximately 24 million shares of common stock at a cost of approximately $991 million (approximately $40 million of these repurchase transactions were settled in early July 2006), completing the September 29, 2005 authorization and utilizing a portion of the January 27, 2006 authorization. As of June 30, 2006, we have authorization to repurchase up to approximately $1.2 billion of common stock remaining under the January 27, 2006 and April 28, 2006 authorizations.

In connection with the stock split described in Note 1, the Board approved an amendment to our Articles of Incorporation. The amendment increased the number of common shares we may issue to 2.9 billion shares effective February 17, 2006. This increase is in the same proportion that the shares distributed in the stock dividend increased the number of issued common shares.

12. Dividend Restrictions and Statutory Surplus

Under regulatory requirements as of June 30, 2006, the amount of dividends that may be paid through the end of 2006 by our insurance and HMO subsidiaries to Aetna without prior approval by regulatory authorities is approximately $377 million in the aggregate. There are no such restrictions on distributions from Aetna to our shareholders.

At June 30, 2006, the combined statutory capital and surplus of our insurance and HMO subsidiaries was $4.1 billion. At December 31, 2005, such capital and surplus was $4.5 billion.

13. Commitments and Contingencies

Managed Care Class Action Litigation

From 1999 through early 2003, we were involved in purported class action lawsuits as part of a wave of similar actions targeting the health care payor industry and, in particular, the conduct of business by managed care companies. These cases, brought on behalf of health care providers (the Provider Cases), alleged generally that we and other defendant managed care organizations engaged in coercive behavior or a variety of improper business practices in dealing with health care providers and conspired with one another regarding this purported wrongful conduct.

Effective May 21, 2003, we and representatives of over 900,000 physicians, state and other medical societies entered into an agreement (the Physician Settlement Agreement) settling the lead physician Provider Case, which was pending in the United States District Court for the Southern District of Florida (the Florida Federal Court). We believe that the Physician Settlement Agreement, which has received final court approval, resolved all then pending Provider Cases filed on behalf of physicians that did not opt out of the settlement. During the second quarter of 2003, we recorded a charge of $75 million ($115 million pretax) (included in other operating expenses) in connection with the Physician Settlement Agreement, net of an estimated insurance recoverable of $72 million pretax. We believe our insurance policies with third party insurers apply to this matter and have been vigorously pursuing recovery from those insurers in Pennsylvania state court (the Coverage Litigation). During the second quarter of 2006, the Philadelphia, Pennsylvania state trial court issued a summary judgment ruling dismissing all of our claims in the Coverage Litigation. We have appealed that ruling and intend to continue to vigorously pursue recovery from our third party insurers. However, as a result of that ruling, we concluded that the estimated insurance recoverable of $72 million pretax that was recorded in connection with the Physician Settlement Agreement is no longer probable of collection for accounting purposes, and therefore, during the second quarter of 2006, we wrote off that recoverable. We continue to work with plaintiffs representatives in implementing the Physician Settlement Agreement and the issues that may arise under that agreement.

Several Provider Cases filed in 2003 on behalf of purported classes of chiropractors and/or all non-physician health care providers also make factual and legal allegations similar to those contained in the other Provider Cases, including allegations of violations of the Racketeer Influenced and Corrupt Organizations Act. These Provider Cases seek various forms of relief, including unspecified damages, treble damages, punitive damages and injunctive relief. These Provider Cases have been transferred to the Florida Federal Court for consolidated pretrial proceedings. We intend to defend each of these cases vigorously.

Insurance Industry Brokerage Practices Matters

We have received subpoenas and other requests for information from the New York Attorney General, the Connecticut Attorney General, other attorneys general and various insurance and other regulators with respect to an industry wide investigation into certain insurance brokerage practices, including broker compensation arrangements, bid quoting practices and potential antitrust violations. We may receive additional subpoenas and requests for information from these attorneys general and regulators. We are cooperating with these inquiries.

In connection with this industry wide review, we have, and may, receive additional subpoenas and requests for information from other attorneys general and other regulators, and be named in related litigation.

Other Litigation and Regulatory Proceedings

We are involved in numerous other lawsuits arising, for the most part, in the ordinary course of our business operations, including employment litigation and claims of bad faith, medical malpractice, non-compliance with state regulatory regimes, marketing misconduct, failure to timely pay medical claims, investment activities, intellectual property and other litigation in our Health Care and Group Insurance businesses. Some of these other lawsuits are or are purported to be class actions. We intend to defend these matters vigorously.

In addition, our current and past business practices are subject to review by, and from time to time we receive subpoenas and other requests for information from, various state insurance and health care regulatory authorities and other state and federal authorities. There also continues to be heightened review by regulatory authorities of the managed health care industry s business practices, including utilization management, delegated arrangements and claim payment practices. As a leading national managed care organization, we regularly are the subject of such reviews. These reviews may result, and have resulted, in changes to or clarifications of our business practices, as well as fines, penalties or other sanctions.

We are unable to predict at this time the ultimate outcome of the remaining Provider Cases, the insurance industry brokerage practices matters or other litigation and regulatory proceedings, and it is reasonably possible that their outcome could be material to us.

Table of Contents

14. Segment Information

Summarized financial information of our segments for the three and six months ended June 30, 2006 and 2005 were as follows:

(Millions)	Health Care	Group Insurance	Large Case Pensions	Corporate Interest	Total Company
Three months ended June 30, 2006					
Revenue from external customers	$ 5,451.0	$ 486.1	$ 50.3	$	$ 5,987.4
Operating earnings (loss) [1]	352.9	36.0	10.1	(21.9)	377.1
Three months ended June 30, 2005					
Revenue from external customers	$ 4,722.4	$ 456.4	$ 55.8	$	$ 5,234.6
Operating earnings (loss) [1]	329.2	30.9	7.5	(19.8)	347.8
Six months ended June 30, 2006					
Revenue from external customers	$ 10,857.6	$ 941.6	$ 107.3	$	$ 11,906.5
Operating earnings (loss) [1]	713.5	68.2	19.4	(43.7)	757.4
Six months ended June 30, 2005					
Revenue from external customers	$ 9,343.7	$ 915.1	$ 107.1	$	$ 10,365.9
Operating earnings (loss) [1]	699.7	60.4	11.6	(37.5)	734.2

[1] Operating earnings (loss) excludes net realized capital gains or losses and the other items described in the reconciliation below.

The following table reconciles operating earnings to income from continuing operations in the Consolidated Statements of Income for the three and six months ended June 30, 2006 and 2005:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Operating earnings	$ 377.1	$ 347.8	$ 757.4	$ 734.2
Net realized capital (losses) gains, net of tax	(7.4)	3.7	4.1	6.6
Reduction of reserve for anticipated future losses on discontinued products [1]	75.0	43.4	75.0	43.4

Physician class action settlement insurance-related charge [2]	(47.1)		(47.1)	
Debt refinancing charge [3]	(8.1)		(8.1)	
Acquisition-related software charge [4]			(6.2)	
Income from continuing operations	$ 389.5	$ 394.9	$ 775.1	$ 784.2

(1) We reduced the reserve for anticipated future losses on discontinued products by $75.0 million ($115.4 million pretax) and $43.4 million ($66.7 million pretax) in the second quarter of 2006 and 2005, respectively. We believe excluding any changes to the reserve for anticipated future losses on discontinued products provides more useful information as to our continuing products and is consistent with the treatment of the results of operations of these discontinued products, which are credited/charged to the reserve and do not affect our results of operations. Refer to Note 15 for additional

information on the reduction of the reserve for anticipated future losses on discontinued products.

(2) As a result of a trial court s ruling in the second quarter of 2006, we concluded that a $72.4 million pretax receivable from third party insurers related to certain litigation we settled in 2003 was no longer probable of collection for accounting purposes. As a result, we wrote off this receivable in the second quarter of 2006. We believe this charge neither relates to the ordinary course of our business nor reflects our underlying business performance and therefore, we have excluded it from operating earnings for the three and six months ended June 30, 2006 (refer to Note 13).

(3)

In connection with the issuance of $2.0 billion of our senior notes in the second quarter of 2006, we redeemed all $700 million of our 8.5% senior notes due 2041. In connection with this redemption, we wrote off debt issuance costs associated with the 8.5% senior notes due 2041 and recognized the deferred gain from the interest rate swaps that had hedged the 8.5% senior notes due 2041 (in May 2005, we sold these interest rate swaps; the resulting gain from which was to be amortized over the remaining life of the 8.5% senior notes due 2041). As a result of the foregoing, we recorded an $8.1 million ($12.4 million pretax) net charge in the second quarter of 2006. We believe this charge neither relates to the ordinary course of our business nor reflects our

underlying business performance and therefore, we have excluded it from operating earnings for the three and six months ended June 30, 2006 (refer to Note 10).

(4) As a result of the acquisition of Broadspire Disability in the first quarter of 2006, we acquired certain software which eliminated the need for similar software that we had been developing internally. As a result, we ceased our own software development and impaired amounts previously capitalized, resulting in a $6.2 million ($8.3 million pretax) charge to net income, reflected in general and administrative expenses for the six months ended June 30, 2006. This charge does not reflect the underlying business performance of Group Insurance.

Table of Contents

15. Discontinued Products

We discontinued the sale of our fully guaranteed large case pension products (single-premium annuities (SPAs) and guaranteed investment contracts (GICs)) in 1993. Under our accounting for these discontinued products, a reserve for anticipated future losses from these products was established, and we review it quarterly. As long as the reserve continues to represent our then best estimate of expected future losses, results of operations of the discontinued products, including net realized capital gains and losses, are credited/charged to the reserve and do not affect our results of operations. Our results of operations would be adversely affected to the extent that future losses on the products are greater than anticipated and favorably affected to the extent that future losses are less than anticipated. The current reserve reflects our best estimate of anticipated future losses.

The factors contributing to changes in the reserve for anticipated future losses are: operating income or loss, realized capital gains or losses and mortality gains or losses. Operating income or loss is equal to revenue less expenses. Realized capital gains or losses reflect the excess (deficit) of sales price over (below) the carrying value of assets sold and any other-than-temporary impairments. Mortality gains or losses reflect the mortality and retirement experience related to SPAs. A mortality gain (loss) occurs when an annuitant or a beneficiary dies sooner (later) than expected. A retirement gain (loss) occurs when an annuitant retires later (earlier) than expected.

At the time of discontinuance, a receivable from Large Case Pensions continuing products equivalent to the net present value of the anticipated cash flow shortfalls was established for the discontinued products. Interest on the receivable is accrued at the discount rate that was used to calculate the reserve. The offsetting payable, on which interest is similarly accrued, is reflected in continuing products. Interest on the payable generally offsets the investment income on the assets available to fund the shortfall. At June 30, 2006, the receivable from continuing products, net of related deferred taxes payable of $132 million on accrued interest income, was $307 million. At December 31, 2005, the receivable from continuing products, net of related deferred taxes payable of $127 million on accrued interest income, was $372 million. These amounts were eliminated in consolidation.

Table of Contents

Results of discontinued products for the three and six months ended June 30, 2006 and 2005 were as follows (pretax):

(Millions)	Results	Charged (Credited) to Reserve for Future Losses	Net [1]
Three months ended June 30, 2006			
Net investment income	$ 70.7	$	$ 70.7
Net realized capital gains	4.8	(4.8)	
Interest earned on receivable from continuing products	7.8		7.8
Other income	3.3		3.3
Total revenue	86.6	(4.8)	81.8
Current and future benefits	83.1	(3.8)	79.3
Operating expenses	2.5		2.5
Total benefits and expenses	85.6	(3.8)	81.8
Results of discontinued products	$ 1.0	$ (1.0)	$
Three months ended June 30, 2005			
Net investment income	$ 71.9	$	$ 71.9
Net realized capital losses	(1.3)	1.3	
Interest earned on receivable from continuing products	7.9		7.9
Other income	5.3		5.3
Total revenue	83.8	1.3	85.1
Current and future benefits	86.1	(2.5)	83.6
Operating expenses	1.5		1.5
Total benefits and expenses	87.6	(2.5)	85.1
Results of discontinued products	$ (3.8)	$ 3.8	$
Six months ended June 30, 2006			
Net investment income	$ 159.4	$	$ 159.4
Net realized capital gains	20.5	(20.5)	
Interest earned on receivable from continuing products	15.4		15.4
Other income	11.1		11.1
Total revenue	206.4	(20.5)	185.9
Current and future benefits	166.7	13.6	180.3

Operating expenses	5.6		5.6
Total benefits and expenses	172.3	13.6	185.9
Results of discontinued products	$ 34.1	$ (34.1)	$
Six months ended June 30, 2005			
Net investment income	$ 175.7	$	$ 175.7
Net realized capital losses	(.1)	.1	
Interest earned on receivable from continuing products	15.7		15.7
Other income	12.5		12.5
Total revenue	203.8	.1	203.9
Current and future benefits	173.0	26.2	199.2
Operating expenses	4.7		4.7
Total benefits and expenses	177.7	26.2	203.9
Results of discontinued products	$ 26.1	$ (26.1)	$

(1) Amounts are reflected in the June 30, 2006 and 2005 Consolidated Statements of Income, except for interest earned on the receivable from continuing products, which was eliminated in consolidation.

Table of Contents

Assets and liabilities supporting discontinued products at June 30, 2006 and December 31, 2005 were as follows: [1]

(Millions)	June 30, 2006	December 31, 2005
Assets:		
Debt securities available for sale	$ 2,792.7	$ 3,032.3
Equity securities available for sale	54.8	43.1
Mortgage loans	640.7	644.9
Investment real estate	84.2	103.6
Loaned securities	241.7	289.3
Other investments [2]	671.2	603.3
Total investments	4,485.3	4,716.5
Collateral received under securities loan agreements	246.8	295.4
Current and deferred income taxes	67.0	88.9
Receivable from continuing products [3]	439.2	498.8
Total assets	$ 5,238.3	$ 5,599.6
Liabilities:		
Future policy benefits	$ 3,844.2	$ 3,908.4
Policyholders funds	23.4	23.5
Reserve for anticipated future losses on discontinued products	970.9	1,052.2
Collateral payable under securities loan agreements	246.8	295.4
Other liabilities	153.0	320.1
Total liabilities	$ 5,238.3	$ 5,599.6

(1) Assets supporting the discontinued products are distinguished from assets supporting continuing products.

(2) Includes debt securities on deposit as required by regulatory authorities of $21.0 million and $21.3 million at June 30, 2006 and December 31, 2005, respectively. These securities are considered restricted assets and were included in long-term investments on the Consolidated Balance Sheets.

(3) The receivable from continuing products is eliminated in consolidation.

At June 30, 2006 and December 31, 2005, net unrealized capital gains on debt securities available for sale are included above in other liabilities and are not reflected in consolidated shareholders equity. The reserve for anticipated future losses is included in future policy benefits on the Consolidated Balance Sheets.

The reserve for anticipated future losses on discontinued products represents the present value (at a risk-free rate of return at the time of discontinuance, consistent with the duration of the liabilities) of the difference between the expected cash flows from the assets supporting discontinued products and the cash flows expected to be required to meet the obligations of the outstanding contracts. Calculation of the reserve for anticipated future losses requires projection of both the amount and the timing of cash flows over approximately the next 30 years, including consideration of, among other things, future investment results, participant withdrawal and mortality rates as well as the cost of asset management and customer service. Since 1993, there have been no significant changes to the assumptions underlying the calculation of the reserve related to the projection of the amount and timing of cash flows, except as noted below.

The projection of future investment results considers assumptions for interest rates, bond discount rates and performance of mortgage loans and real estate. Mortgage loan cash flow assumptions represent management s best estimate of current and future levels of rent growth, vacancy and expenses based upon market conditions at each reporting date. The performance of real estate assets has been consistently estimated using the most recent forecasts available. Since 1997, a bond default assumption has been included to reflect historical default experience, since the bond portfolio increased as a percentage of the overall investment portfolio and reflected more bond credit risk, concurrent with the declines in the commercial mortgage loan and real estate portfolios.

The previous years actual participant withdrawal experience is used for the current year assumption. Prior to 1995, the Company used the 1983 Group Annuitant Mortality table published by the Society of Actuaries (the Society). In 1995, the Society published the 1994 Uninsured Pensioner s Mortality table, which we have used since then.

Table of Contents

Our assumptions about the cost of asset management and customer service reflect actual investment and general expenses allocated over invested assets.
The activity in the reserve for anticipated future losses on discontinued products for the six months ended June 30, 2006 was as follows (pretax):

(Millions)	
Reserve for anticipated future losses on discontinued products at December 31, 2005	$ 1,052.2
Operating income	8.3
Net realized capital gains	20.5
Mortality and other	5.3
Reserve reduction	(115.4)
Reserve for anticipated future losses on discontinued products at June 30, 2006	$ 970.9

Management reviews the adequacy of the discontinued products reserve quarterly and, as a result, $115 million ($75 million after tax) and $67 million ($43 million after tax) of the reserve was released in the second quarter of 2006 and 2005, respectively, primarily due to favorable investment performance and favorable mortality and retirement experience compared to assumptions underlying the reserve calculation.

16. Discontinued Operations

On July 8, 2004, we were notified that the Congressional Joint Committee on Taxation approved a tax refund of approximately $740 million, including interest, relating to businesses that were sold in the 1990s by our former parent company. Also in 2004, we filed for, and were approved for, an additional $35 million tax refund related to other businesses that were sold by our former parent company. The tax refunds were recorded as income from discontinued operations in 2004. We received approximately $666 million of the tax refunds during 2004 and $69 million in 2005. We received the final approximately $50 million payment of these refunds in February 2006, which resulted in an additional $16 million of income from discontinued operations for the six months ended June 30, 2006.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
Aetna Inc.:

We have reviewed the consolidated balance sheet of Aetna Inc. and subsidiaries as of June 30, 2006, the related consolidated statements of income for the three-month and six-month periods ended June 30, 2006 and 2005 and the related consolidated statements of shareholders equity and cash flows for the six-month periods ended June 30, 2006 and 2005. These condensed consolidated financial statements are the responsibility of the Company s management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Aetna Inc. and subsidiaries as of December 31, 2005, and the related consolidated statements of income, shareholders equity, and cash flows for the year then ended (not presented herein); and in our report dated March 1, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ KPMG LLP

July 27, 2006

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations (MD&A)

Unless the context otherwise requires, references to the terms we, our or us used throughout this MD&A refer to Aetna Inc. (Aetna) and its subsidiaries (collectively, the Company).

OVERVIEW

We are one of the nation s leading diversified health care benefits companies, serving approximately 29.9 million people with information and resources to help them make better informed decisions about their health care. We offer a broad range of traditional and consumer-directed health insurance products and related services, including medical, pharmacy, dental, behavioral health, group life, long-term care and disability plans, and medical management capabilities. Our customers include employer groups, individuals, college students, part-time and hourly workers, health plans and government-sponsored plans. Our operations are conducted in three business segments: Health Care, Group Insurance and Large Case Pensions.

The following MD&A provides a review of our financial condition as of June 30, 2006 and December 31, 2005 and results of operations for the three and six months ended June 30, 2006 and 2005. This Overview should be read in conjunction with the entire MD&A, which contains detailed information that is important to understanding our results of operations and financial condition and the consolidated financial statements and other data presented herein, as well as the MD&A contained in our 2005 Annual Report on Form 10-K (the 2005 Annual Report). Furthermore, this Overview is qualified in its entirety by the full MD&A.

We reported income from continuing operations for the three and six months ended June 30, 2006 that was comparable to the results reported in the corresponding periods in 2005. Our results included favorable development of prior period health care cost estimates in both periods (the development in 2005 primarily related to the release of reserves associated with the New York Market Stabilization Pool) as further discussed in Health Care below. Excluding the reserve development, our operating profit increased, primarily reflecting growth in revenue from increases in membership levels and rate increases for renewing membership in 2006 as well as continued general and administrative expense efficiencies, partially offset by higher medical cost ratios in our Health Care segment. We experienced membership growth in both our administrative services contract (ASC) and Risk (where we assume all or a majority of risk for medical and dental care costs) products. As of June 30, 2006, we served approximately 15.4 million medical members (consisting of approximately 34% Risk members and 66% ASC members), 13.4 million dental members, 10.2 million pharmacy members and 15.3 million group insurance members. We continue to take actions designed to achieve further medical membership growth in 2006.

We continued to generate strong cash flows from operations in 2006. Cash flows provided by operating activities reflect the receipt of approximately $50 million, representing the final refund payment from the completion of certain Internal Revenue Service audits associated with businesses previously sold by our former parent company (refer to Note 16 of Condensed Notes to Consolidated Financial Statements for additional information). Operating cash flows were used to fund ordinary course operating activities and also reflect $180 million in voluntary contributions to our pension plan.

Other sources and uses of cash include the proceeds from our 2006 debt offering and repurchases of our common stock, respectively. In June 2006, we issued $2.0 billion of senior notes at interest rates ranging from 5.75% to 6.625%. The proceeds from these senior notes were used to redeem the entire $700 million aggregate principal amount of our 8.5% senior notes due 2041 and to repay approximately $400 million of commercial paper borrowings, outstanding since the March 1, 2006 maturity of the entire $450 million aggregate principal amount of our 7.375% senior notes. The remainder of the net proceeds raised will be used for general corporate purposes, including share repurchases. Refer to Liquidity and Capital Resources Financing, Financing Capacity and Capitalization and Note 10 of Condensed Notes to Consolidated Financial Statements for additional information. We also continued our share repurchase programs during the six months ended June 30, 2006, repurchasing 24 million shares of our common stock at a cost of approximately $991 million (approximately $40 million of these repurchase transactions were settled in early July 2006).

Effective January 1, 2006, we adopted Statement of Financial Accounting Standards (FAS) No. 123 Revised, *Share-Based Payment* (FAS 123R). FAS 123R requires us to expense the fair value of all stock-based compensation awards issued to employees and non-employees. Stock-based compensation expense is measured at the grant date, based on the fair value of the award. The expense is recognized over the requisite service period, which primarily is the vesting period, except for retirement eligible individuals for whom a majority of the expense is recognized in the year of grant. We applied the modified-retrospective approach of adopting FAS 123R and accordingly, all prior period financial information was adjusted to reflect our stock compensation activity since 1995. We recorded stock-based compensation expense, included in general and administrative expenses, of $8 million ($12 million pretax) and $15 million ($23 million pretax), representing $.01 and $.03 per common share, in the second quarter of 2006 and 2005, respectively, and $32 million ($50 million pretax) and $50 million ($76 million pretax), representing $.05 and $.08 per common share, for the six months ended June 30, 2006 and 2005, respectively. Stock-based compensation expense is recorded in each of our segments (primarily Health Care and Group Insurance). Refer to our segment results below and Notes 2 and 9 of Condensed Notes to Consolidated Financial Statements for additional information.

Summary of Consolidated Results for the Three and Six Months Ended June 30, 2006 and 2005:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Millions, except per share amounts)	**2006**	**2005**	**2006**	**2005**
Total revenues	$ 6,252.0	$ 5,496.9	$ 12,486.7	$ 10,923.8
Income from continuing operations [1]	389.5	394.9	775.1	784.2
Net income [2]	389.5	394.9	791.2	784.2
Income from continuing operations per common share	.67	.65	1.32	1.29
Net income per common share	.67	.65	1.34	1.29

(1) Income from continuing operations reflects favorable development of prior period health care cost estimates of approximately $6 million ($10 million pretax) and $35 million ($55 million pretax) for the three months ended June 30, 2006 and 2005, respectively. The favorable reserve development in 2005 included the release of approximately $31 million ($49 million pretax) of reserves related to the New York Market Stabilization Pool (for the six months ended June 30, 2005, we released approximately $65 million ($103 million pretax) of reserves related to the New York Market Stabilization Pool). This development was recorded in the Health Care segment and is discussed in further detail below in the discussion of Health Care results. Other items reflected in income from continuing operations include:

- For the three and six months ended June 30, 2006 and 2005 we reduced the reserve for anticipated future losses on discontinued products in the Large Case Pensions segment by $75.0 million ($115.4 million pretax) and $43.4 million ($66.7 million pretax), respectively.

- For the three and six months ended June 30, 2006 we recorded a charge of $47.1 million ($72.4 million pretax) in connection with the write off of an insurance recoverable as a result of a trial court summary judgment ruling (refer to Note 13 of Condensed Notes to Consolidated Financial Statements), and a net charge of $8.1 million ($12.4 million pretax) related to the write off of debt issuance costs and the recognition of deferred gains on terminated interest rate swaps in connection with the redemption of our 8.5% senior notes due 2041 (refer to Note 10 of Condensed Notes to Consolidated Financial Statements). Both of these charges are reflected in the Health Care segment.

- As a result of the acquisition of Broadspire Disability in the first quarter of 2006, we acquired certain software which eliminated the need for similar software we had been developing internally. As a result, we ceased our own software development and impaired amounts previously capitalized, resulting in a

$6.2 million ($8.3 million pretax) charge to net income, reflected in general and administrative expenses for the six months ended June 30, 2006 in the Group Insurance segment.

(2) Net income for the six months ended June 30, 2006 includes income from discontinued operations of $16.1 million related to the completion of certain Internal Revenue Service audits associated with businesses previously sold by our former parent company.

Management Update

On October 1, 2006, executive Chairman John W. Rowe, M.D., will retire. At that time, Chief Executive Officer and President Ronald A. Williams will be appointed Chairman of the Board. Dr. Rowe, formerly Chairman and Chief Executive Officer, previously announced his intention to retire from Aetna during 2006.

On April 27, 2006, we announced that Alan M. Bennett, Senior Vice President and Chief Financial Officer, plans to retire in the first quarter of 2007. Mr. Bennett has been our Chief Financial Officer since 2001. We are conducting a comprehensive search for a replacement, and Mr. Bennett is assisting us in the process to assure an orderly transition.

Table of Contents

Acquisition of Broadspire Disability Business

On March 31, 2006, we acquired the disability and leave management businesses of Broadspire Services, Inc. and Broadspire Management Services, Inc. (collectively, Broadspire Disability) for approximately $160 million. Broadspire Disability operates as a third party administrator, offering absence management services, including short-term and long-term disability administration and leave management, to employers.

Discussion of Segment Results and Operating Earnings

The discussion of our results of operations that follows is presented based on our reportable segments in accordance with FAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, and is consistent with our segment disclosure included in Note 14 of Notes to Condensed Consolidated Financial Statements. Each segment s discussion of results is based on operating earnings, which is the measure reported to our Chief Executive Officer for purposes of assessing the segment s financial performance and making operating decisions, such as allocating resources to the segment. Our operations are conducted in three business segments: Health Care, Group Insurance and Large Case Pensions.

Our discussion of the results of operations of each business segment is based on operating earnings, which exclude realized capital gains and losses as well as other items from net income reported in accordance with U.S. generally accepted accounting principles (GAAP). We believe excluding realized capital gains and losses from net income to arrive at operating earnings provides more useful information about our underlying business performance. Realized capital gains and losses arise from various types of transactions, primarily in the course of managing a portfolio of assets that support the payment of liabilities; however these transactions do not directly relate to the underwriting or servicing of products for our customers and are not directly related to the core performance of our business operations. We also may exclude other items from net income to arrive at operating earnings should those other items similarly not relate to the ordinary course of our business. In each segment discussion below, we present a table that reconciles operating earnings to net income reported in accordance with GAAP. Each table details the realized capital gains and losses and any other items excluded from net income, and the footnotes to each table describe the nature of each other item and why we believe it is appropriate to exclude that item from net income.

HEALTH CARE

Health Care consists of medical, pharmacy benefits management and dental and vision plans offered on both a Risk basis and an ASC basis (where the plan sponsor assumes all or a majority of the risk for medical and dental care costs). Medical plans include point-of-service (POS), health maintenance organization (HMO), preferred provider organization (PPO) and indemnity benefit (Indemnity) products. Medical plans also include health savings accounts (HSAs) and Aetna HealthFund®, consumer-directed health plans that combine traditional POS or PPO and/or dental coverage, subject to a deductible, with an accumulating benefit account. Health Care also offers specialty products, such as medical management and data analytics services, behavioral health plans and stop loss insurance, as well as products that provide access to our provider network in select markets.

Table of Contents

Operating Summary for the Three and Six Months Ended June 30, 2006 and 2005:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Premiums:				
Commerical Risk [1]	$ 4,325.9	$ 3,896.9	$ 8,622.4	$ 7,702.7
Medicare	436.0	248.8	865.6	496.5
Total premiums	4,761.9	4,145.7	9,488.0	8,199.2
Fees and other revenue	689.1	576.7	1,369.6	1,144.5
Net investment income	81.0	70.7	164.6	141.3
Net realized capital (losses) gains	(6.9)	3.8	(1.2)	5.8
Total revenue	5,525.1	4,796.9	11,021.0	9,490.8
Health care costs [2]	3,898.3	3,244.7	7,684.5	6,293.2
Operating expenses:				
Selling expenses	217.8	185.1	439.2	369.0
General and administrative expenses [3]	933.3	832.3	1,832.3	1,696.2
Total operating expenses	1,151.1	1,017.4	2,271.5	2,065.2
Amortization of other acquired intangible assets	20.1	11.5	40.0	22.2
Total benefits and expenses	5,069.5	4,273.6	9,996.0	8,380.6
Income before income taxes	455.6	523.3	1,025.0	1,110.2
Income taxes	162.4	191.6	367.5	406.7
Net income	$ 293.2	$ 331.7	$ 657.5	$ 703.5

(1) Commercial Risk includes all medical and dental risk products, except Medicare and Medicaid.

(2) The percentage of health care costs related to capitated arrangements (a fee arrangement where we pay providers a monthly fixed

fee for each member, regardless of the medical services provided to the member) was 5.6% and 5.8% for the three and six months ended June 30, 2006, respectively, compared to 7.9% and 8.2%, respectively, for the corresponding periods in 2005.

(3) Includes salaries and related benefit expenses of $511.6 million and $1.1 billion for the three and six months ended June 30, 2006, respectively, and $508.1 million and $1.1 billion, respectively, for the corresponding periods in 2005.

The table presented below reconciles operating earnings to net income reported in accordance with GAAP for the three and six months ended June 30, 2006 and 2005:

	Three Months Ended June 30,		Six Months Ended June 30,	
(Millions)	**2006**	**2005**	**2006**	**2005**
Net income	$ 293.2	$ 331.7	$ 657.5	$ 703.5
Other items included in net income:				
Net realized capital losses (gains)	4.5	(2.5)	.8	(3.8)
Physician class action settlement insurance-related charge (1)	47.1		47.1	
Debt refinancing charge (2)	8.1		8.1	

Operating earnings	$ 352.9	$ 329.2	$ 713.5	$ 699.7

(1) As a result of a trial court s ruling in the second quarter of 2006, we concluded that a $72.4 million pretax receivable from third party insurers related to certain litigation we settled in 2003 was no longer probable of collection for accounting purposes. As a result, we wrote off this receivable in the second quarter of 2006. We believe this charge neither relates to the ordinary course of our business nor reflects our underlying business performance and therefore, we have excluded it from operating earnings for the three and six months ended June 30, 2006.

(2) In connection with the issuance of $2.0 billion of our senior notes in the second quarter of 2006,

we redeemed all $700 million of our 8.5% senior notes due 2041. In connection with this redemption, we wrote off debt issuance costs associated with the 8.5% senior notes due 2041 and recognized the deferred gain from the interest rate swaps that had hedged the 8.5% senior notes due 2041 (in May 2005, we sold these interest rate swaps; the resulting gain from which was to be amortized over the remaining life of the 8.5% senior notes due 2041). As a result of the foregoing, we recorded an $8.1 million ($12.4 million pretax) net charge in the second quarter of 2006. We believe this charge neither relates to the ordinary course of our business nor reflects our underlying business performance and therefore, we have

excluded it from operating earnings for the three and six months ended June 30, 2006.

Operating earnings for the three months ended June 30, 2006 and 2005 reflect favorable development of prior period health care cost estimates of approximately $6 million and $35 million, respectively. The development in 2005 included the release of approximately $31 million of reserves related to the New York Market Stabilization Pool (for the six months ended June 30, 2005, we released approximately $65 million of reserves related to the New York Market Stabilization Pool). The reserve development is discussed in our discussion of Commercial Risk and Medicare results below. Including the reserve development, operating earnings for the three and six months ended June 30, 2006, when compared to the corresponding periods in 2005, reflect lower total underwriting margins (premiums less health care costs). Excluding the reserve development, total underwriting margins were comparable.

The increase in operating earnings for the three and six months ended June 30, 2006 when compared to the corresponding periods in 2005 reflects growth in premiums and fees and other revenue and improved operating expense efficiencies (operating expenses divided by total revenue) offset by lower total underwriting margins (before considering the reserve development). The growth in premiums and fees and other revenue resulted from increases in membership levels (refer to Membership), rate increases for renewing membership and the new Medicare Part D product offering effective January 1, 2006. Total operating expenses increased due to higher selling expenses (reflecting an increase in commissionable premiums from membership growth) and increases in general and administrative expenses due to higher employee related costs, outside services and other expenses associated with higher membership. Total operating expenses for the three and six months ended June 30, 2006 also reflect the write off of an insurance recoverable and a net charge related to our 2006 debt issuance. Despite the overall increase in operating expenses (including the other items in 2006 net income), our operating expense efficiency (total operating expenses divided by total revenues) improved in 2006 when compared to 2005. The total underwriting margin in 2006 reflects higher Commercial Risk medical cost ratios as further discussed below.

Medical Cost Ratio Increases Offset Commercial Risk Revenue Growth

Commercial Risk premiums increased approximately $429 million and $920 million for the three and six months ended June 30, 2006, respectively, when compared to the corresponding periods in 2005. These increases reflect premium rate increases on renewing business and increased membership levels.

Our Commercial Risk medical cost ratio was 81.1% for the three months ended June 30, 2006 compared to 77.6% for the corresponding period in 2005. Health care costs reflect favorable development of prior period health care cost estimates of approximately $11 million and $53 million pretax (the 2005 development included approximately $49 million pretax related to the release of reserves related to the New York Market Stabilization Pool) for the three months ended June 30, 2006 and 2005, respectively. Refer to Critical Accounting Estimates Health Care Costs Payable below for more information on our process for establishing our Health Care Costs Payable. Excluding the favorable development of prior period health care cost estimates, the adjusted Commercial Risk medical cost ratio was 81.4% and 78.9% for the three months ended June 30, 2006 and 2005, respectively (refer to the reconciliations of Commercial Risk health care costs to adjusted Commercial Risk health care costs below). Our Commercial Risk medical cost ratio was 80.3% for the six months ended June 30, 2006, compared to 76.1% for the corresponding period in 2005, although health care costs for the six months ended June 30, 2005 reflect a one-time release of approximately $65 million ($103 million pretax) of reserves related to the New York Market Stabilization Pool.

	Three Months Ended June 30,	
(Millions)	**2006**	**2005**
Commercial Risk health care costs (included in total health care costs above)	$ 3,508.3	$ 3,022.5
Approximate favorable development of prior period health care cost estimates:		
Favorable development of prior period health care cost estimates	11.0	4.0
Release of reserves related to participation in the New York Market Stabilization Pool		49.0
Subtotal approximate favorable development of prior period health care cost estimates	11.0	53.0

Adjusted Commercial Risk health care costs	$ 3,519.3	$ 3,075.5

The increase in our Commercial Risk medical cost ratio for the three and six months ended June 30, 2006 compared to the corresponding periods in 2005 reflects a percentage increase in per member premiums that was outpaced by a percentage increase in per member health care costs. Changes we expected in our membership base due to shifts in geographic concentrations as well as customer market and product mix changes caused our Commercial Risk medical cost ratio to increase in the 2006 periods. In addition, within our Northeast and Mid-Atlantic regions and Florida, our small group customer markets experienced competitive pricing behavior by our competitors (resulting in the loss of some of our business with more favorable medical cost ratios and lower new business growth than we expected) and higher than expected medical costs trends. Finally, our per member health care costs reflect a rise in the number of high dollar claims experienced by a large government customer and by our stop loss product during the 2006 periods. We are taking actions designed to mitigate the impact of future high dollar claims that include increased use of medical management techniques and targeted pricing actions.

As a result of the higher Commercial Risk medical cost ratios we experienced in the three and six months ended June 30, 2006, we expect our Commercial Risk medical cost ratio for the full-year 2006 to be higher than that experienced in 2005. However, we expect our full-year 2006 Commercial Risk medical cost ratio to moderate from the level we experienced in the second quarter of 2006 due to a shift to lower cost generic status for several drugs and targeted pricing actions.

Medicare results for the three and six months ended June 30, 2006 reflect growth from the corresponding periods in 2005.

Medicare premiums increased approximately $187 million and $369 million for the three and six months ended June 30, 2006, respectively, when compared to the corresponding periods in 2005. This increase reflects increases in supplemental premiums paid to us by the Centers for Medicare and Medicaid Services (CMS) and members participating in the new Medicare Part D prescription drug program which was effective January 1, 2006, as well as increased premiums paid to us by CMS for previously existing Medicare Advantage business due to higher membership levels.

The Medicare medical cost ratio for the three months ended June 30, 2006 was 89.5%, compared to 89.3% for the corresponding period in 2005. Health care costs for the second quarter of 2006 and 2005 reflect (unfavorable) favorable development of prior period health care cost estimates of approximately ($1) million and $2 million pretax, respectively. Excluding this development, the adjusted Medicare medical cost ratio was 89.3% and 90.2% for the three months ended June 30, 2006 and 2005, respectively (refer to the reconciliations of Medicare health care costs to adjusted Medicare health care costs below). The slight decrease in the adjusted Medicare medical cost ratio for the second quarter of 2006 reflects a change in our product mix as a result of the introduction of the Medicare Prescription Drug Plan.

	Three Months Ended June 30,	
(Millions)	**2006**	**2005**
Medicare health care costs (included in total health care costs above)	$ 390.3	$ 222.3
Approximate (unfavorable) favorable development of prior period health care cost estimates	(1.0)	2.0
Adjusted Medicare health care costs	$ 389.3	$ 224.3

The Medicare medical cost ratio was 88.4% for the six months ended June 30, 2006, compared to 87.2% for the corresponding period in 2005. The increase in the medical cost ratio for the six months ended June 30, 2006 when compared to the corresponding period in 2005 reflects a rate of increase of per member health care costs that outpaced the rate of increase for per member premiums, primarily due to lower CMS risk adjusted revenue, premised on a healthier member population, that has not been offset by corresponding improvements in medical cost performance.

Page 29

Table of Contents

Other Sources of Revenue

Fees and other revenue increased approximately $112 million and $225 million for the three and six months ended June 30, 2006, respectively, when compared to the corresponding periods in 2005, reflecting ASC membership growth, rate increases, sales of add-on services and other revenue from our recent acquisitions. Net investment income increased approximately $10 million and $23 million for the three and six months ended June 30, 2006, respectively, when compared to the corresponding periods in 2005, due primarily to higher average yields on the debt securities in our investment portfolio.

Net realized capital losses for the three months ended June 30, 2006 were due primarily to losses on the sale of debt securities in a rising interest rate environment. Net realized capital losses for the six months ended June 30, 2006 were due primarily to losses on the sale of debt securities in a rising interest rate environment partially offset by gains from derivatives (refer to INVESTMENTS Risk Management and Market-Sensitive Instruments for a discussion of our use of derivatives). Net realized capital gains for the three and six months ended June 30, 2005 were due primarily to real estate gains, gains on debt securities from rebalancing our investment portfolio and gains from futures contracts used for correlating the maturities of invested assets with the payment of expected liabilities.

Membership

Health Care s membership at June 30, 2006 and 2005 was as follows:

	2006			2005		
(Thousands)	**Risk**	**ASC**	**Total**	**Risk**	**ASC**	**Total**
Medical:						
Commercial	5,103	10,054	15,157	4,872	9,349	14,221
Medicare Advantage	123		123	101		101
Medicare Health Support Program		14	14			
Medicaid		113	113		113	113
Total Medical Membership	5,226	10,181	15,407	4,973	9,462	14,435
Consumer-Directed Health Plans [1]			621			420
Dental	5,022	8,352	13,374	4,986	7,990	12,976
Pharmacy:						
Commercial			9,141			8,579
Medicare PDP (stand-alone)			323			
Medicare Advantage PDP			114			
Total Pharmacy Benefit Management Services			9,578			8,579
Mail Order [2]			635			538
Total Pharmacy			10,213			9,117

(1)

Represents members in consumer-directed health plans included in Commercial medical membership above.

(2) Represents members who purchased medications through our mail order pharmacy operations during the second quarter 2006 and 2005, respectively.

Total medical and dental membership as of June 30, 2006 increased by 972 thousand and 398 thousand members, respectively, compared to June 30, 2005. The percentage of Risk and ASC medical membership was approximately 34% and 66%, respectively, at both June 30, 2006 and 2005.

GROUP INSURANCE

Group Insurance includes primarily group life insurance products offered on a Risk basis, including basic term group life insurance, group universal life, supplemental or voluntary programs and accidental death and dismemberment coverage. Group Insurance also includes group disability products offered on both a Risk and an ASC basis which consist primarily of short-term and long-term disability insurance (and products which combine both), as well as long-term care products, which provide benefits offered to cover the cost of care in private home settings, adult day care, assisted living or nursing facilities, primarily on a Risk basis. Additionally, as a result of the Broadspire Disability acquisition on March 31, 2006, Group Insurance includes absence management services, including short-term and long-term disability administration and leave management, to employers.

Table of Contents

Operating Summary for the Three and Six Months Ended June 30, 2006 and 2005:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Premiums:				
Life	$ 332.9	$ 332.1	$ 658.5	$ 662.2
Disability	101.6	93.4	198.9	190.1
Long-Term Care	26.0	23.3	51.0	46.3
Total premiums	460.5	448.8	908.4	898.6
Fees and other revenue	25.6	7.6	33.2	16.5
Net investment income	73.9	63.5	150.3	137.4
Net realized capital (losses) gains	(6.9)	2.9	(3.6)	5.0
Total revenue	553.1	522.8	1,088.3	1,057.5
Current and future benefits	428.0	417.9	852.4	846.4
Operating expenses:				
Selling expenses	22.3	20.8	44.4	39.9
General and administrative expenses [1]	59.0	39.6	109.2	84.0
Total operating expenses	81.3	60.4	153.6	123.9
Amortization of other acquired intangible assets	1.7		1.7	
Total benefits and expenses	511.0	478.3	1,007.7	970.3
Income before income taxes	42.1	44.5	80.6	87.2
Income taxes	10.7	11.7	21.0	23.5
Net income	$ 31.4	$ 32.8	$ 59.6	$ 63.7

(1) Includes salaries and related benefit expenses of $33.2 million and $56.5 million for the three and six months ended June 30, 2006, respectively, and $29.5 million and $54.9 million, respectively, for

the corresponding periods in 2005.

The table presented below reconciles operating earnings to net income reported in accordance with GAAP for the three and six months ended June 30, 2006 and 2005:

(Millions, after tax)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Net income	$ 31.4	$ 32.8	$ 59.6	$ 63.7
Other items included in net income:				
Acquisition-related software charge [1]			6.2	
Net realized capital losses (gains)	4.6	(1.9)	2.4	(3.3)
Operating earnings	$ 36.0	$ 30.9	$ 68.2	$ 60.4

[1] As a result of the acquisition of Broadspire Disability in the first quarter of 2006, we acquired certain software which eliminated the need for similar software we had been developing internally. As a result, we ceased our own software development and impaired amounts previously capitalized, resulting in a $6.2 million ($8.3 million pretax) charge to net income, reflected in general and administrative expenses for the six months ended June 30, 2006. This charge does not

reflect the underlying business performance of Group Insurance and therefore, we have excluded it from operating earnings for the six months ended June 30, 2006.

The increase in operating earnings for the three and six months ended June 30, 2006, when compared to the corresponding periods in 2005, reflects higher fees and other revenue, higher net investment income and a slightly lower benefit cost ratio partially offset by higher general and administrative expenses. The operating earnings for the three and six months ended June 30, 2006 also reflect increases in fees and other revenue as well as general and administrative expenses related to the March 2006 acquisition of Broadspire Disability. The benefit cost ratio was 92.9% and 93.8% for the three and six months ended June 30, 2006, respectively, compared to 93.1% and 94.2% for the corresponding periods in 2005, primarily reflecting a decrease in the disability benefit cost ratio due to favorable experience.

Net realized capital losses for the three month and six months ended June 30, 2006 were due primarily to losses on the sale of debt securities in a rising interest rate environment. Net realized capital gains for the three and six months ended June 30, 2005 were due primarily to real estate gains and gains from futures contracts used for correlating the maturities of invested assets with the payment of expected liabilities.

Membership

Group Insurance s membership at June 30, 2006 and 2005 was as follows:

(Thousands)	2006	2005
Life	10,234	10,904
Disability [1]	4,793	2,525
Long-Term Care	238	233
Total	15,265	13,662

[1] Includes approximately 2.1 million members acquired in the Broadspire Disability acquisition on March 31, 2006.

Total Group Insurance membership as of June 30, 2006 increased by 1.6 million members when compared to June 30, 2005. New membership in Group Insurance was 3.8 million for the twelve months ended June 30, 2006, and lapses and in-force membership reductions were 2.2 million for the same period, primarily reflecting new membership from the Broadspire Disability acquisition offset by lapses in several large cases.

LARGE CASE PENSIONS

Large Case Pensions manages a variety of retirement products (including pension and annuity products) primarily for tax qualified pension plans. These products provide a variety of funding and benefit payment distribution options and other services. The Large Case Pensions segment includes certain discontinued products.

Operating Summary for the Three and Six Months Ended June 30, 2006 and 2005:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Premiums	$ 47.4	$ 52.9	$ 101.6	$ 101.6
Net investment income	120.9	122.4	258.9	269.1
Other revenue	2.9	2.9	5.7	5.5
Net realized capital gains (losses)	2.6	(1.0)	11.2	(.7)
Total revenue	173.8	177.2	377.4	375.5
Current and future benefits	150.8	163.4	327.1	350.2
General and administrative expenses [1]	4.8	3.3	9.2	8.2
Reduction of reserve for anticipated future losses on discontinued products	(115.4)	(66.7)	(115.4)	(66.7)
Total benefits and expenses	40.2	100.0	220.9	291.7
Income before income taxes	133.6	77.2	156.5	83.8

Income taxes	46.8	27.0	54.8	29.3
Net income	$ 86.8	$ 50.2	$ 101.7	$ 54.5

Assets under management: [2]		
Fully guaranteed discontinued products	$ 4,443.7	$ 4,566.7
Experience-rated	4,106.7	4,429.9
Non-guaranteed [3]	13,573.7	11,280.0
Total assets under management	$ 22,124.1	$ 20,276.6

(1) Includes salaries and related benefit expenses of $3.5 million and $6.6 million for the three and six months ended June 30, 2006, respectively, and $3.7 million and $7.3 million, respectively, for the corresponding periods in 2005.

(2) Excludes net unrealized capital gains of $52.9 million and $625.1 million at June 30, 2006 and 2005, respectively.

(3) The increase in non-guaranteed assets under management in 2006 is due primarily to investment appreciation and additional deposits accepted from

customers.

The table presented below reconciles operating earnings to net income reported in accordance with GAAP for the three and six months ended June 30, 2006 and 2005:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Net income	$ 86.8	$ 50.2	$ 101.7	$ 54.5
Other items included in net income:				
Reduction of reserve for anticipated future losses on discontinued products [1]	(75.0)	(43.4)	(75.0)	(43.4)
Net realized capital (gains) losses	(1.7)	.7	(7.3)	.5
Operating earnings	$ 10.1	$ 7.5	$ 19.4	$ 11.6

(1) In 1993, we discontinued the sale of our fully guaranteed large case pension products and established a reserve for anticipated future losses on these products, which we review quarterly. Changes in this reserve are recognized when deemed appropriate. In the three and six months ended June 30, 2006 and 2005, we reduced the reserve for anticipated future losses on discontinued products by $75.0 million ($115.4 million pretax) and $43.4 million ($66.7 million pretax),

respectively. We believe excluding any changes to the reserve for anticipated future losses on discontinued products provides more useful information as to our continuing products and is consistent with the treatment of the results of operations of these discontinued products, which are credited/charged to the reserve and do not affect our results of operations.

The increase in operating earnings for the three and six months ended June 30, 2006 compared to the corresponding periods in 2005 reflects an increase in net investment income in continuing products primarily due to higher income in other investments.

The reduction of the reserve for anticipated future losses on discontinued products for the three and six months ended June 30, 2006 and 2005 was primarily due to favorable investment performance and favorable mortality and retirement experience compared to assumptions underlying the reserve calculation.

General account assets supporting experience-rated products (where the contract holder, not us, assumes investment and other risks subject to, among other things, certain minimum guarantees) may be subject to contract holder or participant withdrawal. Experience-rated contract holder and participant withdrawals for the three and six months ended June 30, 2006 and 2005 were as follows:

	Three Months Ended June 30,		**Six Months Ended June 30,**	
(Millions)	**2006**	**2005**	**2006**	**2005**
Scheduled contract maturities and benefit payments [1]	$ 86.6	$ 92.1	$ 173.8	$ 187.1
Contract holder withdrawals other than scheduled contract maturities and benefit payments	15.2	4.4	21.5	15.0
Participant-directed withdrawals	6.0	4.1	11.1	9.1

[1] Includes payments made upon contract maturity and

other amounts
distributed in
accordance with
contract
schedules.

Discontinued Products

We discontinued the sale of our fully guaranteed large case pension products (single-premium annuities (SPAs) and guaranteed investment contracts) in 1993. We established a reserve for anticipated future losses on these products based on the present value of the difference between the expected cash flows from the assets supporting these products and the cash flows expected to be required to meet the product obligations.

Results of operations of discontinued products, including net realized capital gains (losses), are credited (charged) to the reserve for anticipated future losses. Our results of operations would be adversely affected to the extent that future losses on the products are greater than anticipated and favorably affected to the extent future losses are less than anticipated.

The factors contributing to changes in the reserve for anticipated future losses are: operating income or loss, realized capital gains or losses and mortality gains or losses. Operating income or loss is equal to revenue less expenses. Realized capital gains or losses reflect the excess (deficit) of sales price over (below) the carrying value of assets sold and any other-than-temporary impairments. Mortality gains or losses reflect the mortality and retirement experience related to SPAs. A mortality gain (loss) occurs when an annuitant or a beneficiary dies sooner (later) than expected. A retirement gain (loss) occurs when an annuitant retires later (earlier) than expected.

The results of discontinued products for the three and six months ended June 30, 2006 and 2005 were as follows:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Interest (deficit) margin [1]	$ (8.0)	$ (9.2)	$ (4.7)	$ 1.8
Net realized capital gains (losses)	3.1	(.8)	13.3	
Interest earned on receivable from continuing products	5.1	5.1	10.0	10.2
Other, net	2.1	4.0	7.2	8.1
Results of discontinued products, after tax	$ 2.3	$ (.9)	$ 25.8	$ 20.1
Results of discontinued products, pretax	$ 1.0	$ (3.8)	$ 34.1	$ 26.1
Net realized capital losses from bonds, after tax (included above)	$ (3.1)	$ (2.9)	$ (1.3)	$ (.1)

(1) The interest (deficit) margin is the difference between earnings on invested assets and interest credited to contract holders.

The interest deficit for the six months ended June 30, 2006 compared to the interest margin for the corresponding period in 2005 was primarily due to lower net investment income.

For the three and six months ended June 30, 2006, net realized capital gains were due primarily to gains from the sale of real estate partially offset by losses on the sale of debt securities in a rising interest rate environment and on futures contracts. Additionally, for the six months ended June 30, 2006 gains were also due to the sale of equity securities. For the three months ended June 30, 2005, the net realized capital losses were primarily due to losses on the sale of debt securities partially offset by gains on futures contracts.

At the time of discontinuance, a receivable from Large Case Pensions continuing products equivalent to the net present value of the anticipated cash flow shortfalls was established for the discontinued products. Interest on the receivable is accrued at the discount rate that was used to calculate the reserve. Total assets supporting discontinued products and the reserve include a receivable from continuing products of $307 million at June 30, 2006 and $372 million at December 31, 2005, net of related deferred taxes payable. These amounts were eliminated in consolidation.

The reserve for anticipated future losses on discontinued products represents the present value (at the risk-free rate at the time of discontinuance, consistent with the duration of the liabilities) of the difference between the expected cash flows from the assets supporting discontinued products and the cash flows expected to be required to meet the obligations of the outstanding contracts. Calculation of the reserve for anticipated future losses requires projection of both the amount and the timing of cash flows over approximately the next 30 years, including consideration of, among other things, future investment results, participant withdrawal and mortality rates, as well as the cost of asset management and customer service. Since 1993, there have been no significant changes to the assumptions underlying

the calculation of the reserve related to the projection of the amount and timing of cash flows, except as noted below. The projection of future investment results considers assumptions for interest rates, bond discount rates and performance of mortgage loans and real estate. Mortgage loan cash flow assumptions represent management s best estimate of current and future levels of rent growth, vacancy and expenses based upon market conditions at each reporting date. The performance of real estate assets has been consistently estimated using the most recent forecasts available. Since 1997, a bond default assumption has been included to reflect historical default experience, since the bond portfolio increased as a percentage of the overall investment portfolio and reflected more bond credit risk, concurrent with the declines in the commercial mortgage loan and real estate portfolios.

The previous years actual participant withdrawal experience is used for the current-year assumption. Prior to 1995, we used the 1983 Group Annuitant Mortality table published by the Society of Actuaries (the Society). In 1995, the Society published the 1994 Uninsured Pensioner s Mortality table, which we have used since then.

Our assumptions about the cost of asset management and customer service reflect actual investment and general expenses allocated over invested assets.

Table of Contents

The activity in the reserve for anticipated future losses on discontinued products for the six months ended June 30, 2006 was as follows (pretax):

(Millions)	
Reserve for anticipated future losses on discontinued products at December 31, 2005	$ 1,052.2
Operating income	8.3
Net realized capital gains	20.5
Mortality and other	5.3
Reserve reduction	(115.4)
Reserve for anticipated future losses on discontinued products at June 30, 2006	$ 970.9

Management reviews the adequacy of the discontinued products reserve quarterly and, as a result, $115 million ($75 million after tax) and $67 million ($43 million after tax) of the reserve was released in the second quarter of 2006 and 2005, respectively, primarily due to favorable investment performance and favorable mortality and retirement experience compared to assumptions underlying the reserve calculation. The current reserve reflects management s best estimate of anticipated future losses.

The discontinued products investment portfolio at June 30, 2006 and December 31, 2005 was as follows:

	June 30, 2006		December 31, 2005	
(Millions)	Amount	Percent	Amount	Percent
Debt securities available for sale	$ 2,792.7	62.3%	$ 3,032.3	64.3%
Loaned securities	241.7	5.4	289.3	6.1
Total debt securities	3,034.4	67.7	3,321.6	70.4
Mortgage loans	640.7	14.3	644.9	13.7
Investment real estate	84.2	1.9	103.6	2.2
Equity securities available for sale	54.8	1.2	43.1	.9
Other [1]	671.2	14.9	603.3	12.8
Total	$ 4,485.3	100.0%	$ 4,716.5	100.0%

[1] Amount includes restricted debt securities on deposit as required by regulatory authorities of $21.0 million at June 30, 2006 and $21.3 million at December 31, 2005, included in long-term

investments on the Consolidated Balance Sheets.

Distributions on discontinued products for the three and six months ended June 30, 2006 and 2005 were as follows:

(Millions)	Three Months Ended June 30, 2006	Three Months Ended June 30, 2005	Six Months Ended June 30, 2006	Six Months Ended June 30, 2005
Scheduled contract maturities, settlements and benefit payments	$ 121.4	$ 124.3	$ 240.3	$ 247.1
Participant-directed withdrawals	.1	.1	.2	.1

Cash required to fund these distributions was provided by earnings and scheduled payments on, and sales of, invested assets.

CORPORATE INTEREST

Corporate interest expense represents interest incurred on our debt and is not recorded in our business segments. After-tax interest expense was $22 million and $44 million for the three and six months ended June 30, 2006, respectively, compared to $20 million and $38 million, respectively, for the corresponding periods in 2005. The increase in interest expense for the three and six months ended June 30, 2006, over the corresponding periods in 2005 was related to higher interest rates and the sale of interest rate swap agreements in 2005 as well as higher overall long-term debt as a result of our issuance of $2.0 billion in senior notes in June 2006.

INVESTMENTS

Investments disclosed in this section relate to our total portfolio (including assets supporting discontinued products and experience-rated products).

Total investments at June 30, 2006 and December 31, 2005 were as follows:

	June 30, 2006			December 31, 2005		
(Millions)	Current	Long-term	Total	Current	Long-term	Total
Debt securities available for sale:						
Available for use in current operations	$ 12,595.1	$	$ 12,595.1	$ 13,216.9	$	$ 13,216.9
Loaned securities	851.7		851.7	1,115.7		1,115.7
On deposit, as required by regulatory authorities		552.3	552.3		522.4	522.4
Debt securities available for sale	13,446.8	552.3	13,999.1	14,332.6	522.4	14,855.0
Equity securities available for sale	30.5	38.3	68.8	34.5	26.7	61.2
Short-term investments	92.7		92.7	114.8		114.8
Mortgage loans	242.8	1,351.5	1,594.3	86.7	1,460.8	1,547.5
Investment real estate		191.4	191.4	7.4	207.2	214.6
Other investments	3.5	1,080.7	1,084.2	2.7	1,113.0	1,115.7
Total investments	$ 13,816.3	$ 3,214.2	$ 17,030.5	$ 14,578.7	$ 3,330.1	$ 17,908.8

Total investments as of June 30, 2006 decreased approximately $878 million compared to December 31, 2005 primarily due to the decline in the market value of debt securities as a result of rising interest rates.

Debt and Equity Securities

Debt securities represented 82% at June 30, 2006 and 83% at December 31, 2005 of our total invested assets and supported the following types of products:

(Millions)	June 30, 2006	December 31, 2005
Supporting discontinued products	$ 3,055.4	$ 3,342.9
Supporting experience-rated products	1,779.0	1,920.8
Supporting remaining products	9,164.7	9,591.3
Total debt securities [(1)]	$ 13,999.1	$ 14,855.0

(1) Total debt securities include Below Investment Grade Securities of $754 million at June 30, 2006, and $967 million at December 31, 2005, of which 24% at June 30, 2006 and 25% at December 31,

2005 supported
discontinued and
experience-rated
products.

Debt securities reflect net unrealized capital losses of $122 million (comprised of gross unrealized capital gains of $273 million and gross unrealized capital losses of $395 million) at June 30, 2006 compared with net unrealized capital gains of $494 million (comprised of gross unrealized capital gains of $623 million and gross unrealized capital losses of $129 million) at December 31, 2005. Included in the net unrealized capital losses at June 30, 2006 were $42 million of net unrealized capital gains related to assets supporting discontinued products and $7 million of net unrealized capital gains related to experience-rated products. Of the net unrealized capital gains at December 31, 2005, $250 million relate to assets supporting discontinued products and $103 million relate to experience-rated products.

Equity securities reflect net unrealized capital gains of $1 million (comprised of gross unrealized capital gains of $5 million and gross unrealized capital losses of $4 million) at June 30, 2006 and $10 million (comprised entirely of gross unrealized capital gains) at December 31, 2005.

If management believes a decline in the value of a particular investment is temporary, the decline is recorded as an unrealized loss in Shareholders Equity. If the decline is other-than-temporary , the carrying value of the investment is written down and a realized capital loss is recorded in the Consolidated Statement of Income consistent with the guidance of FAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities,* FASB Staff Position FAS 115-1 and FAS 124-1, *The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments,* and the Securities and Exchange Commission Staff Accounting Bulletin No. 59, *Accounting for Noncurrent Marketable & Equities Securities*. Our impairment analysis is discussed in more detail in MD&A INVESTMENTS in our 2005 Annual Report.

At June 30, 2006 and December 31, 2005, we had no individually material unrealized losses on debt or equity securities which could have a material impact on our results of operations.

Capital Gains and Losses

For the three and six months ended June 30, 2006, net realized capital (losses) gains were $(11) million ($(7) million after tax) and $6 million ($4 million after tax), respectively. For the three and six months ended June 30, 2005, net realized capital gains were $6 million ($4 million after tax) and $10 million ($7 million after tax), respectively. There were no significant investment write downs from other-than-temporary impairments during 2006 or 2005. We had no individually material realized losses on debt or equity securities that impacted our results of operations during the three and six months ended June 30, 2006 and 2005.

Mortgage Loans

Our mortgage loan investments, net of impairment reserves, supported the following types of products at June 30, 2006 and December 31, 2005:

(Millions)	June 30, 2006	December 31, 2005
Supporting discontinued products	$ 640.7	$ 644.9
Supporting experience-rated products	321.9	320.8
Supporting remaining products	631.7	581.8
Total mortgage loans	$ 1,594.3	$ 1,547.5

The mortgage loan portfolio balance represented 9% of our total invested assets at June 30, 2006 and December 31, 2005. There were no material problem, restructured or potential problem loans included in mortgage loans at June 30, 2006 or December 31, 2005. There were no specific impairment reserves on these loans at June 30, 2006 or December 31, 2005.

Risk Management and Market-Sensitive Instruments

We manage interest rate risk by seeking to maintain a tight match between the durations of our assets and liabilities where appropriate while credit risk is managed by seeking to maintain high average quality ratings and diversified sector exposure within the debt securities portfolio. In connection with our investment and risk management objectives, we also use financial instruments whose market value is at least partially determined by, among other things, levels of or changes in interest rates (short-term or long-term), duration, prepayment rates, equity markets or credit ratings/spreads. Our use of these derivatives is generally limited to hedging purposes and has principally consisted of using interest rate swap agreements, warrants, forward contracts and futures contracts. These instruments, viewed separately, subject us to varying degrees of interest rate, equity price and credit risk. However, when used for hedging, we expect these instruments to reduce overall risk.

We regularly evaluate the risk of market-sensitive instruments by examining, among other things, levels of or changes in interest rates (short-term or long-term), duration, prepayment rates, equity markets or credit ratings/spreads. We also regularly evaluate the appropriateness of investments relative to our management-approved investment guidelines (and operate within those guidelines) and the business objective of the portfolios.

The risks associated with investments supporting experience-rated pension and annuity products in the Large Case Pensions business are assumed by those contract holders and not by us (subject to, among other things, certain minimum guarantees). Anticipated future losses associated with investments supporting discontinued fully guaranteed large case pension products are provided for in the reserve for anticipated future losses (refer to LARGE CASE PENSIONS Discontinued Products).

Management also reviews, on a quarterly basis, the impact of hypothetical net losses on our consolidated near-term financial position, results of operations and cash flows assuming certain reasonably possible changes in market rates and prices were to occur. Based on our overall exposure to interest rate risk and equity price risk, we believe that these changes in market rates and prices would not materially affect our consolidated near-term financial position, results of operations or cash flows as of June 30, 2006. Refer to our 2005 Annual Report for a more complete discussion of Risk

Management and Market-Sensitive Instruments.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

Generally, we meet our operating requirements by maintaining appropriate levels of liquidity in our investment portfolio and using overall cash flows from premiums, deposits and income received on investments. We monitor the duration of our debt securities portfolio (which is highly marketable) and mortgage loans, and execute purchases and sales of these investments with the objective of having adequate funds available to satisfy our maturing liabilities. Overall cash flows are used primarily for claim and benefit payments, contract withdrawals and operating expenses. The following table for the six months ended June 30, 2006 and 2005 details the operating cash flows of Health Care and Group Insurance separately from Large Case Pensions, as changes in Large Case Pensions insurance reserves are funded from the sale of investments, which impact cash flows from investing activities (and not operating cash flows).

(Millions)	2006	2005
Health Care and Group Insurance [1]	$ 707.4	$ 719.9
Large Case Pensions	(142.1)	(88.6)
Discontinued Operations	49.7	
Net cash provided by operating activities	$ 615.0	$ 631.3

[1] Includes corporate interest.

Cash flows provided by operating activities for Health Care and Group Insurance were approximately $707 million and $720 million for the six months ended June 30, 2006 and 2005, respectively. Included in these amounts were payments of approximately $180 million pretax in voluntary pension contributions in each fiscal period and approximately $175 million and $147 million pretax of employee related performance-based compensation payments for the six months ended June 30, 2006 and 2005, respectively. The cash flows from operating activities for the six months ended June 30, 2006 also reflect the receipt of the remaining $50 million refund resulting from the completion of certain Internal Revenue Service audits associated with businesses previously sold by our former parent company (refer to Note 16 of Condensed Notes to Consolidated Financial Statements for additional information). The cash flows provided by operating activities for the six months ended June 30, 2005 also include payments of approximately $150 million pretax related to the 2003 physician class action settlement. Refer to the Consolidated Statements of Cash Flows for additional information.

Financings, Financing Capacity and Capitalization

In June 2006, we issued $2.0 billion of senior notes, comprised of $450 million of 5.75% senior notes due 2011, $750 million of 6.0% senior notes due 2016 and $800 million of 6.625% senior notes due 2036. The proceeds from these senior notes were used to redeem the entire $700 million aggregate principal amount of our 8.5% senior notes due 2041 and to repay approximately $400 million of commercial paper borrowings, outstanding since the March 1, 2006 maturity of the entire $450 million aggregate principal amount of our 7.375% senior notes. The remainder of the net proceeds raised will be used for general corporate purposes, including share repurchases. The maximum amount of commercial paper outstanding during the six months ended June 30, 2006 was approximately $746 million. We use short-term borrowings from time to time to address timing differences between cash receipts and disbursements. Our committed short-term borrowing capacity consists of a $1 billion revolving credit facility which terminates in January 2011 and a one-year bridge loan facility for certain of our subsidiaries with a borrowing capacity of up to $45 million. The $1 billion revolving credit facility also provides for the issuance of letters of credit at our request, up to $150 million, which count as usage of the available commitments under the facility. At June 30, 2006, there were no borrowings outstanding under our commercial paper program, and $33 million was outstanding under the one-year subsidiary bridge loan facility. The $1 billion revolving credit facility permits the aggregate commitments under the facility to be expanded to a maximum of $1.35 billion upon our agreement with one or more financial institutions. Our

total debt to capital ratio (total debt divided by total debt plus shareholders equity), was 20% at June 30, 2006. Refer to Note 10 of Condensed Notes to Consolidated Financial Statements for additional information.

Table of Contents

Common Stock Transactions

On January 27, 2006, the Board of Directors (the Board) declared a two-for-one stock split of our common stock, which was effected in the form of a 100% common stock dividend. All shareholders of record at the close of business on February 7, 2006 (the Shareholders of Record) received one additional share of common stock for each share held on that date. The additional shares of common stock were distributed to the Shareholders of Record in the form of a stock dividend on February 17, 2006. All share and per share amounts in this MD&A have been adjusted to reflect the stock split for all periods. In connection with the stock split, the Board approved an amendment to our Articles of Incorporation. This amendment increased the number of our authorized common shares to 2.9 billion shares on February 17, 2006.

On February 10, 2006, the Board s Committee on Compensation and Organization granted approximately 5.0 million stock appreciation rights (SARs) as well as approximately .6 million restricted stock units (RSUs) to certain employees. The SARs will be settled in stock, net of taxes, based on the appreciation of our stock price over $50.21 per share, the closing price of our common stock on February 10, 2006. The SARs will become 100% vested three years from the grant date, with one-third of the SARs vesting each year, although 1.0 million of the SARs will vest over a one-year period. For each RSU granted, employees receive one share of common stock, net of taxes, at the end of the vesting period. The RSUs will become 100% vested three years from the grant date. Refer to Note 9 of Condensed Notes to Consolidated Financial Statements for additional information on our Stock-Based Compensation Plans.

Under our share repurchase programs, approximately 24 million shares were repurchased during the six months ended June 30, 2006. As of June 30, 2006, the capacity remaining under our share repurchase programs was approximately $1.2 billion. Refer to Note 11 of Condensed Notes to Consolidated Financial Statements for more information.

We currently intend to pay an annual dividend of $.04 per common share, payable in the fourth quarter of 2006. Our Board reviews our common stock dividend annually. Among the factors to be considered by the Board in determining the amount of each dividend are our results of operations and the capital requirements, growth and other characteristics of our businesses.

Ratings

As of July 26, 2006 the ratings of Aetna Inc. and Aetna Life Insurance Company (ALIC) were as follows:

	A.M. Best	Fitch	Moody s Investors Service	Standard & Poor s
Aetna Inc. (senior debt) [(1)]	bbb+	A-	A3	A-
Aetna Inc. (commercial paper) [(1)]	AMB-2	F2	P-2	A-2
ALIC (financial strength) [(1)]	A	AA-	Aa3	A+

[(1)] A.M. Best s outlook for the senior debt rating of Aetna Inc. and the financial strength rating of ALIC is stable. Fitch s outlook for the

senior debt
rating of Aetna
Inc. and the
financial
strength rating
of ALIC is
stable. Moody s
outlook for the
senior debt
rating of Aetna
Inc. and the
financial
strength rating
of ALIC is
stable. Standard
& Poor s outlook
for the senior
debt rating of
Aetna Inc. and
the financial
strength rating
of ALIC is
stable.

CRITICAL ACCOUNTING ESTIMATES

We prepare our consolidated financial statements in accordance with GAAP. The application of GAAP requires management to make estimates and assumptions that affect our consolidated financial statements and related notes. We use information available to us at the time the estimates are made; however, as described below, these estimates could change materially if different information or assumptions were used. Also, these estimates may not ultimately reflect the actual amounts of the final transactions that occur. The following provides a summary of our health care costs payable and other insurance liabilities estimates. For a detailed description of all of our critical accounting estimates, refer to the CRITICAL ACCOUNTING ESTIMATES portion of our 2005 Annual Report.

Health Care Costs Payable

Health care costs payable reflects estimates of the ultimate cost of claims that have been incurred but not yet reported and those which have been reported but not yet paid (collectively IBNR). At June 30, 2006 and December 31, 2005, our IBNR reserves represented approximately 80% and 79%, respectively, of total health care costs payable. The remaining amount is primarily comprised of pharmacy and capitation payables and accruals for state assessments. We develop our estimates using actuarial principles and assumptions that consider numerous factors. Of those factors, we consider the analysis of historical and projected claim payment patterns (including claims submission and processing patterns) and the assumed health care cost trend rate to be the most critical assumptions. In developing our estimate of health care costs payable, we consistently apply these actuarial principles and assumptions each period, with consideration to the variability of these factors.

We analyze historical claim payment patterns by comparing the claim incurred dates (i.e., the date the service was provided) to the claim payment dates to estimate completion factors. We estimate completion factors by aggregating claim data based on the month of service and month of claim payment and estimating the percentage of claims incurred for a given month that are complete by each month thereafter. For any given month, substantially all claims are paid within six months of the date of service, but it can take up to 48 months or longer before all of the claims are completely resolved and paid. These historically derived completion factors are then applied to claims paid through the financial statement date to estimate the ultimate claim cost for a given month s incurred claim activity. The difference between the estimated ultimate claim cost and the claims paid through the financial statement date represents our estimate of claims remaining to be paid as of the financial statement date and is included in our health care costs payable.

We use completion factors predominantly to estimate reserves for claims with claim incurred dates greater than three months prior to the financial statement date. The completion factors we use reflect judgments and possible adjustments for such data as claim inventory levels, claim submission and processing patterns and, to a lesser extent, other factors such as changes in health care cost trend rates, changes in membership and product mix. If claims are submitted or processed on a faster (slower) pace than prior periods, the actual claims may be more (less) complete than originally estimated using our completion factors, which may result in reserves that are higher (lower) than required.

Because claims incurred within three months prior to the financial statement date have less activity (i.e., a large portion of health care claims are not submitted to us and or processed until after the end of the quarter in which services are rendered by providers to our members), estimates of the ultimate claims incurred for these months are not based primarily on the historically derived completion factors. Rather, the estimates for these months also reflect increased emphasis on the assumed health care cost trend rate (the rate of increase in per member health care costs), which may be influenced by our historical and projected claim submission and processing times as well as seasonal patterns and changes in membership and product mix.

Our health care cost trend rate is affected by increases in per member utilization of medical services as well as increases in the per unit cost of such services. Many factors influence the health care cost trend rate, including our ability to manage health care costs through underwriting criteria, product design, negotiation of favorable provider contracts and medical management programs. The aging of the population and other demographic characteristics, advances in medical technology and other factors continue to contribute to rising per member utilization and per unit costs. Changes in health care practices, inflation, new technologies, increases in the cost of prescription drugs, direct-to-consumer marketing by pharmaceutical companies, clusters of high cost cases, changes in the regulatory environment, health care provider or member fraud and numerous other factors also contribute to the cost of health care and our health care cost trend rate.

For each reporting period, an extensive degree of judgment is used in the process of estimating our health care costs payable, and as a result, considerable variability and uncertainty is inherent in such estimates, and the adequacy of such estimates is highly sensitive to changes in assumed completion factors and the assumed health care cost trend rate. We consistently recognize our actuarially-determined best estimate of health care costs payable. We believe our estimate of health care costs payable is reasonable and adequate to cover our obligations as of June 30, 2006; however, actual claim payments may differ from our estimates. A worsening (or improvement) of our health care cost

trend rate or changes in completion factors from those that were assumed in estimating health care costs payable at June 30, 2006 would cause these estimates to change in the near term, and such a change could be material.

Table of Contents

The following table illustrates the sensitivity of our health care costs payable at June 30, 2006 (in millions) from certain reasonably possible changes to the estimated completion factors and health care cost trend rates:

Completion Factors [1]		Health Care Cost Trend Rates [2]	
(Decrease) Increase in Factor	(Decrease) Increase in Health Care Costs Payable	(Decrease) Increase in Factor	(Decrease) Increase in Health Care Costs Payable
(1.5%)	$ 111.0	(3%)	$(82.5)
(1.0%)	72.9	(2%)	(55.0)
(.5%)	35.9	(1%)	(27.5)
.5%	(34.9)	1%	27.5
1.0%	(68.7)	2%	55.0
1.5%	(101.7)	3%	82.5

(1) Reflects estimated impact of a (decrease) increase in completion factors for the most recent three months. An increase in the completion factor results in a decrease in the remaining estimated reserves for claims.

(2) Reflects estimated impact of a (decrease) increase in health care cost trend rates for the most recent three months.

Each quarter, we re-examine previously established health care costs payable estimates based on actual claim payments for prior periods and other changes in facts and circumstances. Given the extensive degree of judgment in this estimate, it is possible that our estimates of health care costs payable could develop either favorably (i.e., our actual health care costs for the period were less than we estimated) or unfavorably. We include the impact of changes in estimates in earnings when they are identified. The changes in the estimate of health care costs payable may relate to a prior fiscal quarter, prior fiscal year or earlier periods. The results of these re-examinations are also considered when we determine our current year liabilities.

When establishing our reserves at June 30, 2006, we utilized assumed completion factors and assumed health care cost trend rates based on our recent experience.

Health care costs payable as of June 30, 2006 and December 31, 2005 consisted of the following:

(Millions)	**2006**	**2005**
Commercial Risk	$ 1,791.8	$ 1,737.5
Medicare	129.4	79.5
Total health care costs payable	$ 1,921.2	$ 1,817.0

In cases where we project future health care costs will exceed existing reserves plus anticipated future premiums, we establish premium deficiency reserves for the amount of the expected loss in excess of expected future premiums. Any such reserves established would normally cover expected losses until the next policy renewal dates for the related policies. We did not have any material premium deficiency reserves at June 30, 2006.

Other Insurance Liabilities

We establish insurance liabilities other than health care costs payable for benefit claims related to our Group Insurance segment. We refer to these liabilities as other insurance liabilities. These liabilities relate to our life, disability and long-term care products.

Life and Disability

The liabilities for our life and disability products reflect benefit claims that have been reported but not paid, estimates of claims that have been incurred but not reported and future policy benefits earned under insurance contracts. These reserves and the related benefit expenses are developed using actuarial principles and assumptions that consider, among other things, the discount, recovery and mortality rates (each discussed below). Completion factors are also evaluated when estimating our reserves for claims incurred but not reported for life products. We also consider the benefit payments from the U.S. Social Security Administration for which our disability members may be eligible and which may offset our liability for disability claims (known as the Social Security offset). Each period, we estimate the relevant factors, based primarily on historical data, and use these estimates to determine the assumptions underlying our reserve calculations. Given the extensive degree of judgment and uncertainty in these estimates, it is possible that our estimates could develop either favorably or unfavorably.

The discount rate is the interest rate at which future benefit cash flows are discounted to determine the present value of those cash flows. The discount rate we select is a critical estimate, as higher discount rates result in lower reserves. We set the discount rate based on the current investment yield of the portfolio of assets supporting our life and disability reserves. If the discount rate we select in estimating our reserves is lower (higher) than our actual future portfolio returns, our reserves may be higher (lower) than necessary. The discount rate we selected at June 30, 2006 was slightly lower than the rate selected at December 31, 2005. A 25 basis point decrease in the discount rates selected for our life and disability reserves (which is reasonably possible) would have increased current and future life and disability benefit costs by approximately $12 million for the six months ended June 30, 2006.

For disability claims and a portion of our life claims, we must estimate the timing of benefit payments, which takes into consideration the maximum benefit period and the probabilities of recovery (i.e., recovery rate) or death (i.e., mortality rate) of the member. Benefit payments may also be affected by a change in employment status of a disabled member, for example if the member returns to work on a part-time basis. Estimating the recovery and mortality rates of our members is complex. Our actuaries evaluate our current and historical claim patterns, the timing and amount of any Social Security offset (for disability only), as well as other factors including the relative ages of covered members and the duration of disability when developing these assumptions. For disability reserves, if our actual recovery and mortality rates are lower (higher) than our estimates, our reserves will be lower (higher) than required to cover future disability benefit payments. For certain life reserves, if the actual recovery rates are lower (higher) than our estimates or the actual mortality rates are higher (lower) than our estimates, our reserves will be lower (higher) than required to cover future life benefit payments. We use standard industry tables and our historical claim experience to develop our estimated recovery and mortality rates. Claim reserves for our disability and life claims are sensitive to these assumptions. For example, a one percent less (more) favorable assumption for our estimated recovery or mortality rates (which is reasonably possible) would have increased (decreased) current and future life and disability benefit costs by approximately $5 million for the six months ended June 30, 2006. When establishing our reserves at June 30, 2006, we have adjusted our estimates of recovery and mortality rates based on our recent experience.

We estimate a reserve for claims incurred but not reported for life products largely based on completion factors. The completion factors we use are based on our historical experience and reflect judgments and possible adjustments for data such as claim inventory levels, claim payment patterns, changes in business volume and other factors. If claims are submitted or processed on a faster (slower) pace than historical periods, the actual claims may be more (less) complete than originally estimated using our completion factors, which may result in reserves that are higher (lower) than required. At June 30, 2006, we held approximately $234 million in reserves for life claims incurred but not yet reported.

Long-term care

We establish a reserve for future policy benefits for our long-term care products at the time each policy is issued based on the present value of future benefit payments less the present value of future premiums. In establishing this reserve, we must evaluate assumptions about mortality, morbidity, lapse rates and the incidence rate (the rate at which new claims are submitted to us). We estimate the future policy benefits reserve for long-term care products using these assumptions and actuarial principles. For long-duration insurance contracts, these original assumptions are used throughout the life of the policy and are not subsequently modified unless the reserves are deemed to be inadequate. A portion of our reserves for long-term care products also reflect our estimates relating to members currently receiving benefits. These reserves are estimated primarily using recovery and mortality rates, as described above.

In cases where we project future policy benefit costs will exceed our existing reserves plus anticipated future premiums, we establish premium deficiency reserves for the amount of the expected loss in excess of expected future premiums. Any such reserves established would normally cover expected losses until the next policy renewal dates for the related policies. We did not have any material premium deficiency reserves at June 30, 2006.

NEW ACCOUNTING STANDARDS

Refer to Note 2 of Condensed Notes to Consolidated Financial Statements for a discussion of Statement of Financial Accounting Standards No. 123 Revised, *Share-Based Payment* , which was adopted retrospectively in 2006.

REGULATORY ENVIRONMENT

Refer to Regulatory Environment in our 2005 Annual Report for information on regulation of our business.

FORWARD-LOOKING INFORMATION/RISK FACTORS

The Forward-Looking Information/Risk Factors portion of our 2005 Annual Report contains a discussion of important risk factors related to our business.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Refer to the information contained in MD&A INVESTMENTS.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures, which are designed to ensure that information that we are required to disclose in the reports we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

An evaluation of the effectiveness of our disclosure controls and procedures as of June 30, 2006 was conducted under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were adequate and designed to ensure that material information relating to Aetna Inc. and its consolidated subsidiaries would be made known to the Chief Executive Officer and Chief Financial Officer by others within those entities, particularly during the periods when periodic reports under the Exchange Act are being prepared. Refer to the Certifications by our Chief Executive Officer and Chief Financial Officer filed as Exhibits 31.1 and 31.2 to this report.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting, identified in connection with the evaluation of such control, that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Managed Care Class Action Litigation

From 1999 through early 2003, we were involved in purported class action lawsuits as part of a wave of similar actions targeting the health care payor industry and, in particular, the conduct of business by managed care companies. These cases, brought on behalf of health care providers (the Provider Cases), alleged generally that we and other defendant managed care organizations engaged in coercive behavior or a variety of improper business practices in dealing with health care providers and conspired with one another regarding this purported wrongful conduct.

Effective May 21, 2003, we and representatives of over 900,000 physicians, state and other medical societies entered into an agreement (the Physician Settlement Agreement) settling the lead physician Provider Case, which was pending in the United States District Court for the Southern District of Florida (the Florida Federal Court). We believe that the Physician Settlement Agreement, which has received final court approval, resolved all then pending Provider Cases filed on behalf of physicians that did not opt out of the settlement. During the second quarter of 2003, we recorded a charge of $75 million ($115 million pretax) (included in other operating expenses) in connection with the Physician Settlement Agreement, net of an estimated insurance recoverable of $72 million pretax. We believe our insurance policies with third party insurers apply to this matter and have been vigorously pursuing recovery from those insurers in Pennsylvania state court (the Coverage Litigation). During the second quarter of 2006, the Philadelphia, Pennsylvania state trial court issued a summary judgment ruling dismissing all of our claims in the Coverage Litigation. We have appealed that ruling and intend to continue to vigorously pursue recovery from our third party insurers. However, as a result of that ruling, we concluded that the estimated insurance recoverable of $72 million pretax that was recorded in connection with the Physician Settlement Agreement is no longer probable of collection for accounting purposes, and therefore, during the second quarter of 2006, we wrote off that recoverable. We continue to work with plaintiffs representatives in implementing the Physician Settlement Agreement and the issues that may arise under that agreement.

Several Provider Cases filed in 2003 on behalf of purported classes of chiropractors and/or all non-physician health care providers also make factual and legal allegations similar to those contained in the other Provider Cases, including allegations of violations of the Racketeer Influenced and Corrupt Organizations Act. These Provider Cases seek various forms of relief, including unspecified damages, treble damages, punitive damages and injunctive relief. These Provider Cases have been transferred to the Florida Federal Court for consolidated pretrial proceedings. We intend to defend each of these cases vigorously.

Insurance Industry Brokerage Practices Matters

We have received subpoenas and other requests for information from the New York Attorney General, the Connecticut Attorney General, other attorneys general and various insurance and other regulators with respect to an industry wide investigation into certain insurance brokerage practices, including broker compensation arrangements, bid quoting practices and potential antitrust violations. We may receive additional subpoenas and requests for information from these attorneys general and regulators. We are cooperating with these inquiries.

In connection with this industry wide review, we have, and may, receive additional subpoenas and requests for information from other attorneys general and other regulators, and be named in related litigation.

Other Litigation and Regulatory Proceedings

We are involved in numerous other lawsuits arising, for the most part, in the ordinary course of our business operations, including employment litigation and claims of bad faith, medical malpractice, non-compliance with state regulatory regimes, marketing misconduct, failure to timely pay medical claims, investment activities, intellectual property and other litigation in our Health Care and Group Insurance businesses. Some of these other lawsuits are or are purported to be class actions. We intend to defend these matters vigorously.

In addition, our current and past business practices are subject to review by, and from time to time we receive subpoenas and other requests for information from, various state insurance and health care regulatory authorities and other state and federal authorities. There also continues to be heightened review by regulatory authorities of the managed health care industry s business practices, including utilization management, delegated arrangements and claim payment practices. As a leading national managed care organization, we regularly are the subject of such reviews. These reviews may result, and have resulted, in changes to or clarifications of our business practices, as well as fines, penalties or other sanctions.

We are unable to predict at this time the ultimate outcome of the remaining Provider Cases, the insurance industry brokerage practices matters or other litigation and regulatory proceedings, and it is reasonably possible that their outcome could be material to us.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about our monthly share repurchases as part of publicly announced programs for the three months ended June 30, 2006:

Issuer Purchases Of Equity Securities

(Millions, except per share amounts)	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs
April 1, 2006 - April 30, 2006		$		$ 2,000.0
May 1, 2006 - May 31, 2006	9.9	38.92	9.9	1,613.6
June 1, 2006 - June 30, 2006	11.3	40.10	11.3	1,159.9
Total	21.2	$ 39.55	21.2	N/A

On September 29, 2005, January 27, 2006 and April 28, 2006, we announced that our Board authorized three share repurchase programs for the repurchase of up to $750 million, $750 million and $820 million of common stock each ($2.3 billion in aggregate). During the second quarter of 2006, we repurchased approximately 21 million shares of common stock at a cost of approximately $840 million (approximately $40 million of these repurchase transactions were settled in early July 2006), completing the September 29, 2005 authorization and utilizing a portion of the January 27, 2006 authorization. As of June 30, 2006, we had authorization to repurchase up to approximately $1.2 billion of common stock remaining under the January 27, 2006 and April 28, 2006 authorizations.

On January 27, 2006, the Board declared a two-for-one stock split of our common stock, which was effected in the form of a 100% common stock dividend. All shareholders of record at the close of business on February 7, 2006 (the Shareholders of Record) received one additional share of common stock for each share held on that date. The additional shares of common stock were distributed to the Shareholders of Record in the form of a stock dividend on February 17, 2006. All share and per share amounts have been adjusted to reflect the stock split for all periods. In connection with the stock split, the Board approved an amendment to our Articles of Incorporation. This amendment increased the number of our authorized common shares to 2.9 billion shares on February 17, 2006.

Item 4. Submission of Matters to a Vote of Security Holders

At Aetna s Annual Meeting of Shareholders held April 28, 2006, the following matters were submitted to a vote:

Election of Aetna s Board of Directors for a term ending in 2007,

Approval of the appointment of KPMG LLP, as the Company s independent registered public accounting firm, for the year ended December 31, 2006,

Approval of the Aetna Inc. 2006 Employee Stock Purchase Plan, and

A shareholder proposal to implement cumulative voting in the election of Directors.

By vote of the shareholders, each of our Board of Director nominees was elected, KPMG was approved as our independent registered public accounting firm for 2006 and the Aetna Inc. 2006 Employee Stock Purchase Plan was approved. The shareholder proposal was not approved. The detailed results of the voting on these matters were as follows:

Election of Directors:

(Millions)	Votes For	Votes Withheld
Betsy Z. Cohen	475.3	17.3
Molly J. Coye, M.D.	487.4	5.2
Barbara H. Franklin	457.0	35.6
Jeffrey E. Garten	480.8	11.8
Earl G. Graves	459.7	32.8
Gerald Greenwald	459.9	32.6
Ellen M. Hancock	452.7	39.9
Michael H. Jordan	469.9	22.6
Edward J. Ludwig	466.6	25.9
Joseph P. Newhouse	481.3	11.2
John W. Rowe, M.D.	473.5	19.1
Ronald A. Williams	475.9	16.7

Other matters voted upon:

(Millions)	Votes For	Votes Against	Abstentions	Broker Non-Votes
Management Proposals:				
Approval of appointment of independent registered public accounting firm	477.9	9.5	5.2	
Approval of the Aetna Inc. 2006 Employee Stock Purchase Plan	416.7	24.6	4.5	46.7
Shareholder Proposal:				
Requesting implementation of cumulative voting in the election of Directors	123.3	264.3	58.3	46.7

Item 6. Exhibits

Exhibits to this Form 10-Q are as follows:

11 Statements re: computation of per share earnings

11.1 Incorporated herein by reference to Note 4 of Condensed Notes to Consolidated Financial Statements in this Form 10-Q.

12 Statements re: computation of ratios

12.1 Computation of ratios.

15 Letter re: unaudited interim financial information

15.1 Letter from KPMG LLP acknowledging awareness of the use of a report on unaudited interim financial information, dated July 27, 2006.

31 Rule 13a-14(a)/15d-14(a) Certifications

31.1 Certification.

31.2 Certification.

32 Section 1350 Certifications

32.1 Certification.

32.2 Certification.
