* Non-GAAP measures are disclosed below and reconciled to the corresponding GAAP measures in the section below titled Reconciliation of Non-GAAP to GAAP Results.

Revision to Preliminary Results

The Company's preliminary results set forth in the Preliminary Release included \$1.1 million and \$12.6 million of estimated foreign exchange gains for the fourth quarter and fiscal year 2008 mainly

Table of Contents

related to liquidation dividend distributions and capital repatriation from the closing of certain subsidiaries in the PRC (foreign exchange gains), which the Company recognized as other income under non-operating income. As explained in the Preliminary Release, the Company and its independent accountant were in the process of reviewing the requirements for releasing cumulative translation adjustments of liquidated foreign subsidiaries and recognizing foreign exchange gains under Statement of Financial Accounting Standards No. 52, *Foreign Currency Translation* (SFAS 52) and FASB Interpretation 37, *Accounting for Translation Adjustments upon Sale of Part of an Investment in a Foreign Entity an interpretation of FASB Statement No. 52* (FIN 37). The Company and its independent accountant have now concluded that based on the requirements set out in the above-noted accounting standard, the Company is required to reverse \$0.4 million and \$8.2 million in foreign exchange gains from non-operating income and net income in its final results for the fourth quarter and fiscal year 2008, respectively. The adjustments do not impact the Company's cash position, revenues or income from operations.

Financial Results

For the fourth quarter of 2008, SINA reported net revenues of \$101.5 million, compared to \$70.7 million in the same period in 2007 and \$105.4 million for the third quarter of 2008. Advertising revenues for the fourth quarter of 2008 totaled \$69.5 million, representing a 39% increase from the same period last year and a 9% decline from last quarter. Advertising revenues in China in the fourth quarter of 2008 reached \$68.7 million, an increase of 40% year over year and a decline of 9% sequentially.

Non-advertising revenues for the fourth quarter of 2008 totaled \$32.0 million, a 56% increase from the same period in 2007 and a 10% increase over the previous quarter. MVAS revenues amounted to \$30.0 million for the fourth quarter of 2008, representing a 61% increase from the same period in 2007 and an 11% increase quarter over quarter.

For fiscal 2008, SINA reported net revenues of \$369.6 million, compared to \$246.1 million in 2007. Advertising revenues for fiscal 2008 totaled \$258.5 million, an increase of 53% from 2007. Advertising revenues from China reached \$255.1 million for fiscal 2008, representing a year-over-year growth of 54%. Non-advertising revenues for fiscal 2008 amounted to \$111.1 million, an increase of 44% from 2007. The growth in non-advertising revenues came mostly from MVAS, which generated \$103.3 million in revenues for fiscal 2008, representing a 47% increase year-over-year.

Gross margin for the fourth quarter of 2008 was 60%, down from 62% for the same period last year and up from 57% last quarter. Advertising gross margin for the fourth quarter of 2008 was 64%, compared to 64% in the same period last year and 58% for the previous quarter. Non-GAAP advertising gross margin for the fourth quarter of 2008 was 65%, flat over the same period last year and up from 59% last quarter. Lower advertising gross margin in the third quarter of 2008 can be mainly attributed to incremental increases in content and labor costs associated with the coverage of the 2008 Beijing Olympic Games. MVAS gross margin for the fourth quarter of 2008 was 50%, compared to 56% for the same period in 2007 and 53% last quarter. The decline in MVAS gross margin was primarily due to increased costs related to revenue sharing arrangements.

Table of Contents

Gross margin for fiscal 2008 was 59%, down from 62% for fiscal 2007. Advertising gross margin for fiscal 2008 was 61%, compared to 62% for fiscal 2007. Non-GAAP advertising gross margin was 63% for fiscal 2008, flat over fiscal 2007. MVAS gross margin for fiscal 2008 was 54%, compared to 58% in the prior year. The decline in MVAS gross margin was primarily due to increased costs related to revenue sharing arrangements.

Operating expenses for the fourth quarter of 2008 totaled \$39.3 million, an increase of 39% from the same period last year and a decline of 2% from last quarter. Non-GAAP operating expenses, which exclude stock-based compensation and amortization of intangible assets, were \$36.2 million for the fourth quarter of 2008, an increase of 40% from the fourth quarter of 2007 and a decline of 2% from last quarter. The year-over-year increase in operating expenses was mainly due to increases in headcount, bonus and other payroll-related expenses as well as higher marketing expenditures.

Operating expenses for fiscal 2008 were \$144.7 million, an increase of 44% from fiscal 2007. Non-GAAP operating expenses were \$132.3 million for 2008, an increase of 43% from fiscal 2007. The year-over-year increase in operating expenses primarily relates to higher market expenditures and higher headcount, bonus and other payroll-related expenses.

Income from operations for the fourth quarter of 2008 was \$21.5 million, compared to \$15.7 million for the same period last year and \$20.1 million from last quarter. Non-GAAP income from operations for the fourth quarter of 2008 was \$25.6 million, compared to \$18.7 million for the same period last year and \$24.2 million from last quarter.

Income from operations for 2008 was \$74.6 million, compared to \$51.0 million last year. Non-GAAP income from operations for 2008 was \$90.5 million, compared to \$60.9 million last year.

Interest and other income for the fourth quarter of 2008 was \$5.5 million, compared to \$3.7 million from the same period last year and \$4.0 million from last quarter.

Interest and other income for fiscal 2008 was \$17.7 million, compared to \$12.7 million last year. Other income for 2008 included a gain of \$3.1 million as a result of the sale by SINA of a minority equity interest in one of its subsidiaries to E-House (China) Holdings Ltd.

For the fourth quarter of 2008, provision for income taxes was \$1.8 million, compared to \$1.9 million from the same period last year and \$4.4 million from last quarter. On January 1, 2008, a new Enterprise Income Tax (EIT) Law came into effect in China. For the first three quarters of 2008, the Company made an income tax provision without considering the tax benefits as a qualified new or high technology enterprise, because the Company was uncertain whether it was entitled to such tax benefits under the new EIT. During the fourth quarter of 2008, certain subsidiaries of the Company were reaffirmed as qualified new or high technology enterprises under the new EIT. Consequently, the Company made a provision for income taxes based on its reaffirmed status for

fiscal 2008 and recorded the preferential tax benefits of certain subsidiaries in the fourth quarter of 2008. For fiscal 2008, provision for income taxes was \$14.0 million, compared to \$6.5 million for fiscal 2007. The increase in provision for income taxes was mainly due to higher income earned in 2008 as well as higher effective tax rate due to expired tax holidays. Effective tax rate for fiscal 2008 was 14%, compared to 10% for fiscal 2007.

Net income for the fourth quarter of 2008 was \$25.2 million, an increase of 44% from the same period last year and 33% from last quarter. Diluted net income per share for the fourth quarter of 2008 was \$0.42 compared to \$0.29 in the same period last year and \$0.31 last quarter. Non-GAAP diluted net income per share for the fourth quarter of 2008 was \$0.48, compared to \$0.34 in the same period last year and \$0.39 last quarter.

Net income for fiscal 2008 totaled \$80.6 million or \$1.33 diluted net income per share, compared to \$57.7 million or \$0.97 diluted net income per share for fiscal 2007. Non-GAAP net income was \$94.1 million for fiscal 2008 or \$1.56 non-GAAP diluted net income per share, compared to \$67.1 million or \$1.12 non-GAAP diluted net income per share for fiscal 2007.

As of December 31, 2008, SINA's cash, cash equivalents and short-term investments totaled \$603.8 million, compared to \$478.0 million at the end of last year. Cash flow from operating activities for the fourth quarter of 2008 was \$44.5 million, compared to \$31.9 million for the same period last year and \$24.0 million for last quarter. For fiscal 2008, cash flow from operating activities was \$114.0 million, compared to \$89.1 million for fiscal 2007.

Non-GAAP Measures

This release contains non-GAAP financial measures. These non-GAAP financial measures, which are used as measures of the Company's performance, should be considered in addition to, not as a substitute for, measures of the Company's financial performance prepared in accordance with United States Generally Accepted Accounting Principles (GAAP). The Company's non-GAAP financial measures may be defined differently than similar terms used by other companies. Accordingly, care should be exercised in understanding how the Company defines its non-GAAP financial measures.

Reconciliations of the Company's non-GAAP measures to the nearest GAAP measures are set forth in the section below titled Reconciliation of Non-GAAP to GAAP Results. These non-GAAP measures include non-GAAP gross profit, non-GAAP operating expenses, non-GAAP income from operations, non-GAAP net income, non-GAAP diluted net income per share and non-GAAP advertising gross margin.

The Company's management uses non-GAAP financial measures to gain an understanding of the Company's comparative operating performance (when comparing such results with previous periods

Table of Contents

or forecasts) and future prospects. The Company's non-GAAP financial measures exclude certain special items, including stock-based compensation charge, amortization of intangible assets, amortization of convertible debt issuance costs, gain/loss on the sale/purchase of business/investment and gain/loss on the sale of minority interest in subsidiary from its internal financial statements for purposes of its internal budgets. Non-GAAP financial measures are used by the Company's management in their financial and operating decision-making, because management believes they reflect the Company's ongoing business in a manner that allows meaningful period-to-period comparisons. The Company's management believes that these non-GAAP financial measures provide useful information to investors and others in the following ways: 1) in understanding and evaluating the Company's current operating performance and future prospects in the same manner as management does, if they so choose, and 2) in comparing in a consistent manner the Company's current financial results with the Company's past financial results. The Company's management further believes the non-GAAP financial measures provide useful information to both management and investors by excluding certain expenses, gains and losses (i) that are not expected to result in future cash payments or (ii) that are non-recurring in nature or may not be indicative of its core operating results and business outlook.

The Company's management believes excluding stock-based compensation from its non-GAAP financial measures is useful for itself and investors, as such expense will not result in future cash payment and is not indicative of the Company's core operating results and business outlook.

The Company's management believes excluding the non-cash amortization expense of intangible assets from its non-GAAP financial measures is useful for itself and investors, because they enable a more meaningful comparison of the Company's cash performance between reporting periods. In addition, such charges will not result in cash settlement in the future.

The Company's management believes excluding non-cash amortization expense of issuance cost relating to convertible bonds from its non-GAAP financial measure of net income is useful for itself and investors as such expense does not have any impact on cash earnings.

The Company's management believes excluding gain/loss on the sale/purchase of a business/ investment and gain/loss on the sale of minority interest in subsidiary from its non-GAAP financial measure of net income is useful for itself and investors, because such gains/losses are not indicative of the Company's core operating results.

The non-GAAP financial measures have limitations. They do not include all items of income and expense that affect the Company's operations. Specifically, these non-GAAP financial measures are not prepared in accordance with GAAP, may not be comparable to non-GAAP financial measures used by other companies and, with respect to the non-GAAP financial measures that exclude certain items under GAAP, do not reflect any benefit that such items may confer to the Company. Management compensates for these limitations by also considering the Company's financial results as determined in accordance with GAAP.
