CAUTIONARY STATEMENT
UNDER PRIVATE SECURITIES LITIGATION REFORM ACT

This report, including the documents incorporated by reference, contains statements that are forward-looking, based on management's current expectations about the future. Forward-looking statements are often identified by qualifiers such as guidance, expect, believe, plan, intend, will, should, could, would, anticipate, estimate, forecast, may, and derivative or similar words or expressions. Similarly, descriptions of our objectives, strategies, plans, or goals are also forward-looking statements. These statements may discuss, among other things, expected growth, future sales, future cash flows, future capital expenditures, future performance, and the anticipation and expectations of Applied and its management as to future occurrences and trends. Applied intends that the forward-looking statements be subject to the safe harbors established in the Private Securities Litigation Reform Act of 1995 and by the Securities and Exchange Commission in its rules, regulations, and releases.

Readers are cautioned not to place undue reliance on any forward-looking statements. All forward-looking statements are based on current expectations regarding important risk factors, many of which are outside Applied's control. Accordingly, actual results may differ materially from those expressed in the forward-looking statements. The making of those statements should not be regarded as a representation by Applied or any other person that the results expressed in the statements will be achieved. In addition, Applied assumes no obligation publicly to update or revise any forward-looking statements, whether because of new information or events, or otherwise, except as may be required by law.

Applied believes its primary risk factors include, but are not limited to, those identified in Risk Factors at Part I, Item 1A, and in Narrative Description of Business, at Part I, Item 1, section (c), in this annual report on Form 10-K, as well as in Management's Discussion and Analysis in Applied's 2009 annual report to shareholders. PLEASE READ THOSE DISCLOSURES CAREFULLY.

Table of Contents

PART I.

ITEM 1. **BUSINESS.**

In this annual report on Form 10-K, Applied refers to Applied Industrial Technologies, Inc., an Ohio corporation. References to we, us, our, and the company refer to Applied and its subsidiaries.

The company is one of North America's leading industrial product distributors. In addition, we provide fluid power, mechanical, and rubber shop services. We offer technical application support for our products and provide solutions to help customers minimize downtime and reduce overall procurement costs. Although we do not generally manufacture the products we sell, we do assemble and repair various products and systems. Our customers are primarily North American companies, who use our products to maintain and to repair their machinery and equipment. We also sell for original equipment manufacturing uses.

Applied and its predecessor companies have engaged in this business since 1923, when The Ohio Ball Bearing Company was formed. Applied reincorporated in Ohio in 1988.

Our Internet address is www.applied.com. The following documents are available free of charge at the investor relations area of our website:

Applied's annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, together with Section 16 insider beneficial stock ownership reports, all as soon as reasonably practicable after they are electronically filed with, or furnished to, the Securities and Exchange Commission

Applied's Code of Business Ethics

Applied's Board of Directors Governance Principles and Practices

Applied's Director Independence Standards

Charters for the Audit, Corporate Governance, and Executive Organization & Compensation Committees of Applied's Board of Directors

The information on our website is not incorporated into this annual report on Form 10-K. The documents referenced above are also available in print to any shareholder who sends a written request to Applied's Vice President-Chief Financial Officer & Treasurer at 1 Applied Plaza, Cleveland, Ohio 44115.

(a) **General Development of Business.**

Information regarding developments in our business can be found in Applied's 2009 annual report to shareholders under the caption Management's Discussion and Analysis on pages 5 - 11. This information is incorporated here by reference.

Table of Contents

(b) **Financial Information about Segments.**

We have identified two reportable segments, service center-based distribution and fluid power businesses.

The service center-based distribution segment provides customers with a wide range of industrial products through a network of service centers stretching across North America. The fluid power businesses segment consists of specialized regional companies that distribute fluid power components and operate shops to assemble fluid power systems and perform equipment repair. The fluid power businesses primarily sell products and services directly to customers rather than through the service centers. Both segments offer technical support and provide solutions to help customers minimize their production downtime, improve machine performance, and reduce overall procurement and maintenance costs.

Segment financial information can be found in the 2009 annual report to shareholders in note 12 to the consolidated financial statements on page 32. That information is incorporated here by reference.

(c) **Narrative Description of Business.**

Overview. Our field operating structure is built on two platforms – service center-based distribution and fluid power businesses:

Service Center-Based Distribution. We distribute a wide range of industrial products through service centers across the United States, Puerto Rico, Canada, and Mexico. Customers primarily purchase our products for scheduled maintenance of their machinery and equipment and for emergency repairs. In addition, we operate regional fabricated rubber shops, which modify and repair conveyor belts and make hose assemblies in accordance with customer requirements, and rubber service field crews, which install and repair belts and rubber linings at customer locations. The service center-based distribution business accounts for a substantial majority of our field operations and 83% of our 2009 sales dollars. The business operates in the United States using the Applied Industrial Technologies trade name. We also are known as Bearing & Transmission and Groupe GLM in Canada, Applied México in Mexico, and Rafael Benitez Carrillo in Puerto Rico.

Fluid Power Businesses. Our specialized fluid power businesses primarily market products and services to customers within the businesses' geographic regions. In the United States, the businesses also market products and services through our service center network. In addition to distributing fluid power components, the businesses assemble fluid power systems, perform equipment repair, and offer technical advice to customers. Customers include firms purchasing for maintenance, repair, and operations needs, as well as for original equipment manufacturing applications. Our fluid power businesses include the following:

Fluid Power
Resource, LLC
acquisition.

Products. We are one of North America's leading distributors of bearings, power transmission components, fluid power components and systems, industrial rubber products, linear components, tools, safety products, general maintenance products, and a variety of mill supply products. Fluid power products include hydraulic, pneumatic, lubrication, and filtration components and systems.

These products are generally supplied to us by manufacturers whom we serve as a non-exclusive distributor. The suppliers also may provide us product training, as well as sales and marketing support. Authorizations to represent particular suppliers and product lines may vary by geographic region, particularly for our fluid power businesses. We believe our supplier relationships are generally good, and many have existed for decades. The disruption of relationships with certain suppliers, or the disruption of their operations, could adversely affect our business.

Our product suppliers generally confine their direct sales activities to large-volume transactions, mainly with original equipment manufacturers. The suppliers generally do not sell maintenance and repair products directly to the customer, but instead refer the customer to us or another distributor. There is no assurance this practice will continue and its discontinuance could adversely affect our business.

Net sales by product category for the most recent three fiscal years is detailed in the 2009 annual report to shareholders in note 12 to the consolidated financial statements on page 33. That information is incorporated here by reference.

Services. Our associates advise and assist customers in selecting and applying products, and in managing inventory. We consider this advice and assistance to be an integral part of our sales efforts. Beyond traditional parts distribution services, we offer product and process solutions involving multiple technologies. These solutions help customers minimize production downtime, improve machine performance, and reduce overall procurement and maintenance costs. By providing high levels of service, product and industry expertise, and technical support, while at the same time offering product breadth and competitive pricing, we believe we develop stronger, longer-lasting, and more profitable customer relationships.

Table of Contents

Our service center sales associates include customer sales and service representatives and account managers, as well as product and industry specialists. Customer sales and service representatives receive, process, and expedite customer orders, provide product information, and assist account managers in serving customers. Account managers make on-site calls to current and potential customers to provide product information, identify customer requirements, make recommendations, and assist in implementing equipment maintenance and storeroom management programs, including our automated storeroom replenishment system, AppliedSTORE®. Account managers also measure and document the value of the cost savings and increased productivity we help generate. Product and industry specialists assist with applications in their areas of expertise.

We maintain product inventory levels at each service center tailored to the local market. These inventories consist of standard items as well as other items specific to local customer demand. Seven distribution centers replenish service center inventories and also may ship products directly to customers. Having product in stock helps us satisfy customers' immediate needs.

Timely delivery of products is an integral part of our service, particularly when customers require products for emergency repairs. Service centers and distribution centers use the most effective method of transportation available to meet customer needs. These methods include our own delivery vehicles, dedicated third-party transportation providers, as well as surface and air common carrier and courier services. Customers can also pick up items at our service centers.

Our information systems enhance our customer service. While we have long transacted with customers through electronic data interchange (EDI), customers can also turn to our website at www.applied.com to search for products in a comprehensive electronic catalog, research product attributes, view prices, check inventory levels, place orders, and track order status. We also interface with customers' technology platforms and plant maintenance systems.

In addition to our electronic capabilities, we serve customers with our paper catalog, a comprehensive resource for nearly 42,000 products, including more than 20,000 bearing and power transmission parts and 9,000 fluid power products. Products from the catalog are also available for purchase at www.applied.com.

We supplement the service center product offering with our MaintenancePro® fee-based technical training seminars. These courses provide customer personnel with information on maintenance, troubleshooting, component application, and failure analysis in the areas of hydraulics and pneumatics, lubrication, bearings, and power transmission.

In addition to distributing products, we offer shop services in select geographic areas. Our fabricated rubber shops modify and repair conveyor belts and provide hose assemblies (also available at select service centers and distribution centers) in accordance with customer requirements. Field crews install and repair belts and rubber lining, primarily at customer locations. Among the other services we offer, either performed by us directly or by third party providers, are

Table of Contents

the rebuilding or assembly of speed reducers, pumps, valves, cylinders, and electric and hydraulic motors, and custom machining.

Our specialized fluid power businesses generally operate independently of the service centers, but as product distributors, share the same focus on customer service. Product and application recommendations, inventory availability, and delivery speed are all critical to the businesses' success.

The fluid power businesses distinguish themselves from most component distributors by offering engineering, design, system fabrication, installation, and repair services. These services can represent a significant portion of the overall value provided to customers. Each business has account managers with extensive technical knowledge, who handle sophisticated projects, including original equipment manufacturing applications. The businesses also provide technical support to our service centers and their customers.

With the businesses acquired from Fluid Power Resource in August 2008, we expanded our capabilities in providing the following value-added services: fluid power system integration; manifold design, machining, and assembly; and the integration of hydraulics with electronics for complete machine design.

Markets. We purchase from over 2,000 product manufacturers and resell the products to thousands of customers in a wide variety of industries, including agriculture and food processing, automotive, chemical processing, forest products, industrial machinery and equipment, mining, primary metals, transportation, and utilities, as well as to government agencies. Customers range from the largest concerns in North America, with whom we may have multiple-location relationships, to the smallest. We are not significantly dependent on a single customer or group of customers, the loss of which would have a material adverse effect on our business as a whole, and no single customer accounts for more than 4% of our net sales.

Competition. We consider our business to be highly competitive. In addition, our markets present few economic or technological barriers to entry, contributing to a high fragmentation of market share in our industry. Longstanding supplier and customer relationships, geographic coverage, name recognition, and our associates' knowledge and experience do, however, support our competitive position. Competition is based generally on breadth and quality of product and service offerings, product availability, price, ease of product selection and ordering, catalogs, online capability, and having a local presence. In the fluid power businesses, product manufacturer authorizations are often more selective and can be a more significant competitive factor.

Our principal competitors are other bearing, power transmission, industrial rubber, fluid power, linear motion, and general maintenance and safety product distributors, and, to a lesser extent, mill supply and catalog companies. These competitors include local, regional, national, and multinational operations. We also compete with original equipment manufacturers and their distributors in the sale of maintenance and replacement components. Some competitors have

Table of Contents

greater financial resources than we do. The identity and number of our competitors vary throughout the geographic and product markets we serve.

Although we are one of the leading distributors in North America for the major product categories we carry, our market share for those products in any given geographic area may be relatively small compared to the portion of the market served by original equipment manufacturers and other distributors.

Backlog Orders and Seasonality. Because of our product resources and distribution network, we do not have a substantial backlog of orders, nor are backlog orders material at any given time to our business as a whole, although they are a more important factor for our fluid power businesses. Our business has exhibited minor seasonality in particular, sales per day during the first half of our fiscal year have tended, at least in past years, to be slightly lower compared with the second half due, in part, to the impact of customer plant shutdowns and holidays.

Patents, Trademarks, Trade Names, and Licenses. Customer recognition of our service marks and trade names, including Applied Industrial Technologies®, Applied®, and AIT®, is an important contributing factor to our sales. Patents and licenses are not of material importance to our business.

Raw Materials and General Business Conditions. Our operations are dependent on general industrial and economic conditions. We would be adversely affected by the unavailability of raw materials to our suppliers, prolonged labor disputes experienced by suppliers or customers, or by any recession or depression that has an adverse effect on North American industrial activity generally or on key customer industries.

Number of Employees. At July 31, 2009, we had 4,673 employees.

Working Capital. Our working capital position is discussed in Management's Discussion and Analysis in the 2009 annual report to shareholders on pages 7-8.

We require substantial working capital related to accounts receivable and inventories. Significant amounts of inventory are carried to meet customers' delivery requirements. We generally require payments for sales on account within 30 days. Returns are not considered to have a material effect on our working capital requirements. We believe these practices are generally consistent among companies in our industry.

Environmental Laws. We believe that compliance with laws regulating the discharge of materials into the environment or otherwise relating to environmental protection will not have a material adverse effect on our capital expenditures, earnings, or competitive position.

Table of Contents

(d) **Financial Information about Geographic Areas.**

Information regarding our foreign operations, including information about revenues and long-lived assets, is included in the 2009 annual report to shareholders in note 12 to the consolidated financial statements on page 33 and in Quantitative and Qualitative Disclosures About Market Risk on page 11. That information is incorporated here by reference.

ITEM 1A. RISK FACTORS.

In addition to other information set forth in this report, you should carefully consider the following factors that could materially affect our business, financial condition, or results of operations. The risks described below are not the only risks facing our company. Additional risks not currently known to us, risks that could apply broadly to issuers, or risks that we currently deem immaterial, may also impact our business and operations.

Our business depends heavily on the operating levels of our customers and the economic factors that affect them. Many of the primary markets for the products and services we sell are subject to cyclical fluctuations that affect demand for goods and materials that our customers produce. Consequently, the demand for our products and services has been and will continue to be influenced by most of the same economic factors that affect the demand for and production of customers' goods and materials.

When, as has occurred in this economic downturn, customers or prospective customers reduce production levels because of lower demand or tight credit conditions, they have less need for our products and services. Selling prices and terms of sale come under pressure, adversely affecting profitability and the durability of customer relationships. Credit losses increase too. Recent volatile economic and credit conditions have also made it more difficult for distributors, as well as customers and suppliers, to forecast and plan future business activities.

In addition, our industry confronts the longer-term secular trend of manufacturing customers moving operations overseas in order to reduce costs. Our ability to continue to serve such customers may be impaired and the size of our overall market opportunity in North America may be diminished.

The purchasing incentives we earn from product suppliers could be impacted if we reduce our purchases in response to declining customer demand. Certain of our product suppliers have historically offered to their distributors, including us, incentives associated with purchasing their products. The programs often pay incentives to the distributor for attaining specific purchase volumes during the program period. In some cases, in order to earn incentives, we must achieve year-over-year growth in purchases with the supplier. Because of existing inventory levels and reduced customer demand under current conditions, we may be less willing to take advantage of certain incentive programs, thereby adversely impacting our profitability.

Table of Contents

Consolidation occurring in our customers and suppliers industries could adversely affect our business and financial results. In recent years, we have witnessed increased consolidation among our product suppliers and customers. As customer industries consolidate, a greater proportion of our sales could be derived from larger, national contracts, which could adversely impact the amount and volatility of our earnings. In addition, consolidation increases the risk of larger customers seeking to purchase industrial products directly from manufacturers rather than through distributors. Similarly, continued consolidation among our suppliers could reduce our ability to negotiate favorable pricing and other commercial terms for our inventory purchases.

Loss of key supplier authorizations, lack of product availability, or changes in supplier distribution programs could adversely affect our sales and earnings. Our business depends on maintaining an immediately available supply of various products to meet customer demand. Of our overall dollar volume of product purchases in fiscal 2009, almost half was purchased from our top 10 suppliers. Many of our relationships with key product suppliers are longstanding, but are terminable by either party. The loss of key supplier authorizations, or a substantial decrease in the availability of their products, could have a material adverse effect on our business. Supply interruptions could arise from raw materials shortages, financial problems, labor disputes or weather conditions affecting suppliers' production, transportation disruptions, or other reasons beyond our control. Furthermore, we cannot be certain that particular products will be available to us, or available in quantities sufficient to meet customer demand. Limitations on our access to products could put us at a competitive disadvantage.

In addition, as a distributor, we face the risk of key product suppliers changing their relationships with distributors generally, or Applied in particular, in a manner that adversely impacts us. For example, key suppliers could change any of the following: the prices we must pay for their products relative to other distributors or relative to competing products; the geographic or product line breadth of distributor authorizations; supplier support programs; or product purchase or stocking expectations.

An increase in competition could decrease sales or earnings. We operate in a highly competitive industry. Our competitors include local, regional, national, and multinational distributors of industrial machinery parts, equipment, and supplies. Competition is largely focused in the local service area and is generally based on product line breadth, product availability, service capabilities, and price. Some existing competitors have, and potential market entrants may have, greater financial or other resources than we do. If existing or future competitors seek to gain or to retain market share by reducing prices, we may need to lower our prices for products or services, thereby adversely affecting financial results.

Volatility in product and energy costs can affect our profitability. In recent years, cost increases in commodity materials, such as steel, and energy led product manufacturers to increase the prices of products we distribute. In addition, a portion of our own distribution costs is comprised of fuel for our sales and delivery vehicles, freight, and utility expenses for our

Table of Contents

facilities. All of these costs have fluctuated significantly in recent years. Our ability to pass on increases in our costs depends on market conditions. Raising our prices could result in decreased sales volume, which could significantly reduce our profitability. When costs fall, market prices can fall too, again potentially affecting profitability.

Future acquisitions are a key component of our anticipated growth. We may not be able to identify or to complete future acquisitions, to integrate them effectively into our operations, or to realize their anticipated benefits. Many industries we serve are mature. As a result, our growth in recent years has resulted substantially from the acquisition of other businesses. While we wish to continue to acquire businesses, we may not be able to identify and to negotiate suitable acquisitions, to obtain financing for them on satisfactory terms, or otherwise to complete acquisitions. In addition, existing or future competitors may increasingly seek to compete with us for acquisitions, which could have the effect of increasing the price and reducing the number of suitable opportunities.

We seek acquisition opportunities that complement and expand our operations. However, substantial costs, delays, or other difficulties related to integrating acquisitions into our operations could adversely affect our business or financial results. We could face significant challenges in consolidating functions and integrating procedures, information technology, personnel, and operations in a timely and efficient manner.

Further, even if we successfully integrate the acquisitions with our operations, we may not be able to realize the cost savings, sales increases, or other benefits that we anticipate from these acquisitions, either as to amount or in the time frame we expect. Our ability to realize anticipated benefits may be affected by a number of factors, including the following: our ability to reduce duplicative expenses and inventory effectively, and to consolidate facilities; the incurrence of significant integration costs or charges in order to achieve those benefits; and our ability to retain key product supplier authorizations, customer relationships, and managers and employees. In addition, future acquisitions could place significant demand on administrative, operational, and financial resources.

Tight credit markets could impact our ability to obtain financing on reasonable terms or increase the cost of future financing. Although recent credit market turmoil has not had a significant adverse impact on our liquidity or borrowing costs, the availability of funds has tightened and credit spreads on corporate debt have increased. Obtaining additional or replacement financing may be more difficult and the cost of issuing new debt or replacing a credit facility would likely be higher than under our current facilities. Tight credit conditions could limit our ability to finance acquisitions on terms acceptable to us. For more information relating to borrowing and interest rates, see the following sections of Applied's 2009 annual report to shareholders: Liquidity and Capital Resources on pages 7-8,

Quantitative and Qualitative Disclosures About Market Risk on page 11, and notes 5 and 6 to the consolidated financial statements on pages 21 - 22.

Table of Contents

Our growth outside the United States increases our exposure to global economic and political conditions.

Foreign operations contributed 12.9% of our sales in 2009. If we continue to grow outside the U.S., the risks associated with exposure to more volatile economic conditions, political instability, cultural and legal differences in conducting business, and currency fluctuations will increase. In particular, our results are affected by fluctuations in currency exchange rates for the Canadian dollar and the Mexican peso.

A disruption of our information systems could increase expenses, decrease sales, or otherwise reduce earnings.

Our ability to transact business has become increasingly reliant on our information systems. We depend on information systems to process customer orders, manage inventory and accounts receivable collections, purchase products, ship products to customers on a timely basis, maintain cost-effective operations, and provide superior service to customers. A serious, prolonged disruption of our information systems could materially impair fundamental business processes.

Our business depends on our ability to retain and to attract qualified sales and customer service personnel.

There are significant costs associated with hiring and training sales and customer service professionals. We greatly benefit from having employees who are familiar with the products we sell and their applications, as well as with our customer and supplier relationships. We could be adversely affected by a shortage of available skilled workers or the loss of a significant number of our sales or customer service professionals, including through retirement as the workforce ages.

An interruption of operations at our headquarters or distribution centers could adversely impact our business.

Our business depends on maintaining operations at our headquarters and distribution centers. A serious, prolonged interruption due to power outage, telecommunications outage, terrorist attack, earthquake, hurricane, fire, flood or other natural disaster, or other interruption could have a material adverse effect on our business and financial results.

We are subject to litigation risk due to the nature of our business, which may have a material adverse effect on our business. From time to time, we are involved in lawsuits or other legal proceedings that arise from business transactions. These may, for example, relate to product liability claims, commercial disputes, or employment matters. In addition, we could face claims over other matters, such as claims arising from our status as a government contractor or corporate or securities law matters. The defense and ultimate outcome of lawsuits or other legal proceedings may result in higher operating expenses, which could have a material adverse effect on our business, financial condition, or results of operations.

In addition to the risks identified above, other risks to our future performance include, but are not limited to, the following:

changes in customer preferences for products and services of the nature, brands, quality, or cost sold by Applied;

changes in customer procurement policies and practices;

Table of Contents

changes in the market prices for products and services relative to the costs of providing them;

changes in operating expenses;

adverse regulation and legislation, including in areas currently under active consideration, such as federal tax policy and health care;

the variability and timing of new business opportunities including acquisitions, alliances, customer relationships, and supplier authorizations;

the incurrence of debt and contingent liabilities in connection with acquisitions;

volatility of our stock price and the resulting impact on our consolidated financial statements;

changes in accounting policies and practices; and

organizational changes within the company.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

Not applicable.

ITEM 2. PROPERTIES.

We believe having a local presence is important to serving our customers, so we maintain service centers and other operations in local markets throughout North America. At June 30, 2009, we owned real properties at 138 locations and leased 310 locations. Certain properties house more than one operation.

The following were our principal owned real properties (each of which has more than 30,000 square feet of floor space) at June 30, 2009:

Location of Principal Owned Real Property	Type of Facility
Atlanta, Georgia	Distribution center and service center
Florence, Kentucky	Distribution center
Carlisle, Pennsylvania	Distribution center
Fort Worth, Texas	Distribution center and rubber shop

Table of Contents

Our principal leased real properties (each of which has more than 30,000 square feet of floor space) at June 30, 2009 were:

Location of Principal Leased Real Property	Type of Facility
Cleveland, Ohio	Corporate headquarters
Fontana, California	Distribution center, rubber shop, fluid power shop, and service center
Newark, California	Fluid power shop
Denver, Colorado	Rubber shop and service center
Lenexa, Kansas	Fluid power shop
Chanhassen, Minnesota	Fluid power shop
Billings, Montana	Fluid power shop
Portland, Oregon	Distribution center
Kent, Washington	Offices and fluid power shop
Longview, Washington	Rubber shop and the fluid power shop
Appleton, Wisconsin	Offices, service center, and rubber shop
Winnipeg, Manitoba	Distribution center and service center

The properties in Newark, Lenexa, Chanhassen, Billings, and Kent are used in our fluid power businesses segment. The Fontana and Longview properties are used in operations both in the service center-based distribution segment and the fluid power businesses segment. The remaining properties are used in the service center-based distribution segment.

We consider our properties generally sufficient to meet our requirements for office space and inventory stocking. A service center's size is primarily influenced by the amount of inventory the service center requires to meet customers' needs. We use all of our owned and leased properties except for certain properties which in the aggregate are not material and are either for sale, lease, or sublease to third parties due to a relocation or closing. We also may lease or sublease to others unused portions of buildings.

In recent years, when opening new operations, we have tended to lease rather than purchase real property. We do not consider any of our service center, distribution center, or shop properties to be material, because we believe that, if it becomes necessary or desirable to relocate an operation, other suitable property could be found.

Additional information regarding our properties is included in the 2009 annual report to shareholders in note 11 to the consolidated financial statements on page 31. That information is incorporated here by reference.

ITEM 3. LEGAL PROCEEDINGS.

Applied and/or one of its subsidiaries is a party to pending legal proceedings with respect to product liability, commercial, and other matters. Although it is not possible to predict the outcome of these proceedings or the range of possible loss, we believe, based on circumstances

Table of Contents

currently known, that the likelihood is remote that the ultimate resolution of any of these proceedings will have, either individually or in the aggregate, a material adverse effect on Applied's consolidated financial position, results of operations, or cash flows.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matters were submitted to a vote of Applied's security holders during the last quarter of fiscal 2009.

EXECUTIVE OFFICERS OF THE REGISTRANT.

Applied's executive officers are elected by the Board of Directors for a term of one year, or until their successors are chosen and qualified, at the Board's organizational meeting held following the annual meeting of shareholders. The following is a list of the executive officers and a description of their business experience during the past five years. Except as otherwise stated, the positions and offices indicated are with Applied, and the persons were elected to their current positions on October 21, 2008:

Name	Positions and Experience	Age
David L. Pugh	Chairman & Chief Executive Officer, and a member of Board of Directors	60
Benjamin J. Mondics	President & Chief Operating Officer (since January 2008); previously served as Executive Vice President & Chief Operating Officer (from February 2007 – December 2007) and Vice President-Midwest Area (prior to February 2007)	51
Thomas E. Arnold	Vice President-Marketing and Strategic Accounts (since January 2008); previously served as Vice President-Product Management and Marketing	54
Todd A. Barlett	Vice President-Acquisitions and Global Business Development	54
Fred D. Bauer	Vice President-General Counsel & Secretary	43
Michael L. Coticchia	Vice President-Chief Administrative Officer and Government Business (since July 2006); previously served as Vice President-Human Resources and Administration	46
Mark O. Eisele	Vice President-Chief Financial Officer & Treasurer	52
Jeffrey A. Ramras	Vice President-Supply Chain Management (since January 2008); previously served as Vice President-Marketing and Supply Chain Management	54
Richard C. Shaw	Vice President-Communications and Learning	60

PART II.

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Applied's common stock, without par value, is listed for trading on the New York Stock Exchange with the ticker symbol AIT. Information concerning the principal market for Applied's common stock, the quarterly stock prices and dividends for the fiscal years ended June 30, 2009, 2008, and 2007 and the number of shareholders of record as of August 11, 2009 is set forth in the 2009 annual report to shareholders on page 37, under the caption Quarterly Operating Results and Market Data, and that information is incorporated here by reference.

The following table summarizes Applied's repurchases of its common stock in the quarter ended June 30, 2009.

Period	(a) Total Number of Shares (1)	(b) Average Price Paid per Share (\$)	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (2)
April 1, 2009 to April 30, 2009	0	--	0	997,100
May 1, 2009 to May 31, 2009	0	--	0	997,100
June 1, 2009 to June 30, 2009	0	--	0	997,100
Total	0	--	0	997,100

- (1) During the quarter ended June 30, 2009, Applied purchased 63 shares in connection with an employee deferred compensation program. This purchase is not counted in the Board of

Directors
authorization
in note (2).

- (2) On January 23, 2008, the Board of Directors authorized the purchase of up to 1.5 million shares of Applied's common stock. We publicly announced the authorization that day. Purchases may be made in the open market or in privately negotiated transactions. This authorization is in effect until all shares are purchased, or the Board revokes or amends the authorization.

ITEM 6. SELECTED FINANCIAL DATA.

The summary of selected financial data for the last five years is set forth in the 2009 annual report to shareholders in the table on pages 38 - 39 under the caption 10 Year Summary. That information is incorporated here by reference.

Table of Contents

**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS.**

Management's Discussion and Analysis is set forth in the 2009 annual report to shareholders on pages 5 - 11 and is incorporated here by reference.

**ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES
ABOUT MARKET RISK.**

The disclosures about market risk required by this item are set forth in Applied's 2009 annual report to shareholders on page 11, which information is incorporated here by reference. For more information relating to borrowing and interest rates, see the Liquidity and Capital Resources section of Management's Discussion and Analysis and notes 5 and 6 to the consolidated financial statements in Applied's 2009 annual report to shareholders on pages 7 - 8, and 21 - 22. That information is also incorporated here by reference. In addition, see Risk Factors at pages 10 - 14, above, for additional risk factors relating to our business.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The following consolidated financial statements and supplementary data of Applied and its subsidiaries and the reports of the independent registered public accounting firm listed below, which are included in the 2009 annual report to shareholders at the pages indicated, are incorporated here by reference and filed with this report:

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS
ON ACCOUNTING AND FINANCIAL DISCLOSURE.

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES.

Applied's management, under the supervision and with the participation of the chief executive officer and the chief financial officer, has evaluated the effectiveness of Applied's disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act, as of the end of the period covered by this report. Based on that evaluation, management has concluded that the disclosure controls and procedures are effective.

Management's annual report on Applied's internal control over financial reporting and the attestation report of the independent registered public accounting firm are set forth in the 2009 annual report to shareholders on pages 35 36 and are incorporated here by reference.

Management has not identified any change in internal control over financial reporting occurring during the fourth quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

Not applicable.

Table of Contents

PART III.

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

The information required by this Item as to Applied's directors is incorporated by reference to Applied's proxy statement relating to the annual meeting of shareholders to be held October 20, 2009, under the caption "Item 1 Election of Directors." The information required by this Item as to Applied's executive officers has been furnished in this Report on page 16 in Part I, after Item 4, under the caption "Executive Officers of the Registrant."

The information required by this Item regarding compliance with Section 16(a) of the Securities Exchange Act of 1934 is incorporated by reference to Applied's proxy statement, under the caption "Section 16(a) Beneficial Ownership Reporting Compliance."

Applied has a code of ethics, named the Code of Business Ethics, that applies to our employees, including our chief executive officer, chief operating officer, chief financial officer, and corporate controller. The Code of Business Ethics is posted at the investor relations area of our www.applied.com website.

Information regarding the composition of Applied's audit committee and the identification of audit committee financial expert(s) serving on the audit committee is incorporated by reference to Applied's proxy statement, under the caption "Corporate Governance."

ITEM 11. EXECUTIVE COMPENSATION.

The information required by this Item is incorporated by reference to Applied's proxy statement for the annual meeting of shareholders to be held October 20, 2009, under the captions "Executive Compensation" and "Compensation Committee Report."

**ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND
MANAGEMENT AND RELATED STOCKHOLDER MATTERS.**

Applied's shareholders have approved the following equity compensation plans: the 1997 Long-Term Performance Plan, the 2007 Long-Term Performance Plan, the Deferred Compensation Plan, and the Deferred Compensation Plan for Non-Employee Directors. All of these plans are currently in effect.

The following table shows information regarding the number of shares of Applied common stock that may be issued pursuant to equity compensation plans or arrangements of Applied as of June 30, 2009.

Table of Contents

Plan Category	Number of Securities to be Issued upon Exercise of	Weighted- Average Exercise Price of Outstanding	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans
Equity compensation plans approved by security holders	2,446,405	\$ 17.06	*
Equity compensation plans not approved by security holders	0	--	0
Total	2,446,405	\$ 17.06	*

* The 2007 Long-Term Performance Plan was adopted to replace the 1997 Long-Term Performance Plan, under which previously awarded stock options and stock appreciation rights remain outstanding. The aggregate number of shares that remained available for awards under the 2007

Long-Term
Performance
Plan at June 30,
2009, was

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Applied Industrial Technologies, Inc.

We have audited the consolidated financial statements of Applied Industrial Technologies, Inc. and subsidiaries (the Company) as of June 30, 2009 and 2008, and for each of the three years in the period ended June 30, 2009, and the Company's internal control over financial reporting as of June 30, 2009, and have issued our reports thereon dated August 19, 2009; such consolidated financial statements and reports are included in your 2009 Annual Report to Shareholders and are incorporated herein by reference. Our audits also included the consolidated financial statement schedule of the Company listed in Item 15. This consolidated financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion based on our audits. In our opinion, such consolidated financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.
