HMN FINANCIAL, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(unaudited)

September 30, 2009 and 2008

(1) HMN Financial, Inc.

HMN Financial, Inc. (HMN or the Company) is a stock savings bank holding company that owns 100 percent of Home Federal Savings Bank (the Bank). The Bank has a community banking philosophy and operates retail banking and loan production offices in Minnesota and Iowa. The Bank has one wholly owned subsidiary, Osterud Insurance Agency, Inc. (OIA), which offers financial planning products and services. HMN has another wholly owned subsidiary, Security Finance Corporation (SFC), which acts as an intermediary for the Bank in completing certain real estate transactions.

The consolidated financial statements included herein are for HMN, SFC, the Bank and the Bank's wholly owned subsidiary, OIA. All significant intercompany accounts and transactions have been eliminated in consolidation.

(2) Basis of Preparation

The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and therefore, do not include all disclosures necessary for a complete presentation of the consolidated balance sheets, consolidated statements of income (loss), consolidated statement of stockholders' equity and comprehensive loss and consolidated statements of cash flows in conformity with U.S. generally accepted accounting principles (GAAP). However, all normal recurring adjustments which are, in the opinion of management, necessary for the fair presentation of the interim financial statements have been included. The consolidated statement of income (loss) for the three and nine-month periods ended September 30, 2009 is not necessarily indicative of the results which may be expected for the entire year.

Certain amounts in the consolidated financial statements for prior periods have been reclassified to conform with the current period presentation.

Subsequent events were evaluated through the filing date of the quarterly 10-Q with the Securities and Exchange Commission on November 3, 2009.

(3) New Accounting Standards

In June 2009, the FASB issued SFAS No. 168 (ASU 105.10), *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162, The Hierarchy of Generally Accepted Accounting Principles*. This Statement establishes the Codification as the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under federal securities laws are also sources of authoritative GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. Following this Statement, the FASB will not issue new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts. Instead, it will issue Accounting Standard Updates (ASUs) that will serve only to update the Codification. This Statement is effective for financial statements issued for interim and annual periods ending after September 15, 2009 and did not have any impact on the Company's consolidated financial statements except for disclosure changes to the authoritative pronouncement references.

In June 2009, the FASB issued SFAS No. 167 (ASU 810.10), *Amendments to FASB Interpretation No. 46(R)*. This Statement amends FASB 46(R) to require an enterprise to perform an analysis and ongoing reassessments to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity and amends certain guidance for determining whether an entity is a variable interest entity. It also requires enhanced disclosures that will provide users of financial statements with more transparent information

about an enterprise's involvement in a variable interest entity. This Statement is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009 and for all interim reporting periods after that and is not anticipated to have any impact on the Company's consolidated financial statements as the Company has no interests in any variable interest entities.

In June 2009, the FASB issued SFAS No. 166 (ASU 860.10), *Accounting for Transfers of Financial Assets - an amendment of FASB Statement No. 140*. This Statement amends SFAS 140 and removes the concept of a qualifying special-purpose entity from SFAS 140 and eliminates the exception from applying FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, on qualifying special-purpose entities. This Statement is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter and is not anticipated to have any impact on the Company's consolidated financial statements.

(4) Derivative Instruments and Hedging Activities

The Company has commitments outstanding to extend credit to future borrowers that had not closed prior to the end of the quarter. The Company intends to sell these commitments, which are referred to as its mortgage pipeline. As commitments to originate or purchase loans enter the mortgage pipeline, the Company generally enters into commitments to sell the mortgage pipeline into the secondary market on a firm commitment or best efforts basis. The commitments to originate, purchase or sell loans on a firm commitment basis are derivatives. As a result of marking to market the mortgage pipeline and the related firm commitments to sell for the period ended September 30, 2009, the Company recorded an increase in other assets of \$78,562, an increase in other liabilities of \$66,890 and a gain on sales of loans of \$11,672.

The current commitments to sell loans held for sale are derivatives that do not qualify for hedge accounting. As a result, these derivatives are marked to market and the related loans held for sale are recorded at the lower of cost or market. The Company recorded an increase in other liabilities of \$40,100 and a loss included in the gain on sales of loans of \$40,100 due to the mark-to-market adjustment on the commitments to sell loans held for sale.

(5) Fair Value Measurements

The Company measures the fair value of assets and liabilities using a hierarchy system consisting of three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1 Valuation is based upon quoted prices for identical instruments traded in active markets that the Company has the ability to access.

Level 2 Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which significant assumptions are observable in the market.

Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market and that are used only to the extent observable inputs are not available. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

The following table summarizes the assets of the Company for which fair values are determined on a recurring basis as of September 30, 2009.

<i>(Dollars in thousands)</i>	Carrying value at September 30, 2009			
	Total	Level 1	Level 2	Level 3
Securities available for sale	\$ 135,584	7,260	128,324	0
Mortgage loan commitments	79	0	79	0
Total	\$ 135,663	7,260	128,403	0

The Company may also be required, from time to time, to measure certain other financial assets at fair value on a nonrecurring basis in accordance with generally accepted accounting principles. These adjustments to fair value usually result from the application of the lower-of-cost or market accounting or the write-down of individual assets. For assets measured at fair value on a nonrecurring basis in the third quarter of 2009, that were still held at September 30, 2009, the following table provides the level of valuation assumptions used to determine each adjustment and the carrying value of the related individual assets or portfolios at September 30, 2009.
