News Release / Presseinformation

**Infineon and Elpida Settle Legal Dispute**

Neubiberg, Germany May 20, 2010 Infineon Technologies AG (FSE: IFX / OTCQX: IFNNY) today announced that it has settled its patent infringement claim against Elpida Memory Inc., and both Infineon and Elpida have agreed to seek dismissal of all pending patent infringement cases. Infineon initiated proceedings in February 2010, when it filed a complaint against Elpida and Elpida's customers in the U.S. International Trade Commission (ITC). Elpida subsequently filed two lawsuits in the U.S. District Court, Eastern District of Virginia.

Infineon and Elpida have settled the dispute through a broad patent cross license relating to semiconductor technology. The specific terms and conditions of the license are confidential.

Infineon is pleased to have reached this agreement with Elpida, and we look forward to a lasting peace between the companies, said Prof. Dr. Hermann Eul, Member of the Management Board, responsible for Sales, Marketing, Technology and R&D at Infineon Technologies AG. This outcome is further affirmation of our ongoing efforts to protect our intellectual property rights and business interests.

**About the case**

On February 19, 2010, Infineon Technologies AG and its subsidiary Infineon Technologies North America Corp. filed a complaint with the ITC against Elpida Memory Inc. Infineon stated that Elpida had infringed Infineon's patents covering key inventions in semiconductor processing and device manufacturing. Infineon's complaint with the ITC sought an exclusion order that would have barred from entry into the US all infringing DRAM chips and products that are imported by Elpida or Elpida's customers. On March 23, 2010, the ITC opened its investigation based on the complaint filed.

On April 2, 2010, Elpida filed two patent infringement lawsuits against Infineon in the U.S. District Court, Eastern District of Virginia.

**About Infineon**

Infineon Technologies AG, Neubiberg, Germany, offers semiconductor and system solutions addressing three central challenges to modern society: energy efficiency, communications, and security. In the 2009 fiscal year (ending September), the company reported sales of Euro 3.03 billion with approximately 25,650 employees worldwide. With a global presence, Infineon operates through its subsidiaries in the U.S. from Milpitas, CA, in the Asia-Pacific region from Singapore, and in Japan from Tokyo. Infineon is listed on the Frankfurt Stock Exchange (ticker symbol: IFX) and in the USA on the over-the-counter market OTCQX International Premier (ticker symbol: IFNNY).
