REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and Administrator of
Flagstar Bank 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of Flagstar Bank 401(k) Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, Schedule H, line 4i Schedule of Assets (Held at End of Year) as of December 31, 2009, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2009 financial statements taken as a whole.

**Flagstar Bank 401(k) Plan
Notes to Financial Statements
December 31, 2009 and 2008**

Note A Description of Plan

The following description of the Flagstar Bank 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to all employees of Flagstar Bancorp, Inc. (the Company) who have met the eligibility service requirements. The Plan includes a salary deferral feature under section 401(k) of the Internal Revenue Code (IRC). An employee is eligible to participate in the Plan after three months of service and is age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible employees may contribute up to 60% of their eligible compensation to the Plan in 2009 not to exceed the annual Internal Revenue Service (IRS) dollar limitation of \$16,500. Participants were also able to make additional contributions of up to \$5,500 the annual IRS dollar limit on catch-up contributions in 2009. Certain participants were also able to contribute amounts representing rollover contributions from other qualified defined benefit or defined contribution plans. In 2009, the Plan was amended to suspend all employer matching contributions effective October 1, 2009 until such time as the Company affirmatively reinstates such matching contributions. The Company may make discretionary contributions to the Plan. No discretionary contributions were made in 2009. All contributions are invested in accordance with the participant's directive.

Vesting

Participants are immediately vested in their voluntary contributions and related earnings. Vesting in the Company contributions and related earnings is based on years of service. A participant becomes 100% vested in Company contributions after five years of credited service.

Participants Accounts

Each participant's account is credited with the participant's contribution, the Company contribution made on the employee's behalf and an allocation of Plan earnings based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Participant loans are permitted by the Plan. Participants may borrow a minimum of \$1,000 up to the lesser of \$50,000 or 50% of the participant's vested account balance, reduced by the highest outstanding loan balance in the preceding 12 months. All loans must be repaid in level payments through after-tax payroll deductions over a five-year period or up to 10 years for the purchase of a primary residence. The loans are collateralized by up to 50% of a participant's account balance and bear interest at rates ranging from 4.25% to 9.25%, as determined by the Plan administrator at the date of issuance of the loan.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in 1% increments in any of the available investment options. Participants may change their designation daily.

Payment of Benefits

Upon termination of services, retirement, attainment of age 59-1/2, death or disability, the participant or his or her beneficiaries are entitled to receive a distribution or rollover to an IRA or other eligible plan a single lump sum

Table of Contents

**Flagstar Bank 401(k) Plan

amount equal to the vested amount of his or her account. A participant may also receive a distribution of his or her vested account balance in the case of financial hardship subject to the discretion of the Plan's administrator

Forfeitures

If a participant terminates employment, any non-vested portion of the participant's account is forfeited. Forfeitures are applied to plan expenses and any amounts remaining are then used to reduce the contributions of the Company.

Forfeited non-vested accounts totaled \$216,000 at December 31, 2009. In 2009, Company contributions were reduced by \$343,000 and administrative expenses were reduced by \$13,000 from forfeited non-vested accounts.

Administrative Expenses

The Company pays a portion of the Plan's administrative expenses. Participants pay the applicable fees associated with their loans distributions, withdrawals and stock transactions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of the IRC and ERISA. In the event of termination of the Plan, the assets of the Plan shall be distributed to all participants to the extent of the value of each participant's account after adjustment for liquidation expenses, which were not paid by the Company. In the event of the Plan termination, participants would become 100% vested in their Company contributions.

Note B Summary of Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value using the methods described in Note C. The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fidelity Managed Income Portfolio

The Plan has an investment in the Managed Income Portfolio, a common trust fund of the Fidelity Group Trust for the Employee Benefit Plans (the Managed Income Portfolio Fund), which includes benefit-responsive investment contracts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus earnings, less participants withdrawals and administrative

expenses. The statements of assets available for benefits present the fair value of the Managed Income Portfolio Fund and the adjustment from fair value to contract value.

The fair value of the Plan's investment in the Managed Income Portfolio Fund was \$59,217 and \$222,661 as December 31, 2009 and 2008, respectively. The contract value of the Plan's investment in the Managed Income Portfolio Fund was \$70,216 and \$234,516 as of December 31, 2009 and 2008, respectively..

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates the impact of all subsequent events through the issuance date of the Plan's financial statements for the year ended December 31, 2009. Management has evaluated subsequent events through June 29, 2010, and has determined that all subsequent events have been appropriately recognized and disclosed in the accompanying financial statements.

Note C Fair Value Accounting

The Plan assets, which are recorded at fair value, are grouped into three levels based on the markets in which the assets are traded and the reliability of the assumptions used to determine fair value. An asset's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement (with Level 1 considered highest and Level 3 considered lowest). A brief description of each level follows:

Level 1 Fair value is based upon quoted prices for identical instruments in active markets.

Level 2 Fair value is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 Fair value is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates that market participants would use in pricing that asset or liability. Valuation techniques may include discounted cash flow models and similar techniques.

The following is a description of the valuation methodologies used by the Plan for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Flagstar Bancorp common stock: Valued at the closing price reported on the active market on which the security is traded.

Mutual funds: Valued at the net asset value of the shares held by the Plan at year end.

Money market funds: Valued at cost which approximates the net asset value of the shares held by the Plan at year end.

Common collective trust fund: Valued as the sum of (a) the fair value of the investments in guaranteed investment contracts (traditional GICs) and security-backed investment contracts that are wrapped by an insurance company, bank or other financial institution as determined by that fund's trustee (synthetic GICs) and (b) the fair value of the fund's investments in externally managed collective investment funds as determined by those funds' trustees.

Participant loans: Valued at the amortized cost plus accrued interest, which approximates fair value. The methods described above may produce a fair value estimate that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair

value of certain financial instruments could result in different estimates of fair values of the same financial instruments at the reporting date.

The following tables presents the Plans investments carried at fair value as of December 31, 2009 and 2008, by valuation hierarchy (as described above):

Note E Parties-In-Interest

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, those transactions qualify as party-in-interest transactions. Pursuant to the Plan agreement, the Company may pay a portion of the administrative expenses of the Plan, at its discretion. Expenses paid to the trustee by the Company amounted to \$53,000 in 2009. In addition, the Plan trades in the common stock of the Company.

The Plan held 5,468,654 and 4,283,809 shares of Flagstar Bancorp, Inc. common stock as of December 31, 2009 and 2008, respectively. During 2009, Flagstar Bancorp, Inc. did not declare or pay any common stock dividends.

Note F Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 5, 2001, that the Plan and related trusts are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan was amended, subsequent to the application for favorable determination above, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Note G Risks and Uncertainties

The Plan provides for various investment options in any combination of equity securities, bonds, fixed income securities and other investments with market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.
