PROXY STATEMENT

VOTING AND OTHER MATTERS

General

The accompanying proxy is solicited on behalf of Synaptics Incorporated, a Delaware corporation, by our Board of Directors for use at our Annual Meeting of Stockholders to be held on Tuesday, October 19, 2010 at 9:00 a.m., local time, or at any adjournment or postponement thereof, for the purposes set forth in this proxy statement and in the accompanying meeting notice. The meeting will be held at our principal executive offices located at 3120 Scott Boulevard, Santa Clara, California 95054.

In accordance with rules adopted by the Securities and Exchange Commission, or the SEC, that allow companies to furnish their proxy materials over the Internet, we are mailing a Notice of Internet Availability of Proxy Materials instead of a paper copy of our proxy statement and our 2010 Annual Report to most of our stockholders. The Notice of Internet Availability of Proxy Materials contains instructions on how to access those documents and vote over the Internet. The Notice of Internet Availability of Proxy Materials contains instructions on how to access those documents and vote over the Internet. The Notice of Internet Availability of Proxy Materials also contains instructions on how to request a paper copy of our proxy materials, including our proxy statement, our 2010 Annual Report, and a form of proxy card. We believe this process will allow us to provide our stockholders the information they need in a more timely manner, while reducing the environmental impact and lowering our costs of printing and delivering the proxy materials.

These proxy solicitation materials were first released on or about September _____, 2010 to all stockholders entitled to vote at the meeting.

Record Date and Outstanding Shares

Stockholders of record at the close of business on August 27 2010, which we have set as the record date, are entitled to notice of and to vote at the meeting. On the record date, there were issued and outstanding ______ shares of our common stock, par value \$0.001 per share.

Quorum

The presence, in person or by proxy, of the holders of a majority of the total number of shares of common stock outstanding and entitled to vote constitutes a quorum for the transaction of business at the meeting. Each stockholder voting at the meeting, either in person or by proxy, may cast one vote per share of common stock held on all matters to be voted on at the meeting.

Required Votes

Assuming that a quorum is present, the affirmative vote of a majority of the votes cast is required for the election of the nominee for a three-year term expiring in 2013, to approve the adoption of our 2010 Incentive Compensation Plan to replace our expiring 2001 Incentive Compensation Plan, to approve our 2010 Employee Stock Purchase Plan to replace our expiring 2001 Employee Stock Purchase Plan, and to ratify the appointment of KPMG LLP, an independent registered public accounting firm, as the independent auditor of our company for the fiscal year ending June 30, 2011. The affirmative vote of a majority of the outstanding shares of our common stock is required to approve the amendment of our Certificate of Incorporation to increase our authorized common stock.

Our Board of Directors recommends that you vote in favor of each of the proposals. Voting of Proxies

When a proxy is properly executed and returned, the shares it represents will be voted at the meeting as directed. If no specification is indicated, the shares will be voted (1) for the election of the nominee for director set forth in this proxy statement, (2) for the proposal to amend our Certificate of Incorporation, (3) for the proposal to approve our 2010 Incentive Compensation Plan to replace our expiring 2001 Incentive Compensation Plan, (4) for the proposal to approve of our 2010 Employee Stock Purchase Plan to replace our expiring 2001 Employee Stock Purchase Plan, (5)

for the proposal to ratify the appointment of KPMG LLP, an independent registered public accounting firm, as the independent auditor of our company for the fiscal year ending June 30, 2011, and (6) as the persons specified in the proxy deem advisable on such other matters as may come before the meeting.

Broker Non-Votes and Abstentions

Brokers, banks, or other nominees that hold shares of common stock in street name for a beneficial owner of those shares typically have the authority to vote in their discretion if permitted by the stock exchange or other organization of which they are members. Brokers, banks, and other nominees are permitted to vote the beneficial owner s proxy in their own discretion as to certain routine proposals when they have not received instructions from the beneficial owner, such as the ratification of the appointment of KPMG, LLP as the independent registered public accountant of our company for the fiscal year ending June 30, 2011. If a broker, bank, or other nominee votes such uninstructed shares for or against a routine proposal, those shares will be counted towards determining whether or not a quorum is present and are considered entitled to vote on the routine proposals. However, where a proposal is non-routine, a broker, bank, or other nominee is not permitted to exercise its voting discretion on that proposal without specific instructions from the beneficial owner. These non-voted shares are referred to as broker non-votes when the nominee has voted on other non-routine matters with authorization or voted on routine matters. These shares will be counted towards determining whether or not a quorum is present, but will not be considered entitled to vote on the non-routine proposals.

Please note that this year the rules regarding how brokers, banks, or other nominees may vote your shares have changed. As a result, brokers, banks, and other nominees may no longer use discretionary authority to vote shares on the election of directors, the proposed amendment to our Certificate of Incorporation, the proposal to approve our 2010 Incentive Compensation Plan to replace our expiring 2001 Incentive Compensation Plan to replace our expiring 2001 Incentive expiring 2001 Employee Stock Purchase Plan if they have not received specific instructions from their clients. For your vote to be counted in the above, you now will need to communicate your voting decisions to your broker, bank, or other nominee before the date of the meeting.

As provided in our bylaws, a majority of the votes cast means that the number of votes cast for a proposal exceeds the number of votes cast against that proposal. Because abstentions and broker non-votes do not represent votes cast for or against a proposal, broker non-votes and abstentions will have no effect on the proposal to elect a director, the proposal to approve our 2010 Incentive Compensation Plan to replace our expiring 2001 Incentive Compensation Plan, the proposal to approve our 2010 Employee Stock Purchase Plan to replace our expiring 2001 Employee Stock Purchase Plan, or the proposal to ratify the appointment of KPMG LLP as the independent auditor of our company for the fiscal year ending June 30, 2011, as each such proposal is determined by reference to the votes actually cast by the shares present or represented by proxy and entitled to vote. For the proposal to approve an amendment to our Certificate of Incorporation, where the vote required is a majority of the outstanding shares of our common stock, abstentions and broker non-votes are equivalent to a vote cast against the proposal.

In accordance with our policy, an incumbent candidate for director who does not receive the required votes for re-election is expected to tender his or her resignation to our Board of Directors. Our Board of Directors, or another duly authorized committee of our Board of Directors, will make a determination as to whether to accept or reject the tendered resignation generally within 90 days after certification of the election results of the stockholder vote. We will publicly disclose the decision regarding the tendered resignation and the rationale behind the decision in a filing of a Current Report on Form 8-K with the SEC.

Revocability of Proxies

Any stockholder giving a proxy may revoke the proxy at any time before its use by furnishing to us either a written notice of revocation or a duly executed proxy bearing a later date, or by attending the meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request.

Election Inspector

Votes cast by proxy or in person at the meeting will be tabulated by the election inspector appointed for the meeting, who will determine whether a quorum is present. The election inspector will treat broker non-votes and abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum, and as described in the Broker Non-Votes and Abstentions section of this proxy statement for purposes of determining the approval of any matter submitted to the stockholders for a vote.

Solicitation

We will bear the cost of this solicitation. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of shares for expenses incurred in forwarding solicitation materials to such beneficial owners. Proxies also may be solicited by certain of our directors and officers, personally or by telephone or e-mail, without additional compensation.

Annual Report and Other Matters

Our 2010 Annual Report to Stockholders, which was made available to stockholders with or preceding this proxy statement, contains financial and other information about our company, but is not incorporated into this proxy statement and is not to be considered a part of these proxy materials or subject to Regulations 14A or 14C or to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. The information contained in the Compensation Committee Report and the Audit Committee Report shall not be deemed filed with the SEC or subject to Regulations 14A or 14C or to the liabilities of Section 18 of the Exchange Act.

Any exhibits listed in the Form 10-K report also will be furnished upon request at the actual expense we incur in furnishing such exhibits. Any such requests should be directed to our corporate secretary at our executive offices set forth in this proxy statement.

The fiscal periods presented in this proxy statement were 52-week periods for the years ended June 28, 2008, June 27, 2009, and June 26, 2010. For ease of presentation, the accompanying disclosures have been shown as ending on June 30, 2008, 2009, and 2010. The numbers included in this proxy statement also reflect the retroactive effect of the 3-for-2 stock split effected as a stock dividend to each stockholder of record on August 15, 2008 and paid on August 29, 2008.

There are no family relationships among any of our directors or officers.

The members of our Audit Committee, Compensation Committee, and Nominations and Corporate Governance Committee consist entirely of independent directors.

The primary responsibilities of the Audit Committee are set forth in its charter and include various matters with respect to the oversight of our company s accounting and financial reporting process and audits of the financial statements of our company on behalf of our Board of Directors. The Audit Committee also selects the independent auditor to conduct the annual audit of the financial statements of our company; reviews the proposed scope of such audit; reviews accounting and financial controls of our company with the independent auditor and our financial accounting staff; and reviews and approves any transactions between us and our directors, officers, and their affiliates.

The Audit Committee currently consists of Messrs. Buchanan, Chan, and Whims, each of whom is an independent director of our company under Nasdaq listing standards as well as under rules adopted by the SEC pursuant to the Sarbanes-Oxley Act of 2002, or Sarbanes-Oxley. Mr. Buchanan serves as the Chairman of the Audit Committee.

The Compensation Committee

The purposes of the Compensation Committee include determining, or recommending to our Board of Directors for determination, the compensation of the Chief Executive Officer and other executive officers of our company and discharging the responsibilities of our Board of Directors relating to compensation programs of our company. Chan, Geeslin, and Sanquini, each of whom is an independent director of our company under Nasdaq listing standards as well as under rules adopted by the SEC pursuant to Sarbanes-Oxley. Mr. Chan serves as the Chairman of the Nominations and Corporate Governance Committee.

The Nominations and Corporate Governance Committee will consider persons recommended by stockholders for inclusion as nominees for election to our Board of Directors if the information required by our bylaws is submitted in writing in a timely manner addressed and delivered to our company s corporate secretary at our executive offices set forth in this proxy statement. The Nominations and Corporate Governance Committee identifies and evaluates nominees for our Board of Directors, including nominees recommended by stockholders, based on numerous factors it considers appropriate, some of which may include strength of character, mature judgment, career specialization, relevant technical skills, diversity, and the extent to which the nominee would fill a present need on our Board of Directors.

Risk Assessment of Compensation Policies and Practices

We have assessed the compensation policies and practices with respect to our employees, including our executive officers, and have concluded that they do not create risks that are reasonably likely to have a material adverse effect on our company.

Board s Role in Risk Oversight

Risk is inherent in every business. As is the case in virtually all businesses, we face a number of risks, including operational, economic, financial, legal, regulatory, and competitive risks. Our management is responsible for the day-to-day management of the risks we face. Our Board of Directors, as a whole and through its committees, has responsibility for the oversight of risk management.

In its oversight role, our Board of Directors involvement in our business strategy and strategic plans plays a key role in its oversight of risk management, its assessment of management s risk appetite, and its determination of the appropriate level of enterprise risk. Our Board of Directors receives updates at least quarterly from senior management and periodically from outside advisors regarding the various risks we face, including operational, economic, financial, legal, regulatory, and competitive risks. Our Board of Directors also reviews the various risks we identify in our filings with the SEC as well as risks relating to various specific developments, such as acquisitions, stock repurchases, debt and equity placements, and product introductions.

Our Board committees assist our Board of Directors in fulfilling its oversight role in certain areas of risks. Pursuant to its charter, the Audit Committee oversees the financial and reporting processes of our company and the audit of the financial statements of our company and provides assistance to our Board of Directors with respect to the oversight and integrity of the financial statements of our company, our company s compliance with legal and regulatory matters, the independent auditor s qualification and independence, and the performance of our independent auditor. The Compensation Committee considers the risks that our compensation policies and practices may have in attracting, retaining, and motivating valued employees and endeavors to assure that it is not reasonably likely that our compensation plans and policies would have a material adverse effect on our company. Our Nominations and Corporate Governance Committee oversees governance related risks, such as board independence, conflicts of interests, and management succession planning.

Board Diversity

We seek diversity in experience, viewpoint, education, skill, and other individual qualities and attributes to be represented on our Board of Directors. We believe directors should have various qualifications, including individual character and integrity; business experience and leadership ability; strategic planning skills, ability, and experience; requisite knowledge of our industry and finance, accounting, and legal matters; communications and interpersonal skills; and the ability and willingness to devote time to our company. We also believe the skill sets, backgrounds, and

Edgar Filing: SYNAPTICS INC - Form PRE 14A

qualifications of our directors, taken as a whole, should provide a significant mix of diversity in personal and professional experience, background, viewpoints, perspectives, knowledge, and abilities. Nominees are not to be discriminated against on the basis of race, religion, national origin, sex, sexual orientation, disability, or any other basis prescribed by law. The assessment of directors is made in the context of the perceived needs of our Board of Directors from time to time.

All of our directors have held high-level positions in business or professional service firms and have experience in dealing with complex issues. We believe that all of our directors are individuals of high character and integrity, are able to work well with others, and have committed to devote sufficient time to the business and affairs of our company. In addition to these attributes, the description of each director s background sets forth above indicates the specific experience, qualifications, and skills necessary to conclude that each individual should continue to serve as a director of our company.

Board Leadership Structure

We believe that effective board leadership structure can depend on the experience, skills, and personal interaction between persons in leadership roles as well as the needs of our company at any point in time. We currently maintain separate roles between the Chief Executive Officer and Chairman of the Board in recognition of the differences between the two responsibilities. Our Chief Executive Officer is responsible for setting our strategic direction and for day-to-day leadership and performance of our company. Our Chairman of the Board provides input to the Chief Executive Officer, sets the agenda for Board meetings, and presides over meetings of the full Board of Directors as well as executive sessions of the Board of Directors.

Mr. Sanquini served as our Lead Director from October 2008 to June 2010, which included the period of time that Mr. Lee served as both our Chairman of the Board and Chief Executive Officer. In that role, Mr. Sanquini helped to facilitate communication and interaction between our Board of Directors and management. At Mr. Sanquini s suggestion, the position of Lead Director was terminated at the end of fiscal 2010 because the separation of the roles of Chairman of the Board and Chief Executive Officer since July 2009 made the role unnecessary.

Compensation Committee Interlocks and Insider Participation

During the fiscal year ended June 30, 2010, our Compensation Committee consisted of Messrs. Geeslin, Sanquini, and Whims. None of these individuals had any contractual or other relationships with us during the fiscal year except as directors.

Board and Committee Meetings

The Board of Directors held a total of five meetings during the fiscal year ended June 30, 2010. During the fiscal year ended June 30, 2010, the Audit Committee held five meetings; the Compensation Committee held four meetings; and the Nominations and Corporate Governance Committee held two meetings. Each of our directors attended at least 75% of the aggregate of (1) the total number of meetings of our Board of Directors held during fiscal 2010, and (2) the total number of meetings held by all committees of our Board of Directors on which such person served during fiscal 2010.

Annual Meeting Attendance

We encourage our directors to attend each annual meeting of stockholders. To that end, and to the extent reasonably practical, we generally schedule a meeting of our Board of Directors on the same day as our annual meeting of stockholders. All of our directors attended our annual meeting of stockholders last year.

Communications with Directors

Interested parties may communicate with our Board of Directors or specific members of our Board of Directors, including our independent directors and the members of our various board committees, by submitting a letter addressed to the Board of Directors of Synaptics Incorporated, c/o any specified individual director or directors at our executive offices set forth in this proxy statement. Any such letters are forwarded to the indicated directors.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

Our Board of Directors has appointed a Compensation Committee, consisting exclusively of independent directors. The Compensation Committee is authorized to determine and approve, or make recommendations to our Board of Directors with respect to, the compensation of our Chief Executive Officer and our other executive officers and to grant or recommend the grant of stock-based compensation to our Chief Executive Officer and other executive officers.

The compensation program for executive officers consists primarily of base salary, performance-based bonuses, and long-term incentives in the form of stock-based compensation, including stock options and deferred stock units. Executives also participate in other benefit plans, including medical and retirement plans, which generally are available to all regular full-time employees of our company. We consider each element of our compensation collectively with other elements of compensation when establishing the various forms, elements, and levels of compensation.

Our philosophy is to pay base salaries to executives at levels that enable us to attract, motivate, and retain highly qualified executives. We establish annual bonus programs designed to reward individuals for performance based primarily on our financial results and their achievement of personal and corporate goals that contribute to our long-term goal of building stockholder value. Grants of stock-based awards are intended to provide additional incentive to work to maximize long-term total return to stockholders and to align the interests of our executives with those of our stockholders. Total compensation levels reflect corporate positions, responsibilities, and achievement of goals. As a result of our performance-based philosophy to compensation, compensation levels may vary significantly from year to year and among our various executive officers. In general, we expect the compensation level of our Chief Executive Officer will be higher than that of our other executive officers, assuming relatively equal achievement of individual performance goals, since our compensation policies set our base salaries, annual bonuses, and stock-based award grants after reviewing those of comparable companies, which generally compensate their chief executive officers at higher levels because of their roles and their importance to overall company success.

The three most determinative factors in our executive compensation program are compensation levels at comparable companies, individual performance, and company performance. The most important component of competitive compensation levels is compensation levels at Northern California-based high-technology companies, with revenue between \$200 million and \$1.0 billion, which we consider comparable companies; the most important component of company performance is operating profit; and the most important component of individual performance is achieving individual goals that are set at the beginning of each year but vary from year to year and position by position, but generally include financial and operating performance, product success, timely product delivery, forecasting accuracy, customer satisfaction, cost reduction, leadership, team building, and employee retention. The Compensation Committee has discretion in determining compensation matters.

Base salary levels for executive officers of our company generally are set at the beginning of each fiscal year, and bonuses are determined at the end of each fiscal year based upon the performance of our company and our executives. **Philosophy**

The goals of our executive compensation program are as follows:

to attract, motivate, and retain highly qualified executives;

to reflect our philosophy of pay-for-performance;

to align compensation to the interests of our company as a whole and its stockholders; and

to recognize corporate stewardship and fiscal responsibility.

Role of the Compensation Committee and Chief Executive Officer

The Compensation Committee of our Board of Directors currently determines the compensation of our Chief Executive Officer and our other executive officers. Annually, our Compensation Committee evaluates the performance of our Chief Executive Officer and determines the compensation of our Chief Executive Officer in light of the goals and objectives of our compensation program for that year. Our Compensation Committee together with our Chief Executive Officer annually assess the performance of our other executive officers. Based on recommendations from our Chief Executive Officer and the determinations of our Compensation Committee, our Compensation Committee determines the compensation of our other executive officers.

At the request of our Compensation Committee, our Chief Executive Officer generally attends a portion of our Compensation Committee meetings, including meetings at which our compensation consultants are present. This enables our Compensation Committee to review with our Chief Executive Officer the corporate and individual goals that our Chief Executive Officer regards as important to achieve our overall success. Our Compensation Committee also requests our Chief Executive Officer to assess the performance of and our goals for our other executive officers. Although the participation of our Chief Executive Officer could influence performance targets and individual goals, including his own, our Compensation Committee rather than our Chief Executive Officer makes all determinations regarding individual and corporate goals and targets. Our Chief Executive Officer does not attend any portion of meetings at which his compensation is discussed.

Compensation Surveys and Compensation Consultants

In determining compensation levels, we regularly review compensation levels in our geographical area, compensation levels of companies that we deem to be similar to our company regardless of their location, competitive factors to enable us to attract executives from other companies, and, most importantly, compensation levels that we deem appropriate to attract, motivate, and retain our executives, with an emphasis on compensation levels at Northern California-based high-technology companies. From time to time, we retain the services of independent compensation consultants to review a wide variety of factors relevant to executive compensation, trends in executive compensation, and the identification of relevant comparable companies. Our Compensation Committee makes all determinations regarding the engagement, fees, and services of our compensation consultants, and our compensation consultants report directly to our Compensation Committee.

Base Salary

Our philosophy is to pay base salaries to executives at levels that enable us to attract, motivate, and retain highly qualified executives. Base salaries for executive officers reflect an executive s position, responsibilities, experience, skills, performance, and contributions. In determining base compensation, we take into account competitive salary levels for similar positions at comparable companies and salary levels relative to other positions within our company. Our base salaries reflect our pay-for-performance philosophy that affords executives the opportunity to receive meaningful incentive compensation based on the performance of our company and our executives achieving individual goals set from time to time. As a result, our base salaries tend to be at approximately the mid point of those of comparable companies.

Our Compensation Committee independently determines the base salary of our Chief Executive Officer. The base salaries for our other executives, other than our Chief Executive Officer, are determined by our Compensation Committee in conjunction with the recommendations of our Chief Executive Officer. Our Compensation Committee s evaluation of the recommendations of our Chief Executive Officer considers the same factors outlined above.

Annual Bonuses

Annual bonuses are intended to provide incentive compensation to our executives who contribute substantially to the success of our company. The granting of such bonuses is based upon the achievement of company performance objectives, including meeting specified levels of operating profit, and individual performance goals. Our incentive compensation targets for annual bonuses for our executive officers are approved annually by our Board of Directors. Executive officer incentive compensation targets are subject to change based on our Compensation Committee s periodic reviews of industry and competitive data, changes in individual responsibility, and our compensation philosophy.

The determination of annual bonuses involves a two-step process. First, we establish the annual target cash incentive compensation pool each fiscal year based on the aggregate cash incentive targets of all of our executive officers. The actual bonus pool for the year is subject to the satisfaction of specified operating profit targets and to adjustment based on company performance relative to the target operating profit approved by our Board of Directors at the beginning of the year. The adjustment to the pool equals 12.5% of the amount, if any, by which our actual operating profit for the fiscal year exceeds or falls short of the target operating profit level.

In step two, the bonus amount, if any, to be received from the available bonus pool by an executive is determined based on the executive s position and responsibility level within our company. Further, our Compensation Committee exercises discretion in determining each executive s award based upon the available pool, a subjective assessment of the achievement of individual performance goals, and any other relevant factors. We set target operating profit at levels designed to penalize disappointing performance and to reward exemplary performance as determined by our Compensation Committee. Achieving target operating profit levels and individual goals generally results in annual bonuses at the mid point of bonuses for comparable companies.

Stock-Based Compensation Grants

Our company grants stock-based awards, including stock options and deferred stock units, periodically to our employees to provide them with additional incentive to work to maximize long-term total return to stockholders. Grants of stock-based awards are intended to result in limited rewards if the price of our common stock does not appreciate, but may provide substantial rewards to executives as our stockholders in general benefit from stock price appreciation. Grants of stock-based awards are intended to align the interests of our executives with those of our stockholders and to align compensation with the price performance of our common stock. Annual stock-based awards are intended to be competitive with those of comparable companies.

Under each incentive compensation plan, our Board of Directors is specified to act as the plan administrator, although our Board of Directors has authorized our Compensation Committee to make decisions regarding grants of stock-based awards to executive officers and employees of and consultants to our company. In general, stock-based awards are granted to employees at the onset of employment. If, in the opinion of the plan administrator, the performance of an existing employee merits an increase in the number of stock-based awards held, however, the plan administrator may elect to issue additional stock-based awards, such as additional stock options and deferred stock units, to that employee. The vesting period on grants is designed to encourage holders to continue in the employ of our company. The vesting schedule for stock options currently is generally 25% on the first anniversary of the grant date and 1/48th of the total shares each month thereafter, and the vesting schedule for deferred stock units is generally 25% approximately one year after the date of grant and 1/16th of the total shares each quarter thereafter. Stock options granted to our employees generally are incentive stock options, or qualified options under Section 422 of the Internal Revenue Code of 1986, as amended, or the Code, subject to calendar year vesting limitations under Section 422(d) with any balance being nonqualified stock options.

Other Benefits

Our company provides various employee benefit programs to our executive officers, including medical, dental, vision, life, and disability insurance benefits, a 401(k) retirement savings plan, and an employee stock purchase plan. These benefits are generally available to all regular full-time employees of our company.

Deductibility of Executive Compensation

We take into account the tax effect of our compensation. Section 162(m) of the Code, or Section 162(m), currently limits the deductibility for federal income tax purposes of compensation in excess of \$1.0 million paid to each of any publicly held corporation s chief executive officer and three other most highly compensated executive officers (excluding the chief financial officer). We may deduct certain types of compensation paid to any of these individuals only to the extent that such compensation during any fiscal year does not exceed \$1.0 million. Qualifying performance-based compensation is not subject to the deduction limits if certain requirements are met.

Accounting Considerations

We account for stock-based employee compensation arrangements in accordance with the provisions of Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC, Topic 718 Compensation Stock Compensation (formerly SFAS 123(R)). In determining stock-based compensation, we consider the potential expense of those grants under FASB ASC Topic 718 and the impact on our earnings per share.

Policies for the Pricing and Timing of Stock-Based Compensation Grants

Generally, we provide for effective dates and set the price of all stock-based awards at the closing price of our stock on the Nasdaq Global Select Market on the second business day after each quarterly earnings release. We approve stock-based compensation at regularly scheduled meetings each year. In the case of new hires, vesting start dates are determined by the date the employee reports for service.

Fiscal 2010 Incentive Compensation Program

In connection with our fiscal 2010 incentive compensation program, we reviewed the Executive Radford Benchmark Survey, a leading international compensation survey covering more than a thousand high-technology companies. We benchmarked our compensation levels with an emphasis on Northern California-based high-technology companies with revenue between \$200 million and \$1.0 billion. We believe that this group of companies represents our primary competition for attracting and retaining our executives. Examples of such companies included in the Executive Radford Benchmark Survey are Actel, Cypress Semiconductor, Intermec, Lattice Semiconductor, Micrel Semiconductor, Palm, RF Micro Devices, Silicon Image, Silicon Laboratories, Tessera Technologies, and TriQuint Semiconductor.

As is our practice, we set base salaries for our executive officers at the beginning of the fiscal year. Base salaries for our named executive officers were increased for fiscal 2010 as set forth below. The increases reflect performance assessments by our Compensation Committee and changes in comparable company base salary levels for the year.

Our fiscal 2010 incentive compensation bonus program was broad based with approximately 71% of our worldwide employees participating. The portion of the incentive compensation bonus pool of \$1.0 million established by our Board of Directors for our named executive officers represented approximately 1.5% of our fiscal 2010 operating income. The amount of the bonus pool for fiscal 2010 reflected the aggregate cash incentive targets for all of our executive officers based on comparable company surveys and reaching a specified operating profit measure. The bonus amount paid to each executive from the bonus pool was determined based on the executive s position and responsibility level within our company and a subjective assessment by our Compensation Committee of performance by the executive in satisfying individual goals. We believe that it was difficult for our executives to achieve their incentive compensation targets because achieving such target levels required a substantial increase in performance over the prior year s results. Based on both individual performances and the assessment of our company s overall performance in fiscal 2010, bonuses were awarded to our named executive officers as set forth below.

For fiscal 2010, our stock-based incentive compensation grants for executive officers took the form of grants of stock options as was the case for fiscal 2008 and fiscal 2009. In fiscal 2010, we granted stock options to certain executive officers and other employees under the program, including those to our named executive officers as set forth below. The amount of stock options granted to each executive officer during fiscal 2010 reflected the executive s position within our company, stock option grants by comparable companies for comparable positions, and the stock options held by the executive. The vesting schedule for stock option awards was generally 25% on the first anniversary of the grant date and 1/48th each month thereafter. The vesting schedule is designed to encourage executives to continue in the employ of our company. Each executive forfeits the unvested portion, if any, of the stock options if the executive s service to our company is terminated for any reason, except as may otherwise be determined by our Board of Directors.

Mr. Tiernan s individual performance goals for fiscal 2010 were to improve customer satisfaction, direct our future business growth plan, enhance operating profit, and develop and build our employee base. Mr. Tiernan received a 21.4% increase in base salary in July 2009 to reflect his changed position from Chief Operating Officer to Chief Executive Officer, to align his base salary with comparable company base salaries, and to reflect his job performance. Mr. Tiernan received a bonus payout of 86% of his target bonus and options to purchase 225,000 shares of our common stock. Mr. Tiernan s compensation reflects his role as Chief Executive Officer of our company, the performance of our company in fiscal 2010, and the satisfactory achievement of his individual performance goals for the year.

Ms. Bayless s individual performance goals for fiscal 2010 were to support our business growth objectives with appropriate processes and controls, monitor and review our corporate and financial structure, set future financial strategy, and foster an environment of high integrity and ethics and regulatory compliance. Ms. Bayless received a 1.0% salary increase in July 2009 to align her base salary with comparable company base salaries. Ms. Bayless received a bonus payout of 95% of her target bonus and options to purchase 40,000 shares of our common stock. Ms. Bayless s compensation for fiscal 2010 reflects her appointment as our Chief Financial Officer, the performance of our company during fiscal 2010, and the satisfactory achievement of her individual performance goals for the year. Mr. Knittel s individual performance goals for fiscal 2010 included supporting merger, acquisition, and new market opportunities; supporting our future business growth plan; and enhancing our operating profit. Mr. Knittel received a 4.0% salary increase in July 2009 to align his base salary with comparable company base salaries and to reflect his job performance. Mr. Knittel received a bonus payout of 95% of his target bonus and options to purchase 97,500 shares of our common stock. Mr. Knittel s compensation for fiscal 2010 reflects the performance of our company during fiscal 2010 and the satisfactory achievement of his individual performance of our company during fiscal 2010 and the satisfactory achievement of solutions to purchase 97,500 shares of our common stock. Mr. Knittel s compensation for fiscal 2010 reflects the performance of our company during fiscal 2010 and the satisfactory achievement of his individual performance goals for the year.

Mr. Garg s individual performance goals for fiscal 2010 were to develop and expand strategic relationships to enhance our ability to offer value-added solutions to our customers and penetrate new markets, and develop and build our employee base. Mr. Garg received an increase in base salary of 3.7% in July 2009 to align his base salary with comparable company base salaries. Mr. Garg received a bonus payout of 95% of his target bonus and options to purchase 45,000 shares of our common stock. The increase in the base salary, the bonus level, and the stock-based compensation reflect the performance of our company during fiscal 2010 and the satisfactory achievement of his individual performance goals for the year.

Mr. Wong s individual performance goals for fiscal 2010 were to drive value engineering and continuous cost reduction, enhance supply chain capabilities, establish customer-centric product manufacturing solutions, and enhance operating profit. Mr. Wong received an increase in base salary of 7.0% in July 2009 to align his base salary with comparable company base salaries. Mr. Wong received a bonus payout of 114% of his target bonus and options to purchase 45,000 shares of our common stock. The increase in the base salary, the bonus level, and the stock-based compensation reflect the performance of our company during fiscal 2010 and the satisfactory achievement of his individual performance goals for the year.

We were a party to Change of Control and Severance Agreements with each of Messrs. Tiernan and Knittel. Under these agreements, the vesting on any of their unvested stock options or deferred stock units will accelerate upon a change of control of our company. In addition, the agreements provide for the continuation of base salary payments and benefit coverage for the executive s family for a period of 12 months after the death of the executive and for the payment in the event of disability of a lump sum equal to the greater of the average of the base salary and bonus for the two fiscal years prior to such termination or the executive s base salary and targeted bonus for the fiscal year in which such termination occurs. We did not consider the existence of these agreements in connection with the compensation of Messrs. Tiernan or Knittel during fiscal 2010.

COMPENSATION COMMITTEE REPORT

Our Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis included in this proxy statement and, based on such review and discussions, the Compensation Committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

Respectfully submitted,

Keith B. Geeslin, Chairman Richard L. Sanquini James L. Whims

officer forfeits the unvested portion, if any, of the officer s stock options if the officer s service to our company is terminated for any reason except as may otherwise be determined by the Board of Directors as the administrator of our 2001 Incentive Compensation Plan. For Messrs. Tiernan and Knittel, the vesting on any stock option awards will accelerate upon a change of control of our company. The vesting schedule for stock options is generally 25% on the first anniversary of the grant date and 1/48th of the total number of shares each month thereafter. The vesting schedule for deferred stock units is generally 25% approximately one year after the grant date and 1/16th of the total number of shares each quarter thereafter.

The market value of shares or units of stock that have not vested as reported in column (h) is determined by multiplying the closing market price of our common stock on the last trading day of our last completed fiscal year (June 25, 2010) of \$28.28 by the number of shares or units of stock in column (g).

Option Exercises and Vested Stock

The following table describes, for our named executive officers, the number of shares acquired on the exercise of options and vesting of stock awards and the value realized on exercise of options and vesting of stock awards during the fiscal year ended June 30, 2010.

For option awards, the value realized is computed as the difference between the market price on the date of exercise and the exercise price multiplied by the number of options exercised. For stock awards, the value realized is computed as the market price on the later of the date the restrictions lapse or the delivery date multiplied by the number of shares vested.

Pension Benefits

We do not offer any pension benefits for any of our employees. We maintain a 401(k) plan in which our employees may participate, and we provide matching funds of 25% of the employee s contribution up to a maximum of \$4,125 per employee on a calendar year basis.

Nonqualified Deferred Compensation

We do not provide for any nonqualified deferred compensation for any of our employees.

Employment Agreements

We do not have employment contracts with any of our executive officers or directors. We do have, however, Change of Control and Severance Agreements or signed terms-and-conditions agreements with Messrs. Tiernan and Knittel. We offer our employees a 401(k) match and an employee stock purchase plan, as well as medical, dental, vision, life, and disability insurance benefits. Our executive officers and other personnel are eligible to receive incentive bonuses and are eligible to receive stock-based awards under our incentive compensation plans.

Severance Policy

We maintain a severance policy for certain executive officers designated by our Board of Directors and who have completed at least one full year of employment with our company. Under the policy, we will pay base salary and targeted bonus and maintain benefits following a termination of employment without cause for one year in the case of our Chief Executive Officer and six months in the case of our other designated executive officers and continue to vest stock options and deferred stock units for one year in the case of our Chief Executive Officer and six months in the case of our Chief Executive Officer and six months in the case of our Chief Executive Officer and six months in the case of our other designated executive officers unless the stock options or deferred stock units provide otherwise. In the event of death, we will pay to the estate of the executive the executive s base salary and targeted bonus for one year in the case of our Chief Executive Officers. Messrs. Tiernan and Knittel currently are subject to the severance policy.

Change of Control and Severance Agreements

We are a party to a Change of Control and Severance Agreement with each of Messrs. Tiernan and Knittel. The agreements become effective upon a change of control of our company as defined in the agreements. Under the agreements, each of the executives has agreed to remain employed by our company or its successor for a rolling one-year period after a change of control upon the same terms and conditions that existed immediately prior to the change of control and to refrain from competing with our company during the term of employment and while any severance payments are being made. The agreements provide for the payment by our company, for one year after termination of employment by our company without good cause or by the executive for good reason, as defined in the agreements, or by the executive for any reason during the 30-day period following the first anniversary of the change of control, of compensation equal to the greater of the average of the base salary and bonus for the two years prior to such termination or the base salary and targeted bonus for the fiscal year in which such termination occurs. In the case of such termination, the agreements also provide for the continuation of insurance coverage on the executive and the executive s family for one year. In addition, the agreements provide for the continuation of base salary payments and benefit coverage for the executive s family for a period of 12 months after the death of the executive and for the payment in the event of disability of a lump sum equal to the greater of the average of the base salary and bonus for the two fiscal years prior to such termination or the executive s base salary and targeted bonus for the fiscal year in which such termination occurs. The agreements provide that in the event of a change of control, 50% of unvested stock options and deferred stock units vest immediately and the remaining 50% of unvested options and deferred stock units vest immediately if the executive is terminated by our company without good cause or by the executive for good reason. All vested stock options, including those vesting under the terms of the agreements, will be exercisable during their full term in the event of a change of control.

All unexercisable stock options and unvested deferred stock units held by Messrs. Tiernan and Knittel included in the Outstanding Equity Awards at Fiscal Year-End table of this proxy statement are subject to the provisions of the Change of Control and Severance Agreement described above. The total approximate value of payments required to be paid to Messrs. Tiernan and Knittel, including the value of unvested equity awards that would become fully vested, upon termination by our company without good cause or by the executives for good reason as of June 30, 2010 would have been \$1,898,000 and \$906,000, respectively.

Indemnification Under our Certificate of Incorporation and Bylaws

Our Certificate of Incorporation provides that no director will be personally liable to our company or its stockholders for monetary damages for breach of a fiduciary duty as a director, except to the extent such exemption or limitation of liability is not permitted under the Delaware General Corporation Law, or the DGCL. The effect of this provision in the Certificate of Incorporation is to eliminate the rights of our company and its stockholders, either directly or through stockholders derivative suits brought on behalf of our company, to recover monetary damages from a director for breach of the fiduciary duty of care as a director except in those instances described under the DGCL. In addition, we have adopted provisions in our bylaws and entered into indemnification agreements that require us to indemnify our directors, officers, and certain other representatives of our company against expenses and certain other liabilities arising out of their conduct on behalf of our company to the maximum extent and under all circumstances permitted by law. Indemnification may not apply in certain circumstances to actions arising under the federal securities laws.
