This report contains a copy of the press release entitled Textainer Group Holdings Limited Reports Fourth-Quarter and Full-Year Results and Declares Quarterly Dividend, dated February 17, 2015.

Exhibit

1. Press Release dated February 17, 2015

Textainer Group Holdings Limited
Reports Fourth-Quarter and Full-Year 2014 Results
and Declares Quarterly Dividend

HAMILTON, Bermuda (BUSINESS WIRE) February 17, 2015 Textainer Group Holdings Limited (NYSE: TGH) (Textainer, the Company, we and our), the world's largest lessor of intermodal containers based on fleet size, reports fourth-quarter and full-year 2014 results.

Financial and Business Highlights

Total revenues of \$143.6 million for the quarter, an increase of 4.5 percent from the prior year, and \$563.1 million for the full year, an increase of 6.4 percent from the prior year;

Lease rental income of \$129.4 million for the quarter, an increase of 5.7 percent from the prior year, and \$504.2 million for the full year, an increase of 7.6 percent from the prior year;

Net income attributable to Textainer Group Holdings Limited common shareholders of \$42.4 million for the quarter, or \$0.74 per diluted common share, a decrease of 6.9 percent from the prior year, and \$189.4 million for the full year, or \$3.32 per diluted common share, an increase of 3.6 percent from the prior year;

Adjusted net income⁽¹⁾ of \$44.2 million for the quarter, or \$0.77 per diluted common share, an increase of 2.1 percent from the prior year, and \$193.8 million for the full year, or \$3.40 per diluted common share, an increase of 10.0 percent from the prior year;

Adjusted EBITDA⁽¹⁾ of \$112.7 million for the quarter, an increase of 3.8 percent from the prior year, and \$441.8 million for the full year, an increase of 2.8 percent from the prior year;

Utilization remained at very high levels, averaging 97.4 percent for the quarter and is currently 97.7 percent, up 3.6 percentage points since the beginning of 2014;

\$864 million of capex for the year and \$925 million invested for delivery in 2014, continuing our strong pace of expansion;

Total fleet size of over 3.2 million Twenty-Foot Equivalent Units (TEU), a year-over-year increase of 6.3 percent; and

A quarterly dividend of \$0.47 per share was declared.

2014 was a solid year at Textainer and, in many ways, was stronger than we initially anticipated. During 2014, we invested \$864 million to purchase 449,000 TEU of new, purchase leaseback and previously managed containers, \$101 million of which was for delivery in 2015. Average utilization increased 3.1 percentage points year-over-year to 97.4 percent for the quarter, the highest level in two years. We closed out the year with our depot inventory at its lowest level since 2012, commented Philip K. Brewer, President and Chief Executive Officer of Textainer. Total revenues increased 4.5 percent quarter-over-quarter to \$143.6 million and increased 6.4 percent year-over-year to \$563.1 million, both new records. Adjusted net income⁽¹⁾ was \$44.2 million for the quarter, an increase of 2.1 percent from the prior year quarter. Adjusted net income⁽¹⁾ for the year was \$193.8 million, an increase of 10.0 percent year-over-year, providing a return on equity of 16.9 percent. Over the past year, our total fleet has grown by 6.3 percent and our owned fleet has grown 11 percent. We now own 78.9 percent of our total fleet.

While we are very pleased with our results, we continue to see strong competition for every deal and downward pressure on container rental rates and residual values. Lower rental rates and sales prices have negatively affected our profitability and can be expected to continue to do so this year. However, our growing fleet, declining cost of funds and higher utilization have offset much of this decline and allowed us to continue to deliver solid performance.

Owned percentage of total fleet at end of period	78.9%	75.6%				

Adjusted net income and adjusted EBITDA are Non-GAAP Measures that are reconciled to GAAP measures in footnote 1. Adjusted net income is defined as net income attributable to Textainer Group Holdings Limited common shareholders before charges to interest expense

for the write-off of unamortized debt issuance costs related to refinancing of debt, unrealized losses (gains) on interest rate swaps, collars and caps, net, the related impact of reconciling items on income tax expense and the related impact of reconciling items on net income attributable to the noncontrolling interests (NCI). Adjusted EBITDA is defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and expense, realized and unrealized losses (gains) on interest rate swaps, collars and caps, net, income tax expense (benefit), net income attributable to the NCI, depreciation expense and container impairment, amortization expense and the related impact of reconciling items on net income attributable to the NCI. Footnote 1 provides certain qualifications and limitations on the use of Non-GAAP Measures.

Effective January 1, 2014, we began reporting utilization including containers on direct financing and sales-type leases. We previously reported utilization only for containers under operating leases but, as direct financing and sales-type leases have become a more significant part of our business, we believe that including these containers provides a better indication of the utilization of our total fleet and is consistent with some of our public competitors. Accordingly, utilization for the three months and year ended December 31, 2013 was revised to include direct financing and sales-type leases to conform to the current presentation.

Fourth-Quarter and Full-Year Results

Textainer's fourth-quarter and full-year financial results benefited from higher revenue due to an increase in our owned container fleet size and an increase in utilization. Textainer benefited from lower interest expense primarily due to interest savings from the refinancing of debt earlier in the year. These factors were offset by an increase in depreciation expense due to the larger owned fleet and lower gains on sale of containers, net. The Company's full year financial results also included a one-time \$22.4 million discrete income tax benefit following the completion of an IRS examination and a \$7.9 million settlement received from a lessee in bankruptcy proceedings, partially offset by the write-off of \$6.8 million of unamortized debt issuance costs related to the refinancing of debt.

Dividend

On February 9, 2015, Textainer's board of directors approved and declared a quarterly cash dividend of \$0.47 per share on Textainer's issued and outstanding common shares, payable on March 10, 2015 to shareholders of record as of February 27, 2015.

Outlook

For 2015, we expect business conditions to remain similar to 2014. While we believe our utilization will remain high, we also believe competition will remain strong with continued pressure on rental rates due to the high level of liquidity available to container lessors coupled with low new container prices, ample factory capacity and low interest rates. Two factors that could have a positive effect on our financial performance, an increase in interest rates and an increase in new container prices, seem less likely now than they did six months ago. The strong U.S. dollar, lower oil prices and weaker projected global growth suggest that increases in interest rates are unlikely in the near term. Unless steel prices or demand for containers increase, neither of which we expect in the short term, we do not anticipate an increase in new container prices, continued Mr. Brewer. We have invested and will continue to invest in new containers only when the projected returns meet or exceed our investment criteria. Furthermore, we believe that over a longer-term horizon, returns earned on containers purchased in today's lower-priced environment will benefit when container prices or interest rates increase and these containers re-price under stronger market conditions.

Investors Webcast

Textainer will hold a conference call and a Webcast at 11:00 am EST on Tuesday, February 17, 2015 to discuss Textainer's fourth quarter 2014 results. An archive of the Webcast will be available one hour after the live call through March 3, 2015. For callers in the U.S. the dial-in number for the conference call is 1-888-895-5271; for callers outside the U.S. the dial-in number for the conference call is 847-619-6547. The participant passcode for both dial-in numbers is 38708473. To access the live Webcast or archive, please visit Textainer's investor website at <http://investor.textainer.com>.

About Textainer Group Holdings Limited

Textainer Group Holdings Limited and its subsidiaries (Textainer) is the world's largest lessor of intermodal containers based on fleet size. Textainer has more than 2.1 million containers, representing more than 3.2 million TEU, in its owned and managed fleet. Textainer leases dry freight, dry freight specialized, and refrigerated containers. Textainer is one of the world's largest purchasers of new containers as well as one of the largest sellers of used containers. Textainer leases containers to approximately 400 shipping lines and other lessees, sells containers to more than 1,200 customers and provides services worldwide via a network of regional and area offices, as well as independent depots.

Important Cautionary Information Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical

facts and include, without limitation, statements regarding: (i) Textainer's belief that lower rental rates and sales prices, which have negatively affected its profitability, can be expected to continue to do so this year; (ii) Textainer's expectation that business conditions in 2015 will remain similar to 2014; (iii) Textainer's belief that its utilization will remain high and that competition will remain strong with continued pressure on rental rates due to the high level of liquidity available to container lessors coupled with low new container prices, ample factory capacity and low interest rates; (iv) Textainer's belief that two factors that could have a positive effect on its financial performance, an increase in interest rates and an increase in new container prices, seem less likely now than they did six months ago; (v) Textainer's belief that the strong U.S. dollar, lower oil prices and weaker projected global growth suggest that increases in interest rates are unlikely in the near term; (vi) Textainer's belief that unless steel prices or demand for containers increase, neither of which it expects in the short term, container prices will not increase; and (vii) Textainer's belief that over a longer-term horizon, returns earned on containers purchased in today's lower-priced environment will benefit when container prices or interest rates increase and these containers re-price under stronger market conditions. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. These risks and uncertainties include, without limitation, the following items that could materially and negatively impact our business, results of operations, cash flows, financial condition and future prospects: any deceleration or reversal of the current domestic and global economic recoveries; lease rates may decrease and lessees may default, which could decrease revenue and increase storage, repositioning, collection and recovery expenses; the demand for leased containers depends on many political and economic factors and is tied to international trade and if demand were to decrease due to increased barriers to trade or political or economic factors, or for any other reason, it could reduce demand for intermodal container leasing; as we increase the number of containers in our owned fleet, we will have significant capital at risk and may need to incur more debt, which could result in financial instability; Textainer faces extensive competition in the container leasing industry; the international nature of the container shipping industry exposes Textainer to numerous risks; gains and losses associated with the disposition of used equipment may fluctuate; our indebtedness reduces our financial flexibility and could impede our ability to operate; and other risks and uncertainties, including those set forth in Textainer's filings with the Securities and Exchange Commission. For a discussion of some of these risks and uncertainties, see Item 3 Key Information - Risk Factors in Textainer's Annual Report on Form 20-F filed with the Securities and Exchange Commission on March 19, 2014.

Textainer's views, estimates, plans and outlook as described within this document may change subsequent to the release of this press release. Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

Reconciliation of GAAP financial measures to non-GAAP financial measures

Three Months and Years Ended December 31, 2014 and 2013

(Unaudited)

(All currency expressed in United States dollars in thousands, except per share amounts)

- (1) The following is a reconciliation of certain GAAP measures to non-GAAP financial measures (such items listed in (a) to (d) below and defined as Non-GAAP Measures) for the three months and years ended December 31, 2014 and 2013, including:
- (a) net income attributable to Textainer Group Holdings Limited common shareholders to adjusted EBITDA (Adjusted EBITDA defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and expense, realized and unrealized losses (gains) on interest rate swaps, collars and caps, net, income tax expense (benefit), net income attributable to the noncontrolling interests (NCI), depreciation expense and container impairment, amortization expense and the related impact of reconciling items on net income attributable to the NCI);
 - (b) net cash provided by operating activities to Adjusted EBITDA;
 - (c) net income attributable to Textainer Group Holdings Limited common shareholders to adjusted net income (defined as net income attributable to Textainer Group Holdings Limited common shareholders before the write-off of unamortized debt issuance costs, unrealized losses (gains) on interest rate swaps, collars and caps, net, the related impact of reconciling items on income tax expense and the related impact of reconciling items on net income attributable to the NCI); and
 - (d) net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share to adjusted net income per diluted common share (defined as net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share before the write-off of unamortized debt issuance costs, unrealized losses (gains) on interest rate swaps, collars and caps, net, the related impact of reconciling items on income tax expense and the related impact of reconciling items on net income attributable to the NCI).

Non-GAAP Measures are not financial measures calculated in accordance with U.S. generally accepted accounting principles (GAAP) and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. Non-GAAP Measures are presented solely as supplemental disclosures. Management believes that adjusted EBITDA may be a useful performance measure that is widely used within our industry and adjusted net income may be a useful performance measure because Textainer intends to hold its interest rate swaps, collars and caps until maturity and over the life of an interest rate swap, collar or cap the unrealized losses (gains) will net to zero. Adjusted EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison.

Management also believes that adjusted net income and adjusted net income per diluted common share are useful in evaluating our operating performance because unrealized losses (gains) on interest rate swaps, collars and caps, net is a noncash, non-operating item. We believe Non-GAAP Measures provide useful information on our earnings from ongoing operations. We believe that adjusted EBITDA provides useful information on our ability to service our long-term debt and other fixed obligations and on our ability to fund our expected growth with internally generated funds. Non-GAAP Measures have limitations as analytical tools, and you should not consider either of them in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are:

They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

They do not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;

Although depreciation expense and container impairment is a noncash charge, the assets being depreciated may be replaced in the future, and neither adjusted EBITDA, adjusted net income or adjusted net income per diluted common share reflects any cash requirements for such replacements;

They are not adjusted for all noncash income or expense items that are reflected in our statements of cash flows; and

Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.
