ITEM 5. OTHER EVENTS

DIVIDEND SUSPENSION

On January 24, 2003, CMS Energy Corporation ("CMS Energy") announced that its Board of Directors decided to suspend the common stock dividend to bolster its

ongoing financial improvement plan. CMS Energy expects the dividend suspension will boost liquidity by more than \$100 million in 2003.

### PROGRESS ON FINANCIAL IMPROVEMENT PLAN

CMS Energy continues to focus on liquidity, with the goal of maintaining a consolidated cash balance of approximately \$400 million, split about equally between CMS Energy and its principal subsidiary Consumers Energy Company ("Consumers Energy"). Executing the financial plan also eliminates the need for CMS Energy to access the capital markets in 2003.

Financial plan milestones include:

- Selling or signing definitive agreements in 2002 for asset sales totaling \$3.6 billion, including debt assumed by the purchasers. That total includes the \$1.828 billion CMS Panhandle Companies sale, which is targeted to close in the first quarter of 2003, subject to regulatory approvals.
- Reducing debt by \$800 million in 2002, including paying down \$260 million in bank debt.
- Cutting planned capital expenditures in 2003 by about \$350 million, or 39 percent, from 2002. This follows a \$540 million reduction in 2002 from 2001 levels.

CMS Energy's aggressive asset sales program continues. It is in the process of selling:

- The Centennial and Guardian pipelines;
- CMS Field Services;
- The wholesale electric "book" of CMS Marketing, Services and Trading; and
- International distribution companies and selected power plants.
