RIVIERA TOOL COMPANY
NOTES TO FINANCIAL STATEMENTS
FEBRUARY 28, 2006

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim financial statements (the "Financial Statements") of Riviera Tool Company (the "Company") have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, the Financial Statements do not include all the information and footnotes normally included in the annual financial statements prepared in accordance with generally accepted accounting principles.

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

In the opinion of management, the Financial Statements reflect all adjustments (consisting only of normal recurring adjustments) necessary to present fairly such information in accordance with generally accepted accounting principles. The Financial Statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Form 10-K dated November 30, 2005, for the fiscal year ended August 31, 2005.

The Financial Statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During fiscal 2005, the Company sustained a loss from operations of \$498,282 and a net loss of \$2,502,248. This loss resulted in an accumulated deficit of \$13,148,735 as of August 31, 2005. These factors, among other things, raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company believes that the revolving line of credit and the funds generated from operations, will be sufficient to cover anticipated cash needs for the foreseeable future. However, depending on the Company's level of future sales, terms of such sales, financial performance and cash flow of existing contracts such financing may not be sufficient to support operations. Therefore, the Company may be required to seek additional sources of funding.

The results of operations for the three-month and six-month periods ended February 28, 2006 may not be indicative of the results to be expected for the full year.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews long-lived assets for impairment if changes in circumstances or the occurrence of events suggest the remaining value may not be recoverable. An asset is deemed impaired and written down to its fair value if estimated related total future undiscounted cash flows are less than its book (carrying) value. The Company, in performing its evaluation of long-lived assets for impairment, utilized financial projections for five future years including total undiscounted cash flow. In developing the projections, the Company estimated revenues for each year and estimated resulting margins based upon various assumptions including future market pricing trends and historical financial costs. The analysis concluded that the estimated total undiscounted future cash flows were in excess of the carrying value of long-lived assets. Had the analysis concluded that the total undiscounted future cash flows were below the carrying value, an impairment charge of the difference between the carrying value and the lower of the total discounted cash flows or fair value would have been recorded.

FORWARD-LOOKING STATEMENT; RISKS AND UNCERTAINTIES

CERTAIN INFORMATION INCLUDED IN THIS QUARTERLY REPORT ON FORM 10-Q AND OTHER MATERIALS FILED OR TO BE FILED BY THE COMPANY WITH THE SECURITIES AND EXCHANGE COMMISSION CONTAIN CERTAIN STATEMENTS THAT MAY BE CONSIDERED FORWARD-LOOKING. FOR THIS PURPOSE, ANY STATEMENTS CONTAINED IN THIS REPORT THAT ARE NOT STATEMENTS OF HISTORICAL FACT MAY BE DEEMED TO BE FORWARD-LOOKING STATEMENTS. WITHOUT LIMITING THE FOREGOING, WORDS SUCH AS "MAY," "WILL," "EXPECT," "BELIEVE," "ANTICIPATE," "UNDERSTANDING," OR "CONTINUE," THE NEGATIVE OR OTHER VARIATION THEREOF, OR COMPARABLE TERMINOLOGY, ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS. IN ADDITION, FROM TIME TO TIME, THE COMPANY MAY RELEASE OR PUBLISH FORWARD-LOOKING STATEMENTS RELATING TO SUCH MATTERS AS ANTICIPATED FINANCIAL PERFORMANCE, BUSINESS PROSPECTS, TECHNOLOGICAL DEVELOPMENTS AND SIMILAR MATTERS. THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 PROVIDES A SAFE HARBOR FOR FORWARD-LOOKING STATEMENTS. IN ORDER TO COMPLY WITH THE TERMS OF THE SAFE HARBOR, THE COMPANY NOTES THAT A VARIETY OF FACTORS COULD CAUSE THE COMPANY'S ACTUAL RESULTS AND EXPERIENCE TO DIFFER MATERIALLY FROM THE ANTICIPATED RESULTS OR OTHER EXPECTATIONS EXPRESSED IN THE COMPANY'S FORWARD-LOOKING STATEMENTS. THESE STATEMENTS BY THEIR NATURE INVOLVE SUBSTANTIAL RISKS AND UNCERTAINTIES, AND ACTUAL RESULTS MAY DIFFER MATERIALLY DEPENDING UPON A VARIETY OF FACTORS, INCLUDING CONTINUED MARKET DEMAND FOR THE TYPES OF PRODUCTS AND SERVICES PRODUCED AND SOLD BY THE COMPANY.

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

COMPARISON OF THE THREE MONTHS ENDED FEBRUARY 28, 2006 TO THE THREE MONTHS ENDED FEBRUARY 28, 2005.

REVENUES - Revenues for the three months ended February 28, 2006 totaled \$6.9 million as compared to \$5.0 million for the three months ended February 28, 2005, an increase of \$1.9 million or 38%. This was a result of the Company beginning the second quarter of 2006 with a contract backlog of \$12.9 million as compared to a \$4.6 million contract backlog in 2005, an increase of 180%. This increased backlog resulted in the Company experiencing a 12% increase in direct labor hours during the second quarter of 2006, as compared to 2005, resulting in an increase in second quarter revenues.

The Company's backlog of awarded contracts, which are all believed to be firm, was approximately \$11.2 million and \$10.1 million as of February 28, 2006 and February 28, 2005 respectively. The Company expects all backlog contracts to be reflected in sales during fiscal years ending August 31, 2006 and 2007.

COST OF SALES - Cost of goods sold increased from \$4.2 million for the second quarter of fiscal 2005 to \$6.0 million for 2006 and, as a percent of sales, increased from 83.4% for 2005 to 86.1% for 2006. Direct costs (materials and labor) increased by \$1.7 million, from \$1.9 million for 2005 to \$3.6 million for 2006. Engineering expense increased by \$24,000 from \$515,000 for 2005 to \$539,000 for 2006. Lastly, of the cost of goods sold, manufacturing overhead increased by \$118,000 from \$1.7 million for 2005 to \$1.8 million for 2006. Additional details of these changes in cost of sales for the second quarter of fiscal 2005 and 2006 are as follows:

- Direct materials expense increased from \$0.5 million for 2005 to \$1.3 million for 2006 and as a percent of sales from 9.2% to 18.2%. This was largely due to higher contract volume requirements and backlog mix during 2006 as compared to 2005. Outside services expense increased from \$0.2 million for 2005 to \$0.9 million for 2006 and as a percent of sales from 3.6% to 13.0%. This was largely due to the Company incurring expenses related to its outsourced revenue during the second quarter of 2006. The balance of the outside services expense decrease was due to higher sales volumes and corresponding increases in outsourcing certain machining, die patterns, laser cutting and heat treat.
- Direct labor expense increased from \$1.3 million for 2005 to \$1.5 million for 2006. However, as a percent of sales, direct labor decreased from 26.4% to 21.3%. This change was a result of the Company incurring a 12% increase in direct labor hours, from 65,000 hours in 2005 to 73,000 in 2006. Of the total direct labor expense, regular or straight time increased by \$77,000 however as a percent of sales, decreased from 16.6% for 2005 to 13.0% for 2006. Overtime expense increased from \$485,000 for 2005 to \$566,000 for 2006, however as a percent of sales, decreased from 9.7% for 2005 to 8.2% for 2006.
- Engineering expense increased from \$515,000, 10.3% of sales, for 2005 to \$539,000, 7.8% of sales, for 2006. This was due to the Company's increased awarded contract backlog and the resulting increase in the number of engineering personnel necessary to fulfill the design and project management portions of the Company's current backlog.
- Manufacturing overhead was \$1.7 million or 33.8% of sales for 2005 as compared to \$1.8 million or 25.9% of sales for 2006. During 2006, increases in manufacturing overhead were largely due to a \$59,000 increase in manufacturing supplies expense, a \$41,000 increase in perishable tooling expense, a \$23,000 increase in utilities expense, a \$19,000 increase in supervisor salaries expense, \$19,000 in medical

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

insurance expense and a \$11,000 increase in machinery repairs and maintenance expense. These were offset by a decrease of \$30,000 in depreciation expense and \$29,000 in indirect labor expense. The increase of approximately 7.0% of manufacturing overhead was largely due to the increase in sales volumes.

10

SELLING AND ADMINISTRATIVE EXPENSE. Selling and administrative expense decreased from \$867,000 for the second quarter of 2005 to \$598,000 for 2006. As a percent of sales, selling and administrative expense decreased from 17.4% for 2005 to 8.6% for 2006. This decrease was a result of higher sales volume and decreases in certain professional advisory fees. The largest selling and administrative expense increases included \$45,000 public company expenses, \$33,000 in director fees expenses and \$20,000 in the State of Michigan Single Business tax. These increases were offset by decreases including \$364,000 in professional and legal fees expense and \$7,000 in insurance expense.

The decrease in professional and legal expenses related to the Company's former primary lender requiring the Company to retain the services of a consulting company and the lender's legal counsel at the Company's expense during the second quarter of 2005. During the second quarter of 2005, such expenses totaled approximately \$303,000.

INTEREST EXPENSE. Interest expense increased from \$384,000 for the second quarter of 2005, to \$448,000 for 2006. This increase was largely due to the Company's increased debt levels during the second quarter of 2006 as compared to 2005. For the second quarter of 2006, the Company utilized \$1.0 million of cash in operating activities (financed with borrowings on revolving line of credit) as compared to generating cash of \$5.8 million in 2005 (utilized to reduce revolving line of credit).

COMPARISON OF THE SIX MONTHS ENDED FEBRUARY 28, 2006 TO THE SIX MONTHS ENDED FEBRUARY 28, 2005.

REVENUES - Revenues for the six months ended February 28, 2006 totaled \$13.7 million as compared to \$9.5 million for the six months ended February 28, 2005, an increase of 44%. This was a result of the Company beginning fiscal 2006 with a contract backlog of \$13.7 million as compared to \$2.4 million in 2005, an increase of 471%. This increased backlog resulted in the Company incurring approximately 146,000 shop floor hours in 2006 as compared to 126,000 during the same period of 2005, an increase of 20,000 hours or 16%.

COST OF SALES - Cost of goods sold increased from \$8.2 million for the six months ended February 28, 2005 to \$11.5 million for the six months ended February 28, 2006, as a percent of sales, cost of goods sold increased from 85.9% for 2005 to 88.0% for 2006. Direct costs (materials and labor) increased by \$3.0 million, from \$3.9 million for 2005 to \$6.9 million for 2006. Engineering expense increased by \$110,000 from \$1.0 million for 2005 to \$1.1 million for 2006. Lastly, of the cost of goods sold, manufacturing overhead increased by \$172,000 from \$3.3 million for 2005 to \$3.5 million for 2006. Additional details of these changes in cost of sales for the six months ended February 28, 2005 and February 28, 2006 are as follows:

- Direct materials expense increased from \$0.9 million to \$2.6 million for the first two quarters of 2005 and 2006, respectively. The increase in direct materials was a result of increased contract backlog and revenues in 2006. Outside services expense increased from \$0.4 million for 2005 to \$1.5 million for 2006 and as a percent of

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

sales from 4.6% to 11.5%. The increase in outside services is a result of the Company placing or subcontracting certain construction portions of contracts to other suppliers.

- Direct labor expense increased from \$2.6 million for 2005 to \$2.8 million for 2006 however, as a percent of sales, direct labor expense decreased from 27.0% to 21.5%. This change was a result of the Company incurring a 16% increase in direct labor hours, from 126,000 hours in 2005 to 146,000 in 2006. Of the total direct labor expense, regular or straight time increased by \$130,000 however, as a percent of sales, it decreased from 17.0% for 2005 to 13.5% for 2006. Overtime expense increased from \$953,000 for 2005 to \$1,040,000 for 2006, as a percent of sales, decreasing from 10.0% for 2005 to 8.0% for 2006.
- Engineering expense increased from \$1.0 million, 10.2% of sales, for 2005 to \$1.1 million, 8.3% of sales, for 2006. This increase was due to the Company increasing the level of engineering personnel staffing required to fulfill the design and project management portions of contracts.
- Manufacturing overhead was \$3.3 million or 27.0% of sales for 2005 as compared to \$3.5 million or 27.0% of sales for 2006. During 2006, increases in manufacturing overhead were largely due to a \$93,000 increase in

11

manufacturing supplies expense, a \$41,000 increase in supervisor salaries expense, a \$31,000 increase in perishable tooling expense, a \$29,000 increase in medical insurance premiums and a \$26,000 increase in utilities expense. These increases were offset by a \$62,000 decrease in depreciation expense.

SELLING AND ADMINISTRATIVE EXPENSE - Selling and administrative expense decreased from \$1,447,000 for the first two quarters of 2005 to \$1,163,000 for 2006. As a percent of sales, selling and administrative expense decreased from 15.2% for 2005 to 8.9% for 2006. During 2006, increases in selling and administrative expense were largely due to a \$86,000 increase in public company expenses, a \$40,000 increase in the State of Michigan Single Business tax and a \$38,000 increase in director fees expense. These increases were offset by a \$382,000 decrease in legal and professional expenses, a \$34,000 decrease in travel expenses, \$20,000 decrease in supervisor salaries expense and a \$14,000 decrease in bad debt expense.

The decrease in professional and legal expenses related to the Company's former primary lender requiring the Company to retain the services of a consulting company and the lender's legal counsel at the Company's expense during the first half of 2005. During the first two quarters of 2005, such expenses totaled approximately \$353,000.

INTEREST EXPENSE - Interest expense increased from \$777,000 for 2005 to \$890,000 for 2006. This increase was largely due to the Company's increased debt levels during the first two quarters of 2006 as compared to 2005. For the first two quarters of 2006, the Company utilized \$1.8 million of cash in operating activities (financed with borrowings on revolving line of credit) as compared to generating cash of \$7.8 million in 2005 (utilized to reduce revolving line of credit).

FEDERAL INCOME TAXES - For the six months ended February 28, 2006, the Company

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

recorded a valuation allowance of approximately \$196,000 to reduce its deferred tax assets resulting from income tax benefit. For the three months ended February 28, 2006, the Company recorded an increase in the deferred tax asset valuation allowance of approximately \$46,000 to offset the income tax benefit.

LIQUIDITY AND CAPITAL RESOURCES - During the six month period ended February 28, 2006, the Company's cash used in operating activities was \$1.8 million. This largely resulted from an increase of \$2.8 million in account receivables and a \$648,000 increase in accounts payable and accrued liabilities. From investing activities, the Company incurred a decrease in other assets of \$86,000 and utilized \$56,000 for additions to property, plant and equipment. The Company financed its increase in working capital requirements with \$2.5 million of borrowings on its revolving line of credit, net of \$653,000 utilized to reduce other debt (of which \$150,000 was term debt, which was converted to common stock).

The Company believes that the revolving line of credit and the funds generated from operations, will be sufficient to cover anticipated cash needs for the foreseeable future. However, depending on the Company's level of future sales, terms of such sales, financial performance and cash flow of existing contracts, such financing may not be sufficient to support operations. Therefore, the Company may be required to seek additional sources of funding.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The following table provides information on the Company's debts that are sensitive to changes in interest rates.

AS OF FEBRUARY 28, 2006: -----	AMOUNT OUTSTANDING -----	MATUR -----
CONVERTIBLE REVOLVING NOTE:		
Variable rate revolving credit line at an interest rate of prime rate plus 1.25% (as of February 28, 2006, an effective rate of 8.75%)...	\$8,700,000	May 1
SECURED CONVERTIBLE TERM NOTE:		
At an interest rate of prime plus 4.00% (as of February 28, 2006, an effective rate of 8.75%).....	\$2,618,181	May 1
OVERFORMULA:		
At an interest rate of prime plus 1.25% (as of February 28, 2006, an effective rate of 11.5%).....	\$2,300,000	April

The Company is exposed to market risk from changes in interest rates on its debt obligations. The Company does not currently use any derivative financial instruments to manage its interest rate risk

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our principal executive officer and principal financial officer have concluded that as of such date, our disclosure controls and procedures were designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms and were effective.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

13

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

The Company faces a number of significant risks and uncertainties in connection with its operations. The Company's results of operations and financial condition could be materially affected by the factors described below. While each risk is described separately, some risks are inter-related and it is possible that certain risks could trigger the applicability of other risks described below. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us may also impair our operations and business.

If we do not successfully address any of the risks described below, there could be a material adverse effect on our financial condition, operating results and business, and the trading price of our common stock may decline. We cannot assure you that we will successfully address these risks.

WE HAVE A HISTORY OF OPERATING LOSSES, ANTICIPATE INCURRING LOSSES FOR THE FORESEEABLE FUTURE AND MAY NEVER BECOME PROFITABLE.

For the fiscal year ending August 31, 2005, we had an operating loss of approximately \$2,502,000. For each of the quarterly periods ending November 30, 2005 and May 31, 2006, we had operating losses of approximately \$441,000 and \$135,000, respectively.

The report of the Company's auditors with respect to their examination of the Company's financial statements for the year ended August 31, 2005 contains an explanatory paragraph relating to the preparation of the Company's financial statements on a "going concern" basis, and states that, the Company was not in compliance with its loan agreements, has suffered recurring losses from operations and has a retained deficit, that raise a substantial doubt about the Company's ability to continue as a going concern. At August 31, 2005 and May 31, 2006, we had an accumulated deficit of approximately \$13,149,000 and \$13,725,000, respectively. While our management has addressed the conditions which have left substantial doubt about our ability to continue as a going concern, there is no certainty that we will be successful in implementing any of the plans of management to restore us to profitability or to otherwise ensure that we will be able to continue as a going concern.

SHAREHOLDERS MAY SUFFER DILUTION FROM THE EXERCISE OF EXISTING OPTIONS, WARRANTS AND CONVERSION RIGHTS.

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

Our common stock may become diluted if warrants and options to purchase our common stock are exercised or additional shares are issued upon conversion pursuant to conversion rights by the Company's Senior Lender, Laurus Master Fund, Ltd. ("Laurus"). The number of shares of our common stock that can currently be purchased upon exercise of warrants is 10,000, upon exercise of options is 831,000 (650,000 of these options are those granted to Laurus) and pursuant to conversion rights is 3,132,531. Under the terms of our Agreements with Laurus, the number of shares to be obtained upon exercise of options or pursuant to conversion rights held by Laurus cannot exceed the number of shares that, when combined with all other shares of common stock and securities then owned by Laurus, would result in Laurus owning more than 4.99% of our outstanding common stock at any given point of time (or 19.99% in the event that such limitation is suspended upon the occurrence of an "event of default" under any of the Agreements or any other transaction agreements).

These shares, as well as the eligibility for additional restricted shares to be sold in the future, either pursuant to future registrations under the Securities Act, or an exemption such as Rule 144 under the Securities Act, may have a dilutive effect on the market price of our common stock.

THE INABILITY TO OBTAIN NECESSARY ADDITIONAL CAPITAL IN THE FUTURE ON ACCEPTABLE TERMS COULD DELAY US FROM EXECUTING OUR BUSINESS PLAN OR PREVENT US FROM DOING SO ENTIRELY.

We expect to need additional capital in the future to fund our operations, finance investments in equipment and

14

corporate infrastructure, expand our domestic and global sub-supplier network, increase the range of services we offer and respond to competitive pressures and perceived opportunities. Cash flow from operations and cash on hand may not be sufficient to cover our operating expenses and capital investment needs. We cannot assure you that additional financing will be available on terms acceptable to us, if at all. A failure to obtain additional funding could prevent us from making expenditures that are needed to allow us to grow or maintain our operations. Increases in business can temporarily reduce our working capital due to cash flow lags.

If we raise additional funds by selling equity securities, the relative equity ownership of our existing investors could be diluted or the new investors could obtain terms more favorable than previous investors. If we raise additional funds through debt financing, we could incur significant borrowing costs. The failure to obtain additional financing when required could result in us being unable to grow as required to maintain profitable operations.

WE HAVE SIGNIFICANT OUTSTANDING INDEBTEDNESS AND DEBT SERVICE OBLIGATIONS.

In order to finance our operations we have incurred indebtedness. Our credit facility with Laurus is secured by substantially all of our assets. In addition to certain limited financial covenants, our credit facility restricts our ability to incur additional indebtedness or to pledge our assets. As of February 28, 2006, we are in compliance with all of the terms of our credit facility with Laurus. There can be no assurance, however, that we will be able to comply with the terms of this credit facility in the future. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" on page 9 for additional information on our outstanding indebtedness.

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

Our business is subject to all of the risks associated with substantial leverage, including the risk that available cash may not be adequate to make required payments. Our ability to satisfy outstanding debt obligations from cash flow will be dependent upon our future performance and will be subject to financial, business and other factors, many of which will be beyond our control. In the event that we do not have sufficient cash resources to satisfy our repayment obligations, we would be in default, which would have a material adverse effect on our business. To the extent that we are required to use cash resources to satisfy interest payments to the holders of outstanding debt obligations, we will have fewer resources available for other purposes. There is no assurance that we will not increase our leverage in the future, whether as a result of operational or financial performance, acquisition or otherwise.

OUR REVENUE WOULD DECLINE SIGNIFICANTLY IF WE LOSE ONE OR MORE OF OUR MOST SIGNIFICANT CUSTOMERS WHICH COULD HAVE A SIGNIFICANT ADVERSE IMPACT ON US.

A significant portion of our revenues are concentrated among a few large customers. For the year ended August 31, 2005, our largest customer represented approximately \$3.4 million or 18% of total revenue, while the next three largest customers represented approximately \$4.8 million or 25% of total revenue. Our three largest customers represented 84% and 63% of total revenue for each of the fiscal years ended 2005 and 2004, respectively. For the three and six months ended February 28, 2006, our three largest customers represented approximately 58% and 52%, respectively, of total revenues. The loss of any of the foregoing customers could have a significant adverse impact on us.

THERE IS NO ASSURANCE THAT WE WILL REMAIN LISTED ON AN ACTIVE TRADING MARKET.

Although our common stock is quoted on the American Stock Exchange ("Amex"), there can be no assurance that we will, in the future, be able to meet all the requirements for continued quotation thereon. Amex recently approved a plan submitted by the Company to regain compliance with its continued listing requirements by August 9, 2007. Although the Company believes it can achieve its plan, there can be no assurance that it can successfully do so. In the absence of an active trading market or if our common stock cannot be traded on the American Stock Exchange, our common stock could instead be traded on the Electronic Bulletin Board or in the Pink Sheets. In such event, the liquidity and stock price in the secondary market may be adversely affected. In addition, in the event our common stock was delisted, broker-dealers have certain regulatory burdens imposed upon them, which may discourage broker-dealers from effecting transactions in our common stock, further limiting the liquidity of our common stock.

OUR STOCK PRICE IS VOLATILE.

15

Our stock price, like that of other small cap companies, is subject to significant volatility because of factors such as quarterly variations in our operating results, changes in revenue or earnings estimates by the investment community and speculation in the press or investment community. In addition, our stock price is affected by unfavorable global economic and market conditions. If such conditions deteriorate, our stock price could decline.

WE DEPEND ON OUR SENIOR MANAGEMENT, THE LOSS OF WHOM WOULD HAVE AN ADVERSE IMPACT ON US.

We presently are dependent upon the executive abilities of our President and Chief Executive Officer, Kenneth K. Rieth, our Chief Financial Officer, Peter C.

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

Canepa, and our other executive officers. Our business and operations to date chiefly have been implemented under the direction of these individuals, who presently are, and in the future will be, responsible for the implementation of our anticipated plans and programs. The loss or unavailability of the services of one or more of our principal executives would have an adverse effect on us. Given our present financial condition, we may encounter difficulty in our ability to recruit and ultimately hire any replacement or additional executive officers having similar background, experience and qualifications as those of our current executive officers.

THE MARKETS SERVED BY US ARE HIGHLY CYCLICAL AND OUR BUSINESS COULD BE MATERIALLY ADVERSELY AFFECTED AS A RESULT OF GENERAL ECONOMIC AND MARKET CONDITIONS.

We are subject to the effects of general global economic and market conditions. The automotive industry is highly cyclical and dependent on consumer spending. Economic factors adversely affecting automotive production and consumer spending could adversely impact our business. If economic and market conditions deteriorate, our business, results of operations or financial condition could be materially adversely affected. An economic downturn may also impact substantially leveraged companies, such as ourselves, more than similarly situated companies with less leverage.

LABOR INTERRUPTIONS COULD HAVE AN ADVERSE IMPACT ON OUR BUSINESS.

Within the automotive supply industry substantially all of the hourly employees of the OEMs and many Tier I suppliers are represented by labor unions, and work pursuant to collective bargaining agreements. The failure of any of our significant customers to reach agreement with a labor union on a timely basis, resulting in either a work stoppage or strike, could have an adverse impact on our business.

OUR BUSINESS COULD BE MATERIALLY ADVERSELY AFFECTED AS A RESULT OF WAR OR ACTS OF TERRORISM.

Terrorist acts or acts of war may cause damage or disruption to our employees, facilities, customers and partners, which could have a material adverse effect on our business, results of operations or financial condition. Such conflicts may also cause damage or disruption to transportation and communication systems and to our ability to manage logistics in such an environment, including receipt of materials and distribution of products.

WE ARE SUBJECT TO ENVIRONMENTAL REGULATION WHICH COULD HAVE AN ADVERSE IMPACT ON US.

We are subject to the requirements of federal, state and local environmental and occupational health and safety laws and regulations. Although we have made and will continue to make expenditures to comply with environmental requirements, these requirements are constantly evolving, and it is impossible to predict whether compliance with these laws and regulations may have a material adverse effect on us in the future. If a release of hazardous substances occurs on or from our property or from any of our disposals at offsite disposal locations, or if contamination is discovered at any of our current or former properties, we may be held liable, and the amount of such liability could be material.

Edgar Filing: RIVIERA TOOL CO - Form 10-Q

The Company recently reported a number of matters relating to its change in certifying accountant and compliance with the continued listing requirements of the Amex. Such matters were disclosed on Form 8-K below and are incorporated by reference.

Form 8-K filed on January 13, 2006	Item 4.01	Changes in Registrant's Certifying Accountant
Form 8-K filed on February 10, 2006	Item 3.01	Notice of Delisting or Failure to Satisfy a Con Listing Rule or Standard
Form 8-K filed on February 14, 2006	Item 4.01	Changes in Registrant's Certifying Accountant
Form 8-K filed on April 10, 2006	Item 3.01	Notice of Delisting or Failure to Satisfy a Con Listing Rule or Standard
