PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS**

SOLICITATION

The following information is furnished in connection with the solicitation of proxies on behalf of the Board of Directors of Oil States International, Inc., a Delaware corporation, (the Company), to be voted at the annual meeting of stockholders of the Company (the Annual Meeting), which will be held at The DoubleTree Hotel at Allen Center, 400 Dallas Street, Houston, Texas, on the 17th day of May, 2007, at 9:00 a.m. local time, for the following purposes:

- (1) To elect three (3) Class III members of the Board of Directors;
- (2) To ratify the appointment of Ernst & Young LLP as independent accountants for the year ended December 31, 2006; and,
- (3) To transact such other business as may properly come before the Annual Meeting or any adjournments thereof.

You may revoke your proxy at any time before it is exercised by: (1) sending a written statement revoking your proxy to the Secretary of the Company; (2) submitting a properly signed proxy with a later date; or (3) voting in person at the Annual Meeting. If you return your signed proxy to us before the Annual Meeting, we will vote your shares as you direct. If you do not specify on your proxy card how you want to vote your shares, we will vote them for the election of all nominees for director as set forth under Proposal 1: Election of Directors and for the ratification of the appointment of Ernst & Young LLP as independent accountants as set forth under Proposal 2: Ratification of Appointment of Independent Accountants. If any other business is brought before the meeting, any unspecified proxies will be voted in accordance with the judgment of the persons voting those shares.

The cost of soliciting proxies will be paid by the Company. In addition to the use of the mails, proxies may be solicited by the directors, officers and employees of the Company without additional compensation, by personal interview, telephone, telegram, or other means of electronic communication. Arrangements also may be made with brokerage firms and other custodians, dealers, banks and trustees, or their nominees who hold the voting securities of record, for sending proxy materials to beneficial owners. Upon request, the Company will reimburse the brokers, custodians, dealers, banks, or their nominees for their reasonable out-of-pocket expenses. In addition, the Company has retained Mellon Investor Services LLC to assist in the solicitation of proxies, for which the Company will pay an estimated fee of \$5,000.

Oil States International, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2006, is being mailed with this Proxy Statement to all stockholders entitled to vote at the Annual Meeting and does not constitute a part of the proxy soliciting material.

This Proxy Statement and the enclosed form of proxy was mailed to stockholders beginning April 10, 2007.

OUTSTANDING VOTING SECURITIES AND VOTING RIGHTS

Oil States International, Inc., a Delaware corporation, (Company, Oil States, we, us, and our refer to Oil States International, Inc. and its subsidiaries), has two outstanding classes of securities that entitle holders to vote generally at meetings of the Company s stockholders: common stock, par value \$.01 per share; and special preferred voting stock, par value \$.01 per share. A single share (the Voting Share) of special preferred voting stock was issued to Computershare Trust Company of Canada (the Trustee) as trustee under a Voting and Exchange Trust Agreement for the benefit of holders of exchangeable shares issued by the Company s wholly-owned

Table of Contents

subsidiary, 892489 Alberta Inc., in connection with the Company's February 2001 acquisition of PTI Group, Inc. (PTI). The common stock and the Voting Share vote together as a single class on all matters except when Delaware law requires otherwise. Each share of common stock outstanding on the record date is entitled to one vote. The Voting Share is entitled to one vote for each exchangeable share outstanding on the record date. The Trustee is required to vote the Voting Share as instructed by holders of exchangeable shares, and to abstain from voting in proportion to the exchangeable shares for which the Trustee does not receive instructions. Accordingly, references to "stockholders" in this Proxy Statement include holders of common stock, the Trustee, and holders of exchangeable shares. In addition, unless we indicate otherwise, the number of shares outstanding, including for purposes of calculating percentage ownership, in this Proxy Statement has been calculated as if the exchangeable shares have been exchanged for shares of our common stock. The procedures for holders of exchangeable shares to instruct the Trustee about voting at the Annual Meeting are explained in the Information Statement for Holders of Exchangeable Shares of 892489 Alberta Inc. that is enclosed with this Proxy Statement only for holders of exchangeable shares.

The record date for the stockholders entitled to notice of and to vote at the Annual Meeting is the close of business on March 15, 2007. At the record date, 49,104,870 shares of common stock and one Voting Share were outstanding and entitled to be voted at the Annual Meeting. Outstanding shares include a total of 256,787 exchangeable shares which are outstanding and are entitled to give voting instructions to the Trustee.

The presence, in person or by proxy, of the holders of a majority of the votes eligible to be cast at the Annual Meeting is necessary to constitute a quorum at the Annual Meeting. If a quorum is not present, the stockholders entitled to vote who are present in person or by proxy at the Annual Meeting have the power to adjourn the Annual Meeting from time to time, without notice other than an announcement at the Annual Meeting, until a quorum is present. At any adjourned Annual Meeting at which a quorum is present, any business may be transacted that might have been transacted at the Annual Meeting as originally notified.

Directors will be elected by a plurality of the votes present and entitled to be voted at the Annual Meeting. Ratification of the selection of the Company's auditors will require the affirmative vote of the holders of a majority of the shares present and entitled to be voted at the Annual Meeting. An automated system that the Company's transfer agent administers will tabulate the votes. Brokers who hold shares in street name for customers are required to vote shares in accordance with instructions received from the beneficial owners. Brokers are permitted to vote on discretionary items if they have not received instructions from the beneficial owners, but they are not permitted to vote (a "broker non-vote") on non-discretionary items absent instructions from the beneficial owner. Abstentions and broker non-votes will count in determining whether a quorum is present at the Annual Meeting. Both abstentions and broker non-votes will not have any effect on the outcome of voting on director elections. For purposes of voting on the ratification of the selection of auditors, abstentions and broker non-votes are not counted as votes with respect to the proposal. Abstentions occur when stockholders are present at the annual meeting but choose to withhold their vote for any of the matters upon which the stockholders are voting. Broker non-votes occur when nominees (such as banks and brokers) that hold shares on behalf of beneficial owners do not receive voting instructions from the beneficial owners before the meeting and do not have discretionary authority to vote those shares under the applicable rules of the New York Stock Exchange (the "NYSE").

A proxy in the accompanying form that is properly signed and returned will be voted at the Annual Meeting in accordance with the instructions on the proxy. Any properly executed proxy on which no contrary instructions have been indicated about a proposal will be voted as follows with respect to the proposal: FOR the election of the three persons named in this Proxy Statement as the Board of Directors' nominees for election to the Board of Directors; FOR the ratification of the selection of Ernst & Young LLP as the Company's independent accountants; and in accordance with the discretion of the holders of the Proxy with respect to any other business that properly comes before the stockholders at the Annual Meeting. The Board of Directors knows of no matters, other than those previously stated, to be presented for consideration at the Annual Meeting. The persons named in the accompanying proxy may also, in

their discretion, vote the proxy to adjourn the Annual Meeting from time to time.

A copy of the list of stockholders entitled to vote at the Annual Meeting will be available for inspection by qualified stockholders for proper purposes at the offices of the Company during normal business hours beginning on March 16, 2007 and at the Annual Meeting.

PROPOSAL 1:

ELECTION OF DIRECTORS

The Board of Directors is currently comprised of seven members. The seven members are divided into three classes having one member in Class I, three members in Class II and three members in Class III. Each class is elected for a term of three years, so that the term of one class of directors expires at each annual meeting of stockholders. The term of the Class III directors expires at the Annual Meeting. The term of the Class I directors expires at the annual meeting of stockholders to be held in 2008 and the term of the Class II directors expires at the annual meeting of stockholders to be held in 2009. Effective May 1, 2007, Cindy Taylor has been appointed President and Chief Executive Officer of the Company and will also become a member of the Board of Directors serving as a Class I director.

Nominees

Three directors are to be elected at the Annual Meeting. The Board of Directors has nominated Martin Lambert, Mark G. Papa and Stephen A. Wells to fill the three expiring Class III positions on the Board of Directors, to hold office for three-year terms expiring at the annual meeting of stockholders in 2010, and until their respective successors have been duly elected and qualified, or until their earlier resignation or removal. All of the director nominees, Mr. Lambert, Mr. Papa and Mr. Wells, are presently directors. Stockholder nominations will not be accepted for filling board seats at the Annual Meeting because our bylaws require advance notice for such a nomination, the time for which has passed. Our Board of Directors has determined that all of the nominees for Director are independent as that term is defined by the applicable NYSE listing standards. See Director Independence below for a discussion of director independence determinations. The enclosed proxy (unless otherwise directed, revoked or suspended) will be voted FOR the election of the three nominees for director.

Although the Company knows of no reason why any of the nominees might be unable or refuse to accept nomination or election, if any nominee should be unable to serve as a director, the shares represented by proxies will be voted for the election of a substitute nominated by the Board of Directors.

The Board of Directors recommends that stockholders vote FOR the election of each of the nominees.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Corporate Governance Guidelines are also available in print to any stockholder who requests them. These guidelines were adopted by the Board of Directors to best ensure that the Board is independent from management, that the Board adequately performs its function as the overseer of management and to help ensure that the interests of the Board and management align with the interest of the stockholders.

Corporate Code of Business Conduct and Ethics. The Corporate Code of Business Conduct and Ethics is also available in print to any stockholder who requests it.

Director Independence

Our Board of Directors has determined that all of our directors, except for Mr. Douglas E. Swanson, who will serve as our Chief Executive Officer until April 30, 2007 and Mrs. Cindy Taylor, our President and Chief Executive Officer and a member of our Board effective May 1, 2007, are independent as that term is defined by the applicable NYSE listing standards. In making this determination, the Board of Directors considered transactions and relationships between the director or his immediate family and the Company and its subsidiaries. The purpose of this review was to determine whether any such relationships or transactions were material and, therefore, inconsistent with a determination that the director is independent. When assessing the materiality of a director's relationship with us, the Board of Directors considers the issue not merely from the standpoint of the director, but also from the standpoint of the person or organizations with which the director has an affiliation.

In particular, in 2007, the Board evaluated the following relationships: (i) Martin Lambert's status as a former partner and current senior counsel with the Canadian law firm Bennett Jones LLP, a law firm that has performed services for our Company and to which we paid fees totaling \$0.1 million in 2006; (ii) Gary Rosenthal's position as a principal of The Sterling Group L.P., a private equity firm that has an indirect minority investment in a company that controls BTEC Turbines, a company with which we plan to do business in 2007; and (iii) Mark Papa's position as Chairman and Chief Executive Officer of EOG Resources, Inc. (EOG), which purchased products and services from us in 2006 in an amount equal to approximately 1% of EOG's 2006 revenues. Our Board of Directors has determined that none of the relationships noted above are material to the independence of Messrs. Lambert, Rosenthal or Papa.

Committees and Meetings

The Board of Directors has established three standing committees: the Audit Committee, the Compensation Committee and the Nominating & Corporate Governance Committee. These committees are comprised of directors who are not officers or employees of the Company.

Audit Committee

The Company's Audit Committee presently consists of Messrs. Van Kleeef, Nelson and Rosenthal, each of whom is independent, as such term is defined in Section 10A of the Securities Exchange Act of 1934, as amended (the Exchange Act), and in the applicable NYSE listing standards. Mr. Van Kleeef became a member of the Audit Committee when he was elected as a Class II director at the Company's Annual Meeting in May 2006. Mr. Wells served on the Audit Committee as its Chairman until December 31, 2006. The Audit Committee operates under a written charter adopted by the Board of Directors on May 13, 2003. A copy of the charter is available on our website, www.oilstatesintl.com, by first clicking "Corporate Governance" and then "Amended and Restated Audit Committee Charter." The Audit Committee, which is chaired by Mr. Van Kleeef, meets separately with representatives of the Company's independent auditors, the Company's internal audit personnel and with representatives of senior management in performing its functions. The Audit Committee reviews the general scope of audit coverages, the fees charged by the independent auditors, matters relating to internal control systems and other matters related to accounting and reporting functions. The Board of Directors has determined that all of the members of the Audit Committee are financially literate and that Messrs. Van Kleeef and Nelson have accounting or related financial management expertise, each as required by the applicable NYSE listing standards. The Board of Directors has also determined that Messrs. Van Kleeef and Nelson qualify as audit committee financial experts under the applicable rules of the Exchange Act.

Table of Contents

In addition to the Audit Committee of the Company's Board of Directors, Mr. Nelson serves on the Audit Committees of Input/Output, Inc., Quintana Maritime Ltd. and W&T Offshore, Inc. The charter of the Audit Committee of the Board provides that no member of the Audit Committee may simultaneously serve on the Audit Committees of more than two other public companies. The Board has waived this limitation with respect to Mr. Nelson's service on more than two other public company audit committees. Prior to granting this waiver, the Board considered the incremental time and responsibilities that such additional service would require of Mr. Nelson. Based upon a consideration of the facts and circumstances related to Mr. Nelson's commitments and the entities on whose Boards he serves, and including the fact that he is not currently serving in a full time executive role, the Board has determined that such additional service would not negatively affect Mr. Nelson's ability to fulfill his duties to the Company's Audit Committee.

Compensation Committee

The Company's Compensation Committee consists of Messrs. Rosenthal, Papa and Wells, each of whom is independent, as defined in the applicable NYSE listing standards, and is a non-employee director. The Compensation Committee operates under a written charter approved by the Board of Directors as amended and restated on February 16, 2007. A copy of the charter is available on our website, www.oilstatesintl.com, by first clicking Corporate Governance and then Compensation Committee Charter. The Compensation Committee, which is chaired by Mr. Rosenthal, administers the 2001 Equity Participation Plan (as amended and restated), and in this capacity makes a recommendation to the full Board concerning all option grants or stock awards to employees, including executive officers, under the plan. In addition, the Compensation Committee is responsible for making recommendations to the Board with respect to the compensation of the Company's chief executive officer and its other executive officers and for establishing compensation and employee benefit policies.

Nominating & Corporate Governance Committee

The Company's Nominating & Corporate Governance Committee consists of Messrs. Lambert, Papa and Wells, each of whom is independent, as such term is defined in the applicable NYSE listing standards. The Nominating & Corporate Governance Committee operates under a written charter adopted by the Board of Directors on March 31, 2004. A copy of the charter is available on our website, www.oilstatesintl.com, by first clicking Corporate Governance and then Amended and Restated Nominating and Corporate Governance Committee Charter. The Nominating & Corporate Governance Committee, which is chaired by Mr. Papa, makes proposals to the Board for candidates to be nominated by the Board to fill vacancies or for new directorship positions, if any, which may be created from time to time. The Nominating & Corporate Governance Committee will consider suggestions from any source, particularly from stockholders, regarding possible candidates for director. To submit a recommendation to the committee, a stockholder should send a written request to the attention of the Company's Secretary at Oil States International, Inc., Three Allen Center, 333 Clay Street, Suite 4620, Houston, Texas 77002. The written request must include the nominee's name, contact information, biographical information and qualifications, as well as the nominee's written consent to serve if elected. The request must also disclose the number of shares of common stock beneficially owned by the person or group making the request and the period of time such person or group has owned those shares. The request must be received by the Company no earlier than the 150th day and no later than the 120th day before the anniversary of the date of the prior year's proxy statement. These procedures do not preclude a stockholder from making nominations in accordance with the process described below under Stockholder Proposals.

Board and Committee Meetings

During 2006, the entire Board of Directors held seven meetings, the Audit Committee held nine meetings, the Compensation Committee held four meetings and the Nominating & Corporate Governance Committee held two

meetings. Each of the directors attended at least 75 percent of the meetings of the Board and the committees of the Board on which they served. All of our directors attended last year's annual meeting. While the Company understands that scheduling conflicts may arise, it expects directors to make reasonable efforts to attend the annual meeting of stockholders and meetings of the Board of Directors and the committees on which they serve.

Table of Contents

Our Corporate Governance Guidelines provide that our non-employee directors shall meet separately in executive session at least annually. The director who presides at these sessions is the Chairman of the Board, assuming such person is a non-management director. Otherwise, the presiding director will be chosen by a vote of the non-management directors. In addition to the executive sessions of our non-management directors, our independent directors (as defined in the applicable NYSE listing standards) are required to meet in executive session at least annually. Our non-management directors are also all independent directors. In 2006, our non-management independent directors met in executive session four times. Our Chairman of the Board presided at these sessions.

Qualifications of Directors

When identifying director nominees, the Nominating & Corporate Governance Committee will consider the following:

the person's reputation, integrity and independence;

the person's skills and business, government or other professional experience and acumen, bearing in mind the composition of the board and the current state of the Company and the oilfield services industry generally at the time of determination;

the number of other public companies for which the person serves as a director and the availability of the person's time and commitment to the Company; and

the person's knowledge of a major geographical area in which the Company operates or another area of the Company's operational environment.

In the case of current directors being considered for renomination, the Nominating & Corporate Governance Committee will also take into account the director's history of attendance at Board of Directors and committee meetings, the director's tenure as a member of the Board of Directors and the director's preparation for and participation in such meetings.

Director Nomination Process

Our director nomination process for new board members is as follows:

The Nominating & Corporate Governance Committee, the Chairman of the Board, or another board member identifies a need to add a new board member who meets specific criteria or to fill a vacancy on the Board of Directors.

The Nominating & Corporate Governance Committee initiates a search by working with staff support, seeking input from board members and senior management and hiring a search firm, if necessary.

The Nominating & Corporate Governance Committee considers recommendations for nominees for directorships submitted by stockholders.

The initial slate of candidates that will satisfy specific criteria and otherwise qualify for membership on the Board of Directors are identified and presented to the Nominating & Corporate Governance Committee, which ranks the candidates.

The Chairman of the Board and at least one member of the Nominating & Corporate Governance Committee interviews prospective candidate(s).

The full Board of Directors is kept informed of progress.

The Nominating & Corporate Governance Committee offers other board members the opportunity to interview the candidate(s) and then meets to consider and approve the final candidate(s).

The Nominating & Corporate Governance Committee seeks the endorsement of the Board of Directors of the final candidate(s).

The final candidate(s) are nominated by the Board of Directors or elected to fill a vacancy.

Compensation Committee Interlocks and Insider Participation

During 2006, the Company's Compensation Committee consisted of Messrs. Rosenthal, Papa and Wells, each of whom is an independent, non-employee director. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee (the "Committee") of the Board of Directors provides overall guidance to the Company's executive compensation program and administers incentive compensation plans.

The executive compensation program includes three primary elements which are performance oriented and, taken together, constitute a flexible and balanced method of establishing total compensation for the Company's executive officers. The three major elements consist of a) base salary, b) annual incentive plan awards, and c) long-term incentive awards. The design of this compensation program supports the Company's Executive Total Compensation Philosophy.

Executive Total Compensation Philosophy

The Company's philosophy regarding the executive compensation program has been to design a compensation package that provides competitive salary levels and compensation incentives that (i) attract and retain individuals of outstanding ability in these key positions, (ii) recognize individual performance relative to established goals and the performance of the Company relative to the performance of other companies of comparable size, complexity and quality and against budget goals, and (iii) support both the short-term and long-term strategic goals of the Company. The Committee believes this approach closely links the compensation of the Company's executives to the execution of the Company's strategy and the accomplishment of the Company goals that coincide with stockholder objectives.

Compensation Program Objectives:

motivate, reward, retain and attract key employees and executive talent required to achieve corporate strategic plans;

reinforce the relationship between strong individual performance of executives and business results; and

align the interests of executives with the long-term interests of stockholders.

The compensation program is designed to reward executives for long-term strategic management and the enhancement to stockholder value.

Compensation Benchmarking Relative to Market

The Committee believes that the overall compensation of executives should be competitive with the market. The Committee considers the market both the oilfield services industry and geographic markets in which the Company vies for executive talent. In determining the proper amount for each compensation element, the Committee reviews the compensation targets for comparable positions at similar corporations with which the Company competes for executive talent, and relative internal equity within the executive pay structure. This approach allows the Committee to respond better to changing business conditions, manage salaries and incentives

Table of Contents

more evenly over an individual's career as well as minimize the potential for automatic ratcheting-up of salaries and incentives that could occur with an inflexible and narrowly defined approach.

The Committee establishes executive compensation based on review of the executive's performance and compensation history, and information on compensation levels at comparable companies. For 2006, Stone Partners, Inc., an outside compensation consulting firm, prepared an analysis of comparative data for the first three major elements of compensation: base salary, annual incentive awards and long-term incentive awards. The consultant used the Watson Wyatt, Pearl Meyer, Mercer, and Stone-Partners Oilfield Manufacturing and Services Industry Executive Compensation Survey. Revenue regression was utilized, where available, to establish market comparisons. In addition, at the Committee's direction, Stone Partners prepared, as it has in past years, a customized peer group comparison. Each year the Committee carefully reviews and develops the composition of the peer group and reviews the compensation paid at these companies, as well as their corporate performance, and other factors in determining the appropriate compensation levels for the Company's executives. The consultant also analyzed the proxies of this peer group consisting of 12 publicly traded oilfield services companies. The following companies were included in the peer group: Core Lab, Dril-Quip, Hanover Compressor, Helix Energy Solutions, Hydril Company, NATCO Group, Newpark Resources, Oceaneering International, Superior Energy Services, Tetra Technologies, Universal Compression, and W-H Energy Service. These peers are not identical to the companies included in the indices in the Stock Performance Graph contained in our Form 10K filed on February 28, 2007 because those indices include companies that are considered too dissimilar in size or operations to serve as comparisons for purposes of analyzing compensation. From a compensation benchmarking perspective, the greatest weight is given to the custom survey of 12 publicly traded peer companies.

In evaluating the comparison group data for compensation purposes, the Committee neither bases its decisions on quantitative relative weights of various factors, nor follows mathematical formulas. Rather, the Committee exercises its discretion and makes its judgment after considering the factors it deems relevant.

Elements of Compensation:

Base Salary Base salary is the guaranteed element of an executive's direct compensation and is intended to provide a foundation for a competitive overall compensation opportunity for the executive. The Committee reviews each executive's base salary annually. Executive officer base salaries are based on an evaluation that considers the executive's prior experience and breadth of knowledge and which also considers data from other similarly sized companies in businesses comparable to the Company's, the Company's and the executive's performance, and any significant changes in the executive's responsibilities. The Committee considers all these factors together plus overall industry conditions and makes a subjective determination on base salary.

Mr. Swanson's last salary change was effective May 18, 2006 when the Board of Directors decreased his base salary from \$430,000 to \$300,000 to reflect the transition of the Presidential duties to Mrs. Taylor. At the same time, the following promotions were announced: Mrs. Taylor was named President and Chief Operating Officer with a base salary increase of 21.2% to \$400,000 and Mr. Dodson was named Vice President, Chief Financial Officer and Treasurer with a base salary increase of 18.8% to \$190,000. Mr. Hughes received a merit increase of 4.4% on March 6, 2006 increasing his base salary to \$270,000. Ron Green's base salary was increased by 17% to C\$275,000 upon his promotion to President and Chief Executive Officer of PTI Group, Inc. on April 1, 2006. Mr. Swanson and Mrs. Taylor provide the Committee with input regarding the performance of other Company executives.

Annual Cash Incentive Compensation The Company's Annual Incentive Compensation Plan (AICP) promotes a pay-for-performance philosophy by providing executives with direct financial incentives in the form of annual cash bonuses based on total Company and business unit performance. Annual incentive awards are linked to the achievement of Company-wide and business unit quantitative performance goals and are designed

to place a significant portion of total compensation at risk. The purpose of the AICP is to:

create stockholder value;

provide focus on the attainment of annual goals that lead to long-term success of the Company;

Table of Contents

- provide annual performance-based cash incentive compensation;
- motivate achievement of critical annual operating performance metrics;
- motivate employees to continually improve Company-wide and business unit performance; and
- reward participants based on team performance.

The plan is flexible and provides the Committee the discretion to set goals and objectives with input from management that it believes are consistent with creating stockholder value and include financial measures, growth objectives, operating objectives, safety goals and other measures. Under the AICP, an incentive target is established for each executive officer based upon a review of the competitive data for that position, level of responsibility and ability to impact the Company's success. The AICP recognizes market differences in incentive award opportunities between organizational levels. Achieving results which exceed a minimum, or threshold, level of performance triggers an AICP payout. Performance results at or below the threshold (i.e. achieving 85% of EBITDA performance or less) will result in no AICP award. The target represents achieving 100% of an executive officer's AICP performance objective(s) as well as the targeted payout. Overachievement (i.e. 120% of EBITDA performance target achieved) is the performance level at which incentive compensation is maximized. The 2006 award opportunities, expressed as a percentage of base salary, for the Named Executive Officers is outlined below:

	Threshold	Target	Overachievement
Douglas E. Swanson	0%	50%	100%
Cindy B. Taylor	0%	55%	110%
Bradley J. Dodson	0%	45%	90%
Howard Hughes	0%	50%	100%
Ron R. Green	0%	50%	100%

Mr. Dodson's annual incentive target was increased to 50% for fiscal 2007 in recognition of his role and responsibilities and to achieve alignment with internal and external peers.

At the beginning of each year, the Committee is responsible for establishing the individual objectives based on recommendations by Management. The Committee sets performance goals that are both measurable and achievable. At the end of each year, the Committee reviews the performance results of the Company and the total incentive awards to be paid to each executive officer. In its discretion, the Committee will interpret the plan and has authority to make appropriate adjustments in individual, business unit or Company wide results in its discretion. The Committee did not make discretionary changes to the 2006 incentive payouts to the Named Executive Officers.

Performance measures are selected and weighted by management and the Committee annually to give emphasis to performance for which participants have influence. The Committee has established earnings before interest, taxes, depreciation and amortization (EBITDA) as the primary corporate performance objective for each executive officer. In addition, a portion of the incentive potential was based on return on investment (ROI) and, for certain of the executives other strategic goals as determined appropriate for the executives' areas of responsibilities. Other executives' strategic goals and objectives varied and included measures such as safety performance, return on investment, sales and other goals that were considered important. Performance goals may be identical for all executives or may be different to reflect more appropriate measures of corporate and business unit performance.

For 2006, Messrs. Swanson and Dodson and Mrs. Taylor had 90% of their incentive compensation based on the Company's EBITDA and 10% of their incentive compensation based on the Company's ROI. Mr. Hughes' incentive was based 80% on Offshore Products' EBITDA, 10% on Offshore Products' ROI and 10% on the Company's EBITDA. Mr. Green's incentive compensation was based 10% on the Company's EBITDA and the following PTI Group, Inc. metrics: 70% EBITDA, 10% ROI and 10% safety performance.

All executive officers, including Mr. Swanson, received incentive plan payments for 2006 performance. These incentive plan payments varied based upon Company and business unit achievement of the related goals and objectives. All but one of the Company's business units exceeded their 2006 objectives, and all but one of the Company's 14 executive officers received bonuses for 2006 in excess of target. On a consolidated basis, the Company overachieved its targets for 2006. Each of the Named Executive Officers for the fiscal year ended

Table of Contents

December 31, 2006, received the following payments in February 2007 under the AICP for fiscal 2006 performance.

	AICP Award (\$)	% of Base Salary
Douglas E. Swanson	\$ 351,500	100%
Cindy B. Taylor	\$ 409,496	110%
Bradley J. Dodson	\$ 158,984	90%
Howard Hughes	\$ 267,837	100%
Ron R. Green	\$ 228,078	97.6%

Long-term Incentives The Company makes certain stock-based awards under the 2001 Equity Participation Plan, which has been approved by stockholders, to better align the interests of executive officers with those of stockholders. Specifically, the plan's purposes are to:

provide an additional incentive for executives to further the growth, development and financial success of the Company by personally benefiting through the ownership of Company stock and/or rights which recognize growth, development and financial success; and

enable the Company to obtain and retain the services of executives considered essential to the long range success of the Company by offering them an opportunity to own stock in the Company and/or rights which will reflect the growth, development and financial success of the Company.

The 2001 Equity Participation Plan, as amended and restated, provides for the grant of any combination of:

stock options, which include both incentive stock options and nonqualified stock options;

restricted stock;

performance awards;

dividend equivalents;

deferred stock; and

stock payments.

In determining appropriate awards, the Committee periodically reviews competitive market data, each executive's past performance, ability to contribute to the future success and growth of the Company and time in the current job. The Committee also takes into account the risk of losing the executive to other employment opportunities and the value and potential for appreciation in the Company's stock. The Committee believes that market-competitive grants, along with significant vesting requirements, are the most effective method of reinforcing the long-term nature of the Company's business. In addition, grants of stock options and/or restricted stock reinforce alignment with stockholder interests. The Committee considers the foregoing factors together and makes a subjective determination with respect to awarding equity based compensation to its executive officers.

Under the 2001 Equity Participation Plan the Company has only granted nonqualified stock options and time-vested restricted stock awards. The majority of the options granted by the Committee vest at a rate of 25% per year over the

first four years of the six year option term. Options are awarded at the NYSE's closing price of the Company's common stock on the date of the grant. The Committee has never granted options with an exercise price that is less than the closing price of the Company's common stock on the grant date, nor has it granted options which are priced on a date other than the grant date.

Higher-level positions will have greater emphasis on longer-term incentives. The size of long-term incentive grants will vary from year to year and reflects a variety of factors including competitive market practices, retention priorities, total previous grants, current stock valuation, estimated future changes to earnings, and individual, business unit and company wide performance. The Committee determines the award level for executives, if any, on an annual basis usually at its February meeting each year.

Table of Contents

The Committee has typically granted executives nonqualified stock options in the past. However, it granted restricted stock awards to Mr. Swanson in 2001. In 2005, the Company modified its long-term incentive grant strategy and moved to a mix of restricted stock and options instead of only granting options. Consequently, the Company granted restricted stock awards to executives in February 2005 and again in February 2006 and in doing so reduced the number of shares in option grants from what the Company would otherwise have granted in the absence of restricted stock grants. Generally, these restricted stock awards vest at a rate of 25% per year over the first four years. However, the Committee awarded Mr. Swanson 13,500 restricted stock awards on February 15, 2006 that vested 100% on the first anniversary of the grant date. The shorter vesting cycle associated with this award reflected Mr. Swanson's anticipated retirement from the Company.

The Company continues to incorporate a combination of both nonqualified stock options and restricted stock awards as the primary executive long-term incentive and retention tool. Restricted stock utilization by the Company continues to trend upward. The introduction of restricted stock awards offer the additional advantages of potentially reducing overall company stock dilution and increasing employee stock ownership, while improving the Company's executive retention prospects in a very competitive labor market. We further recognize that options alone may not have adequate retention value in an industry that has historically been cyclical in nature. The Committee weighs the cost of these grants with their potential benefit as an incentive, retention and compensation tool.

Restricted stock awards were made to Mrs. Taylor and Messrs. Swanson, Dodson, Hughes and Green on February 15, 2006 at the then fair market value of \$34.86 per restricted share. Stock option awards were made to Messrs. Dodson, Hughes and Green and Mrs. Taylor on February 15, 2006 at the fair market value on the date of grant of \$12.77 per option award.

Other than Mr. Swanson, each of the Named Executive Officers received both grants of stock options and restricted stock awards. During 2006, a total of 85,000 stock options were granted to the Named Executive Officers. During 2006, a total of 27,000 shares of restricted stock awards were awarded to the Named Executive Officers. In addition, non-management Board members each received a restricted stock award valued at \$75,000 (2,091 shares of stock) on May 18, 2006.

In administering the long-term incentive plan, the Committee is sensitive to the potential for dilution of future earnings per share. For this reason and because of other compensation design considerations, the Committee does not administer a broad-based stock program. Instead, the Committee focuses the long-term incentive plan on employees who will have the greatest impact on the strategic direction and long-term results of the Company by virtue of their senior roles and responsibilities.

Stock option grants and restricted stock awards are expensed to comply with Statement of Financial Accounting Standards No. 123R – Share Based Payments (FASB 123R). There is no program, plan or practice to time the grant of stock options and award restricted stock to executives in coordination with material non-public information.

Benefits

Employee benefits are designed to be broad based, competitive and to attract and retain employees. From time to time the Committee reviews plan updates and recommends that the Company implement certain changes to existing plans or adopt new benefit plans.

Health and Welfare Benefits

The Company offers a standard range of health and welfare benefits to all employees including executives. These benefits include: medical, prescription drug, vision and dental coverages, life insurance, accidental death and dismemberment, long-term disability insurance, flexible spending accounts, employee assistance, business travel accident and 529 college savings plans. Executive officers make the same contributions for the same type of coverage and receive the same level of benefit as any other employee for each form of coverage/benefit.

Table of Contents

Retirement Plans

The Company offers a defined contribution 401(k) retirement plan to substantially all of its U.S. employees. The participants may contribute from 1-50% of their base and cash incentive compensation, and the Company makes matching contributions under this plan on the first 6% of the participant's compensation (100% match of the first 4% employee deferral and 50% match on the next 2% deferred). A similar defined contribution retirement plan is in place and available to the Named Executive Officer based in Canada.

Deferred Compensation Plan

The Company maintains a nonqualified deferred compensation plan that permits eligible employees and directors to elect to defer all or a part of their cash compensation (base and/or incentives) from the Company until the termination of their status as an employee or director. A deferral election may provide for deferring different forms of compensation (base salary and/or incentive compensation) during the year. The Committee administers the plan. Participating employees are eligible to receive from the Company a matching deferral under the nonqualified deferred compensation plan that compensates them for contributions they could not receive from the Company under the 401(k) plan due to the various limits imposed on 401(k) plans by U.S. federal income tax laws. Directors do not receive any matching contributions.

Participants in the nonqualified deferred compensation plan are able to invest contributions made to the nonqualified deferred compensation plan in investment funds selected by a Retirement Plan Committee which also mirrors the 401(k) plan investment funds. The Retirement Plan Committee is composed of employees. The Compensation Committee has established a grantor trust to hold the amounts deferred under the plan by the Company's officers and directors. All amounts deferred under the plan remain subject to the claims of the Company's creditors.

Allocation of net income (or net loss) in each participant's account is divided into sub accounts to reflect each participant's deemed investment designation in a particular fund(s). As of each valuation date, the net income (or net loss) of each fund is allocated among the corresponding sub accounts of the participants. Each sub account is credited with (or debited for) that portion of such net income (or net loss) due to the change in the value of each corresponding sub account from the prior valuation date.

Each participant will receive, at the participant's election, a lump sum distribution or installment payments only upon termination of the participant's service with the Company and affiliates. Any other withdrawals by the participant will be made in good faith compliance with 409A limitations pending final amendments to the Plan.

Other Perquisites and Personal Benefits

The Company does not offer any perquisites or other personal benefits to any executive with a value over \$10,000 beyond those discussed above. Some executives do have Company paid club memberships, which are used for business purposes.

Compensation Consultant

The Committee, from time to time, utilizes consultants to provide independent advice on executive compensation matters and to perform specific project-related work. The consultants report directly to the Committee, which pre-approves the scope of the work and the fees charged. The Committee indicates to the consultants the role that management has in the analysis of executive compensation, such as the verification of executive and Company information that the consultant requires.

Executive Compensation Policies

Securities Trading Policy The Company prohibits directors, officers and certain other managers from trading the Company's securities on the basis of material, non-public information or tipping others who may so trade on such information. In addition, the policy prohibits trading in the Company's securities without obtaining prior approval from the Company's Compliance Officer.

Table of Contents

Policy Against Repricing Stock Options The Company's policy is to price awards at the market price on the date of award.

Tax Deductibility of Compensation Section 162(m) of the Internal Revenue Code, enacted in 1993, imposes a limit of \$1 million, unless compensation is performance based, on the amount that a publicly held corporation may deduct in any year for the compensation paid or accrued with respect to its chief executive officer and each of its four other most highly compensated executive officers. None of the Company's executive officers currently receives compensation exceeding the limits imposed by Section 162(m).

Executive Stock Ownership Guidelines Effective February 16, 2007, Executive Stock Ownership Guidelines were adopted by the Compensation Committee of the Board of Directors of the Company to further align the interests of executives with the interests of stockholders and further promote the Company's commitment to sound corporate governance.

The Executive Stock Ownership Guidelines are based on a multiple of the executive's base salary and then converted to a fixed number of shares. Once determined, an executive's ownership guideline does not automatically change as a result of changes in his or her base salary or fluctuations in Oil States common stock price. However, the Committee may, from time to time, reevaluate and revise participants' guidelines to incorporate these types of events. An executive's stock ownership guideline may also increase because of a change in title. The Committee requires that the senior executives have direct ownership of the common stock in at least the following amounts:

Stock Ownership Level

Position	Multiple of Salary
Chief Executive Officer	3X
Executive Officers (Section 16)	2X
Corporate Administrative Vice Presidents	1X

Stock that counts toward satisfaction of the Company's Stock Ownership Guidelines includes:

Company shares owned outright (i.e. open market purchases) by the executive or his or her immediate family members residing in the same household

Vested OIS restricted stock awards that are issued as part of the executive's long-term compensation

Company shares acquired upon option exercise that the executive continues to hold

Company shares held in the Company's Nonqualified Deferred Compensation Plan

Company shares beneficially owned through a trust

Covered executives are required to achieve their Stock Ownership Guideline within four years (i.e. by March 1, 2011 for the initial requirements). Once achieved, ownership of the guideline amount must be maintained for as long as the individual is subject to Executive Stock Ownership Guidelines.

Executive and Change of Control Agreements

The Company maintains Executive Agreements with six executive officers subject to Section 16 of the Securities and Exchange Commission regulations. The Executive Agreements are not considered employment agreements and the executives are employed at will by the Company. These agreements provide protection in the event of a qualified termination, which is defined as an involuntary termination of the executive officer by the Company other than for

Cause or a voluntary termination by the executive for Good Reason after a corporate Change of Control (as defined in each Executive Agreement) of the Company. The triggering events were selected due to the executive not having complete control of their circumstances. Executives are exercising control over their circumstances when they resign voluntarily without Good Reason or are terminated for Cause. As a result, these events do not trigger any payments.

Table of Contents

If a qualified termination occurs other than during the 24-month period following a corporate Change of Control, the Executive Agreements provide for payments based on the executive officer's base salary and target annual bonus amount, that all restrictions on restricted stock awards will lapse and for continued health benefits for 24 months. Any vested, non-qualified stock options would expire after 3 months of the date of termination if not exercised prior to their expiration.

The Change of Control provision in the Executive Agreement is intended to encourage continued employment by the Company of its executive officers and to allow such executive to be in a position to provide assessment and advice to the Board of Directors regarding any proposed Change of Control without concern that such executive might be unduly distracted by the uncertainties and risks created by a proposed Change of Control. Unlike single trigger plans that pay out immediately upon a change of control the Company's agreement requires a double trigger (i.e. a change of control along with an involuntary loss of employment). If the qualified termination occurs during the 24-month period following a corporate Change of Control, the agreements provide for a lump sum payment to the executive officer based on the executive officer's base salary and target annual incentive amount. In addition, with respect to such a qualified termination, the agreements provide that all restricted stock awards will become vested, that all restrictions on such awards will lapse and that outstanding stock options will vest and, will remain exercisable for the remainder of their terms. The executive officer will also be entitled to health benefits for 36 months, vesting of all deferred compensation amounts, outplacement services and to be made whole for any excise taxes incurred with respect to severance payments that are in excess of the limits set forth under the Internal Revenue Code. See Potential Payments Under Termination or Change of Control in this Proxy Statement for additional disclosures of severance and Change of Control payments for Named Executive Officers.

The Executive Agreements have a term of three years and are extended automatically for one additional day on a daily basis for a period of three years, unless notice of non-extension is given by the Board of Directors of the Company, in which case the agreement will terminate on the third anniversary of the date notice is given. To receive benefits under the Executive Agreement, the executive officer will be required to execute a release of all claims against the Company. Certain terms of the Executive Agreements are summarized below.

Douglas E. Swanson. Under the terms of Mr. Swanson's Executive Agreement, he will be entitled to receive a lump sum payment equal to three times his base salary and target annual incentive amount if a qualified termination occurs during the 24-month period following a corporate Change of Control. If a qualified termination occurs other than during the 24-month period following a corporate Change of Control, Mr. Swanson will be entitled to receive a lump sum payment equal to two times his base salary and target annual incentive amount. Mr. Swanson has announced that he will retire as Chief Executive Officer of the Company, effective April 30, 2007.

Cindy B. Taylor. Under the terms of Mrs. Taylor's Executive Agreement, she will be entitled to receive a lump sum payment equal to two and a half times her base salary and target annual incentive amount if a qualified termination occurs during the 24-month period following a corporate Change of Control. Table of Contents

- (1) The amounts in the Stock Awards and Option Awards columns reflect the dollar amount recognized for financial statement reporting purposes for the fiscal year ended December 31, 2006, in accordance with SFAS 123R of restricted stock awards and stock options, respectively, pursuant to the 2001 Equity Participation Plan and thus include amounts from awards granted in and prior to 2006. Assumptions used in the calculation of this amount for fiscal years ended December 31, 2004, 2005 and 2006 are included in footnote 13 to the Company's audited financial statements for the fiscal year ended December 31, 2006, included in the Company's Annual Report of Form 10-K filed with the SEC on February 28, 2007. Assumptions used in the calculation of this amount for the fiscal years ended December 31, 2002 and 2003, are included in footnote 10 to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2004, filed with the SEC on March 2, 2005. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. These amounts reflect the Company's accounting expense for these awards and options, and do not necessarily correspond to the actual value that will be recognized by the directors.
- (2) The dollar amount recognized for financial statement purposes in 2006 is based on director stock awards made on May 18, 2005 and 2006 to each director which consisted of 3,436 shares and 2,091 shares, respectively, valued at the closing market price on that date. Director stock awards vest over the one year period until the next annual stockholders' meeting date.
- (3) Mr. Simmons resigned from the board effective February 16, 2007. As a result of the timing of his resignation, Mr. Simmons forfeited unvested equity awards which included 3,750 stock options and 2,091 restricted stock awards. Had Mr. Simmons completed his term and not stood for reelection at the Annual Meeting, 2,500 of such stock options and all of such restricted stock would have vested. The timing of Mr. Simmons resignation was influenced by a request from the Board to facilitate the Board's management succession planning and to provide the Nominating and Corporate Governance Committee with additional flexibility to consider additions to the Board. In recognition of Mr. Simmons' past contributions to the Company and in consideration for his early resignation, the Board approved a cash payment of \$101,939 to Mr. Simmons to reimburse him for the forfeited equity awards. The payment was based on the intrinsic value of forfeited options plus the value for the forfeited stock awards considering the pro rata portion of the vesting period for those awards through February 16, 2007.
- (4) Mr. Waite did not stand for reelection to the Board at the Company's May 18, 2006 annual stockholders' meeting. On April 6, 2006, the Compensation Committee of the Board of Directors approved the acceleration of Mr. Waite's stock awards and stock options that were not already vested by that date in consideration of his past service on the Board. A total of 3,436 stock awards and 7,500 option awards were accelerated and a total cost of \$105,022 was recognized. This expense is included in the compensation shown for Mr. Waite. Mr. Waite had deferred 100% of his Board retainer and meeting fees in the Company's Deferred Compensation Plan until he left the Board.
- (5) Mr. Lambert and Mr. Wells each elected to have 100% of their 2006 Board retainer and meeting fees deferred in the Company's Deferred Compensation Plan.

All Other Fees. None.

The charter of the Audit Committee provides that the Audit Committee is responsible for the pre-approval of all auditing services and permitted non-audit services to be performed for the Company by the independent auditors in order to ensure that the provision of such services does not impair the independent auditor's independence. The Audit Committee has adopted the Audit Committee Pre-Approval Policy, effective as of February 21, 2007, pursuant to which the Audit Committee has granted general pre-approval of the specified audit, audit-related, tax and other services. The pre-approval policy provides that the Audit Committee must be promptly informed of the provision of any pre-approved services. Services to be provided by the independent auditor that have not received general pre-approval as set forth in the pre-approval policy require specific pre-approval by the Audit Committee and must be submitted to the Audit Committee by the Chief Financial Officer or the Senior Vice President, Accounting and Corporate Secretary. Any such submission must include a statement as to whether, in such officer's view, the request or application is consistent with maintaining the independence of the independent auditor in accordance with the SEC's rules on auditor independence. All services rendered by Ernst & Young LLP in 2006 were subject to the applicable

current pre-approval policy. The Company has not agreed to indemnify Ernst & Young LLP in connection with any of their work.

Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting and will be offered the opportunity to make a statement if such representatives desire to do so. The representatives of Ernst & Young LLP will also be available to answer questions and discuss matters pertaining to the Report of Independent Auditors

contained in the financial statements in the Company's Annual Report on Form 10-K filed with the SEC on February 28, 2007.

The Board of Directors recommends that stockholders vote FOR the ratification of the appointment of independent accountants.

Audit Committee Report

The Board of Directors appointed the undersigned directors as members of the committee and adopted a written charter setting forth the procedures and responsibilities of the committee. Each year, the committee reviews the charter and reports to the Board on its adequacy in light of applicable NYSE rules. In addition, the Company furnishes an annual written affirmation to the NYSE relating to Audit Committee membership, the independence and financial management expertise of the Audit Committee and the adequacy of the committee charter.

During the last year, and earlier this year in preparation for the filing with the SEC of the Company's Annual Report on Form 10-K for the year ended December 31, 2006 (the "10-K"), the committee:

reviewed and discussed the audited financial statements with management and the Company's independent auditors;

reviewed the overall scope and plans for the audit and the results of the independent auditors' examinations;

met with management periodically during the year to consider the adequacy of the Company's internal controls and the quality of its financial reporting and discussed these matters with the Company's independent auditors and with appropriate Company financial personnel, including the Audit and Compliance officer;

discussed with the Company's senior management, independent auditors and the Audit and Compliance officer the process used for the Company's chief executive officer and chief financial officer to make the certifications required by the SEC and the Sarbanes-Oxley Act of 2002 in connection with the 10-K and other periodic filings with the SEC;

reviewed and discussed with the independent auditors (1) their judgments as to the quality (and not just the acceptability) of the Company's accounting policies, (2) the written communication required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees" and the independence of the independent auditors, and (3) the matters required to be discussed with the committee under auditing standards generally accepted in the United States, including Statement on Auditing Standards No. 61, "Communication with Audit Committees";

based on these reviews and discussions, as well as private discussions with the independent auditors and the Company's Audit and Compliance officer, recommended to the Board of Directors the inclusion of the audited financial statements of the Company and its subsidiaries in the 10-K; and

determined that the non-audit services provided to the Company by the independent auditors (discussed above under the Proposal to Ratify the Selection of Independent Auditors (Proposal 2)), are compatible with maintaining the independence of the independent auditors. The committee's pre-approval policies and procedures are discussed above under Proposal 2.

Notwithstanding the foregoing actions and the responsibilities set forth in the committee charter, the charter clarifies that it is not the duty of the committee to plan or conduct audits or to determine that the Company's financial

statements are complete and accurate and in accordance with generally accepted accounting principles. Management is responsible for the Company's financial reporting process including its system of internal controls, and for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States. The independent auditors are responsible for expressing an opinion on those financial statements, on management's assessment of internal control over financial reporting and on the effectiveness of internal control over financial reporting. Committee members are not employees of the Company or accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the committee has relied, without independent verification, on management's representation that the financial statements have been prepared

with integrity and objectivity and in conformity with accounting principles generally accepted in the United States, that the Company's internal controls over financial reporting were effective as of December 31, 2006 and on the representations of the independent auditors included in their report on the Company's financial statements.

The committee met regularly with management and the independent and internal auditors, including private discussions with the independent auditors and the Company's internal auditors and received the communications described above. The committee has also established procedures for (a) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters, and (b) the confidential, anonymous submission by the Company's employees of concerns regarding questionable accounting or auditing matters. However, this oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles or that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards.

The information contained in this report shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filings with the Securities and Exchange Commission, or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933, as amended, or the Exchange Act.

Respectfully submitted,

Audit Committee
