Item 7.01. Regulation FD Disclosure.

On July 26, 2007, Energy Transfer Partners, L.P. (the Partnership ) issued a press release relating to the event described in Item 8.01.

In accordance with General Instruction B.2 of Form 8 K, the information set forth in this Item 7.01 and in the attached exhibit shall be deemed to be furnished and not be deemed to be filed for purposes of the Securities Exchange Act of 1934, as amended (the Exchange Act ).

Item 8.01. Other Events.

On July 26, 2007, the Federal Energy Regulatory Commission (the FERC ) issued an Order to Show Cause and Notice of Proposed Penalties (the Order and Notice ) that contains allegations that we engaged in manipulative or improper trading activities in the Houston Ship Channel market, primarily during the fall of 2005 following the occurrence of Hurricanes Katrina and Rita, as well as during certain prior periods in 2004 and 2005, in order to benefit financially from our commodities derivative positions and from certain of our index priced physical gas purchases in the Houston Ship Channel market. The FERC s legal action against us also includes allegations related to our Oasis Pipeline, an intrastate pipeline that transports natural gas between the Waha Hub in west Texas to the Katy Hub near Houston, Texas. The allegations related to the Oasis Pipeline include claims that the Oasis Pipeline gave undue preference for pipeline capacity to an affiliate and that the Oasis Pipeline charged in excess of the maximum lawful rate for certain transportation services. The FERC has also sought to revoke ETC s blanket marketing authority for sales in interstate commerce at negotiated rates. In addition, the Commodity Futures Trading Commission (the CFTC ) filed suit in United States District Court for the Northern District of Texas on July 26, 2007 alleging that we attempted to manipulate natural gas prices in the Houston Ship Channel market on September 28 and November 28, 2005 to benefit financially from our commodities derivatives positions.

As previously disclosed in our public filings, these agencies have been conducting investigations into these matters. We recently engaged in settlement negotiations to resolve these matters; however, these negotiations were not successful. In its Order and Notice, the FERC is seeking \$70.1 million in disgorgement of profits and \$97.5 million in civil penalties relating to these matters and in its lawsuit the CFTC is seeking civil penalties of \$130,000 per violation or three times the profit gained from each violation and other unspecified relief. It is our position that our trading and transportation activities during the periods at issue complied in all material respects with applicable laws and regulations, and we intend to contest these cases vigorously. At this time, we are unable to predict the final outcome of these matters.
