No stock appreciation rights were granted to the Named Executive Officers during 2004. We

Table of Contents

granted to employees options to purchase ordinary shares equal to a total of 1,479,300 shares during 2004. Options were granted at an exercise price equal to the fair market value of our ordinary shares.

These options have a term of 10 years, but are subject to earlier termination in connection with termination of employment. Optionees may pay the exercise price by cash, check, or delivery of already-owned ordinary shares in the capital of the Company. Options granted to the Named Executive Officers vest over a four-year term with 12.5% of the options vesting on the sixth month anniversary of the date of the grant and the remaining options vesting ratably on a monthly basis over the remaining terms of the options. For a discussion of treatment of certain options in the event of a change in control transaction, see the discussion under "Change of Control Agreements" below.

Potential realizable values are net of exercise price before taxes, and are based on the assumption that our ordinary shares appreciate at the annual rate shown, compounded annually, from the date of grant until the expiration of the 10-year term. These numbers are calculated based on SEC requirements and do not reflect our projection or estimate of future stock price growth. Actual gains, if any, on stock option exercises will be dependent on the future performance of our ordinary shares. Unless the market price of the ordinary shares appreciates over the option term, no value will be realized from the option grants made to executive officers.

In addition, in connection with a termination without cause or resignation for good reason (as defined in the agreements) following a change of control, these employees will be entitled to a lump sum payment equal to their annual salary and projected bonus as well as a pro-rated amount of their bonus for the calendar or fiscal year of such departure.

Notwithstanding anything to the contrary set forth in any of the Company's filings under the Securities Act of 1933 or the Securities Exchange Act of 1934 that might incorporate future filings, including this 10-K/A, in whole or in part, the following Compensation Committee report and the Stock Performance Graph which follow shall not be deemed to be incorporated by reference into any such filings.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

During the twelve-month period ended December 31, 2004, the Compensation Committee of our Board of Directors (the Committee) consisted of Mr. Pehong Chen, Mr. Lip-Bu Tan and Mr. Yongji Duan. The members of the Compensation Committee are independent non-employee directors.

The following is a report of the Committee describing the compensation policies applicable to the Company's executive officers during the twelve-month period ended December 31, 2004. The Committee is responsible for establishing and monitoring the general compensation policies and compensation plans of the Company, as well as the specific compensation levels for executive officers. It also administers the granting of options to executive employees under the Company's stock option plans. Executive officers who are also directors have not participated in deliberations or decisions involving their own compensation.

General Compensation Policy

Under the supervision of the Board of Directors, the Company's compensation policy is designed to attract and retain qualified key executives critical to the Company's growth and long-term success. It is the objective of the Board of Directors to have a portion of each executive's compensation contingent upon the Company's performance as well as upon the individual's personal performance. Accordingly, each executive officer's compensation package is comprised of three elements: (i) base salary which reflects individual performance and expertise, (ii) variable bonus awards payable in cash and tied to the achievement of certain performance goals that the Board of Directors establishes from time to time for the Company and (iii) long-term stock-based incentive awards which are designed to strengthen the mutuality of interests between the executive officers and the Company's shareholders.

The summary below describes in more detail the factors which the Board of Directors considers in establishing each of the three primary components of the compensation package provided to the executive officers.

Base Salary

The level of base salary is established primarily on the basis of the individual's qualifications and relevant experience, the strategic goals for which he or she has responsibility, the compensation levels at companies which compete with the Company for business and executive talent, and the incentives necessary to attract and retain qualified management. Base salary is adjusted each year to take into account the individual's performance and to maintain a competitive salary structure. Company performance does not play a significant role in the determination of base salary.

Cash-Based Incentive Compensation

Cash bonuses are awarded on a discretionary basis to executive officers on the basis of their success in achieving designated individual goals and the Company's success in achieving specific company-wide goals.

Long-Term Incentive Compensation

Table of Contents

The Company has utilized its stock option plans to provide executives and other key employees with incentives to maximize long-term shareholder values. Awards under this plan by the Board of Directors take the form of stock options designed to give the recipient a significant equity stake in the Company and thereby closely align his or her interests with those of the Company's shareholders. Factors considered in making such awards include the individual's position in the Company, his or her performance and responsibilities, and comparability considerations.

Each option grant allows the executive officer to acquire ordinary shares at a fixed price per share (the fair market value on the date of grant) over a specified period of time (up to 10 years). The options typically vest in periodic installments over a four-year period, contingent upon the executive officer's continued employment with the Company, although exceptions may be made when deemed necessary or appropriate. Accordingly, the option will provide a return to the executive officer only if he or she remains in the Company's service, and then only if the market price of the ordinary shares appreciates over the option term. In addition to the stock option plans, executive employees are eligible to participate in the Company's 1999 Employee Stock Purchase Plan.

Compensation of the Chief Executive Officer

The factors discussed above in Base Salaries, Cash-Based Incentive Compensation, and Long-Term Incentive Compensation were also applied in establishing the amount of Mr. Wang's salary and stock option grant. Significant factors in establishing Mr. Wang's compensation include his performance and responsibilities, and comparability considerations. The current annual base salary for Mr. Wang is set at \$210,000 per annum by the Compensation Committee and has been effective since July 2004. Prior to July 2004, Mr. Wang's annual base salary was set at \$144,945. Mr. Wang received \$177,494 as base salary for the twelve-month period ended December 31, 2004. In addition to the base salary, Mr. Wang may earn up to 100% of his annual base salary as cash-based incentive compensation for 2004 based on achievement of certain financial targets in 2004. Mr. Wang received \$128,140 in cash-based incentive compensation in 2004. Mr. Wang was also granted options to purchase 200,000 shares of ordinary share in July 2004. These options have an exercise price of \$24.23 per share and vest over a four-year term with 12.5% of the options vesting on the sixth month anniversary of the date of the grant and the remaining options vesting ratably on a monthly basis over the remaining terms of the options. In addition, he also received \$36,000 as the housing allowance in 2004.

Deductibility of Executive Compensation

The Committee has considered the impact of Section 162(m) of the Internal Revenue Code adopted under the Omnibus Budget Reconciliation Act of 1993, which section disallows a deduction for any publicly held corporation for individual compensation exceeding \$1 million in any taxable year for the CEO and four other most highly compensated executive officers, respectively, unless such compensation meets the requirements for the performance-based exception to Section 162(m). As the cash compensation paid by the Company to each of its executive officers is expected to be below \$1 million and the Committee believes that options granted under the Company's 1999 Stock Plan and 1999 Executive Stock Plan to such officers will meet the requirements for qualifying as performance-based, the Committee believes that Section 162(m) will not affect the tax deductions available to the Company with respect to the compensation of its executive officers. It is the Committee's policy to qualify, to the extent reasonable, its executive officers' compensation for deductibility under applicable tax law. However, the Company may from time to time pay compensation to its executive officers that may not be deductible.
