ITEM 2.02 Results of Operations and Financial Condition

On October 5, 2006, Solectron Corporation (Solectron) announced its results of operations for its fiscal quarter and fiscal year ended August 25, 2006. A copy of the Company s press release announcing such results dated October 5, 2006 is attached hereto as Exhibit 99.1. This Form 8-K and the attached exhibit are furnished with the Securities and Exchange Commission (SEC).

Solectron includes the use of a non-GAAP financial measure in the attached exhibit. In accordance with Item 10(e)(i) of Regulation S-K, Solectron is required to provide a statement disclosing the reasons why management believes that presentation of non-GAAP financial measures provides useful information to investors regarding the Company s results of operations.

Solectron management evaluates and makes certain operating decisions (e.g. inventory management, site locations, personnel decisions) using various operating measures. These measures are generally based on the revenues and certain costs of its operations, such as cost of goods sold and selling, general and administrative expenses. One such measure is non-GAAP net income (loss), which is a non-GAAP financial measure under Section 101 of Regulation G under the Securities Exchange Act of 1934, as amended. This measure consists of GAAP net income (loss) from continuing operations excluding, as applicable, restructuring charges (severance and benefits, excess facilities and asset-related charges), amortization of intangible assets, stock compensation expense, investment related losses (gains), impairment charges for goodwill, intangible assets and other long-lived assets, and losses (gains) on the extinguishment of debt and other debt-related charges. Non-GAAP net income (loss) is adjusted by the amount of additional taxes or tax benefit that the company would accrue if it used non-GAAP results instead of GAAP results to calculate the company s tax liability.

Management believes it is useful to exclude restructuring charges in measuring Solectron s operations. Solectron has dramatically reduced headcount and facilities in recent years. As a result, Solectron s GAAP statements of operations have included significant charges related to such restructurings. Furthermore, management believes amortization of intangible assets, stock compensation expense, investment related losses (gains), impairment charges for goodwill, intangible assets and other long-lived assets, and losses (gains) on the extinguishment of debt and other debt-related charges, are infrequent events, which make the results less comparable between reporting periods.

Management believes that non-GAAP net income (loss) provides useful supplemental information to management and investors regarding the performance of the company s business operations and facilitates comparisons to our historical operating results. Management also uses this information internally for forecasting and budgeting. Non-GAAP financial measures should not be considered as a substitute for measures of financial performance prepared in accordance with GAAP. Investors and potential investors are encouraged to review the reconciliation of non-GAAP financial measures contained within the attached press release with their most directly comparable GAAP financial results.

ITEM 2.05 Costs Associated with Exit or Disposal Activities

On October 2, 2006, Solectron s Board of Directors approved a restructuring plan with estimated charges of \$50-\$60 million, of which approximately 90% represents cash expenditures. It is estimated that the restructuring actions under the plan will be completed within the next 12 months. The restructuring plan is necessary to optimize our global footprint and reduce our cost structure. These restructuring actions will involve reducing the workforce by approximately 1,400 employees and closing or consolidating approximately 700,000 square feet of facilities in Western Europe and North America. The estimated restructuring charges will consist of approximately (i) \$32-\$39 million related to severance costs, (ii) \$10-\$13 million related to leased facility liabilities and transfer and other exit costs and (iii) an estimated non-cash charge of \$8 million related to disposition of facilities and equipment, of which \$3.1 million was impaired at the end of fiscal year 2006.
