**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

**NOTE 1. GENERAL**

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC). The interim condensed consolidated financial statements include the consolidated accounts of Perot Systems Corporation and its wholly-owned subsidiaries and all significant intercompany transactions have been eliminated. In our opinion, all adjustments (consisting only of normal recurring adjustments) necessary for a fair statement of the financial position, results of operations and cash flows for the interim periods presented have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such SEC rules and regulations. These financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2006, in our Annual Report on Form 10-K filed with the SEC on February 28, 2007. Operating results for the three and nine month periods ended September 30, 2007, are not necessarily indicative of the results for the year ending December 31, 2007.

**Financial instruments**

The carrying amounts reflected in our condensed consolidated balance sheets for cash and cash equivalents, short-term investments, accounts receivable, accounts payable, and short-term and long-term debt approximate their respective fair values. Fair values are based primarily on current prices for those or similar instruments.

*Derivative Financial Instruments*

As part of our risk management strategy, we enter into derivative contracts to mitigate certain financial risks related to foreign currencies and interest rates. We have a risk management policy outlining the conditions under which we can enter into financial derivative transactions. To date, our use of derivative financial instruments has been limited to interest rate swaps, which hedges our exposure to floating rates on certain portions of our debt, and forward contracts and zero cost collars that hedge our foreign currency exposure, primarily in the Indian Rupee.

In the third quarter of 2007, we began designating certain derivative instruments as cash flow hedges in accordance with the Statement of Financial Accounting Standards (FAS) No. 133, Accounting for Derivative Instruments and Hedging Activities, which establishes accounting and reporting standards for derivative instruments and for hedging activities. FAS 133 provides for matching the gains and losses associated with the change in fair value of the hedged assets or liabilities with the period in which the derivative instruments matures.

Our policy requires us to document all relationships between hedging instruments and hedged items, as well as our risk management objective and strategy for entering into economic hedges. We also assess, at the inception of the hedge and on an ongoing basis, whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the cash flows of hedged items and whether those derivatives may be expected to remain highly effective in future periods. Our inability to demonstrate effectiveness would cause the hedge to be ineffective. Changes in fair value of a derivative that is highly effective, documented, designated, and qualified as a cash flow hedge, to the extent the hedge is highly effective, are recorded in other comprehensive income until earnings are impacted by the variability of the hedged transaction. Any hedge ineffectiveness, which represents the amount by which the changes in the fair value of the derivative do not offset the change in the cash flow of the forecasted transaction, is recorded in earnings.

We will discontinue hedge accounting prospectively when (1) we determine that the derivative is no longer effective in offsetting changes in the fair value or cash flows of the underlying exposure being hedged; (2) the derivative matures, or is sold, terminated or exercised; or (3) we determine that designating the derivative as a hedge is no longer appropriate. When hedge accounting is discontinued and the derivative remains outstanding, we carry the derivative at its estimated fair value on the balance sheet and recognize changes in the fair value in current period earnings. If a cash flow hedge becomes ineffective, any deferred gains or losses on the cash flow hedge would be reversed out of accumulated other comprehensive income (loss) and recognized immediately in other income, net on the condensed consolidated income statements.

For financial derivatives that do not qualify for hedge accounting or for which we have not elected to apply hedge accounting, the changes in fair values are recognized in other income, net.

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

**Significant accounting standards to be adopted**

*FASB Statement No. 157*

In September 2006, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standard (FAS) No. 157, Fair Value Measurements, which provides guidance for using fair value to measure assets and liabilities. FAS 157 will apply whenever another standard requires or permits assets or liabilities to be measured at fair value. The standard does not expand the use of fair value to any new circumstances. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. Our adoption of FAS 157 is not expected to have a material impact on our consolidated financial statements.

*FASB Statement No. 159*

In February 2007, the FASB issued FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115, which expands the use of fair value accounting but does not affect existing standards which require assets and liabilities to be carried at fair value. Under FAS 159, a company may elect to use fair value to measure accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees, issued debt and other eligible financial instruments. FAS 159 is effective for years beginning after November 15, 2007. Our potential adoption of FAS 159 is not expected to have a material impact on our consolidated financial statements.

**NOTE 2. DERIVATIVE FINANCIAL INSTRUMENTS**

As of September 30, 2007, we have outstanding forward contracts with third parties. We have elected hedge accounting under FAS 133 for certain foreign currency derivatives and designated them as cash flow hedges. The remaining foreign currency derivatives are being marked to market, with changes in fair value being reported in other income, net in the condensed consolidated income statements. As of September 30, 2007, the notional amount of foreign currency derivatives outstanding totaled 7.4 billion Indian rupees (approximately \$186 million), of which 5.6 billion Indian rupees (approximately \$142 million) relate to derivatives for which we elected hedge accounting. These derivatives expire at various dates over the next eighteen months. At September 30, 2007, the estimated net amount of existing gains that is expected to be reclassified into earnings within the next 12 months is \$1 million. Upon termination of these contracts, we will purchase Indian rupees at the exchange rates specified in the forward agreements to pay our operating costs in India. As of September 30, 2007, the unrealized gain on our foreign currency hedges, reflected in accumulated other comprehensive income, was approximately \$3 million (\$2 million, net of tax). On August 31, 2007, we entered into two interest rate swaps, for which we elected hedge accounting under FAS 133 and designated them as cash flow hedges. The first interest rate swap converted \$75 million of our borrowings under our credit facility from a variable-rate instrument into a fixed-rate instrument with an interest rate of 5.28%. The second interest rate swap converted an additional \$55 million of our borrowings under our credit facility from a variable-rate instrument into a fixed-rate instrument with an interest rate of 5.33%. As of September 30, 2007, the unrealized loss on our interest rate swaps currency hedges, reflected in accumulated other comprehensive income, was approximately \$500,000 (\$300,000, net of tax).

**NOTE 3. ACQUISITIONS**

On February 28, 2006, we acquired substantially all of the assets of eServ, LLC, a provider of project engineering outsourcing services. During the second quarter of 2007, we determined that eServ LLC, met their financial targets for 2006 and we paid \$4 million of additional consideration in cash, which was recorded as goodwill on the consolidated balance sheet. The goodwill was assigned to the Industry Solutions segment and is deductible for tax purposes. On January 30, 2007, we acquired all of the outstanding shares of QSS Group, Inc. (QSS), an information technology services company providing services to the U.S. federal government. As a result of the acquisition, we have gained several significant government-wide contracts and expanded both the scope of services and the areas we serve within the Department of Homeland Security and the Department of Defense. The initial purchase price for QSS was \$248 million (net of \$1 million of cash acquired), \$30 million of which is being held in an escrow account for up to approximately 18 months for potential purchase price adjustments. The purchase price was partially funded by

\$75 million borrowed under our existing credit facility. The results of operations of QSS and the fair value of assets acquired and liabilities assumed are included in our condensed consolidated financial statements beginning on the acquisition date. The allocation of the QSS purchase consideration to the assets and liabilities acquired, including goodwill, has not been concluded due to a potential contractual purchase price adjustment relating to working capital targets. The fair value of the

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (UNAUDITED)

acquired intangible assets totaled \$50 million, resulting in the estimated excess purchase price over net assets acquired of \$172 million. This amount was recorded as goodwill on the condensed consolidated balance sheets, was assigned to the Government Services segment and is deductible for tax purposes.

The following table summarizes the adjusted fair values of the QSS assets acquired and the liabilities assumed at the date of acquisition, which was January 30, 2007 (in millions):

Current assets	\$ 61
Property, equipment and purchased software, net	1
Goodwill	172
Identifiable intangible assets	50
	284
Current liabilities	(35)
Total consideration paid as of September 30, 2007	\$ 249

The following table reflects pro forma combined results of operations as if the acquisition had taken place at the beginning of the calendar year for each of the periods presented and includes amortization expense for identifiable intangible assets that were acquired (in millions):

	<b>Three months ended September 30, 2006</b>	<b>Nine months ended September 30, 2007      2006</b>	
Revenue	\$ 659	\$1,905	\$1,915
Income before taxes	(2)	112	78
Net income		72	51
Basic earnings per common share, Class A		0.59	0.43
Basic earnings per common share, Class B		0.59	0.43
Diluted earnings per common share		0.58	0.42
Diluted earnings per common share, Class B		0.58	0.42

In our opinion, the unaudited pro forma combined results of operations are not indicative of the actual results that would have occurred had the acquisition been consummated at the beginning of 2007 or 2006, nor are they indicative of future operations of the combined companies under our ownership and management.

On August 31, 2007, we acquired all of the outstanding shares of JJ Wild Holdings, Inc., and its subsidiary, JJ Wild, Inc. (collectively, JJ Wild), an information technology services company providing services to the hospital market and also the preferred provider of integrated healthcare delivery solutions for organizations using the MEDITECH Healthcare Information System.

The acquisition of JJ Wild adds to the capabilities of Perot Systems MEDITECH Solution Center and enables the company to expand and enhance its MEDITECH service offerings. The initial purchase price for JJ Wild was \$86 million (net of \$5 million of cash acquired), \$9 million of which is being held in an escrow account for up to

18 months for potential purchase price adjustments. The purchase price was partially funded by \$55 million borrowed under our existing credit facility. The results of operations of JJ Wild and the fair value of assets acquired and liabilities assumed are included in our condensed consolidated financial statements beginning on the acquisition date. The allocation of the JJ Wild purchase consideration to the assets and liabilities acquired, including goodwill, has not been concluded due to the pending completion of tangible and intangible asset appraisals. As of September 30, 2007, the estimated fair value of the acquired intangible assets totaled \$11 million, resulting in the estimated excess purchase price over net assets acquired of \$80 million. This amount was recorded as goodwill on the condensed consolidated balance sheets, was assigned to the Industry Solutions segment and is not deductible for tax purposes.

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (UNAUDITED)

The following table summarizes the adjusted fair values of the JJ Wild assets acquired and the liabilities assumed at the date of acquisition, which was August 31, 2007 (in millions):

Current assets	\$ 22
Property, equipment and purchased software, net	1
Goodwill	80
Identifiable intangible assets	11
	114
Current liabilities	(23)
Total consideration paid as of September 30, 2007	\$ 91

The following table reflects pro forma combined results of operations as if the acquisition had taken place at the beginning of the calendar year for each of the periods presented and includes an estimate of amortization expense for identifiable intangible assets that were acquired (in millions):

	<b>Three months ended</b>		<b>Nine months ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Revenue	\$ 670	\$601	\$1,938	\$1,755
Income before taxes	39	(3)	107	71
Net income	24		69	47
Basic earnings per common share, Class A	0.20		0.57	0.40
Basic earnings per common share, Class B	0.20		0.57	0.40
Diluted earnings per common share	0.19		0.55	0.39
Diluted earnings per common share, Class B	0.19		0.55	0.39

In our opinion, the unaudited pro forma combined results of operations are not indicative of the actual results that would have occurred had the acquisition been consummated at the beginning of 2007 or 2006, nor are they indicative of future operations of the combined companies under our ownership and management.

**NOTE 4. GOODWILL**

The changes in the carrying amount of goodwill for the nine months ended September 30, 2007, by reporting segment are as follows:

	<b>Industry</b>	<b>Government</b>	<b>Consulting</b>	<b>Total</b>
	<b>Solutions</b>	<b>Services</b>	<b>and</b> <b>Applications</b> <b>Solutions</b>	
	<b>(in millions)</b>			
Balance as of December 31, 2006	\$255	\$128	\$80	\$463
Goodwill resulting from QSS acquisition		172		172

Goodwill resulting from JJ Wild acquisition	80			80
Other	4		(5)	(1)
Balance as of September 30, 2007	\$339	\$300	\$75	\$714

## NOTE 5. DEFERRED CONTRACT COSTS, NET, AND IDENTIFIABLE INTANGIBLE ASSETS

**Deferred contract costs, net**

During September 2006, we modified an existing contract that included both construction services and non-construction services. The construction services related to a software development and implementation project, which was modified to eliminate the fixed-price development and implementation deliverables in the original contract. Under the original contract, we determined that we could not

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (UNAUDITED)

recognize revenue on the software development and implementation project separately from the non-construction services based on the guidance of AICPA Statement of Position No. 97-2, Software Revenue Recognition. As a result, we were deferring both the revenue on the software development and implementation project, consisting of the amounts we were billing for those services, and the related costs, up to the relative fair value of the software development and implementation project. At September 30, 2006 we had deferred \$48 million of costs related to the software development and implementation project. Following the contract modification in September 2006, we impaired \$44 million of the deferred costs and recorded this charge to direct cost of services in the condensed consolidated income statements.

**Identifiable Intangible Assets**

Identifiable intangible assets are recorded in other non-current assets in the condensed consolidated balance sheets and are composed of:

	<b>As of September 30, 2007</b>		
	<b>Gross Carrying Value</b>	<b>Accumulated Amortization (in millions)</b>	<b>Net Book Value</b>
Service mark	\$ 4	\$ (1)	\$ 3
Customer-based assets	87	(24)	63
Other intangible assets	4	(2)	2
<b>Total</b>	<b>\$ 95</b>	<b>\$ (27)</b>	<b>\$ 68</b>

Total amortization expense for identifiable intangible assets was \$4 million and \$12 million for the three and nine months ended September 30, 2007, respectively, and \$2 million and \$6 million for the three and nine months ended September 30, 2006, respectively. Amortization expense is estimated at \$16 million, \$18 million, \$16 million, \$14 million, \$11 million and \$2 million for the years ended December 31, 2007 through 2012, respectively. Identifiable intangible assets are amortized on a straight-line basis over their estimated useful lives, ranging from 1 to 7 years. The weighted average estimated useful life is approximately five years.

**NOTE 6. COMPREHENSIVE INCOME**

Total comprehensive income, net of tax, was as follows:

	<b>Three months ended September 30,</b>		<b>Nine months ended September 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
	<b>(in millions)</b>			
Net income	\$ 25	\$ 1	\$ 71	\$ 49
Foreign currency translation adjustments	3	1	10	2
Net unrealized gain on foreign exchange forward contracts and interest rate swaps	2		2	
<b>Total comprehensive income</b>	<b>\$ 30</b>	<b>\$ 1</b>	<b>\$ 83</b>	<b>\$ 51</b>

The related net change associated with hedging transactions for our derivative financial instruments designated as hedges under FAS 133 for the nine months ended September 30, 2007 was as follows:

	<b>(in millions)</b>
Accumulated gain at December 31, 2006	\$
Net unrealized gain on hedging transactions	2
Reclassifications into earnings	
Total accumulated gain at September 30, 2007	\$ 2

**Table of Contents**

 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (UNAUDITED)

**NOTE 7. LONG-TERM DEBT****Credit Facility**

In January 2007, we borrowed \$75 million against our credit facility in connection with our acquisition of QSS. Interest on this borrowing is at a variable rate based on 3 month LIBOR and was 5.86% at September 30, 2007. On February 15, 2007, we entered into an interest rate swap agreement to effectively convert this borrowing into a fixed-rate instrument with an interest rate of 5.64%, which was terminated on August 31, 2007. On the same day, we entered into a new interest rate swap agreement to effectively convert this borrowing into a fixed-rate instrument with an interest rate of 5.28%. In August 2007, we borrowed an additional \$55 million against our credit facility in connection with our acquisition of JJ Wild. Interest on this borrowing is at a variable rate based on 3 month LIBOR and was 6.05% at September 30, 2007. On August 31, 2007, we entered into an interest rate swap agreement to effectively convert this borrowing into a fixed-rate instrument with an interest rate of 5.33%. The interest rate at September 30, 2007 for our borrowing of \$77 million made in March 2005 was 6.05%.

**NOTE 8. STOCKHOLDERS' EQUITY**

At September 30, 2007, there were 123,308,000 shares of our Class A Stock outstanding and no shares of our Class B Common Stock outstanding. At December 31, 2006, there were 120,229,000 shares of our Class A Stock outstanding and 817,000 shares of our Class B Common Stock outstanding.

**NOTE 9. STOCK OPTIONS AND STOCK-BASED COMPENSATION****Stock-based compensation**

On January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123R, Share-Based Payment, which requires employee stock options and rights to purchase shares under stock participation plans to be accounted for under the fair value method. Prior to the adoption of FAS 123R and as permitted by FAS 123 and FAS 148,

Accounting for Stock-Based Compensation Transition and Disclosure, we elected to follow APB 25 and related interpretations in accounting for our employee stock options and implemented the disclosure-only provisions of FAS 123 and FAS 148. Under APB 25, stock compensation expense was recorded when the exercise price of employee stock options was less than the fair value of the underlying stock on the date of grant. We continue to account for options issued prior to our initial public offering under APB 25 as required by FAS 123R.

For the three and nine months ended September 30, 2007, stock option compensation expense and costs associated with our employee stock purchase plan (ESPP) recorded in direct cost of services and selling, general and administrative expenses, as well as the decrease in diluted earnings per common share, were as follows:

	<b>Three months ended September 30,</b>		<b>Nine months ended September 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (UNAUDITED)

Stock compensation expense related to restricted stock units was \$1,201,000 (\$756,000 net of tax), and \$2,905,000 (\$1,830,000 net of tax) for the three and nine months ended September 30, 2007, and \$573,000 (\$361,000 net of tax), and \$1,671,000 (\$1,053,000 net of tax) for the three and nine months ended September 30, 2006.

At September 30, 2007, there was \$44 million of total unrecognized compensation cost, net of expected forfeitures, related to non-vested options and restricted stock units, which is expected to be recognized over a weighted-average period of 2.2 years.

We utilize the Black-Scholes option pricing model to calculate our actual and pro forma stock-based employee compensation expense, and the assumptions used for each period are as follows:

	Three months ended September 30, 2006		Nine months ended September 30,	
	2007	(1)	2007	2006
Weighted average risk free interest rates	4.88%		4.88%	4.76%
Weighted average life (in years)	5.0		5.0	5.2
Volatility	23%		23%	35%
Expected dividend yield	0%		0%	0%
Weighted average grant-date fair value per share of options granted	\$4.65		\$4.67	\$5.94

(1) No stock options were granted during the three months ended September 30, 2006.

**Activity in our stock-based compensation plans**

Activity in stock options for Class A Common Stock was as follows (options in thousands):

	Nine months ended September 30,			
	2007		2006	
	Options	Weighted-Average Exercise Price	Options	Weighted-Average Exercise Price
Outstanding at January 1	18,169	\$ 14.42	25,342	\$ 14.81
Granted	1,602	15.41	83	15.00
Exercised	(1,705)	8.22	(2,527)	8.57
Forfeited	(1,438)	17.28	(4,872)	20.62
Outstanding at September 30	16,628	14.90	18,026	14.12
Exercisable at September 30	8,945	15.51	10,113	14.77

## Edgar Filing: PEROT SYSTEMS CORP - Form 10-Q

For outstanding and exercisable shares for the nine months ended September 30, 2007, the weighted average remaining contractual term (in years) is 4.26 and 3.63, respectively. For outstanding and exercisable shares for the nine months ended September 30, 2007, the aggregate intrinsic value is \$54 million and \$32 million, respectively. The number of outstanding nonvested restricted stock units was 1,298,000 for the nine months ended September 30, 2007, with a weighted-average grant-date fair value per share of \$14.92. The number of nonvested restricted stock units that vested or forfeited for the nine months ended September 30, 2007 was insignificant.

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

**NOTE 10. INCOME TAXES**

Our effective tax rate for the nine months ended September 30, 2007 was 36.0% as compared to 33.8% for the first nine months ended 2006. The increase in the effective tax rate is primarily due to additional taxes from the expiration of one of our tax holidays in India and higher state income taxes as a result of the Texas margin tax and the acquisition of QSS, which operates in several high-tax states, and is partially offset by a \$2 million tax benefit from the reduction of a valuation allowance against our deferred tax assets in Europe. Income tax expense for the first nine months of 2006 included a greater impact from foreign operations and tax-exempt investments.

While we are subject to examination by the tax authorities in each of the jurisdictions where we operate, our principal tax jurisdictions are the United States, India, and the United Kingdom. We are currently under examination by the IRS for tax years 2003 and 2004. We received a closing agreement from the IRS in March 2007, which effectively closed all tax years prior to 2003 from further examination. We are also under examination in India for the fiscal years ended March 31, 2002 through March 31, 2006 and are under examination in the United Kingdom for calendar year 2005.

Effective January 1, 2007, we adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109, which clarifies the accounting for and disclosure of uncertainty in tax positions. Additionally, FIN 48 provides guidance on the recognition, measurement, derecognition, classification and disclosure of tax positions and on the accounting for related interest and penalties. As a result of the implementation of FIN 48, we recognized an \$18 million decrease in the reserves for uncertain tax positions, which was recognized as an \$8 million increase to retained earnings, a \$5 million decrease to goodwill to adjust unrecognized benefits recorded in the cost of acquired companies and a \$5 million increase to additional paid in capital to adjust uncertain positions recorded as a component of shareholders equity. Following our adoption of FIN 48, the gross balance of reserves for uncertain tax positions was \$15 million at January 1, 2007, which does not include \$3 million of offsetting tax benefits, primarily from international tax treaties, which provide for relief from double taxation. The net unrecognized tax benefit of \$12 million includes \$10 million that, if recognized, would benefit our effective income tax rate and \$2 million that, if recognized, would reduce goodwill. We do not anticipate a significant change to the total amount of unrecognized tax benefits within the next 12 months.

We recognize accrued interest and penalties related to unrecognized tax benefits as a component of income tax expense. Accrued interest and penalties related to unrecognized tax benefits were approximately \$2 million as of both January 1, 2007 and September 30, 2007.

**NOTE 11. SEGMENT DATA**

We offer our services under three primary lines of business: Industry Solutions, Government Services, and Consulting and Applications Solutions. Industry Solutions, our largest line of business, provides services to our customers primarily under long-term contracts in strategic relationships. These services include technology and business process services, as well as industry domain-based, short-term project and consulting services. The Government Services segment provides infrastructure support, application design and development, consulting, engineering, and technology-based business process solutions for the Department of Defense, the Department of Homeland Security, the National Aeronautics and Space Administration, the Department of Health and Human Services, the Department of Education, various federal intelligence agencies, and other governmental agencies. Consulting and Applications Solutions provides software-related services, including the implementation of prepackaged software applications, application development and maintenance, and application systems migration and testing primarily under short-term contracts related to specific projects. Other includes our remaining operating areas and corporate activities, income and expenses that are not related to the operations of the other reportable segments, and the elimination of intersegment revenue and direct costs of services of approximately \$26 and \$14 million for the three months ended September 30, 2007 and 2006, respectively, and \$66 and \$37 million for the nine months ended September 30, 2007 and 2006, respectively, related to the provision of services by the Consulting and Applications Solutions segment to the Industry Solutions segment and Government Services Segments.

The reportable segments follow the same accounting policies that we use for our consolidated financial statements. Segment performance is evaluated based on income before taxes, exclusive of income and expenses that are included in the Other category. Substantially all corporate and centrally incurred costs are allocated to the segments based principally on expenses, employees, square footage, or usage.

--	---------	----	---------	---------

- (1) Net income is allocated to Class A and Class B common shares based on weighted average common shares attributable to each class of stock.

- (2) For purposes of the diluted net income per share computation for common stock, shares of Class B are assumed to be converted;

therefore, 100%  
of net income is  
allocated to  
common stock.

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

(3) Class B shares are assumed to be converted in the weighted average diluted common shares outstanding.

(4) Net income is allocated to class B common shares based on the weighted average diluted common shares attributable to each class of stock.

For the three and nine months ended September 30, 2007, outstanding options to purchase 3,495,000 and 3,330,000 shares, respectively, of our common stock were not included in the computation of diluted earnings per common share because including them would be anti-dilutive. For the three and nine months ended September 30, 2006, outstanding options to purchase 7,678,000 and 6,172,000 shares, respectively, of our common stock were not included in the computation of diluted earnings per common share because including them would be anti-dilutive. We determined whether an option was dilutive or anti-dilutive by comparing the average market price of our common shares for that period to the aggregate assumed proceeds from each stock option, measured as the sum of the assumed cash proceeds from and excess tax benefits that would be recorded upon the exercise of each stock option and the average unearned compensation cost for each stock option.

**NOTE 13. COMMITMENTS AND CONTINGENCIES**

**Litigation**

We are, from time to time, involved in various litigation matters. We do not believe that the outcome of the litigation matters in which we are currently a party, either individually or taken as a whole, will have a material adverse effect on our consolidated financial condition, results of operations or cash flows. However, we cannot predict with certainty any eventual loss or range of possible loss related to such matters.

We currently purchase and intend to continue to purchase the types and amounts of insurance coverage customary for the industry and geographies in which we operate. We have evaluated our risk and consider the coverage we carry to be adequate both in type and amount for the business we conduct.

*IPO Allocation Securities Litigation*

In July and August 2001, we, as well as some of our current and former officers and directors and the investment banks that underwrote our initial public offering, were named as defendants in two purported class action lawsuits seeking unspecified damages for alleged violations of the Securities Exchange Act of 1934 and the Securities Act of 1933. These cases focus on alleged improper practices of investment banks. Our case has been consolidated for pretrial purposes with approximately 300 similar cases in the IPO Allocation Securities Litigation. We had accepted a settlement proposal presented to all issuer defendants under which plaintiffs would dismiss and release all claims against all issuer defendants, in exchange for an assurance by the insurance companies collectively responsible for insuring the issuers in all of the IPO cases that the plaintiffs will achieve a minimum recovery of \$1 billion (including

amounts recovered from the underwriters).

In December 2006, the Second Circuit Court of Appeals vacated the class certifications in the IPO class action test cases, finding the predominance of common questions over individual questions that is required for class certification cannot be met by those plaintiffs. The Second Circuit has denied plaintiffs' petition for rehearing. The plaintiffs are seeking certification of a narrower class at the trial court level. At the request of the issuer defendants, the trial court has terminated the settlement approval process.

*Other*

In addition to the matters described above, we have been, and from time to time are, named as a defendant in various legal proceedings in the normal course of business, including arbitrations, class actions and other litigation involving commercial and employment disputes. Certain of these proceedings include claims for substantial compensatory or punitive damages or claims for indeterminate amounts of damages. We are contesting liability and/or the amount of damages, in each pending matter.

NOTE 14. SUBSEQUENT EVENT

In the fourth quarter of 2007, we received notification from Community Health Systems (CHS) that as a result of its merger with Triad Hospitals, Inc. (Triad) and expected integration plans, it intends to end the current services agreement that we signed with Triad in 2006. Although the termination will be effective December 31, 2007, we will provide CHS with termination and transition assistance services. These transition assistance services may extend into 2008. Under the termination for change of control provisions of the agreements, CHS paid to us, in October 2007, a termination fee of \$26 million and will reimburse us for certain shutdown costs. Prior to this termination, Triad was one of our ten largest clients.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

*This quarterly report contains forward-looking statements. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as may, will, should, could, forecasts, expects, plans, anticipates, believes, estimates, predicts, potential, see, target, projects, position, or continue or the negative of such terms and other comparable terminology. These statements reflect our current expectations, estimates, and projections. These statements are not guarantees of future performance and involve risks, uncertainties, and assumptions that are difficult to predict. Actual events or results may differ materially from what is expressed or forecasted in these forward-looking statements. In evaluating these statements, you should specifically consider various factors, including the risks described in our Annual Report on Form 10-K for the year ended December 31, 2006. These risk factors describe reasons why our actual results may differ materially from any forward-looking statement. We disclaim any intention or obligation to update any forward-looking statement.*

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

**RESULTS OF OPERATIONS**

The following discussion and analysis should be read in conjunction with our interim condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and with our consolidated financial statements and the information under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations, which are included in our Annual Report on Form 10-K for the year ended December 31, 2006.

**Lines of Business**

We offer our services under three primary lines of business: Industry Solutions, Government Services, and Consulting and Applications Solutions. Industry Solutions, our largest line of business, provides services to our customers primarily under long-term contracts in strategic relationships. These services include technology and business process services, as well as industry domain-based, short-term project and consulting services. The Government Services segment provides infrastructure support, application design and development, consulting, engineering, and technology-based business process solutions for the Department of Defense, the Department of Homeland Security, the National Aeronautics and Space Administration, the Department of Health and Human Services, the Department of Education, various federal intelligence agencies, and other governmental agencies. Consulting and Applications Solutions provides software-related services, including the implementation of prepackaged software applications, application development and maintenance, and application systems migration and testing primarily under short-term contracts related to specific projects.

**Overview of Our Financial Results for the Third Quarter of 2007**

Our financial results are affected by a number of factors, including broad economic conditions, the amount and type of technology spending by our customers, and the business strategies and financial condition of our customers and the industries we serve, which could result in increases or decreases in the amount of services that we provide to our customers and the pricing of such services. Our ability to identify and effectively respond to these factors is important to our future financial growth.

We evaluate our consolidated performance on the basis of several performance indicators. The four key performance indicators we use are revenue growth, earnings growth, free cash flow, and the value of contracts signed. We compare these key performance indicators to both annual target amounts established by management and to our performance for prior periods. We establish the targets for these key performance indicators primarily on an annual basis, but we may revise them during the year. We assess our performance using these key indicators on a quarterly and annual basis.

***Modification of a Customer Contract***

During September 2006, we modified an existing contract that included both construction services and non-construction services. The construction services related to a software development and implementation project,

which was modified to eliminate the fixed-price development and implementation deliverables in the original contract. Under the original contract, we determined that we could not recognize revenue on the software development and implementation project separately from the non-construction services based on

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

the guidance of AICPA Statement of Position No. 97-2, Software Revenue Recognition. As a result, we were deferring both the revenue on the software development and implementation project, consisting of the amounts we were billing for those services, and the related costs, up to the relative fair value of the software development and implementation project. At September 30, 2006, we had deferred \$48 million of costs related to the software development and implementation project. Following the contract modification in September 2006, we impaired \$44 million of the deferred costs and recorded this charge to direct cost of services in the condensed consolidated income statements.

***Revenue Growth***

Revenue growth is a measure of the growth we generate through sales of services to new customers, retention of existing contracts, acquisitions, and discretionary services from existing customers. Revenue for the third quarter of 2007 grew by 12.3% as compared to the third quarter of 2006. As discussed in more detail below, this revenue growth came primarily from the following:

Revenue from a company acquired during the first quarter of 2007.

An increase in revenue from the expansion of base services and discretionary technology investments by our existing long-term customers.

Revenue from new contracts signed during the twelve-month period following the third quarter of 2006.

Partially offsetting these increases in revenue was the loss of revenue from our infrastructure outsourcing contract with UBS that ended on January 1, 2007.

***Earnings Growth***

We measure earnings growth using diluted earnings per share, which is a measure of our effectiveness in delivering profitable growth. Diluted earnings per share for the third quarter of 2007 increased to \$0.20 per share from \$0.00 per share for the third quarter of 2006. Improvements to our earnings consist primarily of the following:

As discussed above in Modifications of a Customer Contract, during the third quarter of 2006, we modified a customer contract and recorded \$44 million of expense in direct cost of services, or approximately \$0.22 per diluted share, associated with the impairment of deferred software, development and impairment costs.

A reduction in incentive compensation of \$10 million, or approximately \$0.05 per diluted share. This reduction is attributable to a lower expected amount of associate incentive compensation for 2007 and differences in the quarterly recognition of bonus expense between 2006 and 2007. The reduction in associate incentive compensation for the nine months ended September 30, 2007 in comparison to the nine months ended September 30, 2006, was approximately \$18 million.

During the third quarter of 2006, we recorded expense of \$6 million, or approximately \$0.03 per diluted share, related to actions to strengthen future profitability. The expense is attributable to the consolidation and elimination of facilities and products, the combination of units, and severance expense.

These improvements to our earnings were partially offset by:

Gross profits from our infrastructure outsourcing contract with UBS decreased by \$14 million in the third quarter of 2007 as compared to the third quarter of 2006 as a result of the end of the UBS contract. The loss from this infrastructure outsourcing contract resulted in a decrease in earnings of approximately \$0.07 per diluted share.

Reduced profits within the Government Services line of business primarily as a result of contract scope reductions on existing contracts related to federal government budget pressure and lower margins related to QSS, which was acquired in the first quarter of 2007, because of the cost plus nature of their work.

Reduced profits from existing contracts within Industry Solutions as a result of contracts that ended during the last twelve months, renegotiated contracts, and new contracts that will not reach full levels of profitability until after 2007.

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

***Free Cash Flow***

We calculate free cash flow on a trailing twelve month basis as net cash provided by operating activities less purchases of property, equipment and purchased software, as stated in our condensed consolidated statements of cash flows. We use free cash flow as a measure of our ability to generate cash for both our short-term and long-term operating and business expansion needs. We use a twelve-month period to measure our success in this area because of the significant variations that typically occur on a quarterly basis due to the timing of certain cash payments. Free cash flow for the twelve months ended September 30, 2007, was \$33 million as compared to \$106 million for the twelve months ended September 30, 2006. Free cash flow, which is a non-GAAP measure, can be reconciled to Net cash provided by operating activities as follows (in millions):

	<b>Twelve Months Ended September 30,</b>	
	<b>2007</b>	<b>2006</b>
Net cash provided by operating activities	\$ 137	\$ 177
Purchases of property, equipment and software	(104)	(71)
Free cash flow	\$ 33	\$ 106

***TCV of Contracts Signed***

The amount of Total Contract Value (commonly referred to as TCV) that we sell during a twelve-month period is a measure of our success in capturing new business in the various outsourcing and consulting markets in which we provide services and includes contracts with new customers and contracts for new services with existing customers. We measure TCV as our estimate of the total expected revenue from contracts that are expected to generate revenue in excess of a defined amount during a contract term that exceeds a defined length of time.

Various factors may impact the timing of the signing of contracts with customers, including the complexity of the contract, competitive pressures, and customer demands. As a result, we generally measure our success in this area over a twelve-month period because of the significant variations that typically occur in the amount of TCV signed during each quarterly period. During the twelve-month period ended September 30, 2007, the amount of TCV signed was \$1.7 billion compared to \$2.3 billion for the twelve-month period ended September 30, 2006. The \$2.3 billion of TCV signed for the twelve-month period ending September 30, 2006, includes \$1.2 billion relating to the signing of the contract with Triad Hospitals, Inc. that was terminated in October 2007, as discussed in more detail under

Subsequent Event below.

***Additional Measurements***

Each of our three primary lines of business has distinct economic factors, business trends, and risks that could affect our results of operations. As a result, in addition to the four metrics discussed above that we use to measure our consolidated financial performance, we use similar metrics for each of these lines of business and for certain industry groups and operating units within these lines of business.

**Comparison of the Three Months Ended September 30, 2007 and 2006*****Revenue***

Revenue for the third quarter of 2007 increased from revenue for the third quarter of 2006 due to increases in revenue from the Government Services and Consulting and Applications Solutions segments, partially offset by a decrease in the Industry Solutions segment. Below is a summary of our revenue for the third quarter of 2007 as compared to the third quarter of 2006 (amounts in millions):

	<b>Three Months Ended September 30,</b>	
	<b>2007</b>	<b>2006</b>

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

*Industry Solutions*

The net decrease in revenue from the Industry Solutions segment for third quarter of 2007 as compared to the third quarter of 2006 was primarily due to the \$64 million decrease in revenue from the expiration of our infrastructure outsourcing contract with UBS on January 1, 2007. Partially offsetting this decrease were increases in revenue primarily attributable to:

\$36 million net increase from existing accounts and short-term project work. This net increase resulted from expanding our base services to existing long-term customers and from providing additional discretionary services to these customers. The discretionary services that we provide, which include short-term project work, can vary from period-to-period depending on many factors, including specific customer and industry needs and economic conditions. This increase was primarily related to contracts in the healthcare industry.

\$17 million increase from new contracts signed during the twelve-month period following the third quarter of 2006 and from new contracts signed in the third quarter of 2006 for which we did not recognize a full quarter of revenue in the third quarter of 2006. This increase was composed of \$7 million and \$10 million from new contracts signed in the Healthcare and Commercial Solutions groups, respectively. The services that we are providing to these new customers are primarily the same services that we provide to the majority of our other long-term outsourcing customers.

\$7 million increase from revenue related to an acquisition within our Healthcare group during the third quarter of 2007.

Net increases in revenue from contracts in the healthcare industry are largely related to system investment by our new and existing customers. Because of the complexities associated with system changes, combined with our customers desire to focus on core functions, the healthcare outsourcing market has experienced strong growth in recent years. Although we are still experiencing growth from the healthcare outsourcing market and we expect market demand to be strong over the long-term because of the level of technology-driven change in the industry, the rate of growth has diminished in recent quarters due to longer sales cycles, primarily on large outsourcing contracts, and increased budgetary pressures affecting customers, which typically result in lower discretionary investments.

*Government Services*

The \$74 million, or 101.4%, net increase in revenue from the Government Services segment for the third quarter of 2007 as compared to the third quarter of 2006 was attributable to the \$75 million in revenue from the acquisition of QSS Group, Inc. (QSS), an information technology services company providing services to the U.S. federal government. Our business with the federal government will fluctuate due to annual federal funding limits and the specific needs of the federal agencies we serve.

*Consulting and Applications Solutions*

The \$14 million, or 21.2% increase in revenue from the Consulting and Applications Solutions segment was due to a \$12 million increase in intersegment revenues, primarily attributable to consulting, systems integration, and applications maintenance, and a \$2 million increase in direct-to-market revenues, primarily attributable to an increase in the demand for application development and maintenance services from existing customers in the financial services industry. Intersegment revenue relates to the provision of services by the Consulting and Applications Solutions segment to the other segments.

**Table of Contents**

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

**Gross Margin**

Gross margin, which is calculated as gross profit divided by revenue, for the third quarter of 2007 was 17.3% of revenue, which is higher than the gross margin for the third quarter of 2006 of 11.8%. Improvements to our gross margin consist primarily of the following:

As discussed in *Modification of a Customer Contract*, in the third quarter of 2006, we modified a customer contract and recorded \$44 million of expense in direct cost of services associated with the impairment of deferred software development and implementation costs.

A reduction to employee-related expenses, consisting primarily of incentive compensation.

These improvements to our gross margin were partially offset by:

A \$14 million decrease in gross profit from the expiration of our infrastructure outsourcing contract with UBS that is reported within the Industry Solutions line of business.

A reduced gross profit margin for Government Services primarily attributable to the acquisition of QSS. The gross margins associated with the acquisition are typically lower than those we realize within our consolidated margins because of the cost plus nature of their work. Additionally, lower margins were realized within our Government Services group as a result of contract scope reductions on existing contracts related to federal government budget pressure.

Reduced profits from existing contracts within Industry Solutions as a result of contracts that ended during the last twelve months, renegotiated contracts, and new contracts that will not reach full levels of profitability until after 2007.

***Selling, General and Administrative Expenses***

Selling, general and administrative expenses for the third quarter of 2007 decreased 4.1% to \$71 million from \$74 million for the third quarter of 2006. Third quarter of 2006 included \$5 million of expenses related to profit improvement actions and an asset impairment. The remaining increase results primarily from the acquisition of QSS in the first quarter of 2007 and JJ Wild Holdings, Inc. and JJ Wild, Inc. (collectively, *JJ Wild*) in the third quarter of 2007, partially offset by a decrease in associate incentive compensation. As a percentage of revenue, SG&A for the third quarter of 2007 was 10.8% of revenue, which is lower than SG&A for the third quarter of 2006 of 12.7% of revenue. The decrease in the SG&A as a percentage of revenue was primarily due to the profit improvement actions and asset impairment in 2006 and the decrease in associate incentive compensation in 2007 mentioned above.

***Other Income Statement Items***

Our effective tax rate for the third quarter of 2007 was 39.0% as compared to a tax benefit of 100.0% for the third quarter of 2006. Income tax expense for the third quarter of 2007 included a greater impact from state income taxes, primarily as a result of the Texas margin tax and the acquisition of QSS, which operates in several high-tax states, and a reduced benefit from tax-exempt interest income. Our income tax benefit for the third quarter of 2006 included a benefit of \$1 million, net, relating to the resolution of issues raised in audits by tax authorities. An additional factor impacting the third quarter of 2006 effective tax rate was the significant reduction in pretax income resulting from asset impairments.

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

**Comparison of the Nine Months Ended September 30, 2007 and 2006*****Revenue***

Revenue for the nine months ended September 30, 2007, increased from revenue for the nine months ended September 30, 2006, due to increases in revenue from the Government Services and Consulting and Applications Solutions segments, partially offset by a decrease in revenue from the Industry Solutions segment. Below is a summary of our revenue for the nine months ended September 30, 2007, as compared to the nine months ended September 30, 2006:

	<b>Nine Months Ended September 30,</b>			
	<b>2007</b>	<b>2006</b>	<b>\$ Change</b>	<b>% Change</b>
Industry Solutions	\$ 1,314	\$ 1,325	\$ (11)	(0.8)%
Government Services	406	221	185	83.7%
Consulting and Applications Solutions	226	188	38	20.2%
Elimination of intersegment revenue	(66)	(37)	(29)	78.4%
<b>Total</b>	<b>\$ 1,880</b>	<b>\$ 1,697</b>	<b>\$ 183</b>	<b>10.8%</b>

***Industry Solutions***

The net decrease in revenue from the Industry Solutions segment for the first nine months of 2007 as compared to the first nine months of 2006 was primarily attributable to the \$196 million decrease in revenue from the expiration of our infrastructure outsourcing contract with UBS on January 1, 2007. Partially offsetting this loss were increases in revenue primarily attributable to:

\$129 million net increase from existing accounts and short-term project work. This net increase resulted from expanding our base services to existing long-term customers and from providing additional discretionary services to these customers. The discretionary services that we provide, which include short-term project work, can vary from period-to-period depending on many factors, including specific customer and industry needs and economic conditions. This increase was primarily related to contracts in the healthcare industry.

\$36 million increase from new contracts signed during the twelve-month period following the third quarter of 2006 and from new contracts signed in the third quarter of 2006 for which we did not recognize a full nine months of revenue during the nine months ended September 30, 2006. This increase was composed of \$16 million, \$18 million, and \$2 million from new contracts signed in the Healthcare, Commercial Solutions and Insurance and Business Process Solutions groups, respectively. The services that we are providing to these new customers are primarily the same services that we provide to the majority of our other long-term outsourcing customers.

\$13 million increase from revenue related to an acquisition within our Commercial Solutions group during the first quarter of 2006 for which we did not recognize a full nine months of revenue during the nine months ended September 30, 2006. The acquired company is a provider of product engineering outsourcing services.

\$7 million increase from revenue related to an acquisition within our Healthcare group during the third quarter of 2007.

***Government Services***

The \$185 million, or 83.7%, net increase in revenue from the Government Services segment for the nine months of 2007 as compared to the nine months of 2006 was attributable to the \$186 million in revenue from the acquisition of QSS. Our business with the federal government will fluctuate due to annual federal funding limits and the specific needs of the federal agencies we serve.

***Consulting and Applications Solutions***

The \$38 million, or 20.2%, increase in revenue from the Consulting and Applications Solutions segment was due to a \$29 million increase in intersegment revenues, primarily attributable to consulting, system integration, and application maintenance, and a \$9 million increase in direct-to-market revenues, primarily attributable to an increase in the demand for application development and maintenance services from existing customers in the financial services industry. Intersegment revenue relates to the provision of services by the Consulting and Applications Solutions segment to the other segments.

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

***Gross Margin***

Gross margin, which is calculated as gross profit divided by revenue, for the nine months ended September 30, 2007, was 17.2%, which is higher than the gross margin for the nine months ended September 30, 2006, of 16.3%.

Improvements to our gross margin consist primarily of the following:

As discussed in *Modification of a Customer Contract*, in the third quarter of 2006, we modified a customer contract and recorded \$44 million of expense in direct cost of services associated with the impairment of deferred software development and implementation costs.

A reduction to employee-related expenses, consisting primarily of incentive compensation.

These improvements to our gross margin were partially offset by:

A \$42 million decrease in gross profit from the expiration of our infrastructure outsourcing contract with UBS that was reported within the Industry Solutions line of business.

The acquisition of QSS within our Government Services group in the first quarter of 2007. The gross margins associated with the acquisition are typically lower than those we realize within our consolidated margins because of the cost plus nature of their work. Additionally, lower margins were realized within our Government Services group as a result of contract scope reductions on existing contracts related to federal government budget pressure.

***Selling, General and Administrative Expenses***

Selling, general and administrative expenses for the nine months ended September 30, 2007, increased 1.9% to \$212 million from \$208 million for the nine months ended September 30, 2006. The increase in SG&A expenses is primarily due to the acquisition of QSS in the first quarter of 2007 and JJ Wild in the third quarter of 2007, partially offset by a decrease in associate incentive compensation. The third quarter of 2006 included \$5 million of expenses related to profit improvement actions and an asset impairment which partially offset the net increases during 2007 mentioned above. SG&A for the nine months of 2007 was 11.3% of revenue, which is lower than SG&A for the nine months of 2006 of 12.3% of revenue. The decrease in the SG&A as a percentage of revenue was primarily due to the profit improvement actions and asset impairment in 2006 and the decrease in associate incentive compensation in 2007 mentioned above.

***Other Income Statement Items***

Interest expense for the nine months ended September 30, 2007 increased by \$5 million as compared to the nine months ended September 30, 2006 due primarily to increased long-term debt connected with an acquisition of QSS. Our effective tax rate for the nine months ended September 30, 2007 was 36.0% as compared to 33.8% for the first nine months ended 2006. The increase in the effective tax rate is primarily due to additional taxes from the expiration of one of our tax holidays in India and higher state income taxes as a result of the Texas margin tax and the acquisition of QSS, which operates in several high-tax states, and is partially offset by a \$2 million tax benefit from the reduction of a valuation allowance against our deferred tax assets in Europe. Income tax expense for the first nine months of 2006 included a greater impact from foreign operations and tax-exempt investments.

***Subsequent Event***

In the fourth quarter of 2007, we received notification from Community Health Systems (CHS) that as a result of its merger with Triad Hospitals, Inc. (Triad) and expected integration plans, it intends to end the current services agreements that we signed with Triad in 2006. Although the termination will be effective December 31, 2007, we will provide CHS with termination and transition assistance services. These transition assistance services may extend into 2008. In addition, we will provide project-based services to CHS.

Under the termination for change of control provisions of the agreements, CHS paid to us, in October, a termination fee of \$26 million and will reimburse us for certain shutdown costs. We will recognize termination-related revenue, including previously paid amounts, of approximately \$45 million, with non-personnel-related contract shutdown costs of up to \$5 million. While we expect to recognize

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

all of this revenue and profit in the fourth quarter, if the transition extends into 2008, we may defer part of this revenue and profit into 2008. Prior to this termination, Triad was one of our ten largest clients.

**Liquidity and Capital Resources**

At September 30, 2007, we have cash and cash equivalents of \$175 million. We believe our existing cash and cash equivalents, expected cash flows from operating activities, and the \$68 million that is available under our restated and amended credit facility, will provide us sufficient funds to meet our operating needs for the foreseeable future. During the nine months ended September 30, 2007, cash and cash equivalents decreased 30.0% to \$175 million from \$250 million and short-term investments of \$133 million were liquidated, primarily due to our acquisitions in 2007.

***Operating Activities***

Net cash provided by operating activities was \$35 million for the nine months ended September 30, 2007, as compared to net cash provided by operating activities of \$111 million for the nine months ended September 30, 2006. The primary reasons for the changes in cash provided by operating activities are as follows:

Cash used by changes in accounts payable and accrued liabilities was \$12 million for the nine months ended September 30, 2007, as compared to cash provided of \$16 million for the same period of the prior year. This decrease is primarily due to the timing of vendor payments.

During the nine months ended September 30, 2007, we increased our spending on deferred contract costs by \$19 million as compared to the same period in 2006 due to recent contract signings that had significant transitional activity for which costs are deferred until services are operational.

During the nine months ended September 30, 2007, there was a decrease of \$11 million in net deferred revenue received from clients as compared to the same period in 2006.

During the nine months ended September 30, 2007, we made net cash payments for income taxes of \$44 million as compared to \$39 million in the nine months ended September 30, 2006.

Bonuses paid to associates under our bonus plans during the first nine months of 2007 and 2006 (including payments of annual bonus amounts relating to the previous year's bonus plan) were approximately \$54 million and \$64 million, respectively. Included in these bonus amounts paid in 2007 and 2006 were approximately \$7 million and \$23 million, respectively, of bonus payments that are reimbursable by our customers. The amount of bonuses that we pay each year is based on several factors, including our financial performance and management's discretion.

***Investing Activities***

Net cash used in investing activities was \$271 million for the nine months ended September 30, 2007, as compared to net cash used in investing activities of \$188 million for the same period in 2006. This change was primarily attributable to the following:

During the nine months ended September 30, 2007, we paid \$338 million for acquisitions of businesses, including \$248 million, net of cash acquired, for the acquisition of QSS, \$86 million, net of cash acquired, for the acquisition of JJ Wild, and \$4 million of additional consideration for the acquisition of eServ LLC, a provider of high-end product engineering outsourcing services.

During the nine months ended September 30, 2007, we purchased \$66 million of property, equipment and purchased software as compared to \$55 million during the nine months ended September 30, 2006. This increase was primarily related to our business expansion needs for data center and office facilities.

During the nine months ended September 30, 2007, we liquidated short-term investments of \$133 million, net, primarily due to our acquisition of QSS.

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

During the nine months ended September 30, 2006, we paid \$29 million for acquisitions of businesses, including \$21 million for the acquisition of eServ and \$8 million of additional consideration for the acquisition of Technical Management, Inc., a provider of policy administration and business process services to the life insurance and annuity industry.

***Financing Activities***

Net cash provided by financing activities was \$154 million for the nine months ended September 30, 2007, as compared to net cash provided by financing activities of \$13 million for the nine months ended September 30, 2006. This increase is primarily due to the additional \$130 million borrowed against our restated and amended credit facility in connection with our acquisitions of QSS and JJ Wild in 2007 and the \$18 million paid to repurchase shares of our Class A Common Stock in 2006. Partially offsetting these increases in net cash provided by financing activities was a decrease of \$7 million in cash received upon exercise of employee stock options.

We routinely maintain cash balances in certain European and Asian currencies to fund operations in those regions. During the nine months ended September 30, 2007, foreign exchange rate fluctuations had a net positive impact on our non-domestic cash balances by \$7 million, as the U.S. dollar weakened against the Indian Rupee, Euro, British Pound, and other currencies. We manage foreign exchange exposures that are likely to significantly impact net income or working capital. At September 30, 2007, we had numerous derivatives to purchase and sell various currencies in the amount of \$186 million, which expire at various times before the end of 2010.

***Profit Improvement Actions***

We are implementing changes in the fourth quarter of 2007 that will increase profit margins and profitability entering 2008 and improve overall business operations through a greater focusing of resources, a reconfiguration of functions, and a strengthening of our overall workforce.

These actions will include the termination of employment of approximately 650 associates. The cost to implement these actions of approximately \$20 million will be incurred in the fourth quarter of 2007. Approximately 425 reductions will be beneficial to future earnings, producing an annual earnings benefit of approximately \$45 million. Approximately one-half of these savings will increase earnings and the remainder will be reinvested in our operations.

***Contractual Obligations***

We have contractual obligations for operating leases, long-term debt, and interest on long-term debt that were summarized in a table of Contractual Obligations in our Annual Report on Form 10-K for the year ended December 31, 2006. Since December 31, 2006, there have been no material changes to the contractual obligations of the company, outside of the ordinary course of business, except for our liability for unrecognized tax benefits. As discussed in Note 10, *Income Taxes* of the Notes to the Condensed Consolidated Financial Statements, we adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of FASB Statement No. 109 as of January 1, 2007. At September 30, 2007, we had gross reserves for uncertain tax positions totaling \$16 million, all of which is expected to be paid after one year. We are unable to make a reasonably reliable estimate as to when a cash settlement with a taxing authority will occur.

***Critical Accounting Policies***

***Derivative Financial Instruments***

As part of our risk management strategy, we enter into derivative contracts to mitigate certain financial risks related to foreign currencies and interest rates. We have a risk management policy outlining the conditions under which we can enter into financial derivative transactions. To date, our use of derivative financial instruments has been limited to interest rate swaps, which hedges our exposure to floating rates on certain portions of our debt, and forward contracts and zero cost collars that hedge our foreign currency exposure, primarily in the Indian Rupee.

In the third quarter of 2007, we began designating certain derivative instruments as cash flow hedges in accordance with the Statement of Financial Accounting Standards (FAS) No. 133, *Accounting for Derivative Instruments and Hedging Activities*, which establishes accounting and reporting standards for derivative instruments and for hedging activities. FAS 133 provides for matching

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

the gains and losses associated with the change in fair value of the hedged assets or liabilities with the period in which the derivative instruments matures.

Our policy requires us to document all relationships between hedging instruments and hedged items, as well as our risk management objective and strategy for entering into economic hedges. We also assess, at the inception of the hedge and on an ongoing basis, whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the cash flows of hedged items and whether those derivatives may be expected to remain highly effective in future periods. Our inability to demonstrate effectiveness would cause the hedge to be ineffective. Changes in fair value of a derivative that is highly effective, documented, designated, and qualified as a cash flow hedge, to the extent the hedge is highly effective, are recorded in other comprehensive income until earnings are impacted by the variability of the hedged transaction. Any hedge ineffectiveness, which represents the amount by which the changes in the fair value of the derivative do not offset the change in the cash flow of the forecasted transaction, is recorded in earnings.

We will discontinue hedge accounting prospectively when (1) we determine that the derivative is no longer effective in offsetting changes in the fair value or cash flows of the underlying exposure being hedged; (2) the derivative matures, or is sold, terminated or exercised; or (3) we determine that designating the derivative as a hedge is no longer appropriate. When hedge accounting is discontinued and the derivative remains outstanding, we carry the derivative at its estimated fair value on the balance sheet and recognize changes in the fair value in current period earnings. If a cash flow hedge becomes ineffective, any deferred gains or losses on the cash flow hedge would be reversed out of accumulated other comprehensive income (loss) and recognized immediately in other income, net on the condensed consolidated income statements.

For financial derivatives that do not qualify for hedge accounting or for which we have not elected to apply hedge accounting, the changes in fair values are recognized in other income, net.

**Significant Accounting Standards to be Adopted**

*FASB Statement No. 157*

In September 2006, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standard (FAS) No. 157, Fair Value Measurements, which provides guidance for using fair value to measure assets and liabilities. FAS 157 will apply whenever another standard requires or permits assets or liabilities to be measured at fair value. The standard does not expand the use of fair value to any new circumstances. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. Our adoption of FAS 157 is not expected to have a material impact on our consolidated financial statements.

*FASB Statement No. 159*

In February 2007, the FASB issued FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115, which expands the use of fair value accounting but does not affect existing standards which require assets and liabilities to be carried at fair value. Under FAS 159, a company may elect to use fair value to measure accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees, issued debt and other eligible financial instruments. FAS 159 is effective for years beginning after November 15, 2007. Our potential adoption of FAS 159 is not expected to have a material impact on our consolidated financial statements.

**Table of Contents**

PEROT SYSTEMS CORPORATION AND SUBSIDIARIES  
FORM 10-Q

For the Quarter Ended September 30, 2007

**ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

For a discussion of our market risk associated with foreign currencies as of December 31, 2006, see "Quantitative and Qualitative Disclosures about Market Risk" in Part II, Item 7A, "Management's Discussion and Analysis of Financial Condition and Results of Operations," of our Annual Report on Form 10-K for the fiscal year then ended.

Using sensitivity analysis, a hypothetical increase of 10% in the interest rate related to our borrowing of \$77 million under our credit facility would increase our net expense by approximately \$400,000 for the year ended December 31, 2007.

**ITEM 4: CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, an evaluation was carried out by our management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective.

There were no changes in internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting.

**PART II: OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

We are, from time to time, involved in various litigation matters. We do not believe that the outcome of the litigation matters in which we are currently a party, either individually or taken as a whole, will have a material adverse effect on our consolidated financial condition, results of operations or cash flows. However, we cannot predict with certainty any eventual loss or range of possible loss related to such matters.

We currently purchase and intend to continue to purchase the types and amounts of insurance coverage customary for the industry and geographies in which we operate. We have evaluated our risk and consider the coverage we carry to be adequate both in type and amount for the business we conduct.

**IPO Allocation Securities Litigation**

In July and August 2001, we, as well as some of our current and former officers and directors and the investment banks that underwrote our initial public offering, were named as defendants in two purported class action lawsuits seeking unspecified damages for alleged violations of the Securities Exchange Act of 1934 and the Securities Act of 1933. These cases focus on alleged improper practices of investment banks. Our case has been consolidated for pretrial purposes with approximately 300 similar cases in the IPO Allocation Securities Litigation. We had accepted a settlement proposal presented to all issuer defendants under which plaintiffs would dismiss and release all claims against all issuer defendants, in exchange for an assurance by the insurance companies collectively responsible for insuring the issuers in all of the IPO cases that the plaintiffs will achieve a minimum recovery of \$1 billion (including amounts recovered from the underwriters).

In December 2006, the Second Circuit Court of Appeals vacated the class certifications in the IPO class action test cases, finding the predominance of common questions over individual questions that is required for class certification cannot be met by those plaintiffs. The Second Circuit has denied plaintiffs' petition for rehearing. The plaintiffs are seeking certification of a narrower class at the trial court level. At the request of the issuer defendants, the trial court has terminated the settlement approval process.

**Other**

In addition to the matters described above, we have been, and from time to time are, named as a defendant in various legal proceedings in the normal course of business, including arbitrations, class actions and other litigation involving commercial and employment disputes. Certain of these proceedings include claims for substantial compensatory or punitive damages or claims for indeterminate amounts of damages. We are contesting liability and/or the amount of damages, in each pending matter.
