**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

*This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, that involve risks and uncertainties. All statements other than statements of historical information provided herein are forward-looking statements and may contain information about financial results, economic conditions, trends and known uncertainties. Our actual results could differ materially from those discussed in the forward-looking statements as a result of a number of factors, which include those discussed in this section and elsewhere in this report and the risks discussed in our other filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis, judgment, belief or expectation only as of the date hereof. Investors are warned that actual results may differ materially from management's expectations. We undertake no obligation to publicly reissue or update these forward-looking statements to reflect events or circumstances that arise after the date hereof.*

**Item 1. Business**

**Our Business**

NaviSite, Inc. provides Application Management, Hosting and Professional services for mid- to large-sized organizations. Leveraging our set of technologies and subject matter expertise, we deliver cost-effective, flexible solutions that provide responsive and predictable levels of service for our customers' businesses. We provide services throughout the information technology lifecycle. We are dedicated to delivering quality services and meeting rigorous standards, including SAS 70, Microsoft Gold, and Oracle Certified Partner certifications.

We believe that by leveraging economies of scale utilizing our global delivery approach, industry best practices and process automation, our services enable our customers to achieve significant cost savings. In addition, we are able to leverage our application services platform, NaviView<sup>tm</sup>, to enable software to be delivered on-demand over the Internet, providing an alternative delivery model to the traditional licensed software model. As the platform provider for an increasing number of independent software vendors (ISVs), we enable solutions and services to a wider and growing customer base.

Our services include:

***Application Management***

**Application management services** Defined services provided for specific packaged applications that are incremental to managed services. Services can include monitoring, diagnostics and problem resolution. Frequently sold as a follow-on to a professional services project.

**Software as a Service** Enablement of Software as a Service to the ISV community.

**Development Services** Services include eBusiness/Web solutions, enterprise integration, business intelligence, content management and user interface design.

**Custom Services** Services include custom application management and remote infrastructure management.

***Hosting Services***

Managed services Support provided for hardware and software located in a data center. Services include business continuity and disaster recovery, connectivity, content distribution, database administration and performance tuning, desktop support, hardware management, monitoring, network management, security management, server and operating system management and storage management.

**Table of Contents**

**Content Delivery** Includes the delivery of software electronically using NaviSite technology to manage version control and accelerated content distribution.

**Colocation** Physical space offered in a data center. In addition to providing the physical space, NaviSite offers environmental support, specified power with back-up power generation and network connectivity options.

***Professional Services***

For leading enterprise software applications such as Oracle, PeopleSoft, JD Edwards and Siebel Systems, NaviSite Professional Services helps organizations plan, implement and maintain these applications.

Optimize scalable, business-driven software solutions. Specific services include planning, implementation, maintenance, optimization and compliance services.

We provide these services to a range of vertical industries, including financial services, healthcare and pharmaceutical, manufacturing and distribution, publishing, media and communications, business services, public sector and software, through our direct sales force and sales channel relationships.

Our managed application services are facilitated by our proprietary NaviView™ collaborative application management platform. Our NaviView™ platform enables us to provide highly efficient, effective and customized management of enterprise applications and information technology. Comprised of a suite of third-party and proprietary products, NaviView™ provides tools designed specifically to meet the needs of customers who outsource their IT needs. We also use this platform for electronic software distribution for software vendors and to enable software to be delivered on-demand over the Internet, providing an alternative delivery model to the traditional licensed software model.

We believe that the combination of NaviView™ with our physical infrastructure and technical staff gives us a unique ability to provision on-demand application services for software providers for use by their customers. NaviView™ is application and operating platform neutral as its on-demand provisioning capability is not dependent on the individual software application. Designed to enable enterprise software applications to be provisioned and used as an on-demand solution, the NaviView™ technology allows us to offer new solutions to our software vendors and new products to our current customers.

We currently operate in 13 data centers in the United States and one data center in the United Kingdom. We believe that our data centers and infrastructure have the capacity necessary to expand our business for the foreseeable future. Our services combine our developed infrastructure with established processes and procedures for delivering hosting and application management services. Our high availability infrastructure, high performance monitoring systems, and proactive and collaborative problem resolution and change management processes are designed to identify and address potentially crippling problems before they are able to disrupt our customers' operations.

We currently service approximately 940 hosted customers. Our hosted customers typically enter into service agreements for a term of one to three years, which provide for monthly payment installments, providing us with a base of recurring revenue. Our revenue increases by adding new customers or providing additional services to existing customers. Our overall base of recurring revenue is affected by new customers, renewals and terminations of agreements with existing customers.

We were formed in 1996 within CMGI, Inc., our former majority stockholder, to support the networks and host Web sites of CMGI, its subsidiaries and several of its affiliated companies. In 1997, we began offering and supplying Web site hosting and management services to companies not affiliated with CMGI. We were incorporated in Delaware in

December 1998. In October 1999, we completed our initial public offering of common stock and remained a majority-owned subsidiary of CMGI until September 2002, at which time ClearBlue Technologies, Inc., or CBT, became our majority stockholder.

In December 2002, we acquired all of the issued and outstanding stock of ClearBlue Technologies Management, Inc., or CBTM, a subsidiary of CBT, which previously had acquired assets from the bankrupt estate of AppliedTheory Corporation related to application management and application hosting services.

## **Table of Contents**

This acquisition added application management and development capabilities to our managed application services.

In February 2003, we acquired Avasta, Inc., a provider of application management services, adding automated application and device monitoring software capabilities to our managed application services.

In April 2003, we acquired Conxion Corporation, a provider of application hosting, content and electronic software distribution and security services. This acquisition added proprietary content delivery software and related network agreements to our managed application services and managed infrastructure services.

In May 2003, we acquired assets of Interliant, Inc. related to managed messaging, application hosting and application development services. This acquisition added messaging-specific services and capabilities and IBM Lotus Domino expertise, and formed the core of our managed messaging services.

In August 2003, we acquired assets of CBT related to colocation, bandwidth, security and disaster recovery services, enhancing our managed infrastructure services and adding physical plant assets. Specifically, we acquired all of the outstanding shares of six wholly-owned subsidiaries of CBT with data centers located in Chicago, Illinois; Las Vegas, Nevada; Los Angeles, California; Milwaukee, Wisconsin; Oakbrook, Illinois; and Vienna, Virginia and assumed the revenue and expenses of four additional wholly-owned subsidiaries of CBT with data centers located in Dallas, Texas; New York, New York; San Francisco, California; and Santa Clara, California, which four entities we later acquired.

In June 2004, we completed the acquisition of substantially all of the assets and liabilities of Surebridge, Inc., a privately held provider of managed application services for mid-market companies. This acquisition broadened our managed application services, particularly in the areas of financial management, supply chain management, human resources management and customer relationship management.

We have made significant steps to improve the results of our operations. Due to improvements we have made in our overall business, the repayment of our maturing debt and our successful financing with Silver Point Finance and the availability to us of committed lines of credit, our audit report no longer contains the opinion of our independent registered public accounting firm, KPMG LLP, that our recurring losses as well as other factors raise substantial doubt about our ability to continue as a going concern.

## **Our Industry**

The dramatic growth in Internet usage and the enhanced functionality, accessibility and security of Internet-enabled applications have made conducting business on the Internet increasingly attractive. Many businesses are using Internet-enabled information technology infrastructure and applications to enhance their core business operations, increase efficiencies and remain competitive. Internet-enabled information technology infrastructure and applications extend beyond Web sites to software such as financial, email, enterprise resource planning, supply chain management and customer relationship management applications. Organizations have become increasingly dependent on these applications and they have evolved into important components of their businesses. In addition, we believe that the pervasiveness of the Internet and quality of network infrastructure, along with the dramatic decline in the pricing of computing technology and network bandwidth, have made the software as a service model a viable one. We believe that the recent adoption of alternative software licensing models by software industry market leaders is driving other software vendors in this direction and, consequently, generating strong industry growth.

As enterprises seek to remain competitive and improve profitability, we believe they will continue to implement increasingly sophisticated Internet-enabled applications and delivery models. Some of the potential benefits of these

applications and delivery models include the ability to:

increase operating efficiencies and reduce costs;

build and enhance customer relationships by providing Internet-enabled customer service and technical support;

manage vendor and supplier relationships through Internet-enabled technologies, such as online training and online sales and marketing;

**Table of Contents**

communicate and conduct business more rapidly and cost-effectively with customers, suppliers and employees worldwide; and

improve service and lower the cost of software ownership by the adoption of new Internet-enabled software delivery models.

These benefits have driven increased use of Internet-enabled information technology infrastructure and applications, which in turn has created a strong demand for specialized information technology support and applications expertise. An increasing number of businesses are choosing to outsource the hosting and management of these applications.

The trend towards outsourced hosting and management of information technology infrastructure and applications by mid-market companies and organizations is driven by a number of factors, including:

developments by major hardware and software vendors that facilitate outsourcing;

the need to improve the reliability, availability and overall performance of Internet-enabled applications as they increase in importance and complexity;

the need to focus on core business operations;

challenges and costs of hiring, training and retaining application engineers and information technology employees with the requisite range of information technology expertise; and

the increasing complexity of managing the operations of Internet-enabled applications.

Notwithstanding increasing demand for these services, we believe the number of providers has decreased over the past three years, primarily as a result of industry consolidation. We believe this consolidation trend will continue and will benefit a small number of service providers that have the resources and infrastructure to cost effectively provide the scalability, performance, reliability and business continuity that customers expect.

**Our Strategy**

Our goal is to become the leading provider of outsourced IT services for mid-market companies and organizations. Key elements of our strategy are to:

*Provide Excellent Customer Service.* We are committed to providing all of our customers with a high level of customer support. We believe that through the acquisition of several businesses we have had the benefit of consolidating best of breed account management and customer support practices to ensure that we are achieving this goal.

*Expand Our Global Delivery Capabilities.* We believe that global delivery is an integral piece of our long-term strategy in that it directly maps to our overall goal of service and operational excellence for our customers. By leveraging a global delivery solution, we believe that we will be able to continue to deliver superior services and technical expertise at a competitive cost and enhance the value proposition for our customers.

*Improve Operating Margins Through Efficiencies.* We have made significant improvements to our overall cost structure during the last twelve months. We intend to continue to improve operating margins as we grow revenue and improve the efficiency of our operations. As we grow, we will take advantage of our infrastructure capacity, our

NaviView™ platform and our automated processes. Due to the fixed cost nature of our infrastructure, increased customer revenue results in incremental improvements in our operating margins.

*Grow Through Disciplined Acquisitions.* We intend to derive a portion of our future growth through acquisitions of technologies, products and companies that improve our services and strengthen our position in our target markets. By utilizing our experience in acquiring and effectively integrating complementary companies, we can eliminate duplicative operations, reduce costs and improve our operating margins. We intend to acquire companies that provide valuable technical capabilities and entry into target markets, and allow us to take advantage of our existing technical and physical infrastructure.

## **Table of Contents**

*Continue to Broaden Our Service Offerings.* We intend to broaden our service offering to compete more effectively with the larger IT outsourcers. We believe that by growing our professional services, we will more effectively deliver to our customers a full range of services for Oracle, PeopleSoft, J.D. Edwards and Siebel Systems solutions. We believe that these services will help our customers achieve peak effectiveness with their systems. We believe that our ability to host applications in addition to providing professional services will distinguish us from our competitors, as companies look to use one vendor for both of these services.

### **Our Services**

We offer our customers a broad range of managed IT services that can be deployed quickly and cost effectively. Our management expertise allows us to meet an expanding set of needs as our customers' applications become more complex. Our experience and capabilities save our customers the time and cost of developing expertise in-house, and we increasingly serve as the sole manager of our customers' outsourced applications.

#### ***Application Management Services***

##### Application Management

We provide implementation and operational services for packaged applications, including PeopleSoft Enterprise, JDE Enterprise One, Oracle E-Business Suite and Siebel CRM. Application management services are available in one of our data centers or via remote management on a customer's premises. Our messaging services include the monitoring and management of messaging applications, such as Microsoft Exchange and Lotus Domino, allowing customers to outsource their critical messaging applications. Customers can host their applications in one of our data centers or keep their servers in their own facility, which we monitor and manage remotely. In addition, our customers can choose to use dedicated servers or shared servers. We provide expert services to assist our customers with the migration from legacy or proprietary messaging systems to Microsoft Exchange or Lotus Domino. We also have expertise to customize messaging and collaborative applications. We offer user provisioning, spam filtering, virus protection and enhanced monitoring and reporting.

##### Software-as-a-Service

Using our NaviView™ collaborative application management platform, we enable software vendors to provide their applications in an on-demand or subscription model.

Custom Services helps organizations plan, develop, and manage their complete portfolio of custom and web-based applications.

***Hosting Services***

NaviSite Hosting Services, from application and managed services to colocation and software-as-a-service, provide highly-available and secure ongoing technology solutions for our customers' critical IT resources.

**Table of Contents**

Managed Services

We provide fully managed application hosting services. We manage data centers, Internet connectivity, servers and networking, security (including firewalls, virtual private networks and intrusion detection), storage, load balancers, database clusters, operating systems, and Web and application servers. We also provide bundled offerings packaged as content delivery services. Specific services include:

Business Continuity and Disaster Recovery

Connectivity

Content Distribution

Database Administration and Performance Tuning

Desktop Support

Hardware Management

Monitoring

Network Management

Security

Server and Operating Management

Storage Management

Content Delivery Acceleration

Colocation

Our data centers provide our colocation customers with a secure place to gain rapid access to the Internet, without having to build their own physical infrastructure. Our data centers include multiple levels of security with camera surveillance, redundant uninterruptible power supply, heating, ventilation and air conditioning, monitored customer access 24 hours a day, seven days a week, and advanced fire suppression. Specific services include:

Connectivity

Equipment

Power

Remote Hands

Space

Security

All of our service offerings can be customized to meet our customers' particular needs. Our proprietary NaviView<sup>®</sup> platform enables us to offer valuable flexibility without the significant costs associated with traditional customization.

*NaviView<sup>™</sup> Platform*

Our proprietary NaviView<sup>™</sup> platform is a critical element of each of our service offerings. Our NaviView<sup>™</sup> platform allows us to work with our customers' information technology teams, systems integrators and other third parties to provide our services to customers. Our NaviView<sup>™</sup> platform and its user interface help ensure full transparency to the customer and seamless operation of outsourced applications and infrastructure, including: (i) hardware, operating system, database and application monitoring; (ii) event management; (iii) problem resolution management; and (iv) integrated change and configuration management tools. Our NaviView<sup>™</sup> platform includes:

*Event Detection System* Our proprietary technology allows our operations personnel to efficiently process alerts across heterogeneous computing environments. This system collects and aggregates data from all of the relevant systems management software packages utilized by an information technology organization.

*Synthetic Transaction Monitoring* Our proprietary synthetic transaction methods emulate the end-user experience and monitor for application latency or malfunctions that affect user productivity.

*Automated Remediation* Our NaviView<sup>®</sup> platform allows us to proactively monitor, identify and fix common problems associated with the applications we manage on behalf of our customers. These automated fixes help ensure availability and reliability by remediating known issues in real time, and keeping applications up and running while underlying problems or potential problems are diagnosed.

*Component Information Manager* This central repository provides a unified view of disparate network, database, application and hardware information.

*Escalation Manager* This workflow automation technology allows us to streamline routine tasks and escalate critical issues in a fraction of the time that manual procedures require. Escalation manager initiates specific orders and tasks based on pre-defined conditions, ensuring clear, consistent communications with our customers.

**Our Infrastructure**

Our infrastructure has been designed specifically to meet the demanding technical requirements of providing our services to our customers. We securely provide our services across Windows, Unix and Linux platforms. We believe our infrastructure, together with our trained and experienced staff, enable us to offer market-leading levels of service

backed by high service level guarantees.

*Network Operations Centers* We monitor the operations of our infrastructure and customer applications from our own state-of-the-art network operations centers. Network and system management and monitoring tools continuously monitor our network and server performance. Our network operations center performs first-level problem identification, validation and resolution. We have redundant network operations centers in New Delhi, India and in Andover, Massachusetts that are staffed 24 hours a day, seven days a week with network, security, Windows, Unix and Linux personnel. We have technical support personnel located in our facilities in San Jose, California; Syracuse, New York; Houston, Texas and India, who provide initial and escalated support, 24 hours a

## **Table of Contents**

day, seven days a week for our customers. Our engineers and support personnel are promptly alerted to problems, and we have established procedures for rapidly resolving any technical issues that arise.

*Data Centers* We currently operate in 13 data centers located in the United States and one data center located in the United Kingdom. Our data centers incorporate technically sophisticated components which are designed to be fault-tolerant. The components used in our data centers include redundant core routers, redundant core switching hubs and secure virtual local area networks. We utilize the equipment and tools necessary for our data center operations, including our infrastructure hardware, networking and software products, from industry leaders such as BMC, Cisco, Dell, EMC, Hewlett-Packard, Microsoft, Oracle and Sun Microsystems.

*Internet Connectivity* We have redundant high-capacity Internet connections to providers such as Global Crossing, Level 3, Cogent, AT&T and XO Communications. We have deployed direct private transit and peering Internet connections to utilize the provider's peering capabilities and to enhance routes via their networks to improve global performance. Our private transit system enables us to provide fast, reliable access for our customers' information technology infrastructure and applications.

## **Sales and Marketing**

*Direct Sales* Our direct sales professionals are located in the United States and the United Kingdom. Our sales teams meet with customers to understand and identify their individual business requirements, then to translate those requirements into tailored services. Our sales teams are also supported by customer relationship managers who are assigned to specific accounts to identify and take advantage of cross-selling opportunities. To date, most of our sales have been realized through our direct sales force.

*Channel Relationships* We also sell our services through third parties, pursuant to reseller or referral contracts with such third parties. These contracts are generally one to three years in length and provide the reseller a discount of approximately 25% from our list price or require us to pay a referral fee, typically ranging from approximately 4% to 10% of the amounts we receive from the customer. Typically, these third parties resell our services to their customers under their private label brand or under the NaviSite brand. In addition, we jointly market and sell our services with the products of Progress Software. For systems integrators, our flexibility and cost-effectiveness bolsters their application development and management services. For independent software vendors, we provide the opportunity to offer their software as a managed service.

*Marketing* Our marketing organization is responsible for defining our overall market strategy, generating qualified leads and increasing our brand awareness. Our demand generation team focuses on identifying key market opportunities and customer segments which will best match our service portfolio and creates marketing programs which target those segments. Our marketing programs include a variety of advertising, events, direct mail and email campaigns, partner marketing, and web-based seminar campaigns targeted at key executives and decision makers within organizations. We are actively building general awareness of our company and our strategy through public relations, marketing communications and product marketing. The marketing organization also supports direct and channel sales.

## **Customers**

Our customers include mid-sized companies, divisions of large multi-national companies and government agencies. Our customers operate in a wide variety of industries, such as technology, manufacturing and distribution, healthcare and pharmaceutical, publishing, media and communications, financial services, retail, business services and government agencies.

As of July 31, 2006, NaviSite serviced approximately 940 hosted customers.

We derived approximately 9%, 8% and 12% of our revenue from the New York State Department of Labor for the fiscal years ended July 31, 2006, 2005 and 2004, respectively.

Other than the New York State Department of Labor, no customer represented 10% or more of our revenue for the fiscal years ended July 31, 2006, 2005 and 2004. Substantially all of our revenues are derived from, and substantially all of our plants, property and equipment are located in, the United States.

## **Table of Contents**

### **Competition**

We compete in the outsourced IT and professional services markets. These markets are fragmented, highly competitive and likely to be characterized by industry consolidation.

We believe that participants in these markets must grow rapidly and achieve a significant presence to compete effectively. We believe that the primary competitive factors determining success in our markets include:

quality of services delivered;

ability to consistently measure, track and report operational metrics;

application hosting, infrastructure and messaging management expertise;

fast, redundant and reliable Internet connectivity;

a robust infrastructure providing availability, speed, scalability and security;

comprehensive and diverse service offerings and timely addition of value-add services;

brand recognition;

strategic relationships;

competitive pricing; and

adequate capital to permit continued investment in infrastructure, customer service and support, and sales and marketing.

We believe that we compete effectively based on our breadth of service offerings, the strength of our NaviView™ platform, our existing infrastructure capacity and our pricing.

Our current and prospective competitors include:

hosting and related services providers, including Data Return, LLC, Globix Corp., SAVVIS (which acquired the Cable & Wireless business including the Exodus and Digital Island businesses), IBM, AT&T and local and regional hosting providers;

application services providers, such as IBM, Infocrossing, Inc., Electronic Data Systems Corp. and Computer Sciences Corporation;

content and electronic software distribution providers, such as Akamai, Inc., Limelight Networks Inc., Digital River, Inc. and Intraware, Inc.;

colocation providers, including SAVVIS, Equinix and Switch & Data Facilities Company, Inc.;

messaging providers, including Mi8, Critical Path, Inc., Internoded, Inc. and USA.net, Inc., and

professional services providers, including Oracle Consulting Services, Accenture, Ciber, CSC, CedarCrestone, Deloitte Consulting, IBM and Rapidigm.

### **Intellectual Property**

We rely on a combination of trademark, service mark, copyright, patent and trade secret laws and contractual restrictions to establish and protect our proprietary rights and promote our reputation and the growth of our business. While it is our practice to require our employees, consultants and independent contractors to enter into agreements containing non-disclosure, non-competition (for employees only) and non-solicitation restrictions and covenants, and while our agreements with some of our customers and suppliers include provisions prohibiting or restricting the disclosure of proprietary information, we cannot assure you that these contractual arrangements or the other steps taken by us to protect our proprietary rights will prove sufficient to prevent misappropriation of our proprietary rights or to deter independent, third-party development of similar proprietary assets. In addition, we offer our services in other countries where the laws may not afford adequate protection for our proprietary rights.

## **Table of Contents**

We license or lease most technologies used in our hosting and application management services. Our technology suppliers may become subject to third-party infringement claims, or other claims or assertions, which could result in their inability or unwillingness to continue to license their technology to us. The loss of certain of our technologies could impair our ability to provide services to our customers or require us to obtain substitute technologies that may be of lower quality or performance standards or at greater cost. We expect that we and our customers increasingly will be subject to third-party infringement claims as the number of Web sites and third-party service providers for Internet-based businesses grows. We cannot assure you that third parties will not assert claims alleging the infringement of service marks and trademarks against us in the future or that these claims will not be successful. Any infringement claim as to our technologies or services, regardless of its merit, could be time-consuming, result in costly litigation, cause delays in service, installation or upgrades, adversely impact our relationships with suppliers or customers or require us to enter into costly royalty or licensing agreements.

## **Government Regulation**

While there currently are few laws or regulations directly applicable to the Internet or to managed application hosting service providers, due to the increasing popularity of the Internet and Internet-based applications, such laws and regulations are being considered and may be adopted. These laws may cover a variety of issues including, for example, user privacy and the pricing, characteristics and quality of products and services. The adoption or modification of laws or regulations relating to commerce over the Internet could substantially impair the future growth of our business or expose us to unanticipated liabilities. Moreover, the applicability of existing laws to the Internet and managed application hosting service providers is uncertain. These existing laws could expose us to substantial liability if they are found to be applicable to our business. For example, we offer services over the Internet in many states in the United States and internationally and we facilitate the activities of our customers in those jurisdictions. As a result, we may be required to qualify to do business, be subject to taxation or be subject to other laws and regulations in these jurisdictions, even if we do not have a physical presence or employees or property there. The application of existing laws and regulations to the Internet or our business, or the adoption of any new legislation or regulations applicable to the Internet or our business, could materially adversely affect our financial condition and operating results.

## **Employees**

As of July 31, 2006, we had 564 employees. Of these employees, 426 were principally engaged in operations, 50 were principally engaged in sales and marketing and 88 were principally engaged in general and administration. None of our employees is party to a collective bargaining agreement, and we believe our relationship with our employees is good. We also retain consultants and independent contractors on a regular basis to assist in the completion of projects.

## **Available Information**

We make our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports available through our Web site under [Investors](#), free of charge, as soon as reasonably practicable after we file such material with, or furnish it to, the Securities and Exchange Commission. Our Internet address is <http://www.navisite.com>. The contents of our Web site are not incorporated by reference in this annual report on Form 10-K or any other report filed with or furnished to the SEC.

## **Item 1A. Risk Factors**

We operate in a rapidly changing environment that involves a number of risks, some of which are beyond our control. Forward-looking statements in this report and those made from time to time by us through our senior management are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements concerning the expected future revenues, earnings or financial results or concerning project plans,

performance, or development of products and services, as well as other estimates related to future operations are necessarily only estimates of future results and we cannot assure you that actual results will not materially differ from expectations. Forward-looking statements represent management's current expectations and are inherently uncertain. We do not undertake any obligation to update forward-looking

**Table of Contents**

statements. If any of the following risks actually occurs, our business, financial condition and operating results could be materially adversely affected.

***We have a history of losses and may never achieve or sustain profitability.*** We have never been profitable and may never become profitable. As of July 31, 2006, we had incurred losses since our incorporation resulting in an accumulated deficit of approximately \$469.9 million. During the fiscal year ended July 31, 2006, we had a net loss of approximately \$13.9 million. We anticipate that we will continue to incur net losses in the future. As a result, we can give no assurance that we will achieve profitability or be capable of sustaining profitable operations.

***Our financing agreement with Silver Point Finance includes various covenants and restrictions that may negatively affect our liquidity and our ability to operate and manage our business.*** As of July 31, 2006, we owed Silver Point Finance approximately \$70.7 million under our financing agreement. The financing agreement:

restricts our ability to create or incur additional indebtedness;

restricts our ability to create, incur, assume or permit to exist any lien or security interest in any of our assets, excluding certain limited exemptions;

restricts our ability to make investments including joint ventures, with certain limited exemptions;

requires that we meet financial covenants for fixed charges, leverage, adjusted EBITDA, capital expenditures and minimum bookings;

restricts our ability to enter into any transaction of merger, consolidation or liquidation;

restricts our ability to enter into any transaction with any holder of more than 5% of any class of capital stock except in the ordinary course of business; and

restricts our ability to amend our organizational documents.

If we breach our senior secured term loan facility with Silver Point Finance, a default could result. A default, if not waived, could result in, among other things, us not being able to borrow additional amounts from Silver Point Finance. In addition, all or a portion of our outstanding amounts may become due and payable on an accelerated basis, which would adversely affect our liquidity and our ability to manage our business. The principal amounts of our senior secured term loan facility with Silver Point Finance are to be repaid in consecutive quarterly installments of increasing amounts beginning on April 30, 2007, while interest-only payments made in consecutive quarterly installments began in July 2006. All remaining amounts due and outstanding under the financing agreement are due to be repaid in full by April 11, 2011. In addition, our senior secured term loan facility with Silver Point Finance exposes us to interest rate fluctuations which could significantly increase the interest we pay Silver Point Finance. We are required, under our senior secured term loan facility with Silver Point Finance, to purchase interest rate protection which shall effectively limit the unadjusted LIBOR component of the interest costs of our loan with respect to not less than 70% of the principal amount at a rate of not more than 6.5% per annum. Had our senior secured term loan facility with Silver Point Finance been outstanding for the full fiscal year, a hypothetical 100 basis point increase in our LIBOR rate would have resulted in an approximate \$0.7 million increase in our interest expense for the fiscal year ended July 31, 2006.

***A significant portion of our revenue comes from one customer and, if we lost this customer, it would have a significant adverse impact on our business results and cash flows.*** The New York State Department of Labor represented approximately 9%, 8% and 12% of our consolidated revenue for the fiscal years ended July 31, 2006,

2005 and 2004, respectively. The New York State Department of Labor has multiple contracts with us and has been a long-term customer of ours, but we cannot assure you that we will be able to retain all of the contracts with this customer. We also cannot assure you that we will be able to maintain the same level of service to this customer or that our revenue from this customer will not significantly decline in future periods. On August 16, 2005, we entered into a new agreement with the New York State Department of Labor with a two year term which is set to expire on June 14, 2007. The New York State Department of Labor is not obligated under our new agreement to buy a minimum amount of services from us or designate us as its sole supplier of any particular service. Further, The New York State Department of Labor has the right to terminate the new agreement at any time by providing us with 60 days notice. We have been notified by the New York Department of Labor that funding for the America's Job

**Table of Contents**

Bank program will cease at the expiration of our current contract. We have begun making preparations to continue the program and service without government funding and expect to receive revenues from advertising placement as well as other ancillary services, but we cannot assure you that revenue will remain at the same level or that cash flows will not be adversely impacted.

***Atlantic Investors, LLC may have interests that conflict with the interests of our other stockholders and, as our majority stockholder, can prevent new and existing investors from influencing significant corporate decisions.*** Atlantic Investors, LLC owns approximately 59% of our outstanding capital stock as of September 30, 2006. Following the closing of our senior secured term loan facility with Silver Point Finance on April 11, 2006, Atlantic Investors' ownership was approximately 43% on a fully diluted basis. In addition, Atlantic Investors holds a promissory note in the principal amount of \$3.0 million, the maturity date of which was extended, pursuant to the amended loan agreement dated April 11, 2006, to 90 days after the maturity date of the Silver Point Finance loan facility. Atlantic has the right to convert any unpaid amounts into common stock at any time at a price of \$2.81 per share. As of July 31, 2006, we had recorded accrued interest on this note in the amount of \$0.8 million. Atlantic Investors has the power, acting alone, to elect a majority of our Board of Directors and has the ability to control our management and affairs and determine the outcome of any corporate action requiring stockholder approval. Regardless of how our other stockholders may vote, Atlantic Investors has the ability to determine whether to engage in a merger, consolidation or sale of our assets and any other significant corporate transaction. Under Delaware law, Atlantic Investors is able to exercise its voting power by written consent, without convening a meeting of the stockholders. Atlantic Investors' ownership of a majority of our outstanding common stock may have the effect of delaying, deterring or preventing a change in control of us or discouraging a potential acquirer from attempting to obtain control of us, which could adversely affect the market price of our common stock.

***Members of our management group also have significant interests in Atlantic Investors, LLC, which may create conflicts of interest.*** Some of the members of our management group also serve as members of the management group of Atlantic Investors, LLC and its affiliates. Specifically, Andrew Ruhan, our Chairman of the Board, holds a 10% equity interest in Unicorn Worldwide Holdings Limited, a managing member of Atlantic Investors. Arthur Becker, our President and Chief Executive Officer and a member of our Board of Directors, is the managing member of Madison Technology LLC, a managing member of Atlantic Investors. As a result, these NaviSite officers and directors may face potential conflicts of interest with each other and with our stockholders. They may be presented with situations in their capacity as our officers or directors that conflict with their fiduciary obligations to Atlantic Investors, which in turn may have interests that conflict with the interests of our other stockholders.

***Our common stockholders may suffer dilution in the future upon exercise of outstanding convertible securities or the issuance of additional securities in potential future acquisitions or financings.*** In connection with our financing agreement with Silver Point Finance we issued warrants to Silver Point Finance to purchase an aggregate of 3,514,933 shares of our common stock. If the warrants are exercised, Silver Point Finance may obtain a significant equity interest in NaviSite and other stockholders may experience significant and immediate dilution. Our stockholders will also experience dilution to the extent that additional shares of our common stock are issued in potential future acquisitions or financings.

***Acquisitions may result in disruptions to our business or distractions of our management due to difficulties in integrating acquired personnel and operations, and these integrations may not proceed as planned.*** Since December 2002, we have acquired CBTM (accounted for as an *as if pooling* ), Avasta, Conxion, selected assets of Interliant, all of the shares of ten wholly-owned subsidiaries of CBT (accounted for as an *as if pooling* ) and substantially all of the assets and liabilities of Surebridge. We intend to continue to expand our business through the acquisition of companies, technologies, products and services. Acquisitions involve a number of special problems and risks, including:

difficulty integrating acquired technologies, products, services, operations and personnel with the existing businesses;

difficulty maintaining relationships with important third parties, including those relating to marketing alliances and providing preferred partner status and favorable pricing;

**Table of Contents**

diversion of management's attention in connection with both negotiating the acquisitions and integrating the businesses;

strain on managerial and operational resources as management tries to oversee larger operations;

inability to retain and motivate management and other key personnel of the acquired businesses;

exposure to unforeseen liabilities of acquired companies;

potential costly and time-consuming litigation, including stockholder lawsuits;

potential issuance of securities in connection with an acquisition with rights that are superior to the rights of holders of our common stock, or which may have a dilutive effect on our common stockholders;

the need to incur additional debt or use cash; and

the requirement to record potentially significant additional future operating costs for the amortization of intangible assets.

As a result of these problems and risks, businesses we acquire may not produce the revenues, earnings or business synergies that we anticipated, and acquired products, services or technologies might not perform as we expected. As a result, we may incur higher costs and realize lower revenues than we had anticipated. We may not be able to successfully address these problems and we cannot assure you that the acquisitions will be successfully identified and completed or that, if acquisitions are completed, the acquired businesses, products, services or technologies will generate sufficient revenue to offset the associated costs or other harmful effects on our business. In addition, our limited operating history with our current structure resulting from recent acquisitions makes it very difficult for us to evaluate or predict our ability to, among other things, retain customers, generate and sustain a revenue base sufficient to meet our operating expenses, and achieve and sustain profitability.

***A failure to meet customer specifications or expectations could result in lost revenues, increased expenses, negative publicity, claims for damages and harm to our reputation and cause demand for our services to decline.*** Our agreements with customers require us to meet specified service levels for the services we provide. In addition, our customers may have additional expectations about our services. Any failure to meet customers' specifications or expectations could result in:

delayed or lost revenue;

requirements to provide additional services to a customer at reduced charges or no charge;

negative publicity about us, which could adversely affect our ability to attract or retain customers; and

claims by customers for substantial damages against us, regardless of our responsibility for the failure, which may not be covered by insurance policies and which may not be limited by contractual terms of our engagement.

***Our ability to successfully market our services could be substantially impaired if we are unable to deploy new infrastructure systems and applications or if new infrastructure systems and applications deployed by us prove to be unreliable, defective or incompatible.*** We may experience difficulties that could delay or prevent the successful

development, introduction or marketing of hosting and application management services in the future. If any newly introduced infrastructure systems and applications suffer from reliability, quality or compatibility problems, market acceptance of our services could be greatly hindered and our ability to attract new customers could be significantly reduced. We cannot assure you that new applications deployed by us will be free from any reliability, quality or compatibility problems. If we incur increased costs or are unable, for technical or other reasons, to host and manage new infrastructure systems and applications or enhancements of existing applications, our ability to successfully market our services could be substantially limited.

***Any interruptions in, or degradation of, our private transit Internet connections could result in the loss of customers or hinder our ability to attract new customers.*** Our customers rely on our ability to move their digital content as efficiently as possible to the people accessing their Web sites and infrastructure systems and applications. We utilize our direct private transit Internet connections to major network providers, such as Level 3 and Global

## **Table of Contents**

Crossing as a means of avoiding congestion and resulting performance degradation at public Internet exchange points. We rely on these telecommunications network suppliers to maintain the operational integrity of their networks so that our private transit Internet connections operate effectively. If our private transit Internet connections are interrupted or degraded, we may face claims by, or lose, customers, and our reputation in the industry may be harmed, which may cause demand for our services to decline.

***If we are unable to maintain existing and develop additional relationships with software vendors, the sales and marketing of our service offerings may be unsuccessful.*** We believe that to penetrate the market for managed IT services we must maintain existing and develop additional relationships with industry-leading software vendors. We license or lease select software applications from software vendors, including IBM, Microsoft and Oracle. Our relationships with Microsoft and Oracle are critical to the operations and success of our business. The loss of our ability to continue to obtain, utilize or depend on any of these applications or relationships could substantially weaken our ability to provide services to our customers. It may also require us to obtain substitute software applications that may be of lower quality or performance standards or at greater cost. In addition, because we generally license applications on a non-exclusive basis, our competitors may license and utilize the same software applications. In fact, many of the companies with which we have strategic relationships currently have, or could enter into, similar license agreements with our competitors or prospective competitors. We cannot assure you that software applications will continue to be available to us from software vendors on commercially reasonable terms. If we are unable to identify and license software applications that meet our targeted criteria for new application introductions, we may have to discontinue or delay introduction of services relating to these applications.

***Our network infrastructure could fail which would impair our ability to provide guaranteed levels of service and could result in significant operating losses.*** To provide our customers with guaranteed levels of service, we must operate our network infrastructure 24 hours a day, seven days a week without interruption. We must, therefore, protect our network infrastructure, equipment and customer files against damage from human error, natural disasters, unexpected equipment failure, power loss or telecommunications failures, terrorism, sabotage or other intentional acts of vandalism. Even if we take precautions, the occurrence of a natural disaster, equipment failure or other unanticipated problem at one or more of our data centers could result in interruptions in the services we provide to our customers. We cannot assure you that our disaster recovery plan will address all, or even most, of the problems we may encounter in the event of a disaster or other unanticipated problem. We have experienced service interruptions in the past, and any future service interruptions could:

- require us to spend substantial amounts of money to replace equipment or facilities;

- entitle customers to claim service credits or seek damages for losses under our service level guarantees;

- cause customers to seek alternate providers; or

- impede our ability to attract new customers, retain current customers or enter into additional strategic relationships.

***Our dependence on third parties increases the risk that we will not be able to meet our customers' needs for software, systems and services on a timely or cost-effective basis, which could result in the loss of customers.*** Our services and infrastructure rely on products and services of third-party providers. We purchase key components of our infrastructure, including networking equipment, from a limited number of suppliers, such as IBM, Cisco Systems, F5 Networks, Microsoft and Oracle. We cannot assure you that we will not experience operational problems attributable to the installation, implementation, integration, performance, features or functionality of third-party software, systems and services. We cannot assure you that we will have the necessary hardware or parts on hand or that our suppliers will be able to provide them in a timely manner in the event of equipment failure. Our ability to timely obtain and

continue to maintain the necessary hardware or parts could result in sustained equipment failure and a loss of revenue due to customer loss or claims for service credits under our service level guarantees.

***We could be subject to increased operating costs, as well as claims, litigation or other potential liability, in connection with risks associated with Internet security and the security of our systems.*** A significant barrier to the growth of e-commerce and communications over the Internet has been the need for secure transmission of confidential information. Several of our infrastructure systems and application services use encryption and

**Table of Contents**

authentication technology licensed from third parties to provide the protections necessary to ensure secure transmission of confidential information. We also rely on security systems designed by third parties and the personnel in our network operations centers to secure those data centers. Any unauthorized access, computer viruses, accidental or intentional actions and other disruptions could result in increased operating costs. For example, we may incur additional significant costs to protect against these interruptions and the threat of security breaches or to alleviate problems caused by these interruptions or breaches. If a third party were able to misappropriate a consumer's personal or proprietary information, including credit card information, during the use of an application solution provided by us, we could be subject to claims, litigation or other potential liability.

***Third-party infringement claims against our technology suppliers, customers or us could result in disruptions in service, the loss of customers or costly and time-consuming litigation.*** We license or lease most technologies used in the infrastructure systems and application services that we offer. Our technology suppliers may become subject to third-party infringement or other claims and assertions, which could result in their inability or unwillingness to continue to license their technologies to us. We cannot assure you that third parties will not assert claims against us in the future or that these claims will not be successful. Any infringement claim as to our technologies or services, regardless of its merit, could result in delays in service, installation or upgrades, the loss of customers or costly and time-consuming litigation.

***We may be subject to legal claims in connection with the information disseminated through our network, which could divert management's attention and require us to expend significant financial resources.*** We may face liability for claims of defamation, negligence, copyright, patent or trademark infringement and other claims based on the nature of the materials disseminated through our network. For example, lawsuits may be brought against us claiming that content distributed by some of our customers may be regulated or banned. In these and other instances, we may be required to engage in protracted and expensive litigation that could have the effect of diverting management's attention from our business and require us to expend significant financial resources. Our general liability insurance may not cover any of these claims or may not be adequate to protect us against all liability that may be imposed. In addition, on a limited number of occasions in the past, businesses, organizations and individuals have sent unsolicited commercial e-mails from servers hosted at our facilities to a number of people, typically to advertise products or services. This practice, known as spamming, can lead to statutory liability as well as complaints against service providers that enable these activities, particularly where recipients view the materials received as offensive. We have in the past received, and may in the future receive, letters from recipients of information transmitted by our customers objecting to the transmission. Although we prohibit our customers by contract from spamming, we cannot assure you that our customers will not engage in this practice, which could subject us to claims for damages.

***If we fail to attract or retain key officers, management and technical personnel, our ability to successfully execute our business strategy or to continue to provide services and technical support to our customers could be adversely affected and we may not be successful in attracting new customers.*** We believe that attracting, training, retaining and motivating technical and managerial personnel, including individuals with significant levels of infrastructure systems and application expertise, is a critical component of the future success of our business. Qualified technical personnel are likely to remain a limited resource for the foreseeable future and competition for these personnel is intense. The departure of any of our executive officers, particularly Arthur P. Becker, our Chief Executive Officer and President, or core members of our sales and marketing teams or technical service personnel, would have negative ramifications on our customer relations and operations. The departure of our executive officers could adversely affect the stability of our infrastructure and our ability to provide the guaranteed service levels our customers expect. Any officer or employee can terminate his or her relationship with us at any time. In addition, we do not carry life insurance on any of our personnel. Over the past three years, we have had reductions-in-force and departures of several members of senior management due to redundancies and restructurings resulting from the consolidation of our acquired companies. In the event of future reductions or departures of employees, our ability to successfully execute our business strategy, or to continue to provide services to our customers or attract new customers, could be adversely

affected.

***The unpredictability of our quarterly results may cause the trading price of our common stock to fluctuate or decline.*** Our quarterly operating results may vary significantly from quarter-to-quarter and period-to-period as

**Table of Contents**

a result of a number of factors, many of which are outside of our control and any one of which may cause our stock price to fluctuate. The primary factors that may affect our operating results include the following:

- a reduction of market demand and/or acceptance of our services;
- our ability to develop, market and introduce new services on a timely basis;
- the length of the sales cycle for our services;
- the timing and size of sales of our services, which depends on the budgets of our customers;
- downward price adjustments by our competitors;
- changes in the mix of services provided by our competitors;
- technical difficulties or system downtime affecting the Internet or our hosting operations;
- our ability to meet any increased technological demands of our customers; and
- the amount and timing of costs related to our marketing efforts and service introductions.

Due to the above factors, we believe that quarter-to-quarter or period-to-period comparisons of our operating results may not be a good indicator of our future performance. Our operating results for any particular quarter may fall short of our expectations or those of stockholders or securities analysts. In this event, the trading price of our common stock would likely fall.

***If we are unsuccessful in pending and potential litigation matters, our financial condition may be adversely affected.*** We are currently involved in various pending and potential legal proceedings, including a class action lawsuit related to our initial public offering. If we are ultimately unsuccessful in any of these matters, we could be required to pay substantial amounts of cash to the other parties. The amount and timing of any of these payments could adversely affect our financial condition.

***If the markets for outsourced information technology infrastructure and applications, Internet commerce and communication decline, there may be insufficient demand for our services and, as a result, our business strategy and objectives may fail.*** The increased use of the Internet for retrieving, sharing and transferring information among businesses and consumers is developing, and the market for the purchase of products and services over the Internet is still relatively new and emerging. Our industry has experienced periods of rapid growth, followed by a sharp decline in demand for products and services, which related to the failure in the last few years of many companies focused on developing Internet-related businesses. If acceptance and growth of the Internet as a medium for commerce and communication declines, our business strategy and objectives may fail because there may not be sufficient market demand for our managed IT services.

***If we do not respond to rapid changes in the technology sector, we will lose customers.*** The markets for the technology-related services we offer are characterized by rapidly changing technology, evolving industry standards, frequent new service introductions, shifting distribution channels and changing customer demands. We may not be able to adequately adapt our services or to acquire new services that can compete successfully. In addition, we may not be able to establish and maintain effective distribution channels. We risk losing customers to our competitors if we are unable to adapt to this rapidly evolving marketplace.

***The market in which we operate is highly competitive and is likely to consolidate, and we may lack the financial and other resources, expertise or capability needed to capture increased market share or maintain market share.*** We compete in the managed IT services market. This market is rapidly evolving, highly competitive and likely to be characterized by over-capacity and industry consolidation. Our competitors may consolidate with one another or acquire software application vendors or technology providers, enabling them to more effectively compete with us. Many participants in this market have suffered significantly in the last several years. We believe that participants in this market must grow rapidly and achieve a significant presence to compete effectively. This consolidation could affect prices and other competitive factors in ways that would impede our ability to compete successfully in the managed IT services market.

**Table of Contents**

Further, our business is not as developed as that of many of our competitors. Many of our competitors have substantially greater financial, technical and market resources, greater name recognition and more established relationships in the industry. Many of our competitors may be able to:

- develop and expand their network infrastructure and service offerings more rapidly;
- adapt to new or emerging technologies and changes in customer requirements more quickly;
- take advantage of acquisitions and other opportunities more readily; or
- devote greater resources to the marketing and sale of their services and adopt more aggressive pricing policies than we can.

We may lack the financial and other resources, expertise or capability needed to maintain or capture increased market share in this environment in the future. Because of these competitive factors and due to our comparatively small size and our lack of financial resources, we may be unable to successfully compete in the managed IT services market.

***Difficulties presented by international economic, political, legal, accounting and business factors could harm our business in international markets.*** We operate a data center in the United Kingdom. Revenue from our foreign operations accounted for approximately 4% of our total revenue during the fiscal year ended July 31, 2006. We recently expanded our operations to India, which could eventually broaden our customer service support. Although we expect to focus most of our growth efforts in the United States, we may enter into joint ventures or outsourcing agreements with third parties, acquire complementary businesses or operations, or establish and maintain new operations outside of the United States. Some risks inherent in conducting business internationally include:

- unexpected changes in regulatory, tax and political environments;
- longer payment cycles and problems collecting accounts receivable;
- geopolitical risks such as political and economic instability and the possibility of hostilities among countries or terrorism;
- reduced protection of intellectual property rights;
- fluctuations in currency exchange rates or imposition of restrictive currency controls;
- our ability to secure and maintain the necessary physical and telecommunications infrastructure;
- challenges in staffing and managing foreign operations;
- employment laws and practices in foreign countries;
- laws and regulations on content distributed over the Internet that are more restrictive than those currently in place in the United States; and
- significant changes in immigration policies or difficulties in obtaining required immigration approvals.

Any one or more of these factors could adversely affect our international operations and consequently, our business.

***We may become subject to burdensome government regulation and legal uncertainties that could substantially harm our business or expose us to unanticipated liabilities.*** It is likely that laws and regulations directly applicable to the Internet or to hosting and managed application service providers may be adopted. These laws may cover a variety of issues, including user privacy and the pricing, characteristics and quality of products and services. The adoption or modification of laws or regulations relating to commerce over the Internet could substantially impair the growth of our business or expose us to unanticipated liabilities. Moreover, the applicability of existing laws to the Internet and hosting and managed application service providers is uncertain. These existing laws could expose us to substantial liability if they are found to be applicable to our business. For example, we provide services over the Internet in many states in the United States and elsewhere and facilitate the activities of our customers in these jurisdictions. As a result, we may be required to qualify to do business, be subject to taxation

**Table of Contents**

or be subject to other laws and regulations in these jurisdictions, even if we do not have a physical presence, employees or property in those states.

*The price of our common stock has been volatile, and may continue to experience wide fluctuations.* Since January 2005, our common stock has closed as low as \$1.19 per share and as high as \$5.45 per share. The trading price of our common stock has been and may continue to be subject to wide fluctuations due to the risk factors discussed in this section and elsewhere in this report. Fluctuations in the market price of our common stock may cause an investor in our common stock to lose some or all of his investment.

*Anti-takeover provisions in our corporate documents may discourage or prevent a takeover.* Provisions in our certificate of incorporation and our by-laws may have the effect of delaying or preventing an acquisition or merger in which we are acquired or a transaction that changes our Board of Directors. These provisions:

authorize the board to issue preferred stock without stockholder approval;

prohibit cumulative voting in the election of directors;

limit the persons who may call special meetings of stockholders; and

establish advance notice requirements for nominations for the election of directors or for proposing matters that can be acted on by stockholders at stockholder meetings.

**Item 1B. *Unresolved Staff Comments***

None.

Milwaukee, WI	Data Center	5,200	March 2010
Gurgaon, Haryana, India	Office	12,706	July 2008
London, England	Data Center	4,022	March 2010

- (1) We have idle office space at this facility from which we derive no economic benefit.
- (2) We have entered into a sublease with a third party for this facility, however we retain the use of approximately 2,000 square feet.
- (3) In September 2006, after the end of our fiscal year, we extended the lease for this facility by ten years until November 2016 which is reflected above.

We believe that these offices and data centers are adequate to meet our foreseeable requirements and that suitable additional or substitute space will be available on commercially reasonable terms, if needed.

**Item 3. *Legal Proceedings***

**IPO Securities Litigation**

On or about June 13, 2001, Stuart Werman and Lynn McFarlane filed a lawsuit against us, BancBoston Robertson Stephens, an underwriter of our initial public offering in October 1999, Joel B. Rosen, our then chief executive officer, and Kenneth W. Hale, our then chief financial officer. The suit was filed in the United States District Court for the Southern District of New York. The suit generally alleges that the defendants violated federal securities laws by not disclosing certain actions allegedly taken by Robertson Stephens in connection with our initial public offering. The suit alleges specifically that Robertson Stephens, in exchange for the allocation to its customers of shares of our common stock sold in our initial public offering, solicited and received from its

**Table of Contents**

customers' agreements to purchase additional shares of our common stock in the aftermarket at pre-determined prices. The suit seeks unspecified monetary damages and certification of a plaintiff class consisting of all persons who acquired shares of our common stock between October 22, 1999 and December 6, 2000. Three other substantially similar lawsuits were filed between June 15, 2001 and July 10, 2001 by Moses Mayer (filed June 15, 2001), Barry Feldman (filed June 19, 2001), and Binh Nguyen (filed July 10, 2001). Robert E. Eisenberg, our president at the time of the initial public offering in 1999, also was named as a defendant in the Nguyen lawsuit.

On or about June 21, 2001, David Federico filed in the United States District Court for the Southern District of New York a lawsuit against us, Mr. Rosen, Mr. Hale, Robertson Stephens and other underwriter defendants including J.P. Morgan Chase, First Albany Companies, Inc., Bank of America Securities, LLC, Bear Stearns & Co., Inc., B.T. Alex. Brown, Inc., Chase Securities, Inc., CIBC World Markets, Credit Suisse First Boston Corp., Dain Rauscher, Inc., Deutsche Bank Securities, Inc., The Goldman Sachs Group, Inc., J.P. Morgan & Co., J.P. Morgan Securities, Lehman Brothers, Inc., Merrill Lynch, Pierce, Fenner & Smith, Inc., Morgan Stanley Dean Witter & Co., Robert Fleming, Inc. and Salomon Smith Barney, Inc. The suit generally alleges that the defendants violated the anti-trust laws and the federal securities laws by conspiring and agreeing to raise and increase the compensation received by the underwriter defendants by requiring those who received allocation of initial public offering stock to agree to purchase shares of manipulated securities in the after-market of the initial public offering at escalating price levels designed to inflate the price of the manipulated stock, thus artificially creating an appearance of demand and high prices for that stock, and initial public offering stock in general, leading to further stock offerings. The suit also alleges that the defendants arranged for the underwriter defendants to receive undisclosed and excessive brokerage commissions and that, as a consequence, the underwriter defendants successfully increased investor interest in the manipulated initial public offering of securities and increased the underwriter defendants' individual and collective underwritings, compensation, and revenue. The suit further alleges that the defendants violated the federal securities laws by issuing and selling securities pursuant to the initial public offering without disclosing to investors that the underwriter defendants in the offering, including the lead underwriters, had solicited and received excessive and undisclosed commissions from certain investors. The suit seeks unspecified monetary damages and certification of a plaintiff class consisting of all persons who acquired shares of our common stock between October 22, 1999 and June 12, 2001.

Those five cases, along with lawsuits naming more than 300 other issuers and over 50 investment banks which have been sued in substantially similar lawsuits, have been assigned to the Honorable Shira A. Scheindlin (the Court) for all pretrial purposes (the IPO Securities Litigation). On September 6, 2001, the Court entered an order consolidating the five individual cases involving us and designating *Werman v. NaviSite, Inc., et al.*, Civil Action No. 01-CV-5374 as the lead case. A consolidated, amended complaint was filed thereafter on April 19, 2002 (the Class Action Litigation) on behalf of plaintiffs Arvid Brandstrom and Tony Tse against underwriter defendants Robertson Stephens (as successor-in-interest to BancBoston), BancBoston, J.P. Morgan (as successor-in-interest to Hambrecht & Quist), Hambrecht & Quist and First Albany and against us and Messrs. Rosen, Hale and Eisenberg (collectively, the NaviSite Defendants). Plaintiffs uniformly allege that all defendants, including the NaviSite Defendants, violated the federal securities laws (i.e., Sections 11 and 15 of the Securities Act, Sections 10(b) and 20(a) of the Exchange Act and Rule 10b-5) by issuing and selling our common stock pursuant to the October 22, 1999 initial public offering, without disclosing to investors that some of the underwriters of the offering, including the lead underwriters, had solicited and received extensive and undisclosed agreements from certain investors to purchase aftermarket shares at pre-arranged, escalating prices and also to receive additional commissions and/or other compensation from those investors. At this time, plaintiffs have not specified the amount of damages they are seeking in the Class Action Litigation.

Between July and September 2002, the parties to the IPO Securities Litigation briefed motions to dismiss filed by the underwriter defendants and the issuer defendants, including NaviSite. On November 1, 2002, the Court held oral argument on the motions to dismiss. The plaintiffs have since agreed to dismiss the claims against Messrs. Rosen, Hale and Eisenberg without prejudice, in return for their agreement to toll any statute of limitations applicable to those

claims. By stipulation entered by the Court on November 18, 2002, Messrs. Rosen, Hale and Eisenberg were dismissed without prejudice from the Class Action Litigation. On February 19, 2003, an opinion and order was issued on defendants' motion to dismiss the IPO Securities Litigation, essentially denying the motions to dismiss of all 55 underwriter defendants and of 185 of the 301 issuer defendants, including NaviSite.

**Table of Contents**

On June 30, 2003, our Board of Directors considered and authorized us to negotiate a settlement of the pending Class Action Litigation substantially consistent with a memorandum of understanding negotiated among proposed class plaintiffs, the issuer defendants and the insurers for such issuer defendants. Among other contingencies, any such settlement would be subject to approval by the Court. Plaintiffs filed on June 14, 2004, a motion for preliminary approval of the Stipulation And Agreement Of Settlement With Defendant Issuers And Individuals (the Preliminary Approval Motion ). On February 15, 2005, the Court approved the Preliminary Approval Motion in a written opinion which detailed the terms of the settlement stipulation, its accompanying documents and schedules, the proposed class notice and, with a modification to the bar order to be entered, the proposed settlement order and judgment. A further conference was held on April 13, 2005, at which time the Court considered additional submissions but did not make final determinations regarding the exact form, substance and program for notifying the proposed settlement class. On August 31, 2005, the Court entered a further Preliminary Order in Connection with Settlement Proceedings (the Preliminary Approval Order ), which granted preliminary approval to the issuer s settlement with the plaintiffs in the IPO Securities Litigation. The Court subsequently held a Fed. R. Civ. P. 23 fairness hearing on April 24, 2006 in order to consider the written and oral submissions addressing whether the Court should enter final approval of the settlement; the matter was taken under advisement and remains pending with the Court. If the proposed issuers settlement is completed and then approved by the Court without further modifications to its material terms, we and the participating insurers acting on our behalf may be responsible for providing funding of approximately \$3.4 million towards the total amount plaintiffs are guaranteed by the proposed issuer s settlement to recover in the IPO Securities Litigation. The amount of the guarantee allocable to us could be reduced or eliminated in its entirety in the event that plaintiffs are able to recover more than the total amount of such overall guarantee from settlements with or judgments obtained against the non-settling defendants. Even if no additional recovery is obtained from any of the non-settling defendants, the settlement amount allocable to us is expected to be fully covered by our existing insurance policies and is not expected to have a material effect on our business, financial condition, results of operations or cash flows.

We believe that the allegations against us are without merit and, if the settlement is not approved by the Court and finalized, we intend to vigorously defend against the plaintiffs claims. Due to the inherent uncertainty of litigation, we are not able to predict the possible outcome of the suits and their ultimate effect, if any, on our business, financial condition, results of operations or cash flows.

**Item 4. *Submission of Matters to a Vote of Security Holders.***

None.

**Table of Contents****PART II****Item 5. *Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities*****Price Range of Common Stock**

Our common stock is currently traded on the Nasdaq Capital Market under the symbol NAVI. As of September 30, 2006, there were 248 holders of record of our common stock. Because brokers and other institutions on behalf of stockholders hold many of such shares, we are unable to estimate the total number of stockholders represented by these record holders. The following table sets forth for the periods indicated the high and low sales prices for our common stock as reported on the Nasdaq Capital Market.

	<b>High</b>	<b>Low</b>
<b>Fiscal Year Ended July 31, 2006</b>		
May 1, 2006 through July 31, 2006	\$ 5.59	\$ 3.24
February 1, 2006 through April 30, 2006	\$ 5.00	\$ 1.35
November 1, 2005 through January 31, 2006	\$ 1.83	\$ 1.01
August 1, 2005 through October 31, 2005	\$ 1.90	\$ 1.07
<b>Fiscal Year Ended July 31, 2005</b>		
May 1, 2005 through July 31, 2005	\$ 2.40	\$ 1.16
February 1, 2005 through April 30, 2005	\$ 2.29	\$ 1.23
November 1, 2004 through January 31, 2005	\$ 3.30	\$ 1.94
August 1, 2004 through October 31, 2004	\$ 3.64	\$ 1.32

We believe that a number of factors may cause the market price of our common stock to fluctuate significantly. See Item 1A. Risk Factors.

We have never paid cash dividends on our common stock. We currently anticipate retaining all available earnings, if any, to finance internal growth and product development. Payment of dividends in the future will depend upon our earnings, financial condition, anticipated cash needs and such other factors as the directors may consider or deem appropriate at the time. In addition, the terms of our financing agreement dated April 11, 2006, with Silver Point Finance restricts the payment of cash dividends on our common stock.

We did not repurchase any shares of common stock during fiscal year 2006.

Information regarding our equity compensation plans and the securities authorized for issuance thereunder is set forth in Item 12 below.

**Table of Contents****Item 6. Selected Financial Data**

The following selected consolidated financial data should be read in conjunction with our consolidated financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included elsewhere in this report. Historical results are not necessarily indicative of results of any future period.

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation**

*This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, that involve risks and uncertainties. All statements other than statements of historical information provided herein are forward-looking statements and may contain information about financial results, economic conditions, trends and known uncertainties. Our actual results could differ materially from those discussed in the forward-looking statements as a result of a number of factors, which include those discussed in this section and elsewhere in this report under Item 1A. Risk Factors and the risks discussed in our other filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis, judgment, belief or expectation only as of the date hereof. We undertake no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof.*

**Overview**

We provide our services to customers typically pursuant to agreements with a term of one to three years and monthly payment installments. As a result, these agreements provide us with a base of recurring revenue. Our revenue increases by adding new customers or additional services to existing customers. Our overall base of recurring revenue is affected by new customers, renewals or terminations of agreements with existing customers.

A large portion of the costs to operate our data centers, such as rent, product development and general and administrative expenses, does not depend strictly on the number of customers or the amount of services we provide. As we add new customers or new services to existing customers, we generally incur limited additional expenses relating to telecommunications, utilities, hardware and software costs, and payroll expenses. We have substantial capacity to add customers to our data centers. Our relatively fixed cost base, sufficient capacity for expansion and limited incremental variable costs provide us with the opportunity to grow profitably. However, these same fixed costs present us with the risk that we may incur losses if we are unable to generate sufficient revenue.

In recent years, we have grown through acquisitions of new businesses and have restructured our historical operations. Specifically, in December 2002, we acquired ClearBlue Technologies Management, Inc. (a wholly-owned subsidiary of our majority stockholder at the time of the acquisition and therefore was accounted for as a common control merger), adding application management and development capabilities to our managed application services. In February 2003, we acquired Avasta, Inc., adding capabilities to our managed application services. In April 2003, we acquired Conxion Corporation, providing key services to our managed application services and managed infrastructure services. In May 2003, we acquired assets of Interliant, Inc., forming the core of our managed messaging services. In August 2003 and April 2004, we acquired assets of CBT (which was our majority stockholder at that time and therefore was accounted for as a common control merger) related to colocation, bandwidth, security and disaster recovery services, enhancing our managed infrastructure services. In June 2004, we acquired substantially all of the assets and liabilities of Surebridge, Inc., adding significant capabilities to our managed application and professional services. Prior to September 2002, substantially all of our services were managed application services. We have added managed infrastructure and managed messaging services and increased managed applications and professional services since that time. This transformation in our business will result in our recent results being more relevant to an understanding of our business than our historical results. We also expect to make additional acquisitions to take advantage of our available capacity, which will have significant effects on our financial results in the future.

Our acquisitions of CBTM and the assets and certain liabilities of CBT were accounted for in a manner similar to a pooling-of-interest due to common control ownership. The assets and the liabilities of CBT, CBTM and NaviSite were

combined at their historical amounts beginning on September 11, 2002, the date on which CBT obtained a majority ownership of NaviSite. Our acquisitions of Avasta and Conxion, selected assets of Interliant and our acquisition of substantially all of the assets and liabilities of Surebridge were accounted for using the purchase method of accounting and as such, the results of operations and cash flows relating to these acquisitions were included in our Consolidated Statement of Operations and Consolidated Statement of Cash Flows from their respective dates of acquisition of February 5, 2003, April 2, 2003, May 16, 2003 and June 10, 2004.

**Table of Contents**

We have made significant steps to improve the results of our operations. Due to improvements we have made in our overall business, the repayment of our maturing debt and our successful financing with Silver Point Finance and the availability to us of committed lines of credit, our audit report no longer contains the opinion of our independent registered public accounting firm, KPMG LLP, that our recurring losses as well as other factors raise substantial doubt about our ability to continue as a going concern.

**Results of Operations for the Three Years Ended July 31, 2006, 2005 and 2004**

The following table sets forth the percentage relationships of certain items from our Consolidated Statements of Operations as a percentage of total revenue for the periods indicated.

	<b>Year Ended July 31,</b>		
	<b>2006</b>	<b>2005</b>	<b>2004</b>
Revenue	99.8%	99.9%	99.9%
Revenue, related parties	0.2%	0.1%	0.1%
Total revenue	100.0%	100.0%	100.0%
Cost of revenue	68.8%	73.0%	75.0%
Impairment, restructuring and other	0.0%	0.4%	1.0%
Total cost of revenue	68.8%	73.4%	76.0%
Gross profit	31.2%	26.6%	24.0%
Operating expenses:			
Selling and marketing	13.5%	11.8%	11.7%
General and administrative	20.0%	21.5%	27.1%
Impairment, restructuring and other	1.3%	2.4%	5.8%
Total operating expenses	34.8%	35.7%	44.6%
Loss from operations	(3.6)%	(9.1)%	(20.6)%
Other income (expense):			
Interest income	0.3%	0.1%	0.1%
Interest expense	(8.8)%	(6.9)%	(3.4)%
Other income (expense), net	0.4%	2.5%	(0.5)%
Loss before income tax expense	(11.7)%	(13.4)%	(23.4)%
Income tax expense	(1.1)%	(1.2)%	(0.0)%
Net loss	(12.8)%	(14.6)%	(23.4)%

***Comparison of the Years 2006, 2005 and 2004*****Revenue**

We derive our revenue from managed IT services, including hosting, colocation and application services comprised of a variety of service offerings and professional services, to mid-market companies and organizations, including mid-sized companies, divisions of large multi-national companies and government agencies.

Total revenue for the fiscal year ended July 31, 2006 decreased 0.7% to approximately \$109.1 million from approximately \$109.9 million for the fiscal year ended July 31, 2005. The decline in revenue is primarily related to the sale of our MBS Practice in July 2005 which contributed approximately \$4.3 million in revenue during fiscal year 2005 partially offset by net increased revenue from new customers and sales to existing customers. Revenue from related parties increased 84% during the year ended July 31, 2006 to approximately \$243,000 from approximately \$132,000 during the year ended July 31, 2005.

## **Table of Contents**

Total revenue for fiscal year 2005 increased 20.5% to approximately \$109.9 million from approximately \$91.2 million in fiscal year 2004. The overall growth in revenue was mainly due to the full year impact of the revenue resulting from our fiscal year 2004 acquisition of Surebridge which contributed approximately \$37.8 million in revenue during the year ended July 31, 2005. The increased revenue during fiscal year 2005 was partially offset by net lost customer revenue of approximately \$13.0 million. Revenue from related parties during the year ended July 31, 2005 was relatively flat as a percentage of revenue compared with the year ended July 31, 2004.

One unrelated customer accounted for 9%, 8% and 12% of our consolidated revenue in fiscal years 2006, 2005 and 2004, respectively.

## **Gross Profit**

Cost of revenue consists primarily of salaries and benefits for operations personnel, bandwidth fees and related Internet connectivity charges, equipment costs and related depreciation and costs to run our data centers, such as rent and utilities.

Gross profit of \$34.0 million for the year ended July 31, 2006 increased approximately \$4.7 million, or 16%, from a gross profit of approximately \$29.3 million for the year ended July 31, 2005. Gross profit for fiscal year 2006 represented 31.2% of total revenue, as compared to 26.6% of total revenue for fiscal year 2005. Total cost of revenue decreased approximately 6.9% to approximately \$75.1 million in fiscal year 2006 from approximately \$80.6 million in fiscal year 2005. As a percentage of revenue, total cost of revenue decreased from 73.4% of revenue in fiscal year 2005 to 68.8% of revenue in fiscal year 2006. The decrease in cost of revenue of approximately \$5.5 million resulted primarily from decreased salary and related expense of approximately \$1.6 million as a result of lower U.S. based employees due to our increased reliance on the use of our India network center, a decrease in hardware and software maintenance costs of approximately \$1.8 million as a result of continued efforts to control costs, costs related to the MBS practice sold in July 2005 of approximately \$1.9 million, a reduction of depreciation and amortization expense of approximately \$1.1 million partially offset by the effect of implementing SFAS 123R in fiscal year 2006 of approximately \$1.0 million. Included in total cost of revenue for fiscal year 2005, are impairment and restructuring charges totaling \$0.4 million related to certain data center leases as a component of total cost of revenue. No such charge was recorded during the same period of fiscal year 2006.

Gross profit of \$29.3 million for the year ended July 31, 2005 increased approximately \$7.4 million, or 33.7%, from a gross profit of approximately \$21.9 million for the year ended July 31, 2004. Gross profit for fiscal year 2005 represented 26.6% of total revenue, as compared to 24.0% of total revenue for fiscal year 2004. Total cost of revenue increased approximately 16.3% to \$80.6 million in fiscal year 2005 from approximately \$69.3 million in fiscal year 2004. As a percentage of revenue, total cost of revenue decreased from 76.0% of revenue in fiscal year 2004 to 73.4% of revenue in fiscal year 2005. The percentage decrease resulted primarily from cost reductions relating to the scaling of our fixed infrastructure costs over a larger revenue/customer base and costs reductions resulting from a company-wide effort to rationalize our cost structure related to equipment rental, hardware maintenance and bandwidth, partially offset by an increase in amortization of intangible assets related to our fiscal 2004 acquisition. Included in total cost of revenue for fiscal year 2005 are impairment and restructuring charges totaling \$0.4 million.

## **Operating Expenses**

*Selling and Marketing.* Selling and marketing expense consists primarily of salaries and related benefits, commissions and marketing expenses such as advertising, product literature, trade show, and marketing and direct mail programs.

Selling and marketing expense increased 13.6% to approximately \$14.8 million, or 13.6% of total revenue, in fiscal year 2006 from approximately \$13.0 million, or 11.8% of total revenue, in fiscal year 2005. The increase of

approximately \$1.8 million resulted primarily from approximately \$1.3 million of increased salary expense resulting from an increased headcount of selling personnel, \$0.3 million due to the effect of implementing SFAS 123R, as well as increases of \$0.4 million in travel costs and \$0.1 million in marketing program costs, partially offset by a decrease of \$0.3 million in partner referral fees.

## **Table of Contents**

Selling and marketing expense increased 22.6% to approximately \$13.0 million, or 11.8% of total revenue, in fiscal year 2005 from approximately \$10.6 million, or 11.7% of total revenue, in fiscal year 2004. The increase of approximately \$2.4 million resulted primarily from approximately \$1.2 million of increased salary expense resulting from an increased headcount of selling personnel, as well as increases of \$0.3 million in travel costs, \$0.4 million in partner referral fees, \$0.2 million in recruitment fees and \$0.3 million in marketing program costs.

*General and Administrative.* General and administrative expense includes the costs of financial, human resources, IT and administrative personnel, professional services, bad debt and corporate overhead.

General and administrative expense decreased 7.6% to approximately \$21.8 million, or 20.0% of total revenue, in fiscal year 2006 from approximately \$23.6 million, or 21.5% of total revenue, in fiscal year 2005. The decrease of approximately \$1.8 million was primarily the result of a \$2.2 million decrease in bad debt expense due to successful efforts to improve our accounts receivable collectibility, \$0.7 million decrease in litigation expense as we resolved certain outstanding matters, \$0.6 million decrease in salary related expense and a \$0.8 million decrease in depreciation expense, as well as decreases in property, sales taxes and consulting and insurance expenses, partially offset by an approximate, \$3.0 million increase from the effect of implementing SFAS 123R.

General and administrative expense decreased 4.5% to approximately \$23.6 million, or 21.5% of total revenue, in fiscal year 2005 from approximately \$24.7 million, or 27.1% of total revenue, in fiscal year 2004. The decrease of approximately \$1.1 million was primarily the result of a \$1.6 million decrease in litigation expense and a \$1.2 million decrease in rent expense, offset by an approximate \$1.0 million increase in salary related expense, \$0.5 million increase in bank borrowing fees and \$0.2 million increase in property and sales taxes.

## **Operating Expenses    Impairment, Restructuring and Other**

The Company recorded \$1.4 million of net lease impairment charges during fiscal year 2006, resulting primarily from an adjustment to a lease modification for our impaired Chicago facility and revisions in assumptions associated with impaired facilities in Houston, Syracuse and San Jose, partially offset by a \$0.2 million impairment credit to operating expense, resulting from a settlement with the landlord of the Company's abandoned property in Lexington, Massachusetts.

Cost associated with impairment, restructuring and abandonment of leased facilities included in operating expenses was approximately \$2.7 million in fiscal year 2005, as compared to costs associated with impairment, restructuring and abandonment of lease facilities of approximately \$5.3 million in fiscal year 2004. The costs incurred during fiscal year 2005 relate primarily to the abandonment of administrative space at our Lexington, Massachusetts facility and a \$1.1 million impairment charge related to our investment in Interliant debt securities.

## **Interest Income**

Interest income increased 363.9% to approximately \$283,000, or 0.3% of total revenue, in fiscal year 2006 from approximately \$61,000, or 0.1% of total revenue, in fiscal year 2005. The increase of \$222,000 is mainly due to an increase in the rate of interest on our security deposits, interest earned on our escrow account and interest on a settlement awarded by the court in favor of the Company.

Interest income decreased 51.6% to approximately \$61,000, or 0.1% of total revenue, in fiscal year 2005 from approximately \$126,000, or 0.1% of total revenue, in fiscal year 2004. The decrease was due primarily to the reduced levels of average cash on hand.

## **Interest Expense**

Interest expense increased 26.3% to approximately \$9.6 million, or 8.8% of total revenue, in fiscal year 2006 from approximately \$7.6 million, or 6.9% of total revenue, in fiscal year 2005. The increase of \$2.0 million is primarily related to amounts drawn during the third quarter on our term loan with Silver Point Finance, the addition of capital leases and an increase in the rate of interest on our financing line with Silicon Valley Bank.

## **Table of Contents**

Interest expense increased 138.6% to approximately \$7.6 million, or 6.9% of total revenue, in fiscal year 2005 from approximately \$3.2 million, or 3.4% of total revenue, in fiscal year 2004. The increase of \$4.4 million was due mainly to the accrued interest related to our notes payable to Waythere, Inc.

### **Other Income (Expense), Net**

Other income was approximately \$0.4 million in fiscal year 2006, as compared to other income of approximately \$2.8 million in fiscal year 2005. The other income recorded during fiscal year 2006 is primarily attributable to \$0.3 million rent from sublease of our facility at Las Vegas with a third party.

Other income was approximately \$2.8 million in fiscal year 2005, as compared to other expense of approximately \$0.5 million in fiscal year 2004. The other income recorded during fiscal year 2005 includes a \$2.5 million gain on the MBS transaction during the fourth quarter.

### **Income Tax Expense**

The Company recorded \$1.2 million of deferred income tax expense during fiscal year 2006 as compared to \$1.3 million in fiscal year 2005 and no deferred income tax expense in fiscal year 2004. No income tax benefit was recorded for the losses incurred due to a valuation allowance recognized against deferred tax assets. The deferred tax expense resulted from tax goodwill amortization related to the Surebridge asset acquisition in June 2004 and the acquisition of certain Applied Theory assets by Clearblue Technologies Management, Inc. prior to the pooling of interest in December 2002. Accordingly, the acquired goodwill and intangible assets for both acquisitions are amortizable for income tax purposes over fifteen years. For financial statement purposes, goodwill is not amortized for either acquisition but is tested for impairment annually. Tax amortization of goodwill results in a taxable temporary difference, which will not reverse until the goodwill is impaired or written off for book purposes. The resulting taxable temporary difference may not be offset by deductible temporary differences currently available, such as net operating loss carryforwards, which expire within a definite period.

### **Liquidity and Capital Resources**

As of July 31, 2006, our principal sources of liquidity included cash and cash equivalents, a revolving credit facility of \$3 million provided by Silver Point Finance and a revolving credit facility with Atlantic Investors LLC, to borrow a maximum amount of \$5 million. We had a working capital deficit of \$9.1 million, including cash and cash equivalents of \$3.4 million at July 31, 2006, as compared to a working capital deficit of \$77.6 million, including cash and cash equivalents of \$6.8 million, at July 31, 2005.

The total net change in cash and cash equivalents for the fiscal year ended July 31, 2006 was a decrease of \$3.5 million. The primary uses of cash during fiscal year 2006 included \$3.4 million of cash used for operating activities, \$5.8 million for purchases of property and equipment, approximately \$59.4 million in repayments on notes payable and capital lease obligations, and a \$6.4 million increase in restricted cash. Our financing activities during the fiscal year ended July 31, 2006 provided approximately \$71.5 million of cash consisting primarily of \$70.0 million in proceeds from a term loan from Silver Point Finance, \$1.1 million in proceeds received from exercise of stock options and \$0.4 million in proceeds from notes payable. Net cash used for operating activities of \$3.4 million during the fiscal year ended July 31, 2006, resulted primarily from funding our \$13.9 million net loss and \$10.0 million of net changes in operating assets and liabilities, which was partially offset by non-cash charges of approximately \$20.5 million.

Our revolving credit facility with Silver Point allows for maximum borrowing of \$3.0 million and expires on April 11, 2011. Outstanding amounts will bear interest at either: (a) 7% per annum plus, the greater of (i) Prime Rate, and

(ii) the Federal Funds Effective Rate plus 3%, or (b) 8% plus the floating rate of LIBOR. Interest is payable in arrears on the last day of the month for Base Rate loans, and the last day of the chosen interest period (one, two or three months) for LIBOR Rate loans. As of July 31, 2006, we had not started borrowing from our credit facility with Silver Point.

Our revolving credit facility with Atlantic Investors LLC allows for maximum borrowing of \$5.0 million. All outstanding amounts under the Atlantic facility shall be paid in full no later than the date that is 90 days after the

**Table of Contents**

earlier of: (a) April 11, 2011, and (b) the date all obligations under the Silver Point Credit Facility have been paid in full. Credit advances under the Atlantic facility shall bear interest at either: (a) 7% per annum plus the greater of (i) Prime Rate, and (ii) the Federal Funds Effective Rate plus 3%, or (b) 8% plus the floating rate of LIBOR. Interest may, at our option, be paid in cash or promissory notes. As of July 31, 2006, we had not started borrowing from our facility with Atlantic Investors LLC. Given the Company's cash resources as of July 31, 2006 and committed lines of credit, the Company believes that it has sufficient liquidity to support its operations over the next fiscal year and for the foreseeable future.

**Contractual Obligations and Commercial Commitments**

We are obligated under various capital and operating leases for facilities and equipment. Future minimum annual rental commitments under capital and operating leases and other commitments, as of July 31, 2006, are as follows:

Description	Total	Less than			After Year 5
		1 Year	1-3 Years (In thousands)	4-5 Years	
Short/Long-term debt (a)	\$ 80,103	\$ 8,115	\$ 15,134	\$ 56,854	\$
Interest on debt (b)	40,741	8,449	16,761	15,531	
Capital leases	3,068	2,302	766		
Bandwidth commitments	2,039	1,388	651		
Maintenance for hardware/software	631	615	16		
Property leases (c)(d)(e)	42,923	9,465	14,688	5,603	13,167
	\$ 169,505	\$ 30,334	\$ 48,016	\$ 77,988	\$ 13,167

- (a) Short/Long-term debt does not tie to the Consolidate Balance Sheets due to recorded discounts for warrants and embedded derivative
- (b) Interest on Term Loan assumes Libor is fixed at 5.51%
- (c) Amounts exclude certain common area maintenance and other property charges that are not included within the lease payment.
- (d) On February 9, 2005, the Company entered into an Assignment and Assumption Agreement with a Las Vegas-based company, whereby this company purchased from us the right to use 29,000 square feet in our Las Vegas data center, along with the infrastructure and equipment associated with this space. In exchange, we received an initial payment of \$600,000 and were to receive \$55,682 per month over two years. On May 31, 2006, we received full payment for the remaining unpaid balance. This agreement shifts the responsibility for management of the data center and its employees, along with the maintenance of the facility's infrastructure, to this Las Vegas-based company. Pursuant to this Agreement, we have subleased back 2,000 square feet of space, allowing us to continue servicing our existing customer base in this market. Commitments related to property leases include an amount related to the 2,000 square feet sublease.
- (e) In September 2006, we extended our San Jose data center lease for this facility until November 2016. The commitment amounts for the new lease not included in commitment schedule are \$16.9 million.

### **Off-Balance Sheet Financing Arrangements**

We do not have any off-balance sheet financing arrangements other than operating leases, which are recorded in accordance with generally accepted accounting principles.

### **Critical Accounting Policies**

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. As such, management is required to make certain estimates, judgments and assumptions that it believes are reasonable based on the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts

**Table of Contents**

of revenues and expenses for the periods presented. The significant accounting policies which management believes are the most critical to aid in fully understanding and evaluating our reported financial results include revenue recognition, allowance for doubtful accounts and impairment of long-lived assets. Management reviews the estimates on a regular basis and makes adjustments based on historical experiences, current conditions and future expectations. The reviews are performed regularly and adjustments are made as required by current available information. We believe these estimates are reasonable, but actual results could differ from these estimates.

*Revenue Recognition.* Revenue consists of monthly fees for Web site and Internet application management, hosting, colocation and professional services. We also derive revenue from the sale of software and related maintenance contracts. Reimbursable expenses charged to customers are included in revenue and cost of revenue. Application management, hosting and colocation revenue is billed and recognized over the term of the contract, generally one to three years, based on actual usage. Installation fees associated with application management, hosting and colocation revenue are billed at the time the installation service is provided and recognized over the term of the related contract. Payments received in advance of providing services are deferred until the period such services are provided. Revenue from professional services is recognized on either a time and material basis as the services are performed or under the percentage of completion method for fixed price contracts. When current contract estimates indicate that a loss is probable, a provision is made for the total anticipated loss in the current period. Contract losses are determined to be the amount by which the estimated service costs of the contract exceed the estimated revenue that will be generated by the contract. Unbilled accounts receivable represents revenue for services performed that have not been billed. Billings in excess of revenue recognized are recorded as deferred revenue until the applicable revenue recognition criteria are met. Revenue from the sale of software is recognized when persuasive evidence of an arrangement exists, the product has been delivered, the fees are fixed and determinable and collection of the resulting receivable is reasonably assured. In instances where we also provide application management and hosting services in conjunction with the sale of software, software revenue is deferred and recognized ratably over the expected customer relationship period. If we determine that collection of a fee is not reasonably assured, we defer the fee and recognize revenue at the time collection becomes reasonably assured, which is generally upon receipt of cash.

Existing customers are subject to ongoing credit evaluations based on payment history and other factors. If it is determined subsequent to our initial evaluation and at any time during the arrangement that collectability is not reasonably assured, revenue is recognized as cash is received. Due to the nature of our service arrangements, we provide written notice of termination of services, typically 10 days in advance of disconnecting a customer. Revenue for services rendered during this notification period is generally recognized on a cash basis as collectability is not considered probable at the time the services are provided.

*Allowance for Doubtful Accounts.* We perform periodic credit evaluations of our customers' financial conditions and generally do not require collateral or other security against trade receivables. We make estimates of the collectability of our accounts receivables and maintain an allowance for doubtful accounts for potential credit losses. We specifically analyze accounts receivable and consider historical bad debts, customer and industry concentrations, customer credit-worthiness, current economic trends and changes in our customer payment patterns when evaluating the adequacy of the allowance for doubtful accounts. We specifically reserve for 100% of the balance of customer accounts deemed uncollectible. For all other customer accounts, we reserve for 20% of the balance over 90 days old and 2% of all other customer balances. Changes in economic conditions or the financial viability of our customers may result in additional provisions for doubtful accounts in excess of our current estimate.

*Impairment of Long-lived Assets.* We review our long-lived assets, subject to amortization and depreciation, including customer lists and property and equipment, for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. Factors we consider important that could trigger an interim impairment review include:

significant underperformance relative to expected historical or projected future operating results;

significant changes in the manner of our use of the acquired assets or the strategy of our overall business;

significant negative industry or economic trends;

## **Table of Contents**

significant declines in our stock price for a sustained period; and

our market capitalization relative to net book value.

Recoverability is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If the assets were considered to be impaired, the impairment to be recognized would be measured by the amount by which the carrying value of the assets exceeds their fair value. Fair value is determined based on discounted cash flows or appraised values, depending on the nature of the asset. Assets to be disposed of are valued at the lower of the carrying amount or their fair value less disposal costs. Property and equipment is primarily comprised of leasehold improvements, computer and office equipment and software licenses. Intangible assets consist of customer lists.

We review the valuation of our goodwill in the fourth quarter of each fiscal year. If an event or circumstance indicates that it is more likely than not an impairment loss has been incurred, we review the valuation of goodwill on an interim basis. An impairment loss is recognized to the extent that the carrying amount of goodwill exceeds its implied fair value. Impairment losses are recognized in operations.

### **Recent Accounting Pronouncements**

On September 13, 2006, the Securities and Exchange Commission ( SEC ) issued Staff Accounting Bulletin No. ( SAB 108 ) which provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. SAB 108 is effective for fiscal years ending after November 15, 2006. We are currently evaluating the effect, if any, that this pronouncement will have on our financial results.

In September 2006, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standard ( SFAS ) No. 157, Fair Value Measurements ( FAS 157 ). FAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. The provisions of FAS 157 are effective for the fiscal year beginning June 1, 2008. We are currently evaluating the impact of the provisions of FAS 157.

In June 2006, the Emerging Issues Task Force ( EITF ) reached a consensus on EITF 06-3, How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement . EITF 06-3 provides that taxes imposed by a governmental authority on a revenue producing transaction between a seller and a customer should be shown in the income statement on either a gross or a net basis, based on the entity's accounting policy, which should be disclosed pursuant to APB Opinion No. 22, Disclosure of Accounting Policies. If such taxes are significant, and are presented on a gross basis, the amounts of those taxes should be disclosed. EITF 06-3 must be applied to financial reports for interim and annual reporting periods beginning after December 15, 2006. We are currently evaluating the impact EITF 06-3 will have on the presentation of our consolidated financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ( FIN 48 ). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in the Company's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. The provisions of FIN 48 are effective for the fiscal year beginning June 1, 2007. We are currently evaluating the impact of the provisions of FIN 48 will have on our financial results.

In February 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 and 140 . SFAS No. 155 (1) permits fair value re-measurement for any

hybrid financial instrument that contains an embedded derivative that would otherwise require bifurcation, (2) clarifies which interest-only strips and principal-only strips are not subject to the requirements of FASB Statement No. 133, (3) establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an imbedded derivative requiring bifurcation, (4) clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives, and (5) amends FASB Statement No. 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest in other than

**Table of Contents**

another derivative financial instrument. SFAS No. 155 is effective January 1, 2007 and we are currently evaluating the effect, if any, that this pronouncement will have on our future financial results.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections: A Replacement of APB Opinion No. 20 and SFAS No. 3. This statement changes the requirements for the accounting for and reporting of a voluntary change in accounting principle, and also applies to instances when an accounting pronouncement does not include specific transition provisions. The statement replaces the previous requirement that voluntary changes be recognized by including the cumulative effect of the change in net income of the period of the change. The statement requires retrospective application of a new accounting principle to prior periods' financial statements, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. The statement is effective for changes and corrections made in fiscal years beginning after December 15, 2005. The Company does not expect the adoption of the statement to have a material effect on its financial condition, results of operations or cash flows.

In November 2005, the FASB issued FASB Staff Position ( FSP ) FAS 123(R)-3, Transition Election to Accounting for the Tax Effects of Share-Based Payment Awards . This FSP requires an entity to follow either the transition guidance for the additional-paid-in-capital pool as prescribed in SFAS No. 123(R), Share-Based Payment, or the alternative transition method as described in the FSP. An entity that adopts SFAS No. 123(R) using the modified prospective application may make a one-time election to adopt the transition method described in this FSP. An entity may take up to one year from the later of its initial adoption of SFAS No. 123(R) or the effective date of this FSP to evaluate its available transition alternatives and make its one-time election. This FSP became effective in November 2005. We do not believe the adoption of FSP FAS 123(R)-3 will have a material impact on our consolidated financial statements or the results of operations.

**Item 7A. *Quantitative and Qualitative Disclosures About Market Risk***

We do not enter into financial instruments for trading purposes. We have not used derivative financial instruments or derivative commodity instruments in our investment portfolio or entered into hedging transactions. However, under our senior secured term loan facility with Silver Point Finance, we are required to have interest rate protection which shall effectively limit the unadjusted LIBOR component of the interest costs of our loan with respect to not less than 70% of the principal amount at a rate not more than 6.5% per annum. Our exposure to market risk associated with risk-sensitive instruments entered into for purposes other than trading purposes is not material to us. We currently have no significant foreign operations and therefore face no material foreign currency exchange rate risk. Our interest rate risk at July 31, 2006 was limited mainly to the London Inter Bank Offered Rate (LIBOR) on our outstanding loan with our senior secured term loan facility with Silver Point Finance. At July 31, 2006 we had no open derivative positions with respect to our borrowing arrangements. Had our senior secured term loan facility with Silver Point Finance been outstanding for the full fiscal year, a hypothetical 100 basis point increase in the LIBOR rate would have resulted in an approximate \$0.7 million increase in our interest expense for the fiscal year ended July 31, 2006.

**Item 8. *Financial Statements and Supplementary Data***

Our consolidated Financial Statements and Schedule and the Reports of the Independent Registered Public Accounting Firm appear beginning on page F-1 of this report and are incorporated herein by reference.

**Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure***

None.

**Item 9A. *Controls and Procedures***

*Evaluation of Disclosure Controls and Procedures.* Based on management's evaluation (with the participation of NaviSite's principal executive officer and principal financial officer) as of the end of the period covered by this report, NaviSite's principal executive officer and principal financial officer have concluded that NaviSite's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) are effective to ensure that information required to be disclosed by

## **Table of Contents**

NaviSite in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that the information is accumulated and communicated to its management, including to its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

*Changes in Internal Control Over Financial Reporting.* There was no change in NaviSite's internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, NaviSite's internal control over financial reporting.

### **Item 9B. Other Information**

On October 24, 2006, we entered into Bonus Letters with each of Arthur Becker, John J. Gavin, Jr. and Monique Cormier detailing our 2007 Executive Incentive Program (the 2007 Plan ). Under the 2007 Plan, Mr. Becker's base salary for fiscal 2007 is \$350,000, his target incentive bonus is \$250,000 and his over-achievement bonus opportunity is \$120,000. Mr. Gavin's compensation under the 2007 Plan includes a fiscal 2007 base salary of \$250,000, a target incentive bonus of \$125,000 and an over-achievement bonus opportunity of \$80,000. Ms. Cormier's compensation under the 2007 Plan includes a fiscal 2007 base salary of \$190,000, a target incentive bonus of \$55,000 and an over-achievement bonus opportunity of \$25,000. Payment of the incentive bonuses and the over-achievement bonuses is dependent on the Company achieving certain financial goals as established by the Board of Directors.

## **PART III**

Certain information required by Part III of this Form 10-K is omitted because we will file a definitive proxy statement pursuant to Regulation 14A (the Proxy Statement ) not later than 120 days after the end of the fiscal year covered by this Form 10-K, and certain information to be included therein is incorporated herein by reference.

### **Item 10. Directors and Executive Officers of the Registrant**

Incorporated by reference to the portions of the Definitive Proxy Statement entitled Proposal No. 1 Election of Directors, Additional Information Management, Additional Information Section 16(a) Beneficial Ownership Reporting Compliance and Additional Information Audit Committee Financial Expert.

*Code of Ethics.* NaviSite has adopted a Code of Business Conduct and Ethics that applies to all directors, officers and employees of NaviSite, including NaviSite's principal executive officer, and its senior financial officers (principal financial officer and controller or principal accounting officer, or persons performing similar functions). A copy of NaviSite's Code of Business Conduct and Ethics is filed with or incorporated by reference in this report.

### **Item 11. Executive Compensation**

Incorporated by reference to the portions of the Proxy Statement entitled Additional Information Executive Compensation, Additional Information Director Compensation, Additional Information Compensation Committee Report, Additional Information Stock Performance Graph, and Additional Information Employment Agreements and Severance and Change of Control Arrangements. The information specified in Item 402(k) and (l) of Regulation S-K and set forth in our Proxy Statement is not incorporated herein by reference.

### **Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters**

Incorporated by reference to the portion of the Proxy Statement entitled Security Ownership of Certain Beneficial Owners and Management.

**Table of Contents****Equity Compensation Plan Information as of July 31, 2006**

The following table sets forth certain information regarding NaviSite's equity compensation plans as of July 31, 2006.

<b>Plan Category</b>	<b>(a) Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights</b>	<b>(b) Weighted-average Exercise Price of Outstanding Options, Warrants and Rights</b>	<b>(c) Number of Securities Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in column (a))</b>
Equity compensation plans approved by security holders	6,590,793	\$ 2.82	4,700,785
Equity compensation plans not approved by security holders		N/A	
<b>Total</b>	<b>6,590,793</b>		<b>4,700,785</b>

**Item 13. *Certain Relationships and Related Transactions***

Incorporated by reference to the portion of the Proxy Statement entitled *Additional Information - Certain Relationships and Related Transactions*.

**Item 14. *Principal Accounting Fees and Services***

Incorporated by reference to the portion of the Proxy Statement entitled *Additional Information - Independent Auditors Fees and Additional Information - Audit Committee Policy on Pre-Approval of Services of Independent Auditors*.

**PART IV****Item 15. *Exhibits, Financial Statement Schedules***

## 1. Financial Statements.

The financial statements listed in the Index to Consolidated Financial Statements are filed as part of this report.

## 2. Financial Statement Schedule.

Financial Statement Schedule II of NaviSite and the corresponding Report of Independent Registered Public Accounting Firm on Financial Statement Schedule are filed as part of this report. All other financial statement schedules have been omitted as they are either not required, not applicable, or the information is otherwise included.

## 3. Exhibits.

The Exhibits listed in the Exhibit Index immediately preceding such Exhibits are filed with or incorporated by reference in this report.

**Table of Contents****SIGNATURES**

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors and Stockholders  
NaviSite, Inc. and Subsidiaries:

We have audited the accompanying consolidated balance sheets of NaviSite, Inc. and subsidiaries as of July 31, 2006 and 2005, and the related consolidated statements of operations, changes in stockholders' equity (deficit), and cash flows for each of the years in the three-year period ended July 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of NaviSite, Inc. and subsidiaries as of July 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years in the three-year period ended July 31, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, effective August 1, 2005, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*.

**NAVISITE, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(1) Description of Business**

NaviSite, Inc. ( NaviSite , the Company , we , us or our ) provides information technology (IT) hosting, outsourcing and professional services for mid- to large-sized organizations. Leveraging our set of technologies and subject matter expertise, we deliver cost-effective, flexible solutions that provide responsive and predictable levels of service for our clients' business. Over 940 companies across a variety of industries rely on NaviSite to build, implement and manage their mission-critical systems and applications. NaviSite is a trusted advisor committed to ensuring the long-term success of our customers' business applications and technology strategies. NaviSite has 14 state-of-the-art data centers and 8 major office locations across the U.S., U.K. and India. Substantially all revenue is generated from customers in the United States.

**(2) Summary of Significant Accounting Policies**

***(a) Basis of Presentation and Background***

NaviSite was formed in 1996 within CMGI, Inc., our former majority stockholder, to support the networks and host Web sites of CMGI, its subsidiaries and several of its affiliated companies. In 1997, we began offering and supplying Web site hosting and management services to companies not affiliated with CMGI. We were incorporated in Delaware in December 1998. In October 1999, we completed our initial public offering of common stock and remained a majority-owned subsidiary of CMGI until September 2002, at which time ClearBlue Technologies, Inc., or CBT, became our majority stockholder.

In December 2002, we acquired all of the issued and outstanding stock of ClearBlue Technologies Management, Inc., or CBTM, a subsidiary of CBT, which previously had acquired assets from the bankrupt estate of AppliedTheory Corporation related to application management and application hosting services. This acquisition added application management and development capabilities to our managed application services.

In February 2003, we acquired Avasta, Inc., a provider of application management services, adding automated application and device monitoring software capabilities to our managed application services.

In April 2003, we acquired Conxion Corporation, a provider of application hosting, content and electronic software distribution and security services. This acquisition added proprietary content delivery software and related network agreements to our managed application services and managed infrastructure services.

In May 2003, we acquired assets of Interliant, Inc. related to managed messaging, application hosting and application development services. This acquisition added messaging-specific services and capabilities and IBM Lotus Domino expertise, and formed the core of our managed messaging services.

In August 2003, we acquired assets of CBT related to colocation, bandwidth, security and disaster recovery services, enhancing our managed infrastructure services and adding physical plant assets. Specifically, we acquired all of the outstanding shares of six wholly-owned subsidiaries of CBT with data centers located in Chicago, Illinois; Las Vegas, Nevada; Los Angeles, California; Milwaukee, Wisconsin; Oakbrook, Illinois; and Vienna, Virginia and assumed the revenue and expenses of four additional wholly-owned subsidiaries of CBT with data centers located in Dallas, Texas; New York, New York; San Francisco, California; and Santa Clara, California, which four entities we later acquired.

In June 2004, we completed the acquisition of substantially all of the assets and liabilities of Surebridge, Inc., a privately held provider of managed application services for mid-market companies. This acquisition broadened our managed application services, particularly in the areas of financial management, supply chain management, human resources management and customer relationship management.

---

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)*****(b) Principles of Consolidation***

The accompanying consolidated financial statements include the accounts of NaviSite, Inc. and our wholly-owned subsidiaries, ClickHear, Inc., NaviSite Acquisition Corp., ClearBlue Technologies Management, Inc., Avasta, Inc., Conxion Corporation, Intrepid Acquisition Corp., ClearBlue Technologies/Chicago-Wells, Inc., ClearBlue Technologies/Las Vegas, Inc., ClearBlue Technologies/Los Angeles, Inc., ClearBlue Technologies/Milwaukee, Inc., ClearBlue Technologies/ Oak Brook, Inc., and ClearBlue Technologies/Vienna, Inc., ClearBlue Technologies/New York, Inc., ClearBlue Technologies/Dallas, Inc., ClearBlue Technologies/Santa Clara, Inc., ClearBlue Technologies/San Francisco, Inc., Lexington Acquisition Corp. and NaviSite India Private Limited after elimination of all significant intercompany balances and transactions.

***(c) Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates. Significant estimates made by management include the useful lives of fixed assets and intangible assets, recoverability of long-lived assets, the collectability of receivables, the deferred tax valuation allowance and other assumptions for sublease and lease abandonment reserves.

***(d) Cash and Cash Equivalents and Restricted Cash***

The Company considers all highly liquid securities with original maturities of three months or less to be cash equivalents. The Company had restricted cash of \$7.4 million and \$1.2 million as of July 31, 2006 and July 31, 2005, including \$6.5 million and \$0.1 million which is classified as short-term on the Consolidated Balance Sheet as of July 31, 2006 and July 31, 2005, respectively and is included in Prepaid expenses and other current assets. The July 31, 2006 balance primarily represents cash held in escrow for payment to the AppliedTheory Estate against the Note Payable and cash collateral requirements for standby letters of credit associated with several of the Company's facility and equipment leases. The July 31, 2005 balance represents cash collateral requirements for standby letters of credit associated with several of the Company's facility and equipment leases.

***(e) Revenue Recognition***

Revenue consists of monthly fees for Web site and Internet application management, hosting, colocation and professional services. The Company also derives revenue from the sale of software and related maintenance contracts. Reimbursable expenses charged to clients are included in revenue and cost of revenue. Application management, hosting and colocation revenue is billed and recognized over the term of the contract, generally one to three years, based on actual usage. Installation fees associated with application management, hosting and colocation revenue is billed at the time the installation service is provided and recognized over the term of the related contract. Payments received in advance of providing services are deferred until the period such services are provided. Revenue from professional services is recognized on either a time and material basis as the services are performed or under the percentage of completion method for fixed price contracts. When current contract estimates indicate that a loss is

probable, a provision is made for the total anticipated loss in the current period. Contract losses are determined to be the amount by which the estimated service costs of the contract exceed the estimated revenue that will be generated by the contract. Unbilled accounts receivable represents revenue for services performed that have not been billed. Billings in excess of revenue recognized are recorded as deferred revenue until the applicable revenue recognition criteria are met. Revenue from the sale of software is recognized when persuasive evidence of an arrangement exists, the product has been delivered, the fees are fixed and determinable and collection of the resulting receivable is reasonably assured. In instances where the Company also provides application management and hosting services in conjunction with the sale of software, software revenue is deferred and recognized ratably

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

over the expected customer relationship period. If we determine that collection of a fee is not reasonably assured, we defer the fee and recognize revenue at the time collection becomes reasonably assured, which is generally upon receipt of cash.

***(f) Concentration of Credit Risk***

Our financial instruments include cash, accounts receivable, obligations under capital leases, debt agreements, derivative instruments, accounts payable, and accrued expenses. As of July 31, 2006, the carrying cost of these instruments approximated their fair value. The financial instruments that potentially subject us to concentration of credit risk consist primarily of accounts receivable. Concentration of credit risk with respect to trade receivables is limited due to the large number of customers across many industries that comprise our customer base. One third-party government customer accounted for 9%, 8% and 12% of our total revenue for the fiscal year ended July 31, 2006, 2005 and 2004, respectively. Accounts receivable included approximately \$0.9 million, \$1.0 million and \$1.5 million due from this third-party customer at July 31, 2006, 2005 and 2004, respectively.

***(g) Comprehensive Income (Loss)***

Comprehensive income (loss) is defined as the change in equity of a business enterprise during a period of time from transactions and other events and circumstances from non-owner sources. The Company reports accumulated other comprehensive income (loss), resulting from foreign currency translation adjustments, on the Consolidated Statements of Changes in Stockholders' Equity (Deficit).

***(h) Property and Equipment***

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range from three to five years. Leasehold improvements and assets acquired under capital leases are amortized using the straight-line method over the shorter of the lease term or estimated useful life of the asset. Assets acquired under capital leases in which title transfers to us at the end of the agreement are amortized over the useful life of the asset. Expenditures for maintenance and repairs are charged to expense as incurred.

Renewals and betterments, which materially extend the life of assets, are capitalized and depreciated. Upon disposal, the asset cost and related accumulated depreciation are removed from their respective accounts and any gain or loss is reflected within Other income (expense), net in our Consolidated Statements of Operations.

***(i) Long-lived Assets, Goodwill and Other Intangibles***

The Company follows the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. This statement requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to undiscounted future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less cost to sell.

The Company reviews the valuation of goodwill in accordance with SFAS No. 142, Goodwill and Other Intangible Assets. Under the provisions of SFAS No. 142, goodwill is required to be tested for impairment annually in lieu of being amortized. This testing is done in the fourth fiscal quarter of each year. Furthermore, goodwill is required to be tested for impairment on an interim basis if an event or circumstance indicates that it is more likely than not an impairment loss has been incurred. An impairment loss shall be recognized to the extent that the carrying amount of goodwill exceeds its implied fair value. Impairment losses shall be recognized in operations. The

F-9

---

**Table of Contents**

**NAVISITE, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Company's valuation methodology for assessing impairment requires management to make judgments and assumptions based on historical experience and projections of future operating performance. If these assumptions differ materially from future results, the Company may record impairment charges in the future.

***(j) Income Taxes***

We account for income taxes under the asset and liability method in accordance with SFAS No. 109, Accounting for Income Taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

***(k) Derivative Financial Instruments***

Derivative instruments are recorded in the balance sheet as either assets or liabilities, measured at fair value. Changes in fair value are recognized currently in earnings. The Company utilizes interest rate derivatives to protect against rising interest rates on a portion of its floating rate debt and did not qualify to apply hedge accounting. The interest rate differentials to be received under such derivatives and the changes in the fair value of the instruments are recognized over the life of the agreements as adjustments to interest expense. The principal objectives of the derivative instruments are to minimize the risks and reduce the expenses associated with financing activities. The Company does not use financial instruments for trading purposes.

***(l) Lease Expense***

Lease expense for the Company's real estate leases, which generally have escalating lease payments over the term of the leases, is recorded on a straight-line basis over the lease term, as defined in SFAS No. 13, Accounting for Leases. The difference between the expense recorded in the consolidated statements of operations and the amount paid is recorded as deferred rent and is included in the consolidated balance sheets.

***(m) Advertising Costs***

We recognize advertising costs as incurred. Advertising expense was approximately \$0.1 million, \$0 and \$20,000 for the fiscal years ended July 31, 2006, 2005, and 2004, respectively, and is included in the accompanying Consolidated Statements of Operations as a component of selling and marketing expenses.

***(n) Stock-Based Compensation Plans***

In December 2004, the Financial Accounting Standards Board (FASB) issued a Statement, Share-Based Payment, an amendment of FASB Statements Nos. 123 and 95 (SFAS 123R), that addresses the accounting for share-based payment transactions in which a company receives employee services in exchange for either equity instruments of the company or liabilities that are based on the fair value of the company's equity instruments or that may be settled by the issuance of such equity instruments. The statement eliminates the ability to account for share-based compensation

transactions using the intrinsic value method and generally requires that such transactions be accounted for using a fair value based method and recognized as expense in the Consolidated Statement of Operations. In March 2005, the SEC issued Staff Accounting Bulletin (SAB) No. 107 regarding the Staff's interpretation of SFAS 123R. This interpretation provides the Staff's views regarding interpretations between SFAS 123R and certain SEC rules and regulations and provides interpretations of the valuation of share-based payments for public companies. The interpretive guidance is intended to assist companies in applying the provisions of SFAS 123R and investors and users of financial statements in analyzing the information provided.

F-10

---

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Following the guidance prescribed in SAB 107, on August 1, 2005, NaviSite adopted SFAS 123R using the modified prospective method, and accordingly, we have not restated the consolidated results of operations from prior interim periods and fiscal years. Under SFAS 123R, we are required to measure compensation cost for all stock based awards at fair value on date of grant and recognize compensation expense over the requisite service period that the awards are expected to vest. For U.S. grants, the Company generally grants options under its equity plan that vest as to 25% of the original number of shares on the six month anniversary of the option holder and thereafter in equal monthly amounts over the three year period commencing on the six month anniversary of the option holder. In February 2006, the Company issued its first option grants to its India employees. The options vest as to 33.33% of the original number of shares on the ninth month following the date of the grant and thereafter in equal monthly amounts over the three year period commencing on the ninth month following the date of grant.

Prior to the adoption of SFAS 123R, we recognized compensation cost for stock options issued with exercise prices set below market prices on the date of grant. We recorded stock compensation expense of approximately \$0.8 million and \$0.5 million during the fiscal years ended July 31, 2005 and 2004 respectively. The following table illustrates the effect on net loss and net loss per common share if we had applied the fair value recognition provisions of SFAS 123 to stock based compensation.

	<b>Fiscal 2005 (In thousands, except per share data)</b>	<b>Fiscal 2004 (In thousands, except per share data)</b>
Net Loss, as reported	\$ (16,084)	\$ (21,354)
Add: Stock based employee compensation expense From the Amended and Restated 2003 Stock Incentive Plan included in reported net loss	\$ 769	\$ 473
Deduct: Total stock based employee compensation expense determined under fair value based method for all awards	\$ (5,651)	\$ (5,702)
Net Loss, as adjusted	\$ (20,966)	\$ (26,583)
Net Loss per common share:		
Basic and diluted as reported	\$ (0.57)	\$ (0.85)
Basic and diluted as adjusted	\$ (0.74)	\$ (1.06)

The fair value of each stock option grant was estimated on the date of grant using the Black-Scholes option pricing model, assuming no expected dividends and the following weighted average assumptions.

	<b>2005</b>	<b>2004</b>
Risk-free interest rate	3.19%	2.68%

Expected volatility	124.95%	137.34%
Expected life (years)	2.12	2.08
Weighted average fair value of options granted during the period	\$ 1.78	\$ 4.58

Upon adoption of SFAS 123R, we recognized the compensation expense associated with awards granted after August 1, 2005 and the unvested portion of previously granted awards that remain outstanding as of August 1, 2005, in our Consolidated Statement of Operations for the first quarter of fiscal year 2006. During the year ended July 31, 2006, we recorded approximately \$1.0 million in cost of sales, \$0.3 million in sales and marketing and \$3.0 million in general and administrative expenses for stock-based compensation expense. In February 2006, the Company granted options to certain senior managers as part of the FY06 management bonus program. The options were granted with the standard 42 months vesting schedule with the option to accelerate all vesting if certain performance criteria were achieved. It was probable that the performance criteria were achieved and the options were fully

F-11

---

Table of Contents

## NAVISITE, INC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

accelerated at July 31, 2006. The stock compensation costs relating to this acceleration was approximately \$30,000 and \$0.2 million, included in cost of sales and general and administrative expenses, respectively.

Consistent with our valuation method for the disclosure-only provisions of SFAS 123, we are using the Black-Scholes option pricing model to value the compensation expense associated with our stock-based awards under SFAS 123R. In addition, we estimate forfeitures when recognizing compensation expense, and we will adjust our estimate of forfeitures when they are expected to differ. For the three months ended July 31, 2006, we estimated that 5% of options granted will be forfeited before the first vesting tranche. Forfeitures after the first vesting tranche are estimated to not be material. Prior to the quarter ended April 30, 2006, we estimated that 15% of options granted would be forfeited before the first vesting tranche. This change in accounting estimate was reflected by recognizing a cumulative adjustment in compensation cost in the quarter ended April 30, 2006.

The fair value of each stock option grant was estimated on the date of grant using the Black-Scholes option pricing model, assuming no expected dividends and the following weighted average assumptions. The expected volatility is based upon the historical volatility of the Company's stock price.

	<b>Fiscal 2006</b>
Risk-free interest rate	4.55%
Expected volatility	107.04%
Expected life(years)	2.51
Weighted average fair value of options granted	\$ 1.27

The following table reflects stock option activity under the Company's equity plans for the fiscal year ended July 31, 2006.

	<b>Number of Shares</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Remaining Contractual Term</b>	<b>Aggregate Intrinsic Value</b>
Options outstanding, beginning of year	6,086,655	\$ 3.26		
Granted	2,185,825	\$ 1.93		
Exercised	(471,342)	\$ 2.38		
Forfeited or Expired	(1,210,345)	\$ 3.62		
Options Outstanding, July 31, 2006	6,590,793	\$ 2.82	8.36	9,608,473
Options Exercisable, July 31, 2006	3,464,160	\$ 3.33	7.81	4,002,448

The total remaining unrecognized compensation cost related to nonvested awards is \$4.1 million. The weighted average period over which the cost is expected to be recognized is 2.11 years.

The following table highlights the activity and value of the nonvested shares during fiscal year 2006.

	<b>Number of Shares</b>		<b>Weighted Average Grant-Date Fair Value</b>
Nonvested shares as of July 31, 2005	3,501,620	\$	1.99
Granted	2,185,825	\$	1.27
Vested	(1,856,034)	\$	2.09
Forfeited	(704,778)	\$	1.64
Nonvested shares as of July 31, 2006	3,126,633	\$	1.51

**NAVISITE, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

***(o) Historical and Unaudited Pro Forma Basic and Diluted Net Loss Per Common Share***

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed using the weighted average number of common and diluted common equivalent shares outstanding during the period, using either the if-converted method for convertible preferred stock and notes or the treasury stock method for warrants and options, unless amounts are anti-dilutive.

For fiscal years ended July 31, 2006, 2005 and 2004, net loss per basic and diluted share is based on weighted average common shares and excludes any common stock equivalents, as they would be anti-dilutive due to the reported losses. There were 2,050,240, 406,346 and 970,748 of diluted shares related to warrants, employee stock options and unissued shares related to the Avasta settlement that were excluded as they have an anti-dilutive effect due to the losses for fiscal years 2006, 2005 and 2004, respectively.

***(p) Segment Reporting***

We currently operate in one reportable segment, managed IT services. The Company's chief operating decision maker reviews financial information at a consolidated level.

***(q) Recent Accounting Pronouncements***

On September 13, 2006, the Securities and Exchange Commission ( SEC ) issued Staff Accounting Bulletin No. ( SAB 108 ) which provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. SAB 108 is effective for fiscal years ending after November 15, 2006. We are currently evaluating the effect, if any, that this pronouncement will have on our financial results.

In September 2006, the Financial Accounting Standards Board ( FASB ) issued SFAS No. 157, Fair Value Measurements ( FAS 157 ). FAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. The provisions of FAS 157 are effective for the fiscal year beginning June 1, 2008. The Company is currently evaluating the impact of the provisions of FAS 157.

In June 2006, the Emerging Issues Task Force ( EITF ) reached a consensus on EITF 06-3, How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement . EITF 06-3 provides that taxes imposed by a governmental authority on a revenue producing transaction between a seller and a customer should be shown in the income statement on either a gross or a net basis, based on the entity's accounting policy, which should be disclosed pursuant to APB Opinion No. 22, Disclosure of Accounting Policies. If such taxes are significant, and are presented on a gross basis, the amounts of those taxes should be disclosed. EITF 06-3 must be applied to financial reports for interim and annual reporting periods beginning after December 15, 2006. We are currently evaluating the impact EITF 06-3 will have on the presentation of our consolidated financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ( FIN 48 ). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in the Company's financial statements in

accordance with FASB Statement No. 109, Accounting for Income Taxes. The provisions of FIN 48 are effective for the fiscal year beginning June 1, 2007. We are currently evaluating the impact of the provisions of FIN 48 will have on our financial results.

In February 2006, the FASB issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 and 140 . SFAS No. 155 (1) permits fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that would otherwise require bifurcation, (2) clarifies which interest-only strips and principal-only strips are not subject to the requirements of FASB

**Table of Contents**

**NAVISITE, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Statement No. 133, (3) establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an imbedded derivative requiring bifurcation, (4) clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives, and (5) amends FASB Statement No. 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest in other than another derivative financial instrument. SFAS No. 155 is effective January 1, 2007 and we are currently evaluating the effect, if any, that this pronouncement will have on our future financial results.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections: A Replacement of APB Opinion No. 20 and SFAS No. 3. This statement changes the requirements for the accounting for and reporting of a voluntary change in accounting principle, and also applies to instances when an accounting pronouncement does not include specific transition provisions. The statement replaces the previous requirement that voluntary changes be recognized by including the cumulative effect of the change in net income of the period of the change. The statement requires retrospective application of a new accounting principle to prior periods' financial statements, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. The statement is effective for changes and corrections made in fiscal years beginning after December 15, 2005. The Company does not expect the adoption of the statement to have a material effect on its financial condition, results of operations or cash flows.

In November 2005, the FASB issued FASB Staff Position ( FSP ) FAS 123(R)-3, Transition Election to Accounting for the Tax Effects of Share-Based Payment Awards . This FSP requires an entity to follow either the transition guidance for the additional-paid-in-capital pool as prescribed in SFAS No. 123(R), Share-Based Payment, or the alternative transition method as described in the FSP. An entity that adopts SFAS No. 123(R) using the modified prospective application may make a one-time election to adopt the transition method described in this FSP. An entity may take up to one year from the later of its initial adoption of SFAS No. 123(R) or the effective date of this FSP to evaluate its available transition alternatives and make its one-time election. This FSP became effective in November 2005. The adoption of FSP FAS 123(R)-3 will not have a material impact on our consolidated financial statements or the results of operations.

***(r) Foreign Currency***

The functional currencies of our international subsidiaries are the local currencies. The financial statements of the subsidiaries are translated into U.S. dollars using period end exchange rates for assets and liabilities and average exchange rates during corresponding periods for revenue, cost of revenue and expenses. Translation gains and losses are deferred and accumulated as a separate component of stockholders' equity ( Accumulated other comprehensive income (loss) ).

***(s) Reclassifications***

Certain fiscal year 2005 and fiscal year 2004 amounts have been reclassified to conform to the fiscal year 2006 financial statement presentation.

**(3) Impairment of Long-Lived Assets**

The Company recorded approximately \$0.8 million of impairment charges during fiscal year 2005, for property and equipment, consisting primarily of unamortized leasehold improvements, related to our facilities in Lexington, MA; Santa Clara, CA and Vienna, VA, which we have abandoned. In addition, the Company recorded an impairment charge during the fourth quarter of fiscal year 2005 in the amount of \$1.1 million related to its investment in debt securities as discussed in Note 8. The impairment charges are included in Impairment, restructuring and other in the accompanying Consolidated Statements of Operations (see Note 12). No such charges were recorded during fiscal year 2006.

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

During fiscal year 2004, the Company recorded a \$1.1 million charge including a \$0.6 million impairment charge for furniture and fixtures related to abandoned leases in Houston, TX; Syracuse, NY and San Jose, CA, a \$0.2 million charge for capital improvements to our impaired space at 400 Minuteman Road in Andover, MA and a \$0.3 million charge related to the impairment of leasehold improvements in our facility at 55 Francisco Street, San Francisco, CA.

All impairment charges were recorded in the Consolidated Statements of Operations based upon the nature of the asset being impaired and the nature of the asset's use. The impairments recorded as a separate component of cost of revenue related to assets that were either being utilized or had at some time been utilized to generate revenue. The determination was based upon how the assets had historically been expensed, either as lease expense or depreciation/amortization.

**(4) Property and Equipment**

Property and equipment at July 31, 2006 and 2005 are summarized as follows:

	<b>July 31,</b>	
	<b>2006</b>	<b>2005</b>
	<b>(In thousands)</b>	
Office furniture and equipment	\$ 3,303	\$ 3,159
Computer equipment	45,075	38,690
Software licenses	11,216	10,658
Leasehold improvements	9,958	9,369
	69,552	61,876
Less: Accumulated depreciation and amortization	(54,638)	(46,677)
Property and equipment, net	\$ 14,914	\$ 15,199

The estimated useful lives of our fixed assets are as follows: office furniture and equipment, 5 years; computer equipment, 3 years; software licenses, the shorter of 3 years or the life of the license; and leasehold improvements, the shorter of the useful life or the lease term.

The cost and related accumulated amortization of property and equipment held under capital leases (classified as computer equipment above) are as follows:

	<b>July 31,</b>	
	<b>2006</b>	<b>2005</b>
	<b>(In thousands)</b>	
Cost	\$ 8,505	\$ 6,637

Accumulated depreciation and amortization	(7,082)	(6,097)
	\$ 1,423	\$ 540

## NAVISITE, INC.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**(5) Intangible Assets**

Intangible assets consist of customer lists resulting from our acquisitions of Avasta, Interliant and Surebridge and the as if poolings of CBTM and CBT. The gross carrying amount and accumulated amortization as of July 31, 2006 and 2005 for customer lists related to prior acquisitions are as follows:

	<b>July 31,</b>	
	<b>2006</b>	<b>2005</b>
	<b>(In thousands)</b>	
Gross carrying amount	\$ 29,791	\$ 29,791
Less: Accumulated amortization	(18,104)	(13,228)
Customer lists, net	\$ 11,687	\$ 16,563

During the fourth quarter of fiscal year 2005, the Company wrote off approximately \$1.2 million of gross carrying value and \$0.3 million of related accumulated amortization, in conjunction with the MBS transaction.

Intangible asset amortization expense for the years ended July 31, 2006, 2005 and 2004 aggregated \$4.9 million, \$5.6 million and \$3.8 million, respectively. Customer lists are being amortized over estimated useful lives ranging from five to eight years. The amortization expense related to intangible assets for the next five years is as follows:

<b>Year Ending July 31,</b>	<b>(In thousands)</b>	
2007	\$	3,932
2008	\$	3,044
2009	\$	1,868
2010	\$	1,005
2011	\$	988

**(6) Goodwill**

The following table presents details of the Company's carrying amount of goodwill for the fiscal years ended July 31:

	<b>Fiscal 2006</b>	<b>Fiscal 2005</b>	<b>Fiscal 2004</b>
	<b>(In thousands)</b>		
Goodwill as of August 1,	\$ 43,159	\$ 45,920	\$ 3,206
Goodwill acquired			42,714

Adjustments to preliminary purchase price allocation			(2,761)
Goodwill as of July 31,	\$ 43,159	\$ 43,159	\$ 45,920

During the fiscal year ended July 31, 2005, the changes in estimates used for fair value adjustments to assets acquired and liabilities assumed resulted primarily from \$3.1 million in working capital adjustments associated with the 2004 Surebridge asset purchase agreement (see Note 7), offset by \$0.3 million of changes in estimates of the fair value of certain Surebridge assets and liabilities recorded during the initial purchase price allocation, which was finalized in fiscal 2005.

**(7) Acquisition**

*Surebridge.* On June 10, 2004, we completed the acquisition of substantially all of the assets and liabilities of Surebridge, Inc., or Surebridge, a privately held provider of managed application services for mid-market companies (now known as Waythere, Inc.), in exchange for two promissory notes, in the aggregate principal

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

amount of approximately \$39.3 million, which were paid off in fiscal year 2006, three million shares of our common stock and the assumption of certain liabilities of Surebridge at closing. The primary reasons for the acquisition included the addition of service offerings, specific contractual relationships with PeopleSoft and Microsoft, and established contractual revenue base, as well as potential operational savings. As the primary reasons for the acquisition were not related to the tangible net assets of Surebridge, the purchase price was significantly in excess of the fair value of the net assets acquired. The acquisition was accounted for under the purchase method of accounting. Upon final resolution of the net worth calculation in the fourth quarter of fiscal year 2005, which resulted in a reduction of approximately \$3.1 million in the outstanding principal balance of the outstanding notes payable and a corresponding reduction in goodwill (see Note 6), we completed the final purchase accounting for this acquisition during the fourth quarter of 2005. We have included the financial results of Surebridge in our consolidated financial statement beginning June 10, 2004, the date of acquisition.

**(8) Investment in Debt Securities**

In a privately negotiated transaction with Fir Tree Recovery Master Fund, LP and Fir Tree Value Partners, LDC, pursuant to an Assignment Agreement dated October 11, 2002 and in a series of open market transactions from certain other third-party holders, we acquired an aggregate principal amount of approximately \$36.3 million face value, 10% convertible senior notes (Interliant Notes) due in 2006 of Interliant, Inc. (Interliant) for a total consideration of approximately \$2.0 million. Interliant was a provider of managed services, which filed a petition under Chapter 11 of Title 11 of the United States Bankruptcy Code in the Southern District of New York (White Plains) on August 5, 2002, and we made this investment with the intention of participating in the reorganization/sale of Interliant.

On May 16, 2003, the Bankruptcy Court confirmed us as the successful bidder for the purchase of the Interliant Assets. We used \$0.6 million of the first projected distributions to be made on our Interliant Notes as partial payment for the assets acquired. As such, we have reduced the carrying value of the Interliant Notes by this amount. On September 30, 2004, the Third Amended Plan of Liquidation of Interliant and its affiliated debtors became effective. As a result of unfavorable facts and circumstances occurring in the fourth quarter of fiscal year 2005, as learned from bankruptcy counsel, which negatively impacted the recoverability of our investment, the Company recorded an impairment charge in the amount of \$1.1 million, reducing the carrying value of the Interliant Notes to approximately \$0.2 million. The final amount and timing of any distributions we will receive on our Interliant Notes will be determined when all claims against the estate have been settled. It may be greater or less than the remaining \$0.2 million carrying value which is included in Other assets on our Consolidated Balance Sheets.

**(9) Accrued Expenses**

Accrued expenses consist of the following:

	<b>July 31,</b>	
	<b>2006</b>	<b>2005</b>
	<b>(In thousands)</b>	
Accrued payroll, benefits and commissions	\$ 4,331	\$ 3,846
Accrued legal	412	1,361

Edgar Filing: NAVISITE INC - Form 10-K

Accrued accounts payable	2,905	2,896
Accrued contract termination fees	634	429
Accrued sales/use, property and miscellaneous taxes	1,070	1,075

<b>Long-term debt</b>	<b>\$ 62,678</b>	<b>\$ 409</b>

**(a) Term Loan and Revolving Credit Facility**

On April 11, 2006, we entered into a senior secured Term Loan and senior secured Revolving Credit Facility, (the Credit Facility) with Silver Point Finance LLC, (the Lender) to repay certain maturing debt and increase borrowing available for corporate purposes. The Term Loan consists of a five year single-draw Term Loan in the aggregate amount of \$70 million. Borrowings under the Term Loan are guaranteed by the Company and all of its subsidiaries. During the first twelve months of the loan, we are required to make quarterly interest only payments to the Lender and commencing one year after closing date of the loan, we are also scheduled to make quarterly repayments of the principal. The maturity date of the Term Loan is April 11, 2011. The Lender is entitled to prepayment of the outstanding balance under the Term Loan, if any, upon the occurrence of various events, including among others, if the Company sells assets and does not reinvest the proceeds in assets, receives cash proceeds from the incurrence of any indebtedness, has excess cash, or closes an equity financing transaction, provided that the first \$10 million plus 50% of the remaining net proceeds from an equity financing shall not be subject to the mandatory prepayment requirement. Generally, prepayments are subject to a prepayment premium ranging from 8%-1% depending upon the timing of the prepayment (see Note 11 for discussion of the valuation of this prepayment premium). The unpaid amount of the Term Loan and accrued interest and all other obligations shall become due and payable immediately upon occurrence and continuation of any event of default. Under the Term Loan agreement, we must comply with various financial and non-financial covenants. The financial covenants include among others, minimum fixed charge coverage ratio, maximum consolidated leverage ratio, minimum consolidated EBITDA and maximum annual capital expenditures. The primary non-financial covenants limit our ability to pay dividends, make investments, engage in transactions with affiliates, sell assets, conduct mergers or acquisitions, incur indebtedness or liens, alter capital

structure and sell stock. At July 31, 2006 we were not in compliance with the maximum annual capital expenditure covenant which condition was subsequently waived by the Lender.

Outstanding amounts of the Term Loan bear interest at either: (a) 7% per annum plus, the greater of (i) Prime Rate, and (ii) the Federal Funds Effective Rate plus 3%, or (b) 8% plus the floating rate of LIBOR. To the extent interest payable on the Term Loan (a) exceeds the LIBOR Rate plus 5% in year one or (b) exceeds the LIBOR Rate plus 7% for the years thereafter, such amounts exceeding the threshold will be capitalized and added to the outstanding principal amount of the Term Loan and shall incur interest. Outstanding amounts under the Revolving Credit Facility bear interest at either: (a) 7% per annum plus, the greater of (i) Prime Rate, and (ii) the Federal Funds

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Effective Rate plus 3%, or (b) 8% plus the floating rate of LIBOR. Interest is payable in arrears on the last day of the month for Base Rate loans, and the last day of the chosen interest period (one, two or three months) for LIBOR Rate loans. We are required to maintain Interest Rate Agreements constituting caps with respect to an aggregate notional principal amount of a portion of the Loan, to limit the Unadjusted LIBOR Rate Component of the interest costs to the Company (see Note 11).

As of July 31, 2006, we had \$70.7 million gross outstanding under the Term Loan and had accrued approximately \$0.4 million in interest related to this Term Loan. The amount borrowed was used to repay our accounts receivable financing line with Silicon Valley Bank, convertible notes and interest payable to Waythere, Inc. (formerly Surebridge, Inc.) and to pay transaction fees and expenses relating to the loan. In addition, we borrowed \$6.4 million which is being held in an escrow account to payoff notes payable to the AppliedTheory Estate.

In connection with the Credit Facility, the Company issued two warrants to purchase an aggregate of 3,514,933 shares of common stock of the Company at an exercise price of \$0.01 per share. These warrants were not exercisable until after 90 days following the closing date of the Credit Facility and will expire on April 11, 2016. As of July 31, 2006, we had not borrowed under the Credit Facility. The warrants were fair valued using the Black-Scholes option-pricing model and are recorded in our Consolidated Balance Sheets as a discount to the loan amount of \$9.1 million at inception and \$8.5 million at July 31, 2006 and will be amortized into interest expense over the five-year term of the Credit Facility.

***(b) Note Payable to Atlantic Investors, LLC***

On January 29, 2003, we entered into a \$10.0 million Loan and Security Agreement (Atlantic Loan) with Atlantic Investors, LLC (Atlantic), a related party. The Atlantic Loan bears an interest rate of 8% per annum. On April 11, 2006, the Company entered into an Amended and Restated Loan Agreement with Atlantic, in connection with and as a condition precedent to the Credit Facility with Silver Point, which amended and restated the existing loan agreement between the Company and Atlantic dated January 29, 2003. Under the Atlantic amendment and related transaction documents, Atlantic agreed to reduce the availability of the Atlantic Loan to the amount outstanding as of April 11, 2006 of \$3.0 million and approximately \$0.7 million of accrued interest, agreed that this indebtedness shall be an unsecured obligation of the Company, agreed to subordinate this indebtedness to amounts owed by the Company to Silver Point and agreed to extend the maturity date of the loan to the earlier of the date that is 90 days after the earlier of: (a) April 11, 2011, and (b) the date all obligations under the Silver Point Credit Facility have been paid in full.

In the event the Company's outstanding repayment obligations under the Atlantic Loan are not paid in full on or before the date that is 90 days after the closing date of the Silver Point transaction, Atlantic shall have the right, but not the obligation, at all times thereafter until Atlantic receives full payment, of converting such outstanding amounts into shares of the Company's common stock by dividing (i) the dollar value of the outstanding obligation by (ii) \$2.81, rounded to the nearest whole share.

At July 31, 2006, we had \$3.0 million outstanding under the Atlantic Loan. This amount is shown as Long Term Note Payable to Related Party on our Consolidated Balance Sheets. On July 31, 2006, we had approximately \$0.8 million in accrued interest related to this note.

***(c) Revolving Credit Facility with Atlantic Investors, LLC***

On April 11, 2006, we entered into an unsecured subordinated Revolving Credit Agreement with Atlantic Investors LLC, in connection with and as a condition precedent to the Silver Point credit facility, whereby the Company established a subordinated revolving credit facility with Atlantic (the Atlantic Facility ) in the amount not to exceed \$5 million. Credit advances under the Atlantic Facility shall bear interest at either: (a) 7% per annum plus, the greater of (i) Prime Rate, and (ii) the Federal Funds Effective Rate plus 3%, or (b) 8% plus the floating rate

**Table of Contents**

**NAVISITE, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

of LIBOR. Interest may, at the Company's option, be paid in cash or promissory notes. All outstanding amounts under the Atlantic Facility shall be paid in full by the Company no later than the date that is 90 days after the earlier of:

(a) April 11, 2011, and (b) the date all obligations under the Credit Facility have been paid in full.

We plan to use the proceeds of the Atlantic Credit Facility, if necessary, for general corporate and working capital purposes of the Company and its subsidiaries. As of July 31, 2006, there were no borrowings outstanding under the Atlantic Credit Facility.

***(d) Notes Payable to the AppliedTheory Estate***

As part of CBTM's acquisition of certain AppliedTheory assets, CBTM entered into two unsecured promissory notes totaling \$6.0 million (Estate Liability) due to the AppliedTheory Estate on June 13, 2006. The Estate Liability bears interest at 8% per annum, which is due and payable annually. At July 31, 2006, we had approximately \$0.5 million in accrued interest related to these notes. At July 31, 2006, we had borrowed \$6.4 million from Silver Point Finance as part of the Term Loan and placed it in an escrow account reserved to repay these notes. This \$6.4 million is included in Prepaid expenses and other current assets on our Consolidated Balance Sheets. In July 2006, NaviSite reached agreement with the secured creditors of AppliedTheory to settle certain claims against the estate of AppliedTheory and repay the outstanding notes including accrued interest for approximately \$5.0 million. The settlement agreement is currently awaiting approval by the bankruptcy court and is expected to become final within the next twelve months.

***(e) Notes Payable to Landlord***

As part of an amendment to our 400 Minuteman Road lease, \$2.2 million of our future payments to the landlord of our 400 Minuteman Road facility was transferred into a note payable (Landlord Note). The Landlord Note bears interest at an annual rate of 11% and calls for 36 equal monthly payments of principal and interest, with the final payment due on November 1, 2006. The \$2.2 million represents leasehold improvements made by the landlord, on our behalf, to the 400 Minuteman location in order to facilitate the leasing of a portion of the facility (First Lease Amendment), as well as common area maintenance and property taxes associated with the space.

In addition, during fiscal year 2004, we paid \$120,000 and we entered into a separate \$150,000 note (Second Landlord Note) with the landlord for additional leasehold improvements to facilitate a subleasing transaction involving a specific section of the 400 Minuteman location. The Second Landlord Note bears interest at an annual rate of 11% and calls for 36 equal monthly payments of principal and interest, with the final payment due on March 1, 2007.

**(11) Derivative Instruments**

In May 2006, the Company purchased an interest rate cap on a notional amount of 70% of the outstanding principal of the Term Loan (see Note 10) until expiration in April 2011. The Company paid approximately \$320,000 to lock in a maximum LIBOR interest rate of 6.5% that could be charged on the notional amount during the term of the agreement. As of July 31, 2006, the fair value of the interest rate derivative was approximately \$210,000 which is included in Other assets in the Company's Consolidated Balance Sheets. The change in fair value of approximately \$110,000 was charged to Other income/(expense), net during the fourth quarter.

The prepayment penalty of our Term Loan was determined to be an embedded derivative which was required to be separately valued from the Term Loan. The Company's third party valuation consultant calculated the fair value of this

embedded derivative to be approximately \$867,000 which has been included in the Consolidated Balance Sheets as a discount to the Term Loan with an offsetting amount included in Other long-term liabilities . Amortization of the embedded derivative, calculated on a straight line basis, will be included in interest expense and will reduce the discount to the Term Loan over the term of the loan. Any changes in the valuation of the embedded

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

derivative will be recorded as an adjustment to any interest expense previously recorded and to the discount to the Term Loan with an offsetting adjustment to Other long-term liabilities .

**(12) Commitments and Contingencies*****(a) Leases***

*Abandoned Leased Facilities.* During fiscal year 2003, we abandoned our administrative space on the second floor of our 400 Minuteman Road, Andover, MA leased location. We continue to maintain and operate our Data Center on the first floor of the building. While we remain obligated under the terms of the lease for the rent and other costs associated with the second floor of the building, we ceased to use the space on January 31, 2003. Therefore, in accordance with SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities, we recorded a charge to our earnings in fiscal year 2003 of approximately \$5.4 million to recognize the costs of exiting the space. The liability is equal to the total amount of rent and other direct costs for the period of time the second floor of the building was expected to remain unoccupied plus the present value of the amount by which the rent paid by us to the landlord exceeds any rent paid to us by a tenant under the terms of a sublease over the remainder of the initial lease term, which is January 2012. During fiscal year 2004, \$2.2 million of our future payments to the landlord of our 400 Minuteman Road facility were transferred into a note payable (see Note 10).

Near the end of our fiscal year 2002, we abandoned our sales office space in La Jolla, CA. At that time we were able to sublet the space to a third party. During the second quarter of fiscal year 2003, the sublease tenant stopped making payments under the sublease and has abandoned the space. During fiscal year 2005, we settled all remaining liability with the landlord.

During the third quarter of fiscal year 2003, in conjunction with the Conxion acquisition, we impaired data center and office leases in Chicago, IL and Amsterdam, The Netherlands as these leases provided no economic benefit to the combined Company. During fiscal year 2005, we settled all remaining liability with the landlord of our Amsterdam facility.

During the first quarter of fiscal year 2004, we abandoned administrative office space at 55 Francisco St., San Francisco, CA and data center space and office space located at Westwood Center, Vienna, VA. While we remain obligated under the terms of these leases for the rent and other costs associated with these leases, we made the decision to cease using these spaces on October 31, 2003 and have no foreseeable plans to occupy them in the future. Therefore, in accordance with SFAS No. 146, we recorded a charge to our earnings in the first quarter of fiscal year 2004 of approximately \$1.1 million to recognize the costs of exiting the space. The liability is equal to the total amount of rent and other direct costs for the period of time space is expected to remain unoccupied plus the present value of the amount by which the rent paid by us to the landlord exceeds any rent paid to us by a tenant under a sublease over the remainder of the lease terms, which expired in January 2006 for San Francisco, CA and expired in July 2005 for Vienna, VA.

During the fourth quarter of fiscal year 2004, we abandoned administrative office spaces in Houston, TX, San Jose, CA and Syracuse, NY. While we remain obligated under the terms of these leases for the rent and other costs associated with these leases, we made the decision to cease using these spaces during the fourth quarter of fiscal year 2004 and have no foreseeable plans to occupy them in the future. Therefore, in accordance with SFAS No. 146, we

recorded a charge to our earnings in the fourth quarter of fiscal year 2004 of approximately \$2.7 million to recognize the costs of exiting these spaces. The liability is equal to the total amount of rent and other direct costs for the period of time the spaces are expected to remain unoccupied plus the present value of the amount by which the rent paid by us to the landlord exceeds any rent paid to us by a tenant under a sublease over the remainder of the lease terms, which expire in October 2008 for Houston, TX, November 2006 for San Jose, CA and December 2007 for Syracuse, NY.

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

During the fourth quarter of fiscal year 2004, we recorded a \$284,000 net impairment charge to cost of revenue triggered by a change in the expected recovery from a sublease arrangement at the abandoned lease in Vienna, VA. The lease on this facility expired in July 2005.

Also during the fourth quarter of fiscal year 2004, in conjunction with the Surebridge acquisition, we impaired administrative space in office leases in Bedford, NH and two leases in Atlanta, GA as these spaces provided no economic benefit to the combined Company.

During the first quarter of fiscal year 2005, we abandoned our administrative space at 10 Maguire Road in Lexington, MA. While we remain obligated under the terms of this lease for the rent and other costs associated with this lease, we made the decision to cease using this space during the first quarter of fiscal year 2005 and have no foreseeable plans to occupy it in the future. Therefore, in accordance with SFAS No. 146, we recorded a charge to our current earnings in the first quarter of fiscal year 2005 of approximately \$0.7 million to recognize the costs of exiting this space. The liability is equal to the total amount of rent and other direct costs for the period of time the space is expected to remain unoccupied. The lease expired in April 2006.

The Company recorded \$1.2 million of net lease impairment charges during fiscal year 2005, resulting from costs associated with the abandonment of administrative space at 10 Maguire Road in Lexington, MA, adjustments relating to lease modifications for our Syracuse and Vienna facilities and revisions in assumptions associated with other impaired facilities, offset by a \$0.6 million impairment credit to operating expense, resulting from a settlement with the landlord of the Company's abandoned property in La Jolla, CA.

The Company recorded \$1.4 million of net lease impairment charges during fiscal year 2006, resulting from an adjustment to a lease modification for our Chicago facility and revisions in assumptions associated with other impaired facilities, offset by a \$0.2 million impairment credit to operating expense, resulting from a settlement with the landlord of the Company's abandoned property in Lexington, MA.

All impairment expense amounts recorded are included in the caption Impairment, restructuring and other in the accompanying Consolidated Statements of Operations.

Details of activity in the lease exit accrual for the year ended July 31, 2006 were as follows (in thousands):

<b>Lease Abandonment</b>	<b>Balance at July 31, 2005</b>	<b>Expense</b>	<b>Purchase Accounting and Other Adjustments</b>	<b>Payments, Less Accretion of Interest</b>	<b>Balance at July 31, 2006</b>

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Minimum annual rental commitments under operating leases and other commitments are as follows as of July 31, 2006:

Description	Total	Less	Year 2	Year 3	Year 4	Year 5	After Year 5
		than 1 Year					
(In thousands)							
Short/Long-term debt (a)	\$ 80,103	\$ 8,115	\$ 5,934	\$ 9,200	\$ 11,900	\$ 44,954	\$
Interest on debt (b)	40,741	8,449	8,803	7,958	6,763	8,768	
Capital leases	3,068	2,302	751	15			
Bandwidth commitments	2,039	1,388	635	16			
Maintenance for hardware/software	631	615	15	1			
Property leases (c)(d)(e)	42,923	9,465	8,485	6,203	3,618	1,985	13,167
	\$ 169,505	\$ 30,334	\$ 24,623	\$ 23,393	\$ 22,281	\$ 55,707	\$ 13,167

- (a) Short/Long-term debt does not tie to the Consolidate Balance Sheets due to recorded discounts for warrants and embedded derivative
- (b) Interest on Term Loan assumes Libor is fixed at 5.51%
- (c) Amounts exclude certain common area maintenance and other property charges that are not included within the lease payment.
- (d) On February 9, 2005, the Company entered into an Assignment and Assumption Agreement with a Las Vegas-based company, whereby this company purchased from us the right to use 29,000 square feet in our Las Vegas data center, along with the infrastructure and equipment associated with this space. In exchange, we received an initial payment of \$600,000 and were to receive \$55,682 per month over two years. On May 31, 2006, we received full payment for the remaining unpaid balance. This agreement shifts the responsibility for management of the data center and its employees, along with the maintenance of the facility's infrastructure, to this Las Vegas-based company. Pursuant to this Agreement, we have subleased back 2,000 square feet of space, allowing us to continue servicing our existing customer base in this market. Commitments related to property leases include an amount related to the 2,000 square feet sublease.
- (e) In September 2006, we extended our San Jose data center lease for this facility until November 2016. The commitment amounts for the new lease not included in commitment schedule are \$16.9 million.

Total rent expense for property leases was \$9.8 million, \$10.2 million and \$10.5 million for fiscal years ended July 31, 2006, 2005 and 2004, respectively.

With respect to the property lease commitments listed above, certain cash amounts are restricted pursuant to terms of lease agreements with landlords. At July 31, 2006, restricted cash of approximately \$0.9 million related to these lease agreements and consisted of certificates of deposit and a treasury note and are recorded at cost, which approximates fair value.

***(b) Legal Matters***

*IPO Securities Litigation*

On or about June 13, 2001, Stuart Werman and Lynn McFarlane filed a lawsuit against us, BancBoston Robertson Stephens, an underwriter of our initial public offering in October 1999, Joel B. Rosen, our then chief executive officer, and Kenneth W. Hale, our then chief financial officer. The suit was filed in the United States District Court for the Southern District of New York. The suit generally alleges that the defendants violated federal securities laws by not disclosing certain actions allegedly taken by Robertson Stephens in connection with our

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

initial public offering. The suit alleges specifically that Robertson Stephens, in exchange for the allocation to its customers of shares of our common stock sold in our initial public offering, solicited and received from its customers agreements to purchase additional shares of our common stock in the aftermarket at pre-determined prices. The suit seeks unspecified monetary damages and certification of a plaintiff class consisting of all persons who acquired shares of our common stock between October 22, 1999 and December 6, 2000. Three other substantially similar lawsuits were filed between June 15, 2001 and July 10, 2001 by Moses Mayer (filed June 15, 2001), Barry Feldman (filed June 19, 2001), and Binh Nguyen (filed July 10, 2001). Robert E. Eisenberg, our president at the time of the initial public offering in 1999, also was named as a defendant in the Nguyen lawsuit.

On or about June 21, 2001, David Federico filed in the United States District Court for the Southern District of New York a lawsuit against us, Mr. Rosen, Mr. Hale, Robertson Stephens and other underwriter defendants including J.P. Morgan Chase, First Albany Companies, Inc., Bank of America Securities, LLC, Bear Stearns & Co., Inc., B.T. Alex. Brown, Inc., Chase Securities, Inc., CIBC World Markets, Credit Suisse First Boston Corp., Dain Rauscher, Inc., Deutsche Bank Securities, Inc., The Goldman Sachs Group, Inc., J.P. Morgan & Co., J.P. Morgan Securities, Lehman Brothers, Inc., Merrill Lynch, Pierce, Fenner & Smith, Inc., Morgan Stanley Dean Witter & Co., Robert Fleming, Inc. and Salomon Smith Barney, Inc. The suit generally alleges that the defendants violated the anti-trust laws and the federal securities laws by conspiring and agreeing to raise and increase the compensation received by the underwriter defendants by requiring those who received allocation of initial public offering stock to agree to purchase shares of manipulated securities in the after-market of the initial public offering at escalating price levels designed to inflate the price of the manipulated stock, thus artificially creating an appearance of demand and high prices for that stock, and initial public offering stock in general, leading to further stock offerings. The suit also alleges that the defendants arranged for the underwriter defendants to receive undisclosed and excessive brokerage commissions and that, as a consequence, the underwriter defendants successfully increased investor interest in the manipulated initial public offering of securities and increased the underwriter defendants' individual and collective underwritings, compensation, and revenue. The suit further alleges that the defendants violated the federal securities laws by issuing and selling securities pursuant to the initial public offering without disclosing to investors that the underwriter defendants in the offering, including the lead underwriters, had solicited and received excessive and undisclosed commissions from certain investors. The suit seeks unspecified monetary damages and certification of a plaintiff class consisting of all persons who acquired shares of our common stock between October 22, 1999 and June 12, 2001.

Those five cases, along with lawsuits naming more than 300 other issuers and over 50 investment banks which have been sued in substantially similar lawsuits, have been assigned to the Honorable Shira A. Scheindlin (the Court) for all pretrial purposes (the IPO Securities Litigation). On September 6, 2001, the Court entered an order consolidating the five individual cases involving us and designating *Werman v. NaviSite, Inc., et al.*, Civil Action No. 01-CV-5374 as the lead case. A consolidated, amended complaint was filed thereafter on April 19, 2002 (the Class Action Litigation) on behalf of plaintiffs Arvid Brandstrom and Tony Tse against underwriter defendants Robertson Stephens (as successor-in-interest to BancBoston), BancBoston, J.P. Morgan (as successor-in-interest to Hambrecht & Quist), Hambrecht & Quist and First Albany and against us and Messrs. Rosen, Hale and Eisenberg (collectively, the NaviSite Defendants). Plaintiffs uniformly allege that all defendants, including the NaviSite Defendants, violated the federal securities laws (i.e., Sections 11 and 15 of the Securities Act, Sections 10(b) and 20(a) of the Exchange Act and Rule 10b-5) by issuing and selling our common stock pursuant to the October 22, 1999 initial public offering, without disclosing to investors that some of the underwriters of the offering, including the lead underwriters, had solicited and received extensive and undisclosed agreements from certain investors to purchase aftermarket shares at pre-arranged, escalating prices and also to receive additional commissions and/or other compensation from those investors. At this time, plaintiffs have not specified the amount of damages they are seeking in the Class Action

Litigation.

Between July and September 2002, the parties to the IPO Securities Litigation briefed motions to dismiss filed by the underwriter defendants and the issuer defendants, including NaviSite. On November 1, 2002, the Court held oral argument on the motions to dismiss. The plaintiffs have since agreed to dismiss the claims against

F-24

---

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Messrs. Rosen, Hale and Eisenberg without prejudice, in return for their agreement to toll any statute of limitations applicable to those claims. By stipulation entered by the Court on November 18, 2002, Messrs. Rosen, Hale and Eisenberg were dismissed without prejudice from the Class Action Litigation. On February 19, 2003, an opinion and order was issued on defendants' motion to dismiss the IPO Securities Litigation, essentially denying the motions to dismiss of all 55 underwriter defendants and of 185 of the 301 issuer defendants, including NaviSite.

On June 30, 2003, our Board of Directors considered and authorized us to negotiate a settlement of the pending Class Action Litigation substantially consistent with a memorandum of understanding negotiated among proposed class plaintiffs, the issuer defendants and the insurers for such issuer defendants. Among other contingencies, any such settlement would be subject to approval by the Court. Plaintiffs filed on June 14, 2004, a motion for preliminary approval of the Stipulation And Agreement Of Settlement With Defendant Issuers And Individuals (the Preliminary Approval Motion). On February 15, 2005, the Court approved the Preliminary Approval Motion in a written opinion which detailed the terms of the settlement stipulation, its accompanying documents and schedules, the proposed class notice and, with a modification to the bar order to be entered, the proposed settlement order and judgment. A further conference was held on April 13, 2005, at which time the Court considered additional submissions but did not make final determinations regarding the exact form, substance and program for notifying the proposed settlement class. On August 31, 2005, the Court entered a further Preliminary Order in Connection with Settlement Proceedings (the Preliminary Approval Order), which granted preliminary approval to the issuer's settlement with the plaintiffs in the IPO Securities Litigation. The Court subsequently held a Fed. R. Civ. P. 23 fairness hearing on April 24, 2006 in order to consider the written and oral submissions addressing whether the Court should enter final approval of the settlement; the matter was taken under advisement and remains pending with the Court. If the proposed issuer's settlement is completed and then approved by the Court without further modifications to its material terms, we and the participating insurers acting on our behalf may be responsible for providing funding of approximately \$3.4 million towards the total amount plaintiffs are guaranteed by the proposed issuer's settlement to recover in the IPO Securities Litigation. The amount of the guarantee allocable to us could be reduced or eliminated in its entirety in the event that plaintiffs are able to recover more than the total amount of such overall guarantee from settlements with or judgments obtained against the non-settling defendants. Even if no additional recovery is obtained from any of the non-settling defendants, the settlement amount allocable to us is expected to be fully covered by our existing insurance policies and is not expected to have a material effect on our business, financial condition, results of operations or cash flows.

We believe that the allegations against us are without merit and, if the settlement is not approved by the Court and finalized, we intend to vigorously defend against the plaintiffs' claims. Due to the inherent uncertainty of litigation, we are not able to predict the possible outcome of the suits and their ultimate effect, if any, on our business, financial condition, results of operations or cash flows.

**(13) Income Taxes**

Total income tax expense (benefit) for the years ending July 31, 2006, July 31, 2005, and July 31, 2004, consisted of the following:

July 31, 2006			July 31, 2005			July 31, 2004		
Current	Deferred	Total	Current	Deferred	Total	Current	Deferred	Total
(In thousands)								

Edgar Filing: NAVISITE INC - Form 10-K

	\$	\$	1,173	\$	1,173	\$	\$	1,338	\$	1,338	\$	1	\$	\$	1

F-25

---

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The actual tax expense for the years ending July 31, 2006, July 31, 2005, and July 31, 2004, differs from the expected tax expense for the three years as follows:

	<b>2006</b>	<b>July 31, 2005</b>	<b>2004</b>
	<b>(In thousands)</b>		
Computed expected tax expense (benefit)	\$ (4,338)	\$ (5,014)	\$ (7,260)
State taxes, net of federal income tax benefit	201	229	
Losses not benefited	5,310	6,123	7,261
<b>Total</b>	<b>\$ 1,173</b>	<b>\$ 1,338</b>	<b>\$ 1</b>

Temporary differences between the financial statement carrying and tax bases of assets and liabilities that give rise to significant portions of deferred tax assets (liabilities) are comprised of the following:

	<b>July 31, 2006</b>	<b>July 31, 2005</b>
	<b>(In thousands)</b>	
Deferred tax assets:		
Accruals and reserves	\$ 7,745	\$ 6,526
Loss carryforwards	44,732	39,919
Depreciation and amortization	24,327	25,395
<b>Total deferred tax assets</b>	<b>\$ 76,804</b>	<b>\$ 71,840</b>
Less: Valuation allowance	(76,804)	(71,840)
Deferred tax liabilities:		
Amortization of tax goodwill	\$ (2,511)	\$ (1,338)
<b>Net deferred assets/(liabilities)</b>	<b>\$ (2,511)</b>	<b>\$ (1,338)</b>

The valuation allowance increased by \$5.0 million and \$8.9 million for the years ended July 31, 2006 and 2005, respectively. Reported tax benefits related to approximately \$0.3 million of the valuation allowance at July 31, 2006 will be recorded as an increase to paid-in capital, if realized, as it relates to tax benefits from stock-based compensation.

The Company has recorded a full valuation allowance against its deferred tax assets since management believes that, after considering all the available objective evidence, both positive and negative, historical and prospective, with

greater weight given to historical evidence, it is not more likely than not that these assets will be realized.

As a result of the transaction on September 11, 2002, the Company experienced a change in ownership as defined in Section 382 of the Internal Revenue Code. As a result of the change in ownership, the utilization of its federal and state tax net operating losses generated prior to the transaction is subject to an annual limitation of approximately \$1.2 million. As a result of this limitation, the Company expects that a substantial portion of its federal and state net operating loss carryforwards will expire unused.

The Company has net operating loss carryforwards for federal and state tax purposes of approximately \$111.5 million after taking into consideration net operating losses expected to expire unused due to the Section 382 limitation for the ownership change that occurred on September 11, 2002. The federal net operating loss carryforwards will expire from fiscal year 2012 to fiscal year 2026 and the state net operating loss carryforwards will expire from fiscal year 2009 to fiscal year 2026. The utilization of these net operating loss carryforwards may be further limited if the Company experiences additional ownership changes as defined in Section 382 of the

**Table of Contents**

**NAVISITE, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Internal Revenue Code. The Company also has foreign net operating loss carryforwards of \$3.8 million that may be carried forward indefinitely.

As of July 31, 2006, the Company has not provided for U.S. deferred income taxes on the undistributed earnings of approximately \$0.2 million for its non-U.S. subsidiaries since these earnings are to be reinvested indefinitely. It is not practicable to determine the taxes on such undistributed earnings.

The Company's subsidiary in India benefits from certain tax incentives provided to software and technology firms under Indian tax laws. These incentives presently include an exemption from payment of Indian corporate income taxes for a period of ten consecutive years of operation of software development facilities designated as Software Technology Parks (the STP Tax Holiday). The tax holiday for the Company's Indian subsidiary under STP will expire by 2009.

**(14) Stockholders' Equity**

***Issuance of Common Stock***

On August 8, 2003, we issued 1,100,000 shares of our common stock to CBT at a per share value of \$2.55 in connection with the acquisition of certain assets of CBT (see Note 2). The issuance of these shares has been accounted for as a dividend distribution because Atlantic Investors, LLC and its affiliates are considered to have controlling interest in both CBT and NaviSite. As a result, we reported a reduction of retained earnings of \$2.8 million, which represents the number of common shares issued at the then current market value of \$2.55 per share.

During 2003, we had an insufficient number of stock options remaining within our existing shareholder approved stock option plans for grants to our independent Board of Directors and members of management. At our 2003 annual meeting of stockholders, held on December 9, 2003, our stockholders approved our Amended and Restated 2003 Stock Incentive Plan and we granted stock options to members of our independent Board of Directors and certain members of management at that time. These stock options were granted to the independent members of our Board of Directors and management at strike prices similar to the period that the stock options would have been granted had sufficient shareholder approved stock options been available for grant at that time. Because the strike price of these stock options represented a discount from the market value of our stock on the date of grant, we recorded approximately \$2.0 million of deferred compensation expense, which will be amortized into compensation expense over the vesting period of the stock options. During the years ended July 31, 2004 and July 31, 2005, the Company reported compensation expense of approximately \$0.5 million and \$0.8 million respectively for these options. During the year ended July 31, 2005, approximately \$0.1 million of deferred compensation was written off against APIC due to the termination of a member of the management team. The remaining unamortized compensation charge of approximately \$0.6 million recorded as deferred compensation at July 31, 2005 was reclassified into additional paid in capital in August 2005 upon adoption of SFAS 123R.

As part of the Silicon Valley Bank Financing Agreement, on May 27, 2003 we issued to SVB a warrant to purchase up to 165,000 shares of NaviSite common stock with an exercise price of \$2.50 per share, the closing price of our stock on the last business day before the issuance of the warrant. We fair valued the warrants at approximately \$0.4 million using the Black-Scholes option-pricing model. The value of the warrants was amortized into interest expense over the term of the Financing Agreement. Pursuant to the terms of the warrant, on May 19, 2004, SVB fully exercised its warrant, which resulted in a net issuance of 73,738 shares.

In connection with our amended Silicon Valley Bank Financing Agreement, on January 30, 2004, we issued a warrant to SVB for the purchase of 50,000 shares of common stock at an exercise price of \$5.75 per share. We fair valued the warrant at \$0.2 million using the Black-Scholes option-pricing model. The value of the warrant was amortized into interest expense over the term of the modified Financing Agreement which expired and was repaid in April 2006. The warrant is exercisable at any time on or after September 1, 2004. Pursuant to the terms of a Registration Rights Agreement, dated as of January 30, 2004, we also granted certain registration rights to SVB

F-27

---

**Table of Contents**

**NAVISITE, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

with respect to the shares of common stock issuable upon exercise of the warrant. As of July 31, 2006, the warrants had not been exercised.

On June 10, 2004, we issued 3,000,000 shares of our common stock at a per share value of \$4.55, in connection with the acquisition of certain assets and liabilities of Surebridge.

On October 14, 2003, we received a letter purportedly on behalf of the former stockholders of Avasta, Inc. relating to the issuance of additional shares of common stock pursuant to the earnout calculations pursuant to the Agreement and Plan of Merger and Reorganization dated as of January 29, 2003 among Avasta Acquisition Corp., Avasta and NaviSite. On February 4, 2005, we entered into a settlement agreement in connection with the Avasta earnout calculation. Pursuant to the terms of the settlement, we agreed to issue an aggregate of 521,880 shares of common stock to the former Avasta shareholders and to the attorneys representing the former Avasta shareholders. The Company has recorded the value of the 521,880 shares as equity on its Condensed Consolidated Balance Sheet. Accordingly, with respect to the 521,880 shares, the Company recorded a \$1.4 million charge during the fourth quarter of fiscal year 2004 and recorded a \$0.1 million credit during the second quarter of fiscal year 2005, when the final settlement was reached.

On February 11, 2005, we issued 6,750 shares of restricted stock to be held in escrow to former company employees in connection with the sale of the Clearblue Technologies Las Vegas datacenter to MarquisNet, LLC. On July 1, 2005 a participant ceased employment with Marquisnet, LLC and forfeited 500 shares of common stock. During the year ended July 31, 2005 the Company recorded \$5,593 in compensation expense associated with the issuance of restricted stock. On February 11, 2006 the 6,250 shares became fully vested and the restriction was removed. During the year ended July 31, 2006 the Company recorded \$3,702 in compensation expense associated with this restricted stock.

On April 11, 2006, we entered into a senior secured Term Loan and senior secured Revolving Credit Facility with a financial institution, to repay certain maturing debt and increase borrowing available for corporate purposes. In connection with this credit facility, the Company issued two warrants to purchase an aggregate of 3,514,933 shares of common stock of the Company at an exercise price of \$0.01 per share. The warrants will expire on April 11, 2016. The warrants were fair valued using the Black-Scholes option pricing model and are recorded in our Consolidated Balance Sheet as a discount to the loan amount, based on fair value of \$9.1 million. Warrants are being amortized into interest expense, using the effective interest method over the five year term of the credit facility. For the year ended July 31, 2006, we have amortized \$0.6 million into interest expense.

**(15) Stock Option Plans**

***(a) NaviSite 1998 Equity Incentive Plan***

In December 1998, NaviSite's Board of Directors and Stockholders approved the 1998 Equity Incentive Plan, as amended (the 1998 Plan). The 1998 Plan replaced NaviSite Internet Services Corporation's 1997 Equity Incentive Plan (the 1997 Plan). All options outstanding under the 1997 Plan were cancelled and replaced with an equivalent amount of options issued in accordance with the 1998 Plan. Under the original 1998 Plan, nonqualified stock options or incentive stock options may be granted to NaviSite's or its affiliates' employees, directors, and consultants, as defined, up to a maximum number of shares of Common Stock not to exceed 333,333 shares. In August 1999, the Board of Directors approved an increase in the number of shares authorized under the 1998 Plan to 741,628. In December 2000,

the Board of Directors approved an additional increase in the number of shares authorized under the 1998 Plan to 1,000,000 shares. The Board of Directors administers this plan, selects the individuals who are eligible to be granted options under the 1998 Plan and determines the number of shares and exercise price of each option. The chief executive officer, upon authority granted by the board of directors, is authorized to approve the grant of options to purchase Common Stock under the 1998 Plan to certain persons. Options are granted at fair market value. Options granted under the 1998 Plan have a five-year maximum term and typically vest over a four year period, with 25% of options granted becoming exercisable one year from the date of

---

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

grant and the remaining 75% vesting monthly for the next thirty-six (36) months. On December 9, 2003, the NaviSite stockholders approved the 2003 Stock Incentive Plan and will grant no additional options under the 1998 Plan.

The following table reflects activity and historical exercise prices of stock options under our 1998 Plan for the three years ended July 31, 2006, 2005 and 2004, respectively:

	2006		2005		2004

			134,998		134,919	

***(b) 1999 Employee Stock Purchase Plan***

The 1999 Employee Stock Purchase Plan (the "Stock Purchase Plan") was adopted by NaviSite's Board of Directors and Stockholders in October 1999. The Stock Purchase Plan provides for the issuance of a maximum of 16,666 shares of our Common Stock. The Plan allows participants to purchase shares at 85% of the closing price of Common Stock on the first business day of the Plan period or the last business day of the Plan period, whichever closing price is less.

We issued a total of 16,657 shares since the plan's inception. The Company has not allotted any additional shares to this plan at this time.

***(c) NaviSite 2000 Stock Option Plan***

In November 2000, NaviSite's Board of Directors approved the 2000 Stock Option Plan (the "Plan"). Under the Plan, nonqualified stock options or incentive stock options may be granted to NaviSite's employees, other than those who are also officers or directors, and our consultants and advisors, as defined, up to a maximum number of shares of Common Stock not to exceed 66,666 shares. The board of directors administers this plan, selects the individuals who are eligible to be granted options under the Plan and determines the number of shares and exercise price of each option. Options granted under the Plan have a five-year maximum term and typically vest over a one-

***(d) NaviSite 2003 Stock Incentive Plan***

On July 10, 2003, the 2003 Stock Incentive Plan (the "2003 Plan") was approved by the Board of Directors and was approved by the NaviSite Stockholders on December 9, 2003. The 2003 Plan provides that stock options or restricted stock awards may be granted to employees, officers, directors, consultants, and advisors or NaviSite (or any present or future parent or subsidiary corporations and any other business venture (including, without limitation, joint venture or limited liability company) in which NaviSite has a controlling interest, as determined by the Board of Directors of NaviSite). The Board of Directors authorized 2,600,000 shares of Common Stock for issuance under the 2003 Plan. On November 11, 2003, the 2003 Plan was amended to increase the number of available shares from 2,600,000 to 3,800,000. On May 6, 2004, the Board of Directors authorized an additional 3,000,000 shares of Common Stock for issuance under the 2003 Plan, subject to stockholder approval which was deemed effective on February 20, 2005. On January 27, 2006, the Board of Directors approved, subject to stockholder approval, an amendment to increase the maximum number of shares from 6,800,000 to 11,800,000 shares. This was deemed effective on February 23, 2006. On July 31, 2006 there were 11,800,000 shares authorized under the 2003 Plan.

The 2003 Plan is administered by the Board of Directors of NaviSite or any committee to which the Board delegates its powers under the 2003 Plan. Subject to the provisions of the 2003 Plan, the Board of Directors will determine the

terms of each award, including the number of shares of common stock subject to the award and the exercise thereof.

The Board of Directors may, in its sole discretion, amend, modify or terminate any award granted or made under the 2003 Plan, so long as such amendment, modification or termination would not materially and adversely affect the participant. The Board of Directors may also provide that any stock option shall become immediately exercisable, in full or in part, or that any restricted stock granted under the 2003 Plan shall be free of some or all restrictions.

As of July 31, 2006, stock options to purchase 6,453,130 shares of common stock at an average exercise price of \$2.77 per share were outstanding under the 2003 Plan. For the Company's U.S. and U.K. employees, the options are exercisable as to 25% of the original number of shares on the six month (180<sup>th</sup> day) anniversary of the optionholder and thereafter in equal amounts monthly over the three year period commencing on the six month anniversary of the optionholder. For the Company's India employees, the options are exercisable as to 33.33% on

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

the ninth month (270<sup>th</sup> day) following the grant date and thereafter in equal amounts monthly over the three year period commencing on the ninth month anniversary. Options granted under the 2003 Plan have a maximum term of ten years.

The following table reflects activity and historical exercise prices of stock options under the 2003 Plan for the three years ended July 31, 2006, 2005 and 2004, respectively:

	2006		2005		2004

**Table of Contents****NAVISITE, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)*****(e) Other Stock Option Grants***

At July 31, 2006, we had 2,665 outstanding stock options issued outside of existing plans to certain directors at an average exercise price of \$135.56. These stock options were fully vested on the grant date and have a contractual life of 10 years.

**(16) Related Party Transactions**

Beginning April 1, 2004, we entered into an Outsourcing Agreement with ClearBlue Technologies (UK) Limited ( ClearBlue ) whereby, the Company will provide certain management services as well as manage the day-to-day operations as required by ClearBlue s customers contracts. The Company charges ClearBlue a monthly fee of £4,700, plus 20% of gross profit (gross profit is revenue collected from ClearBlue customers, less the monthly fee), but in the event such calculation is less than \$0, 100% of the gross profit shall remain with ClearBlue. During the fiscal years ended July 31, 2006 and 2005, the Company charged ClearBlue approximately \$137,000 and \$132,000, respectively, under this agreement, which has been included in Revenue, related parties in the Consolidated Statements of Operations. As of July 31, 2006 and 2005, there are no amounts outstanding under this agreement.

In fiscal year 2006, we performed professional services and hosting services for a company whose Managing Director is a member of our Board of Directors. In fiscal year 2006, revenue generated from this company was approximately \$55,000 and is included in Revenue, related parties in the Consolidated Statements of Operations.

In fiscal year 2006, we performed professional services and hosting services for a company whose Chief Executive is related to our Chief Executive Officer. In fiscal year 2006, revenue generated from this company was approximately \$51,000 and is included in Revenue, related parties in the Consolidated Statements of Operations.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board of Directors and Stockholders  
NaviSite, Inc. and Subsidiaries:

Under date of October 11, 2006, we reported on the consolidated balance sheets of NaviSite, Inc. and subsidiaries as of July 31, 2006 and 2005 and the related consolidated statements of operations, changes in stockholders' equity (deficit), and cash flows for each of the years in the three-year period ended July 31, 2006, which are contained in the July 31, 2006 Annual Report on Form 10-K. In connection with our audits of the aforementioned consolidated financial statements, we also audited the related consolidated financial statement schedule of Valuation and Qualifying Accounts in this Form 10-K. This financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement schedule based on our audits. In our opinion, such financial statement schedule when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.
