**NOTICE OF SPECIAL MEETING OF SHAREHOLDERS
TO BE HELD ON JULY 24, 2002**

The Special Meeting of Shareholders (the "Special Meeting") of Marex, Inc. (the "Company") will be held at the Company's offices, 2701 South Bayshore Drive, 5th Floor, Miami, Florida 33133, on Wednesday, July 24, 2002, at 10:00 a.m., for the purpose of considering and voting upon a proposal to amend the Company's Articles of Incorporation to effectuate a one-for-ten reverse split of the Company's Common Stock.

THIS SOLICITATION IS MADE ON BEHALF OF THE COMPANY BY THE BOARD OF DIRECTORS OF THE COMPANY (the "Board of Directors" or the "Board"). Costs of the solicitation will be paid by the Company. The Company will reimburse banks, brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses incurred by them in sending proxy material to shareholders.

The Board has fixed the close of business on June 12, 2002 as the record date for the determination of shareholders entitled to notice of, and to vote at, the Special Meeting or any adjournments thereof.

A shareholder may revoke his or her proxy at any time before exercise by delivering to the Secretary of the Company a written notice of such revocation, by filing with the Secretary of the Company a duly executed proxy bearing a later date, or by voting in person at the Special Meeting.

Shares represented by proxies that reflect abstentions or "broker non-votes" (i.e., shares held by a broker or nominee which are represented at the Special Meeting, but with respect to which such broker or nominee is not empowered to vote on a particular proposal) will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum. The proposal regarding the amendment of the Company's Articles of Incorporation to effectuate a one-for-ten reverse split of the Company's Common Stock will be approved by a favorable vote where the number of shares voted for the proposal exceed the number of shares voted against said proposal at the Special Meeting, providing that a quorum is present.

Whether or not you expect to be present, the Company requests that you sign and date the enclosed proxy card as promptly as possible and return it in the enclosed envelope. No postage is required if mailed in the United States.

**PROPOSAL TO AMEND CERTIFICATE OF INCORPORATION
TO EFFECTUATE A REVERSE SPLIT
OF THE COMPANY'S COMMON STOCK**

Introduction

The Company's Board of Directors has adopted a resolution, subject to shareholder approval, to amend the Company's Articles of Incorporation to effectuate a one-for-ten reverse stock split (the "Reverse Split") of the Company's Common Stock. The effect of the proposed Reverse Split upon holders of Common Stock will be that the total number of shares of the Company's Common Stock held by each shareholder will be automatically converted into that number of whole shares of Common Stock (the "New Common Stock") equal to the number of shares of Common Stock owned immediately prior to the Reverse Split divided by ten, adjusted, as described below, for any fractional shares.

If the proposal is adopted by the Company's shareholders, each shareholder's percentage ownership interest in the Company and proportional voting power will remain unchanged, except for minor differences resulting from adjustments for fractional shares. The rights and privileges of the holders of shares of Common Stock will be substantially unaffected by the adoption of the proposal.

No certificates or script representing fractional shares of the Company's Common Stock will be issued to shareholders because of the Reverse Split. All fractional shares for one-half share or more will be increased to the next higher whole number of shares and all fractional shares of less than one-half share will be decreased to the next lower whole number of shares, respectively.

Reasons for the Reverse Split

The primary purpose of the Reverse Split is to combine outstanding shares of Common Stock because a share of Common Stock outstanding after giving effect to the Reverse Split is likely to trade at a higher price per share than a share of Common Stock outstanding before giving effect to the Reverse Split. A higher trading price may be needed, as it is one of the criteria that must be met for the Common Stock to remain eligible for listing on NASDAQ.

In addition to meeting other requirements, the Company's Common Stock must maintain a minimum bid price of \$1.00 per share in order to remain eligible for continued listing on NASDAQ. Since August 9, 2001, the Company's stock has been trading at a price below \$1.00 per share. On March 5, 2002, the company received a NASDAQ Staff Determination notifying it that the Company's Common Stock had failed to maintain the minimum bid price of \$1.00 and faced delisting unless, before June 3, 2002, the bid price of the Company's Common Stock was at least \$1.00 for a minimum of 10 consecutive trading days. On June 7, 2002, the Company received a written notification that its securities will be delisted. At this stage, the Company has requested a hearing to appeal the Staff's decision to the NASDAQ Listing Qualifications Panel, but there can be no assurance that such an appeal will be successful. Should the Company be delisted from NASDAQ, the Company's securities would trade on the OTC Bulletin Board or in the "pink sheets" maintained by the National Quotation Bureau, Inc., which are generally considered to be less efficient markets.

Table of Contents

Shareholders of the Company do not currently possess, nor upon adoption of the proposal, will they acquire, preemptive rights, which would entitle such persons as a matter of right, to subscribe for the purchase of any securities of the Company.

Implementation of the Proposed Reverse Split

The Reverse Split will be effectuated by amending present Article IV of the Company's Articles of Incorporation to add the following provision:

At 5:00 p.m., Eastern Time, on the date of the filing of these Articles of Amendment to the Articles of Incorporation, all outstanding shares of Common Stock held by each holder of record on such date shall be automatically combined at the rate of one-for-ten without any further action on the part of the holders thereof or this Corporation. No fractional shares will be issued. All fractional shares for one-half share or more shall be increased to the next higher whole number of shares and all fractional shares of less than one-half share shall be decreased to the next lower whole number of shares, respectively.

Assuming the Reverse Split is approved by the shareholders at the Meeting, an appropriate amendment to the Company's Certificate of Incorporation will be filed with the Secretary of State of the State of Florida, and the Reverse Split will become effective as of 5:00 p.m., Eastern Time, on the date of such filing (the Effective Date). It is expected that such filing will take place on the date the Meeting is held. The Reverse Split may be abandoned by the Board of Directors at any time before or after the Meeting and prior to the Effective Date. The shares of Common Stock held by shareholders of record will be converted at 5:00 p.m., Eastern Time, on the Effective Date without any further action on the part of the Company or the shareholders, into that number of whole shares of New Common Stock equal to the number of shares owned immediately prior to the Reverse Split divided by ten, adjusted for any fractional shares.

Principal Effects of the Proposed Reverse Split

Shareholders have no right under Florida law or under the Company's Certificate of Incorporation or By-laws to dissent from the Reverse Split, or to dissent from the rounding to the nearest whole share of any fractional share resulting from the Reverse Split in lieu of issuing fractional shares.

On the Effective Date, the interest of each shareholder of record who owns fewer than ten shares of Common Stock will thereby be terminated, and he or she will have no right to vote as a shareholder or share in the assets or any future earnings of the Company.

The Company has an authorized capitalization of 25,000,000 shares of Common Stock, par value \$.01 per share and 1,000,000 shares of Preferred Stock, par value \$.01 per share. The authorized capital stock will not be reduced or otherwise affected by the Reverse Split. As of June 12, 2002, the Company has 7,635,848 shares of Common Stock, and 266,750 shares of Series A1 Preferred Stock issued and outstanding. Based on the Company's best estimates, the aggregate number of shares of New Common Stock that will be issued and outstanding following the Reverse Split will be 763,584. The number of shares of Series A1 Preferred Stock issued and

Table of Contents

outstanding will not be affected by the Reverse Split, although the Reverse Split will result in an adjustment of the number of shares of Common Stock issuable upon conversion of the Series A1 Preferred Stock as described below.

As of June 12, 2002, the Company had 266,750 shares of Series A1 Preferred Stock outstanding. Each holder of Series A1 Preferred stock has the right, at any time and from time to time, to convert each such share into 7.69 shares of Common Stock. The number of shares of Common Stock issuable upon conversion of the Series A1 Preferred Stock are subject to adjustment in the event of a change in capitalization such as a reverse stock split, so that following implementation of the Reserve Split, each holder of Series A1 Preferred Stock will be entitled to convert such share into .769 shares of New Common Stock.

The Company's 1996 Incentive Stock Option plan, as amended, allows the Company to issue, in the aggregate, options for up to 900,000 shares of the Company's Common Stock to selected employees. The Company's Amended and Restated 1997 Stock Option Plan allows the Company to issue, in the aggregate, options for up to 4,000,000 shares of the Company's Common Stock to selected employees, directors or consultants of the Company. However, the number of shares available for grant under both Plans are subject to adjustment in the event of a change in capitalization, such as the Reverse Split, so that following implementation of the Reverse Split the number of shares of New Common Stock available for grant under the 1996 and 1997 Stock Option Plans shall be 90,000 and 400,000, respectively.

Although there can be no assurance, the decrease in the number of shares of Common Stock outstanding as a consequence of the Reverse Split should result in an increased price level of the Common Stock, thereby enabling the Company to achieve compliance with the \$1.00 bid price requirement imposed by NASDAQ. On June 12, 2002, the closing price for the Common Stock was \$0.07. There can be no assurance that the market price of the New Common Stock after the proposed Reverse Split will be ten times the market price before the proposed Reverse Split, or, for that matter, will either exceed or remain in excess of the current market price of the Company's Common Stock for any particular length of time thereafter, if at all.

The Common Stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and as a result, the Company is subject to the periodic reporting and other requirements of the Exchange Act. The proposed Reverse Split will not affect the registration of the Common Stock under the Exchange Act or the listing of the Common Stock in the NASDAQ system.

If approved, the Reverse Split will result in some shareholders owning odd-lots of less than 100 shares of Common Stock. Brokerage commissions and other costs of transactions in odd-lots are generally somewhat higher than the costs of transactions in round-lots of even multiples of 100 shares.

Exchange of Stock Certificates

If the proposal to implement the Reverse Split is adopted, shareholders will be required to exchange their stock certificates for new certificates representing the shares of New Common Stock. Shareholders of record on the Effective Date will be furnished the necessary materials and instructions for the surrender and exchange of share certificates at the appropriate time by the Company's transfer agent. Shareholders will not have to pay a transfer fee or other fee in

Table of Contents

connection with the exchange of certificates. Shareholders should not submit any certificates until requested to do so.

Federal Income Tax Consequences

The following description of federal income tax consequences is based on the Internal Revenue Code of 1986, as amended (the Code), the applicable Treasury Regulations promulgated thereunder, judicial authority and current administrative rulings and practices as in effect on the date of this Proxy Statement. This discussion is for general information only and does not discuss consequences which may apply to special classes of taxpayers (e.g., non-resident aliens, broker-dealers or insurance companies). Shareholders are urged to consult their own advisors to determine the particular consequences to them.

The exchange of shares of Common Stock for shares of New Common Stock will not result in recognition of gain or loss. The holding period of the shares of New Common Stock will include the shareholder's holding period for the shares of Common Stock exchanged therefor, provided that the shares of Common Stock were held as a capital asset. The adjusted basis of the shares of New Common Stock will be the same as the adjusted basis of the shares of Common Stock exchanged therefor.
