**FORM 10-Q
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended July 2, 2006

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the transition period from _____ to _____

Commission file number 1-14260

The GEO Group, Inc.

(Exact name of registrant as specified in its charter)

Florida

(State or other jurisdiction of
incorporation or organization)

65-0043078

(I.R.S. Employer Identification No.)

One Park Place, 621 NW 53rd Street, Suite 700,

Boca Raton, Florida

(Address of principal executive offices)

33487

(Zip code)

(561) 893-0101

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding twelve (12) months (or for such shorter period that the registrant was required to file such report), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by a check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and larger accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

At August 7, 2006, 21,972,002 shares of the registrant's common stock were issued and 12,972,002 were outstanding.

Table of Contents**THE GEO GROUP, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS****1. BASIS OF PRESENTATION**

The unaudited consolidated financial statements of The GEO Group, Inc., a Florida corporation (the Company), included in this Form 10-Q have been prepared in accordance with accounting principles generally accepted in the United States and the instructions to Form 10-Q and consequently do not include all disclosures required by Form 10-K. Additional information may be obtained by referring to the Company's Form 10-K for the year ended January 1, 2006. In the opinion of management, all adjustments (consisting only of normal recurring items) necessary for a fair presentation of the financial information for the interim periods reported in this Form 10-Q have been made. Results of operations for the twenty-six weeks ended July 2, 2006 are not necessarily indicative of the results for the entire fiscal year ending December 31, 2006.

The accounting policies followed for quarterly financial reporting are the same as those disclosed in the Notes to Consolidated Financial Statements included in the Company's Form 10-K filed with the Securities and Exchange Commission on March 17, 2006 for the fiscal year ended January 1, 2006, with the exception of the Company's implementation of Financial Accounting Standards (FAS) No. 123(R) during the quarter ended April 2, 2006, as discussed in Note 4 below. Certain amounts in the prior period have been reclassified to conform to the current presentation.

2. EQUITY OFFERING

On June 12, 2006, the Company sold in a follow-on public offering 3,000,000 shares of its common stock at a price of \$35.46 per share. All shares were issued from treasury. The aggregate net proceeds to the Company (after deducting underwriter's discounts and estimated expenses) were approximately \$100 million. The Company utilized approximately \$74.6 million of the proceeds to repay all outstanding debt under its term loan portion of its senior secured credit facility. See Note 9 Long Term Debt and Derivative Financial Instruments - The Senior Credit Facility for further discussion. In addition, the Company may use up to \$5.0 million of the proceeds of the offering to purchase from certain directors, executive officers and employees stock options that are currently outstanding and exercisable, and which are due to expire within the next three years. The balance of the net proceeds, if any, will be used for general corporate purposes which may include working capital, capital expenditures and potential acquisitions of complementary businesses and other assets.

3. ACQUISITION

On November 4, 2005, the Company completed the acquisition of Correctional Services Corporation (CSC), a Florida-based provider of privatized corrections/detention, community corrections and alternative sentencing services. The allocation of the purchase price for this transaction at January 1, 2006 was preliminary. During the quarter ended April 2, 2006, the Company received information from its independent valuation specialists and finalized the purchase price allocation related to property and equipment, other assets and capital lease obligations. This information resulted in an increase in goodwill of \$5.1 million. The purchase price allocations related to certain tax elections are still tentative at this time and information that will enable the Company to finalize these items is expected to be received by the third quarter of 2006.

Additionally, during the quarter ended July 2, 2006, in connection with the CSC acquisition and related sale of Youth Services International (YSI), the Company received approximately \$1.3 million in additional sales proceeds based on an unresolved matter relating to the closing balance sheet of YSI. This reduced goodwill by \$1.3 million. This matter is still not fully resolved and the Company expects an additional purchase price adjustment. This additional adjustment is expected to result in additional cash consideration to the Company and will further reduce goodwill when finally determined, expected no later than the third quarter of 2006.

4. EQUITY INCENTIVE PLANS

On January 2, 2006, the Company adopted the provisions of FAS No. 123(R), Share-Based Payment using the modified prospective method. FAS No. 123(R) requires companies to recognize the cost of employee services received in exchange for awards of equity instruments based upon the grant date fair value of those awards. Under the modified prospective method of adopting FAS No. 123(R), the Company will recognize compensation cost for all share-based payments granted after January 1, 2006, plus any awards granted to employees prior to January 2, 2006

that remain unvested at that time. Under this method of adoption, no restatement of prior periods is made. The Company uses a Black-Scholes option valuation model to estimate the fair value of each option awarded.

Table of Contents

The impact of forfeitures that may occur prior to vesting is also estimated and considered in the amount recognized. The adoption of FAS No. 123(R) did not have a significant impact on income from continuing operations, income before income taxes, net income, cash flow from operations, or earnings per share during the twenty-six weeks ended July 2, 2006.

Prior to January 2, 2006, the Company recognized the cost of employee services received in exchange for equity instruments in accordance with Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees . APB No. 25 required the use of the intrinsic value method, which measures compensation cost as the excess, if any, of the quoted market price of the stock over the amount the employee must pay for the stock.

Compensation expense for all of the Company s equity-based awards was measured under APB No. 25 on the date the shares were granted. Under APB No. 25, no compensation expense was recognized for stock options.

During the thirteen and twenty-six weeks ended July 3, 2005, had the cost of employee services received in exchange for equity instruments been recognized based on the grant date fair value of those instruments in accordance with the provisions of FAS No. 123, Accounting for Stock-based Compensation, the Company s net income and earnings per share would have been impacted as shown in the following table (in thousands, except per share data):

	Thirteen Weeks Ended July 3, 2005	Twenty-six Weeks Ended July 3, 2005
Net income:		
As reported	\$ 4,474	\$ 7,370
Less: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(79)	(267)
Pro forma net income	\$ 4,395	\$ 7,103
Basic earnings per share:		
As reported	\$ 0.47	\$ 0.77
Pro forma	\$ 0.46	\$ 0.74
Diluted earnings per share:		
As reported	\$ 0.45	\$ 0.74
Pro forma	\$ 0.44	\$ 0.71

For the purposes of the pro forma calculations above, the fair value of each option is estimated on the date of the grant using the Black-Scholes option-pricing model, assuming no expected dividends and the following weighted average assumptions:

	Thirteen and Twenty-six Weeks Ended July 3, 2005
Risk free interest rates	3.96%
Expected lives	3.3years
Expected volatility	39%
Expected dividend	

The Company had three stock option plans at April 2, 2006: The Wackenhut Corrections Corporation 1994 Stock Option Plan (Second Plan), the 1995 Non-Employee Director Stock Option Plan (Third Plan) and the Wackenhut Corrections Corporation 1999 Stock Option Plan (Fourth Plan). The Company had 1,200 options available to be granted at July 2, 2006 under the Fourth Plan.

On May 4, 2006, the board of directors adopted and the shareholders approved The GEO Group, Inc. 2006 Stock Incentive Plan (the 2006 Plan). Under the 2006 Plan, the Company may grant options or restricted shares to key employees and non-employee directors for up to 300,000 shares.

Under the Second Plan and Fourth Plan, the Company may grant options to key employees for up to 1,500,000 and 1,150,000 shares of common stock, respectively. Under the terms of these plans, the exercise price per share and vesting period is determined by the language of the plan. All options that have been granted under these plans are exercisable at the fair market value of the common stock at the date of the grant. Generally, the options vest and become exercisable ratably over a four-year period, beginning immediately on the date of the grant. However, the Board of Directors has exercised its discretion and has granted options that vest 100% immediately for the Chief Executive Officer. All options under the Second Plan and Fourth Plan expire no later than ten years after the date of the grant.

Table of Contents

Under the Third Plan, the Company may grant up to 110,000 shares of common stock to non-employee directors of the Company. Under the terms of this plan, options are granted at the fair market value of the common stock at the date of the grant, become exercisable immediately, and expire ten years after the date of the grant.

A summary of the status of the Company's stock option plans is presented below.

Fiscal Year	July 2, 2006			
	Shares (in thousands)	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Outstanding at January 1, 2006	1,407	\$ 15.53		\$
Granted	16	22.00		
Exercised	131	19.81		
Forfeited/Canceled	36	22.68		
Options outstanding at July 2, 2006	1,256	14.97	5.0	25,220
Options exercisable at July 2, 2006	1,167	\$ 14.74	4.9	\$ 23,702

For the three and six month period ending July 2, 2006, the amount of stock-based compensation expense was not material.

The weighted average grant date fair value of options granted during the twenty-six weeks ended July 2, 2006 was \$0.1 million.

The total intrinsic value of options exercised during the twenty-six weeks ended July 2, 2006 was \$1.8 million.

The following table summarizes information about the stock options outstanding at July 2, 2006:

Exercise Prices	Options Outstanding			Options Exercisable	
	Number Outstanding	Wtd. Avg. Remaining Contractual Life	Wtd. Avg. Exercise Price	Number Exercisable	Wtd. Avg. Exercise Price
\$ 7.88 - \$ 7.88	2,000	3.8	\$ 7.88	2,000	\$ 7.88
\$ 8.44 - \$ 8.44	174,500	3.6	8.44	174,500	8.44
\$ 9.30 - \$ 9.30	170,000	4.6	9.30	170,000	9.30
\$ 9.51 - \$11.95	77,091	6.6	9.57	65,451	9.58
\$14.00 - \$14.00	182,182	6.8	14.00	157,457	14.00
\$14.69 - \$14.69	15,000	3.2	14.69	15,000	14.69
\$15.40 - \$15.40	257,000	5.6	15.40	257,000	15.40
\$15.90 - \$18.63	147,627	4.0	18.46	132,243	18.48
\$21.50 - \$23.49	144,700	5.8	22.65	107,154	22.52
\$25.06 - \$32.20	86,000	2.7	26.29	86,000	26.29
	1,256,100	5.0	\$ 14.97	1,166,805	\$ 14.74

As of July 2, 2006, the Company had \$1.6 million of unrecognized compensation costs related to non-vested stock option awards that is expected to be recognized over a weighted average period of 7.5 years. Proceeds received from option exercises during the twenty-six weeks ended July 2, 2006 were \$2.6 million.

Restricted Stock

As of July 2, 2006, the Company had granted 150,000 shares of non-vested restricted stock to key employees and non-employee directors. Restricted shares are converted into shares of common stock upon vesting on a one-for-one basis. The cost of these awards is determined using the fair value of the Company's common stock on the date of the grant and compensation expense is recognized over the vesting period. The restricted shares that were granted during the quarter have a vesting period of four years, which begins one year from the date of grant. A summary of restricted stock issued as of July 2, 2006 and changes during the quarter ended July 2, 2006 follows:

Table of Contents

	Shares	Wtd. Avg. Grant date Fair value
Restricted stock outstanding at April 2, 2006		\$
Granted	150,000	39.20
Vested		
Forfeited/Canceled	(500)	39.20
Restricted stock outstanding at July 2, 2006	149,500	39.20

During the quarter ended July 2, 2006, the Company recognized \$0.2 million of compensation expense related to the restricted shares and had \$5.6 million of unrecognized compensation expense.

5. DISCONTINUED OPERATIONS

The Company formerly had, through its Australian subsidiary, a contract with the Department of Immigration, Multicultural and Indigenous Affairs (DIMIA) for the management and operation of Australia's immigration centers. In 2003, the contract was not renewed, and effective February 29, 2004, the Company completed the transition of the contract and exited the management and operation of the DIMIA centers.

In New Zealand, the Company ceased operating the Auckland Central Remand Prison (Auckland) upon the expiration of the contract on July 13, 2005.

On January 1, 2006, the Company completed the sale of Atlantic Shores Hospital, a 72 bed private mental health hospital which the Company owned and operated since 1997 for approximately \$11.5 million. The Company recognized a gain on the sale of the hospital of approximately \$1.6 million, or \$1.0 million net of tax. The accompanying unaudited consolidated financial statements and notes reflect the operations of the DIMIA, Auckland and Atlantic Shores Hospital as discontinued operations. There were no cash flows from investing or financing activities for discontinued operations for the twenty-six weeks ended July 2, 2006.

The following are the revenues related to DIMIA, Auckland and Atlantic Shores Hospital for the periods presented (in thousands):

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	July 2, 2006	July 3, 2005	July 2, 2006	July 3, 2005
Revenues DIMIA	\$	\$	\$	\$
Revenues Auckland	\$	\$3,368	\$	\$7,165
Revenues Atlantic Shores Hospital	\$	\$2,188	\$	\$4,166

Table of Contents**6. COMPREHENSIVE INCOME**

The components of the Company's comprehensive income, net of tax are as follows (in thousands):

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	July 2, 2006	July 3, 2005	July 2, 2006	July 3, 2005
Net income	\$ 6,318	\$ 4,474	\$ 10,874	\$ 7,370
Change in foreign currency translation, net of income tax (expense) benefit of (\$76), \$455, (\$592) and \$1,311, respectively	200	(712)	1,559	(2,050)

Unrealized gain (loss) on derivative instruments, net of income tax (expense) benefit of \$396, \$127, \$490 and \$(235), respectively	(908)	(291)	(818)	537
Comprehensive income	\$ 5,705	\$ 3,469	\$ 11,710	\$ 5,880

7. EARNINGS PER SHARE

Basic earnings per share is computed by dividing the net income available to shareholders by the weighted average number of outstanding common shares. The calculation of diluted earning per share is similar to that of basic earnings per share, except that the denominator includes dilutive common share equivalents such as share options and restricted shares.

Basic and diluted earnings per share (EPS) were calculated for the thirteen and twenty-six weeks ended July 2, 2006 and July 3, 2005 as follows (in thousands, except per share data):

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	July 2, 2006	July 3, 2005	July 2, 2006	July 3, 2005
Net income	\$ 6,318	\$ 4,474	\$ 10,874	\$ 7,370
Basic earnings per share:				
Weighted average shares outstanding	10,442	9,550	10,071	9,538
Per share amount	\$ 0.61	\$ 0.47	\$ 1.08	\$ 0.77
Diluted earnings per share:				
Weighted average shares outstanding	10,442	9,550	10,071	9,538
Effect of dilutive securities:				
Employee and director stock options	482	394	375	454
Weighted average shares assuming dilution	10,924	9,944	10,446	9,992
Per share amount	\$ 0.58	\$ 0.45	\$ 1.04	\$ 0.74

Thirteen Weeks

Of 1,256,100 options outstanding at July 2, 2006, there were no options that were not included in the computation of diluted EPS because their effect would be anti-dilutive. Of 1,551,783 options outstanding at July 3, 2005, options to purchase 26,000 shares of the Company's common stock, with an exercise prices ranging from \$26.13 to \$32.20 per

share and expiration dates between 2008 and 2015, were not included in the computation of diluted EPS because their effect would be anti-dilutive.

Twenty-six Weeks

Of 1,256,100 options outstanding at July 2, 2006, options to purchase 13,500 shares of the Company's common stock, with an exercise price of \$32.20 per share and expiration year of 2015, were not included in the computation of diluted EPS because their effect would be anti-dilutive. Of 1,551,783 options outstanding at July 3, 2005, options to purchase 13,500 shares of the Company's common stock, with an exercise price of \$32.20 per share and expiration date of 2015, were not included in the computation of diluted EPS because their effect would be anti-dilutive.

Of 149,500 restricted shares outstanding at July 2, 2006, none were included in the computation of diluted EPS because their effect would be anti-dilutive.

Table of Contents**8. GOODWILL AND OTHER INTANGIBLE ASSETS, NET**

Changes in the Company's goodwill balances for the twenty-six weeks ended July 2, 2006 were as follows (in thousands):

	Balance as of January 1, 2006	Goodwill resulting from Business Combinations	Foreign Currency Translation	Balance as of July 2, 2006
Correction and detention facilities	\$ 35,896	\$ 3,796	\$ 8	\$ 39,700
Total Segments	\$ 35,896	\$ 3,796	\$ 8	\$ 39,700

The goodwill increase of \$3.8 million during the twenty-six weeks ended July 2, 2006 is a result of a \$5.1 million increase in goodwill as a result of the finalization of purchase price allocation related to property and equipment, other assets and capital lease obligations of the CSC acquisition during the first quarter of 2006 as well as a \$1.3 million decrease in goodwill relating to additional proceeds received related to the sale of YSI during the second quarter of 2006.

Intangible assets consisted of the following (in thousands):

	Description	Asset Life
Facility management contracts	\$ 15,050	7-20 years
Covenants not to compete	1,470	4 years
	\$ 16,520	
Less accumulated amortization	(1,169)	
	\$ 15,351	

Amortization expense was \$0.9 million for the twenty-six weeks ended July 2, 2006. Amortization is recognized on a straight-line basis over the estimated useful life of the intangible assets.

9. LONG TERM DEBT AND DERIVATIVE FINANCIAL INSTRUMENTS*The Senior Credit Facility*

On September 14, 2005, the Company amended and restated its senior secured credit facility (the Senior Credit Facility), to consist of a \$75 million, six-year term-loan bearing interest at London Interbank Offered Rate, (LIBOR) plus 2.00%, and a \$100 million, five-year revolving credit facility bearing interest at LIBOR plus 2.00%. The Company used the borrowings under the Senior Credit Facility to fund general corporate purposes and to finance the acquisition of CSC for approximately \$62 million plus transaction-related costs. The acquisition of CSC closed in the fourth quarter of 2005. On June 13, 2006, the Company used approximately \$74.6 million of the proceeds of the equity offering (see Note 2 Equity Offering) to repay all outstanding debt under its term loan portion of its senior secured credit facility. The Company wrote-off approximately \$1.3 million of deferred financing fees related to this extinguishment of debt. As of July 2, 2006, the Company had no borrowings outstanding under the term loan portion of the Senior Credit Facility, no amounts outstanding under the revolving portion of the Senior Credit Facility, and \$46.3 million outstanding in letters of credit under the revolving portion of the Senior Credit Facility. As of July 2, 2006 the Company had \$53.7 million available for borrowings under the revolving portion of the Senior Credit Facility.

Senior 8 1/4% Notes

To facilitate the completion of the purchase of the interest of the Company's former majority shareholder in 2003, the Company issued \$150.0 million aggregate principal amount, ten-year, 8 1/4% senior unsecured notes, (the Notes). The Notes are general, unsecured, senior obligations. Interest is payable semi-annually on January 15 and July 15 at 8 1/4%. The Notes are governed by the terms of an Indenture, dated July 9, 2003, between the Company and the Bank of New York, as trustee, referred to as the Indenture. The Company was in compliance with all of the covenants of the Indenture governing the notes as of July 2, 2006.

Non-Recourse Debt

South Texas Detention Complex:

In February 2004, CSC was awarded a contract by the Department of Homeland Security, Bureau of Immigration and Customs Enforcement (ICE) to develop and operate a 1,020 bed detention complex in Frio County Texas. South Texas Local Development

Table of Contents

Corporation (STLDC) was created and issued \$49.5 million in taxable revenue bonds to finance the construction of the detention center. Additionally, CSC provided a \$5.0 million subordinated note to STLDC for initial development costs. The Company has determined that it is the primary beneficiary of STLDC and therefore, in accordance with FIN 46, has consolidated STLDC for accounting purposes. STLDC is the owner of the complex and entered into a development agreement with CSC to oversee the development of the complex. In addition, STLDC entered into an operating agreement providing CSC the sole and exclusive right to operate and manage the complex. The operating agreement and bond indenture require that the revenue from CSC's contract with ICE be used to fund the periodic debt service requirements as they become due. The net revenues, if any, after various expenses such as trustee fees, property taxes and insurance premiums are distributed to CSC to cover CSC's operating expenses and management fee. The bonds have a ten year term and are non-recourse to CSC and STLDC. CSC is responsible for the entire operations of the facility including all operating expenses and is required to pay all operating expenses whether or not there are sufficient revenues. STLDC has no liabilities resulting from its ownership. The bonds are fully insured and the sole source of payment for the bonds is the operating revenues of the center.

Included in non-current restricted cash equivalents and investments is \$9.2 million as of July 2, 2006 as funds held in trust with respect to the STLDC for debt service and other reserves.

Northwest Detention Center

On June 30, 2003 CSC arranged financing for the construction of the Northwest Detention Center in Tacoma, Washington (the Northwest Detention Center), which CSC completed and opened for operation in April 2004. In connection with this financing, CSC of Tacoma LLC, a wholly owned subsidiary of CSC, issued a \$57 million note payable to the Washington Economic Development Finance Authority (WEDFA), an instrumentality of the State of Washington, which issued revenue bonds and subsequently loaned the proceeds of the bond issuance to CSC of Tacoma LLC for the purposes of constructing the Northwest Detention Center. The bonds are non-recourse to CSC and the loan from WEDFA to CSC of Tacoma, LLC is non-recourse to CSC. The proceeds of the loan were disbursed into escrow accounts held in trust to be used to pay the issuance costs for the revenue bonds, to construct the Northwest Detention Center and to establish debt service and other reserves.

Included in non-current restricted cash equivalents and investments is \$4.6 million as of July 2, 2006 as funds held in trust with respect to the Northwest Detention Center for debt service and other reserves.

Australia

In connection with the financing and management of one Australian facility, our wholly owned Australian subsidiary financed the facility's development and subsequent expansion in 2003 with long-term debt obligations, which are non-recourse to us. We have consolidated the subsidiary's direct finance lease receivable from the state government and related non-recourse debt each totaling approximately \$40.0 million and \$40.3 million as of July 2, 2006 and January 1, 2006, respectively. As a condition of the loan, we are required to maintain a restricted cash balance of AUD 5.0 million, which, at July 2, 2006, was approximately \$3.7 million. The term of the non-recourse debt is through 2017 and it bears interest at a variable rate quoted by certain Australian banks plus 140 basis points. Any obligations or liabilities of the subsidiary are matched by a similar or corresponding commitment from the government of the State of Victoria.

Guarantees

In connection with the creation of South African Custodial Services Ltd. (SACS), the Company entered into certain guarantees related to the financing, construction and operation of its prison in South Africa. The Company guaranteed certain obligations of SACS under its debt agreements up to a maximum amount of 60.0 million South African Rand, or approximately \$8.4 million to SACS' senior lenders through the issuance of letters of credit. Additionally, SACS is required to fund a restricted account for the payment of certain costs in the event of contract termination. The Company has guaranteed the payment of 50% of amounts which may be payable by SACS into the restricted account and provided a standby letter of credit of 6.5 million South African Rand, or approximately \$0.9 million as security for the Company's guarantee. The Company's obligations under this guarantee expire upon SACS' release from its obligations in respect of the restricted account under its debt agreements. No amounts have been drawn against these letters of credit, which are included in the Company's outstanding letters of credit under the revolving loan portion of the Senior Credit Facility.

The Company has agreed to provide a loan of up to 20.0 million South African Rand, or approximately \$2.8 million (the Standby Facility) to SACS for the purpose of financing SACS obligations under its contract with the South African government. No amounts

Table of Contents

have been funded under the Standby Facility, and the Company does not anticipate that such funding will ever be required by SACS. The Company's obligations under the Standby Facility expire upon the earlier of full funding or SACS' release from its obligations under its debt agreements. The lenders' ability to draw on the Standby Facility is limited to certain circumstances, including termination of the contract.

The Company has also guaranteed certain obligations of SACS to the security trustee for SACS lenders. The Company secured its guarantee to the security trustee by ceding its rights to claims against SACS in respect of any loans or other finance agreements, and by pledging the Company's shares in SACS. The Company's liability under the guarantee is limited to the cession and pledge of shares. The guarantee expires upon expiration of the cession and pledge agreements.

In connection with a design, build, finance and maintenance contract, the Company guaranteed certain potential tax obligations of a special purpose entity. The potential estimated exposure of these obligations is CAN\$2.5 million, or approximately \$2.2 million commencing in 2017. The Company has a liability of \$0.6 million related to this exposure as of July 2, 2006 and January 1, 2006. To secure this guarantee, the Company purchased Canadian dollar denominated securities with maturities matched to the estimated tax obligations in 2017 to 2021. The Company has recorded an asset and a liability equal to the current fair market value of those securities on its balance sheet.

At July 2, 2006, the Company also had outstanding seven letters of guarantee totaling approximately \$5.6 million under separate international facilities. The Company does not have any off balance sheet arrangements.

Derivatives

Effective September 18, 2003, the Company entered into interest rate swap agreements in the aggregate notional amount of \$50.0 million. The Company has designated the swaps as hedges against changes in the fair value of a designated portion of the Notes due to changes in underlying interest rates. Changes in the fair value of the interest rate swaps are recorded in earnings along with related designated changes in the value of the Notes. The agreements, which have payment and expiration dates and call provisions that coincide with the terms of the Notes, effectively convert \$50.0 million of the Notes into variable rate obligations. Under the agreements, the Company receives a fixed interest rate payment from the financial counterparties to the agreements equal to 8.25% per year calculated on the notional \$50.0 million amount, while the Company makes a variable interest rate payment to the same counterparties equal to the six-month London Interbank Offered Rate, (LIBOR) plus a fixed margin of 3.45%, also calculated on the notional \$50.0 million amount. As of July 2, 2006 and January 1, 2006 the fair value of the swaps totaled approximately \$(3.0) million and \$(1.1) million and is included in other non-current liabilities and as an adjustment to the carrying value of the Notes in the accompanying balance sheets. There was no material ineffectiveness of the Company's interest rate swaps for the period ended July 2, 2006.

The Company's Australian subsidiary is a party to an interest rate swap agreement to fix the interest rate on the variable rate non-recourse debt to 9.7%. The Company has determined the swap to be an effective cash flow hedge. Accordingly, the Company records the value of the interest rate swap in accumulated other comprehensive income, net of applicable income taxes. The total value of the swap liability as of July 2, 2006 and January 1, 2006 was approximately \$1.6 million and \$0.4 million, respectively, and is recorded as a component of other liabilities in the accompanying consolidated financial statements. There was no material ineffectiveness of the Company's interest rate swaps for the fiscal years presented. The Company does not expect to enter into any transactions during the next twelve months which would result in the reclassification into earnings of losses associated with this swap currently reported in accumulated other comprehensive loss.

10. COMMITMENTS AND CONTINGENCIES

The Company owns the 480-bed Michigan Correctional Facility in Baldwin, Michigan, referred to as the Michigan Facility. The Company operated the Michigan Facility from 1999 until October 2005 pursuant to a management contract with the Michigan Department of Corrections, or the MDOC. Separately, the Company leased the Michigan Facility, as lessor, to the State, as lessee, under a lease with an initial term of 20 years followed by two five-year options. In September 2005, the Governor of the State of Michigan closed the Michigan Facility and terminated the Company's management contract with the MDOC. In October 2005, the State of Michigan also sought to terminate its lease for the Michigan Facility. The Company believes that the State did not have the right to unilaterally terminate the Michigan Facility lease. As a result, in November 2005, the Company filed a lawsuit against the State to enforce

the Company's rights under the lease. On February 24, 2006, the Ingham County Circuit Court, the trial court with jurisdiction over the case, granted summary judgment in favor of the State and against the Company and granted the Company leave to amend the complaint. The Company has filed an amended complaint and is proceeding with the lawsuit. The Company reviewed

Table of Contents

the Michigan Facility for impairment in accordance with FAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, and recorded an impairment charge in the fourth quarter of 2005 for \$20.9 million based on an independent appraisal of fair market value.

In 2005, the Company's equity affiliate, SACS, recognized a one time tax benefit of \$2.1 million related to a change in South African Tax law. The one time tax benefit in part related to deferred tax liabilities that were eliminated during 2005 as a result of the change in the tax law. During the Second Quarter 2006 the South African legislature has taken up a bill that once promulgated would have the effect of removing the exemption from taxation. All indications are that such new law would be effective beginning in 2007. The law change if enacted would impact the equity in earnings of affiliate beginning in 2007. Additionally, upon enactment of the new law, deferred tax liabilities will have to be established at the applicable tax rate of 29%. This is estimated to result in a one time tax charge of \$2.3 million which may impact equity in earnings of affiliate during late 2006 or during 2007.

Legal

In June 2004, the Company received notice of a third-party claim for property damage incurred during 2002 and 2001 at several detention facilities that the Company's Australian subsidiary formerly operated pursuant to its discontinued operation. The claim relates to property damage caused by detainees at the detention facilities. The notice was given by the Australian government's insurance provider and did not specify the amount of damages being sought. In May 2005, the Company received additional correspondence indicating that the insurance provider still intends to pursue the claim against our Australian subsidiary. Although the claim is in the initial stages and the Company is still in the process of fully evaluating its merits, the Company believes that it has defenses to the allegations underlying the claim and intends to vigorously defend the Company's rights with respect to this matter. While the insurance provider has not quantified its damage claim and the outcome of this matter discussed above cannot be predicted with certainty, based on information known to date, and management's preliminary review of the claim, the Company believes that, if settled unfavorably, this matter could have a material adverse effect on the Company's financial condition, results of operations and cash flows. The Company is uninsured for any damages or costs that it may incur as a result of this claim, including the expenses of defending the claim. The Company has accrued a reserve related to this claim based on its estimate of the most probable costs that may be incurred based on the facts and circumstances known to date, and the advice of its legal counsel.

On May 19, 2006, the Company, along with Corrections Corporation of America, referred to as CCA, were sued by an individual plaintiff in the Circuit Court of the Second Judicial Circuit for Leon County, Florida (Case No. 2005CA001884). The complaint alleges that, during the period from 1995 to 2004, the Company and CCA overbilled the State of Florida by an amount of at least \$12,700,000 by submitting to the State false claims for various items relating to (i) repairs, maintenance and improvements to certain facilities which the Company operates in Florida, (ii) the Company's staffing patterns in filling vacant security positions at those facilities, and (iii) the Company's alleged failure to meet the conditions of certain waivers granted to the Company by the State of Florida from the payment of liquidated damages penalties relating to the Company's staffing patterns at those facilities. The portion of the complaint relating to the Company arises out of the Company's operations at the Company's South Bay and Moore Haven correctional facilities. The complaint appears to be based largely on the same set of issues raised by a Florida Inspector General's Evaluation Report released in late June 2005, referred to as the IG Report, which alleged that the Company and CCA overbilled the State of Florida by over \$12 million.

Subsequently, the Florida Department of Management Services, referred to as the DMS, which is responsible for administering the Company's correctional contracts with the State of Florida, conducted a detailed analysis of the allegations raised by the IG Report which included a comprehensive written response to the IG Report which the Company's had prepared and delivered to the DMS. In September 2005, the DMS provided a letter to the Company stating that, although its review had not yet been fully completed, it did not find any indication of any improper conduct by GEO. Although this determination is not dispositive of the recently initiated litigation, the Company believes it supports the Company's position that the Company has valid defenses in this matter. The Company will continue to investigate this matter and intend to defend the Company's rights vigorously. However, given the amounts claimed by the plaintiff and the fact that the nature of the allegations could cause adverse publicity to the Company, the Company believe that this matter, if settled unfavorably to the Company, could have a material adverse effect on

the Company's financial condition and results of operations.

The nature of the Company's business exposes it to various types of claims or litigation against the Company, including, but not limited to, civil rights claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, indemnification claims by our customers and other third parties, contractual claims and claims for personal injury or other

Table of Contents

damages resulting from contact with the Company's facilities, programs, personnel or prisoners, including damages arising from a prisoner's escape or from a disturbance or riot at a facility. Except as otherwise disclosed above, the Company does not expect the outcome of any pending claims or legal proceedings to have a material adverse effect on its financial condition, results of operations or cash flows.

11. BUSINESS SEGMENT AND GEOGRAPHIC INFORMATION*Operating and Reporting Segment*

The Company operates in one industry segment encompassing the development and management of privatized government institutions located in the United States, Australia, South Africa and the United Kingdom. The segment information presented in the prior periods has been reclassified to conform to the current presentation.

Sources of Revenue

The Company derives most of its revenue from the management of privatized correction and detention facilities. The Company also derives revenue from the management of mental health hospitals and from the construction and

expansion of new and existing correctional, detention and mental health facilities. All of the Company's revenue is generated from external customers.

SACS commenced operations in fiscal 2002. Total equity in undistributed income (loss) for SACS before income taxes, for the twenty-six weeks ended July 2, 2006 and July 3, 2005 was \$1.3 million, and \$(0.2) million, respectively.

12. BENEFIT PLANS

During the first quarter of fiscal 2004, the Company adopted the interim disclosure provisions of FAS No. 132 (revised 2003), Employers' Disclosure about Pensions and Other Postretirement Benefits, an Amendment of FAS Statements No. 87, 88 and 106 and a Revision of FAS Statement No. 132. This statement revises employers' disclosures about pension plans and other postretirement benefit plans.

The following table summarizes the components of net periodic benefit cost for the Company (in thousands):

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	July 2, 2006	July 3, 2005	July 2, 2006	July 3, 2005

Net periodic benefit cost	\$ 243	\$ 509	\$ 665	\$ 1,018

13. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation Number 48 (FIN 48), Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109. The interpretation contains a two step approach to recognizing and measuring uncertain tax positions accounted for in accordance with SFAS No. 109. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount which is more than 50% likely of being realized upon ultimate settlement. The interpretation is effective for fiscal years beginning after December 15, 2006. The Company has not yet analyzed the impact this interpretation will have on the Company's financial condition, results of operations, cash flows or disclosures.

14. SUBSEQUENT EVENTS

On August 10, 2006, the Company's Board of Directors declared a 3-for-2 stock split of the Company's common stock. The stock split will take effect on October 2, 2006 with respect to stockholders of record on September 15, 2006. Following the stock split, the Company's shares outstanding will increase from 13.0 million to 19.5 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report and our earnings press release dated August 10, 2006 contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are any statements that are not based on historical information. Statements other than statements of historical facts included in this report, including, without limitation, statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as may, will, expect, anticipate, intend, plan, believe, estimate or continue or the negative of such words or variations of such words and similar expressions. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements and we can give no assurance that such forward-looking statements will prove to be correct. Important factors that could cause actual results to differ materially from those expressed or implied by the forward-looking statements, or cautionary statements, include, but are not limited to:

- our ability to timely build and/or open facilities as planned, profitably manage such facilities and successfully integrate such facilities into our operations without substantial additional costs;

- the instability of foreign exchange rates, exposing us to currency risks in Australia, the United Kingdom, and South Africa, or other countries in which we may choose to conduct our business;

- our ability to reactivate the Michigan Correctional Facility;

- an increase in unreimbursed labor rates;

- our ability to expand, diversify and grow our correctional and residential treatment services;

- our ability to win management contracts for which we have submitted proposals and to retain existing management contracts;

- our ability to raise new project development capital given the often short-term nature of the customers' commitment to use newly developed facilities;

- our ability to reactivate our Jena, Louisiana facility, or to sublease or coordinate the sale of the facility with the owner of the property, CentraCore Properties Trust, or CPV;

- our ability to accurately project the size and growth of the domestic and international privatized corrections industry;

- our ability to develop long-term earnings visibility;

- our ability to obtain future financing at competitive rates;

- our exposure to rising general insurance costs;

- our exposure to claims for which we are uninsured;

- our exposure to rising employee and inmate medical costs;

our ability to maintain occupancy rates at our facilities;

our ability to manage costs and expenses relating to ongoing litigation arising from our operations;

our ability to accurately estimate on an annual basis, loss reserves related to general liability, workers compensation and automobile liability claims;

our ability to identify suitable acquisitions, and to successfully complete and integrate such acquisition on satisfactory terms;

the ability of our government customers to secure budgetary appropriations to fund their payment obligations to us;
and

Table of Contents

other factors contained in our filings with the Securities and Exchange Commission, or the SEC, including, but not limited to, those detailed in this annual report on Form 10-K, our Form 10-Qs and our Form 8-Ks filed with the SEC.

We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements included in this report.

FINANCIAL CONDITION

Reference is made to Part II, Item 7 of our annual report on Form 10-K for the fiscal year ended January 1, 2006, filed with the SEC on March 17, 2006, for further discussion and analysis of information pertaining to our results of operations, liquidity and capital resources.

CRITICAL ACCOUNTING POLICIES

The accompanying unaudited consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States. As such, we are required to make certain estimates, judgments and assumptions that we believe are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. We routinely evaluate our estimates based on historical experience and on various other assumptions that management believes are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A summary of our significant accounting policies is contained in Note 1 to our financial statements on Form 10-K for the year ended January 1, 2006.

REVENUE RECOGNITION

We recognize revenue in accordance with Staff Accounting Bulletin, or SAB, No. 101, Revenue Recognition in Financial Statements, as amended by SAB No. 104, Revenue Recognition, and related interpretations. Facility management revenues are recognized as services are provided under facility management contracts with approved government appropriations based on a net rate per day per inmate or on a fixed monthly rate.

Project development and design revenues are recognized as earned on a percentage of completion basis measured by the percentage of costs incurred to date as compared to the estimated total cost for each contract. This method is used because we consider costs incurred to date to be the best available measure of progress on these contracts. Provisions for estimated losses on uncompleted contracts and changes to cost estimates are made in the period in which we determine that such losses and changes are probable. Typically, we enter into fixed price contracts and do not perform additional work unless approved change orders are in place. Costs attributable to unapproved change orders are expensed in the period in which the costs are incurred if we believe that it is not probable that the costs will be recovered through a change in the contract price. If we believe that it is probable that the costs will be recovered through a change in the contract price, costs related to unapproved change orders are expensed in the period in which they are incurred, and contract revenue is recognized to the extent of the costs incurred. Revenue in excess of the costs attributable to unapproved change orders is not recognized until the change order is approved. Contract costs include all direct material and labor costs and those indirect costs related to contract performance. Changes in job performance, job conditions, and estimated profitability, including those arising from contract penalty provisions, and final contract settlements, may result in revisions to estimated costs and income, and are recognized in the period in which the revisions are determined.

We extend credit to the governmental agencies we contract with and other parties in the normal course of business as a result of billing and receiving payment for services thirty to sixty days in arrears. Further, we regularly review outstanding receivables, and provide estimated losses through an allowance for doubtful accounts. In evaluating the level of established loss reserves, we make judgments regarding our customers' ability to make required payments, economic events and other factors. As the financial condition of these parties change, circumstances develop or additional information becomes available, adjustments to the allowance for doubtful accounts may be required. We also perform ongoing credit evaluations of our customers' financial condition and generally do not require collateral. We maintain reserves for potential credit losses, and such losses traditionally have been within our expectations.

RESERVES FOR INSURANCE LOSSES

Claims for which we are insured arising from our U.S. operations that have an occurrence date of October 1, 2002 or earlier are

Table of Contents

handled by TWC and are fully insured up to an aggregate limit of between \$25.0 million and \$50.0 million, depending on the nature of the claim. With respect to claims for which we are insured arising after October 1, 2002, we maintain a general liability policy for all U.S. operations with \$52.0 million per occurrence and in the aggregate. On October 1, 2004, we increased our deductible on this general liability policy from \$1.0 million to \$3.0 million for each claim which occurs after October 1, 2004. We also maintain insurance to cover property and casualty risks, workers compensation, medical malpractice and automobile liability. Our Australian subsidiary is required to carry tail insurance through 2011 related to a discontinued contract. We also carry various types of insurance with respect to our operations in South Africa and Australia. There can be no assurance that our insurance coverage will be adequate to cover claims to which we may be exposed.

Since our insurance policies generally have high deductible amounts (including a \$3.0 million per claim deductible under our general liability policy), losses are recorded as reported and a provision is made to cover losses incurred but not reported. Loss reserves are undiscounted and are computed based on independent actuarial studies. Our management uses judgments in assessing loss estimates based on actuarial studies, which include actual claim amounts and loss development considering historical and industry experience. If actual losses related to insurance claims significantly differ from our estimates, our financial condition and results of operations could be materially impacted.

INCOME TAXES

We account for income taxes in accordance with Financial Accounting Standards, or FAS, No. 109, Accounting for Income Taxes. Under this method, deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax bases of assets and liabilities given the provisions of enacted tax laws. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. Valuation allowances are recorded related to deferred tax assets based on the more likely than not criteria of FAS No. 109.

In providing for deferred taxes, we consider tax regulations of the jurisdictions in which we operate, and estimates of future taxable income and available tax planning strategies. If tax regulations, operating results or the ability to implement tax-planning strategies vary, adjustments to the carrying value of deferred tax assets and liabilities may be required.

PROPERTY AND EQUIPMENT

As of July 2, 2006, we had \$288.2 million in long-lived property and equipment held for use. Property and equipment are stated at cost, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Buildings and improvements are depreciated over 2 to 40 years. Equipment and furniture and fixtures are depreciated over 3 to 7 years. Accelerated methods of depreciation are generally used for income tax purposes. Leasehold improvements are amortized on a straight-line basis over the shorter of the useful life of the improvement or the term of the lease. We perform ongoing evaluations of the estimated useful lives of our property and equipment for depreciation purposes. The estimated useful lives are determined and continually evaluated based on the period over which services are expected to be rendered by the asset. Maintenance and repairs are expensed as incurred.

We review long-lived assets to be held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be fully recoverable in accordance with FAS No. 144 Accounting for the Impairment of Disposal of Long-Lived Assets. Determination of recoverability is based on an estimate of undiscounted future cash flows resulting from the use of the asset and its eventual disposition. Measurement of an impairment loss for long-lived assets that management expects to hold and use is based on the fair value of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less costs to sell. Management has reviewed our long-lived assets and determined that there are no events requiring impairment loss recognition for the period ended July 2, 2006. Events that would trigger an impairment assessment include deterioration of profits for a business segment that has long-lived assets, or when other changes occur which might impair recovery of long-lived assets.

As of July 2, 2006, we also had \$1.3 million in assets held for sale. These assets have been recorded at their net realizable value and depreciation has been discontinued.

IDLE LEASED FACILITIES

We have entered into ten year non-cancelable operating leases with CentraCore Properties Trust, or CPV, for eleven facilities with initial terms that expire at various times beginning in April 2008 and extending through 2016. In the event that our facility

Table of Contents

management contract for any of these leased facilities is terminated prior to the expiration of the then-current lease term, we would remain responsible for payments to CPV on the underlying lease. We will account for idle periods under any such lease in accordance with FAS No. 146 Accounting for Costs Associated with Exit or Disposal Activities. Specifically, we will review our estimate for sublease income and record a charge for the difference between the net present value of the sublease income and the lease expense over the remaining term of the lease.

COMMITMENTS AND CONTINGENCIES

We own the 480-bed Michigan Correctional Facility in Baldwin, Michigan, referred to as the Michigan Facility. We operated the Michigan Facility from 1999 until October 2005 pursuant to a management contract with the Michigan Department of Corrections, or the MDOC. Separately, we leased the Michigan Facility, as lessor, to the State, as lessee, under a lease with an initial term of 20 years followed by two five-year options. In September 2005, the Governor of the State of Michigan closed the Michigan Facility and terminated our management contract with the MDOC. In October 2005, the State of Michigan also sought to terminate its lease for the Michigan Facility. We believe that the State did not have the right to unilaterally terminate the Michigan Facility lease. As a result, in November 2005, we filed a lawsuit against the State to enforce our rights under the lease. On February 24, 2006, the Ingham County Circuit Court, the trial court with jurisdiction over the case, granted summary judgment in favor of the State and against us and granted us leave to amend the complaint. We have filed an amended complaint and are proceeding with the lawsuit. We reviewed the Michigan Facility for impairment in accordance with FAS 144,

Accounting for the Impairment or Disposal of Long-Lived Assets, and recorded an impairment charge in the fourth quarter of 2005 for \$20.9 million based on an independent appraisal of fair market value.

In 2005, our equity affiliate, SACS, recognized a one time tax benefit of \$2.1 million related to a change in South African Tax law. The one time tax benefit in part related to deferred tax liabilities that were eliminated during 2005 as a result of the change in the tax law. During the Second Quarter 2006 the South African legislature has taken up a bill that once promulgated would have the effect of removing the exemption from taxation. All indications are that such new law would be effective beginning in 2007. The law change if enacted would impact the equity in earnings of affiliate beginning in 2007. Additionally, upon enactment of the new law, deferred tax liabilities will have to be established at the applicable tax rate of 29%. This is estimated to result in a one time tax charge of \$2.3 million which may impact equity in earnings of affiliate during late 2006 or during 2007.

Table of Contents**RESULTS OF OPERATIONS**

The following discussion and analysis should be read in conjunction with our unaudited consolidated financial statements and the notes to our unaudited consolidated financial statements included in Part I, Item 1, of this report. As further discussed above, the discussion of our results of operations below excludes the results of our discontinued operations resulting from the termination of our management contract with DIMIA, Auckland, and Atlantic Shores Hospital for all periods presented.

Comparison of Thirteen Weeks Ended July 2, 2006 and Thirteen Weeks Ended July 3, 2005

	2006	% of Revenue	2005 (Dollars in thousands)	% of Revenue	\$ Change	% Change
Revenue						
Correctional and Detention Facilities	\$ 175,622	84.2%	\$ 141,718	92.9%	\$ 33,904	23.9%
Other	33,066	15.8%	10,905	7.1%	22,161	203.2%
Total	\$ 208,688	100.0%	\$ 152,623	100.0%	\$ 56,065	36.7%

The increase in revenues in the thirteen weeks ended July 2, 2006 (Second Quarter 2006) compared to the thirteen weeks ended July 3, 2005 (Second Quarter 2005) is primarily attributable to five items: (i) the acquisition in November 2005 of Correctional Services Corporation, referred to as CSC, increased revenues by \$29.1 million; (ii) revenues increased approximately \$3.0 million in Second Quarter 2006 as a result of the New Castle Correctional Facility in New Castle, Indiana, which we began managing in January 2006; (iii) Australian and South African revenues decreased approximately \$1.4 million and \$0.2 million, respectively. The weakening of the Australian dollar and South African Rand resulted in a decrease of \$0.6 million, while lower occupancy rates accounted for a decrease of \$1.0 million; (iv) revenues decreased approximately \$4.6 million in Second Quarter 2006 as a result of the Michigan Correctional Facility contract termination; and (v) domestic revenues also increased due to contractual adjustments for inflation, and improved terms negotiated into a number of contracts.

The number of compensated resident days in domestic facilities increased to 3.4 million in Second Quarter 2006 from 2.7 million in Second Quarter 2005 due to the additional capacity of the acquired CSC facilities of 0.6 million. Compensated resident days in Australian and South African facilities during Second Quarter 2006 remained consistent at 0.5 million for the comparable periods. We look at the average occupancy in our facilities to determine how we are managing our available beds. The average occupancy is calculated by taking compensated mandays as a percentage of capacity. The average occupancy in our domestic, Australian and South African facilities combined was 96.7% of capacity in Second Quarter 2006 compared to 99.4% in Second Quarter 2005, excluding our vacant Michigan and Jena facilities.

	2006	% of Revenue	2005 (Dollars in thousands)	% of Revenue	\$ Change	% Change
Operating Expenses						
Correctional and Detention Facilities	\$ 140,762	67.5%	\$ 117,165	76.8%	\$ 23,597	20.1%
Other	31,653	15.1%	11,552	7.5%	20,101	174.0%
Total	\$ 172,415	82.6%	\$ 128,717	84.3%	\$ 43,698	33.9%

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and mental health facilities. The increase in operating expenses primarily reflects the acquisition of CSC in

November 2005. The increase in operating expenses also relates to the New Castle Correctional Facility, opened in January 2006, as well as general increases in labor costs and utilities. Operating expenses as a percentage of revenues decreased slightly in Second Quarter 2006 compared to Second Quarter 2005 due to higher occupancy and higher margins in certain facilities, such as San Diego, as well as the overall increase in revenue during the Second Quarter 2006.

Other

Other primarily consists of revenues and related operating expenses associated with our mental health/residential treatment and construction businesses. There was an increase in revenue of \$7.6 million in our mental health/residential treatment business primarily related to revenue from two new facilities, the South Florida Evaluation & Treatment Center in Miami, Florida and the Fort Bayard Medical Center in Fort Bayard, New Mexico. There was also an increase in revenue in our construction business of approximately \$14.5 million in Second Quarter 2006 as compared to Second Quarter 2005. The construction revenue is related to our expansion of

Table of Contents

the Moore Haven Facility and the new construction of the Graceville Facility, two facilities which we manage. Furthermore, approximately \$13.3 million of operating expenses relates to the construction of the Graceville Facility. Offsetting this increase was the completion of the expansion of South Bay at the end of the second quarter of 2005, which represented \$3.0 million of construction revenue during the thirteen week period ending July 3, 2005.

Table of Contents**Other Unallocated Operating Expenses
General and Administrative Expenses**

	2006	% of Revenue	2005	% of Revenue	\$ Change	% Change
	(Dollars in thousands)					
General & Administrative Expenses	\$14,292	6.8%	\$12,673	8.3%	\$1,619	12.8%

General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. General and administrative expenses increased by \$1.6 million in Second Quarter 2006 compared to Second Quarter 2005, however decreased slightly as a percentage of revenues due to the overall increase in revenue during Second Quarter 2006. The increase in general and administrative costs is mainly due to increases in direct labor costs of approximately \$2.1 million as a result of increased administrative staff and higher estimated annual bonus payments under the Company's incentive compensation plans due to an increase in earnings. There was also additional expense of \$0.3 million related to amortization of deferred compensation and expensing of stock options. These increases were offset by a \$0.7 million decrease in general corporate professional fees including legal and audit related expenses.

Non Operating Expenses**Interest Income and Interest Expense**

	2006	% of Revenue	2005	% of Revenue	\$ Change	% Change
	(Dollars in thousands)					
Interest Income	\$2,807	1.3%	\$2,347	1.5%	\$ 460	19.6%
Interest Expense	\$7,829	3.8%	\$5,340	3.5%	\$2,489	46.6%

The increase in interest income is primarily due to higher average invested cash balances. Interest income for 2006 and 2005 reflects income from interest rate swap agreements entered into September 2003 for our domestic operations, which increased interest income. The interest rate swap agreements in the aggregate notional amounts of \$50.0 million are hedges against the change in the fair value of a designated portion of our outstanding senior unsecured 8 1/4% notes, referred to as the Notes, due to changes in the underlying interest rates. The interest rate swap agreements have payment and expiration dates and call provisions that coincide with the terms of the Notes.

The increase in interest expense is primarily attributable to the increase in our debt as a result of the CSC acquisition, as well as the increase in LIBOR.

Provision (Benefit) for Income Taxes

	2006	% of Pre-tax	2005	% of Pre-tax
	(Dollars in thousands)			
Income Taxes	\$3,595	37.3%	\$(393)	(8.8)%

The income tax expense is based on an estimated annual effective tax rate for Second Quarter 2006 of 38% and was comparable to 39% in Second Quarter 2005. Additionally, during Second Quarter 2006 the Company received certain state income tax refunds that were not previously benefited, whereas during Second Quarter 2005 the Company recognized an additional tax benefit of \$1.7 million related to the American Jobs Creation Act of 2004.

Comparison of Twenty-six Weeks Ended July 2, 2006 and Twenty-six Weeks Ended July 3, 2005

	2006	% of Revenue	2005	% of Revenue	\$ Change	% Change
	(Dollars in thousands)					
Revenue	\$ 345,498	87.6%	\$ 278,057	92.4%	\$ 67,441	24.3%

Correctional and Detention Facilities Other	49,071	12.4%	22,821	7.6%	26,250	115.0%
Total	\$ 394,569	100.0%	\$ 300,878	100.0%	\$ 93,691	31.1%

Table of Contents

The increase in revenues in the twenty-six weeks ended July 2, 2006 (First Half 2006) compared to the twenty-six weeks ended July 3, 2005 (First Half 2005) is primarily attributable to five items: (i) the acquisition in November 2005 of Correctional Services Corporation, referred to as CSC, increased revenues by \$56.8 million; (ii) revenues increased approximately \$5.7 million in First Half 2006 as a result of the New Castle Correctional Facility in New Castle, Indiana, which we began managing in January 2006; (iii) Australian and South African revenues decreased approximately \$1.7 million and \$1.1 million, respectively. The weakening of the Australian dollar and South African Rand resulted in a decrease of \$1.7 million, while lower occupancy rates accounted for a decrease of \$1.1 million; (iv) revenues decreased approximately \$9.3 million in First Half 2006 as a result of the Michigan Correctional Facility contract termination; and (v) domestic revenues also increased due to contractual adjustments for inflation, and improved terms negotiated into a number of contracts.

The number of compensated resident days in domestic facilities increased to 6.7 million in First Half 2006 from 5.3 million in First Half 2005 due to the additional capacity of the acquired CSC facilities of 1.1 million.

Compensated resident days in Australian and South African facilities during First Half 2006 remained consistent at 1.0 million for the comparable periods. We look at the average occupancy in our facilities to determine how we are managing our available beds. The average occupancy is calculated by taking compensated mandays as a percentage of capacity. The average occupancy in our domestic, Australian and South African facilities combined was 96.4% of capacity in First Half 2006 compared to 99.2% in First Half 2005, excluding our vacant Michigan and Jena facilities.

	2006	% of Revenue	2005 (Dollars in thousands)	% of Revenue	\$ Change	% Change
Operating Expenses						
Correctional and Detention Facilities	\$ 279,687	70.9%	\$ 231,227	76.9%	\$ 48,460	21.0%
Other	46,474	11.8%	23,303	7.7%	23,171	99.4%
Total	\$ 326,161	82.7%	\$ 254,530	84.6%	\$ 71,631	28.1%

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and mental health facilities. The increase in operating expenses primarily reflects the acquisition of CSC. The increase in operating expenses relates to the New Castle Correctional Facility, opened in January 2006, as well as general increases in labor costs and utilities. Operating expenses as a percentage of revenues decreased slightly in First Half 2006 compared to First Half 2005 due to higher occupancy and higher margins in certain facilities, such as San Diego, as well as the overall increase in revenue during the First Half 2006.

Other

Other primarily consists of revenues and related operating expenses associated with our mental health/residential treatment and construction businesses. There was an increase in revenue of \$14.6 million in our mental health/residential treatment business primarily related to revenue from two new facilities, the South Florida Evaluation & Treatment Center in Miami, Florida and the Fort Bayard Medical Center in Fort Bayard, New Mexico. There was also an increase in revenue in our construction business of approximately \$11.6 million in First Half 2006 as compared to First Half 2005. The construction revenue is related to our expansion of the Moore Haven Facility and the new construction of the Graceville Facility, two facilities which we are under contract to manage. Furthermore, approximately \$13.3 million of operating expenses relates to the construction of the Graceville Facility. Offsetting this increase was the completion of the expansion of South Bay at the end of the second quarter of 2005, which represented \$7.0 million of construction revenue during the thirteen week period ending July 3, 2005.

Table of Contents**Other Unallocated Operating Expenses
General and Administrative Expenses**

	2006	% of Revenue	2005	% of Revenue	\$ Change	% Change
	(Dollars in thousands)					
General & Administrative Expenses	\$28,301	7.2%	\$24,074	8.0%	\$4,227	17.6%

General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. General and administrative expenses increased by \$4.2 million in First Half 2006 compared to First Half 2005, however decreased slightly as a percentage of revenues due to the overall increase in revenue during First Half 2006. The increase in general and administrative costs is mainly due to increases in direct labor costs of approximately \$3.1 million as a result of increased headcount of administrative staff and higher estimated annual bonus payments under the Company's incentive compensation plans due to an increase in earnings. There was also additional expense of \$0.5 million related to amortization of deferred compensation and expensing of stock options. These increases were offset by a \$0.4 million decrease in general corporate professional fees including legal and audit related expenses.

Non Operating Expenses**Interest Income and Interest Expense**

	2006	% of Revenue	2005	% of Revenue	\$ Change	% Change
	(Dollars in thousands)

Interest Expense	\$15,408	3.9%	\$10,794	3.6%	\$4,614	42.7%

The increase in interest income is primarily due to higher average invested cash balances. Interest income for 2006 and 2005 reflects income from interest rate swap agreements entered into September 2003 for our domestic operations, which increased interest income. The interest rate swap agreements in the aggregate notional amounts of \$50.0 million are hedges against the change in the fair value of a designated portion of our outstanding senior unsecured 8 1/4% notes, referred to as the Notes, due to changes in the underlying interest rates. The interest rate swap agreements have payment and expiration dates and call provisions that coincide with the terms of the Notes. The increase in interest expense is primarily attributable to the increase in our debt as a result of the CSC acquisition, as well as the increase in LIBOR.

Provision for Income Taxes

	2006	% of Pre-tax	2005	% of Pre-tax
	(Dollars in thousands)			
Income Taxes	\$6,288	37.6%	\$1,330	15.3%

The income tax expense is based on an estimated effective annual tax rate for First Half 2006 of 38% and was comparable to 39% in First Half 2005. Additionally, during First Half 2006 the Company received certain state income tax refunds that were not previously benefited, whereas during the First Half 2005 the Company recognized an additional tax benefit of \$1.7 million related to the American Jobs Creation Act of 2004.

Liquidity and Capital Resources

Current cash requirements consist of amounts needed for working capital, debt service, capital expenditures, supply purchases and investments in joint ventures. Our primary source of liquidity to meet these requirements is cash flow from operations and borrowings under the \$100.0 million revolving portion of our Senior Credit Facility. As of July 2, 2006, we had \$53.7 million available for borrowing under the revolving portion of the Senior Credit Facility. We incurred substantial indebtedness in connection with the acquisition of CSC on November 4, 2005 and the share purchase in 2003.

Table of Contents

As of July 2, 2006, we had \$150.4 million of consolidated debt outstanding, excluding \$142.2 million of non-recourse debt. As of July 2, 2006, we also had outstanding seven letters of guarantee totaling approximately \$5.6 million under separate international credit facilities. Our significant debt service obligations could, under certain circumstances, have material consequences. See *Risk Factors – Risks Related to Our High Level of Indebtedness* in our Form 10-K for the year ended January 1, 2006 filed on March 17, 2006. However, our management believes that cash on hand, cash flows from operations and borrowings available under our Senior Credit Facility will be adequate to support currently planned business expansion and various obligations incurred in the operation of our business, both on a near and long-term basis.

In the future, our access to capital and ability to compete for future capital-intensive projects will be dependent upon, among other things, our ability to meet certain financial covenants in the indenture governing the Notes and in our Senior Credit Facility. A substantial decline in our financial performance could limit our access to capital and have a material adverse affect on our liquidity and capital resources and, as a result, on our financial condition and results of operations.

Our business requires us to make various capital expenditures from time to time, including expenditures related to the development of new correctional, detention and/or mental health facilities. In addition, some of our management contracts require us to make substantial initial expenditures of cash in connection with opening or renovating a facility. Generally, these initial expenditures are subsequently fully or partially recoverable as pass-through costs or are billable as a component of the per diem rates or monthly fixed fees to the contracting agency over the original term of the contract. However, we cannot assure you that any of these expenditures will, if made, be recovered. Based on current estimates of our capital needs, we anticipate that our capital expenditures will be in the range of \$38 million to \$42 million during the next 12 months, including approximately \$28 million for the expansion of our Val Verde facility. We plan to fund these capital expenditures from cash from operations and/or borrowings under the Senior Credit Facility.

We have entered into individual executive retirement agreements with our CEO and Chairman, President and Vice Chairman, and Chief Financial Officer. These agreements provide each executive with a lump sum payment upon retirement. Under the agreements, each executive may retire at any time after reaching the age of 55. Each of the executives reached the eligible retirement age of 55 in 2005. None of the executives has indicated their intent to retire as of this time. However, under the retirement agreements, retirement may be taken at any time at the individual executive's discretion. In the event that all three executives were to retire in the same year, we believe we will have funds available to pay the retirement obligations from various sources, including cash on hand, operating cash flows or borrowings under our revolving credit facility. Based on our current capitalization, we do not believe that making these payments in any one period, whether in separate installments or in the aggregate, would materially adversely impact our liquidity.

The Senior Credit Facility

On September 14, 2005, we amended and restated our Senior Credit Facility, to consist of a \$75 million, six-year term-loan bearing interest at LIBOR plus 2.00%, and a \$100 million, five-year revolving credit facility bearing interest at LIBOR plus 2.00%. We used the borrowings under the Senior Credit Facility to fund general corporate purposes and to finance the acquisition of CSC for approximately \$62 million plus transaction-related costs. The acquisition of CSC closed in the fourth quarter of 2005. On June 13, 2006, we used approximately \$74.6 million of the proceeds of the equity offering (see Note 2 Capital Stock) to repay all outstanding debt under our term loan portion of our senior secured credit facility. We wrote-off approximately \$1.3 million in deferred financing fees related to this extinguishment of debt. As of July 2, 2006, we had no borrowings outstanding under the term loan portion of the Senior Credit Facility, no amounts outstanding under the revolving portion of the Senior Credit Facility, and \$46.3 million outstanding in letters of credit under the revolving portion of the Senior Credit Facility. As of July 2, 2006 we had \$53.7 million available for borrowings under the revolving portion of the Senior Credit Facility.

Senior 8 1/4% Notes

To facilitate the completion of the purchase of the 12 million shares from Group 4 Falck, our former majority shareholder, we issued \$150.0 million aggregate principal amount, ten-year, 8 1/4% senior unsecured notes, which we refer to as the Notes. The Notes are general, unsecured, senior obligations of ours. Interest is payable semi-annually on

January 15 and July 15 at 8 1/4%. The Notes are governed by the terms of an Indenture, dated July 9, 2003, between us and the Bank of New York, as trustee, referred to as the Indenture.

Non-Recourse Debt

South Texas Detention Complex:

Table of Contents

In February 2004, CSC was awarded a contract by ICE to develop and operate a 1,020 bed detention complex in Frio County Texas. STLDC was created and issued \$49.5 million in taxable revenue bonds to finance the construction of the detention center. Additionally, CSC provided a \$5.0 million subordinated note to STLDC for initial development. We determined that we are the primary beneficiary of STLDC and consolidate the entity as a result. STLDC is the owner of the complex and entered into a development agreement with CSC to oversee the development of the complex. In addition, STLDC entered into an operating agreement providing CSC the sole and exclusive right to operate and manage the complex. The operating agreement and bond indenture require the revenue from CSC's contract with ICE be used to fund the periodic debt service requirements as they become due. The net revenues, if any, after various expenses such as trustee fees, property taxes and insurance premiums are distributed to CSC to cover CSC's operating expenses and management fee. CSC is responsible for the entire operations of the facility including all operating expenses and is required to pay all operating expenses whether or not there are sufficient revenues. STLDC has no liabilities resulting from its ownership. The bonds have a ten year term and are non-recourse to CSC and STLDC. The bonds are fully insured and the sole source of payment for the bonds is the operating revenues of the center.

Included in non-current restricted cash equivalents and investments is \$9.2 million as of July 2, 2006 as funds held in trust with respect to the STLDC for debt service and other reserves.

Northwest Detention Center

On June 30, 2003 CSC arranged financing for the construction of the Northwest Detention Center in Tacoma, Washington, referred to as the Northwest Detention Center, which CSC completed and opened for operation in April 2004. In connection with this financing, CSC of Tacoma LLC, a wholly owned subsidiary of CSC, issued a \$57 million note payable to the Washington Economic Development Finance Authority, referred to as WEDFA, an instrumentality of the State of Washington, which issued revenue bonds and subsequently loaned the proceeds of the bond issuance to CSC of Tacoma LLC for the purposes of constructing the Northwest Detention Center. The bonds are non-recourse to CSC and the loan from WEDFA to CSC of Tacoma, LLC is non-recourse to CSC.

The proceeds of the loan were disbursed into escrow accounts held in trust to be used to pay the issuance costs for the revenue bonds, to construct the Northwest Detention Center and to establish debt service and other reserves.

Included in non-current restricted cash equivalents and investments is \$4.6 million as of July 2, 2006 as funds held in trust with respect to the Northwest Detention Center for debt service and other reserves.

Australia

In connection with the financing and management of one Australian facility, our wholly owned Australian subsidiary financed the facility's development and subsequent expansion in 2003 with long-term debt obligations, which are non-recourse to us. We have consolidated the subsidiary's direct finance lease receivable from the state government and related non-recourse debt each totaling approximately \$40.0 million and \$40.3 million as of July 2, 2006 and January 1, 2006, respectively. As a condition of the loan, we are required to maintain a restricted cash balance of AUD 5.0 million, which, at July 2, 2006, was approximately \$3.7 million. The term of the non-recourse debt is through 2017 and it bears interest at a variable rate quoted by certain Australian banks plus 140 basis points. Any obligations or liabilities of the subsidiary are matched by a similar or corresponding commitment from the government of the State of Victoria.

Guarantees

In connection with the creation of South African Custodial Services Ltd., referred to as SACS, we entered into certain guarantees related to the financing, construction and operation of the prison. We guaranteed certain obligations of SACS under its debt agreements up to a maximum amount of 60.0 million South African Rand, or approximately \$8.4 million, to SACS's senior lenders through the issuance of letters of credit. Additionally, SACS is required to fund a restricted account for the payment of certain costs in the event of contract termination. We have guaranteed the payment of 50% of amounts which may be payable by SACS into the restricted account and provided a standby letter of credit of 6.5 million South African Rand, or approximately \$0.9 million, as security for our guarantee. Our obligations under this guarantee expire upon the release from SACS of its obligations in respect of the restricted account under its debt agreements. No amounts have been drawn against these letters of credit, which are included in our outstanding letters of credit under the revolving loan portion of our Senior Credit Facility.

We have agreed to provide a loan, if necessary, of up to 20.0 million South African Rand, or approximately \$2.8 million, referred to as the Standby Facility, to SACS for the purpose of financing the obligations under the contract between SACS and the South African

Table of Contents

government. No amounts have been funded under the Standby Facility, and we do not currently anticipate that such funding will be required by SACS in the future. Our obligations under the Standby Facility expire upon the earlier of full funding or release from SACS of its obligations under its debt agreements. The lenders' ability to draw on the Standby Facility is limited to certain circumstances, including termination of the contract.

We have also guaranteed certain obligations of SACS to the security trustee for SACS lenders. We have secured our guarantee to the security trustee by ceding our rights to claims against SACS in respect of any loans or other finance agreements, and by pledging our shares in SACS. Our liability under the guarantee is limited to the cession and pledge of shares. The guarantee expires upon expiration of the cession and pledge agreements.

In connection with a design, build, finance and maintenance contract for a facility in Canada, we guaranteed certain potential tax obligations of a not-for-profit entity. The potential estimated exposure of these obligations is CAN\$2.5 million, or approximately \$2.2 million commencing in 2017. We have a liability of \$0.6 million related to this exposure as of July 2, 2006 and January 1, 2006. To secure this guarantee, we purchased Canadian dollar denominated securities with maturities matched to the estimated tax obligations in 2017 to 2021. We have recorded an asset and a liability equal to the current fair market value of those securities on our balance sheet. We do not currently operate or manage this facility.

At July 2, 2006, we also had outstanding seven letters of guarantee totaling approximately \$5.6 million under separate international facilities. We do not have any off balance sheet arrangements.

Derivatives

Effective September 18, 2003, we entered into interest rate swap agreements in the aggregate notional amount of \$50.0 million. We have designated the swaps as hedges against changes in the fair value of a designated portion of the Notes due to changes in underlying interest rates. Changes in the fair value of the interest rate swaps are recorded in earnings along with related designated changes in the value of the Notes. The agreements, which have payment and expiration dates and call provisions that coincide with the terms of the Notes, effectively convert \$50.0 million of the Notes into variable rate obligations. Under the agreements, we receive a fixed interest rate payment from the financial counterparties to the agreements equal to 8.25% per year calculated on the notional \$50.0 million amount, while we make a variable interest rate payment to the same counterparties equal to the six-month LIBOR plus a fixed margin of 3.45%, also calculated on the notional \$50.0 million amount. As of July 2, 2006 and January 1, 2006, the fair value of the swaps totaled approximately \$(3.0) million and \$(1.1) million, respectively, and is included in other non-current assets and other non-current liabilities in the accompanying balance sheets. There was no material ineffectiveness of our interest rate swaps for the period ended July 2, 2006.

Our Australian subsidiary is a party to an interest rate swap agreement to fix the interest rate on the variable rate non-recourse debt to 9.7%. We have determined the swap to be an effective cash flow hedge. Accordingly, we record the value of the interest rate swap in accumulated other comprehensive income, net of applicable income taxes. The total value of the swap liability as of July 2, 2006 and January 1, 2006 was approximately \$1.6 million and \$0.4 million, respectively, and is recorded as a component of other liabilities in the accompanying consolidated financial statements. There was no material ineffectiveness of the interest rate swaps for the fiscal years presented. We do not expect to enter into any transactions during the next twelve months which will result in the reclassification into earnings of gains or losses associated with this swap that are currently reported in accumulated other comprehensive loss.

Cash Flows

Cash and cash equivalents as of July 2, 2006 were \$98.7 million, an increase of \$41.6 million from January 1, 2006. Cash provided by operating activities of continuing operations amounted to \$32.0 million in the First Half 2006 versus cash provided by operating activities of continuing operations of \$0.1 million in the First Half 2005. Cash provided by operating activities of continuing operations in First Half 2006 was positively impacted by an increase in accounts payable and accrued payroll and a decrease in other current assets. Cash provided by operating activities of continuing operations in First Half 2006 was negatively impacted by an increase in accounts receivable and deferred revenue. Cash provided by operating activities of continuing operations in First Half 2005 was positively impacted by an increase in other assets and other liabilities. Cash provided by operating activities of continuing operations in First Half 2005 was negatively impacted by an increase in accounts receivable and other current assets and a decrease in

accounts payable and accrued expenses.

Cash used in investing activities amounted to \$18.2 million in the First Half 2006 compared to cash provided by investing activities of

Table of Contents

\$5.8 million in the First Half 2005. Cash used in investing activities in the First Half 2006 reflects capital expenditures of \$13.8 million and a decrease in restricted cash. Cash provided by investing activities in the First Half 2005 reflect sales of short term investments of \$39.0 million and purchases of short term investments of \$29.0 million. Capital expenditures for the First Half 2005 amounted to \$4.2 million.

Cash provided by financing activities in the First Half 2006 amounted to \$27.6 million compared to cash used in financing activities of \$11.6 million in the First Half 2005. Cash provided by financing activities in the First Half 2006 reflects proceeds received from an equity offering of \$99.9 million and proceeds received from the exercise of stock options of \$2.6 million. Cash used by financing activities in the First Half 2006 related to payments on long-term debt of \$75.7 million. Cash used in financing activities in the First Half 2005 reflect payments on long-term debt of \$12.3 million and proceeds received from the exercise of stock options of \$0.6 million.

Outlook

The following discussion of our future performance contains statements that are not historical statements and, therefore, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Our forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those stated or implied in the forward-looking statement. Please refer to Item 1A. Risk Factors in our Annual Report on Form 10-K, the Forward-Looking Statements Safe Harbor, as well as the other disclosures contained in our Annual Report on Form 10-K, for further discussion on forward-looking statements and the risks and other factors that could prevent us from achieving our goals and cause the assumptions underlying the forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements.

Revenue

Domestically, we continue to be encouraged by the number of opportunities that have recently developed in the privatized corrections and detention industry. The need for additional bed space at the federal, state and local levels has been as strong as it has been at any time during recent years, and we currently expect that trend to continue for the foreseeable future. Overcrowding at corrections facilities in various states and increased demand for bed space at federal prisons and detention facilities primarily resulting from government initiatives to improve immigration security are two of the factors that have contributed to the greater number of opportunities for privatization. We plan to actively bid on any new projects that fit our target profile for profitability and operational risk. Although we are pleased with the overall industry outlook, positive trends in the industry may be offset by several factors, including budgetary constraints, unanticipated contract terminations and contract non-renewals. In Michigan, the State recently cancelled our Michigan Facility management contract based upon the Governor's veto of funding for the project. Although we do not expect this termination to represent a trend, any future unexpected terminations of our existing management contracts could have a material adverse impact on our revenues. Additionally, several of our management contracts are up for renewal and/or re-bid in 2006. Although we have historically had a relatively high contract renewal rate, there can be no assurance that we will be able to renew our management contracts scheduled to expire in 2006 on favorable terms, or at all. Further, it is not possible to accurately predict the continued high level of interest in, or willingness of the federal government to fund, increased security at our country's borders.

Internationally, in the United Kingdom, we recently won our first contract since re-establishing operations. We believe that additional opportunities will become available in that market and plan to actively bid on any opportunities that fit our target profile for profitability and operational risk. In South Africa, we continue to promote government procurements for the private development and operation of one or more correctional facilities in the near future. We expect to bid on any suitable opportunities.

With respect to our mental health/residential treatment services business conducted through our wholly-owned subsidiary, GEO Care, Inc., we are currently pursuing a number of business development opportunities. In addition, we continue to expend resources on informing state and local governments about the benefits of privatization and we anticipate that there will be new opportunities in the future as those efforts begin to yield results. We believe we are well positioned to capitalize on any suitable opportunities that become available in this area.

Operating Expenses

Operating expenses consist of those expenses incurred in the operation and management of our correctional, detention and mental health facilities. In 2005, operating expenses totaled approximately 88.1% of our consolidated revenues. Our operating expenses as a percentage of revenue in 2006 will be impacted by several factors. First, we could experience continued savings under our general

Table of Contents

liability, auto liability and workers compensation insurance program, although the amount of these potential savings cannot be predicted. These savings, which totaled \$3.4 million in fiscal year 2005 and are now reflected in our current actuarial projections are a result of improved claims experience and loss development as compared to our results under our prior insurance program. Second, we may experience a reduction in employee healthcare costs following adjustments to our employee healthcare program in November 2005 intended to reduce costs relating to additional claims expense and increased reserve requirements. These potential reductions in operating expenses may be offset by increased start-up expenses relating to a number of new projects which we are developing, including our new Graceville prison and Moore Haven expansion project in Florida, our proposed Clayton facility in New Mexico, our Lawton, Oklahoma prison expansion and our Florence West expansion project in Arizona. Overall, excluding start-up expenses, we anticipate that operating expenses as a percentage of our revenue will remain relatively flat, consistent with our historical performance.

Table of Contents

With respect to our future lease expense, we intend to restructure our relationship with CPV, now known as CentraCore Properties Trust, from whom we lease eleven facilities. In 1998, the original need for our sponsorship and creation of CPV was to provide us with a means to source capital for the development of new correctional and detention facilities. This need was prompted by the fact that TWC, our former parent company at the time, would not allow us to issue stock or incur indebtedness in order to finance our growth.

Presently, as a fully independent public company, we believe that we have a number of avenues available to us to raise capital for the development of new facilities, including the equity markets, bank debt, corporate bonds and government sponsored, non-recourse bonds similar to those involved in several of our new facilities under development. All of these financial avenues currently provide a lower cost of capital than our present lease rates with CPV, which are approximately 12 percent at this time. Accordingly, we believe that we have a duty to our shareholders to seek the most cost-effective available sources of capital in order to best manage and grow the company. That duty has led us to make a number of decisions.

Our first decision is to not renew GEO's 15-year Right to Purchase Agreement with CPV when it expires in 2013, thus eliminating our obligation to provide CPV with the right to acquire future company-owned facilities that are covered by that agreement. Second, we do not anticipate developing any new projects using CPV financing. We expect that for the foreseeable future we will be able to achieve a lower cost of capital by accessing development capital through government sponsored, non-recourse bond financing or other third party financing. Third, with regard to the Jena, Louisiana facility, unless we find a new client in the very near future allowing us to reactivate the facility on a profitable basis, we will not renew that lease, which is scheduled to expire in January 2010, and we will no longer be required to make the annual lease payment of approximately \$2.1 million dollars after that date.

Fourth, with respect to the other ten facilities that we lease from CPV, seven of those leases expire in April 2008, referred to as the Expiring Leases. We have until late October 2007 to exercise our option, in our discretion, to renew each of the Expiring Leases for an additional five-year term. We are under no obligation to renew any or all of the Expiring Leases, and may renew some of the Expiring Leases without renewing others. If we opt to renew any of the Expiring Leases, the Expiring Leases will be renewed on identical terms, except that the rental rate will be equal to the fair market rental value of the facility being renewed, as mutually agreed to by us and CPT or, in the absence of such an agreement, as determined through binding arbitration.

We have acquired property in close proximity to several of the properties leased from CPV and are researching available sites near the other CPV leased properties. These steps have put us in a position to conduct a comprehensive review of government sponsored, non-recourse financing and third-party ownership alternatives that may be available to us with respect to the Expiring Leases. It is possible that we may elect to not exercise our exclusive option to renew certain of the Expiring Leases upon their expiration in favor of the construction and development through government sponsored, non-recourse bonds or other third party financing of new replacement facilities in close proximity to the facilities covered by the Expiring Leases. In such cases, with our customers' approval, we would transition our contracted inmate population to the new facilities prior to the expiration of the Expiring Leases in April 2008.

We believe that these decisions with respect to our relationship with CPV will best serve our shareholders' interests and allow us to better manage and grow our company by accessing the lowest cost of capital available to us.

General and Administrative Expenses

General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. We have recently incurred increasing general and administrative costs including increased costs associated with increases in business development costs, professional fees and travel costs, primarily relating to our mental health/residential treatment services business. We expect this trend to continue as we pursue additional business development opportunities in all of our business lines and build the corporate infrastructure necessary to support our mental health/residential treatment services business. We also plan to continue expending resources on the evaluation of potential acquisition targets.

Recent Accounting Developments

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation Number 48 (FIN 48),

Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109. The interpretation contains a two step approach to recognizing and measuring uncertain tax positions accounted for in accordance with

SFAS No. 109. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount which is more than 50% likely of being realized upon ultimate settlement. The interpretation is effective

Table of Contents

for fiscal years beginning after December 15, 2006. We have not yet analyzed the impact this interpretation will have on our financial condition, results of operations, cash flows or disclosures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK*Interest Rate Risk*

We are exposed to market risks related to changes in interest rates with respect to our Senior Credit Facility. Payments under the Senior Credit Facility are indexed to a variable interest rate. As of July 2, 2006, there were no amounts outstanding, as we used approximately \$74.6 million of the proceeds of the equity offering to repay all outstanding debt under our term loan portion of our senior secured credit facility.

Effective September 18, 2003, we entered into interest rate swap agreements in the aggregate notional amount of \$50.0 million. We have designated the swaps as hedges against changes in the fair value of a designated portion of the Notes due to changes in underlying interest rates. Changes in the fair value of the interest rate swaps are recorded in earnings along with related designated changes in the value of the Notes. The agreements, which have payment and expiration dates and call provisions that coincide with the terms of the Notes, effectively convert \$50.0 million of the Notes into variable rate obligations. Under the agreements, we receive a fixed interest rate payment from the financial counterparties to the agreements equal to 8.25% per year calculated on the notional \$50.0 million amount, while we make a variable interest rate payment to the same counterparties equal to the six-month LIBOR plus a fixed margin of 3.45%, also calculated on the notional \$50.0 million amount. Additionally, for every one percent increase in the interest rate applicable to the \$50.0 million swap agreements on the Notes described above, our total annual interest expense will increase by \$0.5 million.

We have entered into certain interest rate swap arrangements for hedging purposes, fixing the interest rate on our Australian non-recourse debt to 9.7%. The difference between the floating rate and the swap rate on these instruments is recognized in interest expense within the respective entity. Because the interest rates with respect to these instruments are fixed, a hypothetical 100 basis point change in the current interest rate would not have a material impact on our financial condition or results of operations.

Foreign Currency Exchange Rate Risk

We are also exposed to market risks, related to fluctuations in foreign currency exchange rates between the U.S. dollar and the Australian dollar and the South African rand and the U.K. pound currency exchange rates. Based upon our foreign currency exchange rate exposure at July 2, 2006, every 10 percent change in historical currency rates would have approximately a \$2.5 million effect on our financial position and approximately a \$0.4 million impact on our results of operations over the next fiscal year.

Additionally, we invest our cash in a variety of short-term financial instruments to provide a return. These instruments generally consist of highly liquid investments with original maturities at the date of purchase of three months or less. While these instruments are subject to interest rate risk, a hypothetical 100 basis point increase or decrease in market interest rates would not have a material impact on our financial condition or results of operations.

ITEM 4. CONTROLS AND PROCEDURES**(a) Disclosure Controls and Procedures.**

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, referred to as the Exchange Act), as of the end of the period covered by this report. On the basis of this review, our management, including our Chief Executive Officer and our Chief Financial Officer, has concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective to give reasonable assurance that the information required to be disclosed in our reports filed with the Securities and Exchange Commission, or the SEC, under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and to ensure that the information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

It should be noted that the effectiveness of our system of disclosure controls and procedures is subject to certain limitations inherent in

Table of Contents

any system of disclosure controls and procedures, including the exercise of judgment in designing, implementing and evaluating the controls and procedures, the assumptions used in identifying the likelihood of future events, and the inability to eliminate misconduct completely. Accordingly, there can be no assurance that our disclosure controls and procedures will detect all errors or fraud. As a result, by its nature, our system of disclosure controls and procedures can provide only reasonable assurance regarding management's control objectives.

(b) Internal Control Over Financial Reporting.

Our management is responsible to report any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management believes that there have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

THE GEO GROUP, INC.**PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

In June 2004, we received notice of a third-party claim for property damage incurred during 2001 and 2002 at several detention facilities that our Australian subsidiary formerly operated. The claim relates to property damage caused by detainees at the detention facilities. The notice was given by the Australian government's insurance provider and did not specify the amount of damages being sought. In May 2005, we received additional correspondence indicating that the insurance provider still intends to pursue the claim against our Australian subsidiary. Although the claim is in the initial stages and we are still in the process of fully evaluating its merits, we believe that we have defenses to the allegations underlying the claim and intend to vigorously defend our rights with respect to this matter. However, although the insurance provider has not quantified its damage claim and the outcome of this matter cannot be predicted with certainty, based on information known to date, and our preliminary review of the claim, we believe that, if settled unfavorably, this matter could have a material adverse effect on our financial condition, results of operations and cash flows. We are uninsured for any damages or costs that we may incur as a result of this claim, including the expenses of defending the claim. We have accrued a reserve related to the claim based on our estimate of the most probable amount of costs that may be incurred based on the facts and circumstances known to date and the advice of our legal counsel.

On May 19, 2006, we, along with Corrections Corporation of America, referred to as CCA, were sued by an individual plaintiff in the Circuit Court of the Second Judicial Circuit for Leon County, Florida (Case No. 2005CA001884). The complaint alleges that, during the period from 1995 to 2004, we and CCA overbilled the State of Florida by an amount of at least \$12,700,000 by submitting to the State false claims for various items relating to (i) repairs, maintenance and improvements to certain facilities which we operate in Florida, (ii) our staffing patterns in filling vacant security positions at those facilities, and (iii) our alleged failure to meet the conditions of certain waivers granted to us by the State of Florida from the payment of liquidated damages penalties relating to our staffing patterns at those facilities. The portion of the complaint relating to us arises out of our operations at our South Bay and Moore Haven correctional facilities. The complaint appears to be based largely on the same set of issues raised by a Florida Inspector General's Evaluation Report released in late June 2005, referred to as the IG Report, which alleged that we and CCA overbilled the State of Florida by over \$12 million.

Subsequently, the Florida Department of Management Services, referred to as the DMS, which is responsible for administering our correctional contracts with the State of Florida, conducted a detailed analysis of the allegations raised by the IG Report which included a comprehensive written response to the IG Report which we had prepared and delivered to the DMS. In September 2005, the DMS provided a letter to us stating that, although its review had not yet been fully completed, it did not find any indication of any improper conduct by GEO. Although this determination is not dispositive of the recently initiated litigation, we believe it supports our position that we have valid defenses in this matter. We will continue to investigate this matter and intend to defend our rights vigorously. However, given the amounts claimed by the plaintiff and the fact that the nature of the allegations could cause adverse

publicity to us, we believe that this matter, if settled unfavorably to us, could have a material adverse effect on our financial condition and results of operations.

The nature of our business exposes us to various types of claims or litigation against us, including, but not limited to, civil rights

Table of Contents

claims relating to conditions of confinement and/or mistreatment, sexual misconduct claims brought by prisoners or detainees, medical malpractice claims, claims relating to employment matters (including, but not limited to, employment discrimination claims, union grievances and wage and hour claims), property loss claims, environmental claims, automobile liability claims, indemnification claims by our customers and other third parties, contractual claims and claims for personal injury or other damages resulting from contact with our facilities, programs, personnel or prisoners, including damages arising from a prisoner's escape or from a disturbance or riot at a facility. Except as otherwise disclosed above, we do not expect the outcome of any pending claims or legal proceedings to have a material adverse effect on our financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

Other than as set forth below, during the twenty-six weeks ended July 2, 2006, there were no material changes to the risk factors previously disclosed in our Form 10-K, for the year ended January 1, 2006, filed on March 17, 2006.

The restructuring of our relationship with CPV may have material adverse consequences.

We recently announced our intention to restructure our relationship with CPV, from whom we lease eleven of our correctional and detention facilities, in an effort to reduce our cost of capital for those facilities. At the same time, we announced several key decisions that we have made with respect to our relationship with CPV. For a detailed discussion of those decisions, see Management's Discussion and Analysis of Financial Condition and Results of Operations Outlook Operating Expenses.

The restructuring of our relationship poses several risks. First, with respect to seven of our leases with CPV which are scheduled to expire in April 2008, referred to as the Expiring Leases, we are in the process of conducting a comprehensive review of the possibility of developing replacement facilities in close proximity to the facilities covered by the Expiring Leases as a potential alternative to exercising our exclusive option to renew the Expiring Leases. We may not be able to successfully develop replacement facilities acceptable to our government customers in sites proximate to those covered by the Expiring Leases. If we do not develop replacement facilities, we may be forced to renew some or all of the Expiring Leases, potentially on terms less favorable to us than currently apply, which could have a dilutive impact on our earnings. Even if we are able to successfully develop replacement facilities, we cannot assure that such development will be completed prior to the expiration of the Expiring Leases, or at a cost of capital that is lower than that which CPV currently provides us. Further, if we opt not to renew some or all of the Expiring Leases, CPV may lease the facilities we vacate to our competitors or directly to some of our government customers, which may cause us to either lose some of our facility management contracts or to reduce our margins in order to retain contracts.

With respect to the Right to Purchase Agreement between us and CPV, CPV has claimed that the agreement gives it the right to acquire certain of the facilities now under our management as a result of the CSC acquisition. We do not believe that the Right to Purchase Agreement gives CPV the right to acquire any of the facilities involved in the CSC acquisition and intend to vigorously defend our rights with respect to those facilities. Nevertheless, in the event that CPV were to successfully establish a claim to those facilities, or to any other facilities that we may operate in the future, we may be forced to sell and lease back such facilities from CPV. Any such leasebacks could be completed at rates that are higher than those which we currently pay to use the same facilities. Any future sale/leaseback transactions with CPV at higher than then prevailing market rates or our then current costs could have a material adverse impact on financial condition and our results of operations. The restructuring of our relationship with CPV could also have unintended consequences, including causing litigation between us and CPV, which could be costly and have a negative impact on our stock price.
